- D. All traffic lane closures shall follow the advance warning and safety signing as required by the WATCH manual or other approved traffic control manual. Failure to comply with this section shall constitute sufficient grounds for the City to issue a stop work order.

[\[Return to Municipal Code Contents\]](#)

- E. Projects involving the use of "Rule 20" funds or being done at the request of the City in relation to other ongoing City projects are exempt from the provisions of this section.

12.03.100 Inspection and Plan Review - Deposit

- A. Before excavation/encroachment permits are issued, a deposit to cover the estimated cost of the inspection, plan review and repair/replacement costs shall be paid to the City. Franchise holders who have repair/replacement language within the franchise agreement or who have previously undertaken all repair/replacement obligations need only provide inspection and plan review fees. Both inspection and plan review will be charged as a percentage of the estimated construction cost with a minimum basic fee to cover administrative costs associated with the permit and plan review/inspections. Public utilities performing work under a blanket permit, in lieu of providing the inspection and plan review deposit, shall be billed quarterly for costs based on construction activities and plan reviews conducted for the public utilities, by the City, in public rights-of-way and public places
- B. Plan reviews shall be submitted to the Department of Development Services for review and comment. Two (2) plans shall be submitted and no permits shall be issued or construction started, until the plan review has been completed and plans approved.
- C. No portion of the deposit for repair/replacement costs shall be returned until all work has been satisfactorily completed and all markings, signs, conduits and systems are returned to working order or replaced in kind. This shall also include the removal of pavement markings made to locate underground utilities and facilities and used by the contractor for construction purposes. The street shall be returned to a condition that reflects no evidence of the construction activities. Depending on the location of and direction of the excavation, the contractor may be required to pave to limits of 2 feet each side of the trench, from the curb to the first lane line, a full lane width, a full half street section or the entire street section should the trench be skewed or impact both sides of the street. Surface treatments such as chip seal, slurry seal may be considered based on the condition of the street and area of the patch.

(Ord. MC-1027, 9-09-98; Ord. MC-1004, 10-21-97)

12.03.110 Bonds, Insurance, Deposits

- A. Except as provided in the Streets and Highways Code Section 1468, before an excavation/encroachment permit is issued, a deposit in an amount of the estimated construction cost, as determined by the Director of Development Services, shall be paid to the City for damages and as indemnity for any damages, which may be caused by the permitted excavation or obstruction; or in lieu of such

[Return to Municipal Code Contents]

deposit, post security in a form approved by the City Attorney.

Security shall indemnify the City for any damages and shall be further conditioned upon the compliance by the applicant with all provisions of this Chapter. Such deposit or security shall be for 100 percent of the estimated construction cost, as determined by the Director of Development Services, to guarantee faithful performance of all work, in a manner satisfactory to the City, and that all materials and workmanship will be free from original or developed defects. The deposit or security will remain in effect until the end of all warranty periods set forth in this Chapter. Changes in the work or extensions of time, shall in no way release the applicant or surety from its obligations.

- B. Applicant shall furnish to the City a policy or certificate of liability insurance in which the City is the named insured or is named as an additional insured with the applicant. Franchised utilities doing work with their own forces shall not be required to submit insurance certifications or policies. Notwithstanding any inconsistent statement in the policy or any subsequent endorsement, the City shall be the insured or as an additional insured covering the work whether liability is attributable to the applicant or the City.

The policy shall ensure the City, its officers, employees, and agents, while acting within the scope of their duties on the permit, against all claims arising out of or in connection with the work. Coverage shall be in accordance with the current edition of the Standard Specifications for Public Works Construction (Green Book) Section 7-3. The applicant shall indemnify, defend, and hold harmless the City, its officers and agents from all damages, costs or expenses in law or equity that may at any time arise or be set up because of damages to property, or of personal injury received by reason or in the course of performing work, which may be caused by any willful or negligent act or omission by the applicant, or any of the applicant's employees or contractors. The City will not be liable for any accident, loss or damage to the work prior to its completion and acceptance.

All liability insurance policies shall bear an endorsement or shall have attached a rider whereby it is provided that, in the event of expiration or proposed cancellation of such policies for any reason whatsoever, the City shall be notified by registered mail, return receipt requested, giving a sufficient time before the date thereof to comply with any applicable law or statute, but in no event less than 30 days before expiration or cancellation is effective.

The applicant shall be required, on the permit, to affirm that they have a certificate of consent to self-insure, or a certificate of Worker's Compensation Insurance, or a certified copy thereof. (Sec 3800, Labor Code) or sign a certificate of exemption from Worker's Compensation Insurance (work over \$100 valuation). Said certification shall certify the applicant shall not employ any person in any manner so as to become

subject to the Worker's Compensation Laws of California in the performance of the work. After making such certification, should the applicant become subject to Worker's Compensation provisions of the Labor Code, applicant must forthwith comply with same or the permit shall be deemed revoked.

- C. Owner occupants or owner builders shall not be required to provide said insurance certificates for work with a value under \$5,000.00. Owner occupants or Owner builders shall however be bound by the provisions of Paragraph B as it relates to indemnification and defense of the City and liability for accident, loss or damage to property or for personal injury. The Owner occupant's or the Owner builder's signature on the application will attest to their understanding and acceptance of the liability exposure for work done by owner occupants or owner builders. Owners or builders shall declare that they are exempt from the Contractor's License Law and as the owner of the property that they or their employees, with wages as their sole compensation, will do the work and it is not intended or offered for sale. Contractor's License Law does not apply to an owner of property who builds or improves thereon and who does such work themselves or through their own employees, provided that such improvements are not intended or offered for sale. If however, the improvement is sold within one year of completion, the owner or builder will have the burden of proving that they did not build or improve for the purpose of sale.
- D. Notwithstanding any provision in this Chapter to the contrary, a contractor who has been awarded a competitive bid by the City for a public project involving street excavation or cutting shall not be required to file a bond or special deposit under Section 12.03.110 to cover the cost of repairing or replacement of street surface excavated or damaged, provided that the contractor's bid documents or contract require that they perform such street repair or replacement as a part of the awarded project and that they so perform in a manner satisfactory to the Director of Development Services and in accordance with all provisions of this Section.
- E. An agreement between the Redevelopment Agency and the City in a form satisfactory to the City Attorney unconditionally providing and guaranteeing that the agency provide and pay for those excavations/encroachments and other costs required pursuant to the provisions of this Section may be filed with the Director of Development Services as security in lieu of the bond, cash or certificate of deposit whenever the excavations/encroachments are located in a redevelopment project area and the agreement recites that the excavations/encroachments are in compliance with the redevelopment plan for the area and in furtherance of the public interest in promoting public or private development.

(Ord. MC-1027, 9-09-98; Ord. MC-1004, 10-21-97)

[\[Return to Municipal Code Contents\]](#)

12.03.120 Notifications and Guidelines

- A. Twenty-four (24) hours prior to commencing any work within any public right of way or public place, the applicant shall notify the Department of Development Services Field Engineering Section to arrange for inspection service. All work shall be performed under the inspection and authority of the Director of Development Services or their authorized representative and shall comply with this Chapter and the policy concerning excavations/encroachments.

- B. It is unlawful for any person to make any excavations in any street or sidewalk without maintaining safe crossings for vehicle traffic at all street intersections, alleys, and private driveways, and safe crossing for pedestrians at intervals of not more than three hundred feet. If any excavation is made across any street or alley, at least one safe crossing shall be maintained at all times for vehicles and pedestrians. Free access must be provided and maintained to all fire hydrants and water valves.

(Ord. MC-1027, 9-09-98; Ord. MC-1004, 10-21-97)

12.03.130 Completion of Work and Non-Conforming Work

- A. After work under the permit is commenced, the applicant shall perform the work with due diligence, and so as not to obstruct any street, alley, sidewalk or public place, or travel thereon more than is actually necessary. If the work is not so performed, or if the work does not, in the judgment of the Director of Development Services, comply with the terms of this Chapter, the Director of Development Services shall notify the applicant, in writing, that the work is not performed with due diligence, or that the work has not been properly done, and require the applicant, within three days after service of such notice, to diligently proceed with said work or properly complete the same. If the applicant fails to comply with such notice, the Director of Development Services shall do whatever work is necessary to restore the street, alley, sidewalk or public place to the same condition as existed before work began.

The applicant shall be responsible for all costs incurred by the City in the restoration and enforcement actions pursuant to this Section.

(Ord. MC-1027, 9-09-98; Ord. MC-1004, 10-21-97)

12.03.140 Warranty of Work - Notice - Repair by City

- A. The applicant shall warrant the fitness of all work for the period of one year, or as specified in franchise agreements, after completion of said work against all defects in workmanship or materials. Whenever within said period of one year any public improvement so warranted becomes in need of repairs, by reason of any defect in workmanship or material, the Director of Development Services

[Return to Municipal Code Contents]

shall serve on the applicant written notice stating what repairs are necessary and requiring such repairs to be made within three days after receipt of said notice. If the applicant fails to comply with such notice, the Director of Development Services shall proceed to make such repairs.

The applicant shall be responsible for all costs including materials, labor and administration necessary to repair or replace defective work. Such funds shall be withheld from the bonds or security deposit submitted by the applicant until reimbursement is made or other acceptable arrangement for payment has been established.

(Ord. MC-1027, 9-09-98; Ord. MC-1004, 10-21-97)

12.03.150 Abandonment of Facilities

- A. When abandonment of existing facilities is contemplated, the utility shall make every effort to utilize the current alignment and location for the proposed new facilities thereby preserving the available right-of-way. In the event this is impractical or technically infeasible, the owner/user shall be responsible for the removal of the abandoned facility.
- B. Abandoned facilities may be removed when new facilities are installed or may be deferred until such time as the abandoned facility conflicts with proposed new development or the installation of any new facilities. The owner shall coordinate the removal and disposal of the abandoned facilities with the contractor making the new improvements. The owner shall be fully responsible for the disposal of the ducts, conduits, conductors, pipes, fittings and all other portions of the abandoned work and for any hazardous materials that may be present in any of the abandoned facilities. Should contamination be evident in the surrounding soils, the owner shall investigate and mitigate the contamination.
- C. The owner shall maintain records of such abandoned facilities and shall show such abandoned facilities on any requests to locate facilities when there is a reasonable expectation of conflict with the proposed construction. Such facilities shall be clearly designated as abandoned and upon request the owner shall supply information on the material present.

12.03.160 Permit Expiration

- A. If after a permit has been issued pursuant to this Chapter, and construction has not commenced within sixty days after the date thereof or other date set forth in the permit, then such permit shall become void. Before work commences the applicant must obtain a new permit and pay the usual fee. Applicant may request, in writing, that the Director of Development Services extend the permit time but

[\[Return to Municipal Code Contents\]](#)

such requests shall be made prior to the 60 day expiration date. The request shall state the reasons for the extension, the duration of the extension request and shall provide justification for not beginning the work within the first 60 days. Deposits made on the value of the work may be released upon request of the applicant after the applicant submits evidence of the proper completion of the work or evidence that the permit terminated prior to the commencement of the work. Fees for plan review and inspections performed will not be reimbursed nor applied to re-submittal for a permit for the same area.

- B. Preliminary permits that have been issued to a public agency under the provisions of this Chapter but for which an Excavation/Encroachment permit has not been issued or work commenced within one (1) year of issuance of the Preliminary Permit, or other date set forth on the permit, shall become void. Re-submittal of the preliminary permit will be required to reactivate the process.
- C. Permits for encroachments into the public right-of-way shall not be granted for any period longer than thirty days.

(Ord. MC-1027, 9-09-98; Ord. MC-1004, 10-21-97)

12.03.170 Violation - Penalty

- A. Any person violating any provision of this Chapter is guilty of a misdemeanor, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code. The enforcement of the penal provisions in this Section shall not bar the City from pursuing any other remedies permitted by law.

(Ord. MC-1004, 10-21-97)

Chapter 12.04 (Repealed by Ord. MC-1004, 10-21-97)

Chapter 12.05 Right-Of-Way Permits – Wireless Facilities

Sections:

- 12.05.010 Purpose
- 12.05.020 Definitions
- 12.05.030 Scope
- 12.05.040 Administration
- 12.05.050 General Standards for Wireless Facilities in the Public Rights-of-Way
- 12.05.060 Applications
- 12.05.070 Findings; Decisions; Consultants
- 12.05.080 Conditions of Approval
- 12.05.090 Breach; Termination of Permit
- 12.05.100 Infrastructure Controlled By City
- 12.05.110 Nondiscrimination

12.05.010 Purpose

- (a) The purpose of this Chapter is to establish a process for managing, and uniform standards for acting upon, requests for the placement of wireless facilities within the public rights of-way of the City consistent with the City's obligation to promote the public health, safety, and welfare, to manage the public rights-of-way, and to ensure that the public is not incomed by the use of the public rights-of-way for the placement of wireless facilities. The City recognizes the importance of wireless facilities to provide high quality communications service to the residents and businesses within the City, and the City also recognizes its obligation to comply with applicable Federal and State law regarding the placement of personal wireless services facilities in its public rights-of-way. This ordinance shall be interpreted consistent with those provisions.

(Ord. MC-1560, 6-16-21)

12.05.020 Definitions

The terms used in this Chapter shall have the following meanings:

Application: A formal request, including all required and requested documentation and information, submitted by an applicant to the City for a wireless encroachment permit.

Applicant: A person filing an application for placement or modification of a wireless facility in the public right-of-way.

[\[Return to Municipal Code Contents\]](#)

Base Station: shall have the meaning as set forth in 47 C.F.R. Section 1.6100(b)(l), or any successor provision.

Eligible Facilities Request: shall have the meaning as set forth in 47 C.F.R. Section 1.6100(b)(3), or any successor provision.

FCC: The Federal Communications Commission or its lawful successor.

Municipal Infrastructure: City-owned or controlled property structures, objects, and equipment in the ROW, including, but not limited to, street lights, traffic control structures, banners, street furniture, bus stops, billboards, or other poles, lighting fixtures, or electroliers located within the ROW.

Permittee: any person or entity granted a wireless encroachment permit pursuant to this Chapter.

Personal Wireless Services: shall have the same meaning as set forth in 47 U.S.C. Section 332(c)(7)(C)(i).

Personal Wireless Services Facility: means a wireless facility used for the provision of personal wireless services.

Public Right-of-Way, or ROW: shall have the same meaning as "Public Street" in Section 12.03.020(0), but shall also include any portion of any road or public way which the City has the responsibility to maintain or manage.

Small Cell Facility: shall have the same meaning as "small wireless facility" in 47 C.F.R. 1.6002(1), or any successor provision (which is a personal wireless services facility that meets the following conditions that, solely for convenience, have been set forth below):

- (1) The facility-
 - (i) is mounted on a structure 50 feet or less in height, including antennas, as defined in 47 C.F.R. Section 1.1320(d), or
 - (ii) is mounted on a structure no more than 10 percent taller than other adjacent structures, or
 - (iii) does not extend an existing structure on which it are located to a height of more than 50 feet or by more than 10 percent, whichever is greater;
- (2) Each antenna associated with the deployment, excluding associated antenna equipment (as defined in the definition of antenna in 47 C.F.R. Section 1.1320(d)), is no more than three cubic feet in volume;

- (3) All other wireless equipment associated with the structure, including the wireless equipment associated with the antenna and any pre-existing associated equipment on the structure, is no more than 28 cubic feet in volume;
- (4) The facility does not require antenna structure registration under 47 C.F.R. Part 17;
- (5) The facility is not located on Tribal lands, as defined under 36 C.F.R. Section 800.16(x); and
- (6) The facility does not result in human exposure to radio frequency radiation in excess of the applicable safety standards specified in 47 C.F.R. Section 1.1307(b).

Support Structure: Any structure capable of supporting a base station.

Tower: Any structure built for the sole or primary purpose of supporting any FCC licensed or authorized antennas and their associated facilities, including structures that are constructed for personal wireless services including, but not limited to, private, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless services such as microwave backhaul, and the associated site. This definition does not include utility poles.

Underground areas: Those areas where there are no electrical facilities or facilities of the incumbent local exchange carrier in the right of way; or where the wires associated with the same are or are required to be located underground; or where the same are scheduled to be converted from overhead to underground. Electrical facilities are distribution facilities owned by an electric utility and do not include transmission facilities used or intended to be used to transmit electricity at nominal voltages in excess of 35,000 volts.

Utility Pole: A structure in the ROW designed to support electric, telephone and similar utility lines. A tower is not a utility pole.

Wireless Encroachment Permit: A permit issued pursuant to this Chapter authorizing the placement or modification of a wireless facility of a design specified in the permit at a particular location within the ROW; and the modification of any existing support structure to which the wireless facility is proposed to be attached.

Wireless Facility, or Facility: The transmitters, antenna structures and other types of installations used for the provision of wireless services at a fixed location, including, without limitation, any associated tower(s), support structure(s), and base station(s).

Wireless Infrastructure Provider: A person that owns, controls, operates or manages a wireless facility or portion thereof within the ROW.

Wireless Regulations: Those regulations adopted pursuant to Section 5 and implementing the provisions of this Chapter.

Wireless Service Provider: An entity that provides personal wireless services to end users.

(Ord. MC-1560, 6-16-21)

12.05.030 Scope

- (a) In general. There shall be a type of encroachment permit entitled a "wireless encroachment permit," which shall be subject to all of the same requirements as an encroachment permit would under Chapter 12.03 in addition to all of the requirements of this Chapter. Unless exempted, every person who desires to place a wireless facility in the public rights-of-way or modify an existing wireless facility in the public rights-of-way must obtain a wireless encroachment permit authorizing the placement or modification in accordance with this Chapter. Except for small cell facilities, facilities qualifying as eligible facilities requests, or any other type of facility expressly allowed in the public right-of-way by state or federal law, no other wireless facilities shall be permitted pursuant to this Chapter.
- (b) Exemptions. This Chapter does not apply to:
 - (1) The placement or modification of facilities by the City or by any other agency of the state solely for public safety purposes.
 - (2) Installation of a "cell on wheels," "cell on truck" or a similar structure for a temporary period in connection with an emergency or event, but no longer than required for the emergency or event, provided that installation does not involve excavation, movement, or removal of existing facilities.
- (c) Other applicable requirements. In addition to the wireless encroachment permit required herein, the placement of a wireless facility in the ROW requires the persons who will own or control those facilities to obtain all permits required by applicable law, and to comply with applicable law, including, but not limited to, applicable law governing radio frequency (RF) emissions.
- (d) Pre-existing Facilities in the ROW. Any wireless facility already existing in the ROW as of the date of this Chapter's adoption shall remain subject to the standards and conditions of this Code in effect prior to this Chapter, unless and until a renewal of such facility's then existing permit is granted, at which

[\[Return to Municipal Code Contents\]](#)

time the provisions of this Chapter shall apply in full force going forward as to such facility. The review of any request for a renewal of a permit for such pre-existing facilities shall be conducted pursuant to this Chapter, rather than the portion(s) of this Code that it was previously reviewed under.

- (e) Public use. Except as otherwise provided by California law, any use of the public right of-way authorized pursuant to this Chapter will be subordinate to the City's use and use by the public.

(Ord. MC-1560, 6-16-21)

12.05.040 Administration

- (a) Reviewing Authority. The Director of Public Works ("the Director") or its designee is responsible for administering this Chapter. As part of the administration of this Chapter, the Director may:
 - (1) Interpret the provisions of this Chapter;
 - (2) Develop and implement standards governing the placement and modification of wireless facilities consistent with the requirements of this Chapter, including regulations governing collocation and resolution of conflicting applications for placement of wireless facilities;
 - (3) Develop and implement acceptable designs and development standards for wireless facilities in the public rights-of-way, taking into account the zoning districts bounding the public rights-of-way;
 - (4) Develop forms and procedures for submission of applications for placement or modification of wireless facilities, and proposed changes to any support structure consistent with this Chapter;
 - (5) Determine the amount of and collect, as a condition of the completeness of any application, any fee established by this Chapter;
 - (6) Establish deadlines for submission of information related to an application, and extend or shorten deadlines where appropriate and consistent with state and federal laws and regulations;
 - (7) Issue any notices of incompleteness, requests for information, or conduct or commission such studies as may be required to determine whether a permit should be issued;

[\[Return to Municipal Code Contents\]](#)

- (8) Require, as part of, and as a condition of completeness of any application, notice to members of the public that may be affected by the placement or modification of the wireless facility and proposed changes to any support structure;
- (9) Subject to appeal as provided herein, determine whether to approve, approve subject to conditions, or deny an application; and
- (10) Take such other steps as may be required to timely act upon applications for placement of wireless facilities, including issuing written decisions and entering into agreements to mutually extend the time for action on an application

(b) Appeal.

- (1) Any person adversely affected by the decision of the Director pursuant to this Chapter may appeal the Director's decision to the Hearing Officer, as the term is defined in Section 9.94.010, which may decide the issues *de novo*, and whose written decision will be the final decision of the City. An appeal by a wireless infrastructure provider must be taken jointly with the wireless service provider that intends to use the personal wireless services facility.
- (2) Where the Director grants an application based on a finding that denial would result in a prohibition or effective prohibition under applicable federal law, the decision shall be automatically appealed to the Hearing Officer, consistent with provisions as provided in Chapter 9.94. All appeals must be filed within two (2) business days of the written decision of the Director, unless the Director extends the time therefore. An extension may not be granted where extension would result in approval of the application by operation of law.
- (3) Any appeal shall be conducted so that a timely written decision may be issued in accordance with applicable law.

(Ord. MC-1560, 6-16-21)

**12.05.050 General Standards for Wireless Facilities
in the Public Rights-of-Way**

- (a) Generally. Wireless facilities in the ROW shall meet the minimum requirements set forth in this ordinance and the wireless regulations, in addition to the requirements of any other applicable law.

[Return to Municipal Code Contents]

- (b) Regulations. The wireless regulations and decisions on applications for placement of wireless facilities in the ROW shall, at a minimum, ensure that the requirements of this section are satisfied, unless it is determined that applicant has established that denial of an application would, within the meaning of federal law, prohibit or effectively prohibit the provision of personal wireless services, or otherwise violate applicable laws or regulations. If that determination is made, the requirements of this Chapter may be waived, but only to the minimum extent required to avoid the prohibition or violation.
- (c) Minimum Standards. Wireless facilities shall be installed and modified in a manner that minimizes risks to public safety, avoids placement of aboveground facilities in underground areas, avoids installation of new support structures in the public rights-of-way, and otherwise maintains the integrity and character of the neighborhoods and corridors in which the facilities are located; ensures that installations are subject to periodic review to minimize the intrusion on the rights of way; and ensures that the City bears no risk or liability as a result of the installations, and that such use does not inconvenience the public, interfere with the primary uses of the rights-of-way, or hinder the ability of the City or other government agencies to improve, modify, relocate, abandon, or vacate the public rights of way or any portion thereof, or to cause the improvement, modification, relocation, vacation, or abandonment of facilities in the rights of way.
- (d) Design and Location Standards. All applicants shall design and locate the wireless facilities in accordance with the Design and Development Standards for wireless facilities in the public right-of-way set forth and adopted by resolution of the Mayor and City Council and, from time to time, amended and updated by the Director.

(Ord. MC-1560, 6-16-21)

12.05.060 Applications

- (a) Submission. Unless the wireless regulations provide otherwise, applicant shall submit a paper copy and an electronic copy of any application, amendments, or supplements to an application, or responses to requests for information regarding an application to: Director, at 201 North E Street, Second Floor, San Bernardino, California 92401.
- (b) Pre-application meeting. Prior to filing an application for a wireless encroachment permit, an applicant is encouraged to schedule a pre-application meeting with the Director to discuss the proposed facility, the requirements of this Chapter, and any potential impacts of the proposed facility.

[\[Return to Municipal Code Contents\]](#)

(c) Content. An applicant shall submit an application on the form approved by the Director, which may be updated from time-to-time, but in any event shall require the submission of all required fee(s), City business license(s), documents, information, and any other materials necessary to allow the Director to make required findings and ensure that the proposed facility will comply with applicable federal and state law, this Code, and will not endanger the public health, safety, or welfare. If no form has been approved, applications: (i) must contain all information necessary to show that applicant is entitled to the wireless encroachment permit requested, including, but not limited to, the information and documents listed below; and must (ii) specify whether the applicant believes state or federal law requires action on the application within a specified time period.

- (1) Any information required pursuant to the wireless regulations;
- (2) The name of the applicant, its telephone number and contact information, and if the applicant is a wireless infrastructure provider, the name and contact information for the wireless service provider that will be using the personal wireless services facility;
- (3) A complete description of the proposed wireless facility and the work that will be required to install or modify it, including, but not limited to, detail regarding proposed excavations, if any; detailed site plans showing the location of the wireless facility, and specifications for each element of the wireless facility, clearly describing the site and all structures and facilities at the site before and after installation or modification; and describing the distance to the nearest residential dwelling unit and any historical structure within 500 feet of the facility. Before and after 360 degree photosimulations must be provided.
- (4) Documentation sufficient to show that the proposed facility will comply with generally-applicable health and safety provisions of this Code and the FCC's radio frequency emissions standards.
- (5) A copy of the lease or other agreement between the applicant and the owner of the property to which the proposed facility will be attached.
- (6) If the application is for a small cell facility, the application shall state as such and shall explain why the proposed facility meets the definition of small cell facility in this Chapter.
- (7) If the application is for an eligible facilities request, the application shall state as such and must contain information sufficient to show that the application qualifies as an eligible facilities request, which information must show that there is an existing wireless facility that was approved by the City.

[\[Return to Municipal Code Contents\]](#)

Before and after 360 degree photosimulations must be provided, as well as documentation sufficient to show that the proposed facility will comply with generally-applicable health and safety provisions of this Code and the FCC's radio frequency emissions standards.

- (8) Proof that notice has been mailed to owners of all property owners, and the resident manager for any multi-family dwelling unit that includes ten (10) or more units, within 500 feet of the proposed personal wireless services facility.
- (9) If applicant contends that denial of the application would prohibit or effectively prohibit the provision of service in violation of federal law, or otherwise violate applicable law, the application must provide all information on which the applicant relies on in support of that claim. Applicants are not permitted to supplement this showing if doing so would prevent City from complying with any deadline for action on an application.
- (10) The electronic version of an application must be in a standard format that can be easily uploaded on a web page for review by the public.
- (11) Any required fees.
- (d) Fees. Application fee(s) shall be required to be submitted with any application for a wireless encroachment permit. The Mayor and City Council are hereby authorized to determine, or cause to be determined, the amount, type, and other terms of such fee(s) from time to time by means of resolution. Notwithstanding the foregoing, no application fee shall be refundable, in whole or in part, to an applicant for a wireless encroachment permit unless paid as a refundable deposit.
- (e) Waivers. Requests for waivers from any requirement of this section shall be made in writing to the Director or his or her designee. The Director may grant or deny a request for a waiver pursuant to this subsection. The Director may grant a request for waiver if it is demonstrated that, notwithstanding the issuance of a waiver, the City will be provided all information necessary to understand the nature of the construction or other activity to be conducted pursuant to the permit sought. All waivers approved pursuant to this subsection shall be: (i) granted only on a case-by-case basis, and (ii) narrowly-tailored to minimize deviation from the requirements of this Code.
- (f) Incompleteness. For personal wireless facilities and eligible facilities requests, applications will be processed, and notices of incompleteness provided, in conformity with state, local, and federal law. If such an application

[\[Return to Municipal Code Contents\]](#)

is incomplete, the Director may notify the applicant in writing, and specifying the material omitted from the application.

(Ord. MC-1560, 6-16-21)

12.05.070 Findings; Decisions; Consultants

- (a) Findings Required for Approval.
 - (1) Except for eligible facilities requests, the Director or Hearing Officer, as the case may be, shall approve an application if, on the basis of the application and other materials or evidence provided in review thereof, it finds the following:
 - (i) The facility is not detrimental to the public health, safety, and welfare;
 - (ii) The facility complies with this Chapter and all applicable design and development standards; and
 - (iii) The facility meets applicable requirements and standards of state and federal law.
 - (2) For eligible facilities requests, the Director or Hearing Officer, as the case may be, shall approve an application if, on the basis of the application and other materials or evidence provided in review thereof, it finds the following:
 - (i) That the application qualifies as an eligible facilities request; and
 - (ii) That the proposed facility will comply with all generally-applicable laws.
- (b) Decisions. Decisions on an application by the Director or Hearing Officer shall be in writing and include the reasons for the decision.
- (c) Independent Consultants. The Director or Hearing Officer, as the case may be, is authorized, in its discretion, to select and retain independent consultant(s) with expertise in telecommunications in connection with the review of any application under this Chapter. Such independent consultant review may be retained on any issue that involves specialized or expert knowledge in connection with an application, including, but not limited to, application completeness or accuracy, structural engineering analysis, or compliance with FCC radio frequency emissions standards.

(Ord. MC-1560, 6-16-21)

[\[Return to Municipal Code Contents\]](#)

12.05.080 Conditions of Approval

- (a) Generally. In addition to any supplemental conditions imposed by the Director or Hearing Officer, as the case may be, all permits granted pursuant to this Chapter shall be subject to the following conditions, unless modified by the approving authority:
- (1) Code Compliance. The permittee shall at all times maintain compliance with all applicable federal, state and local laws, regulations and other rules, including, without limitation, those applying to use of public rights-of-way.
 - (2) Permit Duration. A wireless encroachment permit shall be valid for a period often (10) years, unless pursuant to another provision of this Code or these conditions, it expires sooner or is terminated. At the end of ten (10) years from the date of issuance, such Permit shall automatically expire, unless an extension or renewal has been granted. A person holding a wireless encroachment permit must either (1) remove the facility within thirty (30) days following the permit's expiration (provided that removal of support structure owned by City, a utility, or another entity authorized to maintain a support structure in the right of way need not be removed, but must be restored to its prior condition, except as specifically permitted by the City); or (2) at least ninety (90) days prior to expiration, submit an application to renew the permit, which application must, among all other requirements, demonstrate that the impact of the wireless facility cannot be reduced. The wireless facility must remain in place until it is acted upon by the City and all appeals from the City's decision exhausted.
 - (3) Timing of Installation. The installation and construction authorized by a wireless encroachment permit shall begin within six (6) months after its approval, or it will expire without further action by the City. The installation and construction authorized by a wireless encroachment permit shall conclude, including any necessary post-installation repairs and/or restoration to the ROW, within thirty (30) days following the day construction commenced.
 - (4) Commencement of Operations. The operation of the approved facility shall commence no later than one (1) month after the completion of installation, or the wireless encroachment permit will expire without further action by the City.
 - (5) As-Built Drawings. The Permittee shall submit an as-built drawing within ninety (90) days after installation of the facility. As-builts shall be in an electronic format acceptable to the City.

- (6) Inspections; Emergencies. The City or its designee may enter onto the facility area to inspect the facility upon 48 hours prior notice to the permittee. The permittee shall cooperate with all inspections and may be present for any inspection of its facility by the City. The City reserves the right to enter or direct its designee to enter the facility and support, repair, disable, or remove any elements of the facility in emergencies or when the facility threatens imminent harm to persons or property. The city shall make an effort to contact the permittee prior to disabling or removing any facility elements, but in any case shall notify permittee within 24 hours of doing so.
- (7) Contact. The permittee shall at all times maintain accurate contact information for all parties responsible for the facility, which shall include a 24-hour emergency phone number, street mailing address and email address for at least one natural person.
- (8) Insurance. Permittee shall obtain and maintain throughout the term of the permit commercial general liability insurance with a limit of \$2,000,000 per occurrence for bodily injury and property damage and \$4,000,000 general aggregate including premises operations, contractual liability, personal injury, and products completed operations. The relevant policy(ies) shall name the City, its elected/appointed officials, commission members, officers, representatives, agents, and employees as additional insureds. Permittee shall use its best efforts to provide [thirty (30) days'] prior notice to the City of to the cancellation or material modification of any applicable insurance policy.
- (9) Indemnities. The permittee and, if applicable, the owner of the property upon which the wireless facility is installed shall defend, indemnify and hold harmless the City, its agents, officers, officials, and employees (i) from any and all damages, liabilities, injuries, losses, costs, and expenses, and from any and all claims, demands, law suits, writs of mandamus, and other actions or proceedings brought against the city or its agents, officers, officials, or employees to challenge, attack, seek to modify, set aside, void or annul the city's approval of the permit, and (ii) from any and all damages, liabilities, injuries, losses, costs, and expenses, and any and all claims, demands, law suits, or causes of action and other actions or proceedings of any kind or form, whether for personal injury, death or property damage, arising out of or in connection with the activities or performance of the permittee or, if applicable, the property owner or any of each one's agents, employees, licensees, contractors, subcontractors, or independent contractors. In the event the city becomes aware of any such actions or claims the city shall promptly notify the permittee and, if applicable, the property owner and shall reasonably cooperate in the defense. The City shall have the right to approve, which approval shall not be unreasonably withheld, the legal counsel providing the

City's defense, and the property owner and/or permittee (as applicable) shall reimburse City for any costs and expenses directly and necessarily incurred by the City in the course of the defense.

- (10) Adverse Impacts on Adjacent Properties. Permittee shall undertake all reasonable efforts to avoid undue adverse impacts to adjacent properties and/or uses that may arise from the construction, operation, maintenance, modification, and removal of the facility.
- (11) Noninterference. Permittee shall not move, alter, temporarily relocate, change, or interfere with any existing structure, improvement, or property without the prior consent of the owner of that structure, City improvement. or property. No structure. improvement, or property owned by the City shall be moved to accommodate a permitted activity or encroachment, unless the City determines that such movement will not adversely affect the City or any surrounding businesses or residents, and the Permittee pays all costs and expenses related to the relocation of the City's structure, improvement, or property. Prior to commencement of any work pursuant to a wireless encroachment permit, the Permittee shall provide the City with documentation establishing to the city's satisfaction that the Permittee has the legal right to use or interfere with any other structure, improvement, or property within the public right-of-way or city utility easement to be affected by Permittee's facilities.
- (12) No Right, Title, or Interest. The permission granted by a wireless encroachment permit shall not in any event constitute an easement on or an encumbrance against the public right-of-way. No right, title, or interest (including franchise interest) in the public right-of-way, or any part thereof, shall vest or accrue in Permittee by reason of a wireless encroachment permit or the issuance of any other permit or exercise of any privilege given thereby.
- (13) No Possessory Interest. No possessory interest is created by a wireless encroachment permit. However, to the extent that a possessory interest is deemed created by a governmental entity with taxation authority, Permittee acknowledges that City has given.to Permittee notice pursuant to California Revenue and Taxation Code Section 107.6 that the use or occupancy of any public property pursuant to a wireless encroachment permit may create a possessory interest which may be subject to the payment of property taxes levied upon such interest. Permittee shall be solely liable for, and shall pay and discharge prior to delinquency, any and all possessory interact taxes or other taxes, fees, and assessments levied against Permittee's right to possession, occupancy, or use of any public property pursuant to any right of possession, occupancy, or use created by this permit.

- (14) General Maintenance. The site and the facility, including, but not limited to, all landscaping, fencing, and related transmission equipment, must be maintained in a neat and clean manner and in accordance with all approved plans. All graffiti on facilities must be removed at the sole expense of the permittee within forty eight (48) hours after notification from the City.
- (15) RF Exposure Compliance. All facilities must comply with all standards and regulations of the FCC and any other state or federal government agency with the authority to regulate RF exposure standards. After transmitter and antenna system optimization, but prior to unattended operations of the facility, permittee or its representative must conduct on-site post-installation RF emissions testing to demonstrate actual compliance with the FCC OET Bulletin 65 RF emissions safety rules for general population/uncontrolled RF exposure in all sectors. For this testing, the transmitter shall be operating at maximum operating power, and the testing shall occur outwards to a distance where the RF emissions no longer exceed the uncontrolled/general population limit.
- (16) Testing. Testing of any equipment shall take place on weekdays only, and only between the hours of 8:30 a.m. and 4:30 p.m., except that testing is prohibited on holidays that fall on a weekday. In addition, testing is prohibited on weekend days.
- (17) Modifications. No changes shall be made to the approved plans without review and approval in accordance with this Chapter.
- (18) Agreement with City. If not already completed, permittee shall enter into the appropriate agreement with the City, as determined by the City, prior to constructing, attaching, or operating a facility on Municipal Infrastructure. This permit is not a substitute for such agreement.
- (19) Conflicts with Improvements. For all facilities located within the ROW, the permittee shall remove or relocate, at its expense and without expense to the city, any or all of its facilities when such removal or relocation is deemed necessary by the city by reason of any change of grade, alignment, or width of any right-of-way, for installation of services, water pipes, drains, storm drains, power or signal lines, traffic control devices, right-of-way improvements, or for any other construction, repair, or improvement to the right-of-way.
- (20) Abandonment. If a facility is not operated for a continuous period of six (6) months, the wireless encroachment permit and any other permit or approval therefor shall be deemed abandoned and terminated automatically, unless before the end of the six- month period (i) the Director has determined that the facility has resumed operations, or (ii) the City has received an application

[\[Return to Municipal Code Contents\]](#)

to transfer the permit to another service provider. No later than ninety (90) days from the date the facility is determined to have ceased operation or the permittee has notified the Director of its intent to vacate the site, the permittee shall remove all equipment and improvements associated with the use and shall restore the site to its original condition to the satisfaction of the Director. The permittee shall provide written verification of the removal of the facilities within thirty (30) days of the date the removal is completed. If the facility is not removed within thirty (30) days after the permit has been discontinued pursuant to this subsection, the site shall be deemed to be a nuisance, and the City may cause the facility to be removed at permittee's expense or by calling any bond or other financial assurance to pay for removal. If there are two (2) or more users of a single facility or support structure, then this provision shall apply to the specific elements or parts thereof that were abandoned, but will not be effective for the entirety thereof until all users cease use thereof.

- (21) Encourage Co-location. Where the facility site is capable of accommodating a co located facility upon the same site in a manner consistent with the permit conditions for the existing facility, the owner and operator of the existing facility shall allow co-location of third party facilities, provided the parties can mutually agree upon reasonable terms and conditions.
- (22) Records. The permittee must maintain complete and accurate copies of all permits and other regulatory approvals issued in connection with the facility, which includes without limitation this approval, the approved plans and photo simulations incorporated into this approval, all conditions associated with this approval and any ministerial permits or approvals issued in connection with this approval. In the event that the permittee does not maintain such records as required in this condition or fails to produce true and complete copies of such records within a reasonable time after a written request from the city, any ambiguities or uncertainties that would be resolved through an inspection of the missing records will be construed against the permittee.
- (23) Attorney's Fees. In the event the City determines that it is necessary to take legal action to enforce any of these conditions, or to revoke a permit, and such legal action is taken, the Permittee shall be required to pay any and all costs of such legal action, including reasonable attorney's fees, incurred by the City, even if the matter is not prosecuted to a final judgment or is amicably resolved, unless the City should otherwise agree with Permittee to waive said fees or any part thereof. The foregoing shall not apply if the Permittee prevails in the enforcement proceeding.

- (b) Eligible Facilities Requests. In addition to the conditions provided in Section 9(a) of this Chapter and any supplemental conditions imposed by the Director or Hearing Officer as the case may be, all permits for an eligible facility requests granted pursuant to this Chapter shall be subject to the following additional conditions, unless modified by the approving authority:
- (1) Permit subject to conditions of underlying permit. Any permit granted in response to an application qualifying as an eligible facilities request shall be subject to the terms and conditions of the underlying permit.
 - (2) No permit term extension. The city's grant or grant by operation of law of an eligible facilities request permit constitutes a federally-mandated modification to the underlying permit or approval for the subject tower or base station. Notwithstanding any permit duration established in another permit condition, the city's grant or grant by operation of law of a eligible facilities request permit will not extend the permit term for the underlying permit or any other underlying regulatory approval, and its term shall be coterminous with the underlying permit or other regulatory approval for the subject tower, utility pole, or base station.
 - (3) No waiver of standing. The city's grant or grant by operation of law of an eligible facilities request does not waive, and shall not be construed to waive, any standing by the city to challenge Section 6409(a) of the Spectrum Act, any FCC rules that interpret Section 6409(a) of the Spectrum Act, or any modification to Section 6409(a) of the Spectrum Act.
- (c) Small Cell Facilities Requests. In addition to the conditions provided in Section 9(a) of this Chapter and any supplemental conditions imposed by the Director or Hearing Officer, as the case may be, all permits for a small cell facility granted pursuant to this Chapter shall be subject to the following condition, unless modified by the approving authority:
- (l) No waiver of standing. The city's grant of a permit for a small cell facility request does not waive, and shall not be construed to waive, any standing by the city to challenge any FCC orders or rules related to small cell facilities, or any modification to those FCC orders or rules.

(Ord. MC-1560, 6-16-21)

12.05.090 Breach; Termination of Permit

- (a) For breach. A wireless encroachment permit may be revoked for failure to comply with the conditions of the permit or applicable law. Upon revocation, the wireless facility must be removed; provided that removal of a support structure owned by

[Return to Municipal Code Contents]

City, a utility, or another entity authorized to maintain a support structure in the right-of-way need not be removed, but must be restored to its prior condition, except as specifically permitted by the City. All costs incurred by the City in connection with the revocation and removal shall be paid by entities who own or control any part of the wireless facility.

- (b) For installation without a permit. An wireless facility installed without a wireless encroachment permit (except for those exempted by this Chapter) must be removed; provided that removal of support structure owned by City, a utility, or another entity authorized to maintain a support structure in the right of way need not be removed, but must be restored to its prior condition, except as specifically permitted by the City. All costs incurred by the City in connection with the revocation and removal shall be paid by entities who own or control any part of the wireless facility.
- (c) Municipal Infraction. Any violation of this Chapter will be subject to the same penalties as a violation of Chapter 1.12.

(Ord. MC-1560, 6-16-21)

12.05.100 Infrastructure Controlled By City

The City, as a matter of policy, will negotiate agreements for use of Municipal Infrastructure. The placement of wireless facilities on those structures shall be subject to the agreement. The agreement shall specify the compensation to the City for use of the structures. The person seeking the agreement shall additionally reimburse the City for all costs the City incurs in connection with its review of, and action upon the person's request for, an agreement.

12.05.110 Nondiscrimination

In establishing the rights, obligations and conditions set forth in this Chapter, it is the intent of the City to treat each applicant or public right-of-way user in a competitively neutral and nondiscriminatory manner, to the extent required by law, and with considerations that may be unique to the technologies, situation and legal status of each particular applicant or request for use of the public rights-of-way.

(Ord. MC-1560, 6-16-21)

Chapter 12.08 (Repealed by Ord. MC-1004, 10-21-97)

Chapter 12.12 TELEGRAPH AND TELEPHONE POLES - UNDERGROUND UTILITIES¹

Sections:

- 12.12.010 Removal from streets and placement underground required**
- 12.12.020 Use of insulated conduits required**
- 12.12.030 Applicable districts**
- 12.12.040 Erection of poles - No permits issued**
- 12.12.050 Violation - Penalty**

12.12.010 Removal from streets and placement underground required

All poles heretofore erected for telephone, telegraph or other wires (except electric light, power and trolley wires), or for carrying or conducting wires for the purpose of conducting or transmitting telephonic or telegraphic messages, sounds or signals by electricity, within the district described in Section 12.12.030, shall on or before the first day of June, 1907, be removed from the public streets of the City, within the district described, and the keeping or maintaining thereafter in the public streets within said district of any pole or poles for telephone, telegraph or other purpose (except for electric light, power or trolley wire), or any wire or wires upon or above the surface of the ground, for the purpose of conducting, carrying or transmitting telephonic or telegraphic sounds, messages or signals, shall be deemed guilty of a misdemeanor.

(Ord. 335, 10-10-1906)

12.12.020 Use of insulated conduits required

All telephone, telegraph or other wires used for the purpose of conducting, carrying or transmitting telephonic or telegraphic messages, sounds or signals, along or over the public streets of the City within that portion of the City described in Section 1.12.030 shall on or before the first day of June 1907, be removed and placed underground in properly insulated conduits constructed and built under the supervision of the Director of Development Services of the City, and to the satisfaction of the Mayor and Common Council.

(Ord. MC-1027, 9-09-98; Ord. MC-344, 2-22-84; Ord. 335, 10-10-1906)

¹For statutory provisions on conversion of utilities facilities to underground locations, see Str. And Hwys. Code §5896.1 et seq. and Gov. Code §38793.

NOTES:

- 1) SB = 18' at intersections
SB = 10' at driveways
(Under special conditions lesser SB. Values may be approved by Traffic Engineer)
- 2) $V = \text{Speed (MPH)} = 85\text{th Percentile i.e., prevailing speed or as determined by Traffic Engineer}$
- 3) S.D. = Minimum Sight Distance
- 4)

Speed (MPH)	Minimum Sight Distance (feet)
30	300
35	350
40	400
45	450
50	500
55	550
- 5) SL = Line of Sight
- 5) ///// = Area of Limited Use

*Refer to the City of San Bernardino Traffic Engineering Policy Paper for further detail.

- (a) There shall be no obstruction within the limited use area. Area of limited use shall be determined geophysically using appropriate distances given in the Minimum Sight Distance Table (4).
- (b) Obstructions shall include, but not be limited to, any signs or objects higher than 2.5' measured from pavement within the area of limited use. Example, block walls, utility vents, and cabinets, sign street furnitures, mature landscaping, etc.
- (c) Developer's Engineer shall evaluate and show sight lines at proposed intersections/driveways, grading plans, tentative tract maps and landscaping plans where sight distance is questionable.
- (d) Where existing sign, vegetation or objects constitute a sight distance hazard, property owner or occupant shall be notifiedj-required to meet minimum sight distance requirements within 15 days and maintain same thereafter.

SIGHT DISTANCE REQUIREMENTS AT CONTROLLED INTERSECTIONS AND DRIVEWAYS

12.12.030 Applicable districts

That portion or district of the City which is affected by the provisions of this Chapter and referred to in Sections 12.12.010 and 12.12.030, is particularly described as follows:

Commencing at the southeast corner of Lot Seven (7) of Block Fourteen (14) of the City of San Bernardino; thence north along the east line of said Block Fourteen (14) and along the east line of Block Nineteen (19) to the northeast corner of said Block Nineteen; thence west along the north lines of said Block Nineteen (19), Twenty (20) and Twenty-one (21) to a point fifty (50) feet west of the northeast corner of Lot Seven (7) of said Block Twenty-one (21); thence south to a point fifty(50) feet west of the northeast corner of Lot Two (2) of said Block Twenty-one (21); thence west to the northwest corner of said Lot Four (4) of said Block Twenty-one (21); thence south along the west line of said Lot Four (4) to a point midway between the north and south lines of said Lot Four (4); thence west across "F" Street and along the north lines of Lots One (1) and Two (2) of Block Twenty-two (22) to the northwest corner of Lot Two (2) of said Block Twenty-two (22); thence south to a point in the west line of Lot Five (5) of Block Eleven (11) midway between the north and south lines of said Lot Five (5); thence east to the southwest corner of Lot Five (5) of Block Twelve (12); thence south to the southwest corner of Lot Four (4) of said Block Twelve (12); thence east to the point of beginning, all according to the official map of said City of San Bernardino of record in the Office of the County Recorder of San Bernardino County in Book 7 of Maps, Page 1.

(Ord. 335, 10-10-1906)

12.12.040 Erection of poles - No permits issued

The Director of Development Services of the City is directed to issue no permits for the erection of poles for telephone or telegraph wires within the district described in Section 12.12.030 and to prevent the erection within said district of any more poles to be used for carrying or supporting of wire for the conducting or transmitting of electric messages, sounds or signals.

(Ord. MC-1027, 9-09-98; Ord. MC-344, 2-22-84; Ord. 335, 10-10-1906)

12.12.050 Violation - Penalty

Any person, firm or corporation who violates any provision of this Chapter, or fails to comply with the conditions of this Chapter, is guilty of a misdemeanor, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 335, 10-10-1906)

[\[Return to Municipal Code Contents\]](#)

Chapter 12.16 DATUM PLANE

Sections:

12.16.010 Established

12.16.020 Addition to official grades

12.16.010 Established

The official datum for all leveling for the City is established as the sea level datum of 1929.

(Ord. 2040, 8-03-54)

12.16.020 Addition to official grades

There shall be added to all official grades established prior to August 2, 1954, by the City Engineer and adopted by the Mayor and Common Council, seventy hundredths feet, which vertical distance shall be considered as the adjustment between the official datum plane established by Ordinance No. 383², and the sea level datum of 1929.

(Ord. 2040, 8-03-54)

²Ord. 383 was repealed by Ord. 2040, 8-03-54.

Chapter 12.20 PUBLIC PROJECTS

Sections:

- 12.20.010 Adoption of State statutes**
- 12.20.020 Applicable definitions**
- 12.20.030 Bids; expenditure requiring; notice**

12.20.010 Adoption of State statutes

Public Contract Code Sections 20161, 20163, 20164, 20166 and 20168 of the State are adopted as laws governing the City, and such sections shall take effect and be in force within the City except as set forth in this Chapter; provided, that any public project shall be exempted under this Chapter if the Mayor and Common Council or the Board of Water Commissioners determine that the work on such public project can be performed by day labor or City forces.

(Ord. MC-484, 11-20-85; Ord. 3275, 7-14-72; Ord. 821, 8-09-1921)

12.20.020 Applicable definitions

As used in Public Contract Code Section 20161, the phrase "public project" shall not mean the repair or maintenance of public projects. The phrase "repair or maintenance" as used in this Chapter is defined to mean only those items constituting rehabilitation to original condition, or, as applied to streets:

- A. The reworking of the existing street surface by the application of one and one-half inch or less overlay, except that twenty-five percent of the project may be of a greater thickness to provide a leveling course;
- B. The repair or replacement of existing signs, signals, safety devices, guard rails, seal coats, culverts, curbs, gutters, sidewalks, driveways and similar items.

(Ord. MC-484, 11-20-85; Ord. 3224, 1-04-72; Ord. 821, 8-09-1921)

12.20.030 Bids; expenditure requiring; notice

When the expenditure required for a public project exceeds five thousand dollars, it shall be contracted for and let to the lowest responsible bidder after notice.

(Ord. MC-484, 11-20-85; Ord. 821, 8-09-1921)

Chapter 12.21 Design-Build

Sections:

12.21.010	Purpose and Intent
12.21.020	Definitions
12.21.030	Design-Build Procurement Authorized
12.21.040	Procurement Process.
12.21.050	Bonds and Insurance
12.21.060	Subcontractors
12.21.070	Other Rights and Remedies

12.21.010 Purpose and Intent

The purpose of this Chapter is to provide definitions and guidelines for the award, use, and evaluation of design-build contracts.

(Ord. MC-1423, 7-05-16)

12.21.020 Definitions

For the purposes of this Chapter, the following definitions apply:

- (a) "Best value" means a value determined by evaluation of objective criteria that may include, but not be limited to price, features, functions, life-cycle costs, experience, and past performance. A best value determination may involve the selection of the lowest cost proposal meeting the interests of the City and meeting the objectives of the project, selection of the best proposal for a stipulated sum established by the City, or a tradeoff between price and other specified factors.
- (b) "Construction subcontract" means each subcontract awarded by the design-build entity to a subcontractor that will perform work or labor or render service to the design-build entity in or about the construction of the work or improvement, or a subcontractor licensed by the State of California that, under subcontract to the design-build entity, specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the plans and specifications produced by the design-build team.
- (c) "Design-build" means a project delivery process in which both the design and construction of a project are procured from a single entity.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 12 Contents\]](#)

- (d) "Design-build entity" means a corporation, limited liability company, partnership, joint venture, or other legal entity that is able to provide appropriately licensed contracting, architectural, and engineering services as needed pursuant to a design-build contract.
- (e) "Design-build team" means the design-build entity itself and the individuals and other entities identified by the design- build entity as members of its team. Members shall include the general contractor and, if utilized in the design of the project, all electrical, mechanical, and plumbing contractors.
- (f) "City" means the City of San Bernardino.
- (g) "Procurement Agent" means the City Manager, the General Manager of the San Bernardino Municipal Water Department, or the designee of either the City Manager or General Manager.
- (h) "Public Works Project" means any City project requiring design and construction services.

(Ord. MC-1423, 7-05-16)

12.21.030 Design-Build Procurement Authorized

Pursuant to Section 140 of the Charter of the City of San Bernardino, and notwithstanding any provision to the contrary in the California Public Contracts Code or in any other ordinance or procedure of the City of San Bernardino, the use of Design- Build procurement is authorized for any Public Works Project, including, but not limited to, any Public Works Project undertaken by the San Bernardino Municipal Water Department, no matter the amount. The City, with approval of the Mayor and Common Council, or for Public Works Projects undertaken by San Bernardino Municipal Water Department the approval of the Board of Water Commissioners, may award a Public Works Project contract to the low bid or the best value. Any code, ordinance, or procedure in conflict with the foregoing authorization is hereby specifically superseded.

(Ord. MC-1423, 7-05-16)

12.21.040 Procurement Process

- A. The Procurement Agent shall prepare a set of documents setting forth the scope and estimated price of the Public Works Project. The documents may include, but need not be limited to, the size, type, and desired design character of the Public Works Project, performance specifications covering the quality of materials, equipment,

[\[Return to Municipal Code Contents\]](#)

workmanship, preliminary plans or building layouts, or any other information deemed necessary to describe adequately the City's needs. The performance specifications and any plans shall be prepared by a design professional who is duly licensed and registered in California.

- B. The Procurement Agent shall prepare and issue a request for qualifications in order to prequalify or short-list the design-build entities whose proposals shall be evaluated for final selection. The request for qualifications shall include, but need not be limited to, the following elements:
- (1) Identification of the basic scope and needs of the Public Works Project or contract, the expected cost range, the methodology that will be used by the City to evaluate proposals, the procedure for final selection of the design-build entity, and any other information deemed necessary by the City to inform interested parties of the contracting opportunity.
 - (2) Significant factors that the City reasonably expects to consider in evaluating qualifications, including technical design and construction expertise, acceptable safety record, and all other nonprice-related factors.
 - (3) A standard template request for statements of qualifications prepared by the City. In preparing the standard template, the City may consult with the construction industry, the building trades and surety industry, and other cities using design-build procurement. The template shall require the following information:
 - (a) If the design-build entity is a privately held corporation, limited liability company, partnership, or joint venture, a listing of all of the shareholders, partners, or members known at the time of statement of qualification submission who will perform work on the Public Works Project.
 - (b) Evidence that the members of the design-build team have completed, or demonstrated the experience, competency, capability, and capacity to complete projects of similar size, scope, or complexity, and that proposed key personnel have sufficient experience and training to competently manage and complete the design and construction of the Public Works Project, and a financial statement that ensures that the design-build entity has the capacity to complete the Public Works Project.
 - (c) The licenses, registration, and credentials required to design and construct the Public Works Project, including, but not limited to, information on the revocation or suspension of any license, credential, or registration.

- (d) Evidence that establishes that the design- build entity has the capacity to obtain all required payment and performance bonding, liability insurance, and errors and omissions insurance.
 - (e) Information concerning workers' compensation experience history and a worker safety program.
 - (f) If the proposed design-build entity is a corporation, limited liability company, partnership, joint venture, or other legal entity, a copy of the organizational documents or agreement committing to form the organization.
 - (g) An acceptable safety record. A proposer's safety record shall be deemed acceptable if its experience modification rate for the most recent three-year period is an average of 1.00 or less, and its average total recordable injury or illness rate and average lost work rate for the most recent three-year period does not exceed the applicable statistical standards for its business category or if the proposer is a party to an alternative dispute resolution system as provided for in Section 3201.5 of the Labor Code.
- (4)
- (a) The information required under this section shall be certified under penalty of perjury by the design-build entity and its general partners or joint venture members.
 - (b) Information required under this section that is not otherwise a public record under the California Public Records Act (Chapter 3.5 commencing with Section 6250) of Division 7 of Title 1 of the Government Code) shall not be open to public inspection.
- C. Based on the documents prepared as described in paragraph A of this section, the Procurement Agent shall prepare a request for proposals that invites prequalified or short- listed entities to submit competitive sealed proposals in the manner prescribed by the City. The request for proposals shall include, but need not be limited to, the following elements:
- (1) Identification of the basic scope and needs of the Public Works Project or contract, the estimated cost of the Public Works Project, the methodology that will be used by the City to evaluate proposals, whether the contract will be awarded on the basis of low bid or best value, and any other information deemed necessary by the City to inform interested parties of the contracting opportunity.

- (2) Significant factors that the City reasonably expects to consider in evaluating proposals, including, but not limited to, cost or price and all nonprice-related factors.
 - (3) The relative importance or the weight assigned to each of the factors identified in the request for proposals.
 - (4) Where a best value selection method is used, the City may reserve the right to request proposal revisions and hold discussions and negotiations with responsive proposers, in which case the City shall so specify in the request for proposals and shall publish separately or incorporate into the request for proposals applicable procedures to be observed by the City to ensure that any discussions or negotiations are conducted in good faith.
- D. For those Public Works Projects utilizing low bid as the final selection method, the competitive bidding process shall result in lump-sum bids by the prequalified or short-listed design-build entities, and awards shall be made by the Mayor and Common Council or, for Public Works Projects undertaken by the San Bernardino Municipal Water Department, the Board of Water Commissioners, to the design-build entity that is the lowest responsible bidder.
- E. For those Public Works Projects utilizing best value as a selection method, the design build competition shall progress as follows:
- (1) Competitive proposals shall be evaluated by using only the criteria and selection procedures specifically identified in the request for proposals. The following minimum factors, however, shall be weighted as deemed appropriate by the Procurement Agent:
 - (a) Price, unless a stipulated sum is specified.
 - (b) Technical design and construction expertise.
 - (c) Life-cycle costs over 15 or more years.
 - (2) Pursuant to paragraph C, the City may hold discussions or negotiations with responsive proposers using the process articulated in the City's request for proposals.
 - (3) When the evaluation is complete, the responsive proposers shall be ranked based on a determination of value provided, provided that no more than three proposers are required to be ranked.

- (4) The award of the contract shall be made to the responsible design-build entity whose proposal is determined by the Mayor and Common Council, or for Public Works Projects undertaken by the San Bernardino Municipal Water Department, the Board of Water Commissioners, to have offered the best value to the public.
- (5) Notwithstanding any other provision of this code, upon issuance of a contract award, the City shall publicly announce its award, identifying the design-build entity to which the award is made, along with a statement regarding the basis of the award.
- (6) The statement regarding the City's contract award, described in paragraph (5), and the contract file shall provide sufficient information to satisfy an external audit.

