**ARTICLE 1:
NAME, BOUNDARIES, POWERS, RIGHTS AND SUCCESSION,
INTERGOVERNMENTAL RELATIONS**

Section 100. Name and Boundaries

The City of San Bernardino, hereinafter termed the City, shall continue to be a municipal corporation under its present name of "City of San Bernardino." The boundaries of the City shall be as now established until changed in the manner authorized by law.

Section 101. Powers of the City

The City shall have all powers possible for a city to have under the constitution and laws of the State of California as fully and completely as though they were specifically enumerated in this Charter.

Section 102. Interpretation of Powers

The powers of the City under this Charter shall be construed in favor of the City, and the specific mention of particular powers in the Charter shall not be interpreted as limiting in any way the general power granted in this article.

Section 103. Rights and Succession

The City shall continue to own, possess and control all rights and property of every kind and nature, owned, possessed or controlled by it at the time this Charter takes effect and shall be subject to all of its debts, obligations and liabilities.

All ordinances, codes, resolutions, rules, regulations, and portions thereof, in force at the time this Charter takes effect, and not in conflict or inconsistent with this Charter, shall continue in force until they shall have been duly repealed, amended, changed, or superseded by proper authority as provided by this Charter.

[Return to Municipal Code Contents]

Subject to the provisions of this Charter, the present officers and employees of the City shall continue to perform the duties of their respective offices and employments under the same conditions as those of the existing offices and positions until the election or appointment and qualification of their successors, subject to such removal and control as provided in this Charter.

No action or proceeding, civil or criminal, pending at the time this Charter takes effect, brought by or against the City or any officer, office, department or agency thereof, shall be affected or abated by the adoption of this Charter or anything herein contained.

Section 104. Intergovernmental Relations

The City may participate by contract or otherwise with any governmental entity of this state or any other state or states in the United States in the performance of any activity, which one or more of such entities has the authority to undertake, to the maximum extent permitted by applicable law.

ARTICLE II: FORM OF GOVERNMENT

Section 200. Form of Government

The municipal government established by this Charter is the council-manager form of government.

ARTICLE III: CITY COUNCIL AND MAYOR

Section 300. General Powers and Duties

All powers of the City shall be vested in the City Council ("Council"), and to the extent provided in this Charter, the Mayor. The Council shall provide for the exercise and performance of all duties and obligations imposed on the City by State and Federal laws.

Except as otherwise required by law, the role of the Council is legislative, which includes the power to set policy, approve contracts and agreements, and undertake other obligations consistent with this Charter and the City's Municipal Code, while deferring to the discretion of management to choose the appropriate means to achieve the Council's goals.

Section 301. Composition, Eligibility, and Terms

- (a) **Composition.** The Council shall be composed of seven (7) Council members. The term "Council," "legislative body," or other similar terms as used in this Charter or any other provisions of law shall be deemed to refer to the collective body composed of the Council members.

The Council, in collaboration with the Mayor, shall ensure fundamental municipal services are provided to protect and promote public health, safety, and welfare. The Council and Mayor shall operate together to serve the best interests of the City.

The Council, in collaboration with the Mayor, will develop and implement a Code of Conduct to guide and direct their interactions and duties, including measures to hold one another accountable for deviations from the goals and principles set forth in this Charter and the City Code of Conduct.

The Council, in collaboration with the Mayor, shall create and implement a plan to maintain the City's fiscal integrity.

Each Council member shall be entitled to vote on all matters coming before the Council. The Council shall have the power to override any veto of the Mayor by a vote of five (5) or more Council members.

The Council shall select a Mayor Pro Tempore from one of its own members. In the event of a temporary absence from the City, illness, or any other cause that makes the Mayor temporarily unable to perform the duties of his or her office, the Mayor Pro Tempore shall have all powers and authority that the Mayor would have possessed if present to perform his or her duties.

However, the Mayor Pro Tempore may not cast an additional vote in the event of a tie or exercise veto powers over Council action, but may continue to exercise his or her vote as a Council member.

Section 303. Powers and Duties of the Mayor

The Mayor shall have the following powers and perform the following duties, in addition to others as specified in this Charter:

- (h) Execute all ordinances, resolutions and contracts approved by the City Council except as otherwise authorized by the City Council.

The Mayor shall have no administrative, appointment or removal powers except as otherwise provided in this Charter.

The office of Mayor shall be a full-time position and the incumbent shall not engage in any business, professional or occupational activities that interfere with the discharge of the duties of the office.

Section 304. Manners of Action

Actions of the Council require a simple majority vote of the quorum present for approval unless:

- (a) Otherwise required for charter cities under State or Federal law; or
- (b) Required by this Charter to be approved by at least five affirmative votes of the Mayor and members of the Council.

Section 305. Compensation; Expenses

This Chapter is a declaration of existing law and practice and not an amendment or change therein.

(Ord. MC-338, 1-25-84)

1.28.020 Police and fire salaries

Charter Section 186 Second, Article X, since its amendment in 1976, by administrative and legislative practice has consistently been interpreted in a manner that the phrase the monthly salaries, paid or approved for payment to local safety members of like or most nearly comparable positions of the police and fire departments of ten cities of California, as used to determine the monthly salaries of local safety members

[\[Return to Municipal Code Contents\]](#)

of the San Bernardino Police and Fire Departments by arithmetic averaging, refers to those monthly salaries set by resolution or motion of the legislative bodies of such ten cities setting forth salary plans consisting of money to be paid at various ranges and steps within the ranges for each position and which amounts the cities report to the United States Internal Revenue Service and the California Franchise Tax Board as wages or income. Any other compensation or remuneration paid or approved for payment to local safety members in such cities, regardless of how calculated, when paid or in what form, or however denominated, have not been included within "monthly salaries" as that phrase is used in Charter Section 186 and are not "monthly salaries" within the meaning of Charter Section 186. San Bernardino City Charter Section 302 identifies the position of Mayor Pro Tempore. At the first regularly scheduled meeting of the City Council following the effective date of this ordinance, the City Council shall elect a Council Member to serve as Mayor Pro Tempore. At the second regularly scheduled meeting of the City Council in December of each year, the City Council shall elect a Council Member to serve as Mayor Pro Tempore.

If the Mayor Pro Tempore is absent or otherwise unavailable to serve in such capacity, the Council Member present in the City with the most consecutive days of service as a member of the City Council of the City of San Bernardino shall serve as the Mayor Pro Tempore for that period of absence or unavailability only. The City Clerk shall be responsible for conducting the coin toss or conducting the drawing of straws whenever either event is required by this Section.

The Council Member holding the position of Mayor Pro Tempore shall continue to hold said position until his/her successor is elected by the City Council or until said Council Member is no longer a member of the City Council, whichever occurs first.

Pursuant to Charter Section 302, in the absence of the Mayor from any Council meeting, the Mayor Pro Tempore shall preside over that Council meeting.

In addition, at all other times that the Mayor is temporarily unable to perform the duties of his or her office, the Mayor Pro Tempore shall have all powers and authority that the Mayor would have possessed if present to perform his or her duties.

However, the Mayor Pro Tempore may not cast an additional vote in the event of a tie or exercise veto powers over City Council action, but may continue to exercise his or her vote as a Council member.

3.27.000 General Findings

The Mayor and Common Council find as follows:

- (A) The provision of new and expanded facilities and infrastructure is necessary to protect and promote the health, safety, and welfare of all the citizens of the City of San Bernardino by reducing the adverse effects of urbanization and development.
- (B) It is necessary to enact and implement certain development fees to assure that all development within the City pays its fair share of the costs of providing necessary public facilities and infrastructure to accommodate such new development.
- (C) A proper funding source for the costs associated with new development is a specific development or facilities fee for each type of facility related to the specific need created by the development and reasonably related to the relative cost of providing such necessary public facilities.

[\[Return to Municipal Code Contents\]](#)

- (D) The Development Impact Fee Calculation and Nexus Report justifies the imposition of each development fee on new construction by analyzing the Master Facility Plan, as defined herein, assigning the costs on a fair-share basis to the various types of development, and assigning the resulting fee per dwelling unit and/or commercial/industrial square footage, based on the anticipated burden of such new dwelling unit and/or commercial/industrial area on City facilities and infrastructure and the need created by such dwelling unit and/or commercial/industrial area for new and expanded facilities and infrastructure.
- (E) The primary purpose of the fees is to mitigate the impact on City facilities and infrastructure caused by increased demand for facilities and infrastructure from persons generated by new development.
- (F) The fees will be used to finance public facilities and infrastructure, specifically local circulation system improvements (streets, traffic signals, and bridges); regional circulation system improvements; law enforcement and fire protection facilities, vehicles, and equipment; library facilities and collection; public meeting facilities; aquatics facilities; and parkland and open space acquisition and development.
- (G) The use of the fees to fund such public facilities and infrastructure is reasonably related to the impacts of residential development and other development on the City as more fully described in the Development Impact Fee Calculation and Nexus Report.
- (H) The need for development fees to fund such public facilities is reasonably related to impacts on the City of residential development and other development as more fully described in the Development Impact Fee Calculation and Nexus Report.
- (I) To assure fair and legally sound implementation of the development fees established in this chapter, such fees shall be reviewed annually and the amounts of such fees shall be adopted by resolution of the Mayor and Common Council at a public hearing.
- (J) To assure fair implementation of the development fees established in this chapter, the City must have the latitude to phase the imposition of certain fees. (K) To assure fair implementation of the development fees established in this chapter, the City must have the latitude to defer such fees in special cases, after notice and hearing, where better or more fair financing arrangements would result from such deferral.
- (L) To assure fair implementation of the development fees established by this chapter, provisions must be made for extending such fees to subsequently annexed land that benefits from the public facilities funded by these fees.

3.27.010 Purpose and applicability

[\[Return to Municipal Code Contents\]](#)

3.27.140 Development fee credits; prepayment

(A) The owner of a parcel of property otherwise required to pay a fee under this chapter shall receive a credit for the corresponding development fee when that owner constructs or donates a facility, or a portion thereof, identified in the Master Facility Plan, regardless of how it may be financed, that serves the owner's parcel or parcels. The development fee credit shall offset, on a proportionate basis without interest,

the corresponding development fee to be paid pursuant to this chapter. The facility must be built in compliance with all applicable laws governing the construction of public improvements.

- (B) The amount of the development fee credit shall equal the City's most recent estimated cost of constructing and/or furnishing the facility, or the portion of the facility actually completed or purchased, by contract or utilizing City forces.
- (C) The owner of a parcel of property may be further entitled to a development fee credit where the city determines, on a case-by-case basis, that the construction of the facility, or a portion thereof, will be necessary to provide basic services to the entire City even though it does not directly serve the owner's project or is of greater capacity than that required to serve the owner's project adequately.
- (D) The amount of the development fee credit shall be determined after inspection and acceptance of the facility at the time of payment of the corresponding facilities fee.
- (E) If an owner pays the facilities fee assessed under this chapter and later elects, after City approval, to accelerate the development by constructing or purchasing facilities for the project, the owner may apply for and receive a refund, up to the amount of the facilities fee, for such facilities after those facilities are certified by the City Engineer as complying with the appropriate Master Facility Plan, City ordinances, and applicable law.
- (F) To the extent that an owner is granted a development fee credit, such owner shall not be entitled to a future reimbursement for such facility except as provided in Section 3.27.150.
- (G) A development fee credit is an obligation of the City that runs with the land and inures to the benefit of each successor in interest of the original landowner until full credit has been received.
- (H) A developer shall also be entitled to a credit if the City and developer have executed an agreement or there is a preexisting ordinance which specifically exempts the developer from the payment of one or more of the fees enacted under this chapter. The availability of the credit and its amount shall be determined by the City on a case-by-case basis based on the provisions of the applicable agreement.
- (I) A developer or any public agency may prepay all or any portion of one or more fees under this chapter through the use of funds, revenues or grants that are derived from sources other than those of the City or revenues generated from the fees collected under this Chapter. The Mayor and Common Council are hereby authorized to enter agreements with developers or public agencies to accept any prepayments of one or more of the fees under this Chapter based upon findings and

[\[Return to Municipal Code Contents\]](#)

determinations to be made by the Mayor and Common Council to acknowledge said prepayment and to approve any agreement with any developer or public agency to evidence such prepayment.

3.27.150 Reimbursement

- (A) The owner of a parcel of property otherwise required to pay a facilities fee under this chapter will be entitled to enter into a reimbursement agreement to reimburse from subsequently collected development fees the direct and verifiable costs of installing or furnishing public improvements, or portions thereof, identified in the appropriate Master Facility Plan where all of the following conditions are satisfied:
- (1) The owner has constructed a public improvement, or portion thereof, that is identified in the appropriate Master Facility Plan.
 - (2) The City required that the public improvement be constructed to contain supplemental size, capacity, number or length for the benefit of property not within the owner's project.
 - (3) The City approved, prior to construction or furnishing, the proposed budget for the project and finds any change to that budget fair and reasonable.
 - (4) The public improvement, or portion thereof, has been dedicated to the public.
 - (5) The public improvement, or portion thereof, has been built in compliance with all applicable laws governing the construction of public works.
- (B) The City shall not reimburse the owner for costs related to financing any public facility.
- (C) An owner shall only be entitled to reimbursement to the extent that any public facility project benefits property not within the owner's project. Thus, an owner may receive a development fee credit as provided in Chapter 3.27.140 for the portion of a public facility that serves the owner's project and reimbursement for the oversized or extra-capacity or extended portion of a public facility that benefits subsequently developed property.
- (D) In no event shall an owner receive a development fee credit and/or reimbursement in excess of the City's most recent estimated cost of constructing the facility, or the portion of the facility actually completed, by contract or by utilizing city forces.

- (E) Any reimbursement agreement entered into under this section shall require the City, for a period of up to 15 years, to reimburse the owner from the proceeds of the facilities fees collected from new projects that directly benefit from the facilities financed by the facilities fee or fees and which are the subject of the reimbursement agreement. Reimbursement shall only be made from fees collected to fund improvements which are of the same type as the improvement constructed by the owner, and from no other source. The terms of the reimbursement shall be set forth in the reimbursement agreement.

The Mayor and Common Council are empowered to grant deferral of any fee imposed by this chapter upon the recommendation of the Director of Development Services, except the regional circulation systems fee established in Chapter 3.27.060. Findings must be based on written and other evidence submitted by the property owner, substantiating the owner's contention that the fee should be deferred. Findings must include facts supporting deferral, including without limitation, findings that in the case of deferral (1) other properties to be benefited by any fee will not be burdened by the review and delay in fee imposition, or, (2) alternative financing methods involving more than one owner have been proposed for review, or (3) delay will result in a more fair funding arrangement.

3.27.180 Application to subsequently annexed land

As areas not presently situated within the City boundaries seek to annex to the City, the Mayor and Common Council shall determine the benefit to such land areas of the public facilities and infrastructure funded by this chapter. The Mayor and Common Council shall impose development fees, in whole or in part, as established by this chapter, upon such annexed areas to the extent necessary to assure that such areas pay their fair share of the actual costs of all necessary public facilities and infrastructure benefiting their projects, unless the Mayor and Common Council determines that such an imposition would cause inequities or that a better or fairer financing arrangement can and should be developed and imposed.

with the City Clerk prior to the time set for the hearing. At the time fixed for considering the assessment, the Mayor and Common Council shall hear the same together with any objection filed as aforesaid and thereupon may confirm or modify the assessment by motion.

- B. Whenever the Director of Finance determines that a service user has deliberately withheld the amount of the tax owed by him from the amounts remitted to a person required to collect the tax, or that a service user has failed to pay the amount of the tax to such person for a period of two or more billing periods, or whenever the Director of Finance deems it in the best interest of the City, he may relieve such person of the obligation to collect taxes due under this chapter from certain named service users for specified billing periods. The Director of Finance shall notify the service user that he has assumed responsibility to collect the taxes due for the stated periods and demand payment of such taxes. The notice shall be served on the service user by handing it to him personally or by deposit of the notice in the United States mail, postage prepaid thereon, addressed to the service user at the address to which billing was made by the person required to collect the tax; or, should the service user have changed his address, to his last known address. - A. Whenever the amount of any tax has been overpaid or paid more than once or has been erroneously or illegally collected or received by the Director of Finance under this Chapter, it may be refunded as provided in this section.

[Return to Municipal Code Contents]

- B. A person required to collect and remit taxes imposed under this Chapter may claim a refund or take as credit against taxes collected and remitted the amount overpaid, paid more than once or erroneously or illegally collected or received when it is established in a manner prescribed by the Director of Finance that the service user from whom the tax has been collected did not owe the tax; provided, however, that neither a refund nor a credit shall be allowed unless the amount of the tax so collected has either been refunded to the service user or credited to charges subsequently payable by the service user to the person required to collect and remit.

- C. No refund shall be paid under the provisions of this section unless the claimant has submitted a written claim to the Director of Finance within one year of the overpayment of erroneous or illegal collection of said tax. Such claim must clearly establish claimant's right to the refund by written records showing entitlement thereto. The submission of a written claim, which is acted upon by the City Council, shall be a prerequisite to a suit thereon. (See Government Code Section 935.) The Mayor and Common Council shall act upon the refund claim within the time period set forth in Government Code Section 912.4, the claim shall be deemed to have been rejected on the last day of the period within which the Mayor and Common Council was required to act upon the claim as provided in Government Code Section 912.4. The verified claim must be signed by an authorized officer of the claimant. 3.44.144 Exemption for household service users - Low income

- A. Effective January 1, 1984, the Tax imposed by this Chapter shall not apply to any individual who uses telephone, electric, gas or cable television services in or upon any premises occupied by such individual provided that the following conditions are satisfied.
 - 1. The annual gross income of the household in which one person lives is less than an amount set by the Mayor and Common Council by resolution; or
 - 2. The annual gross income of the household in which a married couple or family lives is less than an amount set by the Mayor and Common Council by resolution; and
 - 3. The conditions of Section 3.44.140 Subsection A, paragraphs 3 and 4, and Subsection B, C, and F are satisfied, with the word "claimant " therein referring to the individual applying for exemption.

(Ord. MC-712, 3-19-90)

- B. Any person claiming exemption pursuant to this Section may file a claim for such exemption at any time in order to qualify for an exemption for the subsequent twelve-month period, or until a current exemption is scheduled to expire.
 - 1. Between October 31, 1985, and the effective date of this subsection, applications for renewal of exemptions may be made to the Finance Director, without prejudice, by persons whose exemptions were scheduled to expire on December 31, 1985. Exemptions granted under this provision shall not be retroactive.

[\[Return to Municipal Code Contents\]](#)

2. An application for exemption or renewal shall be made upon forms supplied by the Finance Director and shall declare facts under penalty of perjury which qualify the applicant for the exemption.
- C. The Finance Director or his or her designee shall review all applications for exemption or renewal, certify as exempt those applicants who qualify, and notify all service suppliers affected that such exemptions have been approved, stating the name of the exempt applicant, the account number shown on the utility bill, the address to which exempt service is being supplied, and any other information necessary for the service supplier to remove the exempt service user from its tax billing procedure. Upon receipt of notice from the Finance Director, the service supplier shall not be required to collect any further tax imposed by this Chapter from such exempt service user until further notice from the Finance Director. Prior to the expiration date of each exemption, the Finance Director shall send notice, by ordinary mail, reminding the holder of the expiration date. At the same time, the Finance Director may also send a renewal application which may be returned by ordinary mail. These reminders shall be sent within such reasonable time as to allow processing of the renewal with no lapse in the exemption status.
 - D. Each exemption shall expire twelve months after the date it was issued, or December 31, 1986, whichever date is later. The Finance Director shall notify each service supplier to resume collection of utility taxes on the accounts of those service users who have not applied for renewal of their exempt status or whose applications for renewal have been denied. Upon receipt of the written notification, these service suppliers shall resume such collection on those accounts affected commencing with the first billing period beginning after the exemption expires. Notwithstanding any of the provisions of this section, any service supplier who determines during any calendar year by any means readily available to it that a nonexempt service user is receiving services through a meter or connection exempt by virtue of an exemption issued to a previous user of the same meter or connection, the service supplier shall forthwith resume the collection of taxes imposed by this Chapter upon the nonexempt service user.
 - E. Any individual who has been exempted from the tax shall notify the Finance Director within ten days of any change of address or any other change in fact or circumstance which might disqualify that individual from receiving the exemption. If it is determined by the Finance Director that the individual is no longer qualified, the Finance Director shall give notice to the service supplier who shall resume collection of the tax imposed by this Chapter commencing with the next billing period. If the user is entitled to exemption at a new address, the Finance Director shall notify affected service suppliers of that fact.

- F. It shall be a misdemeanor for any person to knowingly receive the benefits of the exemptions provided by this section when the basis for the exemption either does not exist or ceases to exist. The Finance Director may from time to time, or at any time, demand evidence of continued eligibility of a service user for exemption under the provisions of this section. Such evidence may include, without limit, copies of business records, letters or statements from the Social Security Administration, copies of income tax returns, and other evidence concerning the service user or members of his household which may tend to prove or disprove eligibility. Failure to provide sufficient evidence to establish eligibility when requested by the Finance Director shall be grounds for denial or discontinuance of the service users' exemption, but evidence voluntarily provided to the Finance Director may only be used as grounds for termination of the exemption and not as evidence of violation of the provisions of this section. If the Finance Director determines that an application for exemption is faulty or untruthful, the application shall be denied in writing and the applicant may file an amended application or appeal the decision of the Finance Director to the City Administrator, whose decision shall be final.
- G. No individual shall be exempt from the tax imposed by this Chapter except in accordance with this section. The provisions of this section shall not apply retroactively, and no refund shall be made for any taxes paid prior to the issuance and effective date of an exemption granted by the Finance Director, nor shall any refund be made for any taxes collected during any period in which an exemption from the Finance Director was not in effect or had lapsed by failure to apply for renewal

(Ord. MC-712, 3-19-90; Ord. MC-515, 4-22-86; Ord. MC-297, 8-04-83)

In the event the beginning undesignated fund balance for the City of San Bernardino's General Fund in the 1984-85 preliminary or final budget as in effect on July 1, 1984, is more than five percent of the proposed expenditures and obligations of the General Fund for that budget, as determined by a written declaration filed by the Director of Finance with the City Clerk, the tax imposed in this Chapter shall be reduced to six percent for all services effective upon the first billings after July 1, 1984.