(Ord. MC-1423, 7-05-16)

12.21.050 Bonds and Insurance

- A. The design-build entity shall provide payment and performance bonds for the Public Works Project in the form and in the amount required by the City, and issued by a California admitted surety. The amount of the payment bond shall not be less than the amount of the performance bond.
- B. The design-build contract shall require errors and omissions insurance coverage for the design elements of the Public Works Project.
- C. The Procurement Agent shall develop a standard form of payment and performance bond for its design-build Public Works Projects

(Ord. MC-1423, 7-05-16)

12.21.060 Subcontractors

- A. The Procurement Agent, in each design-build request for proposals, may identify specific types of subcontractors that must be included in the design-build entity statement of qualifications and proposal.
- B. Following award of the design-build contract, the design-build entity shall proceed as follows in awarding construction subcontracts with a value exceeding one-half of 1 percent of the contract price allocable to construction work:

[\[Return to Municipal Code Contents\]](#)

- (1) Provide public notice of availability of work to be subcontracted in accordance with the publication requirements applicable to the competitive bidding process of the City, including a fixed date and time on which qualifications statements, bids, or proposals will be due.
- (2) Establish reasonable qualification criteria and standards.
- (3) Award the subcontract either on a best value basis or to the lowest responsible bidder. The process may include prequalification or short-listing. The foregoing process does not apply to construction subcontractors listed in the original proposal.

(Ord. MC-1423, 7-05-16)

12.21.070 Other Rights and Remedies

Nothing in this Chapter affects, expands, alters, or limits any rights or remedies otherwise available at law, including but not limited to the ability of the Mayor and Common Council, or for Public Works Projects undertaken by the San Bernardino Municipal Water Department, the Board of Water Commissioners, to reject all bids pursuant to the authority granted by Section 238 of the City Charter.

(Ord. MC-1423, 7-05-16)

Chapter 12.24 PUBLIC WORKS CONTRACTS

Sections:

- 12.24.010 Bond required**
- 12.24.020 Compliance with state statute**
- 12.24.030 Prevailing Wages (added by Ord. MC-1425, 7-18-16)**

12.24.010 Bond required

Each contractor shall execute and file with the City a good and sufficient surety company bond for labor and materials in the sum of not less than one-half of the total amount payable by the terms of the contract for any public works, provided that the amount exceeds two thousand dollars, at the time of execution of the contract.

(Ord. 2386, 9-05-61)

[\[Return to Municipal Code Contents\]](#)

12.24.020 Compliance with state statute

The provisions of such bond as required in Section 12.24.010 shall be in accordance with the provisions of the general law set forth in Chapter 3, Division 5, Title 1, of the Government Code of the state, as now in effect and as hereafter amended unless otherwise provided by ordinance.

(Ord. 2386, 9-05-61)

12.24.030 Prevailing Wages

Under and pursuant to Section 1770 of the Labor Code of the State of California, the Director of Industrial Relations determines the general prevailing rate of per diem wages in the City of San Bernardino for each craft or type of workman or mechanic. Such rates shall be applicable to any public works contract, as such term is defined under Section 1720, et seq., of the Labor Code of the State of California, of the City of San Bernardino.

(Ord. MC-1425, 7-18-16)

Chapter 12.28 IMPROVEMENTS³

Sections:

- 12.28.010 Procedure authorized**
- 12.28.020 Public hearing**
- 12.28.030 Combined hearing authorized**
- 12.28.040 Combined notices authorized**
- 12.28.050 Hearing - Decisions - Effect**
- 12.28.060 Permit required**
- 12.28.070 Written application required**
- 12.28.080 Fees required**
- 12.28.090 Plan fees**
- 12.28.100 Regulations**
- 12.28.110 Violation of Sections 12.28.060 through 12.28.100 - Penalty**

³For the Improvement Act of 1911, see Str. And Hwys. Code §5000 et seq.

12.28.010 Procedure authorized

- A. Before the Mayor and Common Council adopts any resolution or ordinance ordering the construction of any improvement or the acquisition of any property for public use, or both, herein referred to as "improvement," where the cost thereof is to be paid in whole or in part by special assessment taxes upon lands, a public hearing may be held and a finding and determination made by the Mayor and Common Council as provided herein that the public convenience and necessity require the same.
- B. If such procedure is not so followed and if such finding and determination is not made pursuant thereto, the requirements otherwise prescribed by Division 4, Streets and Highways Code of the state, and Article XIII, Section 17, of the Constitution shall be complied with before any such resolution or ordinance may be adopted.

(Ord. 2063, 5-17-55)

12.28.020 Public hearing

The Mayor and Common Council may hold a public hearing to find and determine whether the public convenience and necessity require any such improvement. Reference may be made to one or more plans, profiles, specifications, maps or plats for the description of the improvement and all particulars relative thereto, which plans, profiles, specifications, maps, or plats shall be on file with the City Clerk or the City Engineer and open to inspection.

(Ord. 2063, 5-17-55)

12.28.030 Combined hearing authorized

The hearing required by this Chapter may be a separate hearing or may be combined and held concurrently with the hearing required by the improvement act pursuant to which the improvement proceeding is proposed.

(Ord. 2063, 5-17-55)

12.28.040 Combined notices authorized

Whether the hearing is held separate, or combined and held concurrently with the hearing required by the improvement act pursuant to which the improvement proceeding is proposed, notice shall be given by posting and publication in the manner prescribed by the improvement act involved, and if the hearings are combined or held concurrently, such notice may be combined with the notice of hearing given under the improvement act under which the improvement proceeding is proposed.

(Ord. 2063, 5-17-55)

[\[Return to Municipal Code Contents\]](#)

12.28.050 Hearing - Decision - Effect

- A. The hearing may be continued from time to time. After the conclusion thereof and prior to adoption of a resolution or ordinance ordering the improvement, the Mayor and Common Council shall consider and pass upon all protests filed and all matters presented, and its decision thereon shall be final and conclusive.
- B. If by such decision the Mayor and Common Council finds and determines by no less than a four-fifths vote of all members thereof that the public convenience and necessity require such improvement, the Mayor and Common Council may thereafter, in accordance with the improvement act specified or designated for the project, adopt a resolution or ordinance ordering the improvement substantially as proposed, or as modified, altered or changed by order of the Mayor and Common Council as authorized by the improvement act for the project.
- C. After such finding and determination by the Mayor and Common Council, the provisions of law for debt limitation and majority protest as mentioned in Article XIII, Section 17, of the Constitution shall not apply.

(Ord. 2063, 5-17-55)

12.28.060 Permit required

It is unlawful for any person, firm or corporation to grade, prepare, subgrade, pave, lay sewer or drain pipe, construct curbs, gutters, driveways, sidewalks, manholes, catch basins, retaining walls, traffic signals, street lighting systems, or similar structures in any street, alley or way, which street, alley or way is dedicated or proposed to be dedicated for public use, within the City, without first obtaining a written permit from the City to do so. No such permit shall be issued for use of quarry tile or ceramic tile for such improvements, but permission may be granted for use of patterned concrete in such sidewalks, street medians and parkways. The Director of Development Services may establish a standard color for patterned concrete to be placed in sidewalks, street medians and parkways on public developments, but the developer shall have the right to choose the color if the improvements are being made by a private developer.

(Ord. MC-1027, 9-09-98; Ord. MC-460, 5-15-85; Ord. MC-320, 12-06-83;
Ord. 3918, 2-25-80; Ord. 2519, 8-20-63; Ord. 1963, 11-18-52)

12.28.070 Written application required

Any person, firm or corporation desiring a permit under this Chapter shall present a written application therefor to the City Engineer, setting forth the name and address of the applicant, details concerning the location, nature and extent of construction intended to be made, and the purpose for which the construction is to be made and used.

(Ord. 1963, 11-18-52)

[Return to Municipal Code Contents]

12.28.080 Fees required

For construction, repair and alteration of sidewalks, curbs, gutters, driveways, subgrades and pavements, manholes, catch basins, retaining walls, traffic signals, street lighting systems, and other structures, and for excavating, laying and backfilling sewers and drainage pipe lines, concerning which specifications, lines and grades therefor shall be determined by the City Engineer, charges for inspections and construction staking shall be based upon a schedule of fees fixed by resolution duly adopted by the Mayor and Common Council after the conclusion of a public hearing relating thereto.

(Ord. 3918, 2-25-80; Ord. 3432, 6-17-74; Ord. 1963, 11-18-52)

12.28.090 Plan fees

Charges shall be made by the City Engineer and paid by the applicant for checking improvement plans relating to street projects, except as otherwise provided in Title 18, based upon a schedule of fees fixed by resolution duly adopted by the Mayor and Common Council after the conclusion of a public hearing relating thereto.

(Ord. 3432, 6-17-74; Ord. 1963, 11-18-52)

12.28.100 Regulations

- A. It is unlawful for any person, firm or corporation performing work under this Chapter to fail, neglect or refuse to remove all unused materials and debris within three days after completion of the work.
- B. The materials used in the construction work may be stored on adjacent public property during the course of construction, provided that the same are so placed and safeguarded by lights, warning signs and barricades, as not to constitute a hazard to public peace and safety.
- C. No driveway approach shall cross over a lot line as extended without the consent of the City Engineer.
- D. Raw materials and workmanship for work provided under this Chapter shall conform to applicable provisions of standard specifications on file in the office of the City Engineer.
- E. Any person, firm or corporation doing work under this Chapter shall cause all such work to be inspected by the City Engineer's office, and shall notify said department twenty-four hours before the time set for inspection. Work completed without such notice or request for inspection will not be accepted, and work done during the absence of said inspector may not be accepted by the City. All work to be performed

[Return to Municipal Code Contents]

under this Chapter shall be to the satisfaction of the City and in accordance with laws of the City and state and under the supervision of the City Engineer or his authorized inspector.

(Ord. MC-460, 5-15-85; Ord. 1963, 11-18-52)

12.28.110 Violation of Sections 12.28.060 through 12.28.100 - Penalty

- A. Civil Penalties: Any person, firm or corporation doing work for which a permit is required under this Chapter, without having first obtained such permit, shall be required to pay fees for all such work in an amount twice the amount fixed by resolution for such work.
- B. Criminal Penalties: Any person, firm or corporation violating any provision of Sections 12.28.060 through 12.28.100 is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 3774, 11-09-78; Ord. 1963, 11-18-52)

Chapter 12.30 SIGHT DISTANCE REQUIREMENT

Sections:

- 12.30.010 Definitions**
- 12.30.020 Provision of Sight Distance**
- 12.30.030 Obstructions**
- 12.30.040 Existing Obstructions**
- 12.30.050 Street Trees**
- 12.30.060 Violation - Penalty**

12.30.010 Definitions

- A. "Director of Development Services" as used in this Chapter includes any authorized representative of said director.
- B. "Traffic Engineer" as used in this Chapter includes any authorized representative of the City's Traffic Engineer.
- C. "Sight restriction" as used in this Chapter includes any obstruction to a driver's line of sight.

[\[Return to Municipal Code Contents\]](#)

- D. "Sight triangle" as used in this Chapter means the area in which no sight restrictions are allowed.

(Ord. MC-1027, 9-09-98; Ord. MC-783, 5-06-91)

12.30.020 Provision of Sight Distance

Sufficient sight distance shall be provided at all intersections to allow approaching vehicles to stop before colliding with a vehicle on an intersecting street. No obstructions that create a sight restriction shall be permitted within the clear sight triangle, as shown on the [Standard Drawing\(s\) for Sight Distance Requirements](#) incorporated into the [Traffic Policy Paper](#) promulgated from time to time by the Department of Development Services and on file with the City Clerk.

(Ord. MC-1027, 9-09-98; Ord. MC-783, 5-06-91)

12.30.030 Obstructions

Obstructions shall include any object extending more than two and one-half (2½') feet above the pavement, at the curb lines of the intersecting streets, such as trees, shrubs, fences, walls, newspaper racks, utility facilities, bus shelters, etc. Trees, trimmed to a minimum height of eight (8') feet above ground, traffic signal and street light poles, shall not be considered as obstructions, unless a finding is made by the Traffic Engineer that they constitute a sight restriction based on the size, trunk diameter, number in a small area, or number in a row. Legally parked motor vehicles shall not constitute an obstruction.

(Ord. MC-783, 5-06-91)

12.30.040 Existing Obstructions

This Chapter shall not apply to conditions existing on the effective date of this Chapter, but as preexisting corner sight obstructions are discovered which may affect the health and safety of residents of the City of San Bernardino, the provisions of this Chapter may be looked to as guidelines as to how such sight obstructions may be remedied.

(Ord. MC-783, 5-06-91)

12.30.050 Street Trees

Removal of street trees shall be in accordance with Chapter 12.40 of this Code.

(Ord. MC-783, 5-06-91)

12.30.060 Violation - Penalty

Any person violating any provision of this Chapter is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-783, 5-06-91)

Chapter 12.32 HOUSE NUMBERS

Sections:

- 12.32.010 Adoption of numbering system**
- 12.32.020 Assignment of Address Numbers**
- 12.32.030 Requirement for number**
- 12.32.040 Violations of Sections 12.32.010 through 12.32.030 - Penalty**
- 12.32.050 Curb house number business license required**
- 12.32.060 Size and color of house numbers
(Repealed by Ord. MC-1395, 1-06-14;
Ord. MC-1337, 11-15-10)**
- 12.32.070 Violation of Sections 12.32.050 through 12.32.060**

12.32.010 Adoption of numbering system

The following system for the numbering of the buildings in the City is adopted:

Commencing at First, on A, B, C, D, E, F, G, H, I, and such other streets as may exist, or may hereafter be established running in the same direction as said A, B, C, D, E, F, G, H, I Streets, with the number 100, and number north to the north boundary line of said City, allowing 100 numbers to each block of 600 feet, exclusive of street intersections; and commencing at A Street, on, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, and such other streets as exist or may hereafter be established running in the same direction as said last named streets with the number 100 and number west to the west boundary line of said City, allowing 100 numbers to each block of 600 feet, exclusive of street intersections, and commencing at 1st Street, on A, B, C, D, E, F, G, H, I and such other streets as may exist, or may hereafter be established running in the same direction as said last named streets, with the number 100, and number south to the south boundary line of said City, allowing 100 numbers to each block of 600 feet, exclusive of street intersections, and commencing at A Street on 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, and such other streets exist or may hereafter be established running in the same direction as the last named streets, with the number 100 and number east to the east boundary line of said City, allowing 100 numbers to each block of 600 feet exclusive of street intersections; with the even numbers placed on the north and west sides of said streets, and the odd numbers on the south and east side of streets.

(Ord. 102, 11-17-1891)

[\[Return to Municipal Code Contents\]](#)

12.32.020 Assignment of Address Numbers

It shall be the responsibility of the Building Official, or his/her designee, to assign building address numbers. The Building Official shall give written notice to the owner, occupant, lessee, tenant, or subtenant of the assignment of an address number. Address numbers that are already in place shall not be required to be changed unless a conflict exists, the street name is changed, or some other condition occurs that necessitates an address be changed. The size and location of address numbers shall be in accordance with the adopted Building and Fire Codes.

(Ord. MC-1395, 1-06-14; Ord. MC-1337, 11-15-10; Ord. 102, 11-17-1891)

12.32.030 Requirement for number

It is unlawful to keep or maintain any building or entrance in the City without the proper number being placed thereon.

(Ord. 102, 11-17-1891)

12.32.040 Violation of Sections 12.32.010 through 12.32.030 - Penalty

Any person, firm or corporation who violates any provision of Sections 12.32.010 through 12.32.030, or who refuses or neglects to comply with the notice required to be given within five days after receiving such notice, is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 102, 11-17-1891)

12.32.050 Curb house number business license required

It is unlawful for any person, firm, corporation, co-partnership or association, either as owner, agent or otherwise to paint or otherwise place house numbers on curbs of streets in the City without first obtaining a curb house number business license from the Finance Department, and paying the fee therefore.

(Ord. MC-1484, 4-18-18; Ord. MC-344, 2-22-84;
Ord. 3346, 5-11-73; Ord. 2163, 2-19-57)

12.32.060 Size and color of house numbers

(Repealed by Ord. MC-1395, 1-06-14; Ord. MC-1337, 11-15-10)

[Return to Municipal Code Contents]

12.32.070 Violation of Sections 12.32.050 through 12.32.060

Any person, firm or corporation violating any provision of Sections 12.32.050 through 12.32.060 is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 2163, 2-19-57)

**Chapter 12.36
STREET GRADES**

Sections:

- 12.36.010 Definitions**
- 12.36.020 Conformance of street grades**
- 12.36.030 Construction of buildings below street grade unlawful**
- 12.36.040 Violation of Section 12.36.030 - Penalty**

12.36.010 Definitions

The following words and phrases used in ordinances, resolutions, notices and proceedings of the Mayor and Common Council and other officers of the City are defined as follows; and when such words and phrases are used in any such ordinance, resolution, notice or proceeding shall be deemed to have such meaning unless a different meaning clearly appears in any such ordinance, resolution, notice or proceeding:

- A. "Centerline" means a line in the middle of the street along its course with an equal distance between it and the street line on each side.
- B. "Curb" means a street improvement generally constructed of cement concrete, six inches wide at the top, nine inches wide at the bottom, and fifteen inches in height, with the top edge nearest the centerline of the street constructed to conform to the curb line of the street, and the side nearest the street line constructed perpendicular and the top and bottom constructed horizontal. Said word may refer to a curb already constructed or which might be hereafter constructed and in places where no curb exists where the word is used as designating a location, it shall be presumed to exist.
- C. "Curb line" means the line at the top of the curb at the edge nearest the centerline of the street. The curb line on all streets, unless otherwise provided by ordinance, shall be the distance from the property line as provided by Section Two of Ordinance No. 338 of the City, entitled "An Ordinance establishing the width of sidewalks within the City of San Bernardino and establishing the width of cement sidewalks that may hereafter be constructed in said City" adopted and approved September 17, 1906.

- D. "Gutter line" means the line along the face of the curb at the top of the roadway and ten inches below the top of the curb.
- E. "Property line" means the boundary line along the street of any abutting land.
- F. "Roadway" means all that portion of the street between the curbs, and at intersections shall include that portion of the street described between the curb lines of the street extended along the course of the street across the intersecting street. In extending such curb lines, the lines shall produce a straight line between the points of intersection of the curb lines of the described street with the curb lines of the intersecting street.
- G. "Sidewalk" means that portion of the street between the curb line and the property line.
- H. "Street" means any land which has been dedicated and accepted according to law as a public street or highway, or which has been in common and undisputed use for general highway purposes by the public for a period of not less than five years. Such word shall be deemed to include avenues, highways, lanes, alleys, crossings or intersections, courts and places.
- I. "Street line" means, such as, for example, "the south line of Third Street," the boundary line of the street along the course of the street. At intersections such line shall be deemed to cross the intersecting street from one corner of the intersection to the other corner on the same side of the street.

(Ord. 756, 1-04-1920)

12.36.020 Conformance of street grades

- A. Except as otherwise provided by ordinance, or unless otherwise provided for by resolution of the Mayor and Common Council, or upon plans adopted for the improvement of any street within the City by the Mayor and Common Council, the grades of all streets in the City are established in conformity with the grades already established along such streets or which may be hereafter established along such streets, as follows:
 - 1. Where the grade is established along the curb line:
 - a. The grade of the street along the curb line shall be a straight line drawn between described points;

[\[Return to Municipal Code Contents\]](#)

- b. The grade at the property line at right angles to the curb line shall be higher than the grade at the curb line at the rate of one-quarter of an inch per foot of distance between the curb line and the property line;
 - c. The grade of the centerline of the street between the two curb lines shall be an average of the grade at the curb lines taken at right angles to the centerline of the street.
 - 2. Where the grade of the street is established along the property line:
 - a. The grade of the street along the property line shall be a straight line drawn between described points;
 - b. The grade at the curb line at right angles to the property line shall be lower than the grade at the property line at the rate of one quarter of an inch per foot of distance between the curb line and the property line.
 - 3. The grade of the sidewalk shall be a straight line drawn between the grade at the curb line and the grade at the property line taken at right angles with either curb line or property line.
- B. The grade of the roadway taken at right angles to the curb-line shall conform to a curved line which shall be a parabola intersecting gutter lines on each side or roadway and centerline of street.
- C. The grade of the street at the gutter line shall be ten inches below the grade at the curb line.
- D. Unless it clearly appears to the contrary, the grade of all streets heretofore established shall be construed to have been established in accordance with the grades hereby established, and all ordinances establishing the grades of any street in the City subsequently adopted by the Mayor and Common Council of the City shall be deemed to have been passed and adopted in the light of this section, and the grades of any such street shall be deemed established along and across any such street in accordance with the provisions of this section unless a contrary intention clearly appears.

(Ord. 1301, 5-12-26; Ord. 821, 8-09-1921)

12.36.030 Construction of buildings below street grade unlawful

It is unlawful to erect, build or construct any building, structure or improvement within the City below the official grade of the street as determined by the Mayor and Common Council except as follows: that in the event that the City Engineer determines by reason

[\[Return to Municipal Code Contents\]](#)

of mountains, hills or other topography that it is impractical to conform to the official grade, then, and in that event, the City Engineer shall notify the Chief Building Inspector of such determination and an exception shall be granted hereto permitting the erection or construction of buildings and structures at other than the official grade.

(Ord. 2265, 6-23-59; Ord. 1900, 11-30-50)

12.36.040 Violation of Section 12.36.030 - Penalty

Any person, firm or corporation violating any provisions of Section 12.36.030 is guilty of a misdemeanor, which upon conviction thereof is punishable in accordance with Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 1900, 11-30-50)

Chapter 12.40 STREET TREES⁴

Sections:

- 12.40.010 Definitions**

- 12.40.120 Height of plants**
- 12.40.130 Duty of property owner and abatement of nuisance**
- 12.40.140 Violation - Penalty**

12.40.010 Definitions

- A. "Director of Public Services" as used in this Chapter includes any authorized representative of such Director.

⁴For statutory provisions on the planting of trees along public streets, see Str. And Hwys. Code §22000 et seq.

- B. "Director of Parks, Recreation, and Community Services" as used in this Chapter includes any designated representative of such Director.

(Ord. MC-344, 2-22-84; Ord. MC-325, 12-06-83; Ord. 3016, 9-23-69; Ord. 1655, 4-08-41)

12.40.020 Street tree master plan

All streets, sidewalks, parkways, lanes, alleys, parks and other public places in the City now open or dedicated, or which may be hereafter opened or dedicated to public use, may be planted with trees, palms, shrubs, bushes, plants and flowers as specifically provided in the street tree master plan on file in the Parks, Recreation and Community Services Department.

(Ord. MC-325, 12-06-83; Ord. 3016, 9-23-69; Ord. 1655, 4-08-41)

12.40.030 Conformance with street tree master plan

It is unlawful for anyone to plant trees, shrubs or bushes upon the streets, sidewalks, parkways, lanes, alleys, parks and other public places to which the master plan is applicable, except in conformity with the master plan.

(Ord. MC-325, 12-06-83; Ord. 3016, 9-23-69; Ord. 1655, 4-08-41)

12.40.040 Petition of property owners for change in variety of trees

In the event a petition bearing the signatures of not less than seventy-five percent of the property owners owning property fronting upon any City street, sidewalk, parkway, lane, alley, park or other public place which is one block long or more, requests a change in the variety of trees used for planting in the place referred to in the petition, the petition shall be granted by the Director of Public Services following consultation with the Director of Parks, Recreation and Community Services if the variety requested for replacement or new planting is known and established as a street tree and is not of a variety that may tend to break sidewalks or curbs or is not objectionable as a street tree for other reasons.

(Ord. MC-344, 2-22-84; Ord. MC-325, 12-06-83; Ord. 3016, 9-23-69; Ord. 1655, 4-08-41)

12.40.050 Removal of City Tree - Duty of Director of Public Services

Upon receipt of a request for the removal of a City tree or for a change in the type of tree designated in the master plan, the Director of Public Services shall investigate and respond in writing to the request, with a copy to the Council Member of the ward. The Director's decision shall be final unless an appeal to the Mayor and Common Council is filed with the City Clerk pursuant to the provisions of Chapter 2.64.

(Ord. MC-344, 2-22-84; Ord. MC-325, 12-06-83; Ord. 3016, 9-23-69; Ord. 1655, 4-08-41)

[\[Return to Municipal Code Contents\]](#)

12.40.060 Authorized removal of tree - Criteria

The Director of Public Services is authorized to remove or approve the removal of those trees which:

- A. Are diseased;
- B. Constitute a traffic hazard;
- C. Threaten to damage sidewalks, curbs or gutters;
- D. Are not in conformity with adopted specifications:
- E. Interfere with street widening;
- F. Are located in a business district;
- G. Obstruct the moving of houses;
- H. Block proposed driveways or entrances to private property; or
- I. Interfere with or damage sewers or water lines.

(Ord. MC-344, 2-22-84; Ord. MC-325, 12-06-83; Ord. 3016, 9-23-69; Ord. 1655, 4-08-41)

12.40.070 Permit required for cutting, trimming, etc

It is unlawful for any person, persons or corporation to cut down, trim, take up, remove, prune or injure any trees, shrubs, palms or flowers that are now planted or grown on any of the public streets, sidewalks, parkways, lanes, alleys, parks or other public places of the City, except after procuring a permit from the office of the Director of Public Services. A permit fee established by resolution of the Mayor and Common Council shall be collected, except that no fee shall be paid for any work required by any City department or performed pursuant to a contract with the City.

(Ord. MC-344, 2-22-84; Ord. MC-325, 12-06-83; Ord. 2273, 9-22-59; Ord. 1655, 4-08-41)

12.40.080 Application for permit

Any person desiring to procure a permit as specified in Section 12.40.070 shall apply in writing to the Director of Public Services, who may require a good and sufficient bond in such sum as may be fixed by the Director, conditioned that the applicant will pay the City all costs and damages resulting from the removing, trimming, pruning of trees, shrubs or bushes, and the Director may, in his discretion, require the furnishing of a bond or policy

[Return to Municipal Code Contents]

of insurance to cover any and all claims for damages to persons or property resulting from the removal, pruning or trimming of trees, shrubs or bushes. The Director may establish other conditions to the permit for protection of persons and property.

(Ord. MC-344, 2-22-84; Ord. MC-325, 12-06-83; Ord. 1655, 4-08-41)

12.40.090 Compliance with permit

Upon the issuance of any permit, the applicant shall comply with each condition of the permit and shall, at least eighteen hours before commencing work, notify the Director of Public Services to cause a field inspection to be made.

(Ord. MC-344, 2-22-84; Ord. MC-325, 12-06-83; Ord. 1655, 4-08-41)

12.40.100 Cost of removal of trees

In the event of a request for the removal of trees by the Director of Public Services under the provisions of Section 12.40.060, sixty days' notice shall be given on all trees except palms, and thirty days' notice shall be given in the case of palm trees, except when the trees constitute a hazard. There shall be paid to the City by the person requesting removal a sum to compensate for the reasonable cost of the removal of the tree or trees, together with a reasonable sum to box, remove, replant and conserve the tree or trees so removed, if applicable. Such sums shall be fixed by the Director of Public Services and shall be paid prior to removal.

(Ord. MC-344, 2-22-84; Ord. MC-325, 12-06-83; Ord. 3016, 9-23-69; Ord. 1655, 4-08-41)

12.40.110 Unlawful acts

It is unlawful for any person to carve or injure the bark of any tree, shrub, palm or bush that is planted or grown on any of the public streets, sidewalks, parkways, lanes, alleys, parks, or other public places in the City. It is unlawful for any person to attach any rope, wire or other contrivance to the tree, shrub, palm or plant; to cause or permit anyone to dig in or otherwise disturb grass areas in public places, or in any other way injure or impair the natural beauty or usefulness of any public area; to cause or permit any wire charged with electricity to come in contact with the tree, shrub, palm or plant, to allow any gaseous, liquid or solid substance which is harmful to the tree, shrub, palm or plant to come in contact therewith.

(Ord. MC-460, 5-15-85; Ord. MC-325, 12-06-83; Ord. 1655, 4-08-41)

12.40.120 Height of Plants

- A. It is unlawful for the owner or occupant of any corner lot in the City to keep, permit, or maintain trees, hedges, shrubs, or any growth within the sight triangle as shown on the Standard Drawing(s) referenced in Section 12.30.020 of this Code, unless the

[Return to Municipal Code Contents]

trees, shrubs, hedges or other growth are trimmed so that the height of same shall not exceed two and one-half (2½') feet above the pavement at the curb lines of the intersecting streets, except that trees with main stalks or trunks exposed to a height of eight (8') feet above the ground need not be trimmed or cut, unless directed to do so by the Director of Development Services.

- B. It is unlawful for any owner or occupant of any premises in the City to permit, keep, or maintain hedges, shrubs, or any growth over two (2') feet in height within a distance of six (6') feet from the property line at any point within six (6') feet of a driveway, except that trees with main stalks or trunks exposed to a height of eight (8') feet above the ground need not be trimmed or cut unless the trees are determined to constitute a sight restriction to the Director of Development Services.

(Ord. MC-1027, 9-09-98; Ord. MC-783, 5-06-91; Ord. MC-344, 2-22-84;
Ord. MC-325, 12-06-83; Ord. 2273, 9-22-59; Ord. 1655, 4-08-41)

12.40.130 Duty of property owner and abatement of nuisance

- A. The owner or occupant described in Sections 12.40.110 and 12.40.120 and other property owners fronting any street, sidewalk, parkway, lane, alley, park or other public place shall water, keep, maintain and permit trees, hedges, shrubs or any other growth located thereon in accordance with this Chapter and other ordinances of the City or rules and regulations of the Director of Public Services.
- B. Any tree, shrub or palm growing on any parkway or sidewalk which is damaged in violation of Section 12.40.110 or any growth of any tree, shrub, or hedge or other vegetation which is in excess of the height limits set forth in Section 12.40.120, unless otherwise permitted by the Traffic Engineer, is hereby declared a public nuisance, the removal of which is necessary to protect the health and safety of the City's inhabitants. The Director of Development Services may find and declare the same to be a public nuisance, may order abatement thereof in accordance with the procedure set for abatement pursuant to Chapter 8.30, and may assess costs for the abatement pursuant to Chapter 3.68* of this Code

(Ord. MC-1027, 9-09-98; Ord. MC-783, 5-06-91; Ord. MC-344, 2-22-84;
Ord. MC-325, 12-06-83; Ord. 2273, 9-22-59; Ord. 1655, 4-08-41)

12.40.140 Violation - Penalty

Any person violating any provision of this Chapter is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions, of Section

* Ord. MC-1418, 10-05-15 repealed/deleted Ch. 3.68 and stated that any remaining provisions of the San Bernardino Municipal Code that reference it should now be deemed to instead reference Ch. 8.30, which it also amended.

[\[Return to Municipal Code Contents\]](#)

1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. MC-325, 12-06-83; Ord. 1885, 5-02-52)

Chapter 12.44 OBSTRUCTIONS⁵

Sections:

- 12.44.010 Prohibited deposits on street**
- 12.44.020 Depositing salt on streets unlawful**
- 12.44.030 Streets, sidewalks, and crosswalks to be kept free of obstructions**
- 12.44.040 Draining water on streets unlawful - Penalty**
- 12.44.050 Nuisance**
- 12.44.060 Disposal of dead animals and rubbish, garbage or filth**
- 12.44.070 Maintenance of premises**
- 12.44.080 Violation of Sections 12.44.040 through 12.44.070 - Penalty**
- 12.44.090 Use of sidewalks for display of goods, wares or merchandise unlawful.**
- 12.44.100 Removal of goods, wares and merchandise.**
- 12.44.110 Projection of signs**
- 12.44.120 Violation of Sections 12.44.090 through 12.44.110 - Penalty**

12.44.010 Prohibited deposits on street

It is unlawful for any person to deposit on any public street any bottles, broken ware, rubbish, waste paper, garbage, filth, refuse, dead animals or brine.

(Ord. 821, 8-09-1921)

12.44.020 Depositing salt on streets unlawful

It is unlawful for any person to deposit upon any paved street within the City any brine, salt, water containing any salts or any matter which is injurious to such pavement.

(Ord. 821, 8-09-1921)

⁵For statutory provisions authorizing cities to prevent encroachment and obstruction of City streets, see Gov. Code §38775.

12.44.030 Streets, sidewalks and crosswalks to be kept free of obstructions

- A. The public streets, sidewalks and crosswalks of the City, and the stairways, escalators, elevators, passageways and sidewalks in or surrounding public malls or buildings owned, operated, or maintained by the City, and the entrances and exits to and from public halls, meeting places, and public buildings within the boundaries of the City, being intended for the accommodation and convenience of the public, shall be kept and reserved free from all obstructions, including but not limited to obstructions by human beings.
- B. It is unlawful for any person to willfully and maliciously stand or sit in, obstruct or occupy any public street, sidewalk or crosswalk, or sit, stand in, obstruct or occupy any public stairway, escalator, elevator, passageway, or sidewalk in or immediately surrounding a public mall or building owned, operated or maintained by the City, or stand, sit in, occupy or obstruct the entrance or exit to and from any public hall, meeting place and public building within the boundaries of the City, so as in any manner to obstruct the free passage thereon or to hinder, molest or annoy any person while passing along the same.
- C. Any person who violates any provision of this section is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 3950, 7-09-80; Ord. 3711, 3-07-78; Ord. 120, 9-13-1892)

12.44.040 Draining water on streets unlawful - Penalty

It is unlawful for any person to drain water or to permit water to be drained or to cause or permit water, except rainwater, to flow or escape from his or her lands onto any public street, alley, way, highway, park or other public place by any means which results in damage to the street, alley, way, highway, park or other public place, or which causes interference with or damage or hazard to public travel or use. It is unlawful to place or cause to be placed in any street, alley, way, highway, park, or other public place any obstruction which causes interference with, or damage or hazard to public travel or use.

Any person who violates any provision of this section is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 2347, 3-27-61; Ord. 151, 1-16-1894)

12.44.050 Nuisance

The existence of anything prohibited by Section 12.44.040 is a nuisance, and it shall be the duty of the marshal or any policeman, or the Director of Public Services to immediately abate such nuisance upon knowledge of its existence.

(Ord. MC-344, 2-22-84; Ord. 151, 1-16-1894)

[\[Return to Municipal Code Contents\]](#)

12.44.060 Disposal of dead animals and rubbish, garbage or filth

Whenever any domestic or domesticated animal is killed or dies within this City, the owner or person having possession, charge or control thereof shall immediately after its death dispose of the dead body or carcass of such animal so that it shall not become a nuisance or in any way injurious to health, or indecent or offensive to the senses. No person shall throw into or place or deposit upon any public park, street, alley, or other highway or public place, except in such place or places as may be designated by the proper officer, any broken ware, rubbish, garbage, or filth.

(Ord. 151, 1-16-1894)

12.44.070 Maintenance of premises

Every owner or occupant of any house or houses, or other premises in this City, or person having possession, charge or control thereof, shall keep the house or houses, or other premises, and the premises around and about such house or houses, clean of all filth, or anything creating offensive odors or detrimental to health.

(Ord. 151, 1-16-1894)

12.44.080 Violation of Sections 12.44.040 through 12.44.070 - Penalty

Any person violating any provision of Sections 12.44.040 through 12.44.070 is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 151, 1-16-1894)

12.44.090 Use of sidewalks for display of goods, wares or merchandise unlawful

It is unlawful for any person, firm or corporation to use or make use of the public sidewalks of the City for the display of goods, wares, or merchandise, or to leave or permit to remain upon any portion of the public streets of the City any goods, wares, merchandise, boxes, barrels, cases, packages, trucks, or such other objects or things as will obstruct or prevent the free use and passage thereon.

(Ord. 475, 2-13-1912)

12.44.100 Removal of goods, wares and merchandise

Goods, wares and merchandise delivered or received upon the public sidewalks of the City shall immediately be taken or removed therefrom by the owner or person in charge thereof; provided, that goods, wares or merchandise received in bulk or packages of such size or weight that the same cannot be immediately removed, as aforesaid, the

[Return to Municipal Code Contents]

owner or person in charge thereof shall remove or cause the same to be removed within four hours from the time of delivery thereof; and provided further, that pending such removal of such goods, wares or merchandise, the same shall occupy the outer edge or space of the sidewalk, the inner line of such space shall be parallel with the curb line and not more than three feet distant therefrom.

(Ord. 475, 2-13-1912)

12.44.110 Projection of signs

No provision of Sections 12.44.090 through 12.44.120 shall be construed to prohibit the projection of signs over public property in conformity with Ordinances 1991 (Title 19. Zoning) [now replaced] and 2623 (Chapter 16.04) or other ordinances and laws in effect in the City.

(Ord. 2997, 7-01-69; Ord. 475, 2-13-1912)

12.44.120 Violation of Sections 12.44.090 through 12.44.110 - Penalty

Any person violating any provision of Sections 12.44.090 through 12.44.110 is guilty of an infraction, which upon conviction thereof is punishable in accordance with Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 475, 2-13-1912)

Chapter 12.48 BRIDGES

Sections:

- 12.48.010 Driving animals over bridge - Restrictions - Violation and penalty**
- 12.48.020 Unlawful placement of bridges**
- 12.48.030 Notice to remove bridges**
- 12.48.040 Duty to remove bridge**
- 12.48.050 Violation of Sections 12.48.020 through 12.48.040 - Penalty**

12.48.010 Driving animals over bridge - Restrictions - Violation and penalty

- A. It is not lawful to drive, lead or conduct any cattle, horses, mules, sheep, goats, or hogs, or in any manner cause any such animals to go across or upon any bridge in or upon any of the streets, avenues or highways in this City, in any greater number than twenty-five head of cattle, horses, or mules, or fifty sheep, goats, or hogs, at one time.

[\[Return to Municipal Code Contents\]](#)

B. Any person violating Subsection A is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 122, 9-27-1892)

12.48.020 Unlawful placement of bridges

It is unlawful for any person to place or cause to be placed, or to keep and maintain any bridge or crossing over and across the gutter along either side of any paved or macadamized street in the City.

(Ord. 111, 5-17-1892)

12.48.030 Notice to remove bridges

It shall be the duty of the Director of Public Services to notify any person maintaining any such bridge or crossing to have the same removed within ten days from the date of such notice and to cut down the curb and slope the sidewalk so as to permit the easy passage of vehicles, should any such passage be required for access to private property.

(Ord. MC-344, 2-22-84; Ord. 111, 5-17-1892)

12.48.040 Duty to remove bridge

Upon receiving such notice from the Director of Public Services, it shall be the duty of the person receiving the same to at once comply with the provisions of Section 12.48.030.

(Ord. MC-344, 2-22-84; Ord. 111, 5-17-1892)

12.48.050 Violation of Sections 12.48.020 through 12.48.040 - Penalty

Any person violating any provision of Section 12.48.020 through 12.48.040 is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 111, 5-17-1892)

Chapter 12.52 FIRE HYDRANTS

Sections:

- 12.52.010 Persons authorized to use hydrants - Prohibited acts**
- 12.52.020 Parking vehicles near hydrant**
- 12.52.030 Distance poles and wires to be kept from hydrant**
- 12.52.040 Violation - Penalty**

12.52.010 Persons authorized to use hydrants - Prohibited acts

It is unlawful for any person, except members of the Fire Department of the City, to use any fire hydrant in the City or to interfere with, tamper with or in any way molest any fire hydrant in the City except through special permission of the Fire Chief of the City and ratified by the Superintendent of the Water Department of the City.

(Ord. 1263, 12-08-25; Ord. 821, 8-09-1921)

12.52.020 Parking vehicles near hydrant

It is unlawful for any person to hitch, or leave standing any carriage, wagon, horse, truck, automobile, motorcycle, bicycle or any other such vehicle or animal, within fifteen feet of any fire hydrant within the City.

(Ord. 562, 4-06-1914)

12.52.030 Distance poles and wires to be kept from hydrant

It is unlawful for any person, firm or corporation to place, or erect any pole to carry or support electric, telephone or telegraph wires, or other similar devices, within five feet of any fire hydrant within the City.

(Ord. 562, 4-06-1914)

12.52.040 Violation - Penalty

Any person, firm or corporation violating any provision of this Chapter is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 562, 4-06-1914)

[\[Return to Municipal Code Contents\]](#)

Chapter 12.56
PARADES⁶
(Repealed by Ord. MC-1414, 07-06-15)

Chapter 12.60
VENDING NEAR PUBLIC SCHOOLS

Sections:

12.60.010 Distance from public schools

12.60.020 Violation - Penalty

12.60.010 Distance from public schools

It is unlawful for any person, firm or corporation to vend, sell or give away ice cream, ices, cornucopias, candy or soda-water from vehicles upon the public streets of the City within twelve hundred feet of any public school house, excepting on Saturdays and Sundays.

(Ord. 614, 11-01-1915)

12.60.020 Violation - Penalty

Any person, firm or corporation violating any provision of this Chapter is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 614, 11-01-1915)

Chapter 12.64
MOTION PICTURE AND TELEVISION PRODUCTION PERMITS
(Repealed by Ord. MC-1414, 07-06-15)

⁶For statutory authority for cities to regulate or prohibit processions or assemblages on the highways, see Vehicle Code §21100.

Chapter 12.68 PARK AND SCHOOL GROUNDS⁷

Sections:

- 12.68.010 Operation of vehicles in designated areas only**
- 12.68.020 Hours of use**
- 12.68.030 Violation - Penalty**

12.68.010 Operation of vehicles in designated areas only

It is unlawful for any person to operate, drive or ride a bicycle, unicycle, tricycle, motorcycle, horse or any other animal in any public park or on school grounds except in areas designated and posted specifically for such use.

(Ord. MC-460, 5-15-85; Ord. 3455, 11-05-74; Ord. 295, 12-15-1903)

12.68.020 Hours of use

- A. During the months of January, February, March, October, November, and December of each and every year, it is unlawful for any person to be or remain in any public park between the hours of six p.m. (6:00 p.m.) of any day to six a.m. (6:00 a.m.) of the succeeding day except upon written approval of the Director of Parks, Recreation and Community Services or the Mayor and Common Council. During the months of April, May, June, July, August, and September of each and every year, it is unlawful for any person to be or remain in any public park between the hours of eight p.m. (8:00 p.m.) of any day to six a.m. (6:00 a.m.) of the succeeding day except upon written approval of the Director of Parks, Recreation and Community Services or the Mayor and Common Council. Notwithstanding the provisions of the first two sentences herein, person(s) who are utilizing the lighted activity portions of the public park for those intended lighted activities (including the time necessary to go to and from the intended lighted activities), when no such written approval is required for such intended lighted activities, may remain in the public park until the hour of ten p.m. (10:00 p.m.), but thereafter it is unlawful for any such person(s) to be or remain in any public park between the hours of ten p.m. (10:00 p.m.) of any day to six a.m. (6:00 a.m.) of the succeeding day.
- B. This section shall not be applicable to any person who is present in the park performing duties relating to employment by the City.

⁷For statutory provisions on municipal regulation of parks, see Pub. Res. Code §5181 et seq.

- C. The Chief of Police, or his or her designee, shall be authorized to close any City park whenever, in his or her best judgment, it is necessary for the health, safety and welfare of the community. It is unlawful for any person to be or remain in any public park after having been informed that such park has been closed by order of the Chief of Police or his or her designee.

(Ord. MC-1152, 10-08-03; Ord. MC-460, 5-15-85; Ord. 3868, 9-18-79; Ord. 3698, 12-21-77; Ord. 3455, 11-05-74; Ord. 295, 12-15-1903)

12.68.030 Violation - Penalty

Any person violating any provision of this Chapter is guilty of a misdemeanor, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 295, 12-15-1903)

Chapter 12.72 CLOCKS

Sections:

- 12.72.010 Permit - Required for clocks overhanging public streets**
- 12.72.020 Application for permit**
- 12.72.030 Termination of permit for cause**
- 12.72.040 Clocks to indicate correct time**
- 12.72.050 Violation-Penalty**

12.72.010 Permit - Required for clocks overhanging public streets

It is unlawful for anyone to install, erect, maintain or operate a clock or device which tells or indicates the time upon or overhanging the public streets of the City without first obtaining a permit from the Common Council.

(Ord. 1739, 4-12-45)

12.72.020 Application for permit

Any person so desiring to procure a permit to erect, install, maintain or operate a clock or device to tell or indicate the time shall make written application to the Mayor and Common Council stating therein the name or make of the clock or device, the plan or manner in which the clock or device is to be erected, installed, maintained or operated; the amount of advertising matter to be displayed thereon or in connection therewith; such other information as the Council may from time to time desire.

(Ord. 1739, 4-12-45)

[\[Return to Municipal Code Contents\]](#)

12.72.030 Termination of permit for cause

The permit so issued may be terminated at any time by the Mayor and Common Council upon the following grounds:

- A. The clock or device has not been installed, erected, maintained, or operated in accordance with the permit granted;
- B. The clock or device is or has been maintained for a period of thirty days in such condition that it does not show, indicate or tell the correct time;
- C. It is necessary or advantageous that public or private improvements be made upon the streets which necessitate or render it advantageous that the clock or device be removed.

(Ord. 1739, 4-12-45)

12.72.040 Clocks to indicate correct time

It is unlawful for anyone to permit, maintain, operate or own a clock or device which does not tell, indicate or show the correct time and which has been erected or installed upon the public streets of the City or which overhangs the public streets; provided, that the face of any clock or device may be covered during the period necessary for repairs but not to exceed a period of thirty days without permission of the Mayor and Common Council.

(Ord. 1739, 4-12-45)

12.72.050 Violation - Penalty

Any person, firm or corporation violating any provision of this Chapter is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 1739, 4-12-45)

Chapter 12.76 SECCOMBE LAKE PARK

Sections:

- 12.76.010 Change of name**
- 12.76.020 Swimming in lake unlawful**
- 12.76.030 Operation of boats by permission only**
- 12.76.040 Ducks, geese and fowl to be left unharmed**
- 12.76.045 Fishing unlawful**
- 12.76.050 Violation - Penalty**

12.76.010 Change of name

On and after August 28, 1967, Inland Lake Park shall be known as Seccombe Lake Park and the lake situated therein shall be known as Seccombe Lake.

(Ord. 2844, 8-29-67; Ord. 1761, 5-25-46)

12.76.020 Swimming in lake unlawful

It is unlawful for anyone to swim or bathe in the lake situated in Seccombe Lake Park in the City.

(Ord. 1761, 5-25-46)

12.76.030 Operation of boats by permission only

It is unlawful for anyone to paddle, row, pole, or in any way launch, operate or propel a boat, canoe, raft, or any floating conveyance upon the lake situated in Seccombe Lake Park in the City except with the permission of, and subject to any regulations that may be imposed by, the Common Council.

(Ord. 2700, 11-02-65; Ord. 1761, 5-25-46)

12.76.040 Ducks, geese and fowl to be left unharmed

It is unlawful for anyone to kill, maim, or injure in any way any duck, goose, or any fowl kept, maintained, or situated in Seccombe Lake Park in the City.

(Ord. 1761, 5-25-46)

[\[Return to Municipal Code Contents\]](#)

12.76.045 Fishing unlawful

It is unlawful for anyone to fish on the lake except in designated areas and subject to any regulations imposed by the State Fish and Game laws and to any regulation that may be imposed by the Common Council.

(Ord. MC-489, 1-08-86)

12.76.050 Violation - Penalty

Any person violating any provision of this Chapter is guilty of a misdemeanor, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 1761, 5-25-46)

Chapter 12.80 PUBLIC PARKS AND RECREATIONAL FACILITIES

Sections:

- 12.80.010 Short title**
- 12.80.020 Definitions**
- 12.80.030 Use of parks and buildings exclusive**
- 12.80.040 Permit - Required when group exceeds twenty-five persons**
- 12.80.050 Park and recreation sponsored classes - Permit required**
- 12.80.055 Consumption of Alcohol in a Public Park - Permit required**
- 12.80.060 Application for permit**
- 12.80.070 Issuance of permit**
- 12.80.080 Denial of permit**
- 12.80.090 Right of appeal of denial of permit or conditions imposed on issuance of permit**
- 12.80.100 Fees and deposits**
- 12.80.110 Liability**
- 12.80.120 Displays and sales**
- 12.80.130 Park regulations**
- 12.80.140 Violation - Penalty**

12.80.010 Short title

The ordinance codified in this Chapter shall be known as the "parks and recreation ordinance."

(Ord. 3326, 1-03-73)

[\[Return to Municipal Code Contents\]](#)

12.80.020 Definitions

For the purpose of carrying out the intent of this Chapter, the following words, phrases, and terms shall be deemed to have the meaning ascribed to them in this section:

- A. "Amplified sound" means speech or music, projected or transmitted by electronic equipment, including amplifiers, loudspeakers, microphones, bull horns or similar devices which are intended to increase the volume, range, distance, or intensity of speech or music and are powered by electricity, battery, or combustible fuel.
- B. "Building" includes any building, or portion thereof, under the supervision of the Parks and Recreation Department of the City.
- C. "Director" refers to the Director of the Department of Parks and Recreation.
- D. "Park" includes all grounds, roadways, avenues, park facilities, municipal parks and playground areas, or portions thereof, under the supervision of the Parks and Recreation Department .
- E. "Permit" means a permit for exclusive use of any park or building, or portions thereof, as provided for in this Chapter.
- F. "Person" means persons, groups, associations, partnerships, firms or corporations unless the context in which such word is used indicates the singular word person was intended.
- G. "Inline skates" mean skates which are attached to a boot, shoe, or other footwear to be worn by the skater.

(Ord. MC-1185, 10-05-04; Ord. 3326, 1-03-73)

12.80.030 Use of parks and buildings exclusive

The City's public parks and buildings, or portions thereof, may be made available for the exclusive use of persons subject to the issuance of a permit by the Director as provided for in this Chapter.

(Ord. 3326, 1-03-73)

12.80.040 Permit - Required

- A. For any private groups of persons using a public park that have fewer than twenty-five no permit is required.

[Return to Municipal Code Contents]

- B. It is unlawful for any group of persons, firm or corporation, society or organization which anticipates an attendance of more than twenty-five to conduct any picnic, celebration, parade, service or exercise in any public park or building or use any park facility, without first obtaining a written permit from the Director as provided for in this Chapter.
- C. It is unlawful for any group of persons, firm or corporation, society or organization which anticipates an attendance of more than one hundred to conduct any picnic, celebration, parade, service or exercise in any public park or building or use any park facility, without first obtaining a Special Event Permit pursuant to Municipal Code Section 19.70.036.

(Ord. MC-1414, 7-06-15; Ord. MC-460, 5-15-85; Ord. 3326, 1-03-73)

12.80.050 Park and recreation sponsored classes - Permit required

It is unlawful for any person, firm, corporation, society or organization to hold classes, courses of instruction or any activity where a fee or any form of compensation is charged or anything of value is obtained in a park or building, except in accordance with a written permit issued by the Director for such classes, courses of instruction or activity sponsored by or approved by the Department of Parks and Recreation pursuant to the provisions of this Chapter.

(Ord. MC-460, 5-15-85; Ord. 3525, 9-10-75; Ord. 3326, 1-03-73)

**12.80.055; 12.80.060; 12.80.070; 12.80.080; 12.80.090;
12.80.100; 12.80.110; 12.80.120**
(Repealed by Ord. MC-1414, 07-06-15)

12.80.130 Park regulations

Within the limits of any public park or playground in or upon any facility or building located therein and owned or controlled by the City, it is unlawful for any person to:

- A. Cause the amplification of sound exceeding twenty-five watts total output from all channels of equipment used except pursuant to an exclusive use permit issued under this Chapter and subject to the following conditions:
 - 1. The location of any bandstand and the position of each loudspeaker shall be as specified by the Director so as to allow the least amount of amplified sound to be audible in any adjacent residential neighborhoods.

[\[Return to Municipal Code Contents\]](#)

2. Amplified sound shall not exceed ninety-five decibels (dba) at a point fifty feet in front of the center point of the distance between loudspeaker installations.
- B. Play or practice golf or use golf clubs in any area not designated for such use;
 - C. Operate any motor driven model airplane except in areas designated for such use;
 - D. Operate or park any motor vehicle as defined in the California Vehicle Code within a park except upon areas designated for such use;
 - E. Operate, drive, or ride upon any bicycle, unicycle, tricycle, horse or any other animal in any park except in areas designated and posted specifically for such use;
 - F. Leave any garbage, trash, cans, bottles, papers or other refuse elsewhere than in the receptacle provided therefor;
 - G. Use or attempt to use or interfere with the use of any table, space or facility which at the time is reserved for any other person or group which has received a permit from the Director for the use thereof;
 - H. Discharge or shoot any firearm, air gun, slingshot, or bow and arrow except at places designated and posted specifically for such purposes;
 - I. Dig, remove, destroy, injure, mutilate or cut any tree, plant, shrub, bloom or flower, or any portion thereof except a duly authorized City employee in the performance of his duty;
 - J. Remove any wood, turf, grass, soil, rock, sand or gravel from any park except a duly authorized City employee in the performance of his duty;
 - K. Cut, break, deface, or disturb any rock, building, cage, pen, monument, sign, fence, structure, apparatus, equipment or property except a duly authorized City employee in the performance of his duty;
 - L. Light or maintain any fire unless such fire is lighted and maintained only in a stove or fire circle or place provided for such purpose;
 - M. Throw rocks and waste matter in unauthorized places;
 - N. Bathe or wade in or otherwise pollute the waters of any pond, stream, lake or pool unless wading or bathing are allowed in designated streams or pools or portions thereof;

[\[Return to Municipal Code Contents\]](#)

- O. Frighten, chase, set snare for, catch, injure or destroy any wild quadrupeds or birds; or destroy, remove or disturb any of the young or eggs of same, or to injure or maltreat any domestic or other animals;
- P. Camp, lodge or tarry overnight unless there are set aside certain places for this purpose; the provisions of Section 12.68.020 regulating loitering and tarrying in any public park is adopted by reference;
- Q. Indulge in riotous, boisterous or indecent conduct; and no noisy, disorderly or offensive person shall be allowed within the park; the provisions of Chapter 9.32 prohibiting any person from drinking alcoholic beverages in a public place is adopted by reference;
- R. Roller skate or bicycle upon tennis courts in any public park within the City; and
- S. Enter any toilet facility designated for the use of female persons within any public park or go into the vault of or be within such toilet facility, excepting therefrom females, boys under the age of six years, and park employees while acting within the scope of their duties of cleaning or repairing the toilets; or cut, deface, or make any writing or marking on, the walls of any toilet facility or structure within any public park.
- T.
 1. Skateboard or inline skate at a City-owned skateboard park without wearing a helmet, elbow pads, and knee pads;
 2. use this facility for skateboarding or inline skating if under the age of fourteen (14) years without being supervised by an adult;
 3. use any other equipment other than skateboards or inline skates at this facility;
 4. skateboard or inline skate during rain or wet conditions at this facility; and/or,
 5. if not an adult supervising someone under the age of fourteen (14) years, enter (by passing through the entrance/fence) or remain in the skateboard park while not actively skating at all times.
- U. To Smoke or engage in the act of Smoking in any Public Park in violation of San Bernardino Municipal Code Section 8.73.050

(Ord. MC-1319, 11-16-09; Ord. MC-1180, 9-09-04; Ord. MC-1171, 4-06-04;

- 12.84.770 Remedies for collection

ARTICLE VI. PROCEDURAL ALTERNATIVE V

- 12.84.780 Generally
- 12.84.790 Issuance of bonds

ARTICLE I. GENERAL PROVISIONS

12.84.010 Citation

The ordinance codified in this Chapter may be cited as the "San Bernardino Off-street Public Parking Improvement and Finance, Procedural Ordinance" (sometimes referred to as "Off-street Parking Ordinance").

(Ord. 3589, 7-06-76)

12.84.020 Findings and general statement

- A. The Mayor and Common Council hereby find that in order to provide an orderly procedure for the acquisition, construction, improvement, completion, repair, management, reconstruction, administration, maintenance, operation and disposal of public off-street parking places, issuance and payment of bonds to pay the cost thereof, the making of contributions therefor, and the making of covenants and agreements with the bond holders for the security and payment of such bonds, it is necessary for the City to exercise the powers it has by virtue of being a home rule City and to provide such a procedure. As used in this Chapter, "parking places" includes public parking lots, garages, buildings and other improvements for the parking of motor vehicles. The procedure provided for in this Chapter is to be an alternative to any others provided by, under or pursuant to the Charter of the City or the general laws of the state.
- B. In addition to matters specified elsewhere in this Chapter, the City is authorized to perform the acts authorized by the procedural alternatives, including without limitation, the following:
 - 1. Acquire, by condemnation, purchase, gift, lease or any other means, property necessary or convenient for use as parking places, including any property necessary or convenient for the opening, widening, straightening, or extending of streets or alleys necessary or convenient for ingress to or egress from any parking place;

[\[Return to Municipal Code Contents\]](#)

2. Improve any property by the construction thereon of garages, buildings, or other improvements necessary or convenient for parking purposes;
3. Improve parking places and any property necessary or convenient for ingress to or egress from parking places;
4. Administer, maintain, operate, and repair parking places or provide therefor;
5. Collect fees or charges to pay all or any part of the cost of improving, repairing, maintaining, and operating parking places and of acquiring and improving additional parking places;
6. Levy taxes to pay all or any part of the cost of improving, repairing, maintaining, and operating parking places and of acquiring and improving additional parking places;
7. Employ engineers, attorneys and other persons necessary or convenient for the doing of any act authorized by this Chapter;
8. Do all acts and things necessary or convenient for the accomplishment of the purposes of this Chapter.

(Ord. 3589, 7-06-76)

12.84.030 Chapter not exclusive

This Chapter is not exclusive. The Mayor and Common Council shall have the power to provide other procedures or to follow parking place or district procedures now or hereafter provided by general law; provided, however, that whenever the City is acting pursuant to this Chapter, the provisions of this Chapter shall be controlling to the extent that they are in conflict with any of the provisions of said laws.

(Ord. 3589, 7-06-76)

12.84.040 Initiation of proceedings

Whenever the Mayor and Common Council deem it necessary to provide public off-street parking places under and pursuant to this Chapter, the Mayor and Common Council shall by resolution declare their intention to proceed and shall describe in general terms the procedural alternative they intend to follow, the proposed improvements or acquisitions involved, the estimated costs of the improvements or acquisitions involved and the maximum amount of bonds, if any, to be issued to finance the improvements or acquisitions. The requirement of a resolution as provided for in this section may be satisfied by the adoption of the resolution provided for

[\[Return to Municipal Code Contents\]](#)

in Sections 12.84.050 through 12.84.130.