3.46.030 Constitutional, Statutory, and Other Exemptions

- A. Nothing in this Chapter shall be construed as imposing a tax upon any person or service when the imposition of such tax upon such person or service would be in violation of a federal or state statute, the Constitution of the United States or the Constitution of the State of California.
- B. Due to the status of the San Bernardino City Unified School District as an agency established by the Charter of the City of San Bernardino and due to the strong public policy in favor of encouraging and assisting the provision of public education, public schools are hereby exempted from the imposition of the Communications Users Tax.
- C. Any service user that is exempt from the tax imposed by this Chapter pursuant to subsection A of this section shall file an application with the Tax Administrator for an exemption; provided, however, this requirement shall not apply to a service user that is a state or federal agency or subdivision with a commonly recognized name for such service. Said application shall be made upon a form approved by the Tax Administrator and shall state those facts, declared under penalty of perjury, which qualify the applicant for an exemption, and shall include the names of all communication service suppliers serving that service user. If deemed exempt by the Tax Administrator, such service user shall give the Tax Administrator timely written notice of any change in utility service suppliers so that the Tax Administrator can properly notify the new communication service supplier of the service user's tax exempt status. The decision of the Tax Administrator may be appealed by filing an application with the Tax Administrator and appeal to the City Manager. The City Manager shall give notice of, and conduct an informed hearing and shall render a decision in writing. Such hearing is a prerequisite to a suit herein.

- D. The exemption and rebate provisions of Sections 3.44.140 and 3.44.144 of this Code shall apply to this Chapter 3.46.

3.46.040 Communication User's Tax

- A. There is hereby imposed a tax upon every person in the City using communication services. The maximum tax imposed by this section shall be at the rate of 7.75 percent (7.75%) of the charges made for such services and shall be collected from the service user by the communication services supplier or its billing agent. There is a rebuttable presumption that communication services, which are billed to a billing or service address in the City, are used, in whole or in part, within the boundaries of the City, and such services are subject to taxation under this Chapter. If the billing address of the service user is different from the service address, the service address of the service user shall be used for purposes of imposing the tax. As used in this Section, the term "charges" shall include the value of any other services, credits, property of every kind or nature, or other consideration provided by the service user in exchange for the communication services.
- B. "Mobile telecommunications service" shall be sourced in accordance with the sourcing rules set forth in the Mobile Telecommunications Sourcing Act (4 U.S.C. Section 116 et. seq.) as the same exists or may be amended from time to time. The Tax Administrator may issue and disseminate to communication service suppliers, which are subject to the tax collection requirements of this Chapter, sourcing rules for the taxation of other communication services, including but not limited to post-paid communication services, prepaid communication services, and private communication services, provided that such rules are based upon custom and common practice that further administrative efficiency and minimize multi-jurisdictional taxation (e.g., Streamlined Sales and Use Tax Agreement).
- C. The Tax Administrator may issue and disseminate to communication service suppliers, which are subject to the tax collection requirements of this Chapter, an administrative ruling identifying those communication services, or charges therefor, that are subject to or not subject to the tax of subsection A above.

- D. As used in this section, the term "telecommunication services" shall include, but are not limited to charges for: connection, reconnection, termination, movement, or change of telecommunication services; late payment fees; detailed billing; central office and custom calling features (including but not limited to call waiting, call forwarding, caller identification and three-way calling); voice mail and other messaging services; directory assistance; access and line charges; universal service charges; regulatory, administrative and other cost recovery charges; local number portability charges; and text and instant messaging. "Telecommunication services" shall not include digital downloads that are not "ancillary telecommunications services", such as books, music, ringtones, games, and similar digital products.
- E. Charges for communication services (video) shall include, but are not limited to, charges for the following:
- (1) regulatory fees and surcharges, franchise fees and access fees (PEG);
 - (2) franchise fees;
 - (3) initial installation of equipment necessary for provision and receipt of communication services;
 - (4) late fees, collection fees, bad debt recoveries, and returned check fees;
 - (5) activation fees, reactivation fees, and reconnection fees;
 - (6) all video programming services (e.g., basic services, premium services, audio services, video games, pay-per-view services, or on demand programming);
 - (7) ancillary programming services (e.g., electronic program guide services, search functions, or other interactive services or communications that are ancillary, necessary or common to the use or enjoyment of the video programming);
 - (8) equipment leases (e.g., converters, remote devices);
 - (9) service calls, service protection plans, name changes, changes of services, and special services.
- F. To prevent actual multi-jurisdictional taxation of communication services subject to tax under this section, any service user, upon proof to the Tax Administrator that the service user has previously paid the same tax in another state or local jurisdiction on such communication services, shall be allowed a credit against the tax imposed to the extent of the amount of such tax legally imposed in such other state or local jurisdiction; provided, however, the amount of credit shall not exceed the tax owed to the City under this section.

- G. The tax on communication services imposed by this section shall be collected from the service user by the service supplier. The amount of tax collected in one (1) month shall be remitted to the Tax Administrator, and must be received by the Tax Administrator on or before the twentieth (20th) day of the following month.

3.46.050 Bundling Taxable Items with Non-Taxable Items

Except as otherwise provided by applicable federal or state law, if any nontaxable charges are combined with and not separately stated from taxable service charges on the customer bill or invoice of a service supplier, the combined charge is subject to tax unless the service supplier identifies, by reasonable and verifiable standards, the portions of the combined charge that are nontaxable and taxable through the service supplier's books and records kept in the regular course of business, and in accordance with generally accepted accounting principles, and not created and maintained for tax purposes. The service supplier has the burden of proving the proper apportionment of taxable and nontaxable charges. If the service supplier offers a combination of services that include taxable and non-taxable services or products, and the charges are separately stated, then for taxation purposes, the values assigned the taxable and nontaxable services or products shall be based on its books and records kept in the regular course of business and in accordance with generally accepted accounting principles, and not created and maintained for tax purposes. The service supplier has the burden of proving the proper valuation and apportionment of taxable and non-taxable charges.

3.46.060 Substantial Nexus / Minimum Contacts

For purposes of imposing a tax or establishing a duty to collect and remit a tax under this Chapter, "substantial nexus" and "minimum contacts" shall be construed broadly in favor of the imposition, collection and/or remittance of the service user's tax to the fullest extent permitted by state and federal law, and as it may change from time to time by judicial interpretation or by statutory enactment. Any communication service (including VoIP) used by a person with a service address in the City, which service is capable of terminating a call to another person on the general telephone network, shall be subject to a rebuttable presumption that "substantial nexus/minimum contacts" exists for purposes of imposing a tax, or establishing a duty to collect and remit a tax, under this Chapter. A service supplier shall be deemed to have sufficient activity in the City for tax collection and remittance purposes if its activities include, but are not limited to, any of the following: maintains or has within the City, directly or through an agent or subsidiary, a place of business of any nature; solicits business in the City by employees, independent contractors, resellers, agents or other representatives; solicits business in the City on a continuous, regular, seasonal or systematic basis by means of advertising that is broadcast or relayed from a transmitter within the City or distributed from a location within the City; or advertises in newspapers or other periodicals printed and published within the City or through materials distributed in the City by means other than the United States mail.

3.46.070 Duty to Collect--Procedures

- A. Collection by Service Suppliers. The duty of service suppliers to collect and remit the taxes imposed by the provisions of this Chapter shall be performed as follows:
- (1) the tax shall be collected by service suppliers insofar as practicable at the same time as, and along with, the collection of the charges made in accordance with the regular billing practice of the service supplier. Where the amount paid by a service user to a service supplier is less than the full amount of the charge and tax which was accrued for the billing period, a proportionate share of both the charge and the tax shall be deemed to have been paid. In those cases where a service user has notified the service supplier of refusal to pay the tax imposed on said charges, Section 3.46.090 of this Chapter shall apply;
 - (2) the duty of a service supplier to collect the tax from a service user shall commence with the beginning of the first regular billing period applicable to the service user where all charges normally included in such regular billing are subject to the provisions of this Chapter. Where a service user receives more than one billing, one or more being for different periods than another, the duty to collect shall arise separately for each billing period.
- B. Filing Return and Payment. Each person required by this Chapter to remit a tax shall file a return to the Tax Administrator, on forms approved by the Tax Administrator, on or before the due date. The full amount of the tax collected shall be included with the return and filed with the Tax Administrator. The Tax Administrator is authorized to require such additional information as he or she deems necessary to determine if the tax is being levied, collected, and remitted in accordance with this Chapter. Returns are due immediately upon cessation of business for any reason. Pursuant to Revenue and Taxation Code Section 7284.6, the Tax Administrator, and its agents, shall maintain such filing returns as confidential information that is exempt from the disclosure provisions of the Public Records Act of the State of California. (Government Code Section 6500 et seq.)

3.46.080 Collection Penalties - Service Suppliers

- A. Taxes collected from a service user are delinquent if not received by the Tax Administrator on or before the due date. Should the due date occur on a weekend or legal holiday, the return must be received by the Tax Administrator on the first regular working day following the weekend or legal holiday. A direct deposit, including electronic fund transfers and other similar methods of electronically exchanging monies between financial accounts, made by a service supplier in satisfaction of its obligations under this subsection shall be considered timely if the transfer is initiated on or before the due date, and the transfer settles into the City's account on the following business day.

[Return to Municipal Code Contents]

- B. If the person required to collect and/or remit the service user's tax fails to collect the tax (by failing to properly assess the tax on one or more services or charges on the customer's billing) or fails to remit the tax collected on or before the due date, the Tax Administrator shall attach a penalty for such delinquencies or deficiencies at the rate of fifteen (15%) percent of the total tax that is delinquent or deficient in the remittance, and shall pay interest at the rate of and 75/100ths (0.75%) percent per month, or any fraction thereof, on the amount of the tax, exclusive of penalties, from the date on which the remittance first became delinquent, until paid.
- C. The Tax Administrator shall have the power to impose additional penalties upon persons required to collect and remit taxes pursuant to the provisions of this Chapter for fraud or gross negligence in reporting or remitting at the rate of fifteen (15%) percent of the amount of the tax collected and/or required to be remitted, or as recomputed by the Tax Administrator.
- D. For collection purposes only, every penalty imposed and such interest that is accrued under the provisions of this section shall become a part of the tax herein required to be paid.
- E. Notwithstanding the foregoing, the Tax Administrator may, in his or her discretion, modify the due dates of this Chapter to be consistent with any uniform standards or procedures that are mutually agreed upon by other public agencies imposing a service user's tax, or otherwise legally established, to create a central payment location or mechanism.

3.46.090 Actions to Collect

Any tax required to be paid by a service user under the provisions of this Chapter shall be deemed a debt owed by the service user to the City. Any such tax collected from a service user which has not been remitted to the Tax Administrator shall be deemed a debt owed to the City by the person required to collect and remit and shall no longer be a debt of the service user. Any person owing money to the City under the provisions of this Chapter shall be liable in an action brought in the name of the City for the recovery of such amount, including penalties and interest as provided for in this Chapter, along with any collection costs incurred by the City as a result of the person's noncompliance with this Chapter, including, but not limited to, reasonable attorneys fees. Any tax required to be collected by a service supplier or owed by a service user is an unsecured priority excise tax obligation pursuant to 11 U.S.C. Section 507(a)(8)(C).

3.46.100 Deficiency Determination and Assessment - Tax Application Errors

- A. The Tax Administrator shall make a deficiency determination if he or she determines that any service supplier or service user required to pay, collect, and/or remit taxes pursuant to the provisions of this Chapter has failed to pay, collect, and/or remit the proper amount of tax by improperly or failing to apply the tax to one or more taxable services or charges. Nothing herein shall require that the Tax Administrator institute proceedings under this Section 3.46.100 if, in the opinion of the Tax Administrator, the cost of collection or enforcement likely outweighs the tax benefit.
- B. The Tax Administrator shall mail a notice of such deficiency determination to the person or entity allegedly owing the tax, which notice shall refer briefly to the amount of the taxes owed, plus interest at the rate of 75/100ths (0.75%) percent per month, or any fraction thereof, on the amount of the tax from the date on which the tax should have been received by the City. Within fourteen (14) calendar days after the date of service of such notice, the person or entity allegedly owing the tax may request in writing to the Tax Administrator for a hearing on the matter.
- C. If the person or entity allegedly owing the tax fails to request a hearing within the prescribed time period, the amount of the deficiency determination shall become final assessment, and shall immediately be due and owing to the City. If the person requests a hearing, the Tax Administrator shall cause the matter to be set for hearing, which shall be scheduled within thirty (30) days after receipt of the written request for hearing. Notice of the time and place of the hearing shall be mailed by the Tax Administrator to such person or entity at least ten (10) calendar days prior to the hearing, and, if the Tax Administrator desires said person or entity to produce specific records at such hearing, such notice may designate the records requested to be produced.
- D. At the time fixed for the hearing, the Tax Administrator shall hear all relevant testimony and evidence, including that of any other interested parties. At the discretion of the Tax Administrator, the hearing may be continued from time to time for the purpose of allowing the presentation of additional evidence. Within a reasonable time following the conclusion of the hearing, the Tax Administrator shall issue a final assessment (or non-assessment), thereafter, by confirming, modifying or rejecting the original deficiency determination, and shall mail a copy of such final assessment to person or entity owing the tax. The decision of the Tax Administrator may be appealed pursuant to Section 3.46.150 of this Chapter. Filing an application with the Tax Administrator and appeal to the City Manager is a prerequisite to a suit thereon.
- E. Payment of the final assessment shall become delinquent if not received by the Tax Administrator on or before the thirtieth (30th) day following the date of receipt of the notice of final assessment. The penalty for delinquency shall be fifteen percent (15%) on the total amount of the assessment, along with interest at the rate

[\[Return to Municipal Code Contents\]](#)

of 75/100ths (0.75%) percent per month, or any fraction thereof, on the amount of the tax, exclusive of penalties, from the date of delinquency, until paid. The applicable statute of limitations regarding a claim by the City seeking payment of a tax assessed under this Chapter shall commence from the date of delinquency as provided in this subsection E.

- F. All notices under this section may be sent by regular mail, postage prepaid, and shall be deemed received on the third calendar day following the date of mailing, as established by a proof of mailing

3.46.110 Administrative Remedy - Non-Paying Service Users

- A. Whenever the Tax Administrator determines that a service user has deliberately withheld the amount of the tax owed by the service user from the amounts remitted to a person required to collect the tax, or whenever the Tax Administrator deems it in the best interest of the City, he or she may relieve such person of the obligation to collect the taxes due under this Chapter from certain named service users for specific billing periods. To the extent the service user has failed to pay the amount of tax owed for a period of two (2) or more billing periods, the service supplier may, in the discretion of the Tax Administrator, be relieved of the obligation to collect taxes due. The service supplier shall provide the City with the names and addresses of such service users and the amounts of taxes owed under the provisions of this Chapter if it is determined by the Tax Administrator to relieve the person required to collect the tax. Nothing herein shall require that the Tax Administrator institute proceedings under this Section 3.46.110 if, in the opinion of the Tax Administrator, the cost of collection or enforcement likely outweighs the tax benefit.
- B. In addition to the tax owed, the service user shall pay a delinquency penalty at the rate of fifteen percent (15%) of the total tax that is owed, and shall pay interest at the rate of 75/100ths (0.75%) percent per month, or any fraction thereof, on the amount of the tax, exclusive of penalties, from the due date, until paid.
- C. The Tax Administrator shall notify the non-paying service user that the Tax Administrator has assumed the responsibility to collect the taxes due for the stated periods and demand payment of such taxes, including penalties and interest. The notice shall be served on the service user by personal delivery or by deposit of the notice in the United States mail, postage prepaid, addressed to the service user at the address to which billing was made by the person required to collect the tax; or, should the service user have a change of address, to his or her last known address.
- D. If the service user fails to remit the tax to the Tax Administrator within thirty (30) days from the date of the service of the notice upon him or her, the Tax Administrator may impose an additional penalty of fifteen percent (15%) of the amount of the total tax that is owed.

[\[Return to Municipal Code Contents\]](#)

3.46.120 Additional Powers and Duties of the Tax Administrator

- A. The Tax Administrator shall have the power and duty, and is hereby directed, to enforce each and all of the provisions of this Chapter.
- B. The Tax Administrator may adopt administrative rules and regulations consistent with provisions of this Chapter for the purpose of interpreting, clarifying, carrying out and enforcing the payment, collection and remittance of the taxes herein imposed. A copy of such administrative rules and regulations shall be on file in the Tax Administrator's office.
- C. Upon a proper showing of good cause, the Tax Administrator may make administrative agreements approved by the City Attorney, with appropriate conditions, to vary from the strict requirements of this Chapter and thereby: (1) conform to the billing procedures of a particular service supplier so long as said agreements result in the collection of the tax in conformance with the general purpose and scope of this Chapter; or, (2) to avoid a hardship where the administrative costs of collection and remittance greatly outweigh the tax benefit.
- D. The Tax Administrator may conduct an audit, to ensure proper compliance with the requirements of this Chapter, of any person required to collect and/or remit a tax pursuant to this Chapter. The Tax Administrator shall notify said person of the initiation of an audit in writing. In the absence of fraud or other intentional misconduct, the audit period of review shall not exceed a period of three (3) years next preceding the date of receipt of the written notice by said person from the Tax Administrator. Upon completion of the audit, the Tax Administrator may make a deficiency determination pursuant to Section 3.46.100 of this Chapter for all taxes (and applicable penalties and interest) owed and not paid, as evidenced by information provided by such person to the Tax Administrator. If said person is unable or unwilling to provide sufficient records to enable the Tax Administrator to verify compliance with this Chapter, the Tax Administrator is authorized to make a reasonable estimate of the deficiency. Said reasonable estimate shall be entitled to a rebuttable presumption of correctness.
- E. Upon receipt of a written request of a taxpayer, and for good cause, the Tax Administrator may extend the time for filing any statement required pursuant to this Chapter for a period of not to exceed forty-five (45) days, provided that the time for filing the required statement has not already passed when the request is received.

No penalty for delinquent payment shall accrue by reason of such extension. Interest shall accrue during said extension at the rate of 75/100ths (0.75%) percent per month, prorated for any portion thereof.

- F. The Tax Administrator shall determine the eligibility of any person who asserts a right to exemption from, or a refund of, the tax imposed by this Chapter.
- G. Notwithstanding any provision in this Chapter to the contrary, the Tax Administrator with the approval of the Mayor and Common Council may waive any penalty or interest imposed upon a person required to collect and/or remit for failure to collect the tax imposed by this Chapter if the non-collection occurred in good faith. In determining whether the non-collection was in good faith, the Tax Administrator shall take into consideration industry practice or other precedence.

3.46.130 Records

- A. It shall be the duty of every person required to collect and/or remit to the City any tax imposed by this Chapter to keep and preserve, for a period of at least three (3) years, all records as may be necessary to determine the amount of such tax as he/she may have been liable for the collection of and remittance to the Tax Administrator, which records the Tax Administrator shall have the right to inspect at a reasonable time.
- B. The City may issue an administrative subpoena to compel a person to deliver, to the Tax Administrator, copies of all records deemed necessary by the Tax Administrator to establish compliance with this Chapter, including the delivery of records in a common electronic format on readily available media if such records are kept electronically by the person in the usual and ordinary course of business. As an alternative to delivering the subpoenaed records to the Tax Administrator on or before the due date provided in the administrative subpoena, such person may provide access to such records outside the City on or before the due date, provided that such person shall reimburse the City for all reasonable travel expenses incurred by the City to inspect those records, including travel, lodging, meals, and other similar expenses, but excluding the normal salary or hourly wages of those persons designated by the City to conduct the inspection.
- C. The Tax Administrator is authorized to execute a non-disclosure agreement approved by the City Attorney to protect the confidentiality of customer information pursuant to California Revenue and Taxation Code Sections 7284.6 and 7284.7.
- D. If a service supplier uses a billing agent or billing aggregator to bill, collect, and/or remit the tax, the service supplier shall: i) provide to the Tax Administrator the name, address and telephone number of each billing agent and billing aggregator currently authorized by the service supplier to bill, collect, and/or remit the tax to the City; and, ii) upon request of the Tax Administrator, deliver, or effect the delivery of, any information or records in the possession of such billing agent or billing aggregator that, in the opinion of the Tax Administrator, is necessary to verify the proper application, calculation, collection and/or remittance of such tax to the City .

[\[Return to Municipal Code Contents\]](#)

- E. If any person subject to record-keeping under this section unreasonably denies the Tax Administrator access to such records, or fails to produce the information requested in an administrative subpoena within the time specified, then the Tax Administrator may impose a penalty of \$500 on such person for each day following:
 - i) the initial date that the person refuses to provide such access; or,
 - ii) the due date for production of records as set forth in the administrative subpoena.

This penalty shall be in addition to any other penalty imposed under this Chapter.

3.46.140 Refunds

Whenever the amount of any tax has been overpaid or paid more than once or has been erroneously or illegally collected or received by the Tax Administrator under this Chapter from a service user or service supplier, it may be refunded as provided in this section:

- A. The Tax Administrator may refund any tax that has been overpaid or paid more than once or has been erroneously or illegally collected or received by the Tax Administrator under this Chapter from a service user or service supplier, provided that no refund shall be paid under the provisions of this section unless the claimant or his or her guardian, conservator, executor, or administrator has submitted a written claim to the Tax Administrator within one year of the overpayment or erroneous or illegal collection of said tax. Such claim must clearly establish claimant's right to the refund by written records showing entitlement thereto. Nothing herein shall permit the filing of a claim on behalf of a class or group of taxpayers unless each member of the class has submitted a written claim under penalty of perjury as provided by this subsection.
- B. The filing of a written claim pursuant to Government Code Section 935 is a prerequisite to any suit thereon. Any action brought against the City pursuant to this section shall be subject to the provisions of Government Code sections 945.6 and 946. The City Manager, or the Mayor and Common Council where the claim is in excess of ten thousand dollars (\$10,000), shall act upon the refund claim within the time period set forth in Government Code Section 912.4. If the City Manager/Mayor and Common Council fails or refuses to act on a refund claim within the time prescribed by Government Code Section 912.4, the claim shall be deemed to have been rejected by the City Manager/Mayor and Common Council on the last day of the period within which the City Manager/Mayor and Common Council was required to act upon the claim as provided in Government Code Section 912.4. The Risk Manager shall give notice of the action in a form which substantially complies with that set forth in Government Code Section 913.

[\[Return to Municipal Code Contents\]](#)

- C. Notwithstanding the notice provisions of subsection A of this section, a service supplier that has collected any amount of tax in excess of the amount of tax imposed by this Chapter and actually due from a service user (whether due to overpayment or erroneous or illegal collection of said tax), may refund such amount to the service user, or credit to charges subsequently payable by the service user to the service supplier, and claim credit for such overpayment against the amount of tax which is due upon any other monthly returns to the Tax Administrator, provided such credit is claimed in a return dated no later than one year from the date of overpayment or erroneous or illegal collection of said tax, and provided that the Tax Administrator shall first determine the validity of the service user's claim of credit and the underlying basis for such claim.

- D. Notwithstanding subsections A through C above, a service supplier shall be entitled to take any overpayment as a credit against an underpayment whenever such overpayment has been received by the City within the three (3) years next preceding a deficiency determination or assessment by the Tax Administrator in connection with an audit instituted by the Tax Administrator pursuant to Section 3.46.120D. A service supplier shall not be entitled to said credit unless it clearly establishes the right to the credit by written records showing entitlement thereto. Under no circumstances shall an overpayment taken as a credit against an underpayment pursuant to this subsection qualify a service supplier for a refund to which it would not otherwise be entitled under the one-year written claim requirement of this section.

3.46.150 Appeals

- A. The provisions of this section apply to any decision (other than a decision relating to a refund pursuant to Section 3.46.140 of this Chapter), deficiency determination, assessment, or administrative ruling of the Tax Administrator. Any person aggrieved by any decision (other than a decision relating to a refund pursuant to Section 3.46.140 of this Chapter), deficiency determination, assessment, or administrative ruling of the Tax Administrator, shall be required to comply with the appeals procedure of this section. Compliance with this section shall be a prerequisite to a suit thereon. Nothing herein shall permit the filing of a claim or action on behalf of a class or group of taxpayers.

- B. If any person is aggrieved by any decision (other than a decision relating to a refund pursuant to Section 3.46.140 of this Chapter), deficiency determination, assessment, or administrative ruling of the Tax Administrator; he or she may appeal to the City Manager by filing a notice of appeal with the City Clerk within fourteen (14) days of the date of the decision, deficiency determination, assessment, administrative ruling of the Tax Administrator which aggrieved the service user or service supplier

- C. The matter shall be scheduled for hearing before an independent hearing officer selected by the City Manager, no more than forty-five (45) days from the receipt of the appeal. The appellant shall be served with notice of the time and place of the hearing, as well as any relevant materials, at least five (5) calendar days prior to the hearing. The hearing may be continued from time to time upon mutual consent. At the time of the hearing, the appealing party, the Tax Administrator, and any other interested person may present such relevant evidence as he or she may have relating to the determination from which the appeal is taken.

- D. Based upon the submission of such evidence and the review of the City's files, the hearing officer shall issue a written notice and order upholding, modifying or reversing the determination from which the appeal is taken. The notice shall be given within fourteen (14) days after the conclusion of the hearing and shall state the reasons for the decision. The notice shall specify that the decision is final and that any petition for judicial review shall be filed within ninety (90) days from the date of the decision in accordance with Code of Civil Procedure Section 1094.6.

- E. All notices under this section may be sent by regular mail, postage prepaid, and shall be deemed received on the third calendar day following the date of mailing, as established by a proof of mailing.

3.46.160 No Injunction / Writ of Mandate

No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action, or proceeding in any court against this City or against any officer of the City to prevent or enjoin the collection under this Chapter of any tax or any amount of tax required to be collected and/or remitted.

3.46.170 Notice of Changes to Ordinance

If a tax under this Chapter is added repealed, increased by voter approval, reduced, or the tax base is changed, the Tax Administrator shall follow the notice requirements of California Public Utilities Code Section 799.

3.46.180 Future Amendment to Cited Statute

Unless specifically provided otherwise, any reference to a state or federal statute in this Chapter shall mean such statute as it may be amended from time to time.

3.46.190 Independent Audit of Tax Collection, Exemption, Remittance, and Expenditure

The City shall annually verify that the taxes owed under this Chapter have been properly applied, exempted, collected, and remitted in accordance with this Chapter, and properly expended according to applicable municipal law. The annual verification shall be performed by a qualified independent third party and the review shall employ reasonable, cost-effective steps to assure compliance, including the use of sampling audits. The verification shall not be required of tax remitters where the cost of the verification may exceed the tax revenues to be reviewed.

3.46.200 No Increase in Tax Percentage or Change in Methodology Without Voter Approval

- A. Regarding Section 3.46.040 of this Chapter, the City may not increase the tax percentage or change a methodology for calculating the tax so as to result in an increase in a tax imposed on a person, without voter approval.
- B. Notwithstanding subsection A, pursuant to Government Code Section 53750, the City may make the following changes without voter approval:
 - (1) reduce the percentage rate, and at any time thereafter increase such percentage rate, so long as the subsequent increase does not exceed the rate previously approved by the voters in the enactment of this Chapter;
 - (2) change the methodology so as to reduce the amount of the tax being levied, and at any time thereafter change the methodology, so long as the subsequent change in methodology does not result in an increase in the amount being levied under the methodology previously approved by the voters in the enactment of this Chapter;
 - (3) change a methodology or definition so as to avoid or eliminate a discriminatory tax on taxpayers that are similarly situated, so long as the change does not result in an increase in the amount levied on such class of similarly situated taxpayers under the methodology or definition previously approved by the voters in the enactment of this Chapter;
 - (4) establish a class of persons that is exempt or excepted from one or more taxes hereunder, and at any time thereafter, discontinue such exemption or exception;

- (5) decide that all or a part of a tax imposed under Section 3.46.040 of this Chapter should not be enforced for administrative reasons, and at any time thereafter, decide to enforce the full amount of such tax as previously approved by the voters in the enactment of this Chapter;
- (6) establish, and at any time thereafter change, the value and/or apportionment (including a "safe harbor" percentage) of taxable and nontaxable services that are bundled or packaged under a combined charge, in response to changes in the marketing of combined services and the components thereof, or in reevaluating the values thereof; or
- (7) establish exemptions or lower rate percentages for industrial or economic development zones or for classes of customers therein, establish rebate programs for the purposes of encouraging economic development, and at any time thereafter, discontinue such exemptions or lower rate percentages.

3.46.210 Remedies Cumulative

All remedies and penalties prescribed by this Chapter or which are available under any other provision of law or equity, including but not limited to the California False Claims Act (Government Code Section 12650 et seq.) and the California Unfair Practices Act (Business and Professions Code Section 17070 et seq.), are cumulative. The use of one or more remedies by the City shall not bar the use of any other remedy for the purpose of enforcing the provisions of this Chapter.

Likewise, prior to August 1, 2008, any person who pays the tax levied pursuant to Sections 3.44.030 and 3.44.040 of this Code with respect to any charge for a service subject to taxation pursuant to this Chapter shall be deemed to have satisfied his or her obligation to pay the tax levied pursuant to Section 3.46.040 of this Chapter with respect to that charge. The intent of this paragraph is to prevent the imposition of multiple taxes upon a single utility charge during the transition period from the prior telephone and video users' tax to the

[\[Return to Municipal Code Contents\]](#)

new communications users' tax (which transition period ends August 1, 2008) and to permit communications service providers, during that transition period to satisfy their collection obligations by collecting either tax.

3.46.230 Violation - Penalty

Any person violating any provision of this Chapter is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

3.55.010 Definitions

The words and phrases set out in this section, when used in this Chapter, shall, for the purposes of this Chapter, have the following respective meanings except where the context clearly indicates a different meaning:

- A. **“Hotel”** means a commercial establishment furnishing lodging space in exchange for monetary compensation. Every such establishment shall constitute a “hotel” for purposes of this Chapter notwithstanding any advertising describing the facility as a hostel, inn, motel, rooming house, tourist home or similar enterprise.
- B. **“Lodging space”** means one or more rooms used or intended to be used for dwelling or sleeping purposes.
- C. **“Occupancy”** means the use or possession, or the right to the use or possession, of a lodging space.
- D. **“Operator”** means the person who is the proprietor of a hotel. If an operator utilizes a managing agent who is not an employee, then such agent shall also constitute an “operator” for purposes of this Chapter. Compliance with this Chapter by either the principal or the managing agent shall constitute compliance by both.
- E. **“Person”** means any individual, firm, partnership, joint venture, association, social club, fraternal organization, joint stock company, corporation, estate, trust, business trust, receiver, trustee, syndicate, or any other group or combination acting as a unit.
- F. **“Room rental”** means the total charge for lodging space.
- G. **“Transient”** means a person who, for a period of thirty consecutive calendar days or less, exercises occupancy or is entitled to occupancy by reason of concession, permit, right of access, license or contract. Every such person shall constitute a “transient” for purposes of this Chapter until expiration of the thirty-day period unless such person has executed a written contract with the operator to provide for occupancy in excess of thirty consecutive calendar days and the contract cannot be terminated without providing at least thirty days advance notice. In determining whether a person is a transient, portions of calendar days shall be counted as full days and uninterrupted periods of time extending both prior and subsequent to the effective date of this Chapter may be considered.
- H. **“Transient lodging tax”** means the tax levied pursuant to this Chapter.

- C. Transient lodging taxes collected by an operator shall be held in trust until remitted to the City.
- D. No operator shall represent to the public that the transient lodging tax will not be added to the room rental charge, will be absorbed by the operator or will be refunded in a manner contrary to this Chapter.
- E. In lieu of paying the transient lodging tax to an operator, a transient may remit the tax directly to the Finance Department. Any transient who opts to remit the transient lodging tax directly to the Finance Department shall provide written proof of such remittance to the operator.

In the event a retailer has no permanent place of business in the state or has more than one place of business, the place or places at which the retail sales are consummated shall be determined under rules and regulations to be prescribed and adopted by the Board of Equalization.

5.04.040 Constitutional apportionment

None of the fees provided for by this Article shall be so applied as to occasion an undue burden upon interstate commerce or be violative of the equal protection and due process clauses of the Constitutions of the United States and the State of California.

In any case where a fee is believed by a certificate holder to place an undue burden upon interstate commerce or be violative of such constitutional clauses, the certificate holder may apply to the City Clerk for an adjustment of the fee. Such belief shall not excuse failure to pay the applicable fee when due. Such application may be made before, at the time of, or within six months after, payment of the prescribed fee. A certificate holder shall, by sworn statement and supporting testimony, show his or her method of business and the gross volume or estimated gross volume of business and such other information as the City Clerk may deem necessary in order to determine the extent, if any, of such undue burden or violation. The City Clerk shall then conduct an investigation, and, after having first obtained the written approval of the City Attorney, shall fix as the fee for the certificate holder, an amount that is reasonable and nondiscriminatory, and if the fee has already been paid, shall order a refund of the amount over and above the fee so fixed. In fixing the fee to be charged, the City Clerk shall have the power to base the fee upon a percentage of gross receipts or any other measure which will assure that the fee assessed shall be uniform with that assessed on businesses of like nature, so long as the amount assessed does not exceed the fee as prescribed by this Article. Should the City Clerk determine the gross receipts measure of license fee to be proper basis, he or she may require the certificate holder to submit, either at the time of termination of the certificate holder's business in the City, or at the end of each quarter, a sworn statement of the gross receipts and pay the amount of the fee therefor, provided that no additional fee during any one calendar year shall be required after the certificate holder shall have paid an amount equal to the annual fee as prescribed in this Article.

5.04.050 Transacting business without registration certificate

- A. The conviction and punishment of any person for transacting any business, show, exhibition or game without a registration certificate shall not excuse or exempt such person from the payment of any fee due or unpaid at the time of such conviction, and nothing in this Article shall prevent a criminal prosecution for any violation of the provisions of this Article.

- B. If and in the event of a failure of a person, firm or corporation conducting, managing, or carrying on a business to secure a registration certificate and pay the fee therefore as provided in this Article, or in the event that a prohibited transient merchant is discovered, then the business inspector of the City is authorized to seize and take into his or her possession the items to be sold and to hold the same until such fees have been paid and a certificate duly issued and properly displayed, or in the case of a transient merchant, to hold the same until claimed by a responsible party against whom legal action can be taken, whereupon the inspector shall release the items confiscated.

5.04.051 Advertising

5.04.055 Fees based on gross receipts

- A. In all cases where the fee to be paid by any person, firm or corporation is based upon the amount of receipts or sales or of business transacted, or upon the number of persons employed or upon the number of vehicles used, or upon the amount of the maximum admission fee charged, or upon the number of tables used for any game, or upon the number of rooms in any building, such person, firm or corporation shall, before obtaining a registration certificate for his or her, their or its business, and within ten days after the beginning of each certificate period, if such business is established or in operation during any part of such ten days, render to the City Clerk, for his or her guidance in ascertaining the fee to be paid by such person,

firm or corporation, a written statement sworn to before some officer authorized to administer oaths, showing the total amount of receipts of sales or of business transacted during the calendar year next preceding the date of such statement, or the number of vehicles used, or the amount of the maximum admission fee charged, or the number of tables used for any game by such person, firm or corporation, or the number of rooms contained in such building, at the date of such statement; provided, however, that where the quarterly fee to be paid under any section of this article is based upon the gross annual receipts or of business transacted, or the gross annual commission of fees received or collected, only one such statement need be filed at the time the first quarterly registration certificate is procured, and the fee to be paid for the succeeding quarterly periods of the year in which such statement is filed shall be determined by and be based upon the statement filed at the time the first quarterly registration certificate is procured.

- B. No such statement shall be conclusive upon the city or upon any officer thereof as to the matter thereon set forth, and the same shall not prejudice the right of the City to recover any amount that may be ascertained to be due from such person, firm or corporation in addition to the amount shown by such statement to be due in case such statement should be found to be incorrect. If any person, firm or corporation hereby required to make any such statement fails to do so, such person, firm or corporation shall pay a fee at the maximum rate prescribed in this Article for the business, show, exhibition or game carried on by such person, firm or corporation, and shall be guilty of a violation of this Article and be punishable therefor as hereinafter provided; provided, however, that in any case where the first business registration certificate is to be issued for a newly established business, no statement need to be made, at the time such first certificate is issued, of the amount or receipts of sales or business transacted, and the minimum rate prescribed in this Article shall be paid at the time such first certificate is issued for any such newly established business, the fee for which is regulated by the amount of receipts or sales or the business transacted. At the end of the year during which the operation of such business is commenced, the fee for the preceding period shall be ascertained and paid. The amount of such fee shall be ascertained by dividing the amount of the gross sales or receipts of such business by the number of days during which such certificate has been in force and multiplying the result by three hundred sixty-five and applying such result to the rate applicable thereto to determine the fee and from this amount deduct the amount previously paid. Such gross receipts so determined shall be the basis of the fee for the next succeeding year.

5.04.060 Gross receipts - Defined

“Gross receipts” as used in this Article, except as otherwise specifically provided, means the total amount of revenue received as the sale prices of all sales and the total amount charged or received for the performance of any action, service or employment of whatever nature it may be, for which a charge is made or credit allowed, when such service, act or employment is done as a part of or in connection with the sale of materials, goods, wares and merchandise, or the performance of services; “gross receipts” includes all receipts, cash, credits and property of any kind or nature, and any amount for which a credit is allowed by the seller to the purchaser without any deduction therefrom on account of the cost of the property sold, the cost of the materials used, labor or service costs, interest paid or payable, or losses or other expenses whatsoever; “gross receipts” further includes commissions received for the sale of real property and the annual gross receipts, fees or commissions of every person, firm, or corporation conducting, managing, carrying on or engaged in any business or profession of any nature whatsoever, including the providing of services relating thereto; but “gross receipts” does not include cash discounts allowed and taken on sales and any sales tax paid to the state, a municipality or public entity.

If a person owns, leases, occupies or otherwise maintains within the City a place or premises from which he engages in business activities outside the City, he shall include a portion of the gross receipts from work performed outside the City in the measure of the fee. In the absence of substantial information to the contrary 20% of gross receipts from work performed outside the City shall be deemed to be that portion subject to the fee as attributable to business engaged in within the City.

- A. Require the use of a greater percentage of such gross receipts, stating in writing to the certificate holder his or her reasons therefor; or
- B. Approve the use of a lesser percentage of such gross receipts, based upon proof presented to him or her in writing by the taxpayer that the 20% factor is inequitable. Any such variation from the 20% factor established in this provision shall be approved in writing by the City Clerk or his or her authorized representative. Where there are no measurable gross receipts directly attributable to operations carried on from a place of business within the City, such operations shall be deemed to produce gross receipts in an amount at least equal to the cost of maintaining such operations, such cost of operations shall include, but not be limited to, rent and/or depreciation, salaries and wages, fixed charges and other expenses.

(4) For the leasing or renting of dwelling unit(s) a separate business registration certificate shall be required for each legal parcel upon which the rental unit(s) are located, unless the ownership of a building is divided as provided in Government Code §66426 and §66427 as a condominium, community apartment project or stock cooperative project, and then a separate business registration certificate shall be required for each such division where the owner owns less than four (4) units in one complex. Where the owner owns four (4) or more such units located in the same complex only one business registration certificate shall be required. For the purposes of this Section “complex” shall mean the land divided into condominiums, a community apartment project, or a stock cooperative project with any attendant common area and which is treated together as unified whole.

It shall be presumptive evidence that a single family dwelling is considered rented if the owner fails to claim the home owner's property tax exemption annually applicable according to San Bernardino County Tax Assessor's Records. Whenever an owner fails to claim such exemption for any calendar year, it shall be presumed that the properties were rented and therefore subject

to the business registration, unless the owner establishes to the satisfaction of the City Clerk that the premises were not rented, provided however that the owner had not advertised or otherwise held out property as being available for lease or rent during that calendar year.

(5) For the leasing or renting of commercial or industrial building(s), for the leasing or renting of land, and for the leasing or renting of office(s), suite(s) or other business rental(s), a separate business registration certificate shall be required for each legal parcel upon which the rental unit(s) are located, or for each building if such building is located on more than one legal parcel. Where the owner owns four (4) or more such units located in the same complex only one Business Registration Certificate shall be required. "Complex" shall have the same definition as that in subdivision (4) above.

(6) It shall be unlawful for any property owner, landlord, manager, or agent to demand, accept, receive or retain any payment of rent if the unit for which the rent is paid has not applied for and received a Business Registration Certificate under this Section. 5.04.526 Increased Cost of Municipal Services

A. The Mayor and Common Council do hereby find and determine that in the area described in subsection E, there is a concentration of multifamily residential housing with an excessively high crime rate including robberies, shootings, murders,

[\[Return to Municipal Code Contents\]](#)

attempted murders, gang activity, and drug dealings, resulting in higher than usual demand for police services, and a high concentration of blight, resulting in a higher than usual need for code enforcement, parking control, and other City services related to blight reduction.

- B. In the area described in subsection E it is hereby determined that the excessive demand of City service is a cost that should not be borne by the general tax payers of the City, but should be the responsibility of those most directly involved who are responsible for the conditions which allow such circumstances to exist and who have the best opportunity to alleviate the problem.
- C. The Mayor and Common Council do hereby further find and determine that the existence of an effective home owner's association tends to mitigate and reduce the existence of the types of crime and blight described in Subsection A due to being closer to the situation and directly involved with the people who are affected by the adverse effects of crime and blight, and are the recipients of improvements in such situations, and due to the fact that those who own or reside in residential property have a greater incentive to care for that property and to make it a safe environment in which to live.
- D. Therefore, in the area described in Subsection E the business registration certificate fee imposed on the operation of rental properties pursuant to San Bernardino Municipal Code Section 5.04.525.F shall be increased by the amount of \$1,000 annually. Provided however, if the owner of such rental property joins an area-wide homeowners association approved by the Mayor and Common Council, and records Conditions, Covenants and Restrictions against the property as approved by the City Attorney, the amount as added by this Section shall no longer, such Conditions, Covenants and Restrictions shall relate to maintenance and landscaping standards, parking restrictions, security measures and the right of the homeowners association, or if such association fails to do so, of the City, to enforce such conditions by means of entry, summary abatement, lien and legal action.
- E. This ordinance shall be known as the Cannabis Business Tax Ordinance.

(Ord. MC-1501, 11-06-18)

5.18.020 Authority and Purpose.

The purpose of this Ordinance is to adopt a tax, for revenue purposes, pursuant to Sections 37101 and 37100.5 of the California Government Code, upon Cannabis Businesses that engage in business in the City. The Cannabis Business Tax is levied based upon business gross receipts and square footage of plant canopy. It is not a sales and use tax, a tax upon income, or a tax upon real property.

The Cannabis Business Tax is a general tax enacted solely for general governmental purposes of the City and not for specific purposes. All of the proceeds from the tax imposed by this Chapter shall be placed in the City's general fund and be available for any legal municipal purpose.

(Ord. MC-1501, 11-06-18)

5.18.030 Intent.

Nothing in this Ordinance shall be interpreted to authorize or permit any business activity that would not otherwise be legal or permissible under laws applicable to the activity at the time the activity is undertaken.

5.18.050 Tax imposed.

- A. Beginning January 1, 2019, there is imposed upon each person who is engaged in business as a cannabis business a cannabis business tax. Such tax is payable regardless of whether the business has been issued a cannabis business license or permit to operate lawfully in the City or is operating unlawfully. The City's acceptance of a cannabis business tax payment from a cannabis business operating illegally will not constitute the City's approval or consent to such illegal operations.
- B. The initial rate of the cannabis business tax shall be as follows:

[\[Return to Municipal Code Contents\]](#)

1. For every person who is engaged in commercial cannabis cultivation in the City:
 - a. Seven dollars (\$7.00) annually per square foot of canopy space in a facility that uses exclusively artificial lighting.
 - b. Four dollars (\$4.00) annually per square foot of canopy space in a facility that uses a combination of natural and supplemental artificial lighting.
 - c. Two dollars (\$2.00) annually per square foot of canopy space in a facility that uses no artificial lighting.
 - d. One dollar (\$1.00) annually per square foot of canopy space for any nursery.