(Ord. 3589, 7-06-76)

12.84.050 Determination that public convenience and necessity require improvements and acquisitions

Before ordering any acquisitions or improvements or both, or the creation of any district pursuant to this Chapter, where the costs of the acquisitions or improvements are to be paid in whole or in part by special assessment or other special assessment taxes upon property, whether the special assessment will be specific or a special assessment tax upon property wholly or partially according to the assessed value of such property, the Mayor and Common Council shall find that the public convenience and necessity require such acquisitions or improvements, or both, in the manner provided in Section 19, Article XVI of the California Constitution.

(Ord. 3589, 7-06-76)

12.84.060 Preliminary determination of necessity

A resolution of preliminary determination shall be adopted describing in general terms the intention to proceed under this Chapter, the procedural alternative to be followed, the proposed improvements or acquisitions involved, the estimated costs of such improvements or acquisitions, whether the assessment is to be levied on all real property or on land only, the amount, based upon the estimated costs, to be assessed against each particular parcel, the maximum amount of bonds, if any, to be issued to finance the proposed improvements or acquisitions. The resolution shall also state that any person interested may file a protest in writing with the City Clerk containing therein a description of the property in which the signer thereof is interested sufficient to identify the same and, if the signers are not shown on the last equalized assessment roll as the owners of such property, must contain or be accompanied by written evidence that such signers are the owners of such property. The resolution shall also set a time and place when and where any and all persons interested may appear and show cause, if they have any, why the Mayor and Common Council should not find and determine that the public convenience and necessity require the formation of the proposed improvement district and the proposed acquisitions or improvements without compliance with the Special Assessment Investigation, Limitation and Majority Protest Act of 1931, sometimes referred to in this Chapter as "Investigation Act."

(Ord. 3589, 7-06-76)

12.84.070 Notice of hearing

The resolution shall contain a notice of the time and place of hearing. Notice of the hearing shall be given by publishing a copy of the resolution of preliminary determination once at least fifteen days prior to the time fixed for the hearing in a

[\[Return to Municipal Code Contents\]](#)

newspaper of general circulation published in the City. Such notice shall also be given by posting a copy of the resolution of preliminary determination in three public places within the proposed improvement district at least fifteen days before the time fixed for the hearing. Such notice shall also be given by mailing a copy of the resolution of intention at least fifteen days before the time fixed for the hearing to each holder of title to taxable real property or land, as the case may be, within the proposed improvement district as such ownership is shown on the last equalized county assessment roll. The City Clerk shall cause all the above notices to be given.

(Ord. 3589, 7-06-76)

12.84.080 Objections

At the time and place fixed for the hearing and so noticed, any person interested may object to undertaking the proceedings without first complying with the provisions of the Investigation Act.

(Ord. 3589, 7-06-76)

12.84.090 Final determination of necessity

If no protests are made, or if the protests have been heard and overruled, the Mayor and Common Council may adopt a resolution finding and determining that the public convenience and necessity require the proposed improvements and/or acquisitions, and that the Investigation Act shall not apply. The finding may be incorporated in the resolution ordering the improvement and/or acquisition.

(Ord. 3589, 7-06-76)

12.84.100 Modification

When proceedings are had for a change and modification, the resolution of preliminary determination to change and modify shall be deemed a resolution of preliminary determination and the resolution ordering the change and modifications shall be deemed a resolution determining the convenience and necessity as to the changes and modifications.

(Ord. 3589, 7-06-76)

12.84.110 Council findings and determinations are final and conclusive

The resolution determining the convenience and necessity shall be adopted by the affirmative vote of four-fifths of the members of the Common Council and its findings and determinations shall be final and conclusive.

(Ord. 3589, 7-06-76)

[\[Return to Municipal Code Contents\]](#)

12.84.120 Applicability of findings

Sections 12.84.050 through 12.84.130 shall not apply when investigation proceedings have been avoided or taken pursuant to the Investigation Act.

(Ord. 3589, 7-06-76)

12.84.130 Proceedings undertaken without compliance with investigation - Finality of order of Mayor and Common Council

Where proceedings for any improvements and/or acquisitions or any part thereof have been undertaken without compliance with the Investigation Act or without proceedings under Sections 12.84.050 through 12.84.130, proceedings may thereafter be had under Sections 12.84.050 through 12.84.130, with reference thereto, and the order of the Mayor and Common Council determining convenience and necessity therein shall be final and conclusive.

(Ord. 3589, 7-06-76)

12.84.140 General provisions

The general provisions set forth in Sections 12.84.150 through 12.84.320 shall apply to all proceedings taken under this Chapter. (Ord. 3589 §6 (part), 1976) 12.84.150 City may take action without petition. The City may prepare a report, adopt a resolution of intention, form a parking district, or take any other action to provide public off-street parking places without any petition therefor.

(Ord. 3589, 7-06-76)

12.84.150 City may take action without petition

The City may prepare a report, adopt a resolution of intention, form a parking district, or take any other action to provide public off-street parking places without any petition therefor

(Ord. 3589, 7-06-76)

12.84.160 Resolution setting forth majority protest

The Mayor and Common Council, in their discretion, may set forth in a resolution the basis for determining the existence of a majority protest, which may include, but shall not be limited to, land area, assessed valuation of real property, assessed valuation of land only or the number of property owners.

(Ord. 3589, 7-06-76)

[\[Return to Municipal Code Contents\]](#)

12.84.170 Parking places not necessarily in parking district

When a parking district is formed, it shall not be necessary for all parking places to be located within the parking district.

(Ord. 3589, 7-06-76)

12.84.180 No specific time limit between acts

It shall not be necessary for any specified time to elapse between the performance of acts except as otherwise required by this Chapter.

(Ord. 3589, 7-06-76)

12.84.190 Publication of notice

The first publication and the mailing of any resolution or notice shall be not later than fifteen days before the day fixed therein for hearing or other act.

(Ord. 3589, 7-06-76)

12.84.200 Use of resolution

The Mayor and Common Council may act by resolution where an ordinance is provided except as provided in Section 12.84.710 and Section 12.84.720.

(Ord. 3589, 7-06-76)

12.84.210 Assessment upon public property

Whenever proceedings are to be undertaken in accordance with Procedural Alternatives I, II or III, the Mayor and Common Council may provide in the resolution of intention that any real property belonging to any county, City, public agency, school board, educational, penal or reform institution or institution for the feebleminded or the insane shall be assessed in accordance with the provisions of Sections 5300-5325, inclusive, of the Streets and Highways Code of the state as the same now appear or are hereafter amended.

(Ord. 3589, 7-06-76)

12.84.220 When bonds may be issued

Bonds may be issued at such time or times as the Mayor and Common Council in their discretion by resolution determine, including, but not limited to, before contracting or obtaining options for the purchase of land, property or rights-of way to be acquired, or

[Return to Municipal Code Contents]

obtaining a judgment in eminent domain for the acquisition thereof.

(Ord. 3603, 9-20-76; Ord. 3589, 7-06-76)

12.84.230 Payment of bonds

Any bonds issued in accordance with Procedural Alternatives I, II or III, the interest thereon, and premium, if any, shall be payable from assessments levied, as determined by the Mayor and Common Council, upon land only or upon all real property within the district. The resolution of intention shall state the basis upon which the assessment is to be levied.

(Ord. 3603, 9-20-76; Ord. 3589, 7-06-76)

12.84.240 Registration and redemption of bonds

The Mayor and Common Council shall, by resolution, prescribe the form of the bonds and of the coupons attached thereto, the conversion and registration privileges carried by the bonds and fix the time when the whole or any part of the principal shall become due and payable. The Mayor and Common Council may provide for the call and redemption of bonds prior to maturity at such times and prices and upon such other terms as they may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect.

(Ord. 3589, 7-06-76)

12.84.250 Issuance of bonds in different divisions

The bonds may be issued in different divisions with different dates and dates of maturity.

(Ord. 3589, 7-06-76)

12.84.260 Bids for bonds - Sale to highest responsible bidder - Rejection of bids - Re-advertisement - Private sale - Use of proceeds.

- A. The bonds shall be sold for such price or prices as the Mayor and Council, in their discretion, shall determine, which may be at the par value thereof with or without premium or discount. The bonds may be sold at public or private sale as the Mayor and Common Council shall determine. If the Mayor and Common Council determine to sell the bonds by private sale, the same shall be awarded by resolution to the buyer or buyers thereof. If the Mayor and Common Council determine to sell the bonds at public sale, before selling the bonds or any part thereof, the City Clerk shall give notice inviting sealed bids in such manner as the Mayor and Common

[\[Return to Municipal Code Contents\]](#)

Council shall prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded by resolution to the highest responsible bidder. If no bids are received, or if the Mayor and Common Council determine that the bids received are not satisfactory as to price or responsibility of the bidders, they may reject all bids received, if any, and either re-advertise or sell the bonds at private sale.

- B. The purposes for which the proceeds of the bonds may be used may also include, without limitation, incidental expenses, such as engineering, appraisal, legal fees, bond counsel fees, financial consultant fees, land and rights-of-way acquisition, reserve funds and expenses of financing the district, if any, and expenses of all proceedings for the authorization, issuance and sale of the bonds or related thereto.

(Ord. 3589, 7-06-76)

12.84.270 Bonds - Additional sources of payment

The Mayor and Common Council, in their sole discretion, may provide in the resolution required by Section 12.84.040 or Sections 12.84.050 through 12.84.130, that bonds, both principal and interest, issued for the purposes provided for herein may be additionally payable from any legally available source of funds, including, without limitation, revenues derived from the operation of the public off-street parking places or grants from other governmental agencies to the City to be used for any of the purposes set forth herein.

(Ord. 3589, 7-06-76)

12.84.280 Rental of facilities

The City may acquire, construct, rent, lease, maintain, repair, manage and operate all or any portion of any real and personal property for the purpose of providing public off-street parking places and may provide by lease or otherwise with any person, firm, corporation, or nonprofit association or corporation for the management, operation, maintenance or repair of the public off-street parking places.

(Ord. 3589, 7-06-76)

12.84.290 Incidental use

- A. As an incident to the operation of any parking facility, the City may devote a portion of its property to uses such as retail stores, bus terminal, gasoline service station, helicopter landing area, or any other commercial use, when in its judgment it is convenient or necessary to conduct or permit such use in order to utilize the property as a parking facility. Any such incidental use shall be secondary to the primary use as a parking facility, and the portion of the land devoted to the incidental use shall not exceed twenty-five percent of the surface area of the property. If a building is

[\[Return to Municipal Code Contents\]](#)

erected on the property for the purpose of parking motor vehicles, the incidental use of the building shall not occupy more than twenty-five percent of the floor area.

- B. The Mayor and Common Council shall use its best efforts to lease surplus space devoted to commercial purposes other than parking vehicles, to any person, firm, corporation, or nonprofit association or corporation as the Mayor and Common Council shall determine.
- C. As an incidental use to a parking facility, foundations, platforms and other like structural forms may be constructed in any feasible manner, as an integral part thereof or otherwise, for provision or utilization of air rights sites for buildings to be used for, without limitation, residential, commercial or other uses; provided, that the cost of such structural forms shall be recovered from the parties utilizing such air rights sites and used, as determined by the Mayor and Common Council, to pay the costs of acquisition, construction, improvement, completion, repair, management, reconstruction, administration, maintenance or operation of the parking places involved or other parking places located within the City.

(Ord. 3589, 7-06-76)

12.84.300 Disposition of property

The Mayor and Common Council, subject to the provisions of the City Charter, may determine that any parcel of property, or any improvements, extensions or replacements thereof or additions thereto, either acquired from the proceeds of the bonds or leased to the City with rents therefor derived from assessments levied pursuant to this Chapter are no longer needed for off-street parking purposes or such facilities may be otherwise better provided. Subject to the provisions of the City Charter, and any restriction in the resolution providing for the issuance of any outstanding bonds relating to the facilities involved, the property may thereafter be sold, leased or otherwise disposed of, either during or after the term of the bonds and the proceeds placed in a fund as designated by the Mayor and Common Council and used for the purposes of this Chapter.

(Ord. 3759, 9-13-78; Ord. 3589, 7-06-76)

12.84.310 Other procedures

When proceedings are had under this Chapter, its provisions may be supplemented by other proceedings or as otherwise provided in the resolution of intention, including without limitation provisions for credit for parking places made available for public or private uses pursuant to agreement with the City, credit for taxes or assessments paid to the City and used primarily for parking purposes, and the replenishment for reserve funds.

(Ord. 3603, 9-20-76; Ord. 3589, 7-06-76)

[\[Return to Municipal Code Contents\]](#)

12.84.320 Assessment without bonds

In addition, or as an alternative to, the other provisions contained in Procedural Alternatives II or III, the Mayor and Common Council may provide in the resolution of intention for the levy each year of an ad valorem assessment on all taxable real property or all taxable land, as the case may be, within the district to provide moneys for all or any part of the costs and expenses of providing parking places prior to the issuance of bonds or without issuing bonds. The costs and expenses of providing parking places may include, but shall not be limited to, lease payments, the costs and expenses of operating, maintaining, repairing and improving the parking places, engineering fees, appraisal fees, legal fees, financial consultant fees, cost of land and rights-of-way acquisition, expenses of all proceedings for the formation of the district and all other costs and expenses for carrying out the purposes of this Chapter. The rate of ad valorem assessment shall be fixed by the Mayor and Common Council each year so as to produce sums required to pay the estimated costs and expenses mentioned above. The assessment shall be levied, collected and enforced in the same manner, at the same time, and with the same penalties and interest, as in the case of taxes levied for the City.

(Ord. 3603, 9-20-76; Ord. 3589, 7-06-76)

ARTICLE II. PROCEDURAL ALTERNATIVE I

12.84.330 Generally

Any part or parts of the City may be created and operated as a district or districts for the acquisition, construction, improvement, completion, repair, management, reconstruction, administration, maintenance, operation and disposal of public off-street parking places; bonds to pay the cost thereof may be issued and paid; contributions may be made, covenants and agreements with the bondholders for the security and payment of such bonds may be made; and the Mayor and Common Council shall have the powers, jurisdiction and authority all as now or hereafter provided in the Parking District Law of 1943 (herein called "1943 Act"), excepting as herein otherwise provided.

(Ord. 3589, 7-06-76)

12.84.340 Two parking districts

Territory included in one parking district may be included in another parking district if the Mayor and Common Council find that the territory will be benefited by being included in the subsequent parking district.

(Ord. 3589, 7-06-76)

[\[Return to Municipal Code Contents\]](#)

12.84.350 Administration

The Mayor and Common Council, in their discretion, may, by the adoption of a resolution, declare themselves to be the Parking Place Commission with any and all powers and duties of parking place commissioners as provided in the 1943 Act.

(Ord. 3589, 7-06-76)

12.84.360 Additional collection provision

The provisions of Sections 8680 to 8688, inclusive, and 8830 to 8835, inclusive, of the Streets and Highways Code of the state shall apply to assessments levied hereunder.

(Ord. 3589, 7-06-76)

12.84.370 Tax levy

Annually on or before June 30th, the Mayor and Common Council shall prepare an estimate of the expenditures required for the maintenance, operation, repair, and improvement of the parking places under its charge for the ensuing fiscal year, and, in their discretion, required during that year for the acquisition of additional parking places, if any. The Mayor and Common Council shall also estimate the amount, if any, of revenues to be derived from rentals, fees, or charges for the use of the parking places and the amount, if any, to be raised by taxation. The amount to be raised by taxation for the acquisition of additional parking places shall be stated separately. At the time and in the manner for levying general taxes, the Mayor and Common Council may levy and collect upon and against all of the taxable real property or land only, as the case may be, within the district at the rate determined by the Mayor and Common Council, a special ad valorem tax sufficient to raise the sum of money estimated as required to be raised by taxation.

(Ord. 3589, 7-06-76)

ARTICLE III. PROCEDURAL ALTERNATIVE II

12.84.380 Generally

Any part or parts of the City may be created and operated as a district or districts for the acquisition, construction, improvement, completion, repair, management, reconstruction, administration, maintenance, operation and disposal of public off-street parking places; bonds to pay the cost thereof may be issued and paid; revenues from on- and off-street parking facilities may be allocated and pledged; annual ad valorem assessments may be levied and collected; contributions may be made; covenants and agreements with the bondholders for the security and payment of such bonds may be made; and the Mayor and

[\[Return to Municipal Code Contents\]](#)

Common Council shall have the powers, jurisdiction and authority all as now or hereafter provided in the Parking District Law of 1951 (herein called "1951 Act"), excepting as herein otherwise provided.

(Ord. 3589, 7-06-76)

12.84.390 Findings of majority protest

If the owners of taxable real property or taxable land, as the case may be, in the district having an assessed valuation of more than one-half of the assessed valuation of all taxable real property or all taxable land, as the case may be, in the district at the conclusion of the hearing have on file and have not withdrawn their written protests objecting to the formation of the district, the legislative body shall find that a majority protest has been filed, and no further proceedings shall be taken for a period of one year from the date of the decision of the Mayor and Common Council on the hearing unless the protests are overruled by an affirmative vote of four-fifths of the members of the Common Council in which event the proceedings may continue as if no majority protest had been made. Any person making a protest may withdraw the protest, in writing, at any time prior to the conclusion of the protest hearing.

(Ord. 3589, 7-06-76)

12.84.400 Maturity of bonds

The full amount of the bonds may be divided into two or more series and different dates fixed for the bonds of each series. The maximum term which the bonds of any series shall run before maturity shall not exceed forty years from the date of the series.

(Ord. 3589, 7-06-76)

12.84.410 Annual assessments

The annual assessment provided for in the 1951 Act shall be computed on the basis of the formula set forth in the resolution of intention to form the district as originally adopted or as modified by subsequent change and modification or other proceedings conducted pursuant to this Chapter or any other law, and the limitations upon the rate or period thereof provided in the Act shall not apply. If the assessed value of any parcel of property does not appear on the tax roll, an estimated assessed value of such parcel shall be made by the Director of Development Services in consultation with the County Assessor, and such estimate shall for purposes of such ad valorem assessment be considered the assessed value of such parcel.

[\[Return to Municipal Code Contents\]](#)

- A. Supplemental Advances and Levies. The provisions of Sections 8800 to 8809, inclusive, of the Streets and Highways Code of the state shall apply to assessments levied hereunder if so stated in the resolution of intention.
- B. Additional Collection Provisions. The provisions of Sections 8680 to 8688, inclusive, and 8830 to 8835, inclusive, of the Streets and Highways Code of the state shall apply to assessments levied hereunder.
- C. Charges. The Mayor and Common Council or the Parking Commission of the City, as the case may be, may by resolution prescribe, revise and collect fees, tolls, rates, rentals and other charges (other than special assessments), including but not necessarily limited to service charges and standby charges for services or facilities furnished by the district, charges for the availability of the facilities of the district regardless of whether the facilities are used or not, and minimum charges. Such charges shall be payable on a uniform and equitable basis by the owner of the property to which the facilities of the district are available, including the owners of publicly owned property.

Any delinquent charges and all penalties thereon when recorded as hereinafter provided shall constitute a lien on the real property to which the facilities of the district are available (except that no such lien shall be created against any publicly owned property), and such lien shall continue until the charge and all penalties thereon are fully paid or the property sold therefor. .

All remedies provided for collection of due and unpaid charges which are provided in the Revenue Bond Law of 1941 of the state may be exercised to enforce payment of any charges levied under this article

A resolution prescribing or revising such charges shall not be adopted until the Mayor and Common Council or the Commission, as the case may be, has given notice of and held a hearing thereon substantially as provided in Section 54354.5 of the Government Code, being part of the Revenue Bond Law of 1941.

Any assessment levied against any parcel of real property pursuant to this Article which is held by any court of competent jurisdiction to be invalid or unenforceable for any reason shall be deemed to be a charge under this Article, and the amounts of any assessments levied and collected against other parcels in the district and not affected by said holding of invalidity shall be credited against any charges which might otherwise be payable by the owners thereof, to the end that no parcel in the district is charged both an assessment and a charge for the same facility. Any change and modification or other proceeding

conducted for the purpose of levying assessments under this Article shall comply with the notice and hearing requirement of Government Code Section 54354.5.

(Ord. MC-1027, 9-09-98; Ord. 3589, 7-06-76)

12.84.420 Enlargement of district

The boundaries of the district heretofore or hereafter formed may be enlarged from time to time.

- A. Resolution of Intention. The territory to be annexed shall be set forth in a resolution of preliminary determination and of intention to be adopted by the Mayor and Common Council which shall give notice that the matter and all persons interested will be heard by the Mayor and Common Council at a time to be stated therein.
- B. Publication. The resolution shall be published twice in a newspaper of general circulation published in the City and posted as provided in Section 12.84.070.
- C. Hearing. The hearing may be adjourned from time to time. At the hearing the Mayor and Common Council shall have the power to determine whether or not the entire territory, or only a portion thereof, to be annexed and the district will be benefited by the annexation.
- D. Order. The Mayor and Common Council shall by resolution order the annexation of such territory, defining its boundaries therein. Its decision thereon shall be final and conclusive.
- E. Ad Valorem Assessment. Thereafter the property annexed shall be subject to special levies for maintenance and operation and for any bonds issued for the acquisition for construction of improvements, the same as are the properties already in the parking district.

(Ord. 3589, 7-06-76)

12.84.430 Additional parking place pledge

The Mayor and Common Council may at any time pledge revenues from off-street parking places heretofore or hereafter acquired in other than the proceedings provided for herein in addition to those acquired in the proceedings.

(Ord. 3589, 7-06-76)

[Return to Municipal Code Contents]

12.84.440 Mayor and Common Council as Parking Place Commission

The Mayor and Common Council, in their discretion, may, by the adoption of a resolution, declare themselves to be the Parking Place Commission with any and all powers and duties of Parking Place Commissioners as provided for in the 1951 Act.

(Ord. 3589, 7-06-76)

12.84.450 Provision for residential property

Should there be included in the district property used for residential purposes, including in said term single-family and multiple-unit residential property, regardless of the zoning applicable thereto, the same shall be exempt from the assessments levied hereunder, so long as such property is lawfully used for residential purposes, upon a finding by the Mayor and Common Council that: (1) such property is lawfully used for residential purposes; and (2) such property has adequate off-street parking for the residential uses involved. Each year, at the time of levying the assessment as provided in this Chapter, such findings shall be reviewed, to the end that such exempt property will no longer be exempt and will be assessed: (1) when the use is changed from the exempt residential use; and/or (2) when the property, although still devoted to the same use, no longer has adequate off-street parking. Should a particular parcel of real property have another use, in addition to the residential use, only the proportionate value thereof attributable to the residential use shall be exempt.

(Ord. 3589, 7-06-76)

ARTICLE IV. PROCEDURAL ALTERNATIVE III

12.84.460 Generally

Whenever the Mayor and Common Council deem it necessary to form an improvement district within the City and to issue bonds which shall be special obligations of and be issued on behalf of such improvement district, for the acquisition, construction, improvement, completion, repair, management, reconstruction, administration, maintenance, operation, disposal or financing of any or all works, improvements and facilities referred to in this Chapter, they shall, by resolution, so declare the intention to form an improvement district and to issue such bonds.

(Ord. 3589, 7-06-76)

12.84.470 Contents of resolution - Intention to form district

The resolution of intention shall state that the Mayor and Common Council intend to form an improvement district of any portion of the City, which in the opinion of the Mayor

[\[Return to Municipal Code Contents\]](#)

and Common Council will be benefited by the acquisition and construction of certain improvements and to incur bonded indebtedness by the issuance of bonds on behalf of such improvement district.

(Ord. 3589, 7-06-76)

12.84.480 Resolution - Purpose of debt - Amount - Property taxable to pay debt

The resolution of intention shall also state:

- A. The purposes for which the proposed bonds are to be issued which may include any or all of the purposes stated in this Chapter;
- B. The estimated cost of the accomplishment of such purposes and the amount of bonds to be issued therefor, which may include incidental expenses, including, without limitation, engineering, appraisal, legal fees, bond counsel fees, financing consultant fees, land and rights-of-way acquisition, reserve funds and expenses of financing the district and expenses of all proceedings for the authorization, issuance and sale of the bonds or related thereto;
- C. That the bonds shall not be general obligations of the City, nor shall the credit of the City or the property or revenue of any public utility owned by the City be pledged for the payment thereof; and that the bonds shall be special obligations of and be issued on behalf of the improvement district; and whether ad valorem assessments for the payment of the interest on the bonds and the principal thereof shall be levied upon the taxable real property or upon land only in the improvement district;
- D. The maximum interest rate which the bonds may bear, payable semiannually, except that interest for the first year may be payable at the end of that year or at such time prior to the end of that year as may be determined in the resolution providing for the issuance of the bonds.

(Ord. 3589, 7-06-76)

12.84.490 Division of district into zones

If, in the judgment of the Mayor and Common Council, varying benefits will be derived by the different parcels of real property lying within the improvement district, the district may be divided into zones according to benefits.

- A. Number. The district may be divided into as many zones, up to the total number of parcels of real property in the district as may be deemed necessary, and each zone shall be composed of and include all the real property within the district which will be benefited in like manner.

[\[Return to Municipal Code Contents\]](#)

B. Percentage.

1. The Mayor and Common Council shall also determine the percentage of the sum to be raised each year by the levy and collection of the special assessment taxes in the district for the payments on the principal and interest of the bonds, which will be raised from the real property or land only, as the case may be, in each zone.
2. As an alternative, the Mayor and Common Council may determine the percentage of assessed valuation of taxable real property or land only, as the case may be, within each zone which shall be used in computing the annual rate of ad valorem assessment within the district and to which the annual rate shall be applied.

C. Resolution of Intention. When the district is divided into such zones, the resolution of intention shall so state, giving the percentages to be raised from the real property or land only, as the case may be, in each zone.

D. Designation. Each zone shall be designated by a different letter or number and shall be plainly shown on the map of the improvement district filed in the office of the City Clerk and referred to in the resolution of intention, either by separate boundaries, coloring or other convenient and graphic method, so that all persons interested may with accuracy ascertain within which zone any parcel of property is located.

E. Plat. It shall be sufficient in all cases where the improvement district is to be divided into such zones according to benefits if the resolution of intention states that fact and refers to the map for the boundaries and all details concerning the zones.

F. Changes in Boundaries at Hearing. At the hearing, the Mayor and Common Council may eliminate, create or alter the boundaries of proposed zones in the manner provided for the alteration of the boundaries of the proposed district.

G. Subsequent Changes in Boundaries. If the Mayor and Common Council from time to time determine that the public interest will be served thereby, they may from time to time add property to a zone or transfer property from a zone of lesser benefit to a zone of greater benefit, in the manner provided for enlarging the improvement district.

(Ord. 3589, 7-06-76)

12.84.500 Resolution - Description of improvement - Map of district - Availability for inspection

The resolution of intention shall also state that such resolution, together with a general description of the proposed improvement and a map showing the exterior boundaries of the proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement, is on file with the City Clerk and is available for inspection by any person or persons interested. This map shall govern for all details as to the extent of the proposed improvement district.

(Ord. 3589, 7-06-76)

12.84.510 Resolution - Time and place of hearing - Who may be heard

The resolution of intention shall also state:

- A. The time and place for a hearing by the Mayor and Common Council on the questions of the formation and extent of the proposed improvement district, the proposed improvement, the estimated cost and the amount of bonds to be issued;
- B. That at the time and place specified in the resolution any person interested will be heard; and that any holder of title to taxable real property or land only, as the case may be, within the proposed improvement district may file with the City Clerk at any time prior to the time set for the hearing thereon written protest to the formation of the proposed improvement district.

(Ord. 3589, 7-06-76)

12.84.520 Notice of hearing - Publication - Posting - Mailing

Notice of the hearing shall be given by publishing a copy of the resolution of intention once at least ten days prior to the time fixed for the hearing in a newspaper of general circulation published in the City. Such notice shall also be given by posting a copy of the resolution of intention in three public places within the proposed improvement district at least fifteen days before the time fixed for the hearing. Such notice shall also be given by mailing a copy of the resolution of intention at least fifteen days before the time fixed for the hearing to each holder of title to taxable real property within the proposed improvement district as such ownership is shown on the last equalized county assessment roll. The City Clerk shall cause all the above notices to be given.

(Ord. 3589, 7-06-76)

12.84.530 Hearing - Time and place - Who may appear - Continuance

At the time and place fixed in the resolution of intention, the Mayor and Common Council shall proceed with the hearing. At the hearing any person interested may appear and present any matters material to the questions set forth in the resolution of intention. The Mayor and Common Council shall hear and pass upon all written protests filed by the holders of title to taxable real property or land as the case may be, within the proposed improvement district. Such protests must be in writing, must contain a description of the property in which each signer thereof is interested, sufficient to identify the same and, if the signers are not shown on the last equalized assessment roll as the owners of such property, must contain or be accompanied by written evidence that such signers are the owners of such property. The hearing may be continued from time to time by the Mayor and Common Council.

(Ord. 3589, 7-06-76)

12.84.540 Change in purpose of bond and amount

The Mayor and Common Council may change the purposes for which the proposed bonds are to be issued, the estimated cost, or the amount of the bonds. The Mayor and Common Council may also change the boundaries of the proposed improvement district, but not so as to include any territory which will not, in their judgment, be benefited by the proposed improvement.

(Ord. 3589, 7-06-76)

12.84.550 Notice of intention to make change - Publication - Posting - Contents

The purposes, estimated cost, or amount of bonds to be issued or the boundaries of the proposed improvement district shall not be changed by the Mayor and Common Council except after adoption by the Mayor and Common Council of a resolution declaring their intention to order changes and fixing a time and place for a hearing on the changes. The resolution shall be published, posted and mailed in the same manner as set forth in Section 12.84.480 for the original resolution of intention. The resolution shall state the purposes, estimated cost and debt as originally proposed, and as changed if such is the case, and that the exterior boundaries as originally proposed, and as changed, if such is the case, are set forth on maps on file with the City Clerk and that the map showing the boundaries as changed shall govern for all details as to the extent of the proposed improvement district.

(Ord. 3589, 7-06-76)

[\[Return to Municipal Code Contents\]](#)

12.84.560 Hearing on change - Who may appear - Continuance

At the time and place fixed in the resolution of intention to make changes, the Mayor and Common Council shall proceed with the hearing. At the hearing any person interested may appear and present any matters material to the matters contained in the resolution. Written protests to the proposed changes may be filed with the City Clerk by the holder of title to taxable real property or land, as the case may be, within the proposed improvement district at any time up to the hour set for hearing on the proposed changes in the same manner as set forth in Section 12.84.480 for the original resolution of intention. The hearing may be continued from time to time by the Mayor and Common Council.

(Ord. 3589, 7-06-76)

12.84.570 Protests by holders of title to one-half of value of taxable property - Resolution of necessity to incur debt - Contents

If written protests are filed by the holders of title to one-half or more of the value of the taxable real property or taxable land, as the case may be, within the proposed improvement district, as shown by the last equalized assessment roll of the county, prior to the hearing on the resolution of intention or prior to the hearing on any proposed changes with respect thereto, and, if there remain on file protests representing one-half or more of the value of such taxable real property or taxable land, as the case may be, at the time the Mayor and Common Council have concluded the hearing on the resolution of intention and any hearing on proposed changes with respect thereto, further proceedings shall not be taken, and the Mayor and Common Council shall declare the proceedings abandoned unless the protests are overruled by an affirmative vote of four-fifths of the members of the Common Council. If such protests do not remain on file at the conclusion of the hearing or hearings or if they are overruled by a four-fifths vote of the members of the Common Council, the Mayor and Common Council shall by resolution determine whether or not it is deemed necessary to form the improvement district and issue bonds which shall be special obligations of and be issued on behalf of the improvement district. If the Mayor and Common Council determine that it is necessary to form the improvement district and issue bonds, the resolution shall also state, in accordance with the prior proceedings:

- A. The purposes for which the proposed bonds are to be issued;
- B. The estimated cost of the accomplishment of such purposes and the amount of the proposed bonds;
- C. That the exterior boundaries of the portion of the City which will be benefited by the accomplishment of the purpose are set forth on a map on file with the City Clerk, which map shall govern for all details as to the extent of the improvement district;

[Return to Municipal Code Contents]

- D. That such portion of the City set forth on the map shall thereupon constitute and be known by the name designated in the resolution.

(Ord. 3589, 7-06-76)

12.84.580 Disapproval of formation resolution for determination of no benefit

If the Mayor and Common Council find and determine that the area proposed to constitute the improvement district will not be benefited thereby, the Mayor and Common Council shall by resolution disapprove the formation.

(Ord. 3589, 7-06-76)

12.84.590 Effective date of improvement district - Effect of determinations in resolution

From and after the date the Mayor and Common Council adopt the resolution forming the improvement district, the area named therein shall constitute the improvement district within the City bearing the name set forth in the resolution. The determinations made in the resolution forming the improvement district shall be final and conclusive. Any action or proceeding to attack, review, set aside, avoid the resolution, or any of the proceedings, acts, or determinations theretofore taken, done, or made pursuant to this Chapter shall not be maintained by any person unless such action or proceeding is commenced within thirty days of the adoption of such resolution. Thereafter, all persons are barred from such action or proceeding or any defense of invalidity of such resolution or of such proceedings, acts or determinations.

(Ord. 3589, 7-06-76)

12.84.600 Effect of formation on bond proceedings and tax levy

After the formation of the improvement district pursuant to this Chapter, the Mayor and Common Council may, by resolution, at such time or times as they deem proper, issue bonds on behalf of the improvement district, and thereafter all proceedings shall be limited and shall apply only to the improvement district, and assessments for the payment of the bonds and the interest thereon shall be levied upon the real property or land only, as determined in the resolution of intention, in the improvement district.

(Ord. 3589, 7-06-76)

12.84.610 Issuance of bonds by resolution

The Mayor and Common Council may, by resolution, at such time or times as they deem proper, issue bonds which shall be special obligations of and be issued on behalf of the improvement district for the whole or any part of the total amount authorized, and

[Return to Municipal Code Contents]

may from time to time provide for the issuance of such amounts as the necessity thereof may appear until the full amount of such bonds authorized has been issued.

(Ord. 3589, 7-06-76)

12.84.620 Series of bonds - Different maturity dates - Maximum term of series

The full amount of the authorized bonds may be divided into two or more series and different dates fixed for the bonds of each series. The maximum term which the bonds of any series shall run before maturity shall not exceed forty years from the date of the series.

(Ord. 3589, 7-06-76)

12.84.630 Form of bonds and coupons - Time of principal payments

The Mayor and Common Council shall, by resolution, prescribe the form of the bonds and of the coupons attached thereto, the conversion and registration privileges carried by the bonds and fix the time when the whole or any part of the principal shall become due and payable.

(Ord. 3589, 7-06-76)

12.84.640 Interest rate - Payment dates

The bonds shall bear interest at a rate or rates not to exceed the rate specified in the resolution of intention, payable semi-annually, except that interest for the first year may be payable at the end of that year or at such time prior to the end of that year as may be determined in the resolution providing for the issuance of the bonds.

(Ord. 3589, 7-06-76)

12.84.650 Call and redemption before maturity - Provision in bond

The Mayor and Common Council may provide for the call and redemption of bonds prior to maturity at such times and prices and upon such other terms as they may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect.

(Ord. 3589, 7-06-76)

12.84.660 Denomination

The denomination of the bonds shall be stated in the resolution providing for their issuance.

(Ord. 3589, 7-06-76)

[\[Return to Municipal Code Contents\]](#)

12.84.670 Place of payment

The principal and interest on the bonds shall be payable in lawful money of the United States of America at the office of the Treasurer of the City or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

(Ord. 3589, 7-06-76)

12.84.680 Form of bonds - Date - Number - Signing and countersigning - Seal - Mechanical reproduction of signatures

The bonds shall be dated, numbered consecutively, signed by the Mayor and Treasurer of the City, countersigned by the City Clerk, and the official seal of the City impressed, imprinted or reproduced thereon. The interest coupons of the bonds shall be signed by the Treasurer. All such signatures and counter-signatures may be printed, lithographed, or mechanically reproduced, except that one of the signatures or counter-signatures to the bonds shall be manually affixed. Neither the Mayor, nor any members of the Common Council, nor any other officer of the City executing the bonds are liable personally thereon by reason of their issuance.

(Ord. 3589, 7-06-76)

12.84.690 Bonds of improvement districts - Statement of limitation on levy

The bonds shall be special obligations of and be issued on behalf of the improvement district, and shall be designated in accordance with the prior proceedings. Each bond shall state, in substance, that the bond is not a general obligation of the City, nor is the credit of the City or the property or revenue of any public utility owned by the City pledged for its payment; and that the bond is a special obligation of and is issued on behalf of the improvement district; and that ad valorem assessments levied for the payment of the interest thereon and principal thereof shall be levied upon the taxable real property or land only, as the case may be, in the improvement district.

(Ord. 3589, 7-06-76)

12.84.700 Payment of proceeds into City treasury - Special improvement funds - Expenditure for purpose of debt - Application of surplus on accomplishment of purpose

The proceeds from the sale of bonds, except for premium and accrued interest, if any, shall be paid into the treasury of the City, placed to the credit of a special improvement fund, debt service fund and any reserve fund, all as provided in the resolution providing for the issuance of the bonds and expended only in connection with the purpose for which the indebtedness was created. When such purpose has been accomplished, any moneys

[Return to Municipal Code Contents]

remaining in the special improvement fund may be transferred to the debt service fund to be used for the payment of principal of and interest on the bonds or to any reserve fund established therefor. Premium and accrued interest, if any, shall be paid into the treasury and placed to the credit of the fund to be used for the payment of the principal of and interest on the bonds.

(Ord. 3589, 7-06-76)

12.84.710 Interest paid from bond proceeds - Maximum limitation

Interest on the bonds coming due before the proceeds of a tax levied at the next general tax levy after the sale of the bonds are available, and/or interest on any bonds coming due before the expiration of one year following completion of the acquisition and construction of the works and improvements for which the bonds were issued, may be paid from the proceeds of the sale of the bonds as may be provided in the resolution providing for the issuance of the bonds.

(Ord. 3589, 7-06-76)

12.84.720 Bonds - Payment of principal and interest

- A. At the time of making the general tax levy after the issuance of the bonds, as may be provided in the resolution providing for the issuance of the bonds, and annually thereafter until the bonds are paid or until there is a sum in the treasury set apart for that purpose sufficient to meet all payments of principal and interest on the bonds as they become due, the Mayor and Common Council shall cause an assessment to be levied upon all real property or land only, as the case may be, in the improvement district sufficient to pay the interest on the bonds and such part of the principal as will become due before the proceeds of such an assessment levied at the next general tax levy will be available and to provide a contingency reserve for delinquencies. Such assessment shall be levied and collected at the same time as other City taxes, and shall be used only for the payment of interest on and principal of the bonds. Assessments for the payment of such bonds shall constitute a lien on all of the taxable real property within the improvement district. Such liens shall be of the same force and effect as other liens for City taxes and their collection may be enforced by the same means as provided for the enforcement of liens for City taxes.
- B. Nothing in this Article shall be deemed to prevent the Mayor and Common Council from using any lawfully available funds of the City, including, without limitation, those which are attributable to the improvement district, for payment of such principal and interest, and to the extent that such funds are in the treasury set apart for that purpose, the assessment required by this Article need not be levied. For purposes of this Article, the phrase "funds of the City which are attributable to the district includes without limitation, grants from other governmental agencies to the City on"

[\[Return to Municipal Code Contents\]](#)

behalf of the improvement district or revenues raised by operation of the facilities constructed under this Chapter within the improvement district.

(Ord. 3589, 7-06-76)

12.84.730 Annual assessments

The annual assessment provided for in this Article shall be computed on the basis of the formula set forth in the resolution of intention to form the district as originally adopted or as modified by subsequent change and modification or other proceedings conducted pursuant to this Chapter or any other law, and shall be without limitation upon the rate or period thereof. If the assessed value of any parcel of property does not appear on the tax roll, an estimated assessed value of such parcel shall be made by the Director of Development Services in consultation with the County Assessor, and such estimate shall for purposes of such ad valorem assessment be considered the assessed value of such parcel.

- A. Supplemental Advances and Levies. The provisions of Sections 8800 to 8809, inclusive of the Streets and Highways Code of the state shall apply to assessments levied hereunder.
- B. Additional Collection Provision. The provisions of Sections 8680 to 8688, inclusive, and 8830 to 8835, inclusive, of the Streets and Highways Code of the state shall apply to assessments levied hereunder.
- C. Charges. Should the Mayor and Common Council determine to prescribe, revise and collect fees, tolls, rates, rentals and other charges (other than special assessments), including but not necessarily limited to service charges and standby or maximum charges for services or facilities furnished by the district, charges for the availability of the facilities of the district regardless of whether the facilities are used or not, the same shall be done by resolution. Such charges shall be payable on a uniform and equitable basis by the owner of the property to which the facilities of the district are available, including the owners of publicly owned property. Any delinquent charges and all penalties thereon when recorded as hereinafter provided shall constitute a lien on the real property to which the facilities of the district are available (except that no such lien shall be created against any publicly owned property), and such lien shall continue until the charge and all penalties thereon are fully paid or the property sold therefor. All remedies provided for collection of due and unpaid charges which are provided in the Revenue Bond Law of 1941 of the state (commencing with Government Code Section 54300) may be exercised to enforce payment of such charges shall not be adopted until the Mayor and Common Council have given

[\[Return to Municipal Code Contents\]](#)

notice of and held a hearing thereon substantially as provided in Section 54354.5 of the Government Code, being part of the Revenue Bond Law of 1941.

(Ord. MC-1027, 9-09-98; Ord. 3603, 9-20-76; Ord. 3589, 7-06-76)

12.84.740 Exemption of residential property

Should there be included in the district property used for residential purposes, including in said term single-family and multiple-unit residential property, regardless of the zoning applicable thereto, the same shall be exempt from the assessments levied hereunder, so long as such property is lawfully used for residential purposes, upon a finding by the Mayor and Common Council that: (1) such property is lawfully used for residential purposes; and (2) such property has adequate off-street parking for the residential uses involved. Each year, at the time of levying the assessment as provided in this Chapter, such findings shall be reviewed, to the end that such exempt property will no longer be exempt and will be assessed: (1) when the use is changed from its exempt residential use; and/or (2) when the property although still devoted to the same use no longer has adequate off-street parking. Should a particular parcel of real property have another use, in addition to the residential use, only the proportionate value thereof attributable to the residential use shall be exempt.

(Ord. 3589, 7-06-76)

ARTICLE V. PROCEDURAL ALTERNATIVE IV

12.84.750 Generally

Whenever the Mayor and Common Council deem it necessary to form a parking authority (hereinafter referred to as "authority") to operate within the City, the Mayor and Common Council shall by resolution declare that there is a need for the authority to function in the City, and the authority shall have the powers, jurisdiction and authority all so now or hereafter provided in the Parking Law of 1949 (hereinafter referred to as the "1949 Act") excepting as herein otherwise provided.

(Ord. 3589, 7-06-76)

12.84.760 Issuance of bonds

The Mayor and Common Council may authorize the authority to issue revenue bonds without first submitting the question of whether the City or the authority, or both, shall be authorized to adopt the revenue bond method of financing projects provided for in this section to the electors of the City. The Mayor and Common Council shall make such authorization by ordinance. The ordinance shall describe in general terms the improvements or acquisitions to be funded by the revenue bonds and the maximum

[\[Return to Municipal Code Contents\]](#)

amount of the bonds proposed to be issued. Each such ordinance shall state that it is subject to the provisions for referendum applicable to the City.

(Ord. 3589, 7-06-76)

12.84.770 Remedies for collection

All remedies provided for collection of due and unpaid charges which are provided in the Revenue Bond Law of 1941 of the state may be exercised to enforce payment of any charges levied under this section. A resolution prescribing or revising such charges shall not be adopted until the Mayor and Common Council or the commission has given notice of and held a hearing thereon substantially as provided in Section 54354.5 of the Government Code, being part of the Revenue Bond Law of 1941.

(Ord. 3589, 7-06-76)

ARTICLE VI. PROCEDURAL ALTERNATIVE V

12.84.780 Generally

Whenever the Mayor and Common Council deem it necessary, in order to provide public off-street parking places or to otherwise perform the acts set forth in Section 12.84.020, the Mayor and Common Council shall have and may exercise all of the powers, jurisdiction and authority all as now or hereafter provided for in the Revenue Bond Law of 1941 excepting as herein otherwise provided.

(Ord. 3589, 7-06-76)

12.84.790 Issuance of bonds

The Mayor and Common Council may authorize the issuance of revenue bonds without first submitting to its qualified voters, at an election held for that purpose, the proposition of issuing bonds pursuant to the Revenue Bond Law of 1941. The Mayor and Common Council shall make such authorization by ordinance. The ordinance shall describe in general terms the improvements or acquisitions to be funded by the revenue bonds and the maximum amount of the bonds proposed to be issued. Each such ordinance shall state that it is subject to the provisions for referendum applicable to the City.

(Ord. 3589, 7-06-76)

Chapter 12.88 HANG GLIDING

Sections:

- 12.88.010 Definition - Activity restricted except in certain places**
- 12.88.020 Violation - Penalty**

12.88.010 Definition - Activity restricted except in certain places

It is unlawful for any person to engage in the activity of hang gliding in or over any place within the City limits except in those places recommended by the Director of Parks, Recreation and Community Services and approved by the Mayor and Common Council. As used in this Chapter, "hang gliding" means any activity whereby any person or persons glide, float or sail through the air in or on a hang glider. A "hang glider" means a glider, kite, hot air balloon, device or contrivance so constructed that it will carry a person on wind, air or human power.

(Ord. MC-460, 5-15-85; Ord. 3704, 2-09-78)

12.88.020 Violation - Penalty

Any person, firm or corporation violating or causing the violation of any provision of this Chapter is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 3704, 2-09-78)

Chapter 12.90 ESTABLISHMENT, FINANCING AND OPERATION OF ASSESSMENT DISTRICTS

Sections:

- 12.90.010 General statement**

- 12.90.130 Changes**
- 12.90.140 Violation - Penalty**

12.90.010 General statement

- A. The Mayor and Common Council hereby find that in order to provide an orderly procedure for the acquisition, construction, improvement, completion, repair, management, reconstruction, administration, maintenance, operation and disposition of public property, public places and public improvements, for the collecting of assessments to pay the cost thereof, for the making of contributions therefor, and for the making of covenants and agreements with the bondholders, if any, to secure payment of such bonds, if any, it is necessary that the City exercise the powers it has by virtue of being a home rule City and to provide such a procedure. The procedure provided for herein is to be an alternative to any others provided by, under or pursuant to the Charter, ordinances, and code provisions of the City or the general laws of the State.

- B. In addition to matters specified elsewhere in this Chapter, the City is authorized to utilize assessment financing alternatives, including without limitation, the following:
 - 1. Acquire, by condemnation, purchase, gift, lease or any other means, property necessary or convenient for the improvement, including any property necessary or convenient for the opening, widening, straightening, or extending of streets or alleys necessary or convenient for the improvement.
 - 2. Improve any public places or public property within the district by the construction thereon of any improvements necessary or convenient for the purpose of the district.
 - 3. Administer, maintain, operate or repair the improvement or provide therefor.
 - 4. Collect fees or charges to pay all or any part of the cost of improving, repairing, maintaining, or operating the improvement and of acquiring and improving additional properties necessary to the improvement.
 - 5. Levy taxes and/or assessments to pay all or any part of the cost of improving, repairing, maintaining or operating the improvement and of acquiring and improving additional properties necessary to the improvement.

[\[Return to Municipal Code Contents\]](#)

6. Employ engineers, attorneys, financial consultants and other persons necessary or convenient for the doing of any act authorized by this Chapter.
7. Do all acts and things necessary or convenient for the accomplishment of the purposes of this Chapter.

(Ord. MC-150, 4-07-82)

12.90.015 Landscape Maintenance Assessment District Regulations

Within the limits of any City Landscape Maintenance Assessment District (hereinafter "Assessment District") or upon any public improvement, facility, or building located therein and owned or controlled by the City, it is unlawful for any person to:

- A. Play or practice golf or use golf clubs in any area not designated for such use;
- B. Operate any motor driven model airplane except in areas designated for such use;
- C. Operate or park any motor vehicle as defined in the California Vehicle Code within any Assessment District except upon areas designated for such use;
- D. Operate, drive, or ride upon any bicycle, unicycle, tricycle, horse or any other animal in any Assessment District except in areas designated and posted specifically for such use;
- E. Leave any garbage, trash, cans, bottles, papers or other refuse elsewhere than in the receptacle provided therefor;
- F. Discharge or shoot any firearm, air gun, slingshot, or bow and arrow except at places designated and posted specifically for such purposes;
- G. Dig, remove, destroy, injure, mutilate or cut any tree, plant, shrub, bloom or flower, or any portion thereof except a duly authorized City employee in the performance of his duty;
- H. Remove any wood, turf, grass, soil, rock, sand, gravel or landscape sprinkler system or any part thereof from any Assessment District except a duly authorized City employee in the performance of his duty;
- I. Cut, break, deface, or disturb any rock, building, cage, pen, monument, sign, fence, structure, apparatus, equipment or property, or landscape sprinkler system or any part thereof except a duly authorized City employee in the performance of his duty;

[\[Return to Municipal Code Contents\]](#)

- J. Light or maintain any fire unless such fire is lighted and maintained only in a stove or fire circle or place provided for such purpose;
- K. Throw rocks or waste matter in unauthorized places;
- L. Camp, lodge or tarry overnight unless there are set aside certain places for this purpose; the provisions of Section 12.68.020 prohibiting any person to be or remain in any public park between the hours of ten p.m. of any day to six a.m. of the next succeeding day is adopted herein by reference and hereby made applicable to Assessment Districts;
- M. Indulge in riotous, boisterous or indecent conduct; and no noisy, disorderly or offensive person shall be allowed within any Assessment District; the provisions of Chapter 9.32 prohibiting any person from drinking alcoholic beverages in a public place is adopted herein by reference.

(Ord. MC-981, 9-18-96)

12.90.020 Provisions not exclusive

The provisions of this Chapter are not exclusive. The Mayor and Common Council shall have the power to provide other procedures or to follow district procedures now or hereafter provided by general law; provided, however, that whenever the City is acting pursuant to this Chapter the provisions of this Chapter shall be controlling to the extent that they are in conflict with any of the provisions of said laws.

(Ord. MC-150, 4-07-82)

12.90.030 Definitions

Unless the particular provision or the context otherwise requires, the definitions as contained in Sections 5003 through 5024, inclusive, and Section 22531 of the Streets and Highways Code shall apply.

(Ord. MC-150, 4-07-82)

12.90.040 Investigation and resolution

- A. Before ordering any acquisitions or improvements or both, or the creation of any district pursuant hereto, where the costs of said acquisitions or improvements, construction, completion, repair, management, reconstruction, administration, maintenance, and/or operation are to be paid in whole or in part by special assessment or other special assessment taxes upon property, the Mayor and Common Council shall find that the public convenience and necessity require such acquisitions, improvements, construction, completion, repair,

[\[Return to Municipal Code Contents\]](#)

management, reconstruction, administration, maintenance and/or operation in the manner provided in Section 19, Article XVI of the California Constitution.

- B. Preliminary determination of necessity and intention to proceed: A resolution of preliminary determination of necessity and intention to proceed (hereinafter referred to as resolution of intention) shall be adopted describing in general terms, the following:
1. The intention to proceed under this Chapter.
 2. The proposed improvements, acquisition, construction, completion, repair, management, reconstruction, administration, maintenance and/or operation involved.
 3. The assessment financing alternative to be followed.
 4. The assessment benefit procedure to be followed.
 5. The estimated costs of such improvements, acquisition, construction, completion, repair, management, reconstruction, administration, maintenance or operation.
 6. The amount, based upon the estimated costs, to be assessed against each particular parcel. This requirement may be satisfied by referencing the engineer's report.
 7. The maximum number of years such assessment shall be levied.
 8. The maximum amount of bonds, if any, to be issued to finance the proposed improvements or acquisitions.
 9. Whether any ongoing management, administration, maintenance or operation of the improvement will be required.
 10. That such resolution, together with a general description of the proposed improvement and a map showing the exterior boundaries of the proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement, is on file with the City Clerk and is available for inspection by any person or persons interested. This map shall govern for all details as to the extent of the proposed improvement district.
 11. The resolution shall also state the time and place for a hearing by the Mayor and Common Council when and where any and all persons interested may appear and show cause, if any, why the Mayor and Common Council should

[\[Return to Municipal Code Contents\]](#)

not find and determine that the public convenience and necessity require the formation of the proposed improvement district and the proposed acquisitions or improvements without compliance with the Special Assessment Investigation, Limitation and Majority Protest Act of 1931 (hereinafter referred to as the "Act"); on the question of the estimated cost, the amount of bonds to be issued, if any, and the intention of the Mayor and Common Council to proceed.

12. The resolution shall also state that at the time and place specified in the resolution that any person interested will be heard; and, for the purpose of determining a majority protest, any holder of title to taxable real property within the proposed improvement district, acting individually or as part of a group, may file a protest. Any such protest must be filed in writing with the City Clerk, and shall include a description of the property in which the signer thereof is interested sufficient to identify the same. If the signers are not shown on the last equalized assessment roll as the owners of such property, such protest must be accompanied by written evidence that such signers are the owners of such property.

C. Notice of hearing. Notice of hearing as set forth in the resolution shall be given as follows:

1. By publishing a copy of the resolution of intention once at least fifteen days prior to the time fixed for the hearing in a newspaper of general circulation published in the City.
2. By posting a notice of the adoption of the resolution of intention on all open streets within the district at not more than three hundred foot intervals, but not less than three in all, on each street so posted, at least fifteen days before the time fixed for the hearing. No proceeding shall be held invalid for failure to post any street if this section has been substantially complied with. If the boundaries of the proposed assessment district include more than one-half square mile in area, posting requirements shall be satisfied by the City Clerk posting such notice conspicuously on or near the main door of the Council Chambers at least five days prior to the time fixed for the hearing. For such districts, no street posting shall be required.
3. By mailing a notice of the adoption of said resolution of intention at least fifteen days before the time fixed for the hearing to each holder of title to taxable real property within the proposed improvement district as such ownership is shown on the last equalized County assessment roll. The notices posted and mailed shall conform to Sections 5193 and 5195 respectively of the Streets and Highways Code. The City Clerk shall cause all the above notices to be given.

4. At least fifteen days before the time fixed for the hearing, the engineer shall record an Assessment District Boundary Map with the County Recorder, said map to conform to the requirements of Streets and Highways Code, Section 3110.
 5. The Mayor and Common Council may proceed without notice and hearing if, when considering passage of the resolution of intention, it is determined by at least a four-fifths affirmative vote thereof (as determined in Subsection D) that all of the owners of lots or land liable to be assessed or their bona fide agents, have signed and filled a petition requesting the formation of the district, indicate that they have no objections to the proposed work or work and acquisition, and agree as to the extent of the district to be assessed and waive notice and hearing.
 6. If the Mayor and Common Council are proceeding pursuant to Section 12.90.040 Subsection C, Paragraph 5, the Map required to be recorded pursuant to Section 12.90.040 Subsection C, Paragraph 4, shall be recorded within five days after adoption of the resolution of intention.
- D. Majority protest. The Mayor and Common Council shall set forth in the resolution of intention, the basis by which a determination shall be made whether a majority protest exists; possible bases may include, but shall not be limited to, determination based on land area, assessed valuation of real property, assessed valuation of land only or the number of property owners, or any other suitable determinant. At the time set for hearing protests the Mayor and Common Council shall proceed to hear and pass upon all protests so made and its decision shall be final and conclusive. The Mayor and Common Council may adjourn the hearing from time to time. Any such protest may be withdrawn by any owner making the same, either in writing at any time prior to the conclusion of said protest hearing or any adjournment thereof, or orally on the record during a hearing. If the Mayor and Common Council find that the written protests are made by persons who represent more than fifty percent of the property to be assessed for the improvements, as determined on the basis of the determining factor announced in advance, and protests are not withdrawn so as to reduce the same to less than a majority, no further proceedings shall be taken for a period of one year from the date of the decision of the Mayor and Common Council on the hearing, unless the protests are overruled by action of the Mayor and Common Council. Action to overrule a majority protest shall require not less than a four-fifths affirmative vote of the Council members present and voting; for this purpose, five affirmative votes of six voting, or six affirmative votes of seven voting shall be required.

(Ord. MC-349, 3-07-84; Ord. MC-150, 4-07-82)

[\[Return to Municipal Code Contents\]](#)

12.90.050 Zones

- A. If, in the judgment of the Mayor and Common Council, varying benefits will be derived by the different parcels of real property lying within the assessment district, the district may be divided into zones according to benefits.
- B. Number. The district may be divided into as many zones, up to the total number of parcels of real property in the district, as may be deemed necessary, and each zone shall be composed of and include all the real property within the district which will be benefited in like manner.
- C. Resolution. When the district is to be divided into such zones, the resolution of intention shall so state.
- D. Designation. Each zone shall be designated by a different letter or number and shall be plainly shown on the map of the assessment district filed in the office of the City Clerk and referred to in the resolution of intention, either by separate boundaries, coloring or other convenient and graphic method, so that all persons interested may with accuracy ascertain within which zone any parcel of property is located.
- E. Plat. It shall be sufficient, in all cases where the improvement district is to be divided into such zones according to benefits, if the resolution of intention states that fact and refers to the map for the boundaries and all details concerning the zones.

(Ord. MC-150, 4-07-82;)

12.90.060 Changes in boundaries at hearing

- A. Based on the evidence presented during any hearing, the Mayor and Common Council may order changes in any of the matters provided in the resolution of intention, including changes in the improvements, the boundaries of the proposed assessment district and any zones therein, and the proposed diagram map or the proposed assessment. The Mayor and Common Council may, without further notice, order the exclusion of territory from the proposed district, but shall not order the inclusion of additional territory within the district except upon written request by a property owner for the inclusion of his property or upon the giving of mailed notice of hearing to property owners upon the question of the inclusion of their property in the district.
- B. Hearing. The hearing regarding majority protest shall be conducted as announced in the resolution of intention, and any protests shall be filed in the manner specified in Section 12.90.040 Subsection B, Paragraph 12.