For purposes of this subdivision (B), the square feet of canopy space for a business shall be rebuttably presumed to be the maximum square footage of canopy allowed by the business's City permit for commercial cannabis cultivation, or, in the absence of a City permit, the square footage shall be the maximum square footage of canopy for commercial cannabis cultivation allowed by the state license type. Should a City permit be issued to a business which cultivates only for certain months of the year, the City shall prorate the tax as to sufficiently reflect the period in which cultivation is occurring at the business. In no case shall canopy square footage which is authorized by the City commercial cannabis permit but not utilized for cultivation be deducted for the purpose of determining the tax for cultivation, unless the Tax Administrator is informed in writing and authorizes such reduction for the purpose of relief from the tax prior to the period for which the space will not be used, that such space will not be used.

2. For every person who engages in the operation of a testing laboratory: one percent (1%) of gross receipts.

However, cultivation for a microbusiness shall be taxed at the rate established in 5.18.0S0(B)(I)(a).

[\[Return to Municipal Code Contents\]](#)

- C. The City Council may, by resolution or ordinance, adjust the rate of the cannabis business tax. However, in no event may the City Council set any adjusted rate that exceeds the maximum rate calculated pursuant to Subdivision (D) of this Section for the date on which the adjusted rate will commence.
- D. The maximum rate shall be calculated as follows:
1. For every person who is engaged in commercial cannabis cultivation in the City:
 - a. Through January 1, 2021, the maximum rate shall be:
 - i. Ten dollars (\$10.00) annually per square foot of canopy space in a facility that uses exclusively artificial lighting.

 - iii. Four dollars (\$4.00) annually per square foot of canopy space in a facility that uses no artificial lighting.
 - iv. Two dollars (\$2.00) annually per square foot of canopy space for any nursery.
 - b. On January 1, 2022 and on each January 1 thereafter, the maximum annual tax rate per square foot of each type of canopy space shall increase by the percentage change between January of the calendar year prior to such increase and January of the calendar year of the increase in the Consumer Price Index ("CPI") for all urban consumers in the Riverside-San Bernardino-Ontario area as published by the United States Government Bureau of Labor Statistics. However, no CPI adjustment resulting in a decrease of any tax imposed by this subsection shall be made.
 2. For every person who engages in the operation of a testing laboratory, the maximum tax rate shall not exceed two and a half percent (2.5%) of gross receipts.
 3. For every person who engages in the retail sales of cannabis as a retailer (dispensary) or non-store front retailer (delivery business), or microbusiness (retail sales activity) the maximum tax rate shall not exceed six percent (6%) of gross receipts.

[\[Return to Municipal Code Contents\]](#)

5. For every person who engages in a cannabis manufacturing, processing, or microbusiness (non-retail activity) or any other type of cannabis business not described in Section (D) (1), (2), (3) or (4), the maximum tax rate shall not exceed four percent (4%) of gross receipts. However, the maximum tax rate for cultivation for a microbusiness shall be the rate established in 5.18.050(0)(1)(a)(i), as may be increased from time to time by the provisions of 5.18.050(D)(l)(b).

(Ord. MC-1501, 11-06-18)

5.18.060 Reporting and remittance of tax.

- A. The cannabis business tax imposed by this Chapter shall be paid, in arrears, on a quarterly basis. For commercial cannabis cultivation, the tax due for each calendar quarter shall be based on the square footage of the business's canopy space during the quarter and the rate shall be twenty-five percent (25%) of the applicable annual rate. For all other cannabis businesses activities, the tax due for each calendar quarter shall be based on the gross receipts for the quarter.
- B. Each person owing cannabis business tax for a calendar quarter shall, no later than the last day of the month following the close of the calendar quarter, file with the Tax Administrator a statement of the tax owed for that calendar quarter and the basis for calculating that tax. The Tax Administrator may require that the statement be submitted on a form prescribed by the Tax Administrator. The tax for each calendar quarter shall be due and payable on that same date that the statement for the calendar quarter is due.
- C. Upon cessation of a cannabis business, tax statements and payments shall be immediately due for all calendar quarters up to the calendar quarter during which cessation occurred.
- D. The Tax Administrator may, at his or her discretion, establish shorter report and payment periods for any taxpayer as the Tax Administrator deems necessary to ensure collection of the tax. The Tax Administrator may also require that a deposit, to be applied against the taxes for a calendar quarter, be made by a taxpayer at the beginning of that calendar quarter. In no event shall the deposit required by the Tax Administrator exceed the tax amount he or she projects will be owed by the taxpayer for the calendar quarter. The Tax Administrator may require that a taxpayer make payments via a cashier's check, money order, wire transfer, or similar instrument.

[Return to Municipal Code Contents]

- E. For purposes of this section, the square feet of canopy space for a business shall be rebuttably presumed to be no less than the maximum square footage of canopy allowed by the business's City permit for commercial cannabis cultivation, or, in the absence of a City permit, the square footage shall be the maximum square footage of canopy for commercial cannabis cultivation allowed by the state license type. In no case shall canopy square footage which is authorized by the permit or license but not utilized for cultivation be excluded from taxation unless the Tax Administrator is informed in writing, prior to the period for which the space will not be used, that such space will not be used.

If a person believes that the tax, as applied to him or her, is impermissible under applicable law, he or she may request that the Tax Administrator release him or her from the obligation to pay the impermissible portion of the tax.

- B. The notice of assessment shall separately set forth the amount of any tax known by the Tax Administrator to be due or estimated by the Tax Administrator, after consideration of all information within the Tax Administrator's knowledge concerning the business and activities of the person assessed, to be due under each applicable section of this Chapter, and shall include the amount of any penalties or interest accrued on each amount to the date of the notice of assessment.

6.01.010 Findings

The Mayor and Common Council find that, in order to protect the residents of the City of San Bernardino, and in order to protect the welfare of the animals within the City, the following minimum standards of care for animals within the City of San Bernardino shall be established and enforced to encourage responsible animal ownership.

6.01.020 Definitions

The following words as used in this Title shall have the following meanings:

- A. “Abandon” means to desert, forsake, or absolutely give up an animal without having secured another owner or custodian for the animal or by failing to provide the elements of basic care as set forth in §6.01.060 for a period of 48 hours or more.

[\[Return to Municipal Code Contents\]](#)

- B. “Adequate care” or “care” means the responsible practice of good animal husbandry, handling, production, management, confinement, feeding, watering, protection, shelter, transportation, treatment, grooming, the provision of veterinary care when needed to prevent suffering or impairment of health and, when necessary, euthanasia, appropriate for the age, species, condition, size and type of the animal.
- C. “Adequate exercise” or “exercise” means the opportunity for the animal to sufficiently move to maintain normal muscle tone and mass for the age, species, size and condition of the animal.
- D. “Adequate feed” means access to, and the provision of, food which is of sufficient quantity and nutritive value to maintain each animal in good health; is accessible to each animal; is prepared so as to permit ease of consumption for the age, species, condition, size and type of each animal; is provided in a clean and sanitary manner; is placed so as to minimize contamination by excrement and pests; and is provided at suitable intervals for the species, age, and condition of the animal, but at least once daily, except as prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal for the species.
- E. “Adequate shelter” or “shelter” means provision of, and access to, shelter that is suitable for the species, age, condition, size, and type of each animal; provides adequate space for each animal; is safe and protects each animal from injury, rain, hail, direct sunlight, standing water, the adverse effects of heat or cold, physical suffering, and impairment of health; is properly cleaned; enables each animal to be clean and dry, except when detrimental to the species; and for dogs and cats, provides a solid surface, resting platform, pad, floor mat, or similar device that is large enough for the animal to lie on in a normal manner and can be maintained in a sanitary manner. Under this Title, kennels whose wire grid or slat floors do not protect the animal’s feet or toes from injury are not adequate shelter.
- F. “Adequate space” means sufficient space to allow each animal to (i) easily stand, sit, lie, turn about, and make all other normal body movements in a comfortable, normal position for the animal and (ii) interact safely with other animals in the enclosure. When an animal is tethered, “adequate space” means a tether that permits the actions in (i) and (ii) and is appropriate to the age and size of the animal according to professionally accepted standards for the species; is attached to the animal by a properly applied collar, halter, or harness configured so as to protect the animal from injury and prevent the animal or tether from becoming entangled with other objects or animals, or from extending over an object or edge that could result in the strangulation or injury of the animal; and is at least eight (8) feet in length, except when the animal is being walked on

a leash or is attached by a tether to a lead line. When freedom of movement would endanger the animal, temporarily and appropriately restricting movement of the animal according to professionally accepted standards for the species is considered provision of adequate space.

- G. “Adequate water” means provision of, and access to, clean, fresh, potable water of a drinkable temperature which is provided in a suitable manner, in sufficient volume, and at suitable intervals, but at least once every twelve hours, to maintain normal hydration for the age, species, condition, size and type of each animal, except as prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal for the species; and is provided in clean, durable receptacles which are accessible to each animal and are placed so as to minimize contamination of the water by excrement and pests or an alternative source of hydration consistent with generally accepted husbandry practices.
- H. “Ambient temperature” means the temperature surrounding the animal.
- I. “Animal” means any non-human vertebrate species including fish except those fish captured and killed or disposed of in a manner consistent with contemporary practices.
- J. “Animal shelter” means a facility operated by any locality, for the purpose of impounding or harboring seized, stray, homeless, abandoned, or unwanted animals; or a facility operated for the same purpose under a contract with any county, city, town, or incorporated humane society or society for the prevention of cruelty to animals.
- K. “Collar” means a well-fitted device, appropriate to the age and size of the animal, attached to the animal’s neck in such a way as to prevent trauma or injury to the animal. A chain is not considered an acceptable collar except during training sessions under the direct supervision of an owner or handler.
- L. “Companion animal” means any domestic or feral dog, domestic or feral cat, non-human primate, guinea pig, hamster, rabbit not raised for human food or fiber, exotic or native animal, reptile, exotic or native bird, or any animal under the care, custody, or ownership of a person or any animal which is bought, sold, traded, or bartered by any person. Agricultural animals, game species, or any animals regulated under federal law as research animals shall not be considered companion animals for the purposes of this Title.
- M. “Direct and immediate threat” means any clear and immediate danger to an animal’s health, safety or life.

- N. “Emergency veterinary treatment” means veterinary treatment to prevent or alleviate suffering, stabilize a life-threatening condition, or to prevent further transmission or progression of disease.
- O. “Enclosure” means structure used to house or restrict animals from running at large or harming themselves and should be of appropriate size for the age, species and condition of the animal consistent with generally accepted husbandry standards for the species.
- P “Euthanasia” means the humane destruction of an animal accomplished by a method that involves instantaneous unconsciousness and immediate death or by a method that involves anesthesia, produced by an agent which causes painless loss of consciousness, and death during such loss of consciousness.
- Q. “Exhibitor” means any person or business who shows or handles any animals for public or private purposes.
- R. “Groomer” means any person, who, for a fee, cleans, trims, brushes, makes neat, manicures, or treats for external parasites, an animal.
- S. “Grooming” means maintaining an animal’s coat and body condition in an appropriate state for the age and species of the animal, including such things as cleaning, trimming, thinning, or brushing the coat, manicuring, and removing foreign objects.

- CC. "Properly cleaned" means that carcasses, debris, food, waste, and excrement are removed from the yard, property, house and primary enclosure with sufficient frequency to minimize the animal's contact with the above-mentioned contaminants; that the primary enclosure is sanitized with sufficient frequency to minimize odors, insects, and the hazards of disease preventing the animals confined therein from being directly or indirectly sprayed with the stream of water, or directly or indirectly exposed to hazardous chemicals or disinfectants.
- (Ord. MC-1214, 2-22-06)
- DD. "Properly lighted" means sufficient illumination to permit routine inspections, maintenance, cleaning, and housekeeping of the housing facility, and observation of the animal; to provide regular diurnal lighting cycles of either natural or artificial light, uniformly diffused throughout the animal facilities; and to promote the well-being of the animals.

The license shall expire the same month as the month the rabies vaccination expires. The first license fee for a dog may be prorated to expire at the same time as the rabies vaccination expires.
- C. 6.08.140 Running at Large

- A. Persons owning, having control or custody of any dog or other animal shall, at all times, keep the animal on a leash (except in an authorized off-leash dog park) or secured by the other suitable means of restraint or confined by a fence on their property or the private property of another, with the permission of the owner of that property, so as to prevent the animal from being at large, biting or harassing any person engaged in a lawful act, interfering with the use of public property or with the use of another person's private property, or being in violation of any other section of this Title.
- B. The provisions of paragraph A of this Section shall not apply to the following:
 - (1) Any dog used by a law enforcement agency.
 - (2) Any dog while participating in a formal dog obedience training program or any dog participating in a dog show or other program expressly permitted or sponsored by the City.

[\[Return to Municipal Code Contents\]](#)

- (3) Any dog within a posted off-leash area in any City park, as established by Resolution of the Mayor and Common Council; provided, however, that nothing herein shall relieve the owner or person having charge, custody, care and/or control of such dog from the responsibility to maintain proper control over the dog nor shall this paragraph be construed as relieving such person from any liability for any damages arising out of his or her use of an off-leash area.

C. In order to be subject to the exemption set forth in paragraph B(3) of this Section, all persons must comply with all requirements of law and the following rules and regulations when utilizing any off-leash area:

- (1) No dog is permitted in an off-leash area except when in the care, custody, and control of a person at least (13) years old. Any person under thirteen (13) years of age must be accompanied by, and be under the direct supervision of, an adult. No person may have more than two dogs in an off-leash area at any one time. No dogs are permitted in the off-leash area except during posted hours of operation.
- (2) All dogs must be at least four months of age, vaccinated for rabies, and currently licensed by the City's Animal Control Division. No dog that is sick, in heat, injured, or less than four (4) months of age, or which displays aggressive behavior towards other dogs or humans is permitted in any off-leash area.
- (3) Any person having care, custody or control of a dog in an off-leash area shall quiet or remove the dog if it barks and shall promptly remove and properly dispose of any waste deposited by such dog.
- (4) No animals other than dogs are permitted in any off-leash area.
- (5) The designated hours of use for the off-leash area shall coincide with the regular hours of the park as designated by §12.68.020 of this Code.
- (6) As a condition of admission to an off-leash area, the owner or person in custody of the dog shall carry a suitable container or instrument for the removal and disposal of dog feces.
- (7) Any person having care, custody or control of a dog in the off-leash area must have in his or her possession a leash for such dog which shall be worn by the dog at all times the dog is not in the off-leash area.
- (8) All persons will otherwise comply with all rules governing City parks and all relevant parking regulations.

(9) The use of an off-leash area by any dog shall constitute consent of the dog's owner or any person having the care, custody or control of the dog, to strictly follow the rules in §6.08.140 and shall constitute a waiver of liability to the City, its elected officials, officers and employees, an assumption of all risks, and an agreement and undertaking to protect, indemnify, defend and hold harmless the City, its elected officials, officers and employees, for any injury or damage to persons or property during any time that the dog is in the off-leash area.

- D. Any person violating any provisions of this section, including, but not limited to, violation of any rules applicable to use of off-leash areas, shall be guilty of an infraction, punishable as set forth in Chapter 1.12 of this Code.
- E. Civil Remedies Available. The violation of any of the provisions of this Ordinance shall constitute a nuisance and may be abated by the City through civil process by means of restraining order, preliminary or permanent injunction or in any other manner provided by law for the abatement of such nuisances.

(Ord. MC-1214, 2-22-06)

6.08.145 Methods of Restraint - Improper Restraint

- A. Any person walking a dog on a leash on public property including sidewalks, and the private property of others, must keep the dog on a leash and under physical control being able to restrain the movement of the dog with the leash at all times. The leash must be kept in good condition; of sufficient strength to prevent breaking under pressure; and of material generally resistant to chewing or gnawing by an animal. The leash must be of a length to control the dog from harassing pedestrians or other animals at all times.
- B. Fencing must be adequate in terms of size to the number of dog(s) contained in the fenced area to prevent the dog(s) from escaping, of recognized construction methods, and in compliance with all other sections of the San Bernardino Municipal Code. Gates must be properly secured by a latching or locking mechanism and the height and condition of the fence must be able to prevent the dog(s) from escaping.

A fence should be at least two and one-half (2 ½) times the height of the dog's shoulder when the dog is standing on four (4) legs and be in compliance with all other sections of the San Bernardino Municipal Code. However, should a dog be able to escape from a fenced yard, either by climbing, jumping or digging, additional fencing height, kennels, or other restraint methods may be required in addition to fencing. Fencing must be maintained in continued good condition. Existing fencing

[\[Return to Municipal Code Contents\]](#)

regardless of height will be considered an acceptable means of restraint unless and until a written complaint is filed with the Division of Animal Control and evaluated, or if fencing allows dogs to reach over and harass people on adjacent private property or people on the public right of way.

- C. Invisible fencing may be used as an alternative to traditional fencing as long as the system is installed by an authorized dealer of such products and set up and maintained in the following manner:
 - (1) The owner and handler of the dog receive training regarding the use and maintenance of said system.
 - (2) The owner or handler must post signs visible from the public streets or driveways sufficient to alert the general public upon approaching the property where the fencing is located.
 - (3) Two (2) signs are required stating that the “Dog is confined by electronic device,” the name, address and telephone number of the company, any trademark and/ or logo of either the company that installed the system or the company that maintains the system. Signs shall be at least six (6) inches by eight (8) inches and be displayed in a prominent and visible location.
- D. Dog kennels must be tall enough to prevent the dog(s) from jumping over, or have a secure top, and must be able to prevent dog(s) from digging out. Kennels must have a minimum of 100 square feet for one dog, plus an additional 25 square feet for each additional dog in the same enclosure.
- E. Cable runs are authorized as an alternative to fencing or kennel runs. Cable runs must allow the animal freedom of motion to move about at will within a protected area on the property without becoming tangled in obstacles. The cable runs shall be located in the yard area so as to prevent the dog from traversing upon another person’s property, public sidewalks or public property, and from charging and harassing persons and pedestrians utilizing these properties. Cables must be sized according to the manufacturer’s specifications for the weight of the animal.
- F. Tie-outs must be of sufficient length to allow the animal freedom of movement without becoming tangled, but never less than eight (8) feet in length, excluding the length of the collar. Tie-outs must be made of a nonrigid material. Tie-outs shall not be the primary means of restraint and no animal shall be kept in this manner for more than 3 hours a day.
- G. It is unlawful to use a weighted chain collar as a method of restraint.

- H. No person shall use a dog as a weapon or to threaten or harass other person(s) or animal(s), or keep a dog in such a manner wherein the dog charges a fence, leaps up and reaches across the fence in an assaultive manner to a pedestrian on public property or a neighbor legally on private property.
- I. If a dog is found running at large by the City of San Bernardino Animal Control, the incident shall constitute prima facie evidence that current restraint methods are inadequate, and the owner shall be required to correct any conditions that permitted the dog to run-at-large, and provide such additional restraints as are necessary to secure and maintain the future restraint of the dog.

(Ord. MC-1264, 2-19-08; Ord. MC-1214, 2-22-06)

6.08.150 Vaccination of Other Animals

- A. The same vaccination procedure and exemption shall apply to other animals if the Director of Animal Control or designated officer shall deem this prudent to ensure the safety of the public based on the recommendations of the State Department of Health Services.
- B. Animals shall be vaccinated against rabies with a vaccine currently licensed for use in such animal(s) in the United States and approved for use in such animal by the State Department of Health Services.

(Ord. MC-833, 5-19-92)

6.08.160 Reporting of Animal Bites

- A. Any person having knowledge of an animal bite to a human being shall report such bite to the Animal Control Division immediately.
- B. An owner or custodian of any dog or cat which is known to have been bitten by or having contact with a rabid animal or by an animal suspected of having rabies shall immediately notify the Animal Control Division.

(Ord. MC-833, 5-19-92)

6.08.170 Confinement or Destruction of Dogs and Cats Suspected of Having Rabies

- A. Any dog or cat found within the City reasonably suspected of having rabies, having contact with a rabid or suspected rabid animal, or exhibiting the common symptoms of such disease shall be taken into custody immediately by the Animal Control Officer and confined in the City animal shelter or at a private veterinarian establishment approved by the Director. The animal shall be kept in solitary confinement for such time as recommended by the State Department of Health Services to determine whether the animal is afflicted with rabies.
- B. At the time any such animal is impounded, an attempt shall be made to discover whether the animal has been vaccinated previously against rabies. If it is found that such animal has not been vaccinated effectively, then such animal shall be vaccinated by a licensed veterinarian after the last day of the observation period described in paragraph (A) above, unless the animal is humanely destroyed pursuant to paragraph (C) below.
- C. The Animal Control Officer may cause to be humanely destroyed any dog or cat which, in the opinion of a veterinarian or animal health technician, has rabies, or is in need of confinement pursuant to paragraph (A) above, but such confinement is impossible or impractical. In such circumstance, the Animal Control Officer shall arrange to have the head of such dog or cat examined for the purpose of confirming rabies. If the opinion of a veterinarian or animal health technician is not reasonably obtainable, the Officer may act on his or her own opinion.
- D. All expenses incurred with the enforcement of the provisions of this Section shall be borne by the owner or custodian of the dog or cat.

(Ord. MC-833, 5-19-92)

6.08.180 Confinement or Destruction of Dogs and Cats Which Have Bitten a Person

- A. Every dog or cat which has bitten a person, or is suspected of having bitten a person, shall be quarantined away from other animals for a period of ten (10) days from the date of the bite, or other period of time as determined by the State Department of Health Services. The Animal Control Officer may order the animal quarantined at the shelter, at a private veterinarian clinic, or at the home of the owner, depending on the conditions of the bite, the severity of the bite, previous bite history, the owner's ability to satisfy quarantine orders, and whether or not local ordinances were in observance at the time of the bite.