(Ord. MC-150, 4-07-82)

[\[Return to Municipal Code Contents\]](#)

12.90.070 Final determination of necessity and ordering work

- A. If no protests are made, or if any protests shall have been heard and overruled, the Mayor and Common Council may adopt a resolution finding and determining that the public convenience and necessity require the proposed improvements and/or acquisitions, management, administration, maintenance and/or operation. Such resolution shall be referred to as "resolution ordering work". Such resolution shall determine that the Act shall not apply; shall order the work; shall direct the City Clerk to advertise for bids; and shall specify that the contract will be awarded pursuant to the standard procedures used by the City in the award of public works contracts

- B. The resolution ordering work shall be adopted by the affirmative vote of not less than four-fifths of the members of the Common Council voting thereon, as in Section 12.90.040, and any findings and determination so adopted shall be final and conclusive.

- C. Whenever the total amount bid by the lowest responsible bidder plus the estimated amount of incidental costs exceed by more than fifteen percent the engineer's estimate of cost as stated in the resolution of intention, the Mayor and Common Council shall be consulted before further action is taken. The Mayor and Common Council may thereupon order any one of the following:
 - 1. Re-advertise for proposals or bids for the performance of the work as in the first instance, without further proceedings, or
 - 2. Terminate the proceedings; or
 - 3. Notify the property owners within the district by mail of such increase and seek guidance from affected property owners. Each affected property owner will be asked to express a preference as to:
 - a. Accepting the bid as submitted.
 - b. Rejecting the bid and re-advertising.
 - c. Terminating the proceedings.

If the proceedings are taken pursuant to Subsection C Paragraph 3 of this section, existence of a majority protest as earlier provided for will be determined; if such majority protest is determined to exist, the Mayor and Common Council shall utilize the procedures of Section 12.90.040 Subsection D herein, and proceed in accordance therewith.

(Ord. MC-150, 4-07-82)

[\[Return to Municipal Code Contents\]](#)

12.90.080 Assessment financing alternatives

The Mayor and Common Council shall determine which of various financing alternatives shall be utilized. Alternatives available include:

- A. The improvement and/or acquisition may be prefunded by the City and the assessment levied, collected and enforced in the same manner, at the same time, and with the same penalties and interest, as in the case of taxes levied for the City, to secure repayment to the City of said prefunding; or
- B. Bonds may be issued to finance the improvement and/or acquisition and the assessment may be levied, collected and enforced in the same manner, at the same time, and with the same penalties and interest, as in the case of taxes levied for the City, to pay the premium and interest, if any, due on said bonds. If this assessment financing alternative is used, the City may retain bond counsel to provide the details of the issuance and repayment of said bonds.
- C. Bonds may be issued before contracting or obtaining options for the purchase of land, property or rights-of-way to be acquired, if any, or obtaining a judgment in eminent domain for the acquisition thereof.
- D. The financing for maintenance, repair, management, reconstruction, administration or operation of the district, if any, shall be included in the assessment roll for the improvement and/or acquisition, if any, and shall be the total cost for such maintenance, repair, management, reconstruction, administration or operation as estimated by the engineer for each fiscal year in which the assessment is to be levied and collected.
- E. The provisions of Sections 8800 to 8809, inclusive, of the Streets and Highways Code shall apply to assessments levied hereunder.

(Ord. MC-150, 4-07-82)

12.90.090 Assessment according to benefit

- A. After the adoption of the resolution ordering work, the engineer shall proceed to estimate as to all lots and parcels of land within the assessment district, as shown by the diagram map, the benefits arising from such work, and to be received by each such lot or parcel of land. He shall thereupon prepare an assessment roll for submission to the Mayor and Common Council for confirmation by resolution, which assesses upon and against the lands in the assessment district the total amount of the costs and expenses of such work and/or the cost of management administration, maintenance or operation of the improvement, if any, for the first year or for the term of the assessment. Such roll shall assess the total sum upon,

[\[Return to Municipal Code Contents\]](#)

the several lots or parcels of land in the assessment district benefited thereby, in proportion to the estimated benefits to be received by each of the several lots or parcels of land within the district or within each zone included in the district, if any.

- B. Method of determining the assessment benefit. The method of determining the assessment benefit to be received by each of the said several lots or parcels of land within the district and/or zone shall be set forth in the resolution of intention, which may include but shall not be limited to, land area, assessed valuation of real property, assessed valuation of land only or number of lots or parcels.
- C. Assessment computation. The annual assessment provided for in this section shall be computed on the basis of the formula set forth in the resolution of intention originally adopted or as modified by subsequent change and modification or other proceedings conducted pursuant to this Chapter or any other law, and the limitations upon the rate or period thereof provided in the Act (as defined in Section 12.90.040 Subsection B, Paragraph 11) shall not apply. If the assessed value of any parcel of property does not appear on the tax roll, an estimated assessed value of such parcel shall be made by the Director of Development Services in consultation with the County Assessor, and such estimate shall for purposes of such ad valorem assessment be considered the assessed value of such parcel.
- D. Subsequent year assessments. Except as otherwise provided by the issuance of bonds, the cost for the improvement and/or acquisition or management, administration, maintenance or operation of the improvement, if any, for any subsequent fiscal year during which an assessment is to be levied and collected within the assessment district pursuant to this Chapter, shall be accomplished by preparing an assessment roll for submission to the Mayor and Common Council for confirmation by resolution for each fiscal year in which the assessment is to be levied and collected, and shall constitute the levy of an assessment for the fiscal year referred to in the assessment. When a bond issue funds the costs involved, such assessments shall be levied and collected as specified in the bond authorizing resolution or ordinance.

(Ord. MC-1027, 9-09-98; Ord. MC-150, 4-07-82)

12.90.100 Engineer's report

Prior to or at the time of the adoption of the resolution of intention, the engineer shall file a report with the City Clerk. When the report is filed with the City Clerk, the City Clerk shall present it to the Mayor and Common Council for consideration. The Mayor and Common Council may modify it in any respect. The report, as modified, shall stand as the report for the purpose of all subsequent proceedings except that it may be confirmed, modified or corrected as provided in this Chapter. The report shall be made available to the public for inspection and shall include, but shall not be limited to, the following:

[\[Return to Municipal Code Contents\]](#)

- A. A description of the type of improvement and/or acquisition.
- B. An estimate of the cost of the improvement, including incidental costs, and/or the cost of the acquisition, if any, and the annual costs of management, administration, maintenance or operation of the improvement, if any.
- C. A plat map indicating thereon the boundaries of the proposed assessment district.
- D. A proposed assessment roll showing the estimated individual assessments to be assessed against each parcel within the district for each year an assessment is to be levied and collected within the district.

(Ord. MC-150, 4-07-82)

12.90.110 General provisions

The following general provisions shall apply to all proceedings taken hereunder:

- A. City initiation. The City may prepare a report, adopt a resolution of intention, form an assessment district, or take any other action to provide the improvement and/or acquisition, construction, completion, repair, management, reconstruction, administration, maintenance or operation, without any petition therefor.
- B. Contributions. Notwithstanding any other provision in this Chapter, the Mayor and Common Council may provide for a contribution or contributions by the City of part of the costs and expenses of the work or may accept and provide for contribution toward the cost and expenses of any work done under this Chapter, from any funds made available for the purpose of the district by any local, state or national agency or authority, or from any other person or entity, and it shall not be necessary to set forth or give notice of such contribution in the resolution of intention or in any other proceedings under this Chapter. Such notice may be given in the discretion of the Mayor and Common Council.
- C. Lapse of time. It shall not be necessary for any specified time to elapse between the performance of acts except as otherwise required by this Chapter.
- D. Resolution sufficient. The Mayor and Common Council may act by resolution where an ordinance is specified by general law.
- E. Assessment upon public property. Whenever proceedings are to be undertaken in accordance with this Chapter, the Mayor and Common Council may provide in the resolution of intention that any real property belonging to any county, City, public agency, school board, educational, penal or reform institution or institution for the

[\[Return to Municipal Code Contents\]](#)

feeble minded or the insane shall be assessed in accordance with the provisions of Sections 5300 through 5325, inclusive, of the Streets and Highways Code.

- F. Termination upon determination of no benefit. If the Mayor and Common Council find and determine that the area proposed to constitute the assessment district will not be benefited thereby the Mayor and Common Council shall terminate the proceedings.
- G. Effective date; effect of determinations in resolution; limitation on actions. From and after the date the Mayor and Common Council adopt the resolution of intention, the area named therein shall constitute the assessment district within the City bearing the name set forth in the resolution. The determinations made in the resolution forming the assessment district shall be final and conclusive. No action or proceeding to attack, review, set aside, or void the resolution, or any of the proceedings, acts or determinations theretofore taken, done, or made pursuant to this Chapter, shall be maintained by any person unless such action or proceeding is commenced within thirty days after the adoption of such resolution. Thereafter, all such actions or proceedings, and any defense of invalidity of such resolution or of such proceedings, acts or determinations, are forever barred.
- H. Disposition of property. The Mayor and Common Council, subject to the provisions of the City Charter, may determine that any parcel of property acquired from the proceeds of the assessment district or any improvements, extensions or replacements thereof or additions thereto, are no longer needed for the purpose of the assessment district or such facilities may be otherwise better provided. Subject to the provisions of the City Charters and restrictions in the resolution providing for the issuance of any outstanding bonds, if any, relating to the facilities involved, the property may thereafter be sold, leased or otherwise disposed of, either during or after the term of the assessment or bonds and the proceeds placed in a fund as designated by the Mayor and Common Council and used for the benefit of the assessment district.
- I. Assessment roll. Except as otherwise provided by the issuance of bonds, the assessment roll shall state the amount to be assessed upon each lot or parcel of land within the district and shall refer to said lots or parcels of land by their respective County Assessor's parcel number as shown on the last equalized County assessment roll, and shall refer to the fiscal year to which it applies, and shall upon its confirmation be filed in the office of the Director of Development Services. When a bond issue funds the costs involved, such assessment roll procedures as are provided for in the bond-authorizing resolution or ordinance shall prevail.
- J. Assessment diagram map. Prior to the confirmation of the assessment roll by the Mayor and Common Council, the Engineer shall file with the City Clerk and the Director of Development Services an assessment diagram map. Upon the confirmation of

[\[Return to Municipal Code Contents\]](#)

the assessment roll, the City Clerk shall record a notice of assessment, as provided in Streets and Highways Code Section 3114. Whereupon the said assessment shall attach as a lien upon the property assessed, as provided in Streets and Highways Code Section 3115. A copy of the notice of assessment so recorded shall be published pursuant to Section 6066 of the Government Code. Notice of the recording of said assessment shall be given pursuant to the provisions of Streets and Highways Code Section 10404(a), (b) and (c) only. The diagram map shall show the following:

1. The exterior boundaries of the assessment district.
 2. The boundaries of any zones within the district.
 3. The lines and dimensions of each lot or parcel of land within the district and the relative location of the same to the work to be done. Each lot or parcel shall be identified by a distinctive number or letter.
 - a. The lines and dimensions of each lot or parcel of land shown on the diagram map shall conform to those shown on the County's Assessor's maps for the fiscal year in which the diagram map is prepared. The diagram map may refer to the County Assessor's maps for a detailed description of the lines and dimensions of any lots or parcels, in which case, those maps shall govern for all details concerning the lines and dimensions of such lots or parcels.
 - b. Any changes in the lines and dimensions of any lot or parcel of land shown on the diagram map so filed with the City Clerk due to any lot splits or subdivisions which may occur in subsequent years need not be changed on the diagram map; however, such changes shall be reflected in the assessment roll for each subsequent year.
- K. Dissolution of assessment district. Upon completion of the term for the collection of assessments within the district as set forth in the resolution of intention, the confirmation and collection of the final assessment, or upon adoption of a resolution dissolving the district, the district shall automatically dissolve and shall no longer be binding upon the property within the district.
- L. District not exclusive. The formation of an assessment district pursuant to this Chapter within any area of the City shall not be exclusive. The Mayor and Common Council shall have the authority to create any number of districts within the same area, subject to the provisions of this Chapter.

(Ord. MC-1027, 9-09-98; Ord. MC-150, 4-07-82)

[\[Return to Municipal Code Contents\]](#)

12.90.120 Payment of construction assessment - Discharge of lien

The owner of or any person interested in any lot or parcel of land upon which an assessment for construction has been levied under the terms of this Chapter may at any time before commencement of proceedings for sale, pay off the assessment and discharge the land involved from the lien of the assessment. The discharge may be had by paying to the Treasurer the unpaid principal sum of the assessment, with interest thereon (if any) up to the next succeeding July 1. As used in this section, "unpaid principal sum" means those installments of principal that are due to be paid at future dates through the term of the assessment. This provision shall not apply to any maintenance assessment.

(Ord. MC-150, 4-07-82)

12.90.130 Changes

Any change of work, boundaries of assessment district, amounts of assessments or proceedings taken pursuant to this Chapter after the hearing of protests on the resolution of intention shall be conducted under the provisions of Streets and Highways Code Sections 10350 through 10358.

(Ord. MC-150, 4-07-82)

12.90.140 Violation - Penalty

Any person, firm or corporation violating or causing the violation of any provision of Section 12.90.015 is guilty of an infraction or a misdemeanor, which upon conviction, thereof, is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-981, 9-18-96)

Chapter 12.92
CONSTRUCTION AND MAINTENANCE OF SIDEWALKS
CURBS AND DRIVEWAYS

Sections:

- 12.92.010 Scope and Definitions**
- 12.92.020 Adoption of State Statutes By Reference**
- 12.92.030 Duty To Remove Abandoned Driveways and Reconstruct Appurtenant Areas**

- 12.92.080 (Repealed by Ord. MC-737, 7-16-90)**
- 12.92.090 Limitation of Actions**

12.92.010 Scope and definitions

- A. This Chapter shall apply to the maintenance, repair, construction, reconstruction or removal of sidewalks, gutters, pavements, driveways and curbs, the installation of storm and sanitary drainage facilities, water mains, pipes, conduits, tunnels, hydrants, and other necessary works and appliances for providing water service, parkway trees, and street lighting facilities in front of properties in any block where a sidewalk, gutter, pavement, driveway, the installation of storm and sanitary sewer drainage facilities, water mains, pipes, conduits, tunnels, hydrants, and other necessary works and appliances for providing water service, parkway trees, and street lighting facilities, or curb, or all of them.
- B. This Chapter shall apply to property fronting on, or otherwise adjacent to, or in conjunction with any street, arterial or collector street section.
- C. This Chapter shall apply to driveway construction, reconstruction, or removal and curb infill in front of a vacant lot, unimproved property, or where an existing driveway no longer serves any development on a lot or property.
- D. Definitions.

As used in this Chapter:

[\[Return to Municipal Code Contents\]](#)

1. "Sidewalks or curbs" includes gutters, driveways, pavement to the center line of the street, full pavement in alleys, storm and sanitary drainage facilities, water mains, pipes, conduits, tunnels, hydrants, and other necessary works and appliances for providing water service, paving to provide a parking lane on arterial or collector street sections, parkway trees, and street lighting facilities.
2. "Fronting and facing" means abutting in the case of property adjoining an alley improvement. In the case of street lighting, in determining how much of the front footage of a block has been improved, the front footage of property benefiting from existing installations may be included regardless of the side of the street on which the installation has been constructed.
3. "Block" means property facing one side of any street between the next intersecting streets or between the terminus of a dedicated right-of-way of a street and an intersecting street. Street does not include an alley or other right-of-way unless it is of same width as a regular residential minimum-width street. approved as part of a master plan of circulation or streets by the City. In the case of an alley, block means property facing both sides of any alley between the next intersecting streets or alleys, or between the terminus of an alley and an intersecting street. In the case of street lighting, block means property facing the side of any street on which the improvement is to be constructed between the next intersecting streets on the side to be improved or between the terminus of a dedicated right-of-way of a street and a street intersecting the side to be improved; or property facing the side of any street on which the improvement is to be constructed between the next intersecting streets on the side to be improved or between the terminus of a dedicated right of way of a street and a street intersecting the side to be improved and the property facing the opposite side of the street. Where a block exceeds 1,000 feet in length, a length of frontage of 1,000 feet constitutes a block as used in this Chapter, if so designated by the Director of Development Services. A determination by the Director of Development Services of such a 1,000-foot block establishes a block and cannot later be changed to include a portion of said 1,000-foot block in another block
4. "Driveway" means a paved portion of a public street providing an unobstructed passage from the roadway to an off street area used for driving, servicing, parking, or otherwise accommodating motor vehicles.
5. "Cost, construction cost," or variants thereof, means and includes the actual cost of construction of the work and any incidental or administrative expenses.
6. "Superintendent of Streets" means the Director of Development Services of the City of San Bernardino or his designee.

[\[Return to Municipal Code Contents\]](#)

- E. This Chapter shall apply to the removal of existing curbs and gutters, and construction of new curbs and gutters and fill-in street paving, as required to match adjoining curb alignments, for parcels with a frontage of less than 300 feet.

(Ord. MC-1027, 9-09-98; Ord. MC-691, 12-19-89; Ord. MC-796, 7-02-91)

12.92.020 Adoption of State Statutes By reference

The rules, regulations and procedures as set forth in Chapters 22, 24, and 27, of Division 7 of the California Streets and Highways Code, are hereby adopted by reference except as modified by this Chapter.

(Ord. MC-691, 12-19-89)

12.92.030 Duty to Remove Abandoned Driveways and Reconstruct Appurtenant Areas

- A. When the owners of lots or portions of lots fronting on any portion of a public street have driveways existing which no longer serve any improvements on said lot or parcel of property, the owners shall remove and eliminate the driveways and construct or reconstruct sidewalks, curbs and parkways in conformance with the remainder of the block.
- B. When the Director of Development Services finds any such abandoned driveways, the Director of Development Services shall notify the owners of the property to remove the abandoned driveways and to reconstruct the appurtenant areas.

(Ord. MC-1027, 9-09-98; Ord. MC-691, 12-19-89)

12.92.035 Removal of Curbs and Gutters

- A. For any lot with a total frontage of less than 300 feet on a public street where that lot's existing curbs and gutters do not match adjoining sections, the owner of such lot shall remove the existing curbs and gutters and other appurtenant improvements in conflict and shall construct new curbs and gutters and other appurtenant improvements which are aligned with the adjoining sections. For corner lots, the parcel on the other side of the intersecting street shall be considered as an adjoining section.

These improvements will be required only if the existing dedicated right-of-way for street and highway purposes will accommodate the relocation of the curbs and gutters, except for minor amounts required to allow construction of standard handicap ramps at intersections.

[Return to Municipal Code Contents]

- B. When the Director of Development Services finds any such improvements adjoining any lots or portions of lots, that need to be widened to match adjoining sections, the Director of Development Services shall notify the owners of the property to remove the existing improvements and construct new improvements, in conformance with the remainder of the block.

(Ord. MC-1027, 9-09-98; Ord. MC-796, 7-02-91)

12.92.040 Duty To Maintain and Repair Sidewalks and Curbs

- A. The owners of lots or portions of lots fronting on any portion of a public street or place when that street or place is improved or if and when the area between the property line of the adjacent property and the street line is maintained as a park or parking strip, shall maintain any sidewalk and curb in such condition that the sidewalk and curb will not endanger persons or property and maintain it in a condition which will not interfere with the public convenience in its use.
- B. When the Director of Public Services finds any sidewalks or curbs out of repair or pending reconstruction and in condition to endanger persons or property or in condition to interfere with the public convenience in its use, the Director of Public Services shall notify the owners of the property fronting on that portion of such sidewalk or curb so out of repair, to repair the sidewalk or curb.

(Ord. MC-1274, 7-22-08; Ord. MC-1027, 9-09-98; Ord. MC-691, 12-19-89)

12.92.050 Duty to Construct

- A. The owners of lots or portions of lots fronting on any public street or place when the street or place has been improved by the construction of sidewalks or curbs for a total frontage of more than fifty percent (50%) on one side of such street or place in any block, or where a petition signed by the owners of more than sixty (60%) of the front footage of any part of an unimproved portion or portions of a block has been filed with the City Clerk requesting the installation of such improvements in front of said part, or whenever the City upon its own motion orders the installation of such improvements in front of said part, shall have the duty of constructing or causing the construction of sidewalks or curbs in front of their properties upon notice so to do by the City.
- B. When the Director of Development Services finds that sidewalks or curbs have been constructed in front of properties constituting more than fifty percent (50%) of the frontage in any block, or where a petition signed by the owners of more than sixty percent (60%) of the front footage of the block has been filed with the City Clerk requesting the installation of such improvements, or whenever the City upon its own

[\[Return to Municipal Code Contents\]](#)

motion has ordered the installation of such improvements in front of said part, said Director of Development Services shall notify the owners of the property fronting on that portion of the street in such block in which no sidewalks or curbs have been constructed theretofore, to construct or cause to be constructed sidewalks or curbs in front of their property.

(Ord. MC-1027, 9-09-98; Ord. MC-691, 12-19-89)

12.92.060 Service and Contents of Notice

- A. Notice to construct, repair, maintain, remove or reconstruct sidewalks, curbs or driveways may be given by delivering a written notice personally to the owner of the property or to the person in possession of the property facing upon the sidewalks, curbs or driveways to be improved or by mailing a written notice to the owner of the property thereof at his last known address as appears on the tax assessment rolls of mailing a written notice to the owner of the property thereof at his last known address as appears on the tax assessment rolls of the County. Immediately upon mailing the notice, the property shall be posted in a conspicuous place.
- B. The notice shall particularly specify what work is required to be done, where standard construction drawings may be obtained showing how it is to be done and what materials shall be used in the construction and shall further specify that if a permit is not obtained and the construction is not commenced within sixty (60) days after notice is given and diligently and without interruption prosecuted to completion, the Director of Development Services shall cause the construction to be done, and the cost of the same shall be a lien on the property. However, upon petition by all of the affected property owners, the 60-day period may be waived and the Director of Development Services may immediately cause the construction to be done, and the cost of the same shall be a lien upon the property.
- C. The notice shall specify the day, hour and place when the Mayor and Common Council will hear objections or protests, if any, which may be raised by any property owner or other interested persons, but in no case shall such hearing be sooner than ten (10) days after giving notice. Upon the day and hour fixed for the hearing the Mayor and Common Council shall hear and pass upon objections or protests and their decision shall be final and conclusive.
- D. If the required improvements are not commenced and prosecuted to completion with due diligence as required by the notice, the Director of Development Services shall forthwith make the required improvements.

(Ord. MC-1027, 9-09-98; Ord. MC-691, 12-19-89)

[\[Return to Municipal Code Contents\]](#)

12.92.070 Hearing and Assessment of Costs

- A. Upon the completion of the improvements, the Director of Development Services shall cause notice of the cost of the improvements to be given in the manner specified in Subsection 12.92.060, except for posting, said notice shall specify the day, hour and place when the Mayor and Common Council will hear and pass upon a report by the Director of Development Services of the cost of the improvements, together with any objections or protests, if any, which may be raised by any property owner liable to be assessed for the cost of such improvements and any other interested persons. In no case shall the hearing provided for in this section be sooner than ten (10) days after giving of notice.
- B. The cost of the improvements may include administrative expenses required for the proper coordination and functioning of the improvements in front of the parcel as determined by the Mayor and Common Council.
- C. Upon the day and hour fixed for the hearing the Mayor and Common Council shall hear and pass upon the report of the Director of Development Services, together with any objections or protests which may be raised by any of the property owners liable to be assessed for such construction and any other interested persons. Thereupon the Mayor and Common Council may make such revision, correction or modifications in the report as it may deem just, after which, by resolution, the report as submitted, or as revised, corrected or modified, shall be confirmed. The Mayor and Common Council may adjourn the hearings from time to time. The decisions of the Mayor and Common Council on all protests and objections which may be made, shall be final and conclusive.
- D. Upon confirmation of the above report, the Mayor and Common Council may order the notice of lien to be turned over to the accounting officer of the City, whereupon it shall be the duty of this officer to have the amount of the assessment added to the next regular bill for taxes levied against the lot or parcel of land. If the City taxes are collected by the county officials, the notice of lien shall be delivered to the County Auditor, who shall enter the amount thereof on the County assessment book opposite the description of the particular property and the amount shall be collected together with all other taxes thereon against the property. The notice of lien shall be delivered to the County Auditor before the date fixed by law for the delivery of the assessment book to the County Board of Equalization

(Ord. MC-1027, 9-09-98; Ord. MC-691, 12-19-89)

12.92.080 (Repealed by Ord. MC-737, 7-16-90)

[\[Return to Municipal Code Contents\]](#)

12.92.090 Limitation of Actions

- A. Time. No action, suit, or proceeding to set aside, cancel, avoid, annul or correct any assessment or reassessment, or to review any of the proceedings, acts or determinations therein, or to question the validity of, or to enjoin the collection of the assessments or reassessments, or to enjoin the issuance of bonds to represent the same, shall be maintained by any person unless such action is commenced within 30 days after the recording of the warrant, diagram and assessment or reassessment, and thereafter all persons shall be barred from any such action or any defense of invalidity of the assessment or of bonds issued thereon or of the reassessment if such is made and of bonds issued thereon.
- B. Property unlawfully dedicated or acquired. No proceedings taken or had under this division shall ever be held to be invalid on the ground that the street, right-of-way, public property or any portion thereof, upon which the work or any part thereof is or was done has not been lawfully dedicated or acquired; provided, the same is lawfully dedicated or acquired, or an order for possession prior to judgment has been obtained.

(Ord. MC-691, 12-19-89)

Chapter 12.93 CITY PARTICIPATION IN SIDEWALK/CURB REPAIR AND SEWER CONNECTION COSTS

Sections:

12.93.010 Participation by City

12.93.020 Administration

12.93.010 Participation by City

- A. Notwithstanding other provisions of this Code, the Streets and Highways Code or any other provision of law, the City, at its discretion, may contribute up to one-hundred percent (100%) of the costs to be paid by the property owner for repair or installation of sidewalk, curb, gutter, paved parkway improvements, infilling of curb depressions or driveway approaches excluding improvements projects constructed under Chapter 12.92 of the Municipal Code. The Public Services Director shall determine when to contribute up to one-hundred percent (100%) based on the cost of the repair, the ability of the property owner to pay, and the cooperation exhibited by the property owner, provided that the property owner executes and delivers to the Public Services Director a waiver and release in a form approved by the City Attorney or his/her designee. Such determination shall be subject to appeal to the Mayor and Common Council pursuant to Chapter 2.64 of this Code.

(Ord. MC-1274, 7-22-08; Ord. MC-778, 4-16-91)

[\[Return to Municipal Code Contents\]](#)

- B. Notwithstanding other provisions of this Code, the Streets and Highways Code or any other provision of law, the City, at its discretion, may waive fifty percent (50%) of the installation costs to be paid by the property owner for connection of the sewer line from the lateral to the property line for an existing owner-occupied single family residence when installed by the Public Services Department. The Public Services Director shall determine when to waive the fifty percent (50%) based on the cost of the installation, the ability of the property owner to pay and the length of time the owners of the property have paid a monthly sewer service charge, provided that the property owner executes and delivers to the Public Services Director a waiver and release in a form approved by the City Attorney or his/her designee. Such determination shall be subject to appeal to the Mayor and Common Council pursuant to Chapter 2.64 of this Code.

(Ord. MC-1274, 7-22-08; Ord. MC-737, 7-16-90)

12.93.020 Administration

The Director of Public Services may promulgate written procedures, regulations, guidelines and fees pertaining to the implementation of this chapter. Such procedures, regulations, guidelines and fees shall not become effective until approved by resolution by the Mayor and Common Council.

(Ord. MC-737, 7-16-90)

Chapter 12.94 IMPROVEMENT DISTRICTS

Sections:

- 12.94.010 Definitions**
- 12.94.020 Issuance of bonds - Administrative fee**
- 12.94.030 Advance of estimated costs -
Reimbursement of expense - surplus**

12.94.010 Definitions

- A. "Improvement District" means any assessment district created by action of the Mayor and Common Council for the purpose of funding curbs, gutters, streets, storm sewers, sanitary sewers, water mains and other public improvements necessary or convenient for the purpose of the district being formed. Public improvements shall include, but shall not be limited to, those itemized in Streets and Highways Code Sections 5101, 8570, and 10100.

[\[Return to Municipal Code Contents\]](#)

- B. "Developer-requested improvement district" means any improvement district where a developer representing a majority in interest of the owners of the land affected requests that the City form such district to enable such owners to develop a new subdivision or parcel map of any type or undertake enlargement, development, expansion or change of use of existing commercial or industrial development. Whether a particular developer represents a majority in interest of the owner shall be determined by the Director of Development Services.
- C. "1911 Act" refers to "The Improvement Act of 1911", Streets and Highways Code, Division 7, being Section 5000, et seq.
- D. "1913 Act" refers to "The Municipal Improvement Act of 1913", Streets and Highways Code, Division 12, Section 10000, et seq.
- E. "1915 Act" refers to "The Improvement Bond Act of 1915", Streets and Highways Code, Division 10, being Section 8500, et seq.

(Ord. MC-1027, 9-09-98; Ord. MC-149, 4-07-82)

12.94.020 Issuance of bonds - Administrative fee

For any developer-requested improvement district in which the improvements are to be financed by issuance of assessment district bonds, bonds may be authorized and issued by authority of the Mayor and Common Council under the provisions of the 1911 Act, the 1913 Act, the 1915 Act, or any other state law or any ordinance or provision of the San Bernardino Municipal Code, as the Mayor and Common Council may determine. For any such issuance, an administrative fee of one percent of the total bond issue shall be paid to the City's Assessment District Reserve Fund to be used exclusively for the financing of assessment districts as authorized by the Mayor and Common Council. Such fee shall be paid out of the proceeds of the sale of the bonds, and shall be in addition to any other applicable fees, charges or incidental expenses.

(Ord. MC-467, 7-16-85; Ord. MC-149, 4-07-82)

12.94.030 Advance of estimated costs - Reimbursement of expenses of surplus

Prior to the adoption of a resolution of intention relative to any developer requested improvement district, the developer representing the owner or owners of the property therein shall advance to the City the estimated costs of organizing, engineering and developing the proposed assessment district, in such amount and payable at such times as the Director of Development Services shall designate. Such advancement of funds shall be utilized solely for the expenses of organizing, engineering and developing the proposal for such district. In the event the district fails at the public hearing or is otherwise terminated for any reason, or the bonds are not sold, such portion of the advancement

[Return to Municipal Code Contents]

representing actual costs to the City in preparing for such improvement district, including administrative costs, shall be held by the City, as reimbursement for such expense, and any surplus remaining shall be returned to the person or persons depositing such funds. If the improvement district is finalized and bonds are sold, the expenses shall be reimbursed to the City from bond proceeds; and the entire amount deposited shall be returned to the person or persons depositing such funds.

(Ord. MC-1027, 9-09-98; Ord. MC-149, 4-07-82)

Chapter 12.95

SUBSTANDARD DRIVEWAY APPROACHES

Sections:

12.95.010 Substandard Driveway Approaches: City Participation

12.95.020 Eligible Projects

12.95.030 Work Performed

12.95.010. Substandard Driveway Approaches: City Participation

Notwithstanding other provisions of this Code, the Streets and Highways Code or any other provision of law, the City, at its discretion, may contribute fifty percent (50%) of the cost incurred for removal and reconstruction of substandard driveway approaches as provided in this Chapter.

(Ord. MC-854, 11-17-92)

12.95.020. Eligible Projects

Eligible projects for City participation of one-half the cost shall be only those driveway approaches which exit onto arterial or collector streets and which have been found by the Director of Development Services to not be in accordance with the Department of Development Services' Standard Drawing No. 203.

(Ord. MC-1027, 9-09-98; Ord. MC-854, 11-17-92)

12.95.030 Work Performed

The work hereunder may be performed by a private contractor engaged by the property owner or, by the City, at the discretion of the Director of Development Services and following application to the Development Services Department for participation in the program.

- (a) An application for work to be performed may be initiated by either the City or the property owner.

[\[Return to Municipal Code Contents\]](#)

- (b) Applications, outlining the work to be performed shall be completed on forms to be provided by the Development Services Department.
- (c) The Director of Development Services, upon finding that an application is consistent with the intent of this Chapter, shall have an inspection made of the project; estimate the cost of the work; and advise the property owner of the dollar amount of the City's one-half contribution.
- (d) If the Director of Development Services makes a determination that the City shall perform the work, the property owner shall deposit the sum determined pursuant to (a) above with the Development Services Department, prior to the work being performed. The Director of Development Services shall determine time frame for such payment and if the property owner shall have not made such deposit, within such time frame then that property shall be dropped from the project.
- (e) If the Director of Development Services makes a determination that the property owner may perform the work, then the property owner or his/her private contractor must obtain a no cost Public Works construction permit. Following final inspection and approval of the work by the City, and upon the presentation of receipted bills or invoices, the Director of Development Services shall authorize 50% of the actual cost of the project, or the sum determined pursuant to (c) above, whichever is less, to be paid to the property owner.
- (f) The Director of Development Services may initiate the removal and reconstruction hereunder by mailing a letter to the property owner advising of the City's participation program and enclosing an application form. In the event a property owner fails to respond or declines to participate in the program within 15 days after the date of the notice, all proceedings will terminate.
- (g) Any unforeseen necessary extra work which may arise during such removal and reconstruction or caused by such removal and reconstruction shall be shared equally by the property owner and the City.

(Ord. MC-1027, 9-09-98; Ord. MC-854, 11-17-92)

Chapter 12.96
INSTALLATION AND MAINTENANCE OF LANDSCAPED FRONTAGES ON
CITY RIGHTS-OF-WAY AND WITHIN THE BUILDING SET-BACK AREA
UP TO A MAXIMUM OF TWENTY (20') FEET

Sections:

- 12.96.010 Scope and Definitions**
- 12.96.030 Participation by Property Owners**
- 12.96.040 Participation by City**
- 12.96.050 Duty to Install Landscaping**
- 12.96.060 Duty to Maintain and Repair After Installation**
- 12.96.070 Service And Contents of Notice to Maintain After Installation**
- 12.96.080 Hearing and Assessment of Costs**
- 12.96.090 Limitation of Actions**

12.96.010 Scope and Definitions

- A. This Chapter shall apply to the installation and maintenance of landscaping in front of properties in any specified block where frontages do not have landscaping which complies with City standards and development codes and provides for City participation with property owners for sharing the costs of installation on that portion of the property fronting on the right-of-way and the building set-back area up to a maximum of twenty (20) feet.
- B. This Chapter shall apply to a lot or property fronting on, or otherwise adjacent to, or in conjunction with specified street, arterial or collector street section or specified commercial zones as listed in the procedure resolution.
- C. Definitions.

As used in this Chapter:

- 1. "Frontages" means all the property within the City rights-of-way and the building set-back up to a maximum of twenty (20) feet fronting and facing the streets and arterials in specified locations and commercial zones in the City of San Bernardino.
- 2. "Cost", "installation cost", or variants thereof means and includes the actual cost of installation and/or maintenance of the landscaping and any incidental or administrative expenses.

[\[Return to Municipal Code Contents\]](#)

3. Director of Parks, Recreation and Community Services Department or designee shall be responsible for review and approval of landscape development plans and specifications and final inspection after completion of construction phase.

(Ord. MC-786, 5-21-91)

12.96.030 Participation by Property Owners

- A. When the owners of lots or portions of lots fronting on any portion of a public street have frontages existing which do not meet City codes and standards for landscape improvements on said lot or parcel of property, the owners may apply for City cost sharing assistance to install landscaping in conformance with the remainder of the block and in compliance with City approved plans and specifications.
- B. After applications for assistance and the Agreement for joint City property owner participation are approved, the Director of Development Services shall notify the property owner to prepare landscape plans for approval and upon approval of plans to cause landscaping to be installed on the frontages. Landscape plans shall be reviewed and approved by the Director of Parks, Recreation and Community Services Department prior to commencement of landscape installation.

(Ord. MC-1027, 9-09-98; Ord. MC-786, 5-21-91)

12.96.040 Participation by City

Notwithstanding other provisions of this Chapter or any other provision of law, the City may pay ½ of the cost of construction of landscaping located on the right-of-way and within the building set-back area up to a maximum of twenty (20) feet, at the discretion of the Development Services Director. The Development Services Director shall make such determination based on the cost of the construction, the ability of the property owner to pay and the cooperation exhibited by the property owner. Such determination shall be subject to appeal to the Mayor and Common Council pursuant to Chapter 2.64 of this Code.

(Ord. MC-1027, 9-09-98; Ord. MC-786, 5-21-91)

12.96.050 Duty to Install Landscaping

The owners of lots or portions of lots fronting on the City rights-of-way in the specified areas whenever the City has approved the application and signed the agreement to pay the 50% portion of the costs of the installation of such landscape improvements in front of said part, shall have the duty of installation or causing the installation of landscaping in front of their properties upon notice so to do by the City.

(Ord. MC-786, 5-21-91)

[\[Return to Municipal Code Contents\]](#)

12.96.060 Duty to Maintain and Repair After Installation

- A. The owners of lots or portions of lots fronting on any portion of the public right-of-way on the specified streets and arterials or in the specified commercial zones shall after such property is improved, maintain that property in accordance with established City standards and in such condition that the improved area will not endanger persons or property and maintain it in a condition which will not interfere with the public convenience in its use.

- B. When the Director of Development Services finds any landscaped frontages which are not being maintained up to City maintenance standards or which are in condition to endanger persons or property or in condition to interfere with the public convenience in its use, the Director of Development Services shall notify the owners of the property fronting on that portion of such rights-of-way to perform maintenance of the landscaped frontages.

(Ord. MC-1027, 9-09-98; Ord. MC-786, 5-21-91)

12.96.070 Service And Contents of Notice to Maintain After Installation

- A. Notice to repair or maintain landscaping and appurtenant areas may be given by delivering a written notice personally to the owner of the property or to the person in possession of the property facing upon the City rights-of-way to be maintained or by mailing a written notice to the owner of the property thereof at his last known address as appears on the tax assessment rolls of the County. Immediately upon mailing the notice, the property shall be posted in a conspicuous place.

- B. The notice shall particularly specify what work is required to be done, where standard landscape maintenance requirements may be obtained showing how it is to be done and what materials and plants shall be used in the maintenance improvements and shall further specify that if the maintenance is not commenced within thirty (30) days after notice is given and diligently and without interruption prosecuted to completion, the Director of Development Services shall cause the maintenance to be done, and the cost of same shall be billed to the property owner. Failure to pay invoices for landscape maintenance within thirty (30) days shall result in a lien on the property.

- C. The notice shall specify the day, hour and place when the Mayor and Common Council will hear objections or protests, if any, which may be raised by any property owner or other interested persons, but in no case shall such hearing be sooner than ten (10) days after giving notice. Upon the day and hour fixed for the hearing, the Mayor and Common Council shall hear and pass upon objections or protests and their decision shall be final and conclusive.

- D. If the required maintenance improvements are not commenced and prosecuted to completion with due diligence as required by the notice, the Director of Development Services shall forthwith make the required improvements.

(Ord. MC-1027, 9-09-98; Ord. MC-786, 5-21-91)

12.96.080 Hearing and Assessment of Costs

- A. Upon the completion of the maintenance improvements, the Director of Development Services shall cause notice of the cost of the maintenance improvements to be given in the manner specified in Subsection 12.96.060, except for posting, said notice shall specify the day, hour and place when the Mayor and Common Council will hear and pass upon a report by the Director of Development Services of the cost of the improvements, together with any objections or protests, if any, which may be raised by any property owner liable to be assessed for the cost of such maintenance improvements and any other interested persons. In no case shall the hearing provided for in this section be sooner than ten (10) days after giving of notice.
- B. The cost of the maintenance improvements may include administrative expenses required for the proper coordination and functioning of the maintenance improvements in front of the parcel as determined by the Mayor and Common Council.
- C. Upon the day and hour fixed for the hearing the Mayor and Common Council shall hear and pass upon the report of the Director of Development Services, together with any objections or protests which may be raised by any of the property owners liable to be assessed for such maintenance improvements and any other interested persons. Thereupon the Mayor and Common Council may make such revision, correction or modifications in the report as it may deem just, after which, by resolution, the report as submitted, or as revised, corrected or modified, shall be confirmed. The Mayor and Common Council may adjourn the hearings from time to time. The decisions of the Mayor and Common Council on all protests and objections which may be made, shall be final and conclusive.
- D. Upon confirmation of the above report, the Mayor and Common Council may order the notice of lien to be turned over to the accounting officer of the City, whereupon it shall be the duty of this officer to have the amount of the assessment added to the next regular bill for taxes levied against the lot or parcel of land. If the City taxes are collected by the County officials, the notice of lien shall be delivered to the County Auditor, who shall enter the amount thereof on the County assessment book opposite the description of the particular property and the amount shall be collected together with all other taxes thereon against the property. The notice of lien shall be

[\[Return to Municipal Code Contents\]](#)

delivered to the County auditor before the date fixed by law for the delivery of the assessment book to the County Board of Equalization.

(Ord. MC-1027, 9-09-98; Ord. MC-786, 5-21-91)

12.96.090 Limitation of Actions

- A. Time. No action, suit, or proceeding to set aside, cancel, avoid, annul or correct any assessment or reassessment, or to review any of the proceedings, acts or determinations therein, or to question the validity of, or to enjoin the collection of the assessments or reassessments or to enjoin the issuance of bonds to represent the same, shall be maintained by any person unless such action is commenced within 30 days after the recording of the warrant, diagram and assessment or reassessment, and thereafter all persons shall be barred from any such action or any defense of invalidity of the assessment or of bonds issued thereon.

- B. Property Unlawfully Dedicated or Acquired. No proceedings taken or had under this provision shall ever be held to be invalid on the ground that the street right-of-way, public property or any portion thereof upon which the work or any part thereof is or was done has not been lawfully dedicated or acquired; provided, the same is lawfully dedicated or acquired, or an order for possession prior to judgment has been obtained.

(Ord. MC-786, 5-21-91)

Chapter 12.98 CAMPING ON PUBLIC STREETS AND PARKS

Sections

- 12.98.010 Purpose**
- 12.98.020 Definitions**
- 12.98.030 Unlawful camping**
- 12.98.040 Storage of personal property in public places**

12.98.010 Purpose

The public streets and areas within the City of San Bernardino should be readily accessible and available to residents and the public at large. The use of these areas for camping purposes or storage of personal property interferes with the rights of others to use the areas for the purposes for which they were intended. The purpose of this Chapter is to maintain public streets and areas within the City of San Bernardino in a clean and accessible condition.

(Ord. MC-945, 6-20-95)

[\[Return to Municipal Code Contents\]](#)

12.98.020 Definitions

Unless the particular provisions or the context otherwise requires, the definitions contained in this section shall govern the construction, meaning and application of words and phrases used in this Chapter.

- (a) "Camp" means to pitch or occupy camp facilities; to live temporarily in a camp facility or outdoors; to use camp paraphernalia.
- (b) "Camp facilities" include, but are not limited to, tents, huts, or temporary shelters.
- (c) "Camp paraphernalia" includes, but is not limited to tarpaulins, cots, beds, sleeping bags, hammocks or non-City designated cooking facilities and similar equipment.
- (d) "Park" means the same as defined in Section 12.80.020 of this Code.
- (e) "Store" means to put aside or accumulate for use when needed, to put aside for safekeeping, to place or leave in a location.
- (f) "Street" is a way or place of whatever nature, publicly maintained and open to the use of the public for purposes of vehicular and/or pedestrian travel.

"Street" includes highways.

(Ord. MC-945, 6-20-95)

12.98.030 Unlawful camping

It shall be unlawful for any person to camp, occupy camp facilities or use camp paraphernalia in the following areas, except as otherwise provided:

- (a) any street;
- (b) any public parking lot or public area, improved or unimproved;
- (c) any park.

(Ord. MC-945, 6-20-95)

12.98.040 Storage of personal property in public places

It shall be unlawful for any person to store personal property, including camp facilities and camp paraphernalia, in the following areas, except as otherwise provided:

- (a) any street;
- (b) any public parking lot or public area, improved or unimproved;
- (c) any park.

(Ord. MC-945, 6-20-95)

Chapter 13.04 WELLS

Sections:

- 13.04.010 Measurement of water - Records required
- 13.04.020 Record of wells that have been bored
- 13.04.030 Record keeping requirement

13.04.010 Measurement of water - Records required

It shall be the duty of the Board of Water Commissioners of the City to cause measurements to be taken of all water naturally flowing out of the San Bernardino artesian basin and also of all water artificially taken and transported out of the San Bernardino artesian basin or any of its tributaries; to cause measurements to be taken of the flow of water from artesian wells in the San Bernardino artesian basin and also the depth to water in such wells that do not naturally flow to the surface of the ground; to cause to be taken measurements of the pressure of water at the surface of the ground flowing from artesian wells in the San Bernardino artesian basin; to cause to be taken measurements of all water used in the water system of the City; to keep a record, in the office of such commissioners, of all measurements of water and water pressure herein-before referred to, and also to keep a book in which all persons employed in or engaged in taking any of such measurements shall record a true copy of such measurements and the person so taking such measurements shall be required in such book to state the time of taking such measurement and by some proper designation the place of such measurement and when so recorded, the person shall sign his name to such record.

(Ord. 677, 6-01-1917)

[\[Return to Municipal Code Contents\]](#)

13.04.020 Record of wells that have been bored

The Board of Water Commissioners of the City shall procure and cause to be recorded in a proper book a true and correct log of all wells that have been bored in the San Bernardino valley subsequent to the first day of August, 1916, or that may hereafter be bored therein.

(Ord. 677, 6-01-1917)

13.04.030 Record keeping requirement

The Board of Water Commissioners of the City is authorized and directed to procure such books necessary to preserve the records herein required of them to be taken and kept and to do all other things and to make such rules and regulations necessary and proper to carry this Chapter into effect in order to preserve a true record of all the matters herein referred to and in order to be fully advised as to the condition of the water level and the flow and pressure of water from and in wells within the San Bernardino artesian basin, and also to preserve a true and correct record of the quantity of water being taken from said basin and conveyed to lands not overlying the same, as well as a true and correct record of all of the other matters hereinbefore referred to. The measurements and other things herein provided to be taken and done shall be taken and done at such time and in such manner as the Board of Water Commissioners shall from time to time direct.

(Ord. 677, 6-01-1917)

Chapter 13.08 CONNECTION WITH PUBLIC SEWER¹

Sections:

- 13.08.010 Regulation of Wastewater Connections by the Water Board**

- 13.08.110 (eliminated by Ord. MC-1562, 9-15-21)**

13.08.010 Regulation of Wastewater Connections by the Water Board

In accordance with Section 603 of the City Charter, the Water Board shall be responsible for oversight and management of the City's wastewater collection system, including the regulation of connections. Any rules or regulations promulgated by the Water Board in connection with its powers under Section 603 of the City Charter may be enforced as laws of the City in accordance with Chapter 2.28 of this Municipal Code.

(Ord. MC-1562, 9-15-21; Ord. 3407, 3-06-74; Ord. 2158, 2-11-57)

13.08.020 Inoperative Private Sewer Laterals

Inoperative private sewer laterals shall be maintained in good condition (and free of defects). Inoperative private sewer laterals constituting a "nuisance", as that term is defined in California Health and Safety Code section 5410, shall be subject to the regulations outlined by Health and Safety Code sections 5410 through 5416 and such regulations shall be enforced by the City's Public Works Department."

(Ord. MC-1562, 9-15-21; Ord. 3835, 6-19-79; Ord. 2158, 2-11-57)

13.08.030 - 13.08.110 (eliminated by Ord. MC-1562, 9-15-21)

¹For statutory provisions on sewers, see Health and Saf. Code §5400 et seq.; for provisions authorizing cities to construct sewers, see Gov. Code §38900.

Chapter 13.12
CROSS-CONNECTIONS AND BACKFLOW PREVENTION DEVICES

Sections:

- 13.12.010 Compliance with Chapter and other laws.**
- 13.12.020 Test and report of check valves, pressure vacuum breakers or backflow prevention devices.**
- 13.12.030 Administration.**
- 13.12.040 Violation - Penalty.**

13.12.010 Compliance with Chapter and other laws

It is unlawful for any person to install, maintain or allow to exist, or to fail, neglect or refuse to comply with a notice correction of any cross-connection, which is not in compliance with the provision of this Chapter, the Uniform Plumbing Code, latest adopted edition, the California Administrative Code, and other laws relating to cross-connections and backflow prevention devices. A finding by the Water Department of the City or the county health officer that a cross-connection does or may contaminate water for drinking or domestic purposes shall be prima facie evidence of a violation of this Chapter.

(Ord. 3007, 8-19-69; Ord. 2168, 5-07-57)

13.12.020 Test and report of check valves, pressure vacuum breakers or backflow prevention devices

No person shall fail, refuse or neglect to test and report to the Water Department or health officer on the condition of all check valves, double-check valves, pressure vacuum breakers or backflow prevention devices installed to prevent contamination or pollution of drinking water systems. Such tests, maintenance and reports shall be as required by rules adopted by the Water Commissioners and by Section 13.12.010.

(Ord. 3007, 8-19-69; Ord. 2168, 5-07-57)

13.12.030 Administration

The agency responsible for the enforcement of this Chapter shall be the Water Department of the City.

(Ord. 3007, 8-19-69; Ord. 2168, 5-07-57)

13.12.040 Violation - Penalty

Any person, firm or corporation violating any of the provisions of this Chapter shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punishable by

[Return to Municipal Code Contents]

a fine of not to exceed five hundred dollars, or by imprisonment in the San Bernardino City jail for not to exceed six months, or by both such fine and imprisonment. Each separate day or any portion thereof during which any violation of this Chapter occurs or continues shall be deemed to constitute a separate offense and upon conviction thereof shall be punishable as herein provided.

(Ord. 2168, 5-07-57)

ARTICLE I. GENERAL ADMINISTRATIVE PROVISIONS

13.20.010 Purpose

The purpose of this Chapter is to provide comprehensive management of the geothermal resources and thermal ground waters within and adjacent to the City of San Bernardino. In furtherance of this overall purpose, this Chapter is specifically intended to serve the following sub-purposes:

- A. Conservation and beneficial management of geothermal resources and thermal ground waters in a comprehensive and coordinated manner, so as to assure their continued availability and productivity;
- B. Continued technical assistance for individual private geothermal resource and thermal ground water uses, including residential, commercial, and industrial activities;

[\[Return to Municipal Code Contents\]](#)

- C. Maximization of the public welfare and economic benefit to be derived from geothermal resources and thermal ground waters, by extending their availability throughout the City and elsewhere as much as practical with City and private heating services;
- D. Minimization of the potential for damage or degradation to geothermal resources and thermal ground waters;
- E. Protection of the surface and subsurface environment during development and utilization of geothermal resources and thermal ground waters;
- F. Advancement of the scientific study of geothermal resources and thermal ground waters, through the collection and dissemination of resource data and the demonstration of geothermal technologies;
- G. Implementation of the City's General Plan and its goals and policies for geothermal development and utilization;
- H. Implementation of the authority and provisions of Section 40, Subsection (u) of the Charter of the City of San Bernardino, and any amendments thereto; and coordinated with the provisions of Division 3 and Division 6 of the Public Resources Code, and any amendments thereto.

(Ord. MC-298, 8-17-83)

13.20.020 Scope

This Chapter includes general provisions for administration of this Chapter; the establishment of, and operating measures for, a City-owned and operated geothermal district heating service in the City and elsewhere; the establishment of geothermal and thermal ground water reservoir management procedures; and authorization for certain private geothermal heating services which will operate independently of the City's heating service.

(Ord. MC-298, 8-17-83)

13.20.030 Definitions

For the purpose of carrying out the intent of this Chapter, the words, phrases and terms set forth in this Chapter shall be deemed to have the meaning ascribed to them in Sections 13.20.035 through 13.20.230.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

13.20.035 Altering

"Altering" means the deepening, recasing, perforating, reperforating, installation of packers or seals and other material changes in the design of a well.

(Ord. MC-298, 8-17-83)

13.20.040 Applicant

"Applicant" means the person making application for a geothermal heating connection or geothermal heating service from the City under the provisions of this Chapter.

(Ord. MC-298, 8-17-83)

13.20.045 Artesian flow

"Artesian flow" means that water discharging to the natural ground surface if the flow is unrestricted.

(Ord. MC-298, 8-17-83)

13.20.050 Artesian well

"Artesian well" means a well taking water from an aquifer holding water under pressure greater than atmospheric pressure, which causes the water to seek a static level above the wells juncture with the aquifer.

(Ord. MC-298, 8-17-83)

13.20.055 Board

"Board" means the Board of Water Commissioners of the City of San Bernardino.

(Ord. MC-298, 8-17-83)

13.20.060 BTU

"BTU" means British thermal unit.

(Ord. MC-298, 8-17-83)

13.20.065 By-product

"By-product" means any mineral or minerals, exclusive of oil, hydrocarbon gas, helium or other hydrocarbon substances, which are found in solution or in association with geothermal resources, and which have a value of less than seventy-five percent of

[Return to Municipal Code Contents]

the value of geothermal resources or are not, because of quantity, quality or technical difficulties in extraction and production, of sufficient value to warrant extraction and production by themselves.

(Ord. MC-298, 8-17-83)

13.20.070 City

"City" means the City of San Bernardino.

(Ord. MC-298, 8-17-83)

13.20.075 Constructing

"Constructing" means the boring, digging, drilling, or excavating of a well, including the installation of casing or well screens.

(Ord. MC-298, 8-17-83)

13.20.080 Council

"Council" means the Mayor and Common Council of the City of San Bernardino, sometimes called "Common Council".

(Ord. MC-298, 8-17-83)

13.20.085 Department

"Department" means the Water Department of the City of San Bernardino.

(Ord. MC-298, 8-17-83)

13.20.090 Drilling a well

"Drilling a well" means the drilling, re-drilling, or deepening of a well.

(Ord. MC-298, 8-17-83)

13.20.095 Drilling site

"Drilling site" means any site where drilling operations will be, are being, or have been undertaken to construct or alter a well.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

13.20.100 Franchise

"Franchise" means an agreement granting a land developer authorization to construct, operate, and maintain a private heating service.

(Ord. MC-298, 8-17-83)

13.20.105 General Manager

"General Manager" means manager of the Water Department of the City, or the manager's authorized representative, sometimes referred to herein as "Manager".

(Ord. MC-298, 8-17-83)

13.20.110 Geothermal Data Center

"Geothermal Data Center" means the City office which acts as a geothermal information clearing house and data repository and is maintained in the Water Department.

(Ord. MC-298, 8-17-83)

13.20.115 Geothermal facility

"Geothermal facility" means any space or process, heating or cooling, apparatus or system used to pump, convey, or transport geothermal resources or thermal ground water, including but not limited to, ground water heat pumps, fluid heat exchangers, well and circulating pumps, pipelines, valves, fittings, or controls.

(Ord. MC-298, 8-17-83)

13.20.120 Geothermal fluid

"Geothermal fluid" means any fluid transporting or capable of transporting geothermal heat.

(Ord. MC-298, 8-17-83)

13.20.125 Geothermal heat

"Geothermal heat" means heat derived from geothermal resources.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

13.20.130 Geothermal resources

"Geothermal resources" means the natural heat of the earth and the energy, in whatever form, below the surface of the earth present in, resulting from, or created by, or which may be extracted from, the natural heat, and all minerals in solution or other products obtained from naturally heated fluids, brines, associated gases, and steam, in whatever form, found below the surface of the earth, exclusive of oil, hydrocarbon gas, helium or other hydrocarbon substances, but including specifically:

- A. All products of geothermal processes, embracing indigenous steam, hot water, and hot brines;
- B. Steam and gases, hot water, and hot brines resulting from water, gas or other fluids artificially introduced into geothermal formations;
- C. Heat or other associated energy found in geothermal formations; and
- D. Any by-product derived from them.

(Ord. MC-298, 8-17-83)

13.20.135 Ground water

"Ground water" means any water, except capillary moisture, beneath the land surface or beneath the bed of any stream, lake, reservoir, or other body of surface water, whatever may be the geological formation or structure in which such water stands, flows, percolates, or otherwise moves.

(Ord. MC-298, 8-17-83)

13.20.140 Heat rate

"Heat rate" means the user fee schedule charged by the City for geothermal heat according to a rate schedule adopted by a resolution of the Board.

(Ord. MC-298, 8-17-83)

13.20.145 Heating service

"Heating service" means the provision of geothermal heat by the City to a user pursuant to the City Charter, and any amendment thereto, and the provisions of Article II of this Chapter.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

13.20.150 Inhabitant

"Inhabitant" means businesses and persons within the City.

(Ord. MC-298, 8-17-83)

13.20.155 Injection well

"Injection well" means any well or converted well constructed to dispose of geothermal fluids or ground water into an underground reservoir.

(Ord. MC-298, 8-17-83)

13.20.160 Owner

"Owner" means the holder of the record title to real property or the vendee under a recorded land sale contract or any lessee having a long-term leasehold interest in the property.

(Ord. MC-298, 8-17-83)

13.20.165 Person

"Person" means an individual person, firm, partnership, association, social or fraternal organization, corporation, nonprofit corporation, trust, estate, receiver, syndicate, branch of government, or similar entities, any group or combination acting as a unit, or the successors or assigns of any of the aforesaid.

(Ord. MC-298, 8-17-83)

13.20.170 Pollution

"Pollution" means the contamination or other alteration of the physical, chemical, or biological properties of any surface or ground waters which will or can reasonably be expected to render such waters harmful, detrimental, or injurious to domestic, commercial, industrial, agricultural, recreational or other legitimate beneficial use.

(Ord. MC-298, 8-17-83)

13.20.175 Prospect well

"Prospect well" means any well constructed or altered as a geophysical test well, seismic shot hole, mineral exploration drilling, core drilling or temperature gradient test well, less than two thousand feet in depth, and constructed or altered specifically in prospecting for geothermal resources.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

13.20.180 Secondary use

"Secondary use" means any use which receives the City heating service from fluids discharged by a foregoing use, prior to the return of such fluids to a City heating service pipeline.

(Ord. MC-298, 8-17-83)

13.20.185 Service

"Service" - see "heating service".

(Ord. MC-298, 8-17-83)

13.20.190 Service connection

"Service connection" means that part of the City heating service distribution system which connects the City's meter and pipeline to the user's pipeline.

(Ord. MC-298, 8-17-83)

13.20.195 Therm

"Therm" means a unit of measure consisting of 100,000 BTU's. This unit is used to measure delivered geothermal heat for billing purposes.

(Ord. MC-298, 8-17-83)

13.20.200 Thermal groundwater

"Thermal ground water" means ground water which is less than two hundred fifty degrees Fahrenheit at bottom-hole temperature, and possessing sufficient heat to be used for a direct thermal application or in conjunction with a ground water heat pump for which the heat is put to beneficial use.

(Ord. MC-298, 8-17-83)

13.20.205 Underground reservoir

"Underground reservoir" means an aquifer or combination of aquifers or zones containing a common geothermal and/or ground water resource.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

13.20.210 User

"User" means a person who receives or is capable of receiving geothermal heat from the City.

(Ord. MC-298, 8-17-83)

13.20.215 User service pipeline

"User service pipeline" means the private pipeline that connects the user's private heating system to the City's meter and distribution pipeline.

(Ord. MC-298, 8-17-83)

13.20.220 Water well contractor and drilling machine operator

"Water well contractor and drilling machine operator" is as defined by ordinance or State law, and any amendment thereto.

(Ord. MC-298, 8-17-83)

13.20.225 Well

"Well" means any artificial opening or artificially altered natural opening, however made, by which geothermal fluids or ground water is sought or through which geothermal fluids or ground water flows under natural pressure or is artificially withdrawn or is used to operate a heat exchanger within the well, provided that this definition shall not include a natural spring.

(Ord. MC-298, 8-17-83)

13.20.230 Well drilling machine

"Well drilling machine" means any power-driven percussion, rotary, boring, digging or augering machine used in the construction or alteration of wells.

(Ord. MC-298, 8-17-83)

13.20.240 Rates, fees and charges

The rates, service charges, connection fees and such other charges as provided for by this Chapter shall be established by resolution of the Board and may be amended by resolution of the Board at any time. Rates charged may be fixed and classified according to the type of use or the amount of geothermal heat used or any combination thereof. Such rates, fees and charges shall not be changed without a public hearing first being held before the Board. Such hearing shall be advertised by published notice in a local

[Return to Municipal Code Contents]

newspaper of general circulation not less than ten days prior to the date of such hearing, and in the geothermal heating bills sent to users during the period of thirty days prior to the date of the hearing. Such notices shall set forth the time and place of the hearing and a summary of said amendment.

(Ord. MC-298, 8-17-83)

13.20.250 Service map - Adoption of standards

- A. San Bernardino geothermal heating service map. The locations of heating service facilities are hereby established on the map entitled "San Bernardino Geothermal Heating Service Map" as presently on file in the Geothermal Data Center, which map is incorporated herein by reference. The map shall hereinafter be referred to as the "Heating Service map", and shall be maintained on file in the Geothermal Data Center. Any revisions or replacement of this map shall be approved by ordinance and shall be likewise filed and incorporated into this Chapter by reference.
- B. Water Department geothermal heating user service pipeline connection standards. Pipeline connection standards shall be established by the General Manager.
- C. Water Department standards for maintenance related surface discharge. The General Manager may establish standards for maintenance related surface discharges.

(Ord. MC-298, 8-17-83)

13.20.260 Conformity with General Plan and other ordinances and statutes

All actions pursuant to this Chapter and all uses of land in conjunction herewith shall conform to Title 19 of this Code, the City's General Plan, all other applicable code provisions and ordinances, and applicable state statutes.

(Ord. MC-298, 8-17-83)

13.20.270 Appeal of administrative decisions

Any decision rendered by administrative officials of the Department pursuant to this Chapter may be appealed to the Board. Such appeal shall be in writing, shall identify the administrative decision appealed from, the specific grounds for appeal, and shall be filed with the General Manager not more than fourteen days following the date of the notice to the affected party of the administrative decision. The Board shall consider the appeal at its next regular meeting following the filing of the appeal, and upon considering all pertinent testimony and evidence, may sustain, modify, or reverse the decision appealed from. The Board shall provide a written report of its decision to the affected party by certified mail within five days of the Board's action.

(Ord. MC-298, 8-17-83)

[Return to Municipal Code Contents]

ARTICLE II. CITY HEATING SERVICE

13.20.280 Administrative organization and principal functions

- A. Officials. The Board shall act as the governing body of the heating service, and the General Manager shall act as the chief administrative officer of the service.
- B. Assignment of organizational responsibilities. The General Manager may delegate or assign responsibilities for heating service functions and activities to such divisions and personnel as the General Manager may deem appropriate or necessary .
- C. Principal functions and activities. The principal functions and activities of the heating service shall include but not be limited to:
 - 1. The exploration for and confirmation of geothermal resources and/or ground waters;
 - 2. The monitoring of geothermal and/or ground water reservoirs and the management of reservoir activities, so as to promote stable reservoir conditions and enhance reservoir productivity;
 - 3. The supplying, furnishing, and selling of geothermal heat to City inhabitants;
 - 4. The supplying, furnishing, and selling of any surplus geothermal heat over and above the heating needs of the City to persons outside the City, and for purposes deemed appropriate by the Board;
 - 5. The establishment and maintenance of a Geothermal Data Center, where local geothermal information and all geothermal records authorized or required by this Chapter shall be kept and made available for public inspection and reproduction; a registry of local wells and geothermal facilities shall be established and maintained at the Geothermal Data Center;
 - 6. The sponsoring of and participation in the scientific study and demonstration of geothermal resources and technologies;
 - 7. Geothermal disposal drainage work as authorized by City; and
 - 8. All other acts and things which may be requisite, necessary, or convenient in carrying out the purpose of this Chapter and State law.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

13.20.290 Boundary.

- A. Establishment. The heating service boundary shall encompass all land within the corporate limits of the City, as now or hereafter constituted, excluding all railroad rights-of-way pursuant to state law, unless the owner of the railroad property expressly consents to its inclusion.
- B. Extension of service outside City boundary. Service shall normally be available only to users located within the City boundary. However, the Board may, by contract, extend service outside the boundary in cases where such extension is deemed in the best interests of the City, but only after determining that such service capability is based upon a surplus of geothermal heat existing over and above any and all demands of the users within the City boundary. Contracts for service outside the City boundary shall condition continued service upon the continuance of the surplus over City needs.

(Ord. MC-298, 8-17-83)

13.20.300 Finances.

- A. Operational financing. Heating service operations and maintenance, within or without the City boundary, may be financed by one or more, or any combination, of the following methods:
 - 1. Such rates, fees, and charges as may be required by this Chapter;
 - 2. Annual ad valorem taxation in an amount which shall not exceed the true cash value of all taxable property within the City;
 - 3. General obligation bonds, upon authorization of the City's voters, in an amount which shall not exceed in the aggregate ten percent of the true cash value of all taxable property within the City; such general obligation bonds may be additionally secured, by resolution of the Board, by pledging all or any part of the net revenue of the City's heating service;
 - 4. Refunding bonds, of the same character and tenor as those general obligation bonds replaced thereby, by resolution of the Board;
 - 5. Revenue bonds pledging the gross revenues of the City's heating service, if approved by the Council;
 - 6. Federal and state grants-in-aid, and private endowments; and
 - 7. All other legal means.

[Return to Municipal Code Contents]

- B. Improvement financing. Heating service improvements, within or without the City boundary, and including but not limited to the purchase, lease, or acquisition of real estate or equipment, and the planning, design, construction, reconstruction, extension, enlargement, purchase, lease, or acquisition of geothermal facilities, may be financed by one or more, or any combination, of the following methods:
1. Such rates, fees, and charges as may be required by this Chapter;
 2. Annual ad valorem taxation, as specified in Subsection A paragraph 2 hereof;
 3. General obligation bonds, as specified in Subsection A paragraph 3 hereof;
 4. Revenue bonds secured by all or any part of the heating service's gross revenues subject to approval of the Council; such revenue bonds shall not be subject to the percentage limitations applicable to general obligation bonds, but shall be payable solely from such part of the revenues of the heating service;
 5. Refunding bonds, of the same character and tenor as those revenue bonds replaced thereby, by resolution of the Council;
 6. Special assessments, pursuant to laws of the State of California, and City procedures for local improvement districts;
 7. Federal and state grants-in-aid, and private endowments; and
 8. All other legal means.
- C. Special bond retirement financing. The City may, by Council resolution, annually tax all taxable property within the City, in an amount sufficient to pay the annual interest on general obligation bonds theretofore issued by the City and then outstanding, together with any portion of the principal of such bonds maturing within the year.
- D. Refund of certain heating pipeline extension costs. If any person is required by the Board to advance to the Board the cost of extending a geothermal heating pipeline adjacent to property other than their own so that geothermal heating service is provided for such other property without further extension of the geothermal heating pipeline, the Board shall require the owner of the other property, prior to providing geothermal heating service to that property, to pay to the Department a pro rata portion of the cost of the extension, from which the Board may refund all or a portion of such funds so advanced. The right to require shall not continue for more than ten years after the date of installation of the extension of the geothermal heating pipeline. The amount to be refunded shall be determined by Board resolution.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

13.20.310 Authorized facilities and other heat sources

- A. Authorized facilities. In performance of the functions and activities specified in Section 13.20.280 Subsection C, the Board may plan, design, construct, acquire, lease, operate, maintain, and improve a system of geothermal facilities, which may include, but need not be limited to, wells; heat exchangers; pumps for fluid extraction, circulation, and injection; pipelines for conveying fluids; disposal facilities; tanks for storing fluids; fluid or heat metering devices; and various testing instruments and system control devices.
- B. Other heat sources. The Board may authorize, by contract, the Department's purchase and distribution of heat generated by sources other than the City's wells, in order to supplement the City's geothermal heat.

(Ord. MC-298, 8-17-83)

13.20.320 Improvement procedures

- A. Authority to initiate improvement projects. Improvement projects for the heating service shall be initiated by the Board, upon its own motion or upon the written petition of the owners of one-half of the property that benefits specifically by the proposed improvement. A study will be initiated by the Board to assess economic feasibility.
- B. Compliance with state siting requirements. All contemplated improvements shall comply with applicable statutes and regulations of the State of California.
- C. Procedures for special assessments. Whenever any heating service improvement is to be paid for in whole or in part by special assessments according to benefits, the Board shall administer such assessment procedure in accordance with state law and this Code, and such other Board procedures applicable to local improvement districts. Such assessments as are approved by the Board shall be subject to confirmation by the Council.
- D. Means of improvements. The construction work for improvements will be done in whole, or in part, by the Board, by a contract, or by any other governmental agency, or by any combination thereof, as authorized by the Board.
- E. Acquisition of private wells and geothermal facilities. As provided for in Section 13.20.300 Subsection B, the Board may purchase, lease, or receive as a gift, any privately-owned wells and/or geothermal facilities within or without the City boundary, for purposes of improving the heating services principal functions and activities.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

13.20.330 Service connection procedures

- A. Application procedure. Any person desiring to connect a user pipeline to the City's heating distribution pipeline, or to connect a secondary use to a user's discharge pipeline, may apply for such service connection with the Department on forms provided for that purpose. The Department shall approve or deny said application in writing within fourteen days of its filing.
- B. Service connection fees. Upon approval of a service connection application, the applicant shall remit a connection fee to the Department in an amount to be established by resolution of the Board.
- C. Failure to remit the fee in full, or otherwise comply with fee requirements, within fourteen days of the date of application approval shall render said approval void. The applicant shall be given written notice of such voiding by certified mail.
- D. Service connection standards and inspections. All user service pipeline connections to the heating service system, including secondary use connections, shall be completed under procedures promulgated by the Department. All completed and approved user service pipeline connections shall remain inoperable, by Department deactivation of the City heat meter, until such time as a service account is activated by the Department. All completed and approved service connections shall be used only for the purpose expressly cited in the connection permit; service users shall not, in any manner, otherwise connect or divert the heat or fluid provided by the service connection. The City shall not be liable for the materials, workmanship, operation, or maintenance, relating to the user service pipeline or to private heating or cooling equipment installed beyond the City's service connection.

(Ord. MC-298, 8-17-83)

13.20.340 User service procedures

The Board shall establish application procedures, required service deposits, billing procedures, service charges, and procedures for delinquent accounts.

(Ord. MC-298, 8-17-83)

[Return to Municipal Code Contents]

13.20.350 Terms and conditions of heating service

All heating services provided by the City shall be subject to the following terms and conditions:

- A. Service accounts with all users outside the City boundary shall be subject to immediate cancellation of service whenever there exists no surplus supply, of heat over and above any and all demands of users within the City boundary;
- B. The Board reserves the right to cease operation of the heating system, or any part thereof, and cancel such services as may be provided by the system, for reasons of emergency maintenance or repairs as authorized by the General Manager. The General Manager shall diligently endeavor to provide user and public notice prior to such emergency actions at the earliest time and most comprehensive extent;
- C. The City may, by Board resolution, establish regular seasonal periods of heating service operation and non-operation;
- D. The City shall assume no liability whatsoever, direct or implied for any user damages or injuries incurred as a result of heating service interruption or cancellation, when such interruption or cancellation is due to circumstances beyond the control of the City, or due to operational actions authorized by this Chapter;
- E. The City shall not warrant or guarantee the temperature or chemical quality of the fluid delivered to users, but shall advise of the temperature or chemical quality of the fluid delivered to the users as they occur. The City shall not assume any liability whatsoever, direct or implied, for corrosion, scaling, or similar physical degradation of user pipelines or private heating or cooling equipment utilized beyond each service connection;
- F. Force majeure: Natural catastrophe, or other causes beyond the reasonable control of the parties, which prevent Board from providing, or user from accepting, any of Board's services covered by this Chapter, shall operate to suspend the obligations of user and Board during the period required to remove such cause, provided it is immediately reported in writing within forty-eight hours of specific cause.

(Ord. MC-298, 8-17-83)

[\[Return to Municipal Code Contents\]](#)

ARTICLE III. GEOTHERMAL AND GROUND WATER RESERVOIR MANAGEMENT

13.20.360 Reservoir management policy

In furtherance of the purposes of this Chapter, it shall be the policy of the City, in exercise of its powers to provide for the public health, safety and welfare, that all wells existing on the effective date of this Chapter, and those constructed or altered thereafter, be used in such a manner as to:

- A. Conserve and protect the geothermal fluids and ground water within and adjacent to the City, in order to enhance reservoir productivity and benefit; prevent wasteful extraction and disposal of geothermal fluids and thermal ground water; prevent geothermal fluid and thermal ground water temperature degradation; maintain stable static levels of geothermal fluids and thermal ground waters; prevent thermal pollution of surface environs and waters; and prevent harmful intermixing of geothermal fluids or thermal ground water with nonthermal ground waters;
- B. Allow continued individual inhabitant utilization of geothermal fluids and thermal ground water for residential, commercial, industrial, and other legitimate beneficial purposes;
- C. Increase and disseminate the scientific knowledge of geothermal and ground water resources; and
- D. Protect the public health, safety, and welfare from improperly constructed, operated, maintained, or abandoned wells.

(Ord. MC-298, 8-17-83)

13.20.370 Existing wells

- A. All wells existing or under construction within the City on the effective date of this Chapter shall be known as existing wells, and shall be subject to the requirements of this Article.
- B. Registration of existing wells. Owners of existing wells, within and without the City, may register their wells with the Geothermal Data Center as soon as this Chapter becomes effective. Such registration shall be voluntary and without cost to the owner, and shall be for purposes of providing Information to the Geothermal Data Center in accordance with Section 13.20.280 Subsection C paragraph 5. Said registration shall be on forms supplied by the Geothermal Data Center for that purpose, and may

[\[Return to Municipal Code Contents\]](#)

include but not be limited to the name and address of the owner, specific location of the well, date of construction, depth and diameter of the well, specifications of casing, bottom hole temperature, static fluid or water level, type of geothermal utilization system, accessibility for monitoring devices, and disposal method, if any. The General Manager shall direct reasonable public notice to the City's inhabitants at large, explaining the registration program and encouraging participation.

- C. Existing surface discharge elimination. In order to eliminate the wasteful and harmful effects of thermal fluid or water surface discharges, any well or geothermal facility discharging geothermal fluids or thermal ground water onto the surface of the ground or into any public ditch or drainage facility, on the effective date of this Chapter, shall be brought into conformity with all applicable environmental requirements within one year of such effective date. The General Manager shall cause such discharging wells or facilities to be identified by the Geothermal Data Center, and shall cause to be offered technical assistance to affected owners during the conversion or abandonment of such discharging wells or facilities.

(Ord. MC-298, 8-17-83)

13.20.380 New wells

- A. All wells constructed or altered within the City subsequent to the effective date of this Chapter shall be known as new wells, and shall be subject to the requirements of this Article.
- B. Application for well permit. In addition to all applicable state and federal requirements, any person, except the Board, desiring to construct, install, or alter a well within the City shall first apply for a well permit at the Geothermal Data Center, on forms provided for that purpose by the Geothermal Data Center. Well contractors or drilling operators shall not commence construction or alteration of a well prior to the owner of a proposed well receiving a well permit.
- C. Application fee. All applications for a well permit shall be accompanied by an application fee established by Board resolution.
- D. Application review. The General Manager shall review each application to determine any potential impacts upon the City heating service; any potential for adverse effects to the surrounding reservoir and other wells; conformity with City plans and ordinances; and to assure registration with the Geothermal Data Center.

[\[Return to Municipal Code Contents\]](#)

- E. Permit decision. No later than twenty-one days from the date of filing a well permit application, using the criteria contained in Subsection F hereof, the General Manager shall notify the applicant, by certified mail, of his or her decision, setting forth any conditions imposed, and, if denied, the basis thereof. Any well permit issued pursuant to this Chapter is in addition to any permits required by state and federal regulations.

- F. Permit decision criteria. Permit decisions pursuant to Subsection E hereof shall contain written findings for approval or denial which may include, but are not limited to, the following criteria:
 - 1. The estimated hydrological impacts of the proposed wells operation upon the reservoir and surrounding wells;
 - 2. The adequacy of provisions for environmental protection and public safety;
 - 3. The compliance of the proposed well and its use with this Chapter, the City General Plan, and all other applicable City laws, ordinances, regulations; and
 - 4. Such other reservoir management criteria as may be deemed directly relevant to the proposed well or its operation.

- G. Appeal of permit decision. Applicants or other affected persons may appeal the permit decision to the Board in accordance with Section 13.20.270.

- H. Authority to attach conditions to permits. When the General Manager determines that certain construction or operational conditions are necessary to assure the conservation and protection of thermal ground water and/or geothermal resources, or to assure the conservative and efficient utilization of said water and/or resources, the General Manager may stipulate conditions within a well permit issued according to Subsection E hereof; such conditions may include, but are not limited to:
 - 1. Restrictions on hours of well construction, with appropriate requirements for noise muffling and waste disposal necessary to assure compatibility with surrounding land uses;
 - 2. Well casing requirements above and beyond state requirements, necessary for ground water and geothermal fluid protection;
 - 3. Restrictions on pumping, heat exchanging, storage, and injection operations necessary for the conservation or protection of ground waters and geothermal fluids;

[\[Return to Municipal Code Contents\]](#)

4. Requirements for scientific sampling, testing, or monitoring, necessary to conserve or protect ground water or geothermal fluids, or to determine the permitted wells impacts on such water or fluids.
- I. Completion inspection. Upon completion of any well construction or alteration, but prior to any testing or commencement of regular use, the owner shall promptly notify the Geothermal Data Center to request a well completion inspection. Promptly after receiving such request the Board shall cause an inspection and written report thereof to be made for purposes of assuring compliance with this Chapter and registration with the Geothermal Data Center. Notice of well pump testing shall be given in accordance with Section 13.20.400 Subsection C.
- J. New surface discharges. Any well or geothermal facilities constructed or altered after the effective date of this Chapter shall be operated or altered in such a manner as to conform with applicable environmental rules and regulations. Surface discharges for maintenance purposes shall be conducted in accordance with applicable environmental rules and regulations.

(Ord. MC-298, 8-17-83)

13.20.390 Injection wells

Filing of application copy. All wells constructed, operated, or maintained for purposes of injecting geothermal fluids or ground water into the ground shall comply with applicable state statutes and rules relating to injection.

(Ord. MC-298, 8-17-83)

13.20.400 Resource data collection

- A. Annual well survey. The Geothermal Data Center, in accordance with Section 13.20.280 Subsection C shall annually mail to all registered well owners within and without the City a questionnaire to update original registration information and to document, to the extent possible, well operation characteristics of the preceding year. Scheduling of the survey shall be determined by the General Manager and response to it shall be voluntary. The City may issue such surveys on a more frequent and geographically selective basis when investigating specialized geothermal or ground water matters.
- B. Well-drilling data. A copy of all well logs prepared in accordance with state or City law shall be furnished to the Geothermal Data Center within thirty days after the completion of the well construction or alteration by the well contractor or drilling operator.

[\[Return to Municipal Code Contents\]](#)

- C. Well maintenance or pumping notice. No less than twenty-four hours prior to performing any well maintenance or maintenance-related well pumping within the City, the person performing said work shall notify, telephonically or by written or personal message, the Geothermal Data Center. Such notification shall include, but need not be limited to, the nature of maintenance or pumping to be performed, well location, name of owner, and the approximate duration of the work. Notice of maintenance necessary for emergency reasons for which advance notice was impossible may be given to the Geothermal Data Center as soon as such emergency conditions will reasonably permit.

(Ord. MC-298, 8-17-83)

13.20.410 City inspection and monitoring of wells and geothermal facilities

- A. In connection with the principal functions and activities of the City heating service, Board officials may enter upon any property within the City for purposes of inspecting wells and geothermal facilities, or monitoring the operational characteristics of such wells and facilities, when such inspection and monitoring is reasonably necessary to the assessment of ground water or geothermal fluid temperatures, chemistry, static levels, quantities, and movements; the assessment of land subsidence or erosion; or the assessment of other indices related to geothermal or ground water reservoir management, or protection of the public safety and welfare.
- B. The Board shall provide affected property owners with reasonable prior notice of any intended inspection or monitoring, describing the nature, purpose, and duration of the necessary inspection or monitoring; such inspections or monitoring shall be conducted in accordance with applicable City and state procedures for inspection warrants, if the land owner or other person in possession objects to any such inspection or monitoring.

(Ord. MC-298, 8-17-83)

13.20.420 Wasteful or defective wells - Repair - Violation

Whenever the General Manager determines that any well within the City is, by nature of its construction, installation, or operation, causing wasteful use of thermal ground water or geothermal fluids, or is adversely interfering with other wells, or is polluting ground water or surface water, the General Manager shall promptly notify the affected owner, by certified mail, of the wasteful or defective well, and require said owner to repair or adjust the well within sixty days. It is unlawful to fail to repair a well or to continue a wasteful or defective operation after expiration of the sixty days following notification. And violation of this section is an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. MC-298, 8-17-83)

[Return to Municipal Code Contents]

ARTICLE IV. PRIVATE HEATING SERVICES

13.20.430 Establishment, services, and conditions

- A. Authorization for establishment. The Board may, by resolution, authorize the establishment and operation of private geothermal heating services within the City boundary upon application therefor by any person. Such application shall be in a manner and form prescribed by and filed with the General Manager.
- B. Authorized services. Private heating services may provide geothermal heating, when specifically authorized by the Board, for the following uses:
 - 1. Less than six structures, excepting structures containing accessory uses, as such uses are defined in Title 19 of this Code.
 - 2. Six or more structures in new land developments whose developers have also been granted a franchise by the Board for the construction, operation, and maintenance of a private heating service. Such franchise shall be individually negotiated between the Board and the developer; however, any such franchise shall contain the following minimum provisions: the franchise shall be for no longer than twenty years; the franchise shall require that such land developer compensate the Board annually with a franchise fee in an amount to be negotiated; and that such franchised geothermal heating systems shall be subject to board acquisition at depreciated fair market value upon the expiration of the franchise.
- C. Conditions of authorization. All private heating services authorized by the Board shall be subject to the following conditions:
 - 1. All private heating service plans, improvements, construction, facilities, operations, maintenance, and scientific research shall comply with Title 19 of this Code, this Chapter and all other applicable City ordinances;
 - 2. All private heating service properties and facilities shall be subject to Board inspection in accordance with section 13.20.410; and;
 - 3. All private heating services shall maintain and make available for board inspection, such operational and maintenance records as may be stipulated by the Board at the time of authorization.
- D. Private heating service facility standards. Private heating service facility standards and improvement plans, including but not limited to, wells, pumps, pipelines, storage tanks, fittings, and control devices, shall be approved in writing by the General Manager, prior to their acquisition, construction, installation, or operation.

- E. State jurisdiction. Board authorization shall not relieve private heating services from requirements which may be imposed upon public utility or private heating services by state statutes or rules.

(Ord. MC-298, 8-17-83)

ARTICLE V. ENFORCEMENT

13.20.440 Enforcement

- A. Responsible official. The General Manager, or his authorized representative, shall be responsible for enforcing this Chapter.
- B. Violations. Any person violating any provision of this Chapter is guilty of an infraction which upon conviction thereof is punishable in accordance with the provisions of section 1.12.010 of this Code.
- C. Equity. In addition to any other remedies provided by law, the Board or its authorized representative acting for and on behalf of the Council may institute injunction, mandamus, abatement, or any other appropriate proceedings to prevent or temporarily or permanently enjoin or abate the violation of any provisions of this Chapter.
- D. User noncompliance. In addition to other enforcement measures provided by this Chapter, the Board may discontinue heating service to any user who fails to comply with provisions of this Chapter after fourteen day written notice to comply, sent by certified mail to said user. Said notice shall include an explanation of the Board's intent to discontinue service, and shall offer the user an administrative hearing before an authorized board representative in order to resolve the dispute. If no hearing is requested, or if the hearing fails to resolve the dispute. The Department may proceed to discontinue service as scheduled.

(Ord. MC-460, 5-15-85; Ord. MC-298, 8-17-83)

- 13.24.440 (Repealed by Ord. MC-460, 5-15-85)

13.24.010 Purpose

The purpose of this Chapter is to assure that the water furnished or supplied by the domestic water supply system under the jurisdiction of the City shall at all times be pure, wholesome, potable, healthful, and in adequate supply and to provide minimum standards for construction, reconstruction, abandonment, and destruction of wells in order to:

- A. Protect underground water resources; and
- B. Provide safe water to persons within the City.

(Ord. 3475, 1-22-75)

13.24.020 Definitions

For the purpose of this Chapter, the following words and phrases are defined and shall have the meanings ascribed to them in this section:

- A. "Abandoned well" and "abandonment" apply to a well which has not been declared for reuse by the legal owner with the director. Test holes and exploratory holes shall be considered abandoned twenty-four hours after construction and testing work has been completed. A well whose original or functional purpose and use have been permanently discontinued or which is in such a state of disrepair that it cannot be made functional for its original purpose or any other function regulated by this Chapter shall be considered an abandoned well.

[\[Return to Municipal Code Contents\]](#)

- B. "Agricultural well" is any water well used to supply water for irrigation or other agricultural purposes, including so-called "stock wells."
- C. "Cathodic protection well" means any artificial excavation in excess of fifty feet constructed by any method for the purpose of installing equipment or facilities for the protection electrically of metallic equipment in contact with the ground, commonly referred to as cathodic protection.
- D. "Community water supply well" means any well which provides water for domestic water supply systems.
- E. "Contamination" means an impairment of the quality of water of the City by wastes or other degrading elements to a degree which creates a hazard to the public health through the possibility of poisoning or through the possibility of the spreading of disease.
- F. "Cross-connection" means any unprotected connection between any part of a water system used or intended to supply water for domestic purposes and any source or system containing water or other substance that is not or cannot be approved as safe, pure, wholesome, and potable for human consumption.
- G. "Customer system" means those parts of the facilities beyond the termination of the distribution system which are utilized in conveying water to points of use beyond point of delivery.
- H. "Department" means the Department of Environmental Health Services of the county.
- I. "Director" means the Director of Environmental Health Services for the county or his duly authorized representative.
- J. "Distribution system" includes the facilities, conduits, or any other means used for the delivery of water from the source facilities to the customer's system.
- K. "Domestic water supply system" means any water system serving two or more places of human habitation where the places are connected by an integrated pipe system owned and operated by the supplier, and all motels, hotels, mobile home parks, campgrounds, resorts and any other places that provide domestic water to their consumers, tenants, renters or customers from a water source other than a water utility operating under a valid permit.
- L. "Individual domestic well" means any well used to supply water for domestic needs of an individual residence or commercial establishment.

[\[Return to Municipal Code Contents\]](#)

- M. "Lateral (horizontal) well" means a well drilled or constructed horizontally or at an angle with the horizon as contrasted with the common vertical well and does not include horizontal drains or "wells" constructed to remove subsurface water from hillsides, cuts, or fills.
- N. "Observation well" means a well used for monitoring or sampling the conditions of a water-bearing aquifer, such as water pressure, depth, movement or quality.
- O. "Person" means any individual, firm, corporation, or governmental agency.
- P. "Pollution" means an alteration of the quality of the waters of the City by waste to a degree which affects:
1. such waters for beneficial uses, or
 2. facilities which serve such beneficial uses.
- "Pollution" may include "contamination."
- Q. "Source facilities" includes wells, stream diversion works, infiltration galleries, springs, reservoirs, tanks and all other facilities used in the production, treatment, disinfection, storage or delivery of water to the distribution system.
- R. "Test hole" or "exploratory hole" means an excavation used for determining the nature of underground geological or hydrological conditions, whether by seismic investigation, direct observation or any other means.
- S. "User" means any individual, firm, corporation or governmental agency using water for domestic purposes except that "user" shall not be defined to include any individual, firm, corporation, or governmental agency furnishing or supplying water to the public in any manner.
- T. "Well" or "water well" means any artificial excavation constructed by any method for the purpose of extracting water from, or injecting water into the ground. This definition shall not include:
1. Oil and gas wells, or geothermal wells constructed under the jurisdiction of the California State Department of Conservation, except those wells converted to use as water wells; or
 2. Wells used for the purpose of:
 - a. Dewatering excavation during construction, or
 - b. Stabilizing hillsides or earth embankments.

(Ord. 3475, 1-22-75)

[\[Return to Municipal Code Contents\]](#)

13.24.030 Investigation of facilities and distribution system

Upon receipt of application for a permit pursuant to this Chapter, the Department shall make a thorough investigation of the proposed or existing source facilities and distribution system and all other circumstances and conditions which it deems material.

(Ord. 3475, 1-22-75)

13.24.040 Reports

The Department may require any permit holder or applicant to file a complete report on the condition and operation of the source facilities and distribution system. The report shall be made in such form and cover such matters as the Department prescribes and by a suitably qualified person acceptable to the Department at the sole cost and expense of the permit holder or applicant.

(Ord. 3475, 1-22-75)

13.24.050 Administrative variance

The Director may grant an administrative variance to the provisions of this Chapter where evidence is submitted that a modification of the standards, as provided herein, will not endanger the health or safety of the public generally and strict compliance would be unreasonable in view of all the circumstances.

(Ord. 3475, 1-22-75)

13.24.060 Hearing upon suspension, denial or revocation of permit

Any person whose application for a permit, or permit has been suspended, denied, or revoked may request the Department for a hearing. The person shall file with the Department a written petition requesting the hearing and setting forth a brief statement of the grounds for the request. Notice of the hearing shall be given the applicant not less than five days prior to such hearing either by registered mail or in the manner required for the service of summons in civil action. At the time and place set for the hearing, the Director will give the applicant and other interested persons an adequate opportunity to present any facts pertinent to the matter at hand. The Director may, when he deems it necessary, continue any hearing by setting a new time and place and by giving notice to the applicant of such action. At the close of the hearing or at any time within ten days thereafter, the Director will order such disposition of the application or permit as he has determined to be proper and will make such disposition known to the applicant.

(Ord. 3475, 1-22-75)

[Return to Municipal Code Contents]

13.24.070 Water Hygiene Standards Advisory Committee

The water hygiene standards advisory committee, consisting of seven persons who shall be appointed by the Board of Supervisors of the county pursuant to the provisions of Division 6, Title 3 of the San Bernardino County Code, shall function as the Water Hygiene Standards Advisory Committee for the City.

(Ord. 3475, 1-22-75)

13.24.080 Responsibility of Enforcement

The San Bernardino County Department of Environmental Health Services shall have the responsibility to monitor and enforce all applicable laws and orders for domestic water supply systems with less than two hundred service connections and any motels, hotels, mobile home parks, campgrounds, resorts and any other places that provide water to their consumers, tenants, renters or customers from a source other than a water utility operating under a valid permit.

(Ord. 3475, 1-22-75)

13.24.090 Design, construction, operation, maintenance, repair and monitoring standards

Minimum standards for the design, construction, operation, maintenance, repair and monitoring for domestic water systems requiring a permit by this Chapter shall also include those standards in the California Health and Safety Code, Division 5, Part 1, Chapter 7, "Water and Water Systems"; and California Administrative Code, Title 17, Part 1, Chapter 5, Sub-chapter 1:

- A. Water Quality Monitoring, Sections 7001-7025;
- B. Water Quality Standards, Sections 7001-7025;
- C. Waterworks Standards, Sections 7050-7081;
- D. Cross-Connection Control, Sections 7583-7622;
- E. Operator Certification, Sections 7100-7134.

(Ord. 3475, 1-22-75)

[\[Return to Municipal Code Contents\]](#)

13.24.100 Permit - Required

It is unlawful for any person to furnish or supply water to a user for domestic purposes from any source of water supply unless he or she first files a written application to do so with the Department and receives and possesses a valid permit as provided in Sections 13.24.110 through 13.24.140.

(Ord. MC-460, 5-15-85; Ord. 3475, 1-22-75)

13.24.110 Permit - Conditions of approval

Permits shall be issued subject to compliance with the standards provided in this Chapter and with the submission and subsequent approval by the Department of Plans demonstrating compliance with these standards, except where such standards shall be inapplicable or modified as expressly provided for in this Chapter. Permits may also include any other condition or requirement found by the Department to be necessary to accomplish the purpose of this Chapter.

(Ord. 3475, 1-22-75)

13.24.120 Permit - Temporary

The Department may for good cause, grant a temporary permit to any person who has filed an application for a permit as provided in Section 13.24.100 upon such terms as it determines are in the public interest pending completion of the investigation required by Section 13.24.030.

(Ord. 3475, 1-22-75)

13.24.130 Permit - Denial

If, upon the completion of the investigation, the Department determines, as a fact, that the water furnished or supplied or proposed to be supplied is such that under any circumstances and conditions it is impure, unwholesome, unpotable or may constitute a menace or danger to health or lives of human beings, or the existing or proposed source facility or distribution system is unhealthful or insanitary or not suited to the production and delivery of pure, wholesome, potable and healthful water at all times, it shall deny the application and order the applicant to make such changes as it deems necessary to secure a continuous supply of pure, wholesome, potable, and healthful water.

(Ord. 3475, 1-22-75)

13.24.140 Permit - Revocation

Any permit issued may be revoked or suspended by the Department at any time if it determines that the water being supplied or furnished by the permittee is or will become impure, unwholesome, unpotable, or endanger the lives or health of human beings.

(Ord. 3475, 1-22-75)

13.24.150 Modifications to system - Notice required

It is unlawful for any person to modify, add to, or change his or her source facilities or distribution system until he or she notifies the Department, submits information required by the Department, and receives approval from the Director authorizing such modifications, additions, or changes.

(Ord. MC-460, 5-15-85; Ord. 3475, 1-22-75)

13.24.160 Monitoring

Any person who furnishes or supplies water to a user for domestic purposes shall provide at such person's expense analysis of such water to the Department as per California Administrative Code, Title 17, Domestic Water Supplies Quality and Monitoring.

(Ord. 3475, 1-22-75)

13.24.170 Water quality standards

All water sources used for domestic water supply shall meet the minimum standard in California Administrative Code, Title 17, Domestic Water Supplies Quality and Monitoring.

(Ord. 3475, 1-22-75)

13.24.180 Water quantity, source and storage requirements

The quantity of water available from all water sources and distribution storage reservoirs shall be as per Table I and Table II of this section.

Table 1
Gravity Storage System
Source and Storage Capacity

No. of Service Connections	Minimum Use		Median Use		High Use		
	Recreational Dwelling with No Irrigation	Typical or Average Residence and Lot	Residence with Large Lot	Source Capacity (gpm)	Storage Capacity (gals)	Source Capacity (gpm)	Storage Capacity (gals)

"Source and Storage Design Guide for Small Water Systems,"
State of California, State Department of Health,
Water Sanitation Section, 1967
Ord. 3475, 1-22-75)

13.24.190 Required separation between water mains and sanitary sewers

Underground street utility location for water and sewer mains shall conform to the standards contained in the current county road department publication entitled "Standard Specifications, Drawings 310 and 311," the State Department of Health bulletin entitled "Required Separation Between Water Mains and Sanitary Sewers," and any standards established by the City.

(Ord. 3475, 1-22-75)

13.24.200 Backflow and cross-connection control

Every person furnishing or supplying water to users shall, by approved methods, prevent water from unapproved sources or any other substances from entering the domestic water system and shall conform to the standards of California Administrative Code, Title 17, Cross-Connection Control.

(Ord. 3475, 1-22-75)

13.24.210 Treatment facilities and operation

Treatment facilities and operation shall be provided as required by the Department on a case-by-case basis. Treatment of all surface waters shall be provided and shall include, but not be limited to, reliable disinfection.

(Ord. 3475, 1-22-75)

13.24.220 Correction of sanitary defects and health hazards

The Department may order such repairs, alterations, or additions to the proposed or existing source facilities and distribution system as will ensure that the water furnished or supplied shall at all times be pure, wholesome, potable, and healthful without danger to the health of human beings.

(Ord. 3475, 1-22-75)

13.24.230 Notification of failure to meet water quality standards

[\[Return to Municipal Code Contents\]](#)

- A. When it is determined by the Department that it is in the public interest, the Department shall notify a person who has not met the standards of the Department for water quality of such noncompliance, and shall require such person to notify each of his or her customers in writing of the Department's determination that the quality of the water fails to comply with the standards, requirements, or conditions established by the Department and to include any comments of the Department regarding the possible dangers because of such noncompliance. The content of such statement shall be approved by the Department prior to distribution. Notification by such person shall be repeated at intervals as required by the Department or until the Department determines that the quality of the water complies with the standards or requirements of the Department.
- B. Any person who fails to comply with the provisions of this section is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.
- C. After ninety days from the date of notification that the quality of domestic water fails to comply with the standards or requirements established by the Department, the Department may bring an action in the superior court where such person shall be required to establish that he is not in violation of these requirements or that he has a reasonable plan for bringing the source facilities, distribution system, and the domestic water into compliance. If this is not established, a cease-and-desist order shall be issued to prevent any new service connection by such person until such time that the standards or requirements are met.
- D. If a reasonable plan is established, but is not being complied with, the Department shall request that the court review the person's actions. If the court determines that the plan is not being complied with, a cease-and-desist order shall be issued as described in Subsection C of this section.

(Ord. MC-460, 5-15-85; Ord. 3475, 1-22-75)

13.24.240 Permits for wells - Required

It is unlawful for any person, as principal, agent, or employee, to dig, drill, bore, reconstruct, or destroy:

- A. a well that is or has been used to produce or inject water;

[\[Return to Municipal Code Contents\]](#)

- B. a cathodic protection well;
- C. an observation well; or
- D. an exploration well unless he or she first files a written application to do so with the Department and receives and possesses a valid permit as provided in this Chapter.

(Ord. MC-460, 5-15-85; Ord. 3475, 1-22-75)

13.24.250 Permits for wells - Application

Applications for permits shall be submitted to the Department and shall include the following:

- A. A plot plan showing the location for the well with respect to the following items within a radius of five hundred feet from the well:
 - 1. Property lines, including ownership;
 - 2. Sewage or waste disposal systems or works for carrying or containing sewage or waste;
 - 3. All intermittent or perennial, natural or artificial bodies of water or watercourses;
 - 4. The approximate drainage pattern of the property;
 - 5. Other wells, including abandoned wells;
 - 6. Access road(s) to well site;
- B. Location of the property (legal description);
- C. The name and contractor's license classification, including number, of the person constructing the well;
- D. The proposed or probable depth of the well;
- E. The proposed minimum depths and types of casing and probable minimum depth of perforations to be used if such data can be reasonably projected;

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 13 Contents\]](#)

- F. The proposed use of the well;
- G. Where proposed work is reconstruction or destruction of a well, provide the following, if available:
 - 1. Total depth;
 - 2. Depth and type of casing used;
 - 3. Depth of perforations;
 - 4. Well log;
 - 5. Any other pertinent information;
- H. Description of method of reconstruction or destruction of well;
- I. Location and classification of any solid waste disposal sites within two miles of the proposed well;
- J. Other information as may be necessary to determine if the underground waters will be adequately protected.

(Ord. 3475, 1-22-75)

13.24.260 Permits for wells - Conditions for Approval

Permits shall be issued subject to compliance with the standards provided in Sections 13.24.240 through 13.24.270 and with the submission and subsequent approval by the Department of plans demonstrating compliance with these standards, except that such standards shall be inapplicable or modified as expressly provided for in Sections 13.24.240 through 13.24.270. Permits may also include any other condition or requirement found by the Department to be necessary to accomplish the purposes of Sections 13.24.240 through 13.24.270.

(Ord. 3475, 1-22-75)

13.24.270 Permits for wells - Denial

If, upon the completion of the investigation, the Department determines, as a fact, that the standards of this Chapter have not been met, it shall deny the application.

(Ord. 3475, 1-22-75)

13.24.280 Licensing and registration of water well drillers and contractors

[\[Return to Municipal Code Contents\]](#)

It is unlawful for any person to engage in an activity listed in this Chapter unless he or she is in compliance with the provisions of this Chapter and has a valid license in accordance with the California Contractor's State License Law (Chapter 9, Division 3 of the Business and Professions Code), as appropriate to the activity to be engaged in. Such a person shall register with the Department prior to commencing any activity regulated by this Chapter.

(Ord. MC-460, 5-15-85; Ord. 3475, 1-22-75)

13.24.290 Standards for construction of wells

Standards for the construction, reconstruction, destruction, or abandonment of wells shall be the standards recommended in the California Department of Water Resources Bulletin No. 74, Chapter II. For cathodic protection wells, the standard shall be those recommended in Chapter II of the California Department of Water Resources Bulletin No. 74-1.

(Ord. 3475, 1-22-75)

13.24.300 Lateral (horizontal) well standards

Location, design, and monitoring of lateral wells will be in accordance with the standards recommended in the State Department of Health, Water Sanitation Section handout titled "Requirements for Use of Lateral Wells in Domestic Water Systems."

(Ord. 3475, 1-22-75)

13.24.310 Approval of well site

Before construction begins on a well that is intended to be part of a system that purveys domestic water, the drilling site shall first be approved by the Director or his representative. In the event that the well is to serve a system under the direct jurisdiction of the State Department of Health, then that agency may make site approval and notify the Director of their approval or disapproval.

(Ord. 3475, 1-22-75)

13.24.320 General location of water well

- A. It is unlawful for any person to drill, dig, excavate, or bore any water well in any location in which sources of pollution or contamination are known to exist or at such location whereby such water may become contaminated or polluted even though the wells were properly constructed and maintained. All wells shall be located an adequate horizontal distance from potential sources of contamination and pollution:
1. Sewers, watertight septic tank, or pit privy, fifty feet minimum;
 2. Subsurface sewage leaching field, one hundred feet minimum;

[\[Return to Municipal Code Contents\]](#)

3. Cesspool or seepage pit, one hundred fifty feet minimum;
 4. Animals or fowl kept, one hundred feet minimum;
 5. Any subsurface sewage disposal system discharging five thousand gallons/day or more, two hundred feet minimum .
- B. Minimum distances from other sources of pollution or contamination shall be as established by the State Department of Health's "Standards Regarding Location of Public Water Supply Wells With Respect to Sources of Contamination of Pollution."
- C. Where adverse or special hazards are involved, the above distances shall be increased or special means of protection, particularly in the construction of the well, shall be provided as determined by the Department.

(Ord. 3475, 1-22-75)

13.24.330 Log of well

- A. Any person who has drilled, dug, excavated, or bored a well, subject to this Chapter, shall within thirty days after completion of the drilling, digging, excavation, or boring of such well, furnish the department with a complete log of such well. This log shall include depths of formation, character, size distribution, color for all lithological units penetrated, as well as the type of casing, the depth of the well, the number and location of the perforations in the casing and any other data required by the Department. In any areas where insufficient subsurface information is available, the Department may require inspection of the well log during any phase of the wells construction where required to achieve the purposes of this Chapter may require modification of the remaining planned work.
- B. A copy of the log providing such information submitted to concerned state agencies shall satisfy this requirement.

(Ord. 3475, 1-22-75)

13.24.340 Well surface construction features

- A. Water Well Surface Sealing. All water wells drilled, dug, excavated or bored shall be provided with: a watertight reinforced concrete slab of minimum thickness of six inches, top of slab to be a minimum four inches above ground level or floor level at well site, and slab shall extend horizontally at least three feet from the center of the well casing in all directions, and the concrete slab shall adequately slope so as to drain water away from the well casing.

[Return to Municipal Code Contents]

- B. Sample Spigot. A sample spigot shall be provided on the pump discharge line of any water well used as a domestic water supply, as close to the pump as practical and on the distribution side of the check valve.
- C. Check Valve. A check valve shall be provided on the pump discharge line as near the pump as possible for all community water supply wells.
- D. Water Well Disinfection Pipe. All community water supply wells and individual domestic wells shall be provided with a pipe or other effective means through which chlorine or other disinfecting agents may be introduced directly into the well. The pipe shall be extended to a height equal to the pump slab or at least four inches above the finished grade, shall be kept sealed and shall be provided with a threaded or equivalently secured cap.
- E. Water Well Master Meter. A master meter or other suitable measuring device shall be provided for each source facility to register accurately the quantity of water delivered to the distribution system for all community water supply wells.
- F. Air-Relief Vent. An air-relief vent, if used, shall terminate downward and be screened and protected against the possibility of contaminating material entering the vent.

(Ord. 3475, 1-22-75)

13.24.350 Disinfection of water wells

Every new, repaired, or reconstructed community water supply well or individual domestic well, after completion of construction, repair or reconstruction, and before being placed in service, shall be thoroughly cleaned of all foreign substances. The well, including the gravel used in the gravel-packed wells, the pump, pump column and all portions of equipment coming in contact with well water shall be disinfected with a solution containing at least fifty parts per million available chlorine, which shall remain in the well for a period of at least twenty-four hours or by an equivalent method of disinfection satisfactory to the Department, and such procedure shall be repeated, as necessary, to produce water which is bacteriologically satisfactory as set forth by California Administrative Code, Title 17, Water Quality Standards.

(Ord. 3475, 1-22-75)

13.24.360 Water quality standards

Water from all new and reconstructed wells shall be tested for chemical and

[\[Return to Municipal Code Contents\]](#)

physical quality in accordance with California Administrative Code, Title 17, Water Quality Standards, by a laboratory approved by the State Department of Health.

(Ord. 3475, 1-22-75)

13.24.370 Required inspections of wells

The Department shall be notified at least twenty-four hours in advance to make an inspection of the following operations:

- A. Prior to the sealing of the annular space or filing of the conductor casing;
- B. After installation of the surface protective slab and pumping equipment;
- C. During destruction of all wells, after the well has been sealed as per the approved plans;
- D. Any other operation which might be stipulated on the permit by the Director to cope with special or unusual conditions.

(Ord. 3475, 1-22-75)

13.24.380 Approval of wells by Director

No water from a new or reconstructed well shall be used for domestic purposes until the well is given final approval by the Director.

(Ord. 3475, 1-22-75)

13.24.390 Well abandonment

At the time of removal of a pump, the casing shall be provided with an adequate cap at the surface and shall be maintained so that it will not be a hazard to health or safety until such time that the abandoned well is properly sealed from the bottom to the top. It is unlawful to use an abandoned well for the disposal of any waste material. If, after thirty days, the owner of the well has not declared the well for proposed reuse pursuant to Section 13.24.400, then the well shall be destroyed (sealed) pursuant to Section 13.24.290. If an abandoned well is found by the Director to be a hazard, that by its continued existence causes significant damage to the groundwater or to the health, safety, or welfare of the people of this City, the Director shall direct the owner to destroy (seal) the well within a stated period of time.

(Ord. 3475, 1-22-75)

13.24.400 Declaration of proposed reuse of wells

[\[Return to Municipal Code Contents\]](#)

The owner of a well, the use of which has been or is soon to be discontinued, may apply to the Department, in writing, his intention to use the well again for its original or other approved purpose. The Department shall review such a declaration and grant an exemption from certain of the provisions of Section 13. 24.390 provided no undue hazard to health or safety is created by the continued existence of the well. Such an exemption must be applied for and granted annually and may be terminated for cause by the Director at any time.

(Ord. 3475, 1-22-75)

13.24.410 Duties of Director

It shall be the duty of the Director of Environmental Health Services of the Department of Environmental Health Services of the County to enforce the terms and provisions of this Chapter. In the event it is determined that any fees or charges are to be established and collected by the Director, then the City shall make and establish such fees and charges pursuant to this Chapter, and the City and the County shall enter into a contract concerning same.

(Ord. 3475, 1-22-75)

13.24.420 Director's right of entry

It is unlawful for any person to resist or attempt to resist the entrance of the Director or his or her deputy onto any premises for the purposes of the performance of his or her duty or to refuse to obey any lawful order of the Director made in the performance of his or her duties within the power conferred upon him or her by law or by this Chapter.

(Ord. MC-460, 5-15-85; Ord. 3475, 1-22-75)

13.24.430 Violation - Right of entry - Penalty

- A. The Director may at any and all reasonable times enter any and all places, property, enclosures, and structures for the purpose of making examinations and investigations to determine whether any provision of this Chapter is being violated.
- B. It is unlawful for any person to furnish or supply to a user water used or intended to be used for human consumption or for domestic purposes which is impure, unwholesome, unpotable, polluted, or dangerous to health.

[Return to Municipal Code Contents]

- C. Every person, firm, association, society or corporation violating any provision of this Chapter or failing to comply with any order the Department issued pursuant to this Chapter, or who procures, aids, or abets in any such violation or failure, is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.
- D. The continued existence of any violation of this Chapter, or of any order of the Department issued pursuant to this Chapter, beyond the time stipulated for compliance with its provisions, constitutes a separate and distinct offense.
- E. Anything done, maintained or suffered in violation of any of the provisions of this Chapter is a public nuisance dangerous to health, and may be enjoined or summarily abated in the manner provided by law. Every public officer or body lawfully empowered so to do shall abate the nuisance immediately.
- F. Any person who furnishes or supplies to a user water used or intended to be used for human consumption or for domestic purposes, without having a valid permit so to do, may be enjoined from so doing by any court of competent jurisdiction at the suit of the Director.

(Ord. MC-460, 5-15-85; Ord. 3475, 1-22-75)

13.24.440 (Repealed by Ord. MC-460, 5-15-85)

**Chapter 13.25
SPREADING OR EXTRACTION WITHIN
THE MANAGEMENT ZONE**

Sections:

- 13.25.010 Purpose**
- 13.25.015 Background Pertaining to Newmark Groundwater Contamination Superfund Site**

[\[Return to Municipal Code Contents\]](#)

13.25.070 Violations, Remedies and Penalties

13.25.010 Purpose

The purpose of this Chapter is to assure that activities occurring in the Management Zone, including but not limited to development, digging, drilling, boring or reconstruction of wells, extraction of groundwater from wells and spreading of water do not interfere with or cause pass through of contaminants from the Newmark and Muscoy Operable Units. Activities such as well construction or reconstruction or artificial recharge undertaken in the Management Zone shall not cause or contribute to the migration of groundwater contaminants from the Newmark and Muscoy Operable Units to uncontaminated areas, nor shall such activities, even at their maximum operation, interfere with or adversely affect the integrity of the Newmark or Muscoy extraction and treatment systems, nor shall they otherwise interfere with the performance of these Interim Remedial Actions at the Newmark and Muscoy Operable Units.

It is the further purpose of this chapter to assure the protection of human health and the environment, and compliance with relevant Federal and State requirements directly associated with the performance of the remedy. It is the further purpose of this chapter to manage the spreading of water within the Management Zone and manage the development, digging, drilling, boring, reconstruction of wells, and extraction of groundwater from wells, to assure compliance with the remedial program set forth in the RODs, Consent Decree and Statement of Work, as defined below and aid in the eventual restoration of the aquifer to beneficial use.

It is the further intent of this Chapter to regulate activities within the Management Zone only to the extent necessary to achieve the purposes set forth and to minimize the regulatory impacts to those intending to spread water or develop groundwater resources in the Management Zone. In addition to any other requirements of Chapter 13.25, the following requirements shall apply to the Management Zone. Nothing contained herein shall exclude compliance with the other provisions of Chapter 13.25. In the event of any conflict between the provisions of this Chapter 13.25 and any other Chapter, the terms and provisions of this Chapter shall apply.

13.25.015 Background Pertaining to Newmark Groundwater Contamination Superfund Site

Background:

- A. In 1980 the State of California performed sampling of certain wells belonging to the City of San Bernardino Municipal Water Department ("SBMWD"). These samples disclosed the presence of various contaminants, including trichloroethylene (TCE) and perchloroethylene (PCE).

[\[Return to Municipal Code Contents\]](#)

- B. Pursuant to Section 105 of the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 USC 9605, the United States Environmental Protection Agency ("EPA") placed the Newmark Groundwater Contamination Superfund Site ("Site") on the National Priorities List ("NPL"), as set forth in 40 CFR Part 300, Appendix B, by publication in the Federal Register on March 31, 1989, 54 Fed. Reg. 13296, 13301.
- C. In late 1990, EPA commenced a Remedial Investigation ("RI") focusing on the Newmark Operable Unit ("OU"). In September 1992, EPA expanded the RI to include the Muscoy OU.
- D. In March 1993, EPA published notice of the completion of the Feasibility Study ("FS") and the Proposed Plan for interim remedial action pertaining to the Newmark OU. In December 1994, EPA published notice of the completion of the FS and Proposed Plan for interim remedial action pertaining to the Muscoy OU.
- E. EPA's determinations concerning the interim remedial actions to be implemented at the Site are set forth in the Newmark OU Record of Decision ("ROD"), signed August 4, 1993, and Muscoy ROD signed March 24, 1995 and the Explanation of Significant Differences (ESD) signed on August 18, 2004.
- F. On September 18, 1995, EPA, the State of California and SBMWD entered into a Cooperative Agreement providing, in part, for SBMWD to perform the operation and maintenance (O&M) of the remedial action set forth in the RODs, and for EPA to fund the O&M.
- G. In September 1996, the SBMWD commenced an action against the United States Army pursuant to Section 107 and 113 of CERCLA seeking to obtain its costs for response and the operation and maintenance of the Newmark and Muscoy OUs [City of San Bernardino v. United States of America, Dept. of the Army, et al. USDC Case No. CV 96-5205 MRP (JGx) consolidated with USDC Case No. CV 96-8867 MRP (JGx)].
- H. Commencing in June 2000, SBMWD, State of California Department of Toxic Substance Control ("DTSC") and EPA commenced negotiations to resolve various issues relating to the Site OU, Newmark OU and Muscoy OU. On March 23, 2005, the Consent Decree memorializing the settlement was entered by the Court.

- I. The Consent Decree requires, in part, for the City of San Bernardino (City) to implement an ordinance providing for protection and management of the Interim Remedy set forth in the RODs and ESD and specifically for the City to regulate the spreading and extraction of water from the Bunker Hill Basin within the City in order to prevent or correct spreading practices or extraction operations that could interfere with or interrupt or degrade the performance of the Interim Remedy.
- J. The protection of groundwater resources within the City is of utmost importance to the City and SBMWD. The public health, safety and general welfare of the people of the State of California and of the more than 600,000 residents of the Counties of San Bernardino and Riverside who depend upon the continued availability of potable groundwater from the Bunker Hill Basin is paramount. The public health, safety and general welfare of the people of the State of California and the residents of the City of San Bernardino require assurance that spreading of water and extraction of groundwater do not interrupt or interfere with the construction, operation and maintenance of the Interim Remedy or degrade the performance of the Interim Remedy.
- K. The Interim Remedy requires, in part, the extraction of contaminated groundwater from the Bunker Hill Water Basin, and within the Newmark and Muscoy OUs, and treatment of the groundwater to meet all State and federal permits and requirements for drinking water and delivery of treated water to SBMWD for distribution to the public through its potable water system, or in the alternative, for recharge to the aquifer.
- L. Inhibitor wells extract groundwater. The inhibitor wells are located at the downgradient end of the Management Zone. The inhibitor wells currently in place were designed to function based upon hydrological factors relating to the flow of water through the basin. The rate of flow through the basin may increase when additional spreading occurs at spreading basins located upgradient from the inhibitor wells. Another factor affecting flow rate is the amount of water flowing through the basin and either extracted or flowing out of the basin. When extraction of groundwater occurs downgradient or to the side of Management Zone, or the capacity of existing downgradient or adjacent wells are increased, the rate of flow may increase. Should an increase in the flow of water occur beyond the capacity of the inhibitor wells, the inhibitor wells may not be able to contain and extract the additional contaminated water before it enters the aquifer downgradient from the inhibitor wells.
- M. As required by the Consent Decree, the City must exercise its police power to protect the public welfare of the City by adopting reasonable regulatory measures.

13.25.020 Definitions

[\[Return to Municipal Code Contents\]](#)

- A. "Adverse Effect," and "Adversely Effect," Any proposed new or reconstructed well, or any water spreading (artificial recharge) activity, forecast to reduce particle capture (as measured using Predictive Particle Tracking) below 95% at any time in the proposed future permit term, shall be presumed to have an adverse effect under this Ordinance. This presumption may be rebutted by Project Re-design or Mitigation Measures to restore particle capture percentages, over a hydrologic cycle representative of long-term hydrology and extending for a term at least as long as a proposed permit term, to at least 95% at all times, with the proposed project operating at the full permitted capacity for the life of the proposed project.
- B. "Applicant": The person or entity submitting the application addressed in this chapter. The term "Applicant" shall also include the person or entity granted any permit or permission pursuant to the terms of this chapter, and shall also include all licensees, lessees, agents, contractors, operators, employees, officers, directors, representatives, attorneys, successors, assigns, heirs and other persons or entities exercising the rights of the permit through applicant. The term "Applicant" shall not include a Party to the ICGMP that is exempt from the provisions of this Ordinance as provided in section 13.25.025(G) below
- C. "Aquifer": A geologic formation that stores, transmits and yields significant quantities of water to wells and springs.
- D. "Barrier well": See "Inhibitor well" below.
- E. "Basin": The Bunker Hill Basin
- F. "City": The City of San Bernardino.
- G. "Code": The San Bernardino Municipal Code.
- H. "Contamination" means any impairment in the quality of water of the City by wastes or other degrading elements in amounts or concentrations violating any federal or state drinking water standard or applicable permit limit for the water produced by the Interim Remedy, or otherwise.
- I. "Day" means a calendar day.
- J. "Department" means the San Bernardino Municipal Water Department.
- K. "DOHS": State of California Department of Health Services.
- L. "DTSC": State of California Department of Toxic Substance Control.
- M. "EPA": The United States Environmental Protection Agency.