[Return to Municipal Code Contents]

- B. If the animal does not have a current rabies vaccination, it shall not be vaccinated until the end of the quarantine period.
- C. The Animal Control Officer may cause to be humanely destroyed any dog or cat when, in the opinion of a veterinarian or animal health technician, such confinement as described in paragraph (A) is impossible or impractical. In such cases, the Animal Control Officer shall arrange to have the head of such dog or cat examined for rabies. If the opinion of a veterinarian or animal health technician is not reasonably obtainable, the Officer may act on his or her own opinion.
- D. All expenses incurred with the enforcement of the provisions of this Section shall be borne by the owner or custodian of the dog or cat.

(Ord. MC-833, 5-19-92)

6.08.190 Confinement or Destruction of Other Animals

Any animal, other than a dog or cat, which has bitten a person, has had contact with a rabid or suspected rabid animal, is reasonably suspected of having rabies, or exhibiting the common symptoms of rabies, shall be confined for quarantine purposes or destroyed in accordance with the recommendations of the State Department of Health Services or the local Health Officer.

(Ord. MC-833, 5-19-92)

6.08.200 Concealment or Withholding of Animals

No person shall transport or carry, on any public highway or public roadway, any dog(s) or other animal(s) in a motor vehicle, unless the animal is safely enclosed within the vehicle or protected by a cap or container, cage or other device, that is adequately ventilated and that will prevent the dog(s) or other animal(s) from falling from, being thrown from, or jumping from the motor vehicle.
- B. No person shall leave a dog or any other animal in an unattended vehicle without adequate ventilation, or in such a manner as to subject the animal to extreme temperatures which adversely affect the animal's health or welfare.

[Return to Municipal Code Contents]

provided in §6.14.080 of this Code, to determine whether or not the dog in question should be declared potentially dangerous or vicious. Whenever possible, any complaint received from a member of the public shall be sworn to and verified by the complainant and attached to the petition. The Animal Control Division shall notify the owner or keeper of the dog that a hearing will be held and that the owner or keeper may present evidence at the hearing. The Animal Control Division shall serve upon the owner or keeper of the dog the notice of the hearing and a copy of the petition either personally or by first class mail with return receipt requested. The hearing shall be open to the public and held not less than five (5) working days, nor more than fourteen (14) working days, after service of the notice upon the owner or keeper of the dog. The Hearing Officer may admit all relevant evidence, including incident reports and affidavits of witnesses, limit the scope of discovery, and may shorten the time to produce records or witnesses. The Hearing Officer may decide all issues even if the owner or keeper fails to appear at the hearing. The Hearing Officer may find, upon a preponderance of the evidence, that the dog is potentially dangerous or vicious and make other orders authorized by this Chapter.

6.09.040 Determination and Orders; Notice; Compliance

After the hearing conducted pursuant to §6.09.030, the owner or keeper of the dog shall be notified, either personally or by first-class mail, postage prepaid, in writing of the determination and orders issued. If the dog is later adjudicated potentially dangerous or vicious or if the owner is found to be in violation

[\[Return to Municipal Code Contents\]](#)

of this chapter, the owner or keeper of the dog will be liable for costs and expenses of impounding the dog. If the Animal Control Officer determines that the impoundment is not contrary to public safety, he or she shall permit the animal to be confined in a City-approved kennel or veterinary facility, at the owner's expense.

The Hearing Officer may, by order, require the muzzling of any dog owned or harbored within the City that is found to be potentially dangerous or vicious, and may specify the period of time during which such dog shall be so muzzled. Any dogs running at large which are not vaccinated, or which are not muzzled, pursuant to such order, shall be forthwith put to death by authorized employees of the City. [\[Return to Municipal Code Contents\]](#)

1. Section 33.1403 Grading, Subsection (c). is amended to read as follows:

8.39.010 Findings, Purpose, and Intent

The Mayor and Common Council has determined that persons who operate vehicles and use them to illegally deposit, discard, dump, and/or place garbage, rubbish, recyclable discards, and/or green waste, bring decay and cause nuisances to local neighborhoods where they so deposit, discard, dump, and/or place such matter. The Mayor and Common Council has further determined that seizing the vehicles of persons who so illegally

[\[Return to Municipal Code Contents\]](#)

deposit, discard, dump, and/or place such garbage, rubbish, recyclable discards, and/or green waste in the City of San Bernardino will deter said nuisances from occurring if their vehicles are subject to seizure and forfeiture. The Mayor and Common Council finds that there is a need to provide for the abatement of such nuisance vehicles.

8.39.020 Nuisance Vehicles

Any vehicle used to illegally deposit, discard, dump, and/or place garbage, rubbish, recyclable discards, or green waste in violation of San Bernardino Municipal Code section 8.24.070(C) is declared a nuisance vehicle, and the vehicle shall be subject to seizure and forfeiture as provided in this Chapter. “Garbage,” “rubbish,” “recyclable discards,” and “green waste” shall be defined as set forth in San Bernardino Municipal Code section 8.24.060. Any person, whether as principal or agent, clerk or employee, either for himself or any other person, or for any body corporate, or as an officer or agent for a corporation, or otherwise, who owns, leases, possesses, conducts, uses or maintains any vehicle (hereinafter referred to as “Vehicle”), used for any of the purposes or acts set forth in this section is guilty of a nuisance.

(Ord. MC-1235, 10-03-06)

In the event that any provision of this Ordinance, or any part thereof, or any application thereof to any person or circumstance, is for any reason held to be unconstitutional or otherwise invalid or ineffective by a court of competent jurisdiction on its face or as applied, such holding shall not affect the validity of the remaining provisions of this Ordinance, or any part thereof, or any application thereof to any person or circumstance or of said provision as applied to any other person or circumstance. It is hereby declared to be the legislative intent of the City that this Ordinance would have been adopted had such unconstitutional, invalid, or ineffective provision not been included herein.

(Ord. MC-1235, 10-03-06)

8.39.030 Right, Title and Interest in Vehicle

Vehicles subject to forfeiture under this Chapter may be seized by any peace officer upon process issued by any court having jurisdiction over the Vehicle. Under this Chapter, seizure without process may be made if any of the following situations exist:

- A. The seizure is incident to an arrest or a search pursuant to a search warrant; or

[\[Return to Municipal Code Contents\]](#)

8.39.070 Forfeiture

- A. Except as provided in subsection H of this section, or Section 8.39.100, if the City Attorney determines that the factual circumstances warrant that the Vehicle described in Section 8.39.020 is subject for forfeiture, the City Attorney shall file a petition for forfeiture with the Superior Court of San Bernardino County.
- B. A petition for forfeiture under this subdivision shall be filed as soon as practicable, but in any case within six (6) months of the seizure of the Vehicle which is subject to forfeiture.
- C. Within thirty (30) days from the seizure, the City Attorney shall cause a notice of the seizure and of the intended forfeiture proceedings, as well as notice stating that any interested party may file a verified claim with the Superior Court in San Bernardino County, to be served by personal delivery or by registered mail upon any person who has an interest in the Vehicle. Whenever a notice is delivered pursuant to this section, it shall be accompanied by a claim form as described in Section 8.39.090 and directions for the filing and service of a claim. If the San Bernardino Police Department finds that any person, other than the registered owner, is the legal owner thereof, and such ownership did not arise subsequent to the date and time of arrest or notification of the forfeiture proceedings or seizure of the Vehicle, it shall immediately send a notice to the legal owner at his or her address appearing on the records of the Department of Motor Vehicles or appropriate federal agency.
 - E. All notices shall set forth the time within which a claim of interest in the Vehicle seized or subject to forfeiture is required to be filed pursuant to Section 8.39.090.
 - F. With respect to a Vehicle described in Section 8.39.020 for which forfeiture is sought and as to which forfeiture is contested, the City of San Bernardino shall have the burden of proving by a preponderance of the evidence that the Vehicle was used as set forth in Section 8.39.020. Trial shall be before the court or by jury. The presiding judge of the Superior Court shall assign the action brought pursuant to this Chapter for trial.
 - G. Upon proof by a preponderance of the evidence that the Vehicle was used for any of the purposes set forth in Section 8.39.020 of this Chapter, the court shall declare the Vehicle a nuisance and order that the Vehicle be seized, if not previously seized and held by the Police Department, forfeited and sold and the proceeds distributed in accordance with this Chapter.
 - H. If no claims are filed, the City Attorney shall prepare a written declaration of forfeiture of the Vehicle to the court and dispose of the Vehicle in accordance with this Chapter. A written declaration of forfeiture signed by the City Attorney under this section shall be deemed to provide good and sufficient title to the forfeited Vehicle. The City Attorney shall provide a copy of the declaration of forfeiture to any person who received notice of the forfeiture proceedings.
 - I. If a claim is timely filed, then the City Attorney shall file a petition for forfeiture pursuant to this section within thirty (30) days of the receipt of the claim.

8.39.080 Innocent Parties; Return of Vehicle

Notwithstanding the provisions of this Chapter, the San Bernardino Police Department shall return a seized Vehicle upon the filing of a timely claim pursuant to section 8.39.090 and upon a showing by the claimant that:

- A. The Vehicle is owned by two or more persons and there is a community property interest in the Vehicle by a person other than the person who used or maintained the Vehicle to illegally deposit, discard, dump and/or place garbage, rubbish, recyclable discards, and/or green waste, and the Vehicle is the sole vehicle available to the person's immediate family; or
- B. The Vehicle is owned by the employer of the person who used or maintained the Vehicle for illegally depositing, discarding, dumping and/or placing garbage, rubbish, recyclable discards, and/or green waste, and the employer files and serves on the City Attorney a declaration or affidavit under penalty of perjury that he or she had no knowledge of said illegal activity; or
- C. The Vehicle is owned by a rental car agency with a duly executed contract with the person who used or maintained the Vehicle for illegally depositing, discarding, dumping and/or placing said garbage, rubbish, recyclable discards, and/or green waste.

8.39.090 Interest Claim

Any person claiming an interest in a Vehicle seized pursuant to Section 8.39.020 must, at any time within ten (10) days from the date of the notice of seizure, file with the Superior Court of the State of California, County of San Bernardino, San Bernardino District, a claim, verified in accordance with Section 446 of the Code of Civil Procedure, stating his or her interest in the Vehicle. An endorsed copy of the claim shall be served by the claimant on the City Attorney within ten (10) days of the filing of the claim.

- A. If a verified claim is filed, the forfeiture proceeding shall be set for hearing on a day not less than thirty (30) days therefrom.
- B. The hearing shall be before the court or by jury.
- C. The provisions of the Code of Civil Procedure shall apply to proceedings under this Chapter unless otherwise inconsistent with the provisions or procedures set forth in this Chapter. [\[Return to Municipal Code Contents\]](#)

8.39.100 Alternative Settlement Procedures

Any person, or his or her servant, agent or employee who owns, leases, conducts, uses or maintains any vehicle for illegally depositing, discarding, dumping and/or placing garbage, rubbish, recyclable discards, and/or green waste, and whose vehicle has been seized in accordance with this Chapter may request to execute a voluntary settlement agreement with the City for the return of the Vehicle. However, nothing in this Section shall require the City to follow these alternative settlement procedures.

Such request shall be made in writing to the City Attorney. The minimum amount of the settlement agreement shall be sufficient to cover all of the City's reasonable administrative costs, including attorneys' fees and personnel time for the seizure and forfeiture action. The costs, salary and expenses of the City Attorney and members of the City Attorney's office in enforcing this ordinance on behalf of the City shall be considered as "attorneys' fees" for the purposes of this section. The executed settlement agreement shall be accompanied by the appropriate settlement fee amount in the form of a money order, cash or cashier's check. All settlement funds shall be distributed as set forth in section 8.39.110(B) and (C).

8.39.110 Sale of Vehicles

In all cases where a Vehicle seized pursuant to this Chapter is forfeited to the City, the Vehicle shall be sold by the Police Department, their agent, or designee, and the proceeds of the sale shall be distributed and appropriated as follows:

- A. To the bona fide or innocent purchaser, conditional vendor, mortgagee or lien holder of the Vehicle, if any, up to the amount of his or her interest in the Vehicle, when the court or City Attorney declaring the forfeiture and sale of the Vehicle orders a distribution to that person.
- B. To the City for all expenditures made or incurred by it in connection with the publication of the notices set forth in this Chapter, and sale of the Vehicle, including expenditures for any necessary repairs, storage or transportation of any Vehicle seized under this Chapter.
- C. The remaining funds shall be placed in the General Fund of the City of San Bernardino, subject to appropriate accounting controls and financial audits for all deposits and expenditures.
- D. All the funds placed in the General Fund pursuant to this Chapter shall not supplant any funds that would, in the absence of this Chapter, be made available to support the law enforcement and prosecutorial efforts of the Police Department or the City Attorney's Office.

[\[Return to Municipal Code Contents\]](#)

8.39.120 Nonexclusive Remedy

This Chapter is not the exclusive regulation or penalty for the illegal depositing, discarding, dumping and/or placing of garbage, rubbish, recyclable discards, and/or green waste. Nothing in this Chapter shall be deemed to prevent the City Attorney from commencing a civil action to abate a nuisance in addition to, alternatively to, or in conjunction with the proceeding set forth in this Chapter, nor shall anything in this Chapter be deemed to prevent the City from commencing a criminal action with respect to the nuisance in addition to alternatively to, or in conjunction with the proceedings set forth in this Chapter, or other ordinance, statute or state law.

8.39.130 Severability

If any provision of this Chapter is determined by any court of competent jurisdiction, or by any federal or state agency having jurisdiction over its subject matter, to be invalid and in conflict with any paramount federal or state law or regulation now or hereafter in effect, or is determined by that court or agency to require modification in order to conform to the requirements of that paramount law or regulation, then that provision will be deemed a separate, distinct, and independent part of this chapter, and such determination will not affect the validity and enforceability of any other provisions. If that paramount federal or state law or regulation is subsequently repealed or amended so that the provision of this chapter determined to be invalid or subject to modification is no longer in conflict with that law or regulation, then that provision will again become effective and will thereafter be binding.

valid construction permit, approved construction plan, and, if applicable, an NPDES Storm Water permit and the discharge is not prohibited under Section 8.80. 206 of this chapter.

It is prohibited to establish, use, maintain and/or continue any illicit connection to the City's storm water drainage system. This prohibition is retroactive and applies to connections made in the past, regardless of whether the connection was made under a permit or other authorization or whether the connection was permissible under the law or practices applicable or prevailing at the time of the connection. - (1) Discharge non-storm water directly or indirectly to the City's storm water drainage system, or any street, lined or unlined drainage channel which leads to the City's storm drain or directly or indirectly into any waters of the state unless such discharge is authorized by either a separate NPDES Permit or as otherwise specified in §8.80.207 of this chapter. If such discharge is permitted by a NPDES permit or is generally exempted, but causes the City to violate any portion of its NPDES Permits for storm water discharges, such discharge is also prohibited;
- (2) Discharge storm water into the City's storm water drainage system containing pollutants that have not been reduced to the maximum extent practicable;
- (3) Throw, deposit, leave, maintain, keep, or permit to be thrown, deposited, placed, left or maintained, any refuse, garbage, sediment or other discarded or abandoned objects, articles, and accumulations, in or upon any street, alley, sidewalk, storm

8.80.207 Exceptions to the Prohibited Discharges

The following discharges of non-storm water into the City's storm drainage system are generally exempt from the Prohibited Discharges listed in Section 8.80.206 of this chapter. However, Subsections 12-22, below, have been identified as potential significant sources of pollutants and require coverage under the Regional Board's De Minimus permit as well as prior approval by the City Engineer before discharge (see *note below):

*Note: The City of San Bernardino requires that a “Non-Storm Water Discharge Notification Form” be submitted to the Development Services Department for approval of these discharges, five days prior to any planned discharges or, as soon as possible, for any unplanned discharges. The Notification Form is available from the Development Services Department counter. Monitoring may also be required for these discharges.

The Regional Board may issue Waste Discharge Requirements for discharges

[\[Return to Municipal Code Contents\]](#)

exempted from NPDES requirements, if identified to be a significant source of pollutants. The Executive Officer of the Board may also add categories of non-storm water discharges that are not significant sources of pollutants or remove categories of non-storm water discharges listed above based upon a finding that the discharges are a significant source of pollutants. In this case, the list of exempted discharges, above, would be adjusted accordingly.

8.80.208 Compliance with Best Management Practices (BMPs)

Any person undertaking any activity or operation in the City of San Bernardino that could potentially cause or contribute to storm water pollution or a discharge of non-storm water shall comply with all applicable Best Management Practices (BMPs) as listed in the California Storm Water Best Management Practice Handbooks or the current, San Bernardino County Storm Water Program's "Report of Waste Discharge", to reduce pollutants in storm water runoff and reduce non-storm water discharges to the City's storm water drainage system to the maximum extent practicable or to the extent required by law.

8.80.209 Treatment of Storm Water Runoff

If a discharger has the potential to introduce pollutants into the City's storm water drainage system or is exceeding EPA Parameter Benchmark Values, the City may require the installation of appropriate storm water treatment equipment or devices. These devices shall reduce pollutant constituents to the degree of reduction attainable through the application of the best management practices to the maximum extent practicable. Any required treatment equipment or devices shall be provided, operated, and maintained at the expense of the discharger. Detailed plans showing the treatment device and operating procedures shall be submitted to the City for review, and shall be acceptable to the City before construction or installation of the equipment. The review and approval of such plans and operating procedures will in no way relieve the discharger from the responsibility of modifying the facility as necessary to treat storm water runoff or prevent the introduction of storm water pollutants to comply with this chapter.

8.80.210 Affirmative Defense

A discharger shall have an affirmative defense in any action brought against it alleging a violation of Section 8.80.206 of this chapter where the discharger can demonstrate it did not know or have reason to know that its discharge, alone or in conjunction with a discharge or discharges from other sources, would cause violation of this chapter or the Areawide Urban Storm Water Runoff Permit.

8.80.211 Spill Containment

Persons storing chemicals or chemical waste outdoors shall be required to install spill containment subject to requirements established by the City Engineer and Federal, State and County Standards. Persons storing any other materials or equipment that are potential sources of storm water pollution are also required to install spill containment.

No person shall operate a spill containment system that could allow incompatible materials and/or wastes to mix, thereby creating hazardous or toxic substances in the event of failure of one or more containers. Spill containment systems shall consist of a system of dikes, walls, barriers, berms and/or other devices designed to contain the spillage of the liquid contents of the containers stored in them and to minimize the buildup of storm water from precipitation, and run-on from roof drainage and outside areas. If the spill containment system does not have a roof which covers the entire contained area, the spill containment system shall have the capacity to contain precipitation from at least a 24 hour, 25 year rainfall event plus ten (10) percent of the total volume of the material stored there or the volume of the largest container, whichever is greater. Spill containment systems shall also be constructed of impermeable and non-reactive materials to the materials and/or wastes being contained. Spilled and/or leaked materials and/or wastes and any accumulated precipitation shall be removed from the spill containment system in as timely a manner as is necessary to prevent the overflow of the spill containment system.

Unless otherwise approved by the City Engineer, all chemicals or wastes discharged within the spill containment system shall be disposed of in accordance with all applicable Federal, State, and local rules, regulations, and laws, and shall not be discharged into the City's sanitary sewer system, storm water drainage system or onto the ground.

8.80.212 Immediate Notification of Accidental Discharge

Protection of the City's storm water drainage system from the accidental discharge of prohibited materials or wastes is the responsibility of the person or persons in charge of such material. Detailed plans showing facilities and operating procedures to provide this protection shall be submitted to the City Engineer for review, and shall be approved by the City Engineer prior to any construction. All new and existing dischargers shall complete such a plan. Review and approval of such plans and operating procedures shall not relieve the discharger from the responsibility to modify his or her facility as necessary to meet the requirements of this chapter.

A notice shall be permanently posted in a prominent place advising employees whom to contact in the event of an accidental discharge. Employers shall ensure that all employees are advised of the emergency notification procedures. In the event of an accidental discharge, it is the responsibility of the discharger to immediately telephone and notify the proper authorities.

All discharges released into the City's storm water drainage system, including a street

[\[Return to Municipal Code Contents\]](#)

or gutter, shall be immediately reported to the City's Development Services Department and Fire Department. All discharges that pose a threat to human health or the environment shall be reported to the Executive Officer of the California Regional Water Quality Control Board within 24 hours by telephone or e-mail and followed with a written report of the spill event within 5 days. At minimum, all sewage spills over 1,000 gallons and all reportable quantities of hazardous materials or hazardous waste shall be reported within 24 hours.

8.80.213 Written Notification of Accidental Discharge

Within five (5) working days following an accidental discharge into the City's storm water drainage system, the person or persons in charge of the material and/or waste which was accidentally discharged shall submit a written report to the City Engineer. The report shall describe in detail the type and volume of the material and/or waste and the cause of the discharge. The report shall also describe in detail all corrective actions taken and measures to be taken to prevent future occurrences. Such notification of the accidental discharge shall not relieve the user of any fines or civil penalties incurred as a result of the event or any other liability which may be imposed by this chapter or other applicable laws.

8.80.214 Authority to Inspect

The City Engineer or his designated representative shall be authorized, at any reasonable time, to enter the premises of any discharger to the City's storm water drainage system to determine compliance with the provisions of this chapter, and to:

- (1) Conduct inspection, monitoring, and/or other authorized duties to enforce the provisions of this chapter;
- (2) Review any records, reports, test results or other information required to enforce the provisions of this chapter. Such review may include the necessity to photograph, videotape, or copy any applicable information; and
- (3) Inspect any chemicals, materials, wastes, storage areas, storage containers, and waste generating processes, treatment facilities, and discharge locations. Such inspection may include the necessity to photograph or videotape any applicable chemicals, materials, wastes, storage areas, storage containers, waste generating processes, treatment facilities, and discharge locations.

The City Engineer or his designated representative shall provide adequate identification when entering the premises of any discharger. If such entry is refused or cannot be obtained, the City Engineer shall have recourse to every remedy provided by law to secure lawful entry and inspection of the premises.