[\[Return to Municipal Code Contents\]](#)

- N. "Extraction": The process of taking water from the groundwater aquifer by way of wells and other appurtenances.
- O. "FS": The Feasibility Studies performed by EPA for the Site and completed in March, 1993 and December 1994.
- P. "General Manager" means the San Bernardino Municipal Water Department General Manager or designee.
- Q. "Groundwater": All water beneath the surface of the earth within the zone below the water table in which the soil is saturated with water.
- R. "Groundwater Model" or "Model" means the mathematical calculations required to be produced pursuant to the Consent Decree and SOW addressing the physical characteristics of the groundwater in the Bunker Hill Basin under various conditions. The Groundwater Model is a three-dimensional numerical model that will account for changes in water levels over time, and will account for spatial variations in underground hydrologic parameters. The Groundwater Model can be used to perform Predictive Particle Tracking by simulating future groundwater levels in three dimensions over time.
- S. "Inhibitor Well": The wells designed by EPA for the extraction of water from specific areas of the basin and identified in the RODs.
- T. "Management Zone": The geographic area depicted and defined on Exhibit "A" and Exhibit "B", on file in the office of the General Manager of SBMWD. The "Management Zone" is referred to in the Consent Decree as the "Permit Zone".
- U. "Mitigation Measures" mean readily enforceable and verifiable steps taken to reduce or eliminate Adverse Effects forecast for a proposed new or reconstructed well or water spreading (artificial recharge) project by Predictive Particle Tracking. Mitigation Measures can include, but are not limited to:
1. locating an additional well or wells in the contaminant plume to counteract migration of contaminants past the inhibitor wells;
 2. readily enforceable and verifiable pumping restrictions;
 3. physical reductions in the size of well equipment to limit the well capacity.
- V. "NPL": National Priorities List.

[\[Return to Municipal Code Contents\]](#)

- W. "OU: Operable Unit.
- X. "Person": Any state or local government agency, private corporation, firm, partnership, individual, group of individuals, organization, association, or to the extent authorized by law, any federal agency.
- Y. "Predictive Particle Tracking" means the use of the Groundwater Model, with the inhibitor wells operating at Design Rate under the SOW, over a representative hydrologic cycle, including representative wet and dry periods for the Bunker Hill Basin, to determine the percentage of particle capture achieved at all times over the life of the proposed project, including any applicable Mitigation Measures or Project Re-Design, with the proposed project operating at full permitted capacity for the entire permit term.
- Z. "Project Re-Design" means verifiable and enforceable changes in the physical design, equipment, or location or volume of a proposed water spreading (artificial recharge) or new or reconstructed well project intended to reduce or eliminate Adverse Effects forecast for a project evaluated with Predictive Particle Tracking.
- AA. "RI": The Remedial Investigations performed at the Site for the Newmark Operable Unit and the Muscoy Operable Unit.
- BB. "Record of Decision" or "ROD": The Record of Decision for the Newmark Operable Unit signed August 4, 1993 and the Record of Decision for the Muscoy Operable Unit signed March 24, 1995 setting forth the provisions of the Interim Remedy to be implemented in addressing the contamination identified in RI/FS.
- CC. "Remedy" or "Interim Remedy": The course of action set forth in the RODs, Statement of Work (SOW), and Consent Decree (CD) relating to the operation and maintenance of the remedial action specified in said documents.
- DD. "SBMWD": The San Bernardino Municipal Water Department.
- EE. "Site": The Newmark Groundwater Contamination site identified in 40 CFR Part 3rd Appendix B, published in the Federal Register on March 3 1, 1989, 54 Fed. Reg. 13296, 13301.
- FF "Spreading Basin": Areas, facilities and portions of land set aside for the deposit of water with the intent to allow the water to percolate into the groundwater basin, as depicted on Exhibit "C", attached hereto and incorporated by this reference and on file in the office of the General Manager of SBMWD.

[\[Return to Municipal Code Contents\]](#)

- GG. "Statement of Work" (SOW): The document incorporated into the Consent Decree, referenced in Section 13.25.015 H., setting forth the implementation of the remedial action to be performed by SBMWD, EPA and DTSC relating to the Newmark OU and Muscoy OU.
- HH. "Well" or "water well" means any artificial excavation constructed by any method for the purpose of extracting water from, or injecting water into the ground. This definition shall not include:
1. Oil or gas wells, or geothermal wells constructed under the jurisdiction of the California State Department of Conservation, except those wells converted to use as water wells; or
 2. Wells used for the purpose of:
 - a. Dewatering excavation during construction, or
 - b. Stabilizing hillsides or earth embankments.

13.25.025 Permits

- A. Spreading. Unless a permit issued by SBMWD pursuant to this Chapter is first obtained, it shall be unlawful for any person, as principal, agent or employee, to spread water (artificial recharge) within the Management Zone.
- B. Groundwater Extraction. Unless a permit issued by SBMWD pursuant to this Chapter is first obtained, it shall be unlawful for any person to develop, dig, or drill a new well, or to reconstruct an existing well in a manner to increase its maximum capacity over its maximum capacity on March 23, 2005, or the most recent operation if the well was inoperable on March 23, 2005, or to allow the development, digging, drilling, or reconstruction of any well on land located within the Management Zone.
- C. Application for Permit. An application for a permit shall be filed by the landowner or Applicant with the SBMWD on a form provided by SBMWD. Applicant has an affirmative duty to provide accurate representations of all material facts in the application.

- D. Contents of Application for Permit for Extraction. The contents of the Application for Permit for Extraction shall include, as a minimum, all of the items set forth in Section 13.24.250 and the elevations of proposed screening intervals, and such other information as SBMWD determines necessary and appropriate to evaluate the application and assure that the proposed extraction will not interfere with, compromise, endanger or detrimentally or Adversely Affect the Interim Remedy or otherwise cause or contribute to the movement of contaminants to areas downgradient of the Inhibitor Wells, or increase the likelihood that contaminants will migrate past or around these wells, or interfere with or Adversely Affect the Interim Remedy.
- E. Contents of Application for Permit for Spreading. The contents of the Application for Permit for Spreading shall include, as a minimum, the name of the person proposing to conduct the spreading, the time period over which the spreading is proposed to occur, the volume, location and such other information as SBMWD may determine necessary and appropriate to evaluate the application and assure the proposed spreading will not interfere with, compromise, endanger or detrimentally affect the Interim Remedy or otherwise cause or contribute to the movement of contaminants to areas downgradient of the Inhibitor Wells.
- F. Fees. SBMWD may levy a fee for review of the Application for Permit and monitoring of compliance with the permit. The fee shall be established by resolution of the SBMWD Board of Water Commissioners.
- G. Exemption from Permit and Related Requirements for Institutional Controls Groundwater Management Program (ICGMP) Members. By agreement effective

January 1, 2005, a number of local water agencies have entered into the agreement entitled Agreement to Develop and Adopt an Institutional Controls Groundwater Management Program. That program currently provides for short-term restrictions on production and spreading to protect the Interim Remedy while a long-term agreement is negotiated. The long-term agreement will be as protective of the Interim Remedy as this Chapter, and projects which are subject to the ICGMP or successors to that Agreement will be reviewed and approved by the ICGMP Parties pursuant to those agreements. As long as a party proposing to construct or reconstruct a well or to spread water for artificial recharge is a member in good standing of the ICGMP under the agreement effective January 1, 2005, or successors to that Agreement, that Party's project(s) will be exempt from the provisions of this Ordinance and will be reviewed and approved pursuant to the ICGMP or successors to that Agreement rather than this Ordinance. Compliance with ICGMP requirements shall be deemed to be full compliance with this Chapter. Non-compliance with ICGMP requirements shall be addressed pursuant to remedies provided for in the ICGMP Agreement or successors to it. In the event the ICGMP expires or lapses while this Chapter is in force, or a Party with an approved spreading or well project withdraws from the ICGMP, any Mitigation Measures, Project Re-Design measures, access and monitoring requirements, and parallel undertakings imposed or agreed to by the Party under the ICGMP shall become fully enforceable by the City under this Chapter.

H. Review of Application.

1. The review process of the application will commence when SBMWD determines it has received from the Applicant all documents and necessary information to commence its review.
2. Subject to timely participation by EPA and DTSC, SBMWD shall endeavor to complete the review within One Hundred Twenty (120) days from Notice by SBMWD to Applicant that the application is deemed complete.
3. The completed application shall be subject to review and comment by the EPA and DTSC. SBMWD shall provide to EPA and DTSC a copy of its proposed decision, after which EPA and DTSC, pursuant to the Consent Decree, shall have a minimum of thirty (30) days to comment on the proposed decision. If either EPA or DTSC object in writing to the permit application, proposed decision or modeling work on which a proposed permit decision is based, the SBMWD, EPA and DTSC, shall consult for up to sixty (60) days in order to resolve any material differences among them over such matters. Consistent with the Consent Decree, the SBMWD shall not issue a permit over the unresolved objections of either EPA or DTSC.

4. Except as provided below, Applications shall be evaluated using the Predictive Particle Tracking in order to determine if there is an Adverse Effect. Once approved by EPA, the Groundwater Model will be used for Predictive Particle Tracking, to forecast particle capture through a hydrologic cycle reasonably representative of long-term hydrology lasting for at least the proposed permit term, which hydrologic cycle shall include a wet cycle and a dry cycle, based on historic hydrologic data for similar periods, and which shall assume that the Inhibitor Wells are operated at Design Rates. Mitigation Measures and any Project Re-Design are to be evaluated using the same method. No proposed well construction or reconstruction, or future spreading operation, shall be approved if the project is forecast to have an Adverse Effect unless such Adverse Effect is eliminated through readily enforceable Mitigation Measures or Project Re-Design.
- I. Permit Applications for Extraction Wells in Plume Areas and for Irrigation Use on Overlying Land.
 1. Applications to drill in the areas shown on the attached map, Exhibit C to this Chapter, are strongly encouraged. The boundaries of these areas correspond to the City's estimates of areas within the Newmark and Muscoy contaminant plumes where extraction and treatment of water from these areas will slow the spread of contaminants.
 2. For wells proposed in the designated areas shown in the map, the Applicant and the City may use a streamlined modeling process, to be developed by the City, to model the projected hydraulic impacts of the proposed extraction well in the proposed location upon the operations of the inhibitor wells. Such application shall clearly demonstrate that:
 - a. the well will conform to standards for structural integrity;
 - b. the water it produces will be properly treated; and
 - c. the well is screened at a depth and in such a manner that its construction and operation will not cause the migration of contaminants between different confined intervals of the aquifer.
 3. The City shall set the permit term for such wells in the designated areas for not less than 15 years, with the option, in the City's discretion, to set the permit term for up to 30 years.
 4. Wells used by overlying landowners solely for non-potable irrigation or solely for sand and gravel operations on such land, may be replaced on the same

[\[Return to Municipal Code Contents\]](#)

parcel without a permit under this Chapter provided that no such overlying landowner shall extract more than 250 acre feet per year from the same or contiguous parcels without a permit issued pursuant to this Chapter.

5. The City recognizes that the wells listed in Exhibit D by Assessor Parcel Number (APN) have been used by the overlying landowners solely for non-potable irrigation on such land. These landowners may replace these wells on these properties without making the modeling demonstration required by this Chapter provided that such Applications clearly demonstrate that:
 - a. The water it produces will continue to be used only for non-potable irrigation or sand and gravel operations on the land, or contiguous parcels of the same landowner, where the well is located;
 - b. the well is constructed and screened in such a manner that it will not cause migration of contaminants between different confined intervals of the aquifer, provided, however, that if the replacement well is screened in substantially the same interval as the well it replaces, the replacement well shall be entitled to a rebuttable presumption of compliance with this condition; and
 - c. that extractions shall not increase by more than 25% over the maximum annual production and extraction rates for the last ten years, as shown by contemporaneous documentary evidence or by an Edison Pump Test and review of electrical consumption.

13.25.035 Approval of Permits

- A. Standard of Review. Except as provided above, a permit may be granted for a period of up to fifteen (15) years with or without conditions under the provisions of this chapter only if the Applicant demonstrates that the proposed extraction or spreading and method of operation is not forecast to cause an Adverse Effect when evaluated using the Predictive Particle Tracking, and will not interfere with, compromise, endanger or detrimentally affect the Interim Remedy, or cause the City to be in potential violation or non-conformance with the SOW, Consent Decree or RODs, or EPA or DTSC approved plans adopted thereunder.

1. Prior to the completion of an updated Groundwater Model the Applicant shall bear the burden of demonstrating through the use of engineering and other satisfactory scientific data that the proposed extraction or spreading will not cause an Adverse Effect and will not interfere with, compromise, endanger or detrimentally affect the Interim Remedy.
2. After an updated Model has been completed, the Applicant shall bear the burden of demonstrating through the use of the Predictive Particle Tracking and other satisfactory scientific evidence that the proposed extraction or spreading is not forecast to cause an Adverse Effect, and will not interfere with, compromise, endanger or detrimentally affect the Interim Remedy.

B. Conditions of Approval.

1. In the event the application is approved, EPA, DTSC and SBMWD shall have the right to condition approval upon Mitigation Measures, Project Re-Design, or other remedial activities to be performed by Applicant. EPA, DTSC or SBMWD may require Applicant to prepare a mitigation or remedial plan subject to approval by EPA, DTSC and SBMWD prior to issuance of the permit.
2. If Mitigation Measures, Project Re-Design, or remedial activities are required as a condition of the issuance of a permit, SBMWD may require Applicant to post a bond of sufficient value to assure compliance with the mitigation or remedial activities.
3. Upon approval of the application, with or without Mitigation Measures, Project Re-Design, or remedial activities, and after the posting of a bond, if required, SBMWD shall issue a permit.
4. The approval and issuance of a permit shall be subject at all times to the monitoring of Applicant's activities and suspension or revocation of the permit if it is determined by SBMWD, EPA or DTSC that Applicant's activities interfere with, compromise, endanger or detrimentally affect the Interim Remedy.
5. The issuance of a permit shall be conditioned on the grant to EPA, DTSC and the City, including SBMWD, their contractors and representatives, of access to the wells or spreading basins or related areas for the purpose of verifying compliance with the permit, and upon reasonable notice to inspect and copy documents and records of Applicant's operations of the permitted facilities.
6. Misrepresentation or failure to disclose material facts in the application shall be grounds for denial of the application.

7. The approval and issuance of a permit shall be conditioned upon Applicant indemnifying, defending, and holding City and SBMWD harmless from any and all claims, causes of action, injury to person or property and enforcement proceedings arising from or related to the Application for Permit, property subject to the permit, work to be undertaken relating to the permitted property,

including work not the subject of the permit or any other matter related to the permit or granting of the permit, including but not limited to any costs incurred by SBMWD or City from any contest to the issuance of the permit.

- C. Denial of Application. SBMWD shall deny the application if it determines that the standards of this Chapter have not been attained or if either SBMWD, EPA or DTSC determines that the proposed project is forecast to cause an Adverse Effect which is not eliminated by Mitigation Measures or Project Re-Design or will interfere with or adversely affect the integrity of the Newmark and Muscoy extraction and treatment systems, or will increase the likelihood that contaminants will migrate past or around the barrier walls that are part of those systems or will otherwise interfere with the performance of the Interim Remedial Actions, or cause the City to be in potential violation or non-conformance with the SOW, Consent Decree or RODs, or any plan approved by EPA or DTSC in order to implement those documents. SBMWD shall provide to Applicant a copy of the written objections made together with any additional written statement of reasons by EPA, DTSC and/or SBMWD for disapproval of the permit. An Applicant denied a permit may appeal the decision pursuant to Section 13.25.060.

13.25.040 Reporting

- A. Reporting by Applicants. A condition of each and every permit shall be the requirement that the Applicant provide, at least quarterly, regular written reports to SBMWD of water levels, chemistry and other information affecting water quality deemed appropriate by SBMWD. The SBMWD may specify forms for such reports and such forms shall be used by Applicant to comply with the provisions of this section. Such reports shall require Applicant to perform monitoring, sampling and record keeping of any wells that are the subject of the permit, including the amount, rate and timing of extraction or spreading and the quality of water being extracted or spread, including, but not limited to, concentrations of perchloroethylene (PCE), Trichloroethylene (TCE), Freon and other water quality related concentrations. specified by SBMWD. Upon receipt of any report requested or required by this chapter, SBMWD may require a follow-up report of additional data and/or information. Applicant shall keep records of all activities relating to the operation of wells and/or spreading activities, including all sampling results and flow data. Such records shall be available for inspection and copying by SBMWD, EPA and DTSC upon forty-eight (48) hours notice. These records shall be maintained for a period of not less than five (5) years. The period for retention of records shall automatically be extended for any period of litigation between SBMWD, the City of San Bernardino, EPA and/or DTSC and Applicant.

- B. Reporting by Non-Applicants. Every person, except Parties to the ICGMP described in section 13.25.025(G) above, spreading or extracting more than 250 acre-feet in any month shall report the amount of such spreading or extraction to the City within ninety (90) days of the close of the calendar year quarter in which such spreading or extraction occurred. Said report shall be submitted under penalty of perjury. The SBMWD may specify forms for such reports and such reports shall be used to comply with the provisions of this section.

13.25.045 Revocation and Emergency Powers

- A. If there is an immediate and serious threat to the Interim Remedy, and its performance in accordance with the SOW, Consent Decree or RODs, and if SBMWD believes it may be due in whole or in part to Applicant's operations, SBMWD may order Applicant to cease or reduce its operations and show cause why the permit should not be revoked, modified or restricted.

- B. In addition to the provisions set forth above, the permit may be revoked upon the determination of the SBMWD General Manager of any of the following:
 - 1. Misrepresentation or failure to disclose material facts in the application.

2. Falsifying or making misrepresentations on any reports submitted to SBMWD, whether as part of the application, as a condition of the permit or as submitted voluntarily by the Applicant.
 3. Tampering with monitoring equipment subject to the permit.
 4. Refusing or obstructing SBMWD or its designee, or EPA or DTSC, or their designees' timely access to the permitted sites and operations, and records of those operations.
 5. Failure to pay fines.
 6. Failure to meet compliance schedules.
 7. Failure to comply with conditions of approval.
 8. Failure to file timely reports or to respond to requests for reports, sampling data, monitoring activities or cooperation with the Interim Remedy for the Newmark Superfund Site.
- C. In the event the activities of the Applicant, or Applicant's agents, contractors, licensees, lessees or employees are deemed by SBMWD to interfere with or adversely affect the integrity of the Newmark and Muscoy extraction and treatment systems, or will increase the likelihood that contaminants will migrate past or around the barrier wells that are part of those systems or will otherwise interfere with the performance of the Interim Remedy, SBMWD may revoke or suspend the permit and compel Applicant to cease all activities covered by the permit until either a hearing is held before the Board of Water Commissioners pursuant to Section 13.025.060 below for Applicant to demonstrate why the permit should not be modified or revoked, or Applicant and the General Manager reach a mutually acceptable resolution. In all other circumstances, Applicant shall be advised in writing of any noncompliance with the permit or other condition that may warrant a modification of permit conditions or revocation of the permit, and Applicant shall be afforded the opportunity for a hearing before the Board of Water Commissioners pursuant to the provisions of Section 13.25.060, below, to present any evidence as to why the permit should not be modified or revoked.

13.25.047 Interference by Existing Wells with Consent Decree or SOW

In the event an existing well, not subject to the Permit requirements of this Chapter, is operated in a manner which materially interferes with the City's compliance with the provisions of the Consent Decree or SOW, or requires an increase in operating rates above Design Rate in order to maintain compliance with the requirements of the Consent

[\[Return to Municipal Code Contents\]](#)

Decree or SOW, the City may halt, abate, or reduce such activities by injunction from the San Bernardino County Superior Court, or by the United States District Court for the Central District of California, acting pursuant to the U.S. District Court's retention of jurisdiction over Institutional Controls in paragraph 1.b, page 11, lines 6-19 of the Consent Decree. This provision is in addition to, and not in derogation of, the City's other statutory, equitable, and common law remedies.

13.25.050 Consent Orders

The SBMWD may enter into consent orders, assurances of voluntary compliance, or similar arrangements establishing an agreement with any person responsible for non-compliance with the provisions of this Chapter. Such arrangements will include specific action to be taken by the person to correct any non-compliance and shall be enforceable in a court of competent jurisdiction.

13.25.055. Cease and Desist Orders

If SBMWD finds that a person has violated any provision of this Chapter, or a permit, or the person's activities pose an immediate and serious threat to the Interim Remedy, and that it is likely the person will continue with such violation or detrimental activities, SBMWD may issue an administrative order directing such person immediately to cease and desist from such conduct and to take all actions necessary to comply fully with the order. If the person fails immediately to comply with such an administrative order, that person shall be subject to criminal and civil liability in addition to whatever civil liability the person may have been subject to as a result of the conduct that prompted the issuance of the cease and desist order.

13.25.060 Hearing Procedures and Appeals

- A. In the event SBMWD denies an application, imposes or materially modifies a condition of approval that is/are unacceptable to Applicant, or suspends or revokes a permit, an appeal may be commenced by Applicant.
- B. All appeals must be filed in the office of the SBMWD General Manager within fifteen (15) days of any denial, approval with conditions, suspension or revocation. The Appeal filed with SBMWD shall include the name of the Applicant, name, address and telephone number of the person representing applicant, Assessor's Parcel Number (APN) or other description of property involved, any identifying case number or application number issued by SBMWD; the basis for the appeal, the date and signature of the Applicant.

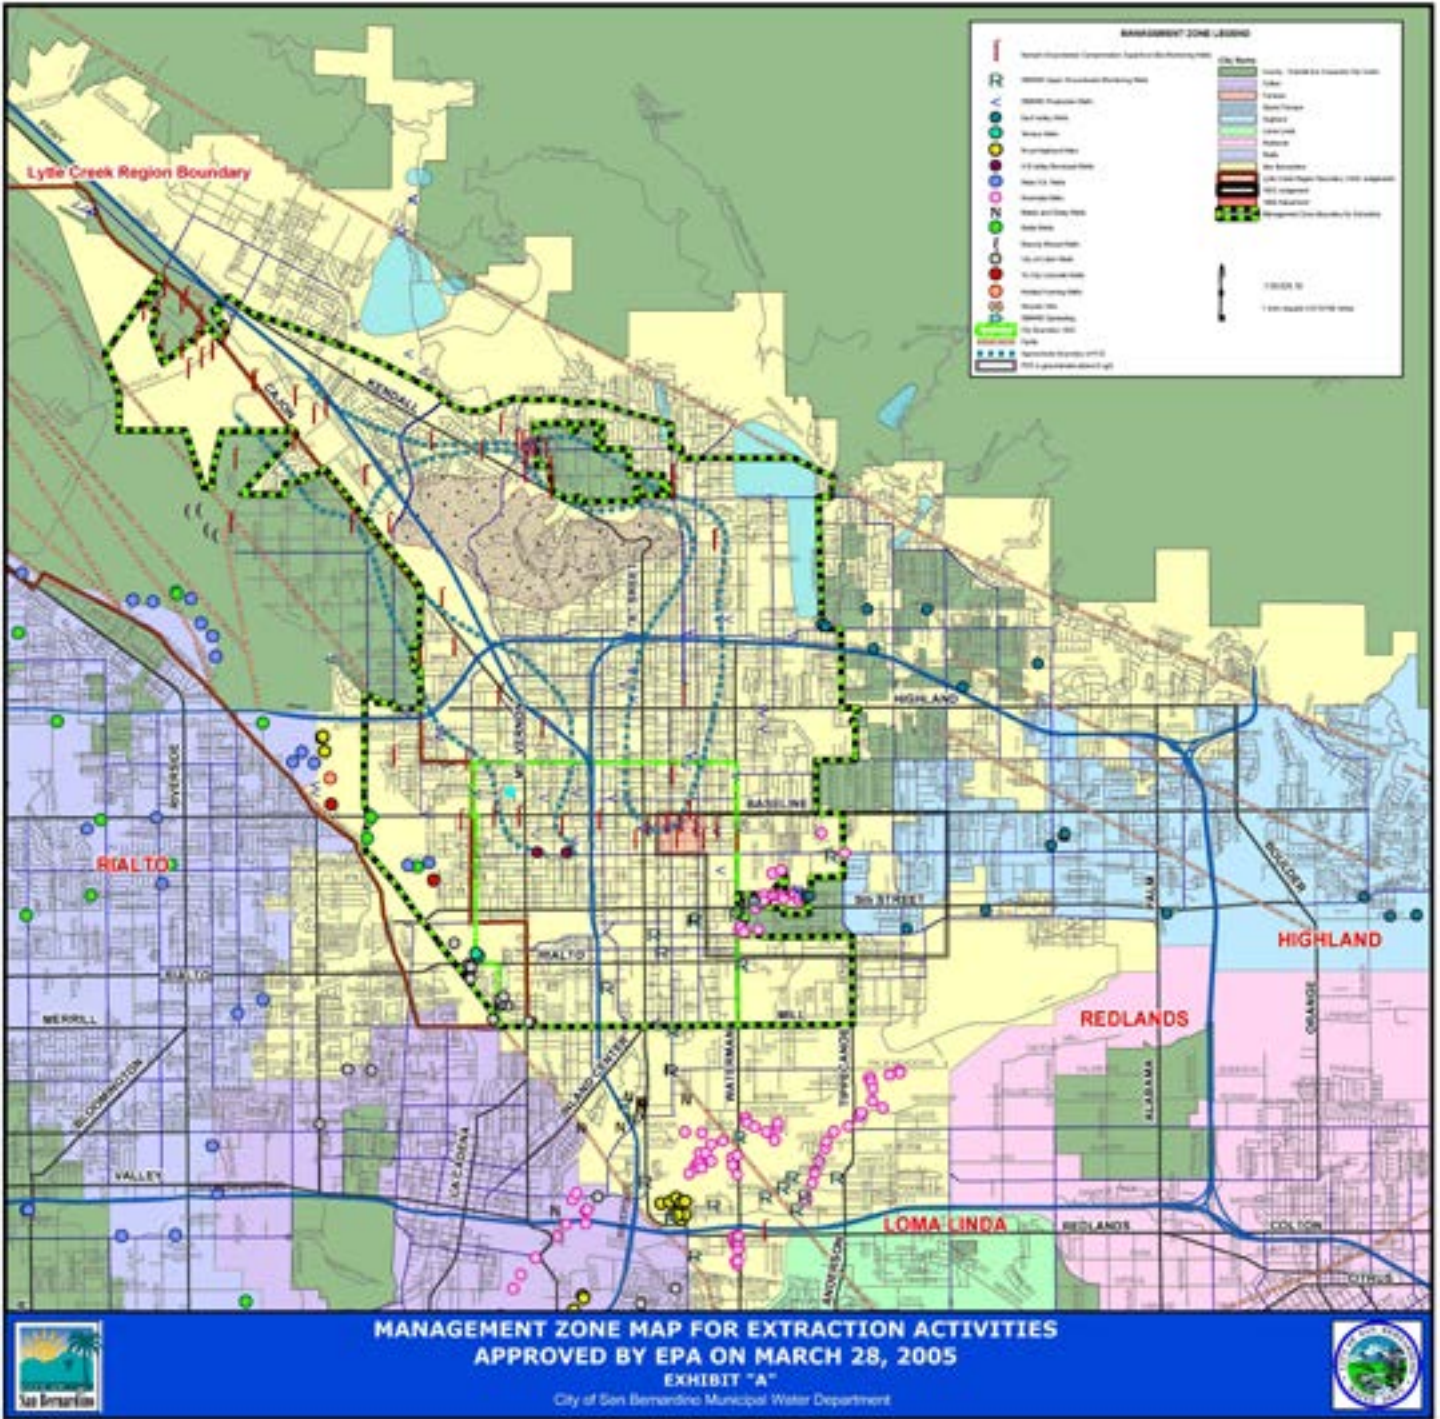

[\[Return to Municipal Code Contents\]](#)

- C. All appeals shall be heard by the SBMWD Board of Water Commissioners during their regular meetings. The burden of proof at such hearing shall be upon the Applicant. Following the hearing the Board of Water Commissioners shall issue its decision. Said decision shall be deemed a final administrative decision. Upon rendition of any adjudicatory administrative decision by the SBMWD Board of Water Commissioners, notice shall be given to the parties that the time within which judicial review must be sought is governed by the provisions of Section 1094.6 of the California Code of Civil Procedure.
- D. Any issue relating to the Consent Decree or SOW may, at the discretion of the SBMWD, be adjudicated in the United States District Court for the Central District of California, including the right of the SBMWD to remove any action initially brought in a California trial court.

13.25.070 Violations, Remedies and Penalties

- A. Any person violating any provision of this chapter or any condition of a permit shall be guilty of a misdemeanor, punishable by a fine not exceeding \$1,000.00 per violation, and/or by imprisonment not exceeding six months for each violation. Each day a violation occurs may be deemed a separate violation.
- B. Notwithstanding anything to the contrary contained herein, and in addition to any other penalties, fines or other action, the SBMWD Board of Water Commissioners may order the payment of damages and civil penalties not to exceed \$10,000.00 per day and actual damages for any violation of any provision of this chapter. Said penalties shall be deemed to be civil penalties and may be imposed in addition to any criminal penalties.
- C. In the event of any violation of any provision of this chapter, and in addition to any other remedies, at the sole and exclusive discretion of SBMWD, the permit may be revoked.
- D. A violation of any provision of this ordinance or any permit provision or condition shall be deemed to be a public nuisance.

Chapter 13.28
**COLLECTION OF DELINQUENT WATER, RUBBISH,
SEWER OR OTHER MUNICIPAL UTILITY CHARGES**

Sections:

- 13.28.010 Collection of water, sanitation, sewer or other utility charges pursuant to State statute**
- 13.28.020 Definitions**
- 13.28.025 Notice of Delinquent Utility Accounts**
- 13.28.030 Description of parcel receiving services to be filed with City Clerk**
- 13.28.040 Notice of filing of reports - Hearing**
- 13.28.050 Hearing for objections and protests**
- 13.28.060 Revision of charges or overrule of objections - Notice of pendency of administrative action**
- 13.28.070 Filing of report with County Auditor**
- 13.28.080 Charges constitute lien against lot or parcel of land**
- 13.28.090 Inclusion of amount of charges on bills for taxes**
- 13.28.100 Collection of charges**
- 13.28.110 Application of laws to levy, collection and enforcement of general taxes**
- 13.28.120 Issuance of separate bills**

13.28.010 Collection of water, sanitation, sewer or other utility charges pursuant to State statute

- (A) The City hereby elects to avail itself of the provisions of Article 4 of Chapter 6 of Part 3 of Division 5 of the California Health and Safety Code, Section 5470, et seq., which set forth an alternative method of collecting charges for services and facilities furnished in connection with sanitation, sewerage, or any other utility, whereby the same are collected by the county tax collector.
- (B) This Chapter shall be effective from the date of its adoption for a period of fifty (50) years, including amendments thereto during that time.
- (C) With respect to any individual account, and without prior notice thereof, the City may elect to forego the provisions of this Chapter and to pursue collection of delinquent charges in any other manner permitted by law. The Integrated Waste Management Division of the Public Works Department shall develop policies and procedures regarding the collection of delinquent charges.

[Return to Municipal Code Contents]

- (D) In addition to any remedy contained herein, the City and the San Bernardino Municipal Water Department are hereby authorized to discontinue all utility services and provide notice to the property owners's forty-one (41) days after the payment was due.

(Ord. MC-1335, 10-04-10; Ord. MC-229, 12-21-82; Ord. 3533, 10-28-75)

13.28.020 Definition

- (A) "Delinquent Charges" for the purposes of this chapter means those charges for services, equipment or facilities which remain unpaid after the date due.
- (B) "Sanitation" for the purposes of this Chapter means refuse services, including but not limited to, residential, commercial, recycling or roll-off services, for the removal or recycling of rubbish, garbage, by-products and like matter.

(Ord. MC-1335, 10-04-10; Ord. MC-229, 12-21-82; Ord. 3533, 10-28-75)

13.28.025 Notice of Delinquent Utility Accounts

- (A) Any person or entity who receives water, sanitation, storm drainage, or sewerage services whose account has delinquent charges for services shall be mailed a notice of the delinquent charges.
- (B) The City Manager, or his or her designee, shall notify the assessed owner shown on the latest equalized tax assessor's roll whenever delinquent and unpaid charges for services which may become a lien on real property in the manner set forth in the is chapter, remain delinquent and unpaid for sixty (60) days. The notice so provided shall notify the assessed owner of the delinquent charges and the lien provided by this Chapter.

(Ord. MC-1335, 10-04-10)

13.28.030 Description of parcel receiving services to be filed with City Clerk

The City Manager, or his or her designee, shall cause to be prepared a written report which shall be filed with the City Clerk. Said report shall contain a description of each parcel of real property receiving such water, sanitation, sewer or other utility services and the amount of the delinquent charges for each parcel computed in conformity with charges prescribed by resolution of the Mayor and Common Council or pursuant to the rules and regulations of the board of water Commissioners. The real property may be described by reference to maps prepared in accordance with California Revenue and Taxation Code,

[Return to Municipal Code Contents]

Section 327, and on file in the Office of the County Assessor or by reference to plats or maps on file in the Office of the City Clerk.

(Ord. MC-1335, 10-04-10; Ord. MC-229, 12-21-82; Ord. 3533, 10-28-75)

13.28.040 Notice of filing of report - Hearing

- A. The City Clerk shall cause notice of the filing of said report, and of a time and place of hearing thereon, to be published pursuant to California Government Code Section 6066 prior to the date set for hearing in a newspaper of general circulation printed and published within the City.
- B. The City Clerk shall cause a notice in writing of the filing of the report proposing to have such charges collected on the tax roll and of the time and place of hearing thereon, to be mailed to each person to whom any parcel or parcels of real property described in the report is assessed in the last equalized assessment roll available on the date the report is prepared, at the address shown on the assessment roll or as known to the Clerk. If the Mayor and Common Council adopt the report, then the requirements for notice in writing to the persons to whom parcels of real property are assessed shall not apply to hearings on reports prepared in subsequent fiscal years but notice by publication as herein provided shall be adequate.

(Ord. 3533, 10-28-75)

13.28.050 Hearing for objections and protests

At the time stated in the notice, the Mayor and Common Council shall hear and consider all objections or protests, if any, to the report referred to in the notice and may continue the hearing from time to time. If the Mayor and Common Council find that protest is made by the owners of a majority of separate parcels of property described in the report, then the report shall not be adopted and the charges shall be collected separately from the tax roll and shall not constitute a lien against any parcel or parcels of land.

(Ord. 3533, 10-28-75)

13.28.060 Revision of charges or overrule of objections - Notice of pendency of administrative action

- A. Upon the conclusion of the hearing, the Mayor and Common Council may adopt, revise, change, reduce or modify any charge or overrule any or all objections and shall make its determination upon each charge as described in the report, which determination shall be final.

[Return to Municipal Code Contents]

- B. The City Administrator may file a notice of pendency of administrative action with the County Recorder for any parcel or parcels of real property against which any water, sanitation, sewer or other utility charge is found to be delinquent hereunder by the Mayor and Common Council.

(Ord. MC-229, 12-21-82; Ord. 3533, 10-28-75)

13.28.070 Filing of report with County Auditor

On or before the tenth day of August of each year following such final determination, the Clerk shall file with the County Auditor a copy of the report with a statement endorsed thereon over his signature that it has been finally adopted by the Mayor and Common Council, and the County Auditor shall enter the amounts of the charges against the respective lots or parcels of land as they appear on the current assessment roll. Where any such parcels are outside the boundaries of the City, they shall be added to the assessment roll of the City for the purpose of collecting such charges. If the property is not described on the roll, the auditor may enter the description thereon together with the amounts of the charges, as shown on the report.

(Ord. 3533, 10-28-75)

13.28.080 Charges constitute lien against lot or parcel of land

The amount of the charges shall constitute a lien against the lot or parcel of land against which the charge has been imposed as of noon the first Monday in March immediately preceding the date of levy, except as hereinafter provided.

(Ord. 3533, 10-28-75)

13.28.090 Inclusion of amount of charges on bills for taxes

The County Tax Collector shall include the amount of the charges on bills for taxes against the respective lot and parcels of land.

(Ord. 3533, 10-28-75)

13.28.100 Collection of charges

Thereafter, the amount of the charges shall be collected at the same time and in the same manner and by the same persons as, together with and not separately from, the general taxes of the City, and shall be delinquent at the same time and thereafter be subject to the same delinquency penalties.

(Ord. 3533, 10-28-75)

[\[Return to Municipal Code Contents\]](#)

13.28.110 Application of laws to levy, collection and enforcement of general taxes

All laws applicable to the levy, collection and enforcement of general taxes of the entity, including, but not limited to, those pertaining to the matters of delinquency, correction, cancellation, refund and redemptions are applicable to such charges, except that if any real property to which such charges relate has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attached thereon prior to the date on which the first installment of such taxes would become delinquent, then the lien which would otherwise be imposed by Section 13.28.080 shall not attach to such real property, and the charges relating to such property shall be transferred to the unsecured roll of collection.

(Ord. 3533, 10-28-75)

13.28.120 Issuance of separate bills

The Tax Collector may, in his discretion, issue separate bills for such charges and separate receipts for collection on account of such charges. The county shall be compensated for services rendered in connection with the levy, collection and enforcement of such charges in an amount to be fixed by agreement between the Board of Supervisors of San Bernardino County and the Mayor and Common Council of the City. In any event, the compensation shall not exceed five dollars for each account handled, or one percent of all money collected, whichever is greater. The compensation shall be paid into the county salary fund.

(Ord. 3533, 10-28-75)

Chapter 13.32 WASTEWATER FACILITIES

In accordance with Section 603 of the City Charter, the Water Board shall be responsible for oversight and management of the City's wastewater collection and treatment systems, including the regulation of wastewater facilities. Any rules or regulations promulgated by the Water Board in connection with its powers under Section 603 of the City Charter may be enforced as laws of the City in accordance with Chapter 2.28 of this Municipal Code.

Chapter 13.36 UNDERGROUND UTILITIES²

Sections:

- 13.36.010 Definitions
- 13.36.020 Public Hearing by Council
- 13.36.030 Council may designate underground utility districts by resolution
- 13.36.040 Unlawful acts
- 13.36.050 Exception, emergency or unusual circumstances
- 13.36.060 Other exceptions
- 13.36.070 Notice to property owners and utility companies
- 13.36.080 Responsibility of utility companies
- 13.36.090 Responsibility of property owners
- 13.36.100 Responsibility of City
- 13.36.110 Extension of time
- 13.36.120 Violation - Penalty

13.36.010 Definitions

Whenever in this Chapter the words or phrases hereinafter in this section defined are used, they shall have the respective meanings assigned to them in the following definitions:

- A. "Commission" means the Public Utilities Commission of the state.
- B. "Person" means and includes individuals, firms, corporations, partnerships, and their agents and employees.
- C. "Poles, overhead wires and associated overhead structures" means poles, towers, supports, wires, conductors, guys, stubs, platforms, crossarms, braces, transformers, insulators, cutouts, switches, communication circuits, appliances, attachments and appurtenances located above ground within a district and used or useful in supplying electric, communication or similar or associated service.

²For statutory provisions on conversion of utilities' facilities to underground locations, see Str. and Hwys. Code §5896.1 et seq. and Gov. Code §38793; for provisions on telegraph and telephone poles, see Ch. 12.12 of this Code.

- D. "Underground utility district" or "districts" means that area in the City within which poles, overhead wires, and associated overhead structures are prohibited as such area is described in a resolution adopted pursuant to the provisions of Section 13.36.030.
- E. "Utility" includes all persons or entities supplying electric, communication or similar or associated service by means of electrical materials or devices.

(Ord. 2919, 7-02-68)

13.36.020 Public hearing by Council

The Mayor and Common Council, hereinafter called Council, may from time to time call public hearings to ascertain whether the public necessity, health, safety or welfare requires the removal of poles, overhead wires and associated overhead structures within designated areas of the City and the underground installation of wires and facilities for supplying electric, communication, or similar or associated service. The City Clerk shall notify all affected property owners as shown on the last equalized assessment roll and utilities concerned by mail of the time and place of such hearings at least ten days prior to the date thereof. Each such hearing shall be open to the public and may be continued from time to time. At each such hearing all persons interested shall be given an opportunity to be heard. The decision of the Council shall be final and conclusive.

(Ord. 2919, 7-02-68)

13.36.030 Council may designate underground utility districts by resolution

If, after any such public hearing, the Council finds that the public necessity, health, safety or welfare requires such removal and such underground installation within a designated area, the Council shall, by resolution, declare such designated area an underground utility district and order such removal and underground installation. Such resolution shall include a description of the area comprising such district and shall fix the time within which such removal and underground installation shall be accomplished and within which affected property owners must be ready to receive underground service. A reasonable time shall be allowed for such removal and under-ground installation, having due regard for the availability of labor, materials and equipment necessary for such removal and for the installation of such underground facilities as may be occasioned thereby.

(Ord. 2919, 7-02-68)

[\[Return to Municipal Code Contents\]](#)

13.36.040 Unlawful acts

Whenever the Council creates an underground utility district and orders the removal of poles, overhead wires and associated overhead structures therein as provided in Section 13.36.030, it is unlawful for any person or utility to erect, construct, place, keep, maintain, continue, employ or operate poles, overhead wires and associated overhead structures in the district after the date when the overhead facilities are required to be removed by such resolution, except as the overhead facilities may be required to furnish service to an owner or occupant of property prior to the performance by such owner or occupant of the underground work necessary for such owner or occupant to continue to receive utility service as provided in Section 13.36.090, and for such reasonable time required to remove the facilities after the work has been performed, and except as otherwise provided in this Chapter.

(Ord. 2919, 7-02-68)

13.36.050 Exception, emergency or unusual circumstances

Notwithstanding the provisions of this Chapter, overhead facilities may be installed and maintained for a period, not to exceed ten days, without authority of the Council in order to provide emergency service. The Council may grant special permission on such terms as the Council may deem appropriate in cases of unusual circumstances, without discrimination as to any person or utility, to erect, construct, install, maintain, use or operate poles, overhead wires and associated overhead structures.

(Ord. 2919, 7-02-68)

13.36.060 Other exceptions

In any resolution adopted pursuant to Section 13.36.030, the City may authorize any or all of the following exceptions:

- A. Any municipal facilities or equipment installed under the supervision and to the satisfaction of the City Engineer;
- B. Poles, or electroliers used exclusively for street lighting;
- C. Overhead wires (exclusive of supporting structures) crossing any portion of a district within which overhead wires have been prohibited, or connecting to buildings on the perimeter of a district, when such wires originate in an area from which poles, overhead wires and associated overhead structures are not prohibited;
- D. Poles, overhead wires and associated overhead structures used for the transmission of electric energy at nominal voltages in excess of 34,500 volts;

[Return to Municipal Code Contents]

- E. Overhead wires attached to the exterior surface of a building by means of a bracket or other fixture and extending from one location on the building to another location on the same building or to an adjacent building without crossing any public street;
- F. Antennas, associated equipment and supporting structures, used by a utility for furnishing communication services;
- G. Equipment appurtenant to underground facilities, such as surface-mounted transformers, pedestal mounted terminal boxes and meter cabinets, and concealed ducts;
- H. Temporary poles, overhead wires and associated overhead structures used or to be used in conjunction with construction projects.

(Ord. 2919, 7-02-68)

13.36.070 Notice to property owners and utility companies

- A. Within ten days after the effective date of a resolution adopted pursuant to Section 13.36.030, the City Clerk shall notify all affected utilities and all persons owning real property within the district created by the resolution of the adoption thereof. The City Clerk shall further notify such affected property owners of the necessity that, if they or any person occupying such property desire to continue to receive electric, communication, or similar or associated service, they or such occupant shall provide all necessary facility changes on their premises so as to receive such service from the lines of the supplying utility or utilities at a new location.
- B. Notification by the City Clerk shall be made by mailing a copy of the resolution adopted pursuant to Section 13.36.030, together with a copy of this Chapter, to affected property owners as such are shown on the last equalized assessment roll and to the affected utilities.

(Ord. 2919, 7-02-68)

13.36.080 Responsibility of utility companies

If underground construction is necessary to provide utility service within a district created by any resolution adopted pursuant to Section 13.36.030, the supplying utility shall furnish that portion of the conduits, conductors and associated equipment required to be furnished by it under its applicable rules, regulations and tariffs on file with the commission.

(Ord. 2919, 7-02-68)

[\[Return to Municipal Code Contents\]](#)

13.36.090 Responsibility of property owners

- A. Every person owning, operating, leasing, occupying or renting a building or structure within a district shall construct and provide that portion of the service connection on his property between the facilities referred to in Section 13.36.080 and the termination facility on or within the building or structure being served. If the above is not accomplished by any person within the time provided for in the resolution enacted pursuant to Section 13.36.030, the City Engineer shall give notice in writing to the owner thereof as shown on the last equalized assessment roll, to provide the required underground facilities within ten days after receipt of such notice.
- B. The notice to provide the required underground facilities may be given either by personal service or by mail. In case of service by mail on either of such persons, the notice must be deposited in the United States mail in a sealed envelope with postage prepaid, addressed to the person in possession of such premises at such premises, and the notice must be addressed to the owner thereof as such owner's name appears, and must be addressed to such owner's last known address as the same appears on the last equalized assessment roll, and when no address appears, to General Delivery, City of San Bernardino. If notice is given by mail, such notice shall be deemed to have been received by the person to whom it has been sent within forty eight hours after the mailing thereof. If notice is given by mail to either the owner or occupant of such premises, the City Engineer shall, within forty eight hours after the mailing thereof, cause a copy thereof, printed on a card not less than eight inches by ten inches in size, to be posted in a conspicuous place on the premises.
- C. The notice given by the City Engineer to provide the required underground facilities shall particularly specify what work is required to be done, and shall state that if the work is not completed within thirty days after receipt of such notice, the City Engineer will provide such required underground facilities, in which case the cost and expense thereof will be assessed against the property benefited and become a lien upon such property.
- D. If upon the expiration of the thirty-day period, the required underground facilities have not been provided, the City by order of the Mayor and upon issuance of a work order shall forthwith proceed to cause the work to be done; provided, however, if such premises are unoccupied and no electric or communications services are being furnished thereto, the City shall in lieu of providing the required underground facilities, have the authority to order the disconnection and removal of any and all overhead service wires and associated facilities supplying utility service to the property. Upon completion of the work, the City Engineer shall file a written report with the City Council setting forth the fact that the required underground facilities

[\[Return to Municipal Code Contents\]](#)

have been provided and the cost thereof, together with a legal description of the property against which such cost is to be assessed. The council shall thereupon fix a time and place for hearing protests against the assessment of the cost of such work upon such premises, which time shall not be less than ten days thereafter.

- E. The City Engineer shall forthwith, upon the time for hearing such protests having been fixed, give a notice in writing to the person in possession of such premises, and a notice in writing thereof to the owner thereof, in the manner hereinabove provided for the giving of the notice to provide the required underground facilities, of the time and place that the Council will pass upon such report and will hear protests against such assessment. Such notice shall also set forth the amount of the proposed assessment.
- F. Upon the date and hour set for the hearing of protests, the Council shall hear and consider the report and all protests, if there are any, and then proceed to affirm, modify or reject the assessment. G. If any assessment is not paid within five days after its confirmation by the Council, the amount of the assessment shall become a lien upon the property against which the assessment is made by the City Engineer, and the City Engineer is directed to turn over to the assessor and tax collector a notice of lien on each of the properties on which the assessment has not been paid, and the assessor and tax collector shall add the amount of the assessment to the next regular bill for taxes levied against the premises upon which the assessment was not paid. The assessment shall be due and payable at the same time as the property taxes are due and payable, and if not paid when due and payable, shall bear interest at the rate of six percent per year.

(Ord. 2919, 7-02-68)

13.36.100 Responsibility of City

- A. The City shall remove at its own expense all City-owned equipment from all poles required to be removed hereunder in ample time to enable the owner or user of such poles to remove the same within the time specified in the resolution enacted pursuant to Section 13.36.030.
- B. Notwithstanding the provisions of any other ordinance to the contrary, any fee required to be paid for a wiring permit is waived when the work is to be provided upon and in the private property of any property owner pursuant to the wiring permit by such property owner or his contractor in an approved underground utility district.

(Ord. 3217, 12-21-71; Ord. 2919, 7-02-68)

[Return to Municipal Code Contents]

13.36.110 Extension of time

In the event that any act required by this Chapter or by a resolution adopted pursuant to Section 13.36.030 cannot be performed within the time provided on account of shortage of materials, war, restraint by public authorities, strikes, labor disturbances, civil disobedience, or any other circumstances beyond the control of the actor, then the period within which such act will be accomplished shall be extended for a period equivalent to the time of such limitation.

(Ord. 2919, 7-02-68)

13.36.120 Violation - Penalty

It is unlawful for any person to violate any provision or to fail to comply with any requirement of this Chapter. Any person violating any provision of this Chapter or failing to comply with any of its requirements is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-460, 5-15-85; Ord. 2919, 7-02-68)

Title 14 FRANCHISES

Chapters:

- 14.04 **General Regulations**
- 14.08 **Cable, Video and Telecommunications Service Providers**

Chapter 14.04 GENERAL REGULATIONS

Sections:

- 14.04.010 **Franchise required when**
- 14.04.020 **Application**
- 14.04.030 **Granting of franchise - Conditions**
- 14.04.040 **Violation - Penalty**
- 14.04.050 **Operation after Franchise Expiration - Revocable License**

14.04.010 Franchise required when

It is unlawful for any person, firm or corporation to exercise any privilege or franchise to lay or maintain any pipes or conduits in or under any public street, or alley in the City, for the transmission of gas, water, heat, steam, or other substance or to exercise any franchise or privilege for the erection or maintenance, in or upon any public street or alley in the City, of any telephone, telegraph, electric light or power poles, wires, or system, or for the erection of any pole or wire for the purpose of transmitting electrical energy or current, without first having procured a franchise to do so unless such person, firm or corporation is entitled to do so by direct and unlimited authority of the Constitution of the state or the Constitution of the laws of the United States.

(Ord. 541, 11-10-1913)

14.04.020 Application

Any person desiring to procure a franchise for any of the purposes mentioned in Section 14.04.010 shall make application therefor in accordance with the procedural requirements set forth in the Franchise Act of 1937 (Public Utilities Code Section 6201 et seq.), and as amended.

(Ord. MC-1135, 12-18-02; Ord. 2162, 2-19-57; Ord. 541, 11-10-1913)

[\[Return to Municipal Code Contents\]](#)

14.04.030 Granting of franchise - Conditions

The Mayor and Common Council may grant a franchise, subject to any restrictions, terms, and conditions (including compensation), without limitation, that they deem to be in the best interests of the City. The Mayor and Common Council may refuse to grant a franchise, when in their opinion the granting of any such franchise will not be in the best interests of the City.

(Ord. MC-1135, 12-18-02; Ord. 541, 11-10-1913)

14.04.040 Violation - Penalty

Any person, firm or corporation exercising or attempting to exercise any franchise for any of the purposes mentioned in Section 14.04.010, or laying or maintaining any pipes or conduits in or upon any street in the City, for the transmission of gas, water, heat, steam or other substance, or erecting any telephone, telegraph or electric light or power poles, wires, or system, within the City in violation of any provision of this Chapter is guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code. In addition, any person, firm or corporation exercising or attempting to exercise any franchise for any of such purposes after a franchise or license (issued pursuant to Chapter 14.04) has expired shall be subject to a civil penalty of three (3) times the compensation required under the expired franchise or license prorated on a "per day" basis. Such civil penalty shall be in addition to any other terms and conditions set out in the franchise or license, and shall not, in any way, limit or otherwise restrict any other legal or equitable remedy available to City.

(Ord. MC-1135, 12-18-02; Ord. MC-460, 5-15-85; Ord. 541, 11-10-1913)

14.04.050 Operation after Franchise Expiration - Revocable License

If a franchise is to expire within sixty days according to the franchise terms, and a new franchise has been requested, but has not yet been granted, the franchisee may request the Mayor and Common Council to issue the franchisee a written revocable license, for a renewable term not to exceed one hundred-twenty (120) days from the expiration of the franchise, permitting the franchisee to continue to locate its existing facilities in or upon public property in the City during the term of the license. The Mayor and Common Council may issue such a revocable license, subject to any restrictions, terms, and conditions (including compensation), without limitation, that they deem to be in the best interests of the City. Nothing herein requires the Mayor and Common Council to grant such a revocable license, nor does the issuance of such a revocable license require that the Mayor and Common Council grant the franchisee a new franchise. Upon request of the franchisee, the City Clerk shall provide a revocable license application form.

(Ord. MC-1135, 12-18-02)

ARTICLE I. GENERAL PROVISIONS

14.08.01 Short Title

This chapter is known and may be cited as the "Cable, Video, and Telecommunications Service Providers Ordinance" of the City of San Bernardino.

14.08.02 Authority

This chapter is enacted by the City of San Bernardino pursuant to the Communications Act, the City's police powers under its Charter, its authority to control the use of the public rights-of-way within the City, and all other applicable laws.

14.08.03 Defined Terms and Phrases

Various terms and phrases used in this chapter are defined below in Section 14.08.26 of Article V.

[\[Return to Municipal Code Contents\]](#)

ARTICLE II. PROCEDURES FOR GRANTING, RENEWING, AND TRANSFERRING CABLE SYSTEMS FRANCHISES

14.08.04 Franchise Required

It is unlawful for any person to construct, install, maintain, or operate a cable television system within any street or public way in the City without first obtaining a franchise under the provisions of this Article II or, if applicable, under the provisions of the Digital Infrastructure and Video Competition Act of 2006; provided, however, that any cable operator authorized to provide cable service under a franchise granted by the City prior to the effective date of this chapter may continue to exercise that authority until the expiration or termination of that franchise.

14.08.05 City Grants of Cable Franchises

Subject to applicable law, the City may by ordinance or resolution grant a franchise to any person, whether or not operating under an existing franchise, or who elects to provide cable service pursuant to the provisions of this chapter. The franchise shall be subject to all ordinances and regulations of general application now in effect or subsequently enacted, including, without limitation, those related to encroachment permits, business licenses, zoning, and building.

14.08.06 Franchise Duration and Renewal

- A. The term of the franchise or of any franchise renewal shall be established in the franchise agreement.
- B. A franchise may be renewed by the City upon application of the Grantee pursuant to procedures established by the City, subject to applicable federal and state law. In the event the City does not establish such renewal procedures, the franchise renewal procedures set forth in federal law shall apply.

14.08.07 Limitations of Franchise

- A. A franchise granted under this chapter shall be nonexclusive.
- B. The grant of a franchise, right, or license to use public rights-of-way for purposes of providing cable service shall not be construed as a right or license to use such public rights-of-way for any other purpose.
- C. Any right or privilege claimed by a Grantee under a franchise in public rights-of-way or other public property shall be subordinate to any prior or subsequent lawful occupancy or use thereof, or easement therein, by the City or other governmental entity.

[\[Return to Municipal Code Contents\]](#)

- D. A franchise granted under this chapter shall not relieve a Grantee of any obligation to obtain pole space from any City department, utility company, or others maintaining poles in the public rights-of-way.

14.08.08 Rights Reserved to the City

- A. Subject to any restrictions that are mandated by state or federal law, neither the granting of any franchise nor any provisions of this chapter shall be construed to preclude the City from granting additional franchises.
- B. By its acceptance of a franchise, a Grantee agrees to comply with all lawful ordinances and regulations of general application now in effect or subsequently enacted; provided, however, that such ordinances and regulations shall not materially affect Grantee's rights or obligations under the franchise.
- C. Neither the granting of a franchise, nor any provisions of this chapter, shall constitute a waiver or bar to the City's lawful exercise of any governmental right or power.
- D. This chapter shall not be construed to impair or affect, in any way, the right of the City to acquire the Grantee's property through the exercise of the power of eminent domain, in accordance with applicable law.
- E. The Mayor and City Council may do all things necessary in the exercise of its jurisdiction under this chapter and may determine any question of fact that may arise during the term of any franchise granted under this chapter.
- F. Any right or power in, or duty imposed upon any officer, employee, department, or board of the City shall be subject to transfer by the City to any other officer, employee, department, or board of the City.

(Ord. MC-1484, 4-18-18)

14.08.09. Transfers and Assignments

- A. Grantee may not sell, transfer, lease, assign, sublet, or dispose of, in whole or in part, either by forced or involuntary sale, or by ordinary sale, contract, consolidation, or otherwise, the franchise or any of the rights or privileges therein granted, without the prior written consent of the Mayor and City Council. Any attempt to sell, transfer, lease, assign, or otherwise dispose of the franchise without the written consent of the Mayor and City Council is null and void. The granting of a security interest in any assets of the Grantee, or any mortgage or other hypothecation, will not be deemed a transfer for the purposes of this section.