If the City Engineer has reasonable cause to believe that non-storm water discharge conditions on or emanating from the premises are of a nature so as to require immediate

[\[Return to Municipal Code Contents\]](#)

inspection to safeguard public health or safety, the City Engineer shall have the right to immediately enter and inspect said property and may use any reasonable means required to effect such entry and make such inspection, regardless if said property is occupied or unoccupied and regardless if formal permission to inspect said property has been obtained.

Where a discharger has instituted security measures requiring proper identification and clearance before entry onto the premises, the discharger shall make all necessary arrangements with its security agents in order that, upon presentation of such identification, the City Engineer or his designated representative(s) shall be permitted to enter the premises without delay, for the purpose of performing their authorized duties. For facilities, which require special clearances to conduct inspections, it shall be the responsibility of the discharger to obtain all necessary clearances on behalf of the City so that the inspection is not impaired.

ARTICLE 3. RESIDENTIAL REQUIREMENTS

8.80.301 Prohibited Discharges

In addition to the General Prohibitions in Section 8.80.206 of this chapter, it is prohibited to discharge any of the following to any street, gutter, alley, sidewalk, storm drain inlet, catch basin, conduit or other drainage structures, business place, or upon any public or private lot of land in the City, so that the same may be and/or may become a pollutant:

- (1) Animal waste, soil, leaves, plant and tree cuttings, grass clippings, weeds, dead trees, fertilizer, soil amendments or mulch, and pesticides;
- (2) Concrete or cement waste, brick and tile work wastes, plaster and drywall tool cleanup water, waste paint or painting cleanup water, asphalt or asphalt cleanup solvents or slurry from saw cutting concrete or asphalt and other construction waste;

- (7) Waste water from draining swimming pools, ponds or fountains which contain chlorine biocides, acids or other chemicals, pool filter backwash containing debris and chlorine;
- (8) Discharges from acid cleaning of swimming pools, ponds or fountains or filter cleaning from the same.
- (9) Any other material that causes or contributes to a condition of contamination, nuisance or pollution in the City's storm drainage system or causes a violation of any waste disposal regulations, waste discharge requirements, water quality standards or objectives adopted by the State Water Resources Control Board or Regional Water Quality Control Board.

8.80.302 Responsibility for Illegal Discharge of Prohibited Substances

The property owner(s) of a lot or parcel from which an illegal discharge originates shall be ultimately responsible for all abatement and cleanup costs associated with the discharge, at his own expense, if the responsible party cannot be located. Likewise, if the tenant of a multi-family residential unit has discharged a prohibited material or waste into the City's storm drainage system or has caused the contamination of storm water runoff from the property by his activities and the City Engineer cannot determine the responsible party or residential unit responsible, the owner of the property from which the discharge originated, shall be responsible for the cleanup and abatement costs to mitigate the condition. Additionally, a property owner shall be responsible for all cleanup costs and damages to the City's storm drainage system from a contractor's activities, if the contractor was hired by the owner and cannot be located.

8.80.303 Maintenance of Private Residential Storm Drainage Systems

All private residential storm drainage inlets, under-drains and gutters shall be inspected annually and cleaned prior to the beginning of the rainy season if there is evidence of one or more of the following conditions:

- (1) The sediment/debris storage volume is 25 percent or more full;
- (2) There is evidence of illegal discharge;
- (3) Accumulated sediment or debris impairs the hydraulic function of the facility. Private streets shall also be swept and maintained as needed to prevent sediment, gardening waste, trash, litter and other contaminants from entering the City's storm drainage system.

[\[Return to Municipal Code Contents\]](#)

ARTICLE 4. INDUSTRIAL AND COMMERCIAL REQUIREMENTS

8.80.401 Non-Storm Water Discharges

All non-storm water discharges associated with industrial and commercial activities that discharge into the City's storm water drainage system are prohibited except as permitted by an individual user's NPDES Storm Water Permit or Section 8.80. 207 of this chapter.

8.80.402 General Permit for Storm Water Discharges from Industrial Activities

All businesses who own or operate facilities described in 40 CFR 122.26(b)(14)(i)-(xi) are required to obtain coverage under the State's General Permit for Discharges of Storm Water Associated with Industrial Activities, at least fourteen (14) days prior to the startup of business activities. All listed businesses are required to submit a completed Notice of Intent (NOI) form, site map and application fee to the State Water Resources Control Board (SWRCB). The SWRCB also requires the listed businesses to prepare a Storm Water Pollution Prevention Plan (SWPPP), retain a copy of the SWPPP on site and comply with all the requirements of the general permit. Copies of the NOI form are available from the City's Development Services Department.

The City of San Bernardino requires that all businesses that have filed an NOI for coverage under the State's General Permit and have received a Waste Discharge Identification Number (WDID) from the State Water Resources Control Board, either mail, FAX or hand deliver a copy of the WDID letter from the State to the Development Services Department as proof of filing.

8.80.403 Conditional Category – Notice of Non-Applicability

Businesses who own or operate facilities described in 40 CFR 122.26(b)(14)(xi) may prepare a "NOTICE OF NON-APPLICABILITY" in lieu of an NOI if they can certify on this form provided by the State Water Resources Control Board that there is no manufacturing process, material, equipment or product storage outside in an area that is exposed to storm water runoff.

The "Notice of Non-Applicability" must document all of the following:

- (1) All prohibited non-storm water discharges have been eliminated or otherwise permitted;
- (2) All significant materials related to industrial activity (including waste materials) are not exposed to storm water or authorized non-storm water discharges;

[\[Return to Municipal Code Contents\]](#)

- (3) All industrial activities and industrial equipment are not exposed to storm water or authorized non-storm water discharges;
- (4) There is no exposure of storm water to significant materials associated with industrial activity through other direct or indirect pathways such as from industrial activities that generate dust and particulates.

Businesses in this category are required to submit the Notice of Non- Applicability to the local office of the California Regional Water Quality Control Board, Santa Ana Region, and are required to maintain the above documentation on-site at all times. They are also required to re-evaluate and re-certify once a year that the conditions above are continuously met. Copies of the “Notice of Non-Applicability” form are available from the City’s Development Services Department.

8.80.404 Best Management Practices (BMPs)

All businesses, regardless of permit status, shall implement all applicable BMPs, as listed in the California Storm Water Best Management Practice Handbooks or the current, San Bernardino County Storm Water Program’s Report of Waste Discharge, to reduce pollutants in storm water runoff and reduce non-storm water discharges to the City’s storm water drainage system to the maximum extent practicable. All structural controls shall also be maintained to effectively prevent pollutants from contacting storm water or remove pollutants from storm water runoff to the maximum extent practicable. Maintenance records for structural and treatment devices, including waste hauling receipts shall be kept for a period of five (5) years and made available to the City’s inspector, upon request.

If structural or treatment controls are not functioning as designed or are not effective in reducing storm water pollutants or non-storm water discharges to the maximum extent practicable, the City will require that the control device be repaired, rebuilt or replaced.

ARTICLE 5. CONSTRUCTION REQUIREMENTS

8.80.501 Storm Water Quality Management Plan (SWQMP)

Prior to the issuance of any grading or building permit, all qualifying land development/ redevelopment projects, shall submit and have approved a STORM WATER QUALITY MANAGEMENT PLAN (SWQMP) to the City Engineer on a form provided by the City. The SWQMP shall identify all BMPs that will be incorporated into the project to control storm water and non-storm water pollutants during and after construction and shall be revised as necessary during the life of the project. The SWQMP submittal applies to construction projects covered by the NPDES General Construction Permit as well as construction projects less than one acre.

Qualifying development/redevelopment projects include:

- (1) Home subdivisions of 10 units or more. This includes single family residences, multi-family residences, condominiums, apartments, etc.;
- (2) Commercial developments of 100,000 square feet or more. This includes non-residential developments such as hospitals, educational institutions, recreational facilities, mini-malls, hotels, office buildings, warehouses, and light industrial facilities;
- (3) Vehicle maintenance shops (SIC codes 5013, 5014, 5541, 7532-7534, 7536-7539);
- (4) Food Service businesses developing 5,000 square feet or more of land area;
- (5) All hillside developments on 10,000 square feet or more, which are located on areas with known erosive soil conditions or where the natural slope is twenty-five percent or more;
- (6) Developments of 2,500 square feet of impervious surface or more adjacent to (within 200 feet) or discharging directly into environmentally sensitive areas such as areas designated in the Ocean Plan as areas of special biological significance or water bodies listed on the Clean Water Act Section 303(d) list of impaired waters;
- (7) Parking lots of 5,000 square feet or more exposed to storm water. Parking lot is defined as land area or facility for the temporary storage of motor vehicles;
- (8) All re-development projects adding 5,000 square feet or more of impervious surface on an already developed site. This includes additional buildings and/or structures, extension of an already existing building footprint and construction of parking lots, etc.

8.80.502 General Permit for Storm Water Discharges from Construction Activity

Any developer/owner engaging in construction activities which disturb one acre or more of land shall apply for coverage under the General Storm Water Permit for Construction Activity with the State Water Resources Control Board (SWRCB). Any developer/owner engaging in construction activities which disturb less than one acre but are part of a larger common plan of development or sale that is greater than one acre must also apply for coverage under the General Storm Water Permit for Construction Activity with the State Water Resources Control Board (SWRCB). "Construction activity" includes, but is not limited to: clearing, grading, demolition, excavation, construction of new structures, and reconstruction of existing facilities involving removal and replacement that results

[\[Return to Municipal Code Contents\]](#)

in soil disturbance. The owner of the land where the construction activity is occurring is responsible for obtaining coverage under the permit. Owners may obtain coverage under the General Permit by completing a “Notice of Intent” form (NOI) and mailing the form along with a vicinity map and the appropriate fee to the office of the California State Water Resources Control Board. The NOI form and checklist of items to submit to the state is available from the State Water Resources Control Board in Sacramento, California or from the City’s Development Services Department. In addition, the owner shall also prepare a Storm Water Pollution Prevention Plan (SWPPP) in accordance with state requirements.

Prior to obtaining any City-issued grading and/or construction permits the developer/owner shall provide evidence of compliance with the General Construction Permit by providing a copy of the Waste Discharger’s Identification Number (WDID) to the City’s Development Services Department.

8.80.503 Non-Storm Water Discharges

Discharges of non-storm water from construction activities are generally prohibited except for those discharges listed in Section 8.80.207 of this chapter or any discharges authorized by the City Engineer or the Regional Water Quality Control Board (RWQCB). The City and the RWQCB will allow the discharge of certain non-storm water discharges from construction sites provided that they are in compliance with the discharge limitations specified in the current General Waste Discharge Requirements for De Minimus Discharges issued by the Regional Water Quality Control Board, Santa Ana Region.

The following discharges are authorized provided they are in compliance with the permit:

- (1) Construction dewatering wastes;
- (2) Wastes associated with well installation, development, test pumping and purging;
- (3) Aquifer testing wastes;
- (4) Dewatering wastes from subterranean seepage, except for discharges from utility company vaults;
- (5) Discharges resulting from hydrostatic testing of vessels, pipelines, tanks, etc.;
- (6) Discharges resulting from the maintenance of potable water supply pipelines, tanks, reservoirs, etc.;
- (7) Discharges resulting from the disinfection of potable water supply pipelines, tanks, reservoirs, etc.;

- (8) Discharges from potable water supply systems resulting from system failures, pressure releases, etc.;
- (9) Discharges from fire hydrant testing or flushing;

8.80.504 Non-Storm Water Discharge Reporting Requirements

Authorized non-storm water discharges under Section 8.80.503 shall be reported to the City Engineer at least five (5) days prior to a planned discharge. Unplanned discharges of non-storm water into the City's storm drainage system shall be reported as soon as possible and before any discharge is initiated. The City's Development Services Department shall provide a "Non-Storm Water Discharge Notification Form" for any developer that is proposing to discharge any non-storm water from a construction site. The Non-Storm Water Discharge Notification Form must be submitted to the Development Services Department for these discharges, at least five days prior to any planned discharge or as soon as possible for any unplanned discharge. Monitoring may also be required for these discharges. If the City provided form is not utilized, a report shall be submitted prior to discharge which includes the following information:

- (1) Type of proposed discharge;
- (2) Estimated average and maximum daily flow rate;
- (3) Frequency and duration of discharge;
- (4) A description of the proposed treatment system (if appropriate);
- (5) A description of the path from the point of discharge to the nearest storm drain inlet.

All discharges shall be monitored daily for flow volume and shall be recorded in a daily log by the person responsible for the discharge. Discharges shall also be sampled during the first thirty (30) minutes of each discharge and weekly thereafter for continuous discharges for chlorine and total suspended solids. Monitoring data for flow, chlorine and suspended solids and any other required constituents shall be reported to the City's Development Services Department on a weekly basis.

8.80.505 Best Management Practices

All construction projects which could potentially have an adverse impact on the City's storm water drainage system or waters of the state shall install and/or implement appropriate construction and post-construction BMPs, as listed in their SWQMP or the "California Storm Water Best Management Practice Handbook", to reduce pollutants to the maximum extent practicable or to the extent required by law.

[\[Return to Municipal Code Contents\]](#)

ARTICLE 6. ADMINISTRATIVE ENFORCEMENT REMEDIES

8.80.601 Notice of Correction (NOC)

Whenever the City Engineer or his designee finds that any discharger has the potential to violate or has already violated any prohibition, limitation or requirement contained in this chapter, any NPDES storm water permit or the Basin Plan, the City may serve upon such person a written Notice of Correction stating the nature of the violation and the necessary actions that must be implemented to correct the situation. The NOC shall stipulate a time period by which the problem must be corrected and the penalties for non-compliance.

8.80.602 Notice of Violation

When the City Engineer or his authorized representative finds that any discharger has failed to comply with a Notice of Correction or has violated or continues to violate any prohibition, limitation or requirement contained in this chapter, any NPDES storm water permit or the Basin Plan, the City may serve upon such person a written Notice of Violation stating the nature of the violation and the penalties for non-compliance. At a minimum, the Notice of Violation shall require that the discharger submit to the City Engineer, within a time period specified in the notice, a plan indicating the cause of the violation and corrective actions which will be taken to prevent recurrence. A discharger shall be guilty of a separate offense for every day during any portion of which any violation of any provision of this chapter is committed, continued, or permitted by the discharger. Pursuant to California Government Code Section 53069.4 and 36900.(b) the following administrative fines shall apply to the issuance of a Notice of Violation by the City Engineer or his authorized representative:

- (1) A First Notice of Violation shall be issued for a first violation of this chapter and shall be punishable by an administrative fine not exceeding one hundred dollars (\$100.00);
- (2) A Second Notice of Violation shall be issued for a second violation of this same ordinance within one year and shall be punishable by an administrative fine not exceeding two hundred dollars (\$200.00);
- (3) A Third Notice of Violation shall be issued for a third violation of this same ordinance within one year and shall be punishable by an administrative fine not exceeding five hundred dollars (\$500.00). Each additional violation of the same ordinance within one year shall also be punishable by an administrative fine of \$500.00.

8.80.603 Administrative Orders

The City Engineer may require compliance with any prohibition, limitation or requirement contained in this chapter, any NPDES storm water permit or the Basin Plan, by issuing an Administrative Order, enforceable in a court of law or by directly seeking court action. Administrative orders may include Compliance Orders, Stop Work Orders, Cease and Desist Orders, Termination of Service Orders and Immediate Termination of Service Orders.

- (1) Compliance Order - The City Engineer or his designee may issue a Compliance Order to any discharger who fails to correct a violation of this chapter, any NPDES storm water permit or the Basin Plan. The Order shall be in writing, specify the violation(s) and require appropriate compliance measures within a specified time period. The Compliance Order may include the following terms and requirements:
 - (a) Specific steps and time schedules for compliance as reasonably necessary to eliminate an existing prohibited discharge or illegal connection or to prevent the imminent threat of a prohibited discharge;
 - (b) Specific requirements for containment, cleanup, removal, storage, installation of overhead covering or proper disposal of any pollutant having the potential to contact storm water runoff;
 - (c) Installation of storm water treatment devices, containment structures, wash racks and addition and removal of storm water drains;
 - (d) Any other terms or requirements reasonably calculated to prevent imminent threat of or continuing violations of this chapter, including, but not limited to requirements for compliance with best management practices guidance documents promulgated by any federal, state or regional agency.

The City Engineer or his designee may adopt a proposed compliance schedule submitted by the user or may adopt a revised compliance schedule if in his judgment, the proposed compliance schedule would allow the user to cause harm to the receiving waters and/or the City's storm drainage system.

A Compliance Order shall require the discharger to pay a one thousand dollar (\$1000.00) penalty fee to the City for the issuance thereof.

- (2) Stop Work Order – The City Engineer or Building Official may serve a written Stop Work Order on any person engaged in doing or causing to be done, new construction, tenant improvements, alterations or additions, if:

[\[Return to Municipal Code Contents\]](#)

- (a) No construction permit has been granted by the City;
- (b) Work has begun prior to the submittal of a written Storm Water Quality Management Plan (SWQMP) and subsequent approval by the City Engineer or his designee; or,
- (c) Violations of this article are found at the site of the new construction, tenant improvements, alterations or additions.

Any person served a Stop Work Order shall stop such work forthwith until written authorization to continue is received from the City Engineer or Building Official. A Stop Work Order shall require the discharger to pay a one thousand dollar (\$1000.00) penalty fee to the City for the issuance thereof.

- (3) Cease and Desist Order – When the City Engineer or his designee finds that any industrial and/or commercial discharger has violated or threatens to violate any prohibition, limitation or requirement contained in this chapter, any NPDES storm water permit or the Basin Plan, or NPDES Storm Water Permit, the City may issue a Cease and Desist Order directing the discharger to:

- (a) Immediately discontinue any illicit connection or prohibited discharge to the City’s storm water drainage system;
- (b) Immediately contain or divert any flow of water off the property, where the flow is occurring in violation of any provision of this chapter;
- (c) Immediately discontinue any other violation of this chapter.

A Cease and Desist Order shall require the discharger to pay a one thousand dollar (\$1000.00) penalty fee to the City for the issuance thereof.

- (4) Termination of Service – When the City Engineer finds any industrial and/or commercial discharger, who has a direct connection into the City’s storm water drainage system or has violated an Administrative Order, the City Engineer may terminate storm drain service to the discharger. The discharger shall be liable for all costs for termination of storm drain service incurred by the City. This provision is in addition to any other statutes, rules or regulations authorizing termination of service for delinquency payment or for any other reasons. Storm drain service shall be re-instituted by the City Engineer after the discharger has complied with all the provisions of the Administrative Order. The discharger shall also be liable for all costs for re-instituting storm drain service.

- (5) Immediate Termination of Service – The City Engineer may immediately suspend storm drain service and any non-storm water discharge permit when such suspension is necessary, in the opinion of the City Engineer, to stop an actual or threatened discharge which presents or may present an imminent or substantial endangerment to the health or welfare of persons or the environment, or which significantly or could significantly cause pollution to the receiving waters, ground and/or storm drainage system of the City. Any industrial and/or commercial discharger notified that their storm drain service has been suspended shall immediately cease and eliminate the discharge into the City storm water drainage system.

In the event of failure to comply voluntarily with the Termination of Service Order, the City Engineer shall take appropriate steps, including immediate severance of all applicable storm drain connections. All persons responsible for a discharge that may endanger the health or welfare of the community or the environment shall be liable for all costs incurred by the City in terminating storm drain service. Storm drain service shall be re-instituted by the City Engineer after the actual or threatened discharge has been eliminated. A detailed written statement, submitted by the industrial and/or commercial discharger, describing the cause of the harmful contribution and the measures to prevent any future occurrence, shall be submitted to the City Engineer within ten (10) working days of the date of storm drain service termination.

8.80.604 Administrative Hearing

Any discharger may request, or the City Engineer may order, an administrative hearing, at which time, a discharger who causes or allows, or who has caused or allowed, an unauthorized discharge to enter into the City's storm water drainage system or who continues to allow a violation of this chapter to exist, may show cause why a proposed enforcement action should not be taken against him. The City Administrator, or the City Administrator's designee, shall preside over the administrative hearing, at which time each party, including the discharger and the City Engineer or his designee, shall have the right to present evidence.

A Notice of Hearing shall be served on the discharger specifying the time and place of the hearing and referencing the specific violation and/or violations of this chapter, the reasons why the action is to be taken and the proposed enforcement action, directing the discharger to show cause before the Hearing Officer why the proposed enforcement action should not be taken. The Notice of Hearing shall be served personally or by registered or certified mail, return receipt requested at least ten (10) working days prior to the hearing. Service of the Notice of Hearing may be made on any agent or officer of the discharger.

Pursuant to California Government Code §54739 and §54740.5, the City Engineer may issue an administrative complaint to any person who violates this chapter, any

[\[Return to Municipal Code Contents\]](#)

prohibition or limitation thereof or any compliance order, cease and desist order, stop work order or injunction. The administrative complaint shall allege the act or failure to act that constitutes the violation, the proposed civil penalty, and the authority under which it is imposed. The Administrative Complaint, served on the alleged violator by personal delivery or by certified mail, shall inform the person served that a hearing before the City Administrator or the City Administrator's designee shall be conducted within sixty (60) days of the service of the complaint. The right to a hearing may be waived by the person who has been issued the administrative complaint, in which case the City shall not conduct a hearing. A person dissatisfied with the decision of the City Administrator may appeal to the Mayor and Common Council of the City of San Bernardino within thirty (30) days of notice of the City Administrator's decision.

If after the hearing, or appeal, if any, it is found that the person has violated reporting or discharge requirements, the City Administrator or Mayor and Common Council may assess a civil penalty against that person. In determining the amount of the civil penalty, the City Administrator or Mayor and Common Council may take into consideration all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the economic benefit derived through any noncompliance, the nature and persistence of the violation, the length of time over which the violation occurs and corrective action, if any, attempted or taken by the discharger.

Civil penalties may be assessed as follows:

- a. In an amount which shall not exceed three thousand dollars (\$3,000) for each day for failing or refusing to timely comply with any compliance order established by the City;
- b. In an amount which shall not exceed five thousand dollars (\$5,000) per violation for each day of discharge in violation of any discharge limitation, areawide urban runoff permit condition, or requirement issued, reissued or adopted by the City;
- c. In an amount which shall not exceed ten dollars (\$10) per gallon for discharges in violation of any stop work order, cease and desist order or other orders, or prohibition issued, reissued, or adopted by the City.
- d. The amount of any civil penalties imposed under this section which have remained delinquent for a period of 60 days shall constitute a lien against the real property of the discharger from which the discharge originated resulting in the imposition of the civil penalty.

The lien provided herein shall have no force and effect until recorded with the county recorder and when recorded shall have the force and effect and priority of a judgment lien and continue for 10 years from the time of recording unless sooner released, and shall be renewable in accordance with the provisions of Sections 683.110 to 683.220, inclusive, of the California Code of Civil Procedure.

[\[Return to Municipal Code Contents\]](#)

All monies collected under this section shall be deposited in a special account of the City and shall be made available for the monitoring, treatment, and control of discharges into the City's storm drainage system or for other mitigation measures.

Unless appealed, an order imposing administrative civil penalties shall become effective and final upon issuance thereof, and payment shall become due within thirty (30) days of issuance of an invoice by the City of San Bernardino. Copies of these orders shall be served by personal service or by registered mail upon the party served with the administrative complaint and upon other persons who appeared at the hearing and requested a copy.

The City may, at its option, elect to petition the superior court to confirm any order establishing civil penalties and enter judgment in conformity therewith in accordance with the provisions of Sections 1285 to 1287.6, inclusive, of the California Code of Civil Procedure.

8.80.606 Compensation for Damages

Any person who damages monitoring equipment, has the potential to affect or affects human health or the environment, discharges pollutants into the City's storm drainage system which causes or has the potential to cause increased maintenance of the system, non-routine inspection or sampling of the system, system blockages or other damage or interference in the City's storm water drainage system, or causes any other damages, including the imposition of fines or penalties on the City by Federal, State or local regulatory agencies, shall be liable to the City for all damages and additional costs, including fines and penalties. An administrative fee, which shall be fixed by the City Administrator based on the City's current overhead cost allocation percentage, shall be added to these charges and shall be payable to the City within thirty (30) calendar days of invoicing.

8.80.607 Appeals

Any decision of the City Engineer may be appealed. An appeal must be initiated within ten (10) working days after receipt of the notice of any decision or action by filing, with the City Engineer, a letter of appeal briefly stating therein the basis for such appeal. The hearing on appeal shall be held on a date no more than fifteen (15) working days after receipt of the letter of appeal. The appellant shall be given at least five (5) working days notice of the time and place of the hearing. The City Administrator, or the City Administrator's designee, shall provide the appellant and any other interested party the reasonable opportunity to be heard and in order to show cause why the determination of City Engineer should not be upheld. Within forty-five (45) working days of the hearing, the City Administrator, or the City Administrator's designee, shall make a written decision regarding the appeal. The decision of the City Administrator, or the City Administrator's designee, shall be final. The imposition of fines or penalties shall be stayed during the appeal period.

8.80.608 Violations Deemed a Public Nuisance

In addition to the penalties established by this Chapter, any threat to public health, safety or welfare shall be declared and deemed a public nuisance. Such public nuisance may be summarily abated and/or remedied by the City Engineer, and/or civil action to abate, enjoin or otherwise compel the cessation of such nuisance may be taken by the City Attorney. The cost of such abatement, remediation and/or restoration shall be borne by the owner, lessee or tenant of the property causing the violation. The cost thereof shall be a lien upon and against the property and such lien shall continue in existence until the same shall be paid.

ARTICLE 7. JUDICIAL ENFORCEMENT REMEDIES

The City Attorney may commence an action for appropriate legal, equitable or injunctive relief in the Municipal or Superior Court of the County against any person who has violated or continues to violate any provision of this chapter, the Basin Plan, federal or state discharge standards or permit conditions, or who violates the requirements of any Administrative Order. In addition to the penalties provided in this chapter, the City Engineer may recover all reasonable attorney fees, court costs, court reporter's fees, expenses of litigation by appropriate suit of law against the person(s) found to have violated any provision of this chapter or the orders, rules, regulations and permits issued thereunder and other expenses associated with enforcement activities, including sampling and monitoring expenses, and the cost of any actual damages incurred by the City of San Bernardino.

8.80.702 Civil Penalties

Persons who continue to violate any provision of this chapter shall be liable to the City for a maximum civil penalty of twenty five thousand dollars (\$25,000) but not less than three thousand dollars (\$3,000.00) per violation per day. In the case of a monthly or other long-term average discharge limit, penalties shall accrue for each day during the period of the violation.

In determining the amount of civil liability, the Court shall take into account all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the magnitude and duration of the violation, any economic benefit gained through the discharger's violation, corrective actions by the discharger, the compliance history of the discharger, and any factor as justice requires.

Filing a suit for civil penalties shall not be a bar against, or a prerequisite for taking any other action against a discharger. The City may institute further legal action to collect

[\[Return to Municipal Code Contents\]](#)

such penalties in the event that the violator of this chapter fails or refuses to pay said penalty within thirty (30) days from the date that it has been assessed.

Each such person shall be deemed guilty of a separate offense for every day during any portion of which any violation of any provision of this chapter is committed, continued or permitted by such discharger, and shall be punishable therefore as provided by this section.

8.80.704 Falsifying Information

Any person who knowingly makes any false statements, representations, or certifications in any application, record, report, plan, or other documentation filed, or required to be maintained, pursuant to this chapter, storm water permit, or order issued hereunder, or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required under this ordinance is guilty of a misdemeanor, which, upon conviction is punishable by a fine of not less than three thousand dollars (\$3,000.00) per day of violation and/or by imprisonment for a period of not more than six (6) months.

Any individual aggrieved by the decision of the City Administrator may appeal that decision in writing to the City Council by written notice filed with the City Clerk within five (5) working days of the decision of the City Administrator. Unless appealed, the decision of the City Administrator is final. 8.90.010 Title

This Chapter may be cited as the Mobile Home Park Rent Stabilization Ordinance of the City of San Bernardino, California.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.020 Statement of purpose

- A. Mobile home owners have a substantial investment in their residences and appurtenances for which space is rented or leased. Alternate sites for relocation of mobile homes are difficult to find due to the shortage of vacant spaces, the restrictions of age, size, or style of mobile homes permitted in many parks, and

[\[Return to Municipal Code Contents\]](#)

related to the installation of mobile homes, including permits, landscaping and site preparation. Additionally, the cost of moving a mobile home is substantial, and the risk of damage in moving is significant.

The result of these conditions is the creation of a captive market of mobile home owners and tenants. This immobility, in turn, contributes to the creation of a great imbalance in the bargaining relationship between park owners and mobile home park tenants in favor of the park owners.

- B. Because mobile homes are often occupied by senior citizens, persons on fixed income and persons of low or moderate income, exorbitant rent adjustments fall upon these individuals with particular harshness. The continuing possibility of unreasonable space rental adjustments in mobile home parks threatens to diminish the value of the investment of the mobile home owners. Further, existing state law permits mobile home park owners to require mobile home owners to make modifications to their homes for reasons of aesthetics or conformity to park standards that amount to capital improvements which would accrue to the benefit of the park owner by potentially increasing the market value of the park itself.
- C. This Council finds and declares it necessary to facilitate and encourage fair bargaining between mobile home owners and park owners in order to achieve mutually satisfactory agreements regarding space rental rates in mobile home parks. Absent such agreements, this Council further finds and declares it necessary to protect the owners and residents of mobile homes from unreasonable space rental adjustments while simultaneously recognizing and providing for the need of park owners to receive a just and reasonable return on their property.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.030 Application

The provisions of this Chapter shall apply to all mobile home residential rental spaces located within the City of San Bernardino except if otherwise exempt from the provisions of this Title, as such exemptions are provided for hereinafter. Nothing in this Chapter shall be deemed to supersede any provision of California Civil Code Section 798, et seq.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.050 Exemptions from coverage

The provisions of this Ordinance shall not apply to the following:

- A. New Space or First Time Space Exemption - Space rent or space rent adjustments for new mobile home spaces first rented after the effective date of this Chapter shall be exempt from the provisions of the Chapter to the extent that those rents would have been controlled had the spaces been previously occupied. There shall be no prospective exemption in such circumstances, however, as to rents that may be adjusted annually under this Chapter after a space is first rented. In such cases, the base date for purposes of determining permissible future rent adjustments shall be the date of first rental or conveyance.

[\[Return to Municipal Code Contents\]](#)

B. Vacancies

1. If the mobile home space is voluntarily vacated by the tenant, or vacated pursuant to California Civil Code Section 798.56, the landlord may adjust the rental rate to any amount as provided in Subsection A of this Section 8.90.050.
2. If the mobile home is sold and is to remain on site, the landlord may increase the rental rate for the new resident by an amount not to exceed ten percent (10%) of the then existing rent. Any rent increase pursuant to this Subsection B2 shall be implemented at the time the new resident first occupies the space and/or first enters into a rental agreement with the landlord.
3. The implementation of any rent increase allowed under this Subsection B shall not change the anniversary date for the annual permissive inflationary adjustment to rent allowed under Section 8.90.100(A) of this Chapter.
4. A vacancy is voluntary if the tenant voluntarily and without coercion by the landlord vacates the rental space or, if the tenant dies and there is no surviving cohabitant.
5. Where the rent is increased pursuant to this Subsection B, the landlord shall, at the time the rent increase is implemented, provide the new tenant with written notice of the previous base rent for the space, the new base rent for the space in both dollar and percentage terms, and the anniversary date for the space for purposes of the annual permissive inflationary adjustment to rent allowed under Section 8.90.100(A) of this Chapter.

Within sixty (60) calendar days after the effective date of this Chapter, mobile home park owners are required to register all mobile home parks and mobile home rental spaces

[\[Return to Municipal Code Contents\]](#)

within such parks with the City Manager.

The initial registration shall include: the name(s), business address(es), business telephone number(s) of each person or legal entity possessing an ownership interest in the park and the nature of such interest; the number of mobile home rental spaces within the park; a rent schedule reflecting space rents within the park on the effective date of this Chapter; a listing of all other charges, including utilities not included in space rent, paid by mobile home residents within the park and the approximate amount of each such charge; and the name and address to which all required notices and correspondence may be sent.

The City Manager is hereby empowered to establish procedures for requiring such re-registration as he/she deems necessary.

No park owner shall be eligible to receive any rent ceiling adjustment as provided for under the provisions of this Chapter unless such current registration as may then be required for the mobile home park is on file with the City Manager at the time the petition for the rent ceiling adjustment is filed.

The registration and re-registration requirement provided for in this section, or which may be hereafter established by the City Manager, shall apply to all mobile home parks including those exempt from the space rent ceiling limitation by reason of the existence of a valid space rent agreement.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.080 Space rent ceiling or maximum allowable space rent

Beginning the first month which commences following the day after the effective date of this Chapter when originally adopted on March 24th, 1993, no mobile home park owner shall charge space rent for any mobile home space in an amount greater than the space rent in effect on December 31, 1988. The space rent in effect on that date shall be known as the “space rent ceiling.”

If there was no space rent in effect on December 31, 1988, the space rent ceiling shall be the space rent that was charged on the first date that space rent was charged after December 31, 1988.

If a mobile home park is exempted from the application of this Chapter by reason of the existence of a space rent agreement and this agreement expires, the space rent ceiling for that park shall be the space rent in effect on the date the agreement **expires**.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.090 Space rent ceiling adjustment - initial adjustment

- A. No adjustment in space rent ceilings shall be permitted except as provided for herein.

[Return to Municipal Code Contents]

- B. Permissive Adjustment - A park owner shall be entitled to an initial permissive adjustment gross space rental income equal to eighty percent (80%) of the percentage increase in the Consumer Price Index (CPI) from the end of the base year (1988) to the date of application for the adjustment. The percentage adjustment in the CPI shall be calculated by subtracting the CPI reported for December, 1989, from the most recently reported monthly CPI preceding the application and then dividing this remainder by the December, 1989 CPI.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.100 Space rent ceiling adjustment - annual adjustments

Commencing in calendar year 1990, park owners shall be entitled to the following annual adjustments.

- A. Permissive Adjustment - A park owner shall be entitled to an annual permissive adjustment of gross space rental income equal to eighty percent (80%) of the percentage adjustment in the CPI from the date of the most recent initial or annual adjustment to the date of application for the proposed adjustment.
- B. Net Operating Income Adjustment
 1. In the event a park owner believes he or she does not receive a just and reasonable return on park property after receiving the maximum permissive adjustment provided for above, said park owner may upon payment of a filing fee established by resolution of the Mayor and City Council, file an application with the City Manager for an adjustment of the space rent ceiling, providing adequate justification for the proposed increase.
 2. If the City Manager shall designate a form for the filing of such petition, such petition shall be filed upon such form. If no such form shall be designated, such petition shall be in writing verified by the applicant, and shall contain the names, address and telephone number of the applicant, the name and address of the tenant of each rental space which would be affected if the petition were granted, a statement of the facts giving rise to the petition for a Net Operating Income (NOI) adjustment in sufficient detail that if established, such facts would demonstrate the existence of a decrease in the NOI warranting such NOI adjustment. Within thirty (30) working days after the petition has been submitted to the City Manager for filing, petitioner shall be given notice of the time and place of the hearing, which notice together with a copy of the petition shall be served upon or mailed to each tenant of a rental space which would be affected by the NOI adjustment if granted. When a declaration of service has been submitted to the City Manager, the petition for an NOI adjustment shall be deemed filed.

[\[Return to Municipal Code Contents\]](#)

3. A park owner shall be entitled to an adjustment of the space rent ceiling so as to enable the park owner's Net Operating Income (NOI) for the subsequent year to be increased by a rate which, when added to the maximum permissible adjustment provided for above will give the park owner a just and reasonable return on park property.

C. Special Assessment Based on Capital Improvements.

1. An application for a special assessment based on the cost of a completed capital improvement may be filed with the City Manager pursuant to this subsection. For the purposes of this subsection "Capital Improvement" is defined as the installation of new improvements and facilities and/or the replacement or reconstruction of existing improvements and facilities which consist of more than ordinary maintenance or repairs, with a useful life of at least five (5) years, and have been agreed upon between the park owner, the resident committee, if any, and approved by more than 50 percent of the owners of all mobile-homes located within the park in an election called to consider the matter with each space casting one vote.
2. A special assessment may be granted at the discretion of the Hearing Officer considering all circumstances without approval of the homeowners if the capital improvement is necessary to protect the health and safety of the residents of the park, or to comply with governmental laws or regulations.
3. Capital Improvement Assessments shall be amortized over the useful life of the improvement as set forth in Internal Revenue Service "class life" tables then in effect, unless the Hearing Officer in his/her discretion determines that the use of such tables is unreasonable under the circumstances.
4. In addition to the cost of the improvements(s) the Assessment shall include interest at two percent over the prime rate at Bank of America in effect at the time the assessment is approved calculated annually on the unamortized cost of improvement.
5. Capital Improvement Assessments shall be apportioned equally among all spaces in the mobile-home park and shall be payable monthly, and shall be set forth by the park owner as a separate item from the space rent. The Assessment shall remain in effect until the cost of the improvement, plus interest as set forth herein, has been fully recovered.

- D. No annual adjustment shall become effective if the previous annual adjustment became effective within the previous twelve (12) months unless approved by the Hearing Officer pursuant to Section 8.90.100 B.

(Ord. MC-1481, 4-14-18; Ord. MC-944, 6-08-95; Ord. MC-865, 3-24-93)

- B. Has failed to comply substantially with any applicable state or local housing, health or safety law.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

- A. Any tenant of a mobile home rental space affected by this Chapter, upon payment of such filing fee as shall be duly established, may petition the City for a determination whether a proposed or actual action by the landlord of such tenant is legal, valid, and within the terms of this Chapter. If the City Manager shall establish forms for such petitions, the petition shall be prepared and submitted upon such form. In the absence of such designated form, the petition shall contain the name, address and telephone number, if known, of the landlord, owner, manager, or other person authorized to represent the owner of the mobile home park, a brief statement of the facts giving rise to the request for interpretation or determination, and a statement that a copy of the petition has been personally served or mailed to the owner, manager or other person authorized to accept and receive notices to the landlord.
- B. In the event that a petition by tenant(s) results in a downward adjustment in the space rent, the park owner shall not be obligated to adjust any rent except the rent of those tenant(s) who signed the petition and paid the established filing fee.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.140 Conduct of Proceedings

- A. The Mayor and City Council shall appoint a Hearing Officer to hear matters pertaining to San Bernardino Municipal Code Chapter 8.90.
- B. Each party to a hearing may have assistance in presenting evidence or in setting forth by argument his position, from an attorney or such other person as may be designated by said party.
- C. Formal rules of evidence shall not apply in proceedings; however, all oral testimony offered as evidence shall be under oath.
- D. In the event that any party shall fail to appear at the time and place set for hearing of a petition, the Hearing Officer may hear and review such evidence as may be presented, and may make such findings and decisions as shall be supported by the evidence presented.
- E. The Hearing Officer shall base his/her decision on evidence presented at the hearing and may consider any evidence resulting from independent investigations of the City Manager pursuant to §8.90.110. 4 of this Chapter, where such evidence has been disclosed to the parties.
- F. The Hearing Officer shall make findings based on the evidence as to each fact relevant to the Hearing Officer's decision on the petition. The decision of the Hearing Officer shall be based upon the findings, and shall:
 - 1. Determine whether the action or proposed action of a landlord is valid, permitted, and in conformity with this Chapter; and/or
 - 2. Determine whether an adjustment is necessary, and if so, the nature and amount of relief to be granted or authorized to the landlord or homeowner.
- G. The Hearing Officer shall consider the evidence and arguments of the parties no later than thirty (30) days after the matter has been submitted for decision and the Hearing Officer shall make her/his final decision at the conclusion of their deliberations. No rent adjustment will be authorized unless supported by the evidence. A notice of the Hearing Officer's decision shall be sent to each party to a proceeding. Unless good cause to the contrary shall appear, each decision of the Hearing Officer shall apply on a space by space basis, taking into account the possibility of differences in base rent, services provided, and other facts differentiating rental spaces.

- H. Nothing in this Chapter, or in any decision of the Hearing Officer, shall require any landlord to raise rents or charges to tenants. If an adjustment in the maximum permissible rent is authorized, a landlord may raise rents or charges by a lesser amount, or for a lesser time than is authorized by the decision of the Hearing Officer.

- I. The findings and decisions of the Hearing Officer shall be a final administrative action. There shall be no right of appeal to the Mayor and City Council. Such findings and decisions shall be public records, and may be certified by the City Clerk. Each decision shall set forth a notice as required by California Government Code Section 1094.6. The decision shall become effective upon mailing to the party unless otherwise indicated at the hearing. This section supersedes Chapter 2.64 of the San Bernardino Municipal Code.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.160 Rent adjustment regulations

For purposes of determining allowable rent adjustments, the rules and regulations set forth in this section shall be used. In authorizing individual adjustments of the rent ceilings, the Hearing Officer shall consider the purposes of this Chapter and the requirements of law. The Hearing Officer may consider all relevant factors including: increases or decreases in operating and maintenance expenses, the extent and cost of utilities paid by the owner, necessary and reasonable capital improvements of the park as distinguished from normal repair, replacement and maintenance, increases or decreases in amenities, equipment, insurance or services, substantial deterioration of the park other than as a result of ordinary wear and tear, failure on the part of the owner to provide adequate repair, housing services or failure on the part of the owner to comply with applicable housing, health and safety codes, federal and state income tax benefits, the speculative nature of the investment, whether or not the property is acquired or is held as a long term or short term investment, the owner's rate of return on investment, the owner's current and base year Net Operating Income and any other factors deemed relevant by the Hearing Officer in providing the owner a fair return. A sale of a mobile home park by the owner, subsequent to June 3, 1991, which results in a Proposition 13 tax increase, cannot be a factor to be considered in a request for a rent adjustment by the new owners.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.170 Net operating income

8.90.190 Allowable Operating Expenses

Operating expenses shall include the following:

- A. Real property taxes,
- B. Utility costs,
- C. Management fees actually paid if management services are contracted for. If all or a portion of management services are performed by landlord, management fees shall include the reasonable value for such landlord performed services. - D. Other reasonable management expenses, including, but not limited to, necessary and reasonable advertising, accounting and insurance.

[Return to Municipal Code Contents]

- E. Normal repair and maintenance expenses, including, but not limited to, painting, normal cleaning, fumigation, landscaping, and repair of all standard services, including electrical, plumbing, carpentry, furnished appliances, drapes, carpets, and furniture.

Notwithstanding the above, a landlord may receive greater or lesser compensation for self-labor if the landlord proves by clear and convincing evidence that the amounts set forth above are substantially unfair in a given case. Owner performed labor in excess of 5% of Gross Income shall not be allowed unless the landlord proves by clear and convincing evidence that such excess labor expenses resulted in proportionately greater services for the benefit of tenants.
- G. License and registration fees required by law to the extent same are not otherwise paid by tenants.
- H. The yearly amortized portion of capital expenses including financing costs, computed in accordance with any useful life table utilized by the Internal Revenue Service.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.210 Presumption of fair base year net operating income

Except as provided in Section 8.90.220, it shall be presumed that the Net Operating Income produced by a park owner during the base year, provided a fair return on property. Owners shall be entitled to maintain and increase their Net Operating Income from year to year in accordance with Sections 8.90.080 and 8.90.100.B.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.220 Rebutting the presumption

It may be determined that the base year net operating income yielded other than a fair return on property, in which case, the base year Net Operating Income may be adjusted accordingly. In order to make such a determination, the Hearing Officer must make at least one of the following findings:

- A. The owner's operating and maintenance expenses in the base year were unusually high or low in comparison to other years. In such instances, adjustments may be made in calculating such expenses so the base year operating expenses reflect average expenses for the property over a reasonable period of time. The hearing officer shall consider the following factors:
 - 1. The owners made substantial capital improvements during 1988 which were not reflected in the rent levels on the base date.
 - 2. Substantial repairs were made due to damage caused by natural disaster or vandalism which management has taken appropriate action to reduce.