[\[Return to Municipal Code Contents\]](#)

- B. The requirements of paragraph A of this section apply to any change in control of Grantee. The word "control" as used herein is not limited to the ownership of major stockholder or partnership interests, but includes actual working control in whatever manner exercised. If Grantee is a partnership or a corporation, prior authorization of the City is required where ownership or control of 25% or more of the partnership interests or of the voting stock of the corporation, or any company in the tier of companies controlling the Grantee, whether directly or indirectly, is acquired by a person or a group of persons acting in concert, none of whom, individually or collectively, owns or controls those partnership interests or that voting stock of the Grantee, or Grantee's upper tier of controlling companies, as of the effective date of the franchise.
- C. Unless precluded by federal law, Grantee must give prior written notice to the City of any proposed foreclosure or judicial sale of all or a substantial part of the Grantee's franchise property. That notification will be considered by the City as notice that a change in control of ownership of the franchise will take place, and the provisions of this section that require the prior written consent of the Mayor and City Council to that change in control of ownership will apply.
- D. For the purpose of determining whether it will consent to an acquisition, transfer, or change in control, the City may inquire about the qualifications of the prospective transferee or controlling party, and Grantee must assist the City in that inquiry. In seeking the City's consent to any change of ownership or control, Grantee or the proposed transferee, or both, must complete Federal Communications Commission Form 394 or its equivalent. This application must be submitted to the City not less than 120 days prior to the proposed date of transfer. The transferee must establish that it possesses the legal, financial, and technical capability to remedy all then-existing defaults and deficiencies, and during the remaining term of the franchise, to operate and maintain the cable system and to comply with all franchise requirements. If the legal, financial, and technical qualifications of the proposed transferee are determined to be satisfactory, then the City will consent to the transfer of the franchise.
- E. Any financial institution holding a pledge of Grantee's assets to secure the advance of money for the construction or operation of the franchise property has the right to notify the City that it, or a designee satisfactory to the City, will take control of and operate the cable television system upon Grantee's default in its financial obligations. Further, that financial institution must also submit a plan for such operation within 90 days after assuming control. The plan must ensure continued service and compliance with all franchise requirements during the period that the financial institution will exercise control over the system. The financial institution may not exercise control over the system for a period exceeding one year unless authorized by the City, in its sole discretion, and during that period it will have the right to petition the City to transfer the franchise to another Grantee.

[\[Return to Municipal Code Contents\]](#)

- F. Unless prohibited by applicable law, Grantee must reimburse the City for the City's reasonable review and processing expenses incurred in connection with any transfer or change in control of the franchise, as provided for in Section 14.08.15.

(Ord. MC-1484, 4-18-18)

14.08.10 Franchise Service Area; Annexations

- A. The franchise service area shall be established in the franchise agreement.
- B. Territory annexed to the City that is not within the service area of a franchised or licensed cable operator at the time of annexation may be included within the franchise service area of an incumbent cable operator, as determined by Mayor and City Council resolution.
- C. Territory annexed to the City that is included within the service area of a franchise or license issued by a local franchising authority other than the City is subject to the following provisions:
 - 1. If the franchisee or licensee has not commenced construction or installation of a cable system before the annexation becomes effective, then all rights acquired by a cable operator under that franchise or license will terminate by operation of law.
 - 2. If the franchisee or licensee has commenced construction or installation of a cable system before the annexation becomes effective, then that franchisee or licensee may continue to provide cable service to the annexed territory in accordance with the terms and conditions of the existing franchise or license, provided that all obligations thereunder, including the timely payment of franchise fees and PEG support fees, if any, shall be due and owing to the City by operation of law.

(Ord. MC-1484, 4-18-18)

14.08.11 Application for New Franchise; Contents

- A. An application for the grant of a new franchise may be submitted by any person pursuant to the requirements of this chapter and subject to the terms of the City's schedule of fees, as such schedule may from time to time be amended. The City may, by advertisement or any other means, solicit applications for a new franchise by issuing a request for proposals.

(Ord. MC-1484, 4-18-18)

[\[Return to Municipal Code Contents\]](#)

- B. An application for a new franchise to construct, install, operate, or maintain a cable system in the City shall be filed with the Finance Department and shall be on forms prescribed by the City. The City reserves the right to waive all application formalities where the City determines that the best interests of the City would be served by such waiver.

(Ord. MC-1484, 4-18-18)

- C. Unless waived in writing by the City, all applications for a franchise shall contain the following:

1. The name, address, and telephone number of the applicant.
2. A detailed statement concerning the applicant's business entity, including, but not limited to, the following:
 - a. The names and business addresses of all officers and directors.
 - b. The names and business addresses of all persons having an ownership interest of 5% or more in the applicant and the respective ownership interest of each such person.
 - c. The names and addresses of any parent or subsidiary of the applicant, namely, any other business entity owning or controlling applicant in whole or in part, or owned or controlled in whole or in part by the applicant, and a statement describing the business of any such parent or subsidiary, including but not limited to cable systems owned or controlled by the parent or subsidiary, and the geographic areas served.
- (3) A description of the applicant's previous experience in providing cable service or similar communications services.
- (4) A detailed financial statement of the applicant, certified by an independent certified public accountant, for the fiscal year preceding the date of the application. The City may require a statement from an independent certified public accountant, or a recognized lending institution, certifying that the applicant has sufficient financial resources available to construct and operate the proposed cable system in the City.
- (5) A detailed pro forma financial plan for the operation of the cable system during the term of the proposed franchise, in a format prescribed by the City.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 14 Contents\]](#)

- (6) A description of any cable system franchises awarded to the applicant, its parent or subsidiary, including the location and term of these franchises, the status of their completion, the total cost of completion of each cable system, and the amount of applicant's and its parent's or subsidiary's resources committed to the completion of these cable systems.
 - (7) A detailed description of the applicant's proposed plan of operation which shall include, but not be limited to, the following:
 - a. A detailed map that describes all areas of the City proposed to be served, and a proposed schedule for the construction of the cable system and the installation of all equipment necessary to become operational throughout the area to be served;
 - b. A schedule setting forth all proposed classifications of rates and charges to be paid by subscribers, including installation and other service charges.
 - c. A description of the equipment and operational standards proposed by the applicant.
 - d. A description of the applicant's plan to provide public, educational and governmental access channel capacity, services, facilities, and equipment, including a description of the method to be used by the applicant in reserving and inserting PEG programming.
 - e. A description of the applicant's plans to address the City's institutional network needs.
 - (8) A copy of any existing agreement covering the proposed franchise service area between the applicant and local telephone or electric utilities that provides for applicant's use of any facilities of that utility, including but not limited to poles, lines or conduits.
 - (9) Any additional information that the City deems to be reasonably necessary to evaluate the applicant's qualifications.
- D. The applicant's failure to comply with the requirements of this section may be grounds for rejection of an application at the City's sole discretion.

14.08.12 Franchise Approval

- A. The City may make such investigation as it deems necessary to determine the ability of an applicant to satisfactorily perform its obligations under a franchise. The applicant shall timely furnish to the City such additional information as the City may request.
- B. Upon receipt of a complete application, and following the City's investigation and review of that application, the City Manager shall prepare a report and make recommendations to the Mayor and City Council concerning the application.
- C. The Mayor and City Council shall hold a noticed public hearing on the application. Written notice shall be given to the applicant at least 10 days prior to the hearing by U.S. mail, postage prepaid, and by publication once in a newspaper of general circulation within the City. Within 60 days after the close of the hearing, unless an extension of time is mutually agreed upon by the City and the applicant, the Mayor and City Council shall make a written decision on whether the franchise should be granted, and if granted, subject to what conditions.
- D. In determining whether to grant an application for a new franchise, the City may consider all factors that affect the interests of the community including, but not limited to, the quality of the proposed cable service, the areas to be served, the rates to be charged, the amount of franchise fees to be generated, the experience, character, background, performance history, and financial responsibility of an applicant (and its management and owners), the technical performance and quality of equipment, the applicant's willingness and ability to meet construction requirements, and all other matters deemed relevant by the City to protect the interests of the City and the public.
- E. The decision of the Mayor and City Council concerning the granting or denial of a franchise pursuant to this chapter shall be final.

Ord. MC-1484, 4-18-18;

14.08.13 Franchise Renewal

Franchise renewals shall be processed in accordance with then-applicable law and with the renewal terms, if any, of the franchise agreement. The City and Grantee, by mutual consent, may enter into renewal negotiations at any time during the term of the franchise.

[\[Return to Municipal Code Contents\]](#)

14.08.14 Multiple Franchises

- A. In its sole discretion, the City may limit the number of franchises granted at any one time based upon its consideration of all appropriate criteria, which shall include but not be limited to the following:
 - (1) The capability of the public rights-of-way to accommodate the facilities of any proposed additional cable systems.
 - (2) The advantages and disadvantages that may result from additional cable system competition.
- B. The City may require that a Grantee be responsible for its own underground trenching and any associated costs if, in the City's opinion, the public rights-of-way in any area cannot reasonably accommodate the additional cables, machinery, equipment, or other facilities contemplated in connection with the construction, maintenance, and operation of a proposed new cable system.

14.08.15 Franchise Application Processing Costs

- A. In connection with any application for a new franchise, a franchise modification requesting entry into a new area of the City, a franchise renewal, or a franchise transfer, applicant shall pay an application fee deposit equal to the City's estimated costs in processing and reviewing the application, as such costs may be established from time to time by resolution of the Mayor and City Council. Such costs shall include all estimated administrative, consultant, noticing, and document preparation expenses. No application shall be considered without payment of the application fee deposit. If the application fee deposit is less than the City's actual costs, the applicant shall pay such additional costs to the City within 30 days after written notice from the City that such additional payment is required. If payment of such amount is not made within such time, the City shall cease all further proceedings related to the application. If actual costs are less than the application fee deposit, the remaining balance will be refunded to the applicant.

(Ord. MC-1484, 4-18-18)

- B. Application fee deposits are exclusive of an applicant's or Grantee's obligation to pay other costs and fees required by this chapter or the franchise agreement, including without limitation construction inspection fees, permit fees, and franchise fees.

[\[Return to Municipal Code Contents\]](#)

14.08.16 Franchise Fee for Cable Services

- A. In consideration for the privilege to use the City's public rights-of-way in the operation of its cable system, and because the City will incur costs and expenses in regulating and administering the franchise, Grantee shall pay to the City a franchise fee in an amount equal to five percent (5%) of Grantee's gross revenues, unless a greater amount is authorized by applicable law.
- B. The franchise fee shall be paid quarterly and must be received by the City not later than 45 days after the close of each calendar quarter.
- C. Concurrently with the payment of franchise fees, Grantee shall provide to the City a statement verified by a financial officer of Grantee that sets forth gross revenues for the previous calendar quarter, listing every revenue source and describing gross revenue computations.
- D. On an annual basis, Grantee shall file a statement certified by a financial officer that sets forth all gross revenues for the previous calendar year, listing every revenue source and describing gross revenue computations.

If the City has any objections relating to that report, the City shall have 30 days to notify Grantee and to request additional information. Grantee shall have 30 days to provide additional information to resolve any objections to the City's satisfaction.

- E. At any time during the term of a franchise, the City has the right to conduct, or require Grantee to obtain, an independent audit by certified public accountants approved by the City of all records of Grantee related to gross revenue reports or computations. Grantee shall pay all costs of that audit. Grantee shall cooperate with any such audit and shall make readily available all information requested by the City without regard as to whether information is contained in "documents" (as defined in the Public Records Act) or other media in the possession or under the control of Grantee.

The certified public accountants shall be required to certify in the audit that the Grantee is in compliance with this chapter and the franchise agreement. Grantee shall maintain in a readily accessible place all relevant financial records for a minimum of four years after any payment period that such records pertain to.

- F. If any franchise fee payment is not made by the due date, interest shall be charged monthly at a rate of one percent (1%). In addition, if any franchise fee is not paid in full within 15 days after Grantee's receipt of notice from the City concerning the delinquency of that payment, a late fee in the amount of five percent (5%) of the delinquent amount shall be assessed.

[\[Return to Municipal Code Contents\]](#)

14.08.17 Contents of Cable Television Franchise Agreements

- A. The provisions of a franchise agreement for the operation of a cable television system may relate to or include without limitation the following subject matters:
- (1) The geographical area, duration, and nonexclusive nature of the franchise.
 - (2) The applicable franchise fee to be paid to the City, including the percentage amount, the method of computation, and the time for payment.
 - (3) Requirements relating to compliance with and implementation of state and federal laws and regulations pertaining to the operation of the cable television system.
 - (4) Requirements relating to the construction, upgrade, or rebuild of the cable television system, as well as the provision of special services, such as outlets for public buildings, emergency alert capability, and parental control devices.
 - (5) Requirements relating to the maintenance of a performance bond, a security fund, a letter of credit, or similar assurances as determined by the City to secure the performance of the Grantee's obligations under the franchise agreement.
 - (6) Requirements relating to liability insurance, workers' compensation insurance, and indemnification.
 - (7) Requirements relating to consumer protection and customer service standards, including the resolution of subscriber complaints and disputes and the protection of subscribers' privacy rights, which requirements may include, without limitation, compliance with the statutes, rules and regulations set forth below in Section 14.08.23.
 - (8) Requirements relating to the Grantee's support of local cable usage, including the provision of public, educational, or governmental access channels, the coverage of public meetings and special events, interconnection requirements, and financial support for the required access channel facilities and activities that is consistent with this Title.
 - (9) Requirements relating to construction, operation, and maintenance of the cable system within the public rights-of-way, including compliance with all applicable building codes and permit requirements, the abandonment, removal, or relocation of facilities, and compliance with FCC technical standards.

[\[Return to Municipal Code Contents\]](#)

- (10) Requirements relating to record keeping, accounting procedures, reporting, periodic audits, performance reviews, and the inspection of Grantee's books and records.
 - (11) Acts or omissions constituting material breaches of or defaults under the franchise agreement, and the applicable penalties or remedies for those breaches or defaults, including fines, penalties, liquidated damages, suspension, revocation and termination.
 - (12) Requirements relating to the sale, assignment, or other transfer or change in control of the franchise.
 - (13) Grantee's obligation to maintain continuity of service and to authorize, under certain specified circumstances, the City's operation and management of the cable system.
 - (14) Such additional requirements, conditions, policies, and procedures as may be mutually agreed upon by the parties to the franchise agreement and that will, in the judgment of the City, best serve the public interest and protect the public health, welfare, and safety.
- B. If there is any conflict or inconsistency between the provisions of a franchise agreement authorized by the Mayor and City Council and provisions of this Section 14.08.17, the provisions of the franchise agreement will control.

(Ord. MC-1484, 4-18-18)

ARTICLE III. OPEN VIDEO SYSTEMS

14.08.18 Applicability

The provisions of this Article III apply to an open video system operator that intends to deliver video programming to consumers in the City over an open video system.

14.08.19 Application Required

- A. Before commencing the delivery of video programming services to consumers in the City over an open video system, the open video system operator must file an application with the City. That application must include or be accompanied by the following, as applicable:
 - 1. The identity of the applicant, including all affiliates of the applicant.

[\[Return to Municipal Code Contents\]](#)

2. Copies of FCC Form 1275, all "Notices of Intent" filed under 47 CFR §76.1503(b) (1), and the Order of the FCC, all of which relate to certification of the applicant to operate an open video system in accordance with Section 653(a)(1) of the Communications Act and the FCC's rules.
3. The area or areas of the City that the applicant desires to serve.
4. A description of the open video system services that will be offered by the applicant over its existing or proposed facilities.
5. A description of the transmission medium that will be used by the applicant to deliver the open video system services.
6. Information in sufficient detail to establish the applicant's technical qualifications, experience, and expertise regarding the ownership and operation of the open video system described in the application.
7. Financial statements prepared in accordance with generally accepted accounting principles that demonstrate the applicant's financial ability to:
 - a. Construct, operate, maintain and remove any new physical plant that is proposed to be constructed in the City.
 - b. Comply with the City's PEG access channel requirements as specified below in Section 14.08.21 (B)(4).
 - c. Comply with the City's requirement that gross revenue fees be paid in the sum of 5 percent (5%), as specified below in Section 14.08.21 (B)(2).
8. An accurate map showing the location of any existing telecommunications facilities in the City that the applicant intends to use, to purchase, or to lease.
9. If the applicant's operation of the open video system will require the construction of a new physical plant in the City, the following additional information must be provided:
 - a. A preliminary construction schedule and completion dates.
 - b. Preliminary engineering plans, specifications, and a network map of any new facilities to be constructed in the City, in sufficient detail to identify:
 - (i) The location and route requested for the applicant's proposed facilities.

[\[Return to Municipal Code Contents\]](#)

- (ii) The locations, if any, for interconnection with the facilities of other telecommunications service providers.
 - (iii) The specific structures, improvements, facilities relocate on a temporary or permanent basis.
 - c. The applicant's statement that, in constructing any new physical plant, the applicant will comply with all applicable ordinances, rules, and regulations of the City, including the payment of all required permit and processing fees.
- 10. The information and documentation that is required to be submitted to the City by a video provider, as specified below in paragraph B of Section 14.08.23.
- 11. Such additional information as may be required by the City Manager.
- 12. A nonrefundable filing fee in an amount established by resolution of the Mayor and City Council.
- B. If any item of information specified above in paragraph (a) is determined under paramount federal or state law to be unlawful, the City Manager is authorized to waive the requirement that such information be included in the application.

(Ord. MC-1484, 4-18-18)

14.08.20 Review of Application

Within 30 days after receipt of an application filed under Section 14.08.19 that is deemed to be complete, the City Manager will give written notice to the applicant of the City's intent to negotiate an agreement setting forth the terms and conditions under which the operation of the proposed open video system will be authorized by the City. The commencement of those negotiations will be on a date that is mutually acceptable to the City and to the applicant.

14.08.21 Agreement Required

- A. No video programming services may be provided in the City by an open video system operator unless the operator and the City have executed a written agreement, which may be designated as a franchise, setting forth the terms and conditions under which the operation of the proposed open video system will be authorized by the City.

[\[Return to Municipal Code Contents\]](#)

- B. The agreement between the City and the open video system operator may contain terms and conditions that relate to the following subject matters, to the extent that such terms, conditions, and subject matters are not preempted by federal statute or regulations:
1. The nature, scope, and duration of the agreement, including provisions for its renewal or extension.
 2. The obligation of the open video system operator to pay to the City, at specified times, fees on the gross revenue received by the operator, as authorized by 47 CFR §76.1511, in accordance with the following standards and procedures:
 - a. The amount of the fees on the gross revenue will be five percent (5%), and will be paid in lieu of the franchise fees authorized under Section 622 of the Communications Act.
 - b. The term "**gross revenue**" means
 - (i) all gross revenue received by an open video system operator or its affiliates, including all revenues received from subscribers and all carriage revenues received from unaffiliated video programming providers; and
 - (ii) all advertising revenues received by the operator or its affiliates in connection with the provision of video programming, where such revenues are included in the calculation of the cable franchise fee paid to the City by the franchised cable operator. The term "gross revenue" does not include revenue, such as subscriber or advertising revenue, collected by unaffiliated video programming providers.
 3. The obligation of the open video system operator to comply with requirements relating to information collection and record keeping, accounting procedures, reporting, periodic audits, and inspection of records in order to ensure the accuracy of the fees on the OVS gross revenue that are required to be paid as specified above in paragraph B (2).
 4. The obligation of the open video system operator to meet the City's requirements with respect to PEG access facilities, as provided for in 47 CFR §76.1505. In this regard, the following standards and procedures are applicable:
 - a. The open video system operator is subject to the same PEG access channel requirements that apply within the cable television franchise service area with which its system overlaps.

[\[Return to Municipal Code Contents\]](#)

- b. The open video system operator must ensure that all subscribers receive all PEG access channels within the franchise service area in which the City's subscribers are located.
- c. The open video system operator may negotiate with the City to establish the operator's obligations with respect to PEG access facilities. These negotiations may include the City's franchised cable operator if the City, the open video system operator, and the franchised cable operator so desire.
- d. If the open video system operator and the City are unable to reach an agreement regarding the operator's obligations with respect to Public, Educational, and Government Access channel capacity, services, facilities, and equipment within the City's jurisdiction, then the following obligations will be imposed:
 - (i) The open video system operator must satisfy the same PEG access channel obligations as the City's franchised cable operator by providing the same amount of channel capacity for PEG access and by matching the City's franchised cable operator's annual financial contributions in support of public, educational, and government Access services, facilities, and equipment that are actually used by the City. For in-kind contributions, such as cameras or production studios, the open video system operator may satisfy its statutory obligation by negotiating mutually agreeable terms with the City's franchised cable operator, so that PEG access services to the City are improved or increased. If such terms cannot be agreed upon, the open video system operator must pay to the City the monetary equivalent of the franchised cable operator's depreciated in-kind contribution, or, in the case of facilities, the annual amortization value. Any matching contributions provided by the open video system operator must be used to fund activities arising under Section 611 of the Communications Act.
 - (ii) The City will impose upon the open video system operator the same rules and procedures that it imposes upon the franchised cable operator with regard to the open video system operator's use of channel capacity designated for PEG access channel use when that capacity is not being used for such purposes.

- e. The City's franchised cable operator is required under federal law to permit the open video system operator to connect with its PEG access channel feeds. The open video system operator and the franchised cable operator may decide how to accomplish this connection, taking into consideration the physical and technical characteristics of the cable and the open video systems involved. If the franchised cable operator and the open video system operator cannot agree on how to accomplish the connection, the City has the right to decide. The City may require that the connection occur on City-owned property or on public rights-of-way.
 - f. All costs of connection to the franchised cable operator's PEG access channel feed must be borne by the open video system operator. These costs will be counted towards the open video system operator's matching financial contributions set forth above in subparagraph (d)(i).
 - g. The City will not impose upon the open video system operator any Public, Educational, or Government Access Channel obligations that are more favorable or less burdensome than those imposed upon the franchised cable operator.
 - h. If there is no existing franchised cable operator, the provisions of 47 CFR §76.1505(d)(6) will be applicable in determining the obligations of the open video system operator.
 - i. The open video system operator must adjust its system to comply with new public, educational, governmental and access channel obligations imposed on the City's franchised cable operator following a renewal of the cable television franchise; provided, however, that the open video system operator will not be required to displace other programmers using its open video system to accommodate PEG access channels. The open video system operator must comply with such new PEG access channel obligations whenever additional capacity is or becomes available, whether it is due to increased channel capacity or to decreased demand for channel capacity.
5. If the City and the open video system operator cannot agree on the application of the FCC's rules regarding the open video system operator's obligations to provide PEG access under the provisions of subsection 4 set forth above, then either party may file a complaint with the FCC in accordance with the dispute resolution procedures set forth in 47 CFR §76.1514. No agreement will be executed by the City until the dispute has been finally resolved.

[\[Return to Municipal Code Contents\]](#)

6. If the open video system operator intends to maintain an institutional network, as defined in Section 611(f) of the Communications Act, the City will require that educational and government access channels be designated on that institutional network to the same extent that those channels are designated on the institutional network of the City's franchised cable operator. In addition, to the extent authorized by federal law, the open video system operator may be required by the City to satisfy the same financial obligations and other requirements that are imposed upon the franchised cable operator to support data-transmission and related services that are provided by the institutional network.
7. The authority of an open video system provider to exercise editorial control over any Public, Educational, or Government use of channel capacity will be restricted in accordance with the provisions of 47 CFR §76.1505(f).
8. The obligation of the open video system operator to comply with all applicable federal, state, and local statutes, ordinances, and regulations relating to customer service standards, including the Cable Television and Video Customer Service and Information Act (Government Code §§53054, et seq.), the Video Customer Service Act (Government Code §§53088, et seq.), and the Consumer Protection and Service Standards of this chapter, commencing with Section 14.08.22.
9. If new physical plant is proposed to be constructed within the City, the obligation of the open video system operator to comply with the following rights-of-way use and management responsibilities that are also imposed by the City upon other telecommunications service providers in a nondiscriminatory and competitively neutral manner:
 - a. Compliance with all applicable City laws, including applications for excavation, encroachment, and construction permits and the payment of all required permit and inspection fees.
 - b. The coordination of construction activities.
 - c. Compliance with established standards and procedures for constructing lines across private property.
 - d. Compliance with all applicable insurance and indemnification requirements.
 - e. The repair and resurfacing of construction-damaged streets.

[\[Return to Municipal Code Contents\]](#)

- f. Compliance with all public safety requirements that are applicable to telecommunications service providers using public property or public rights-of-way.
10. Acts or omissions constituting breaches or defaults of the agreement, and the applicable penalties, liquidated damages, and other remedies, including fines or the suspension, revocation, or termination of the agreement.
11. Requirements relating to the sale, assignment, or transfer of the open video system.
12. Requirements relating to the open video system operator's compliance with and implementation of state and federal laws, rules, and regulations pertaining to the operation of the open video system.
13. Such additional requirements, conditions, terms, policies, and procedures as may be mutually agreed upon by the City and the open video system operator and that will, in the judgment of the Mayor and Common Council, best serve the public interest and protect the public health, welfare, and safety.

ARTICLE IV. OTHER VIDEO AND TELECOMMUNICATIONS SERVICES AND SYSTEMS

14.08.22 Other Multi-channel Video Programming Distributors

The term "cable system" does not include a facility that serves subscribers without using any public rights-of-way. Consequently, the categories of multichannel video programming distributors identified below are not deemed to be "cable systems" and are therefore exempt from the City's franchise requirements and from certain other local regulatory provisions authorized by federal law, provided that their distribution or transmission facilities do not involve the use of the City's public rights-of-way.

- A. **Multi-channel multi-point distribution service ("MMDS")**, also known as "**wireless cable**," which typically involves the transmission by an FCC-licensed operator of numerous broadcast stations from a central location using line-of-sight technology.
- B. **Local multi-point distribution service ("LMDS")**, another form of over-the-air, wireless video service for which licenses are auctioned by the FCC, and that offers video programming, telephone, and data networking services.

[\[Return to Municipal Code Contents\]](#)

- C. **Direct broadcast satellite ("DBS")**, also referred to as "**direct-to-home satellite services**," which involves the distribution or broadcasting of programming or services by satellite directly to the subscriber's premises without the use of ground-receiving or distribution equipment, except at the subscriber's premises or in the up-link process to the satellite. Local regulation of direct-to-home satellite services is further proscribed by the following federal statutory provisions:
- (1) 47 U.S.C. §303(v) confers upon the FCC exclusive jurisdiction to regulate the provisions of direct-to-home satellite services.
 - (2) Section 602 of the Communications Act states that a provider of direct-to-home satellite service is exempt from the collection or remittance, or both, of any tax or fee imposed by any local taxing jurisdiction on direct-to-home satellite service. The terms "**tax**" and "**fee**" are defined by federal statute to mean any local sales tax, local use tax, local intangible tax, local income tax, business license tax, utility tax, privilege tax, gross receipts tax, excise tax, franchise fees, local telecommunications tax, or any other tax, license, or fee that is imposed for the privilege of doing business, regulating, or raising revenue for a local taxing jurisdiction.

14.08.23 Video Providers - Registration; Customer Service Standards

- A. Unless the customer protection and customer service obligations of a video provider are specified in a franchise with the City, a video provider must comply with all applicable provisions of the following state statutes:
- (1) The Cable Television and Video Customer Service and Information Act (Government Code §§53054, et seq.).
 - (2) The Video Customer Service Act (Government Code §§53088, et seq.).
- B. All video providers that are operating in the City on the effective date of this chapter, or that intend to operate in the City after the effective date of this chapter, and are not required under applicable law to operate under a franchise, license, lease, or similar written agreement with the City, must register with the City. The registration form must include or be accompanied by the following:
- (1) The video provider's name, address, and local telephone numbers.
 - (2) The names of the officers of the video provider.

(3) A copy of the video provider's written policies and procedures relating to customer service standards and the handling of customer complaints, as required by California Government Code §§53054, et seq. These customer service standards must include, without limitation, standards regarding the following:

- a. Installation, disconnection, service and repair obligations, employee identification, and service call response time and scheduling.
- b. Customer telephone and office hours.
- c. Procedures for billing, charges, refunds, and credits.
- d. Procedures for termination of service.
- e. Notice of the deletion of a programming service, the changing of channel assignments, or an increase in rates.
- f. Complaint procedures and procedures for bill dispute resolution.
- g. The video provider's written acknowledgment of its obligation under California Government Code §53055.1 to provide to new customers a notice describing the customer service standards specified above in

sub-paragraphs a through f at the time of installation or when service is initiated. The notice must also include, in addition to all of the information described above in sub-paragraphs a through f, all of the following:

- (i) A listing of the services offered by the video provider that clearly describes all levels of service and the rates for each level of service.
- (ii) The telephone number or numbers through which customers may subscribe to, change, or terminate service, request customer service, or seek general or billing information.
- (iii) A description of the rights and remedies that the video provider may make available to its customers if the video provider does not materially meet its customer service standards.

- h. The video provider's written commitment to distribute annually to its employees and customers, and to the City, a notice describing the customer service standards specified above in sub-paragraphs a through f. This annual notice must include the report of the video provider on its performance in meeting its customer service standards, as required by California Government Code §53055.2.
- (4) Unless a video provider is exempt under federal law from its payment, a registration fee in an amount established by resolution of the Mayor and Common Council to cover the reasonable costs incurred by the City in reviewing and processing the registration form.
 - (5) In addition to the registration fee specified above in subsection (4), the written commitment of the video provider to pay to the City, when due, all costs and expenses reasonably incurred by the City in resolving any disputes between the video provider and its subscribers, which dispute resolution is mandated by California Government Code §53088.2(p).
- C. The customer service obligations imposed upon video providers by the Video Customer Service Act California Government Code §§53088 et seq.) consist of the following:
- (1) Every video provider must render reasonably efficient service, make repairs promptly, and interrupt service only as necessary.
 - (2) All video provider personnel contacting subscribers or potential subscribers outside the office of the provider must be clearly identified as associated with the video provider.
 - (3) At the time of installation, and annually thereafter, all video providers must provide to all customers a written notice of the programming offered, the prices for that programming, the provider's installation and customer service policies, and the name, address, and telephone number of the City's office that is designated for receiving complaints.
 - (4) All video providers must have knowledgeable, qualified company representatives available to respond to customer telephone inquiries Monday through Friday, excluding holidays, during normal business hours.
 - (5) All video providers must provide to customers a toll-free or local telephone number for installation, service, and complaint calls. These calls must be answered promptly by the video providers.

- (6) All video providers must render bills that are accurate and understandable.
- (7) All video providers must respond promptly to a complete outage in a customer's service. The response must occur within 24 hours of the reporting of such outage to the provider, except in those situations beyond the reasonable control of the video provider. A video provider will be deemed to respond to a complete outage when a company representative arrives at the outage location within 24 hours and begins to resolve the problem.
- (8) All video providers must provide a minimum of 30 days' written notice before increasing rates or deleting channels. All video providers must make every reasonable effort to submit the notice to the City in advance of the distribution to customers. The 30-day notice is waived if the increases in rates or deletion of channels are outside the control of the video provider. In those cases, the video provider must make reasonable efforts to provide customers with as much notice as possible.
- (9) Every video provider must allow every residential customer who pays his or her bill directly to the video provider at least 15 days from the date the bill for services is mailed to the customer, to pay the listed charges unless otherwise agreed to pursuant to a residential rental agreement establishing tenancy. Customer payments must be posted promptly. No video provider may terminate residential service for nonpayment of a delinquent account unless the video provider furnishes notice of the delinquency and impending termination at least 15 days prior to the proposed termination. The notice must be mailed, postage prepaid, to the customer to whom the service is billed. Notice must not be mailed until the 16th day after the date the bill for services was mailed to the customer. The notice of delinquency and impending termination may be part of a billing statement. Additionally, no video provider may assess a late fee any earlier than the 22nd day after the bill for service has been mailed.
- (10) Every notice of termination of service pursuant to the preceding subsection (9) must include all of the following information:
 - a. The name and address of the customer whose account is delinquent.
 - b. The amount of the delinquency.
 - c. The date by which payment is required in order to avoid termination of service.
 - d. The telephone number of a representative of the video provider who can provide additional information and handle complaints or initiate an investigation concerning the service and charges in question.

[Return to Municipal Code Contents]

- (11) Service may only be terminated on days in which the customer can reach a representative of the video provider either in person or by telephone.
- (12) Any service terminated without good cause must be restored without charge for the service restoration. Good cause includes, but is not limited to, failure to pay, payment by check for which there are insufficient funds, theft of service, abuse of equipment or system personnel, or other similar subscriber actions.
- (13) All video providers must issue requested refund checks promptly, but no later than 45 days following the resolution of any dispute, and following the return of the equipment supplied by the video provider, if service is terminated.
- (14) All video providers must issue security or customer deposit refund checks promptly, but no later than 45 days following the termination of service, less any deductions permitted by law.
- (15) Video providers must not disclose the name and address of a subscriber for commercial gain to be used in mailing lists or for other commercial purposes not reasonably related to the conduct of the businesses of the video providers or their affiliates, unless the video providers have provided to the subscriber a notice, separate or included in any other customer notice, that clearly and conspicuously describes the subscriber's ability to prohibit the disclosure. Video providers must provide an address and telephone number for a local subscriber to use without toll charge to prevent disclosure of the subscriber's name and address.

D. As authorized by Government Code §53088.2(r), the following schedule of penalties is adopted. These penalties may be imposed for the material breach by a video provider of the consumer protection and service standards that are set forth above in paragraph c, provided that the breach is within the reasonable control of the video provider. These penalties are in addition to any other remedies authorized by this chapter or by any other law, and the City has discretion to elect the remedy that it will apply. The imposition of penalties authorized by this paragraph d will not prevent the City or any other affected party from exercising any other remedy to the extent permitted by law, including but not limited to any judicial remedy as provided below in subsection (2).

(1) Schedule of Penalties.

- a. For a first material breach: the maximum penalty is \$200 for each day of material breach, but not to exceed a cumulative total of \$600 for each occurrence of material breach, irrespective of the number of customers affected.

[\[Return to Municipal Code Contents\]](#)

- b. For a second material breach of the same nature for which a monetary penalty was previously assessed within the preceding 12 month period:

the maximum penalty is \$400 per day, not to exceed a cumulative total of \$1,200 for each occurrence of the material breach, irrespective of the number of customers affected.
- c. For a third or further material breach of the same nature for which a monetary penalty was previously assessed within the preceding 12 month period: the maximum penalty is \$1,000 per day, not to exceed a cumulative total of \$3,000 for each occurrence of the material breach, irrespective of the number of customers affected.
- d. The maximum penalties referenced above may be increased by any additional amount authorized by state law.

(2) Judicial Remedies Not Affected.

The imposition of penalties in accordance with the provisions of subsection (1) above does not preclude any affected party from pursuing any judicial remedy that is available to that party.

(3) Administration, Notice, and Appeal.

- a. The City Manager is authorized to administer this paragraph D. Decisions by the City Manager to assess penalties against a video provider must be in writing and must contain findings supporting the decisions. Decisions by the City Manager are final, unless appealed to the Mayor and City Council.
- b. If the video provider or any interested person is aggrieved by a decision of the City Manager, the aggrieved party may, within 10 days of the written decision, appeal that decision in writing to the Mayor and City Council. The appeal letter must be addressed to the City Clerk and must be accompanied by any applicable fee established by the Mayor and City Council for processing the appeal. The Mayor and City Council may affirm, modify, or reverse the decision of the City Manager.
- c. The imposition of monetary penalties under subsection (1) above is subject to the following requirements and limitations:

- (i) The City must give the video provider written notice of any alleged material breach of the consumer service standards and must allow the video provider at least 30 days from receipt of that notice to remedy the breach.
- (ii) For the purpose of assessing monetary penalties, a material breach will be deemed to have occurred for each day following the expiration of the period for cure specified in subparagraph (i) above that the material breach has not been remedied by the video provider, irrespective of the number of customers affected.
- (iii) In assessing monetary penalties under this paragraph D, the City Manager, any designated hearing officer, or the Mayor and City Council, as applicable, may take into account the nature, circumstances, extent and gravity of the violation and, with respect to the video provider, the degree of culpability, any history of prior violations, and such other matters as may be relevant. If warranted under the circumstances, the monetary penalty to be assessed may be less than the maximum penalty authorized above in subsection D (1).

(Ord. MC-1484, 4-18-18)

14.08.24 Telecommunications Service Provided by Telephone Corporations

Any video programming provided by a telephone corporation that uses public rights-of-way in the delivery of that video programming, regardless of the technology used, will be considered a cable service under this Ordinance unless such programming is otherwise expressly authorized by state or federal law.

- A. In recognition of and in compliance with statutory requirements that are set forth in state law, the following regulatory provisions are applicable to a telephone corporation that desires to provide telecommunications service by means of facilities that are proposed to be constructed within the City's public rights-of-way:
 - (1) The telephone corporation must apply for and obtain, as may be applicable, an excavation permit, an encroachment permit, or a building permit ("ministerial permit.")
 - (2) In addition to the information required by this Ordinance in connection with an application for a ministerial permit, a telephone corporation must submit to the City the following supplemental information:

[\[Return to Municipal Code Contents\]](#)

- a. A copy of the certificate of public convenience and necessity issued by the California Public Utilities Commission ("CPUC") to the applicant, and a copy of the CPUC decision that authorizes the applicant to provide the telecommunications service for which the facilities are proposed to be constructed in the City's public rights-of-way.
 - b. If the applicant has obtained from the CPUC a certificate of public convenience to operate as a "competitive local carrier," the following additional requirements are applicable:
 - (i) As required by the CPUC, the applicant must establish that it has filed with the City in a timely manner a quarterly report that describes the type of construction and the location of each construction project proposed to be undertaken in the City during the calendar quarter in which the application is filed, which information is sufficient to enable the City to coordinate multiple projects, as may be necessary.
 - (ii) If the applicant's proposed construction project will extend beyond the utility rights-of-way into undisturbed areas or other rights-of-way, the applicant must establish that it has filed a petition with the CPUC to amend its certificate of public convenience and necessity and that the proposed construction project has been subjected to a full-scale environmental analysis by the CPUC, as required by Decision No. 95-12-057 of the CPUC.
 - (iii) The applicant must inform the City whether its proposed construction project will be subject to any of the mitigation measures specified in the Negative Declaration ["Competitive Local Carriers (CLCs) Projects for Local Exchange Communication Service throughout California"] or to the Mitigation Monitoring Plan adopted in connection with Decision No. 95-12-057 of the CPUC. The City's issuance of a ministerial permit will be conditioned upon the applicant's compliance with all applicable mitigation measures and monitoring requirements imposed by the CPUC upon telephone corporations that are designated as "competitive local carriers."
- B. In recognition of the fact that numerous excavations in the public rights-of-way diminish the useful life of the surface pavement, and for the purpose of mitigating the adverse impacts of numerous excavations on the quality and longevity of public street maintenance within the City, the following policies and procedures are adopted:

- (1) The City Manager is directed to ensure that all public utilities, including telephone corporations, comply with all local design, construction, maintenance and safety standards that are contained within, or are related to, a ministerial permit that authorizes the construction of facilities within the public rights-of-way.
 - (2) The City Manager is directed to coordinate the construction and installation of facilities by public utilities, including telephone corporations, in order to minimize the number of excavations in the public rights-of-way. In this regard, based upon projected plans for street construction or renovation projects, the City Manager is authorized to establish on a quarterly basis one or more construction time periods or "windows" for the installation of facilities within the public rights-of-way. Telephone corporations and other public utilities that submit applications for ministerial permits to construct facilities after a predetermined date may be required to delay such construction until the next quarterly "window" that is established by the City.
- C. Subject to applicable provisions of state and federal law, any video programming provided by a telephone corporation that uses public rights-of-way in the transmission or delivery of that video programming, regardless of the technology used, will be deemed to be a video service subject to the franchise requirements set forth in Section 14.08.04 of this chapter.
- D. Telephone corporations that apply for and receive a state franchise to provide video service within all or any part of the City must comply with the provisions of this Title, and all applicable provisions of the Digital Infrastructure and Video Competition Act of 2006 (Division 2.4 of the California Public Utilities Code, commencing with Section 5800).

14.08.25 Public, Educational, and Governmental Access Support Fee (Peg Fee) and Requirement to Provide Peg Channels

- A. PEG FEE: A fee of 1% of Gross Revenues shall be assessed on all video service providers that use the public rights-of-way, including all local franchisees and all holders of state franchises as consistent with state or federal law. The PEG Fee shall be paid quarterly, to be received by the City not later than 45 days after the close of each quarter of Grantee's fiscal year.
- (1) On a quarterly basis, Grantee shall provide the City a complete and accurate statement verified by a financial officer of Grantee indicating Gross Revenues for the past quarter, listing every revenue source, and depicting gross revenue computations.

[\[Return to Municipal Code Contents\]](#)

(2) A video service provider subject to this section may recover the amount of any fee by billing a recovery fee as a separate line item on the regular bill of each Subscriber .

B. CHANNEL DESIGNATION: All video service providers that use the public rights-of-way shall designate sufficient amount of capacity on its network to allow the carriage of at least three public, educational, or governmental access (PEG) channels. For the purposes of this section, a PEG channel is deemed activated if it is being utilized for PEG programming within the city for at least eight hours per day.

(1) PEG channels shall be for the exclusive use of the City or its designee to provide public, educational, or governmental channels.

(2) Advertising, underwriting, or sponsorship recognition may be carried on the channels for the purpose of funding PEG-related activities.

(3) The PEG channels shall all be carried on the basic service tier of grantee.

(4) To the extent feasible, the PEG channels shall not be separated numerically from other channels carried on the basic service tier and the channel numbers for the PEG channels shall be the same channel numbers used by the incumbent cable operator unless prohibited by federal law.

(5) After the initial designation of PEG channel numbers, the channel numbers shall not be changed without the agreement of the City unless the change is required by federal law.

(6) Each channel shall be capable of carrying a National Television System Committee (NTSC) television signal.

C. INTERCONNECTION. Where technically feasible, all Grantee's video service providers shall negotiate in good faith to interconnect their networks for the purpose of providing PEG programming. Interconnection may be accomplished by direct cable, microwave link, satellite, or other reasonable method of connection. Holders of a state franchise and incumbent cable operators shall provide interconnection of the PEG channels on reasonable terms and conditions and may not withhold the interconnection. If a holder of a state franchise and an incumbent cable operator cannot reach a mutually acceptable interconnection agreement, the City may require the incumbent cable operator to allow the holder to interconnect its network with the incumbent's network at a technically feasible point on the holder's network as identified by the holder. If no technically feasible point for interconnection is available, the holder of a state franchise shall make an interconnection available to the channel originator and shall provide the facilities necessary for the interconnection. The cost of any interconnection shall be borne by the holder of a state franchise requesting the interconnection unless otherwise agreed to by the parties.

ARTICLE V. DEFINITIONS

14.08.26. Defined Terms and Phrases

- A. For the purposes of this chapter, the words, terms, phrases, and abbreviations have the meanings set forth below. When not inconsistent with the context, words used in the present tense include the future tense, and words in the singular include the plural number.

"Affiliate" means, when used in relation to any person, another person who owns or controls, is owned or controlled by, or is under common ownership or control with, such person.

"Cable service" means the one-way transmission to subscribers of video programming, or other programming services, and subscriber interaction, if any, that is required for the selection or use of that video programming or other programming service. For the purposes of this definition, **"video programming"** means programming provided by, or generally considered comparable to programming provided by, a television broadcast station; and **"other programming service"** means information that a cable system operator makes available to all subscribers generally.

"Cable system," or **"cable communications system"** or **"cable television system,"** means a facility, consisting of a set of closed transmission paths and associated signal generation, reception and control equipment that is designed to provide cable service that includes video programming and that is provided to multiple subscribers within a community. The term "cable system" does not include:

- (1) A facility that serves only to retransmit the television signals of one or more television broadcast stations; or
- (2) A facility that serves subscribers without using any public rights-of-way; or
- (3) A facility of a common carrier that is subject, in whole or in part, to the provisions of Title II of the Communications Act, except that such facility will be considered a cable system (other than for purposes specified in Section 621(c) of the Communications Act) to the extent such facility is used in the transmission of video programming directly to subscribers, unless the extent of such use is solely to provide interactive on-demand services; or
- (4) An open video system that complies with Section 653 of the Communications Act; or
- (5) Any facilities of an electric utility that are used solely for operating its electric utility system.

[\[Return to Municipal Code Contents\]](#)

"Cable system operator" or **"cable operator"** means any person or group of persons:

- (1) Who provides cable service over a cable system and directly or through one or more affiliates owns a significant interest in that cable system; or
- (2) Who otherwise controls or is responsible for, through any arrangement, the management and operation of that cable system.

"CFR" means the Code of Federal Regulations. Thus, the citation of "47 CFR 80.1" refers to Title 47, part 80, section 1, of the Code of Federal Regulations.

"City" means the City of San Bernardino, California as represented by its Mayor and Common Council or by any delegate acting within the scope of its delegated authority.

"City Manager" means the City Manager of the City of San Bernardino, or the City Manager's designee.

"Communications Act" means the Communications Act of 1934 (47 U.S.C. §§153, et seq.), as amended by the Cable Communications Policy Act of 1984, the Cable Television Consumer Protection and Competition Act of 1992, and the Telecommunications Act of 1996.

"FCC" or **"Federal Communications Commission"** means the federal administrative agency, or any lawful successor, that is authorized to regulate cable and telecommunications services and cable and telecommunications service providers on a national level.

"Franchise" means an initial authorization, or the renewal of an initial authorization, granted by the Mayor and Common Council, whether such authorization is designated as a franchise, agreement, permit, license, resolution, contract, certificate or otherwise, that authorizes the construction or operation of a cable system or an open video system.

"Franchise fee" means any fee or assessment of any kind that is authorized by state or federal law to be imposed by the City on a Grantee as compensation in the nature of rent for the Grantee's use of the public rights-of-way.

The term **"franchise fee"** does not include:

- (1) Any tax, fee or assessment of general applicability (including any such tax, fee, or assessment imposed on both utilities and cable operators or their services, but not including a tax, fee or assessment which is unduly discriminatory against cable operators or cable subscribers);
- (2) Capital costs that are required by the franchise to be incurred by a Grantee for public, educational, or governmental access facilities;
- (3) Requirements or charges that are incidental to the award or enforcement of the franchise, including payments for bonds, security funds, letters of credit, insurance, indemnification, penalties, or liquidated damages; or
- (4) Any fee imposed under Title 17, United States Code.

"Franchise service area" or **"service area"** means the entire geographic area of the City as it is now constituted, or may in the future be constituted, unless otherwise specified in the ordinance or resolution granting a franchise, or in a franchise agreement.

"Grantee" means any person that is awarded a franchise in accordance with this Chapter, and that person's lawful successor, transferee, or assignee.

"Gross Revenue" means all revenue, that is received, directly or indirectly, by Grantee from or in connection with the distribution of any cable service within the franchise service area, and any other service provided within the franchise service area that may, under existing or future federal law, be included in the Communications Act definition for the purpose of calculating and collecting the maximum allowable franchise fee for operation of the system, whether or not authorized by any franchise, including, without limitation, leased or access channel revenue received, directly or indirectly, from or in connection with the distribution of any cable service. It is intended that all revenue collected by the Grantee from the provision of cable service over the system, whether or not authorized by the franchise, be included in this definition. Gross revenue also specifically includes any revenue received, as reasonably determined from time to time by the City, through any means that is intended to have the effect of avoiding the payment of compensation that would otherwise be paid to the City for the franchise granted, including the fair market value of any non-monetary (i.e., barter) transactions between Grantee and any person, but not less than the customary prices paid in connection with equivalent transactions. Gross revenue also includes any bad debts recovered, payments received for the lease or license to third parties of excess capacity in fiber optic cables or similar transmission facilities, and all revenue that is received by Grantee, or its subsidiaries or affiliated companies, directly or indirectly, from or in connection with the distribution of any service over the system or the conduct

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 14 Contents\]](#)

of any service-related activity involving the system, including without limitation revenues derived from advertising sales, the sale of products or services on home shopping channels, and the sale of program guides.

Gross revenue does not include:

- (1) the revenue of any person to the extent that such revenue is also included in the gross revenue of Grantee;
- (2) taxes imposed by law on subscribers that Grantee is obligated to collect;
- (3) amounts that must be excluded pursuant to applicable law; (iv) bad debt; and
- (4) deposits and refunds.

"Multi-channel video programming distributor" or "video programming distributor" means a person such as, but not limited to, a cable system operator, an open video system operator, a multichannel multi-point distribution service, a direct broadcast satellite service, or a television receive-only satellite program distributor, who makes available multiple channels of video programming for purchase by subscribers or customers.

"Open video system" means a facility consisting of a set of transmission paths and associated signal generation, reception and control equipment that is designed to provide cable service, including video programming, and that is provided to multiple subscribers within the City, provided that the FCC has certified that such system is authorized to operate in the City and complies with 47 CFR 1500 et seq., titled "Open Video Systems."

"Open video system operator" means any person or group of persons who provides cable service over an open video system and directly or through one or more affiliates owns a significant interest in that open video system, or otherwise controls or is responsible for the management and operation of that open video system.

"Person" means an individual, partnership, limited liability company, association, joint stock company, trust, corporation or governmental entity.

"Public, educational or government access facilities," "PEG access facilities," or "PEG access" means the total of the following:

- (1) Channel capacity designated for noncommercial public, educational, or government use; and

[\[Return to Municipal Code Contents\]](#)

(2) Facilities and equipment for the use of that channel capacity.

"Subscriber" or **"customer"** or **"consumer"** means any person who, for any purpose, subscribes to the services provided by a multichannel video programming distributor and who pays the charges for those services.

"Street" or **"public right-of-way"** means each of the following that has been dedicated to the public and maintained under public authority or by others and is located within the City limits: streets, roadways, highways, avenues, lanes, alleys sidewalks, easements, rights-of-way and similar public property that the City from time to time authorizes to be included within the definition of a street.,

"Telecommunications" means the transmission, between or among points specified by the user, of information of the user's choosing, without change

"Telecommunications equipment" means equipment, other than customer premises equipment, used by a telecommunications service provider to provide telecommunications service, including software that is integral to that equipment.

"Telecommunications service" means the offering of telecommunications directly to the public for a fee, or to such classes of users as to be effectively available directly to the public, regardless of the equipment or facilities that are used.

"Telecommunications service provider" means any provider of telecommunications service.

" U.S.C. §" means the United States Code. Thus, the citation of "47 U.S.C. §153" refers to Title 47, section 153, of the United States Code.

"Video programming provider" means any person or group of persons who has the right under the federal copyright laws to select and to contract for the carriage of specific video programming on a cable system or an open video system.

"Video provider" means any person, company, or service that provides one or more channels of video programming to a residence, including a home, multi-family dwelling complex, congregate-living complex, condominium, apartment or mobile home, where some fee is paid for that service, whether directly or as included in dues or rental charges, and whether or not public rights-of-way are used in the delivery of that video programming. A "video provider" includes, without limitation, providers of cable television service, open video system service, master antenna television, satellite master antenna television, direct broadcast satellite, multi-point distribution services and other providers of video programming, whatever their technology.

[\[Return to Municipal Code Contents\]](#)

- B. Unless otherwise expressly stated, words, terms, phrases, and abbreviations not defined in this section will be given their meaning as used in Title 47 of the United States Code, as amended, and, if not defined in that Code, their meaning as used in Title 47 of the Code of Federal Regulations.

ARTICLE VI. VIOLATIONS; ENFORCEMENT

14.08.27 Violations; Enforcement

- A. Any person who willfully violates any provision of this chapter is guilty of a misdemeanor and is punishable as provided for in Chapter 1.12 of Title 1 of this Code.
- B. The misdemeanor penalty specified above in paragraph A is not applicable to a violation of any provision of this chapter for which another sanction or penalty may be imposed under any franchise, license, lease, or similar written agreement between the City and a multichannel video programming distributor or other telecommunications service provider.
- C. The City may initiate a civil action in any court of competent jurisdiction to enjoin any violation of this chapter.

15.04.010 Citation

The ordinance codified in this chapter shall be known as the "San Bernardino Building Code" hereinafter referred to as the "Building Code".

15.04.020 Adoption of Codes

- A. Except as provided in this chapter, the code currently adopted State Building Code under title 24 sections parts 1-6, 81 9 and 11 of the CCR known and designated as the 2019 California Building Codes (CBC), as adopted by the State of California, based on the 2018 International Building Code published by the International Code Council and the Plumbing and Mechanical Codes written by IAPMO and the National Electrical Code and Fire Code as written by NFPA shall become the administrative provisions of the City of San Bernardino for regulating the construction. erection, enlargement, alteration, repair, moving, removal, demolition, conversion, occupancy, equipment use and occupancy and maintenance of all buildings and/or structures in the city. Chapter 1 of the 2019 California Building Code and all other formally adopted building Code will be on file for public examination in the offices of the building official as required by State Law.
- B. The City of San Bernardino does hereby formally adopt the State of California model building Codes into local law as listed below:
 - 1. 2019 California Administrative Code Title 24 Part 1
 - 2. 2019 California Building Code Title 24 Part 2 (Volumes 1 & 2)
 - 3. 2019 California Electrical Code Title 24 Part 3 (based on 2017 NEC)
 - 4. 2019 California Mechanical Code Title 24 Part 4 (based on 2018 Uniform Mechanical Code)
 - 5. 2019 California Plumbing Code Title 24 Part 5
 - 6. 2019 California Energy Code Title 24 Part 6
 - 7. 2019 California Historical Building Code Title 24 Part 8

[\[Return to Municipal Code Contents\]](#)

8. 2019 California Fire Code Title 24 Part 9 (specific amendments to the California Fire Code are to be adopted by district for the greater San Bernardino County Fire District and will include Office of the State Fire Marshall requested amendments)
 9. 2019 California Green Building Standards Code Part 11
 10. Uniform Code for the Abatement of Dangerous Buildings (UCADB), 1997 edition;
 11. International Residential Code, Appendix H, 2018 edition;
 12. International Property Maintenance Code (IPMC), 2018 edition; and
- C. Copies of all Codes listed above shall be on file in the Community and Economic Development Department Office for inspection and reference and copies of each code shall be furnished to the Building Official and each deputy. These codes are also available for view on the International Code Conference website: <http://www.ICCsafe.org>
- D. All sections of the Code listed here and legally adopted by the State of California's Building Standards Commission or by the Office of the State Fire Marshall shall be formally adopted by the City of San Bernardino as the California Building Code to be enforced within the City limits as required by state law. Sections and appendices not specifically adopted by the aforementioned State offices are hereby adopted by reference.

(Ord. MC-1525, 01-15-20; Ord. MC-1521, 9-18-19)

15.04.030 Applicability

It shall be unlawful to erect, construct, change the occupancy, alter, repair, rehabilitate, remove, move or maintain any building or structure, or grade or alter any land, in the City in violation of, or without complying with the appropriate provisions of this Chapter.

The California Building Standards Code shall govern and prevail in the event of any inconsistency or conflict between the building standards within the California Building Standards Code, as adopted and amended by the City, and the building standards in any other code.

(Ord. MC-1521, 9-18-19)

[Return to Municipal Code Contents]

15.04.040 Definitions

"City" in the above mentioned section and codes shall be deemed to refer to and designate the City of San Bernardino, and any reference to any act or legislative enactments herein referred to shall be deemed to designate and embrace the statutes of the State, and the amendments thereof, dealing with the subject matter thereby and therein referred to.

15.04.050 CBC Chapter 1, Section 105.5.1 is added -

Section 105.5.1 Prima Facie Evidence of Abandoned Work

Failure on the part of the permittee to obtain an inspection and to demonstrate substantial progress to the satisfaction of the Building Official within any 180 day period shall be prima facie evidence that the work has been abandoned and the permit shall have expired.

(Ord. MC-1525, 01-15-20; Ord. MC-1521, 9-18-19)

15.04.060 CBC Chapter 1, Section 113.1.1 is added Board of Appeals Designated

Section 113.1.1 Board of Appeals Designated

1. The Board of Building Commissioners of the City of San Bernardino shall serve as the Board of Appeals. The Building Official or his designee shall be Clerk of the Board. The Board shall have such duties as are delegated to it by the California Building Code (CBC) as adopted by the City, and other duties as may be delegated by other provisions of the San Bernardino Municipal Code.

(Ord. MC-1525, 01-15-20; Ord. MC-1521, 9-18-19)

15.04.070 CBC Chapter 1, Section 105.2, Item 2 is Amended - Fences Not Requiring a Building Permit

2. Fences not over 6 feet high, except concrete and masonry fences greater than three (3) feet above grade. Masonry fences shall be constructed in accordance with the standard design specifications approved by the Building Official, unless an alternate engineered design is submitted and approved. Exemption from the permit requirements shall not be deemed as a waiver of the design requirements contained in the San Bernardino Development Code as it relates to the use or configuration of materials, or to the height of fences in front, side or rear yards.

(Ord. MC-1525, 01-15-20; Ord. MC-1521, 9-18-19)

[Return to Municipal Code Contents]

15.04.080 [Reserved]

(Ord. MC-1521, 9-18-19)

15.04.090 **CBC Section 2204.1.1 is added - Qualification of Welding Operators**

Section 2204.1.1 Qualification of Welding Operators.

In addition to Section 2204.1, the following subsections shall govern all welding work:

1. All welding shall be done by qualified operators approved by the Building Official. The Building Official shall prescribe rules and regulations for the tests of welders, and no operator shall be approved by the Building Official unless and until he/she has first successfully completed such tests as may be given by the Department of Adult Vocational Education of the San Bernardino City Schools, or San Bernardino Valley College, or has obtained such approval because he/she holds a current welding certificate issued by an accredited testing agency based upon the requirements of the California Department of Adult-Vocational Education.

A certificate shall be issued to operators by the Building Official upon successful completion of the required test or tests and/or approval as aforesaid being obtained. Requests for the certificate shall be made by the operator within thirty (30) days after completion of the test. The certificate shall be valid for two years. Subsequent certificates may be obtained by successful completion of required tests, or when the approved operator submits sufficient evidence to the Department of Adult-Vocational Education of the San Bernardino City Schools, or San Bernardino Valley College that he/she has regularly engaged in such work and that such work has been satisfactorily performed during the past year.

2. Every welder employed for welding of steel plate of No. 8 gauge thickness or less shall be qualified for light gauge welding. Every welder employed for field welding shall be qualified to weld in the flat, vertical and overhead positions. Welders, including light gauge welders who are employed for shop welding, shall be qualified in the flat, vertical and horizontal positions.
3. Structural steel welding operators shall be qualified as prescribed by the latest edition of the Structural Welding Code of the American Welding Society.
4. After a welder has passed the required tests, he/ she must be capable of performing neat and consistently good work in actual operation. Carelessness, inability to maintain a uniform arc and poor workmanship will be deemed sufficient cause for revocation of the welder's certificate.

[\[Return to Municipal Code Contents\]](#)

5. A fee of forty dollars (\$ 40) will be charged by the City of San Bernardino for each original or renewed certificate, which shall be valid for two (2) years.
6. At the time application is made, a certificate may be issued without examination upon presentation of proper evidence that the welder is currently approved for the position either by the Department of Adult-Vocational Education or other acceptable proof of qualification.
7. Testing shall be done under the supervision of the San Bernardino City Schools, Department of Adult-Vocational Education of San Bernardino Valley College or other accredited testing agency.