[Return to Municipal Code Contents]

3. Maintenance and repair were below accepted standards so as to cause significant deterioration in the quality of housing services.
 4. Other expenses were unreasonably high or low notwithstanding the following of prudent business measures.
- B. The rental rates on the base date were disproportionate due to enumerated factors below. In such instances, adjustments may be made in calculating gross rents consistent with the purpose of this Chapter.
1. The rental rates on the base date were substantially higher or lower than in preceding months by reason of premiums being charged or rebates being given for reasons unique to particular units or limited to the period determining the base rent.
 2. The rent on the base date was substantially higher or lower than at other times of the year by reason of seasonal demand or seasonal variations in rent.
 3. The rental rates on the base date were exceptionally high or low due to other factors which would cause the application of the base year net operating income to result in gross inequity to either the owner or tenant.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.230 Determination of base year net operating income

- A. To determine the Net Operating Income during the base year, there shall be deducted from the annualized gross income being realized in 1988, a sum equal to the actual operating expenses for calendar year 1988, unless the owner demonstrates to the satisfaction of the Hearing Officer that the use of some other consecutive 12-month period is justified by reasons consistent with the purposes of this section.
- B. In the event the owner did not own the subject property during the base year, the operating expenses for 1988 shall be determined by one of the following methods whichever the Hearing Officer determines to be more reliable in the particular case:
1. The previous owner's actual operating expenses as defined in Section 8.90.190 if such figures were available, or
 2. Actual operating expenses for the first calendar year of ownership, discounted to 1988 by the schedule.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

[\[Return to Municipal Code Contents\]](#)

8.90.240 Determination of current year net operating income

To determine the current year net operating income, there shall be deducted from the annualized gross income, determined by analyzing the monthly rents in effect at the time of filing of a petition, a sum equal to the actual operating expenses for the last calendar year (unless the owner demonstrates to the satisfaction of the Hearing Officer that the use of some other consecutive 12-month period is justified by reasons consistent with the purposes of this section).

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.250 Schedule of increases in operating expenses

Where scheduling of rental increases, or other calculations, requires projections of income and expenses, it shall be assumed that operating expenses, exclusive of property taxes, and management expenses, increases at 5% per year, that property taxes increase at 2% per year, and that management expenses constitute 5% of gross income, provided, however, that if actual increases are greater or less than those listed in this section, the actual increases shown according to proof shall be the increases applicable.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.260 Allowable rent adjustments

The Hearing Officer may permit rent adjustments, unless otherwise prescribed by law, such that the owner's net operating income will be adjusted at the rate as specified in Section 8.90.100 B.2.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.270 Discretionary considerations

While the Net Operating Income formula should operate to guarantee a park owner a fair return on investment, the Hearing Officer considering a request for rent increases shall consider all relevant factors presented in making a determination, as set forth in this Chapter.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.280 Limit on increases pending hearing or litigation

Notwithstanding any other provisions of this Chapter, no adjustment in rents in a mobile home park shall be valid during the time that any hearing or proceeding is being conducted pursuant to this Chapter, nor shall such increase be valid during the period in which the Hearing Officer's decision for that park is being reviewed by a Court

of competent jurisdiction, except those the tenants shall be required to pay as the Permissible Adjustment as provided for under Section 8.90.090 B.

(Ord. MC-1481, 4-14-18; Ord. MC-865, 3-24-93)

8.90.290 Rent adjustments for reduction in services

- A. No owner shall reduce the level or kind of services provided to tenants as of the date of adoption of this Chapter or take any other punitive action in retaliation for the exercise by tenants of any of the rights granted by this Chapter.
- B. If a mobile home park provides in the rent, without separate charge, utilities or similar services (including, but not limited to, natural gas, electricity, water, sewer, trash, and cable television) and converts to separate charge for such service by separate metering, separate charge or other lawful means of transferring to the tenant the obligation for payment for such services, the cost savings shall be passed through to tenants by a rent adjustment equal to the actual cost to the park of such transferred utility or similar service (less common area usage, based on costs for the twelve (12) months period prior to notice to the tenants of the change). Provided compliance with this section occurs, provisions for mediation and/or hearing shall not apply. It is the intent of this Section for those rental agreements entered into on or after January 1, 1991, to be consistent with the provisions of Civil Code Section 798.41 as adopted by Chapter 1013, Section 2 of the Statutes of 1990.

[\[Return to Municipal Code Contents\]](#)

**9.94.060 Right to Appeal;
Consequence of an Untimely or Incomplete Appeal**

Except where this Code prescribes another procedure, the following hearing request procedures apply to appeals under this Chapter.

- A. Any aggrieved person may contest an action taken by an administrative officer of the City, as provided in Section 9.94.030, by filing a written notice of appeal with the City Clerk within 15 calendar days. No fee shall be due for the filing of an appeal. The notice of appeal must also include payment to the City Clerk of the appeal fee, as established or amended from time to time by resolution of the City Council.
- B. The notice required by Subsection (A) must be filed no later than 15 days following the date of mailing to appellant of notice of the action from which the appeal is taken or, if there is no such mailing or none is required, no later than 15 days following the date of the action that is the subject of the appeal.
- C. A written notice of appeal must contain the following information:
 - (1) The full name, mailing address, e-mail address, and telephone number of each appellant who is appealing the action;
 - (2) A description of the specific action or decision being appealed, including the date of the action;
 - (3) The grounds for appeal in sufficient detail to enable the hearing officer to understand the nature of the controversy; and
 - (4) The signature of an appellant.
- D. If the City Clerk does not receive a timely notice of appeal, if the notice of appeal is incomplete, or if the notice of appeal does not comply with all of the requirements set forth in this section, the right to appeal the action is waived. In this event, the action is final and binding. A failure to file a timely or proper notice of appeal also constitutes a failure to exhaust administrative remedies.

(Ord. MC-1521, 9-18-19)

9.94.070 Administrative Hearings—Notice Procedures

Except where this Code prescribes another procedure, the following hearing notice procedures apply to appeals under this Chapter:

- A. No hearing before a hearing officer under this Chapter may be scheduled or held unless a timely and proper notice of appeal has been submitted to the City Clerk as set forth in Section 9.94.060.
- B. The City Clerk must schedule the hearing no sooner than 15 days and no later than 60 days from receipt of the notice of appeal, unless the parties waive such time limits. The failure to hold the hearing within this time period does not invalidate any action of the hearing officer.
- C. The City Clerk must provide a copy of the appeal to the respondent within five days after filing.
- D. The City Clerk must notify the appellant, respondent, and City Attorney in writing of the date, time, and location of the hearing at least 15 days before the date of the hearing.
- E. Failure to receive notice of the time and place of the hearing shall not dismiss any violation at issue or invalidate any action of the hearing officer, if the notice was given in the manner stated in Subsection (D) of this Section.
- F. The notice of hearing may be served by any of the methods of service listed in Section 9.94.100 of this Chapter.
- G. Unless the notice of appeal names some other respondent, the administrative officer or administrative agency that took the action or made the decision being appealed is designated the “respondent.”

(Ord. MC-1521, 9-18-19)

9.94.080 Administrative Hearings—Conduct of Hearing

- A. **Participation.** The hearing officer must be present at all times to preside over the hearing. All hearings are open to the public. The respondent, or another City representative, is required to participate in the hearing. The appellant is required to participate in the hearing.
- B. **Evidence, Witnesses, and Discovery.** All parties have the right to present evidence and cross-examine witnesses. The formal rules of evidence and discovery do not apply. The rules of privilege are effective to the same extent that they are now or hereafter may be recognized in civil actions. Irrelevant and unduly repetitious

[\[Return to Municipal Code Contents\]](#)

evidence may be excluded. Oral evidence may be taken only on oath or affirmation. The appellant and respondent may represent themselves or be represented by anyone of their choice.

- C. Cross-Examination. No party shall have the right to cross-examine any other party or witness except for good cause shown to the satisfaction of the hearing officer. Each party may cross-examine witnesses.
- D. Interpretation and Recordation. The appellant may bring an interpreter to the hearing at his or her sole expense. The City may, at its discretion, record the hearing by stenographer, court reporter, audio recording, or video recording.
- E. Subpoenas. In any hearing conducted by the hearing officer, he or she has the power to compel the attendance of witnesses for the production of evidence by subpoenas issued under the authority of the City Council and attested by the City Clerk. Subpoenas may also be issued at the request of the parties prior to the commencement of such hearing. No subpoena may be issued for any reason without the concurrence of the City Attorney that there is good cause for such subpoena to be issued, and such subpoena is approved by the City Council. It is the duty of the Chief of Police to cause all such subpoenas to be served, and the refusal of a person to attend or to testify in answer to such a subpoena subjects the person to prosecution in the same manner set forth by law for failure to appear before the City Council in response to a subpoena issued by the City Council.
- F. Proof. The standard of proof applicable to the hearing and to be used by the hearing officer in deciding the issue on appeal is proof by a preponderance of the evidence. The respondent bears the burden of proof at the hearing. The hearing officer determines relevancy, weight, and credibility of testimony and evidence.
- G. Continuances. The hearing officer, before or during a hearing, may grant a request for a continuance, in his or her discretion, for good cause; however, in no event may the hearing be continued for more than 30 calendar days without stipulation by all parties.
- H. Failure of Appellant to Appear. If the appellant fails to appear at the hearing, the hearing officer may cancel the hearing and send a notice thereof to the appellant to the address stated on the appeal form. A cancellation of a hearing due to non-appearance of the appellant waives the right to appeal and is failure to exhaust all administrative remedies, provided that proper notice of the hearing as required by this Chapter has been provided. In such instances, the action is final and binding.

(Ord. MC-1521, 9-18-19)

9.94.090 Decision of the Hearing Officer

- A. The hearing officer must render his or her decision in accordance with the provisions of this Chapter, applicable law, and all ordinances of this City.
- B. The hearing officer’s decision must be in writing and must set forth the hearing officer’s findings of fact and conclusions of law.
- C. The hearing officer must render a decision within 15 days following the conclusion of the hearing. Failure of the hearing officer to render a decision within this time period does not invalidate any action of the hearing officer.
- D. The hearing officer’s decision must be served on all parties in accordance with Section 9.94.100. Failure of a person to receive a properly-served decision does not affect the finality or effectiveness of the decision.
- E. The hearing officer’s decision is the final administrative decision of the City regarding the action that is the subject of the appeal. The hearing officer’s decision is effective on the date of service of the decision. The decision must contain the following statement: “The decision of the hearing officer is final and binding. Judicial review of this decision is subject to the provisions and time limits set forth in California Code of Civil Procedure section 1094.6 et seq.”

(Ord. MC-1521, 9-18-19)

9.94.100 Methods of Service

- A. Except where this Code prescribes another procedure, any notice or document required to be served under this Chapter must be served by personal service or first-class mail.
- B. Service is deemed effective on the date it is personally delivered or mailed.
- C. Failure of any person to receive a document properly served under this Chapter does not affect the validity of the notice or document, service, or any action or proceeding under this Chapter.

(Ord. MC-1521, 9-18-19)

9.94.110 Costs

Nothing herein limits the City’s ability to seek recovery of its costs or fees incurred in connection with the hearing if authorized by law. The City shall keep an accounting of the hearing costs. If any portion of the action is upheld, even in part, the City is the prevailing party.

(Ord. MC-1521, 9-18-19)

[\[Return to Municipal Code Contents\]](#)

9.94.120 Judicial Review

The decision of the hearing officer is not subject to appeal to the City Council or any board or commission of the City. Once the hearing officer's decision becomes final as provided in this Chapter, the appellant must both bring judicial action to contest such decision and provide the City with a notice of the action within 90 days after the date of such decision of the hearing officer, in accordance with the Code of Civil Procedure section 1094.6. Failure to do so means all objections to the hearing officer's decision are waived.

(Ord. MC-1521, 9-18-19)

9.94.130 Limitation on Jurisdiction

The hearing officer shall not consider appeals of orders, decisions, and determinations of the City of San Bernardino Building Official relating to the building standards of the California Building Standards Code, which must be considered by the Building Appeals Board pursuant to Section 2.45.030 of this Code.

(Ord. MC-1521, 9-18-19)

9.94.140 Severability

The provisions of this Chapter are severable, and, if any sentence, section or other part of this Chapter should be found to be invalid, such invalidity shall not affect the remaining provisions, and the remaining provisions shall continue in full force and effect."

9.95.030 Administrative procedures

The Mayor, or his or her designee, may promulgate such administrative procedures as may be necessary to implement the provisions of this Chapter.

9.95.040 Recovery of possession by landlord

- A. Grounds for Eviction. Notwithstanding any provision of the San Bernardino Municipal Code to the contrary, a landlord may bring an action to recover possession of a rental unit upon any of the following grounds:
 - 1. The tenant is committing or permitting to exist any illegal drug activity, gang-related crime, or drug-related nuisance on the premises; or
 - 2. The tenant has been convicted of a crime wherein the underlying offense involves illegal drug activity, drug-related nuisance activity or a gang-related crime on the premises.
- B. Notwithstanding subdivision (b) of Section 68097.2 of the Government Code, a public entity may waive all or part of the costs incurred in furnishing the testimony of a peace officer in an unlawful detainer action brought by a landlord to recover possession of a rental unit pursuant to this chapter.

9.95.050 Enforcement

- A. Provided the owner of record or agent thereof, and any known manager, of a premises have been served with a written notice by certified mail, return receipt requested, advising that the Chief of Police has determined that the landlord is in violation of subsection A of §9.95.020 hereof, and has failed to comply with the provisions of that Subsection within fifteen (15) business days of the date of service of said notice, or to file an appeal within said period as provided herein, then the City may proceed with enforcement pursuant to this chapter. The term ‘diligently prosecute’ shall mean such prosecution by the landlord as is necessary to cause the subject rental unit to be completely vacated by all tenants who commit, permit, maintain or are involved in any illegal drug activity gang-related crime, or drug-related nuisance. re-rented, leased or otherwise reoccupied by the prosecuted tenant(s) prior to the expiration of a twelve (12) month period following the vacation of the rental unit by the tenant(s). It is acknowledged that a tenant, in his/her answer to an unlawful detainer action, may raise as an affirmative defense a denial that he/she has engaged in the prohibited conduct. A judicial decision not to order the eviction of a tenant is a defense to prosecution under this Chapter.

- C. Any review of the Hearing Officer's decision shall be in accordance with the procedures as set forth in the Code of Civil Procedure §1094.5.
- D. In the event no appeal is timely filed or an appeal is denied, the City may immediately proceed to enforce the provisions of this Chapter against such landlord by way of criminal enforcement action.
- E. The offending tenant(s) shall be served with a written notice by certified mail, return receipt requested, advising such tenant(s) that the landlord is being notified of the observed criminal activity and that the landlord is required to serve and diligently prosecute either a three (3) day notice to quit or a thirty (30) day notice to vacate. The required notice shall also state that within fifteen (15) days of the date of the notice, the tenant(s) may file a written appeal of the determination of violation with the City Clerk who shall cause the matter to be set for hearing before the Hearing Officer. Written notice of the date and time of said hearing shall be served by first class mail, addressed to the tenant(s) last known address. A decision affirming the violation by the Hearing Officer shall not prevent such tenant(s) from defending any subsequent unlawful detainer action.

9.95.060 Penalties

It shall be unlawful for any person to violate any provision or to fail to comply with any of the requirements of this Ordinance. Any person violating any provision of this Ordinance or failing to comply with any of its requirements shall be punished as follows:

[\[Return to Municipal Code Contents\]](#)

the same provision within any twelve (12) consecutive month period, and a fine not exceeding \$500.00 for a third violation of the same provision occurring within any twelve (12) consecutive month period.

- B. A fourth violation of the same provision occurring within any twelve (12) consecutive month period shall be deemed to be a misdemeanor and upon conviction thereof shall be punishable by a fine not exceeding \$1,000.00, or by imprisonment not exceeding six (6) months, or by both such fine and imprisonment.

Chapter 9.97 Regulation of Registered Sex Offenders (Added by Ord. MC-1380, 10-17-12)⁵

Sections:

- 9.97.010 Intent and Purpose**
- 9.97.020 Definitions**
- 9.97.030 Prohibitions**

9.97.010 Intent and Purpose

The Mayor and Common Council desires to impose safety precautions in furtherance of the compelling interest of protecting children from registered sex offenders by restricting registered sex offenders' access to locations where children regularly gather. The Mayor and Common Council finds that registered sex offenders pose a clear threat to the children residing in or visiting the community. It is the intent of the restrictions in this Chapter to reduce the threat that registered sex offenders pose to these children by limiting the ability of registered sex offenders to be in contact with these children on Halloween, the evening of October 31st

Currently, state law does not address the areas that registered sex offenders can frequent, focusing only on where registered sex offenders can reside. This Chapter is not intended to conflict with, but to supplement, state law by imposing additional restrictions

⁵Ord. MC-1415, 07-20-2015 added "Chapter 9.97 Psychoactive Bath Salts, Psychoactive Herbal Incense and Other Synthetic Drugs" in such a way that might have supplanted "Chapter 9.97 Regulation of Registered Sex Offenders," which was not the intention of the Mayor and Common Council. On advice from the City Attorney, Chapter 9.97 remains "Regulation of Registered Sex Offenders" and "Psychoactive Bath Salts, Psychoactive Herbal Incense and Other Synthetic Drugs" has been moved to Chapter 9.98. This non-substantive change of Chapter number is the only change from Ord. MC-1415.

9.98.010 Purpose and Intent

Recreational use of Psychoactive Bath Salts, Psychoactive Herbal Incense and similar products commonly known as "Synthetic Drugs" has been documented to cause hallucinations, agitation, psychosis, aggression, suicidal and homicidal ideations, cannibalism and death. While State and Federal laws and regulations prohibit some Synthetic Drugs, the makers of these drugs continually alter the composition of the compounds in their products so as to escape the purview of these laws and regulations. The purpose and intent of this Chapter is to provide the City with reasonable measures to address the dangers to the community posed by Synthetic Drugs that are not regulated by State or Federal Law.

⁶Ord. MC-1415, 07-20-2015 added "Chapter 9.97 Psychoactive Bath Salts, Psychoactive Herbal Incense and Other Synthetic Drugs" in such a way that might have supplanted "Chapter 9.97 Regulation of Registered Sex Offenders," which was not the intention of the Mayor and Common Council. 9.98.070 Summary Abatement

Because the use of Synthetic Drugs has been documented to cause hallucinations, agitation, psychosis, aggression, suicidal and homicidal ideations, cannibalism and death, any violation of the Chapter presents a grave and imminent danger not only to the person consuming the Synthetic Drug, but also to the public at large. If the Enforcement Officer, based on the facts then known, determines that a violation of this Chapter presents an imminent danger or hazard or is imminently injurious to the public health or safety, then that violation is punishable by the summary abatement.

- G. Public Nuisance Remedies. The prevailing party in any proceeding associated with the abatement of a public nuisance as provided herein, shall be entitled to recovery of attorneys' fees incurred in any such proceeding, where the City has elected, at the initiation of that individual action or proceeding to seek recovery of its own attorneys' fees. In no action, administrative proceeding or special proceeding shall an award of attorneys' fees to a prevailing party exceed the amount of reasonable attorneys' fees incurred by the City in the action or proceeding.

Chapter 10.25
VEHICLES FOR SALE ON PUBLIC STREETS
(Added by Ord. MC-1407, 9-15-14)

Sections:

- 10.25.010 Findings**
- 10.25.020 Authority**
- 10.25.030 Definitions**
- 10.25.040 On-Street Sales Prohibited**
- 10.25.050 Removal of Vehicle Authorized**
- 10.25.060 Post-Removal Hearings Required for Removed Vehicles**

10.25.010 Findings

The City Council finds as follows:

- A. Persons and businesses are using City streets as de facto used car lots to sell used vehicles.
- B. The act of selling a car in public streets invites prospective buyers into the roadway to examine the vehicle. It is well known that prospective buyers examine the condition of vehicles for sale and look for evidence of damage or repairs. When done in the public roadway, this poses an obvious risk to public and traffic safety that the City wishes to avoid.
- C. The parking of vehicles for sale on City streets creates a distraction for drivers and pedestrians, thereby creating a further public safety hazard. Because drivers may attempt to not only read a for sale sign in or on a vehicle but also commit to memory, write down, or call a telephone number on such a sign, these signs pose a greater risk of accidents than do other types of signs that may be displayed in or on a parked vehicle.
- D. The significant increase in vehicles parked for the purpose of sale has created a nuisance by decreasing the parking available for local residents and businesses.
- E. The City has an important and substantial public interest in protecting public safety, reducing accidents, removing impediments to the orderly flow of traffic such as illegal and hazardous parking, abating public nuisances, eliminating visual blight, preventing unlawful trafficking in stolen vehicles, and protecting licensed car dealers from unfair competition.

 - (C) a statement that all streets in the City are subject to prohibitions of this Chapter; and

12.03.010 Findings

- A. Increasing public demand for services has prompted the expansion and installation of new above and below ground facilities offered throughout the City street and public right-of-way system.
- B. Increased usage of the public right-of-way has created congestion both above and below ground and created competition for the available space.

[\[Return to Municipal Code Contents\]](#)

- C. Congestion in the underground portions of the street right-of-way has created conflicts between the various users in that the first users take the available space leaving little or no room for other users. In some cases, the City is prevented from installing needed expansions to water lines, sewers, or storm drains due to other users taking planned space for their own facilities.
- D. Continued use of public right-of-way has caused the degradation of existing pavements and in some cases has been the cause of damage or degradation to recently constructed or rehabilitated pavements, traffic signal loops, and pavement markings.
- E. It is the intent of the City of San Bernardino to preserve its right to install expansions to its own systems, protect investments in capital street improvements and prevent overuse of the public right-of-way that would hamper proper maintenance and operations of facilities.
- F. Continued excavations and encroachments into the public right-of-way disrupt the traveling public as well as the business operators and pose potential safety hazards unless controlled by permit and properly inspected.
- G. A public utility franchise, granted by the State of California or the City of San Bernardino is a contract granting special privileges to use public rights-of-way. It is not intended that this ordinance impose additional rules and regulations upon the public utilities or confer authority to the City that conflicts with rights granted by existing franchise agreements, the State's public utilities code or jurisdiction of the California Public Utilities Commission.