15.04.100 CBC Section 3109.1.1 is added - Barriers for Swimming Pools

The requirements of CBC Section 3109, shall apply to single-family swimming pool barriers. Swimming pools, spas, and hot tubs for which an application for a building permit was submitted prior to July 23, 1993 shall comply with the requirements contained in Chapter 15.48 of the San Bernardino Municipal Code.

15.04.110 CBC Appendix J, Section J101.3 is added - Alquist-Priolo Earthquake Fault Zones

J101.3 Alquist-Priolo Earthquake Fault Zones. This chapter shall also include those requirements set forth in the "Alquist-Priolo Earthquake Fault Zoning Act (Division 2, Chapter 7.5, California Public Resources Code). This Act is intended to represent minimum criteria for all structures that fall within the boundaries as shown on the "Earthquake Fault Zones Maps" as prepared by the California Division of Mines and Geology.

15.04.120 CBC Appendix J, Section J101.4 is added - Enforcement Authority

J101.4 Enforcement Authority. The Building Official of the City of San Bernardino or his/ her designee shall have the authority for the enforcement of CBC Appendix J and any amendments thereto.

(Ord. MC-1521, 9-18-19)

15.04.130 On-site Improvement Permit

No person shall construct any on-site improvement for motor vehicle parking or vehicle circulation, the disposal of waste through a private sewer main, the conveyance of storm waters, or landscaping and irrigation systems, without first obtaining a permit from the Building Official. A permit issued by the Building Official for the purpose of construction of the improvements set forth herein shall hereafter be known as an on-site improvement permit.

[\[Return to Municipal Code Contents\]](#)

15.04.140 CBC Appendix J, Section J103.1.1 is added Preparation of Grading Plans

A grading plan and a grading permit shall be required for any grading activity involving more than 50 cubic yards. All grading plans shall be prepared by a registered civil engineer.

15.04.150 On-Site Improvement Plans and Specifications

When required by the Building Official, plans and specifications, and verification of land use entitlement shall accompany each application for an on-site improvement permit. Plans and specifications required by the Building Official shall be prepared and signed by a registered civil engineer. Specifications may be incorporated into the plans as general notes in lieu of a separate document. Verification of land use entitlement requirements are incorporated into the Grading Policy promulgated by the Community Development Department.

15.04.160 Information on On-site Improvement Plans

On-site improvement plans shall contain all information set forth in CBC Chapter 1, Section 105. 3 and shall include additional information as required by the Building Official.

15.04.170 On-site Improvement Plan Review and Permit Fee

When an on-site improvement plan is required to be submitted, a plan review fee shall be paid at the time of submittal of plans and specifications. Items to be reviewed shall be improvements including, but not limited to, paving, curbs, sidewalks, private sewer mains, drainage facilities, landscaping, and irrigation systems.

Fees for each on-site improvement permit shall be paid to the City at the time of permit issuance. Said on-site plan review and permit fees shall be in an amount established by resolution of the Mayor and Common Council.

15.04.180 Inspection of On-Site Improvements

All on-site improvements for which a permit is required shall be subject to inspection by the Building Official or his/her designee.

15.04.190 Bonds Required

A grading permit shall not be issued unless the applicant has first posted with the Building Official a good and sufficient surety bond, cash, letter of credit (Col) or certificate of deposit in such an amount as the Building Official shall estimate and determine to be necessary to cover the total cost of the project, including corrective work necessary to remove and eliminate geological hazards. The Building Official shall require a written itemized estimate of the costs of the grading. The amount of the required bond, cash,

[\[Return to Municipal Code Contents\]](#)

instrument of credit or certificate of deposit, is based on the estimate of cost and shall be given to the owner or applicant prior to the issuance of the permit.

When security for the grading is provided for a development on the site where the grading is to be done, the bond for the grading required shall be released upon submission of evidence by the permittee to the Building Official that the grading work is complete and signed off by the Construction Engineer.

An agreement between the Redevelopment Agency, the Inland Valley Development Agency, or the San Bernardino International Airport Authority, and the City of San Bernardino, approved by the City Attorney and unconditionally providing and guaranteeing that said Agency shall provide those grading and other improvements and pay the costs thereof required, may be filed with the Building Official as security in lieu of said bond, cash or certificate of deposit wherever said project is located in a redevelopment project area and the agreement recites that the street improvements are in compliance with the Redevelopment Plan for said area and in furtherance of the public interest in promoting public or private development.

15.04.200 CBC Appendix J, Section J110.1.1 is added - Planting of Slopes

J110.1.1 Planting of Slopes. The Building Official may waive the planting of any slope less than 5 feet in vertical height. An automatic irrigation system shall be installed for planted slopes unless recommended otherwise in the preliminary soils report or waived by the Building Official. If required by the Building Official, a recommendation for types of planting materials shall be obtained from a Landscape Architect. The Landscape Architect shall, prior to final inspection, provide the Building Official with a statement that the planting has been done in accordance with his recommendations approved by the Building Official.

15.04.210 CBC Appendix J, Section J112 is added - Grading Operations

J112.1 General. All parties performing grading operations, under a grading permit issued by the Building Official, shall have verification of land use entitlement and shall take reasonable preventive measures, as directed by the Building Official and incorporated into the Grading Policy promulgated by the Community and Economic Development Department, to avoid earth or other materials from the premises being deposited onto adjacent streets or properties, by the action of storm waters or wind, by spillage from conveyance vehicles or by other causes.

Grading operations of 50 cubic yards or more shall be performed by qualified individuals/entities demonstrating proficiency in grading operations to the satisfaction of the Building Official or the Building officials designated representative or observed and supervised by such an individual. Typical qualified individuals would include a licensed contractor, geologist or engineer.

[\[Return to Municipal Code Contents\]](#)

J112.2 Removal of Materials Within 24 Hours. Earth or other materials which are deposited on adjacent streets or properties shall be completely removed by the permittee as soon as practical, but in any event within 24 hours after receipt of written notice from the Building Official, or NPDES Coordinator, or their designees, to remove the earth or materials, or within such additional time as may be allowed by written notice.

J112.3 Noncompliance. In the event that any party performing grading shall fail to comply with the requirements of this Section, the Building Official shall have the authority to engage the services of a contractor to remove the earth or other materials. All charges incurred for the services of the contractor shall be paid to the City by the permittee prior to acceptance of the grading.

(Ord. MC-1525, 01-15-20)

15.04.220 CBC Appendix J, Section J110.3 is added - Final Reports

J110.3 Final Reports. A statement from the Landscape Architect shall be submitted to the City Engineer stating that the planting and irrigation system(s) have been installed in accordance with his recommendations.

15.04.230 Driveway Configurations

Driveways to residential garages of more than 30 feet in length shall extend for a minimum distance of 20 feet from the garage on a maximum grade of 5%. Driveways less than 30 feet in length shall have a maximum grade of 8% for a minimum distance of 20 feet from the garage. No portion of a driveway shall exceed a grade of 20%.

Driveways shall be designed so that the algebraic difference in grades will not cause a car to drag or hang up.

15.04.240 Location of Slopes

Slopes shall be positioned on the downhill lot unless waived by the City Engineer.

15.04.250 Automatic Fire Sprinklers- Residential Additions

That Authority to require passive fire suppression (sprinklers) for residential additions will be determined by the acting Fire Authority based on availability of water and existing hydrants fire flow within the area of the proposed structure"

(Ord. MC-1525, 01-15-20)

15.04.260 Stop work order

- A. Any person, firm or corporation who continues work on a building or structure after a stop work order has been issued by any of the employees listed in San Bernardino Municipal Code Section 9.90.010 A2, 3, 4, 5, 6 or 8, shall be guilty of a misdemeanor.
- B. Each day during any part of which the activity prohibited by subdivision (a) of this section continues shall be a distinct and separate offense.

15.05.010 Citation of Sections

This chapter shall be known as the "Property Maintenance Code," and may be cited as such. For purposes of citation, the International Property Maintenance Code, 2018 Edition published by the International Code Conference; adopted by reference and amended by the City, is renumbered by adding "15.05." before each section.

(Ord. MC-1525, 01-15-20; Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.020 Section 102.3 amended

International Property Maintenance Code Section 102.3 is amended to read as follows:

102.3 "Repairs, additions or alterations to a structure, or changes of occupancy, shall be done in accordance with the procedures and provisions of the California Administrative Code, California Building Code, California Energy Code, California Historical Building Code, California Existing Building Code, California Fire Code, California Plumbing Code, California Mechanical Code, and California Electrical Code. Nothing in this code shall be construed to cancel, modify or set aside any provision of the San Bernardino Municipal Code."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.030 Section 103.1 amended

International Property Maintenance Code Section 103. 1 is amended to read as follows:

103.1 "The Chief of Police or the Director of Community Development or their authorized representatives shall be known as the code official as referenced in the International Property Maintenance Code."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.040 Section 104.3 amended

International Property Maintenance Code Section 104.3 is amended to add the following phrase to the end of the last sentence: "including the warrant provisions of Section 1822.50 et seq. of the Code of Civil Procedure of the State of California."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.050 Section 106.4 amended

International Property Maintenance Code Section 106.4 is amended to read as follows:

106.4 "Violation penalties. Any person violating any of the provisions of this title, including, but not limited to, adopted model codes, as amended in this title, shall be subject to the penalty provisions of Chapters 1.12, 9.92 and 9.93 of the San Bernardino Municipal Code."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.060 Section 107.1 amended

International Property Maintenance Code Section 107.1 is amended to read as follows:

107.1 "Notice to Person Responsible. Whenever the code official determines that there has been a violation of this code or has grounds to believe that a violation has occurred, notice shall be given in the manner prescribed in Sections 107.2 and 107.3, or in the manner provided by San Bernardino Municipal Code Section 9.92.050, to the person responsible for the violation as specified in this code. Notices for condemnation procedures shall also comply with Section 108.3."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.070 Section 111 amended

International Property Maintenance Code Section 111 and subsections are amended to read as follows:

111 "A party aggrieved by a notice or order issued under this code may appeal in the manner set forth in Chapter 9.94 of the San Bernardino Municipal Code."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.080 Section 112.4 amended

International Property Maintenance Code Section 112.4, Failure to comply, is

[\[Return to Municipal Code Contents\]](#)

amended to read as follows:

112.4 Failure to Comply "Any person, firm or corporation who continues work on a building or structure after a stop work order has been issued by any of the employees listed in [SBMC] 9.90.010 A(2, 3, 4, 5, 6 or 8) shall be guilty of a misdemeanor, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be liable to a fine of not less than one hundred dollars (\$100.00) and not more than one thousand dollars (\$1,000.00) for each day of the violation. Each day during any part of which the activity prohibited by subdivision 112. 1 of this section continues shall be a distinct and separate offense."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.090 Section 201.3 amended

International Property Maintenance Code Section 201.3 is amended to read as follows:

201.3 Definitions. "Where terms are not defined in this code and are defined in the California Administrative Code, California Building Code, California Residential Code, California Green Building Standards Code, California Energy Code, California Historical Building Code, California Existing Building Code, California Fire Code, California Plumbing Code, California Mechanical Code, or California Electrical Code, or any code adopted by reference under Chapter 15 of the San Bernardino Municipal Code, such terms shall have the meanings ascribed to them as stated in those codes."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.100 Section 302.4 amended

International Property Maintenance Code Section 302.4, paragraph number one, is amended to read as follows:

302.4 Weeds "Weed and rubbish abatement shall be as set forth in the San Bernardino Municipal Code, Chapter 8.30, Abatement of Public Nuisances."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.110 Section 302.9 amended

International Property Maintenance Code Section 302.9, defacement of property, is deleted.

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

[\[Return to Municipal Code Contents\]](#)

15.05.120 Section 304.3 amended

International Property Maintenance Code Section 304.3 is amended to read as follows:

304.3 Premises Identification "Premises identification shall be as set forth in the San Bernardino Municipal Code sections 12.32.030 and/or 15.16.126."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.130 Section 304.14 amended

International Property Maintenance Code Section 304.14 is deleted.

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.140 Section 304.18 amended

International Property Maintenance Code Section 304.18 is deleted.

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.150 Section 307 amended

International Property Maintenance Code Section 307, Handrails and guardrails, is amended to read as follows:

307 Handrails and Guardrails "Every exterior and interior flight of stairs shall have a handrail and guard per the requirements of the adopting code at the time the building was permitted. Handrails and guardrails shall be maintained in a safe and useful condition."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.160 Section 401.3 amended

International Property Maintenance Code Section 401. 3 is amended to read as follows:

401.3 Alternative Devices "In lieu of the means for natural light and ventilation herein prescribed, artificial light or mechanical ventilation complying with the California Building Code or California Residential Code shall be permitted."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

[\[Return to Municipal Code Contents\]](#)

15.05.170 Section 502.5 amended

International Property Maintenance Code Section 502.5, Public toilet facilities, is amended to read as follows:

502.5 Public Toilet Facilities "Public toilet facilities shall be maintained in a safe sanitary and working condition in accordance with the California Plumbing Code. Except for periodic maintenance or cleaning, public access and use shall be provided to the toilet facilities at all times during occupancy of the premises."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.180 Section 505.1 amended

International Property Maintenance Code Section 505. 1, Plumbing Fixture Connections, is amended to read as follows:

505.1 Plumbing Fixture Connections "General. Every sink, lavatory, bathtub or shower, drinking fountain, water closet or other plumbing fixture shall be properly connected to either a public water system or to an approved private water system. All kitchen sinks, lavatories, laundry facilities, bathtubs and showers shall be supplied with hot or tempered and cold running water in accordance with the California Plumbing Code."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.190 Section 602.2 amended

International Property Maintenance Code Section 602.2, Heating Facilities, is amended to read as follows:

602.2 Heating Facilities "Residential occupancies. Interior spaces intended for human occupancy shall be provided with permanently-installed heating facilities capable of maintaining a room temperature of 68 degrees F (20 C) in all habitable rooms."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.200 Section 602.3 amended

International Property Maintenance Code Section 602. 3, Heat supply, Exceptions #1 and #2 are deleted.

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.210 Section 602.4 amended

International Property Maintenance Code Section 602.4, Occupiable work spaces, is deleted.

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

[Return to Municipal Code Contents]

15.05.220 Section 604.2 amended

International Property Maintenance Code Section 604.2, Service, is amended to read as follows:

604.2 "Service. The size and usage of appliances and equipment shall serve as a basis for determining the need for additional facilities in accordance with the California Electrical Code. Dwelling units shall be served by a three- wire, 120/ 240 volt, single-phase electrical service having a rating of not less than 60 amperes."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.230 Section 604.3.1.1 amended

International Property Maintenance Code Section 604.3.1.1, Electrical equipment, is amended to read as follows:

604.3.1.1 Electrical Equipment "Electrical equipment. Electrical distribution equipment, motor circuits, power equipment, transformers, wire, cable, flexible cords, wiring devices, ground fault circuit interrupters, arc fault circuit interruptors, surge protectors, molded case circuit breakers, low-voltage fuses, luminaires, ballasts, motors and electronic control, signaling and communication equipment that have been exposed to water shall be replaced in accordance with the provisions of the California Electrical Code. The exception provisions of section 604.3.1.1 of the IPMC are hereby deleted."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.240 Section 604.3.2.1 amended

International Property Maintenance Code Section 604.3.2.1, Electrical equipment, is amended to read as follows:

604.3.2.1 Electrical Equipment "Electrical switches, receptacles and fixtures, including furnace, waterheating, security system and power distribution circuits, that have been exposed to fire, shall be replaced in accordance with the provisions of the California Building Code, or California Electrical Code."

The exception provisions of section 604.3.2.1 of the IPMC are hereby deleted.

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.250 Section 702.1 amended

International Property Maintenance Code Section 702.1, General, is amended to read as follows:

702.1 General "General. A safe, continuous and unobstructed path of travel shall be provided from any point in a building or structure to the public way. Means of egress

[\[Return to Municipal Code Contents\]](#)

shall comply with the California Fire Code, California Residential Code, or the California Building Code, whichever is more restrictive."

15.05.260 Section 702.2 amended

International Property Maintenance Code Section 702.2, Aisles, is amended to read as follows:

702.2 Aisles "Aisles. The required width of aisles in accordance with the California Fire Code, California Residential Code, California Building Code, or Civil Code 304.18, whichever is more restrictive, shall be unobstructed."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.270 Section 702.3 amended

International Property Maintenance Code Section 702.3, Locked doors, is amended to read as follows:

702.3 Locked Doors "Locked Doors. All means of egress doors shall be readily openable from the side from which egress is to be made without the need for keys, special knowledge or effort, except where the door hardware conforms to that permitted by the California Fire Code, California Building Code, or California Residential Code, whichever is more restrictive."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.280 Section 704.1 amended

International Property Maintenance Code Section 704.1, General, is amended to read as follows:

704.1 Fire Protection Systems "General. All systems, devices and equipment to detect a fire, actuate an alarm, or suppress or control a fire or any combination thereof shall be maintained in an operable condition at all times in accordance with the California Fire Code."

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

15.05.290 Section 704.2 amended

International Property Maintenance Code Section 704.2, Smoke alarms, is amended to read as follows:

704.2 Smoke Alarms "Smoke alarms. Smoke alarms shall be installed and maintained in accordance with the California Fire Code, California Residential Code, or the California Building Code, whichever is more restrictive

(Ord. MC-1521, 9-18-19; Ord. MC-1417, 10-05-15)

[\[Return to Municipal Code Contents\]](#)

15.05.300 Vacant Building Board-Up Standards

- A. Vacant and abandoned buildings shall be boarded pursuant to the following guidelines, which are modeled after, in part, guidelines of the United States Department of Housing and Urban Development:
1. Board Requirements.
 - a. All first floor windows and doors and all basement windows and doors should have plywood covering the entire opening and frame.
 - b. The covering should be secured with carriage bolts.
 - c. Any health and safety hazard caused by any protruding bolts used to secure boarding must be eliminated.
 - d. The use of nails is prohibited.
 - e. There shall be no boarding above the first floor unless entry is possible without use of a ladder, and the opening is large enough for a person to easily pass through; openings above the first floor that do not meet this test should be secured but not boarded.
 - f. If security bars are located on windows/doors, boarding is not required.
 - g. Opening too small for a person to pass through, particularly pet openings in doors, should be secured but not boarded.
 - h. To ensure that no hazards exist, remove all broken glass from the windows and surrounding interior and exterior areas.
 2. Specifications for Plywood Boarding
 - a. Exterior Plywood should be of un-sanded CDX grade.
 - b. Plywood thickness should be 1/2" for window openings, 5/8" for door openings and 3/4" for sliding door and French door openings. When extra large window openings are encountered use 5/8" or 3/4" as necessary.
 - c. All holes should be drilled to accommodate bolts. The holes in the top of the plywood should be 12" down from the top and 20% of the width of the plywood cover, in from the side.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 15 Contents\]](#)

- d. The holes in the bottom should be 25% of the height of the plywood, up from the bottom and the same distance in from the side as the top.
- e. Carriage bolts mated with nut and two three inch flat washers as shown in the side view. Washers to be of sufficient size to fully accept the square portion of bolt beneath head. Bolt and mating hardware may be galvanized or cadmium plated. 3/8" x 12" bolts should be supplied with each 2'8' door, 3'0" door, and glass sliding door cover. 3/8 x 10" bolts should be supplied with the rest.
- f. 2" x 4" lumber should be graded and should be a minimum of 16" longer than the width of the plywood cover. (Note: 2x4s will be drilled with 1/2" diameter holes that line up with the holes in the plywood covers).
- g. All windows and doors, except the front door, through which access to the interior of the dwelling is made, should be secured. All window boards will be cut to fit inside the concrete block or brick opening with a maximum 1/8" clearance. THE PLYWOOD COVERING SHOULD BE OF ONE CONTINUOUS PIECE WHEN POSSIBLE.
- h. All fabricated parts and ancillary materials become property of the Department of Housing and Urban Development.
- i. All coverings are to be fabricated according to the attached drawing and specifications.

3. Boarding Windows

- a. Except as noted below, all window sashes, frames, glass and hardware are to be undamaged by the boarding installation.
- b. All screen inserts are to be removed, marked as to location and stored in a convenient closet or in the utility room.
- c. In all cases where it is possible to adjust the position of the sashes to accommodate the specifications for boarding above, the sashes are to remain in the frame.
- d. In instances wherein the sashes cannot be adjusted to accommodate the boarding specifications above, the sashes are to be removed from the frames and stored in a convenient closet or in the utility room. This includes all stationary lights secured by stops.

- e. In cases wherein the sash cannot be removed and/or the frame is permanently built into the house and cannot be removed (i.e., Fenestra windows) it will be necessary to break the corner panes to accommodate the boarding and bolts. If the location of bolt holes, in the plywood, requires modification because of the muntin bar (a small bar that divides a windows glass), these locations are to be modified. In no case, in any type of window, is any sash or frame part to be damaged.
 - f. In all instances where items should be removed from the frame and stored, the items should be clearly marked as to the area from which it was removed.
 - g. All items are to be stored on edge and braced to prevent accidental tipping, sliding, etc. In no instance is any item to be stored laid flat.
 - h. Hinged windows are to be completely removed from the frame and stored as stated in (g) above. If possible the hinge pins are to be removed and remain with the removed item.
 - i. Faced nailing of panels to wood frame windows is prohibited.
- B. Any person violating any of the provisions of this Section shall be subject to the penalty provisions of Chapters 1.12, 9.92, and 9.93 of the San Bernardino Municipal Code.

(Ord. MC-1576, 5-04-22)

Chapter 15.08 LIQUEFACTION

Sections:

- 15.08.010 Findings**
- 15.08.020 Purpose**
- 15.08.030 Scope - Map**
- 15.08.040 Liquefaction Defined**
- 15.08.050 Reports Required**
- 15.08.060 Reserved**
- 15.08.070 Administration and Enforcement**
- 15.08.080 Compliance Required Prior to Issuance of Permits**
- 15.08.090 Appeal**

15.08.010 Findings

Local governing bodies are required to adopt policies for the protection of the community against geologic and seismic hazards pursuant to California Government Code Section 65302. The primary geologic and seismic hazards that could potentially affect San Bernardino include fault rupture, ground shaking historic high ground water, and soil matrix. These hazards could cause liquefaction resulting in extensive property damage and loss of life in susceptible areas of the City. Liquefaction reports plus mitigation measures for new development in susceptible areas will greatly reduce the risk of damage from liquefaction induced building failures during an earthquake occurrence.

(Ord. MC-676, 9-19-89)

15.08.020 Purpose

The purpose of this Code is to reduce the potential risk of property damage and loss of life due to liquefaction induced building failures during an earthquake occurrence by requiring liquefaction reports and mitigation measures for development in areas susceptible to liquefaction within this jurisdiction.

(Ord. MC-676, 9-19-89)

15.08.030 Scope - Map

Map is included in the General Plan indicating areas of liquefaction susceptibility. All new development projects, or structural modifications over twenty five percent (25%) of the building area, which are located within the areas of liquefaction susceptibility as determined by the latest adopted edition of the General Plan Map (Map) may be required to provide liquefaction reports and mitigation measures.

[\[Return to Municipal Code Contents\]](#)

The liquefaction susceptibility areas indicated on the map have a historic high ground water table within thirty (30) feet of the surface.

(Ord. MC-676, 9-19-89)

15.08.040 Liquefaction Defined

Liquefaction is defined as the transformation of a granular material from a solid state into a liquefied state as a consequence of increased pore-water pressures. Soils and clastic sediment with particle size in the medium sand to silt range, as determined by the Unified Soils Classification System, are particularly susceptible to liquefaction when they are saturated with water and shaken by an earthquake. Liquefaction at or near the surface can result in foundation failure and property damage.

(Ord. MC-676, 9-19-89)

15.08.050 Reports Required

- A. A liquefaction report plus mitigation measures prepared by a Registered Civil Engineer shall be required by the Director of Community and Economic Development for new construction or structural modification of more than twenty-five percent (25%) of the building area for the buildings or structures listed below which fall within the high liquefaction susceptibility areas as indicated on the Map:
1. Essential facilities, as defined in Section Table 1604.4 of the California Building code, including but not limited to hospitals and other emergency medical facilities, fire and police stations, and government disaster operation and communication centers.
 2. Buildings where the primary occupancy is for assembly use for more than fifty (50) persons in one room.
 3. Buildings over two stories in height.
 4. Buildings with the following occupancies, as listed in the California Building Code:
 - a. Group A, (Assembly) Divisions 1, 2 and 2.1;
 - b. Group E, (Educational) Division 1;
 - c. Group H, (High Hazard) Divisions 1 and 2; and

[\[Return to Municipal Code Contents\]](#)

- d. Group I, (Institutional) Divisions 1 and 2.
- 5. Buildings with an occupant load of more than 300, as determined by Table 1004.1.2 of the California Building Code.
- 6. Underground tanks of more than 5,000 gallons, for storage of toxic, hazardous or flammable materials.
- 7. Tanks with a height of more than 35 feet.
- 8. Towers with a height more than 35 feet.

(Ord. MC-1525, 01-15-20; Ord. MC-1027, 9-09-98; Ord. MC-676, 9-19-89)

15.08.060 Reserved

Ord. MC-1525, 01-15-20;

15.08.070 Administration and Enforcement

The Director of Development Services shall promulgate written procedures, regulations, guidelines and fees pertaining to the implementation and enforcement of this Chapter. Such procedures, regulations, guidelines and fees shall not become effective until they have been approved by the Mayor and Common Council.

(Ord. MC-1027, 9-09-98; Ord. MC-676, 9-19-89)

15.08.080 Compliance Required Prior to Issuance of Permits

Any person, business, organization or corporation failing to provide the required liquefaction reports and mitigation measures to the Director of Development Services in compliance with this Chapter shall be denied issuance of grading and building permits.

(Ord. MC-1027, 9-09-98; Ord. MC-676, 9-19-89)

15.08.090 Appeal

Any interested person aggrieved by the determination of the Director of Development Services may appeal the decision to the Mayor and Common Council in accordance with the provisions of Chapter 2.64 of this Code.

(Ord. MC-1027, 9-09-98; Ord. MC-676, 9-19-89)

Chapter 15.10 FOOTHILL FIRE ZONE BUILDING STANDARDS

Sections:

- 15.10.020 Purpose**
- 15.10.030 Very High Fire Hazard Severity Zones**
- 15.10.040 Scope**
- 15.10.060 Applicability**
- 15.10.080 Applicable Building Standards**

15.10.020 Purpose

The purpose of this Chapter is to promote public safety and welfare by reducing the risk of injury, death, or property damage that may result from wild-land fires in the foothill areas of the City. The building standards contained in this Chapter are intended to prevent the ignition of, or otherwise reduce the spread of fire on developed properties, by controlling the use of materials and methods of construction.

(Ord. MC-1163, 1-23-04; Ord. MC-1162, 1-06-04; Ord. MC-960, 3-06-96)

15.10.030 Very High Fire Hazard Severity Zones

Very High Fire Hazard Severity Zones are hereby designated in the City of San Bernardino as recommended by the Director of the California Department of Forestry and Fire Protection within the City of San Bernardino as depicted on a map titled [City of San Bernardino Very High Fire Hazard Severity Zones](#) dated October 29, 2008, on file at the office of the City Clerk, 300 N. D Street, San Bernardino, California.

(Ord. MC-1309, 7-06-09)

15.10.040 CBC Section 701A.3.2 is added— Existing Structures

701A.3.2 Existing Structures. For existing structures, retrofitting of an element is required when more than 60% replacement of that element occurs. An addition to an existing structure need not comply with these standards if the addition does not exceed 60% of the floor area of the existing structure and the existing structure was not required to meet these construction standards when originally constructed. Retrofitting of an entire structure is required when a combination of elements are replaced or other repairs are made equal in value to 60% or more of the replacement cost of the structure as determined by the building official. Alterations made to a structure shall not increase the degree of non-conformity in regards to these standards.

Ord. MC-1395, 1-06-14; Ord. MC-1337, 11-15-10

[\[Return to Municipal Code Contents\]](#)

15.10.060 Applicability

The requirements of this Chapter shall apply to those properties located in Foothill Fire Zones A, B, or C as defined in Chapter 19.15 and those properties located in a Very High Fire Hazard Severity Zone as designated by the State of California.

(Ord. MC-1262, 12-18-07; Ord. MC-1261, 12-04-07; Ord. MC-1163, 1-23-04;
Ord. MC-1162, 1-06-04; Ord. MC-960, 3-06-96)

15.10.080 Applicable Building Standards

The building standards contained in the California Building Code, Chapter 7A, shall apply in the Foothill Fire Zones and in state designated Very High Fire Hazard Severity Zones. In addition, the following requirements shall apply as noted herein:

- A. Fencing shall be of approved noncombustible or ignition-resistant material.
- B. Vinyl window frame assemblies shall have the following characteristics:
 - 1. Frames shall have welded corners and metal reinforcement in the interlock area;
 - 2. Dual-paned insulated glazed units with at least one pane of tempered glass;
 - 3. Frame and sash profiles are certified in AAMA Lineal Certification Program (verified by an AAMA product label or a Certified Products Directory);
 - 4. Certified and labeled to ANSI/AAMA/NWWDA 101/I.S.2-97 for structural requirements.
- C. Roof mounted turbine vents shall not be permitted
- D. All roof coverings shall be of non-wood materials with at least a Class A fire-retardant rating.

(Ord. MC-1525, 01-15-20; Ord. MC-1395, 1-06-14; Ord. MC-1337, 11-15-10;
Ord. MC-1262, 12-18-07; Ord. MC-1261, 12-04-07; Ord. MC-1163, 1-23-04;
Ord. MC-1162, 1-06-04; Ord. MC-960, 3-06-96)

Chapter 15.11
BUILDING SAFETY ENHANCEMENT AREA
BUILDING STANDARDS

Sections:

15.11.020 Purpose

15.11.040 Scope/Applicability

15.11.080 Building Safety Enhancement Area Building Standards

15.11.020 Purpose

The purpose of this Chapter is to promote public safety and welfare by reducing the risk of injury, death, or property damage that may result from urban conflagrations spread by high winds. The building standards contained in this Chapter are intended to prevent the ignition of, or otherwise reduce the spread of urban fire by controlling the use of materials and methods of construction.

15.11.040 Scope/Applicability

The Building Safety Enhancement Area Building Standards shall apply to all newly constructed buildings, structures, or appurtenances outside the Foothill Fire Zones (as defined in Chapter 19.15) and located in any of the following areas:

- A. Those areas of the City designated by Council Resolution after a noticed public hearing as being located within a Building Safety Enhancement Area as follows:
 - 1. Four or more abutting (as defined in Chapter 19.02 of the Development Code) parcels with at least four dwellings with each dwelling damaged over 60% by fire or other catastrophe.
 - 2. All dwellings and commercial structures damaged over 60% by fire or other catastrophe that are located within a block (as defined in Chapter 19.02 of the Development Code) in which 50% or more of the dwellings and commercial structures have each incurred damage over 60% by fire or other catastrophe.
- B. Those new residential housing tracts comprised of four or more dwelling units for which building permit applications are submitted after the effective date of this ordinance.
- C. Those new commercial structures that are 5,000 square feet or larger, for which building permit applications are submitted after the effective date of this ordinance.

[\[Return to Municipal Code Contents\]](#)

15.11.080 Building Safety Enhancement Area Building Standards

- A. Exterior walls. Exterior walls shall be constructed of non-combustible materials or shall provide the equivalent to a minimum of 1-hour fire resistance rated construction on the exterior side.
- B. Eaves. Eaves shall be enclosed with a minimum 7/8 inch stucco or equivalent protection.
- C. Exterior glazing. Exterior glazing shall comply with the provisions of the California Building Code and with the following additional requirements:
 - 1. Exterior windows, window walls and glazed doors, and windows within exterior doors, shall be tempered glass, or multi-layered glass panels (dual- or triple-paned), or other assemblies approved by the Building Official.
 - 2. Vinyl window frame assemblies shall be prohibited, except when they have the following characteristics:
 - a) Frame and sash are comprised of vinyl material with welded corners;
 - b) Metal reinforcement in the interlock area;
 - c) Glazed with insulated glass or tempered;
 - d) Frame and sash profiles are certified in AAMA Lineal Certification Program (verified with either an AAMA product label or Certified Products Directory); and
 - e) Certified and labeled to ANSI/AAMA/NWDA 101/I.S.2-97 for structural requirements.
 - f) Except when needed to meet the requirements of the California Energy Code at Title 24, Part 6 of the California Code of Regulations.
- D. Garage Doors. Garage doors shall be constructed of noncombustible materials or fire retardant treated wood.
- E. Vents.
 - 1. All vents shall be covered with 1/8 inch mesh corrosion-resistant metal screen or other approved material that offers equivalent protection.
 - 2. Roof-mounted turbine vents shall not be permitted.

[\[Return to Municipal Code Contents\]](#)

- F. Insulation. Paper-faced insulation shall be prohibited in attics or ventilated spaces.
- G. Roof covering. All roof covering shall be of non-wood materials with at least a Class A or B fire-retardant rating. The open ends of high-profile tile roofs shall be capped with non-ignitable material to prevent birds' nests or other combustible material from accumulating. Gutters and downspouts shall be constructed of non-combustible material.
- H. Fences. Where wood or vinyl fencing is used, there shall be a minimum of 5' separation between the wood or vinyl fencing and the wall of the nearest structure except on those properties where previous construction occurred pursuant to a previous Code. Fencing within the 5' separation area shall be of non-combustible material or 1-hour fire-resistance-rated construction.

[\[Return to Municipal Code Contents\]](#)

15.12.200 Sign Posting

- A. Any building owner who has received actual or constructive notice from the Building Official that a building located in the City of San Bernardino is constructed of unreinforced masonry, shall post in a conspicuous place at the entrance of said building, on a sign not less than 5" x 7" the following statement, pursuant to Government Code Section 8875.8, printed in not less than 30-point bold type:

This is an unreinforced masonry building. Unreinforced masonry buildings may be unsafe in the event of a major earthquake.

- B. Pursuant to Government Code Section 8875.9, this section shall not apply to unreinforced masonry construction if the walls are non-load bearing with steel or concrete frame.
- C. Section 15.74.010 of the San Bernardino Municipal Code shall not apply to any violation of this section.
- D. If the owner of a building is not in compliance with the posting requirements of subsection A above on or after December 31, 2004, and the owner has received actual or constructive notice from the Building Official that their building is of unreinforced masonry construction and has not been retrofitted to the standards identified in Section 15.12.010, the owner shall post and maintain in a conspicuous place at the entrance of the building, a sign not less than 8"x10" with the following statement, with the first two words printed in 50-point bold type and the remaining words in at least 30-point type:

"Earthquake Warning. This is an unreinforced masonry building. You may not be safe inside or near unreinforced masonry buildings during an earthquake." The posting shall be visible from the exterior entrance of the building.

An owner who is subject to this section and who does not comply with the posting requirements shall be subject to an administrative citation pursuant to San Bernardino Municipal Code Chapter 9.92 and subject to an administrative fine of two hundred fifty dollars (\$250) no sooner than 15 days after notification by the Building Official that the owner is subject to the administrative fine. Thereafter, if the owner does not comply with and maintain compliance with the posting requirements, within 30 days of the first administrative fine, the owner shall be subject to an additional administrative citation and an additional administrative fine of one thousand dollars (\$1000).

(Ord. MC-1215, 2-22-06; Ord. MC-1053, 8-04-99)

[\[Return to Municipal Code Contents\]](#)

15.12.300 Vacant Unreinforced Masonry Buildings

- A. Any unreinforced masonry building that has been continuously vacant or abandoned for a period of one year or more shall be strengthened to comply with the standards identified in Section 15.12.010 prior to re-occupancy. A vacancy, as determined by the Building Official, has occurred when there is no lawful occupancy or business activity within the structure for one year. The lack of business registration records, business receipts, utility and other records for a given period may be used to determine if a vacancy has occurred.
- B. Any unreinforced masonry building that has been continuously vacant or abandoned for a period of three (3) years or more shall be considered a public nuisance and shall be subject to abatement as a public nuisance in accordance with Chapter 8.30 of this Code. Once deemed to be a public nuisance the building shall be strengthened in accordance with the standards identified in Section 15.12.010, or demolished, or the hazards associated with the building shall be otherwise mitigated to the satisfaction of the Building Official.

²On July 1, 2016 the City of San Bernardino annexed into the San Bernardino County Fire Protection District. The County Fire Code, and other ordinances, were ratified by the Mayor and Common Council pursuant to Ord. MC-1422.

[\[Return to Municipal Code Contents\]](#)

15.20.010 Purpose

The purpose of this Chapter is to protect the public from unsafe and substandard buildings, to prevent the deterioration of buildings, and to prevent future blight and decline of property values through a program of required inspection and certification.

(Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

15.20.020 Definitions

Except as otherwise defined in this Chapter, all terms used in this Chapter which are defined by applicable State law, the Uniform Code, or this Code, are used in this Chapter as so defined, unless from the context it clearly appears that a different meaning is intended:

1. Occupant means any person who occupies a unit, building, structure, or property whether as an owner, or tenant or permittee of the owner.
2. Occupancy means the purpose for which a building, structure, or property is used or intended to be used.
3. Owner means any person having a legal or equitable interest in the property.
4. Person means an individual, partnership, corporation, association or organization, or the agent of any of the foregoing.

(Ord. MC-1372, 4-17-12; Ord. MC-1027, 9-09-98;
Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

15.20.030 Certificate of Occupancy Required

- A. Buildings and Structures. No relocated, or hereafter erected structure shall be occupied, or no change in occupancy shall be inaugurated until a Certificate of Occupancy has been issued by the Department of Community Development.
- B. Valid Certificate. A Certificate of Occupancy or temporary Certificate of Occupancy shall not be deemed to be valid if it has expired, been denied, withheld, revoked, failed to pass a fire inspection, or a new Certificate of Occupancy was required but had not been obtained.

[Return to Municipal Code Contents]

- C. Posting Certificate. The owner of the business, building or structure shall display this certificate in a conspicuous place. In addition, the owner of a building or structure shall provide a copy of the certificate to all lessees, renters and purchasers of the property.

(Ord. MC-1373, 5-24-12; Ord. MC-1027, 9-09-98; Ord. MC-782, 5-03-91;
Ord. MC-781, 4-22-91; Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

15.20.040 Conditions Requiring Application

A new Certificate of Occupancy shall be required whenever:

1. A new building is constructed.
2. A change in use affecting a building's existing zoning approval or conformity, or a change in the nature of use of a building which would place it in a different occupancy classification, or division thereof.
3. A building or structure has been vacant for more than 180 days.
4. Whenever a building is ordered to be vacated by the Building Official due to substandard or dangerous conditions.
5. Undeveloped or vacant property is to be used or occupied.

(Ord. MC-1373, 5-24-12; Ord. MC-880, 6-23-93; Ord. MC-782, 5-03-91;
Ord. MC-781, 4-22-91; Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

15.20.050 Application Process

- A. The owner shall file a written application accompanied by payment of a fee with the Community Development Department prior to use or occupancy of the premises or thirty (30) days prior to expiration of an existing Certificate of Occupancy or temporary Certificate of Occupancy. The Building Official shall cause an inspection to be made of the premises within ten (10) working days for compliance with City codes. If the premises are in compliance with said codes, the Building Official shall issue a Certificate of Occupancy.
- B. When an inspection discloses that the premises are not in compliance with the codes, the Building Official shall give written notice of each deficiency to the owner. No Certificate of Occupancy shall be issued to the owner until all deficiencies are corrected. If the owner fails to correct all said deficiencies within sixty (60) days after the original application was filed, the application shall expire and a new application, plus fees, will be required.

[Return to Municipal Code Contents]

C. The owner shall be responsible for making the premises available for inspection by the City.

(Ord. MC-1373, 5-24-12; Ord. MC-1027, 9-09-98; Ord. MC-741, 9-17-90;
Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

15.20.070 Temporary Certificate of Occupancy

If the Building Official finds that no substantial hazard will result from use or occupancy of any building or portion thereof, any structure or any vacant property, and upon a showing of good cause by the owner, the Building Official may issue a temporary certificate of occupancy for up to 180 days. When a temporary certificate of occupancy is issued for more than thirty (30) days, the Building Official shall require a cash bond payable to the City in an amount equal to the cost of doing the required work as determined by the Building Official.

(Ord. MC-1373, 5-24-12; Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

15.20.080 Revocation of Certificate of Occupancy

The Building Official, in writing, may deny or revoke a certificate of occupancy when it is determined that the building, structure, or property is in violation of the codes, or when the certificate was issued in error or on false information supplied by the applicant. The certificate of occupancy is automatically revoked when there is a change of use or occupancy classification, when the building or structure has been vacant for more than 180 days, or when a building is ordered vacated by the Building Official due to substandard or dangerous conditions.

(Ord. MC-1373, 5-24-12; Ord. MC-880, 6-23-93;
Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

15.20.090 Hearings

Any person aggrieved by the revocation of any certificate of occupancy by the Building Official may appeal that decision in the manner set forth in Chapter 9.94 of this Code, as such revocation is an administrative enforcement action. Any person aggrieved by the denial of a certificate of occupancy may appeal that decision in the manner set forth in Chapter 2.45 of this Code, as such denial is an order, decision, or determination of the Building Official relating to the building standards of the California Building Standards Code.

(Ord. MC-1521, 9-18-19; Ord. MC-1373, 5-24-12;
Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

[\[Return to Municipal Code Contents\]](#)

15.20.100 Connection/ Disconnection of Utilities

Buildings, structures or property shall be issued a certificate of occupancy or a temporary certificate of occupancy prior to connection of public utilities. The Building Official may approve the connection of utilities prior to the issuance of a certificate of occupancy when requested in writing by the applicant for good cause shown, and when he finds that no unsafe conditions exist or will be created by such connection.

The Building Official may disconnect or order discontinuance of any utility service to any buildings, structures, or premises lacking a valid certificate of occupancy or a valid temporary certificate of occupancy pursuant to the State Codes.

(Ord. MC-1373, 5-24-12; Ord. MC-880, 6-23-93;
Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

15.20.110 Violation

Any person who violates or causes the violation of any provision of this Chapter shall be deemed guilty of a misdemeanor, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

(Ord. MC-1373, 5-24-12 Ord. MC-671, 7-26-89; Ord. MC-670, 7-19-89)

Chapter 15.24 PROPERTY MAINTENANCE REQUIREMENTS

Sections:

- 15.24.010 Findings**
- 15.24.020 Purpose**
- 15.24.030 Definitions**
- 15.24.040 Property Maintenance Requirements For Single Family Residences, Multi-Residential, Commercial and Industrial Property**
- 15.24.050 Enforcement-Penalty**
- 15.24.060 Severability**

15.24.010 Findings

The citizens of San Bernardino have become increasingly concerned with the unsightliness, the deterioration, and the degradation of certain properties, whether residential, commercial or any other zoning designation in their neighborhoods and have sought the help of City government in their effort to preserve their neighborhoods. Local governments have the authority to establish minimum requirements for property maintenance to protect the health, safety and appearance of neighborhoods. Enforcement

[\[Return to Municipal Code Contents\]](#)

of these minimum maintenance requirements can reduce and eliminate blight and deterioration of neighborhoods, protecting both property values and neighborhood integrity. The Mayor and Common Council hereby find that the deterioration of neighborhoods by the failure to maintain properties to minimum standards results in an adverse effect on the health, safety and welfare of the citizens of this City.

(Ord. MC-1292, 2-03-09; Ord. MC-679, 9-19-89)

15.24.020 Purpose

The purpose of this Chapter is to establish and enforce minimum maintenance standards for all property within the City in order to protect and preserve neighborhood integrity.

(Ord. MC-1292, 2-03-09; Ord. MC-679, 9-19-89)

15.24.030 Definitions

For the purpose of this chapter, unless otherwise apparent from context, certain words and phrases used in this chapter shall have the meanings hereinafter designated. The definitions in this chapter are included for reference purposes only and are not intended to narrow the scope of definitions set forth in applicable laws or regulations. All terms used in this chapter which are not defined in this section, but are defined by applicable laws, shall have the same meaning as the definition in the applicable law, unless from context it clearly appears that a different meaning is intended.

1. "Applicable Laws" means any applicable state or federal law, any uniform or state codes adopted by the San Bernardino Municipal Code, including but not limited to the California Building Code, Uniform Housing Code, Uniform Code for the Abatement of Dangerous Buildings, and California Fire Code.
2. "Graffiti" means any inscription, word, figure, mark or design that is written, marked, etched, scratched, drawn or painted on real property, buildings, structures (permanent or temporary), or other fixtures thereon, or on any personal property placed on such real property, including vehicles.
3. "Inoperable or Abandoned Vehicle" means any vehicle, operative or inoperative that is:
 - (a) mechanically incapable of being driven; or
 - (b) prohibited from being operated on a public street or highway pursuant to the provisions of the California Vehicle Code concerning license plates, registration, equipment, safety and related matters; or

[\[Return to Municipal Code Contents\]](#)

(c) has been left by the owner or responsible person for over seventy-two hours and has indicia of being inoperable, including but not limited to, flat or deflated tires, cobwebs, and accumulated dirt, trash or debris in and on the vehicle; or

(d) wrecked and/or dismantled.

4. "Owner" means any person having a legal or equitable interest in the property.
5. "Person" means an individual, partnership, corporation, association or organization, or the agent of any of the foregoing.
6. "Property" means any real property zoned for any of the uses set forth in the Development Code and includes sidewalks and parkways adjacent to the property.
7. "Recreational Vehicle" means any vehicles towed or self-propelled on its own chassis or attached to the chassis of another vehicle and designed or used for recreational or sporting purposes or exclusively for hauling personal property.

The term "recreational vehicle" includes, but is not limited to motor homes, fifth-wheels, campers, camp trailers, trailers, boats, water craft, and all terrain vehicles.

8. "Visible" means viewable from the public right of way, from property open to the general public, common areas on a property or viewable from another property in proximity to the property in question.

(Ord. MC-1292, 2-03-09; Ord. MC-1187, 10-05-04; Ord. MC-679, 9-19-89)

15.24.040 Maintenance requirements for single family residences, multi-residential, commercial and industrial property

Any person owning, renting, occupying, managing, or otherwise having charge of any single family residence, multi-residential, commercial and industrial property shall maintain the property in accordance with the following minimum standards. Failure to comply with these minimum standards shall constitute a violation of this Code.

A. Exterior Requirements.

1. **Lack of Landscaping.** All required setbacks abutting a public right-of-way and front and visible side yards shall be landscaped (except for improved surfaces including, but not limited to walks and driveways) with trees, shrubs, ground cover, decorative rock, redwood bark and/or grass.

[\[Return to Municipal Code Contents\]](#)

2. Unmaintained Landscaping. Trees, shrubs, lawns and other planted vegetation shall be maintained, including regular irrigation, pruning of trees, trimming of shrubs and cutting of lawns.
3. Weeds, Dry Brush and Overgrown Vegetation. Property shall be free of overgrown or dead vegetation, including, but not limited to weeds, trees or limbs, bushes and other planted vegetation. Weeds include sage brush, dry grass, chaparral and any other brush or vegetation which attains extensive growth and becomes a fire menace when dry.
4. Trash, Debris and Improper Storage. Property shall be free of trash, litter, debris, packing boxes, lumber, junk, salvage materials (except where otherwise permitted by this code), broken or inoperative furniture, appliances, machinery, equipment, any furniture (except for furniture specifically designed for outdoor use) including, but not limited to furniture on porches, balconies, sun decks and in front yards, and any other improperly stored personal property causing an unsightly appearance.
5. Vehicle and Recreational Vehicle Storage. All operable vehicles and recreational vehicles shall be parked or stored in designated, screened areas, a garage, carport or on an improved surface. None of the above shall be occupied.
6. Inoperable and Abandoned Vehicles. Property shall be free of inoperable or abandoned vehicles and parts of vehicles unless they are safely stored in a garage or other enclosed storage area. This section shall not apply to a vehicle, or part thereof, which is stored or parked in a lawful manner on private property in connection with the lawfully authorized and permitted business of a licensed dismantler, licensed vehicle dealer or a licensed junkyard; provided however that this exception shall not authorize the maintenance of a public or private nuisance as defined by applicable laws.
7. Condition of Structures. All improvements on the property, including, but not limited to buildings, garages, carports, porches, gates, fences, doors, windows, roofs, gutters, signs, permanent or temporary structures, stairs, handrails, retaining walls and trash enclosures shall be painted/preserved and maintained in good repair and condition. Paint or preservatives shall not be worn, peeling or cracking.

[\[Return to Municipal Code Contents\]](#)

8. Improved Surfaces. Walkways on private property, driveways, parking areas and all improved surfaces shall be maintained in good repair and safe condition. Parking lot striping and handicap markings shall be maintained in good condition.
 9. Graffiti. Buildings, structures, sidewalks, driveways, other improved surfaces and any other personal property placed on real property, including vehicles, shall be free of graffiti.
 10. Rodent and Vermin Control. Property shall be free from infestation of termites, insects, vermin or rodents.
 11. Sewage. Improved property shall be properly connected to a sewage disposal system or a sanitary sewer and free from sewage seepage.
 12. Pools and Spas Pools and spas shall be securely fenced and adequately maintained in accordance with the Development Code and other applicable laws.
 13. Construction. All buildings or structures in a state of partial construction, repair or rehabilitation shall have an active/valid permit and shall be completed during the term of an active/valid building permit or other time frame ordered by the City. The owner or responsible person shall be progressing diligently to complete the repair, construction or rehabilitation of the building or structure.
 14. Fencing. All fencing shall be constructed in compliance with the Development Code and other applicable laws with acceptable fencing materials such as wood, vinyl, masonry or wrought iron.
- B. Interior Requirements. The interiors of all buildings and structures on the property, both existing and new, and all parts thereof, shall be maintained in good repair and safe, sanitary conditions in conformance with the building code under which it was built or remodeled and any retroactive codes.

(Ord. MC-1292, 2-03-09; Ord. MC-679, 9-19-89)

15.24.050 Enforcement -Penalty

- A. Any person who violates or causes violation of any provision of this Chapter shall be deemed guilty of an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.

[\[Return to Municipal Code Contents\]](#)

- B. Nothing in this Chapter shall be deemed to prevent the City Attorney from commencing a civil action to abate a nuisance in addition to, alternatively to, or in conjunction with the proceedings set forth in this Chapter; nor shall anything in this Chapter be deemed to prevent the City from commencing a criminal action with respect to the nuisance in addition to, alternatively to, or in conjunction with the proceedings set forth in this Chapter, or other ordinance, statute or state law.
- C. Payment of any fine or service of jail sentence herein provided shall not relieve a person, firm, partnership, corporation, or other entity from the responsibility of correcting the condition resulting from the violation. In addition to the above penalties, the Court may order that the guilty party reimburse the City for all costs of investigating, analyzing and prosecuting the enforcement action against the guilty party. The Court shall fix the amount of any such reimbursement upon submission of proof of such costs by the City.

(Ord. MC-1292, 2-03-09; Ord. MC-1029, 9-22-98; Ord. MC-679, 9-19-89)

15.24.060 Severability

The provisions of this Chapter are severable, and if any sentence, section, or other part of this Chapter should be found to be invalid, such invalidity shall not affect the remaining provisions, and the remaining provisions shall continue in full force and effect.

(Ord. MC-1292, 2-03-09; Ord. MC-679, 9-19-89)

Chapter 15.25 MULTI-FAMILY RENTAL HOUSING FIRE INSPECTION PROGRAM

Sections:

- 15.25.010 Purpose**
- 15.25.020 Definitions**
- 15.25.030 Scope**
- 15.25.040 Annual Inspection Required**
- 15.25.050 Administrative Citations**
- 15.25.080 Enforcement-Public Nuisance**
- 15.25.090 Enforcement-Alternatives**

15.25.010 Purpose

The Multi-family Rental Housing Fire Inspection Program is a part of the City of San Bernardino's overall effort to encourage upkeep of multi-family rental housing units. Owners of these types of structures will be required to maintain these units in accordance with applicable housing, building and property maintenance standards

[\[Return to Municipal Code Contents\]](#)

as adopted by the City. Recent fires in the City have resulted in property damage, personal injuries, and loss of life in multi-family rental housing units. California Health and Safety Code Section 13146.2 (a) requires city fire departments to inspect multifamily rental housing units annually.

(Ord. MC-1176, 7-22-04; Ord. MC-930, 1-11-95).

15.25.020 Definitions

- A. "City" means the City of San Bernardino.
- B. "Occupant" means any person who occupies a unit, whether as an owner or tenant or permittee of the owner.
- C. "Multi-family Rental Housing Unit" or "Unit" means any residential dwelling unit, as defined in Chapter 19.02 of the San Bernardino Development Code, in a single structure, or in a group of attached or detached structures containing two or more such dwelling units on the same parcel of land, and is occupied or intended to be occupied on a rental basis. For the purpose of this Chapter, the following types of dwelling units or facilities are not considered multi-family rental housing units:
 - a) Hotels or motels.
 - b) Accommodations in any hospital, extended care facility, residential care facility, convalescent home, nonprofit home for the aged, or dormitory that is owned and operated by an education institution.
 - c) Mobile Home Parks.
- D. "Multi-family Rental Housing Complex" means a multi-unit residential structure consisting of four (4) or more units existing on one (1) parcel of land.
- E. "Owner" means a single individual or entity that has any kind of ownership interest whether as an individual, partner, joint venturer, stock owner, or some other capacity.
- F. "Person" means the individual, partnership, corporation or association or the rental agent of any of the foregoing.
- G. "Fire Marshal" means the division head of the San Bernardino City Fire Department Fire Prevention Division or his/her designee.

(Ord. MC-1176, 7-22-04; Ord. MC-1027, 9-09-98; Ord. MC-930, 1-11-95)

[\[Return to Municipal Code Contents\]](#)

15.25.030 Scope

The provisions of this Chapter shall apply to all multi-family rental housing complexes containing four or more units on a single parcel.

(Ord. MC-1176, 7-22-04; Ord. MC-930, 1-11-95)

15.25.040 Annual Inspection Required

- A. Pursuant to California Health and Safety Code Section 13146.2, any multi-family rental housing complex containing four or more units on a single parcel shall be subject to an annual inspection of the interior and exterior by the Fire Marshal for compliance with applicable sections of state and local fire codes relating to housing, building and property maintenance.
- B. The Fire Marshal shall mail written notice to the owner(s) of the multi-family rental housing complex at least three weeks before the scheduled annual inspection. The owner(s) of the multi-family rental housing complex shall give written notice to all tenants at least one week before the scheduled annual inspection.
- C. The owner(s) of the multi-family rental housing complex shall pay a fee to the City, in an amount set by Resolution of the Common Council, sufficient to pay the costs of the Fire Marshal's annual inspection pursuant to this Chapter.
- D. Any owner(s) of a multi-family rental housing complex who fails to permit the annual inspection by the Fire Marshal pursuant to this Chapter, shall be guilty of an infraction or misdemeanor punishable in accordance with San Bernardino Municipal Code Chapter 1.12.
- E. Any owner(s) of a multi-family rental housing complex who fails to pay the fee charged for the costs of the Fire Marshal's annual inspection pursuant to this Chapter, shall be guilty of an infraction punishable in accordance with San Bernardino Municipal Code Chapter 1.12.

(Ord. MC-1176, 7-22-04)

15.25.050 Administrative Citations

Where the Fire Marshal's annual inspection pursuant to this Chapter identifies a violation(s) of state or local fire codes relating to housing, building, or property maintenance, the Fire Marshal may issue an administrative citation to the property owner(s) in accordance with San Bernardino Municipal Code Chapter 9.92.

(Ord. MC-1176, 7-22-04)

[Return to Municipal Code Contents]

15.25.080 Enforcement-Public Nuisance

It shall be considered a public nuisance to have or maintain any rental property which fails to comply with state and local laws as they relate to fire codes, housing standards, property maintenance, building codes or local zoning requirements. The Fire Marshal shall have the power to require correction of violations identified through the annual inspection by using the procedure set forth in the California Fire Code Article 1 and Chapter 8.30 of the San Bernardino Municipal Code.

(Ord. MC-1176, 7-22-04; Ord. MC-930, 1-11-95).

15.25.090 Enforcement-Alternatives

- A. Nothing herein shall prevent the enforcement of this Chapter by criminal, civil or administrative actions either undertaken individually or in conjunction with other remedies.
- B. The enforcement of this Chapter by a criminal, civil or administrative action shall not relieve the property owner of his or her obligations under this Chapter.

(Ord. MC-1176, 7-22-04; Ord. MC-930, 1-11-95).

Chapter 15.26 **SINGLE-FAMILY RENTAL PROPERTY INSPECTION PROGRAM**

Sections:

- 15.26.160 Enforcement-Public Nuisance**
- 15.26.170 Enforcement-Alternatives**
- 15.26.180 Penalties**

[\[Return to Municipal Code Contents\]](#)

15.26.010 Purpose

The Single-Family Rental Property Inspection Program is a part of the City of San Bernardino's overall effort to encourage upkeep of all rental property as defined herein. Owners of any rental property will be required to maintain these units in accordance with all applicable laws.

15.26.020 Applicability

The provisions of this chapter shall apply to all single-family rental property, as that term is defined herein, within the City. This chapter also applies to the premises on which a rental property is located, including but not limited to parking lots, driveways, landscaping, accessory structures, fences, walls, swimming pools, hot tubs, and spas.

The provisions of this chapter are supplementary and complementary to other provisions of this code and applicable laws. Nothing in this chapter may be construed to limit any existing right of the City to abate nuisances or to enforce any provisions of applicable law, statute or this Code, including provisions of uniform codes adopted by reference in this Code.

15.26.030 Rebuttable Presumption (Repealed by Ord.MC-1371, 3-20-12)

15.26.040 Definitions

For the purpose of this chapter, unless otherwise apparent from their context, certain words and phrases used in this chapter shall have the meanings hereinafter designated. The definitions in this chapter are included for reference purposes only and are not intended to narrow the scope of definitions set forth in federal or state laws or regulations. Words used in this chapter in the singular may include the plural and the plural may include the singular. Use of the masculine shall also mean feminine and neuter.

- A. "Applicable Laws" means the City's Municipal Code, the California Fire Code, the California Building Code, the Uniform Housing Code, Uniform Code for the Abatement of Dangerous Building and any other laws or regulations relating to the health or safety of City residents or the general public.
- B. "City" means the City of San Bernardino.
- C. "Director" means the Director of Community Development of the City of San Bernardino or his/her designee.
- D. "Occupant" means any person who occupies a rental property, whether as a tenant or permittee of the owner.

[\[Return to Municipal Code Contents\]](#)

- E. "Owner" or "Property Owner" means a single individual, partnership or joint venture or any entity that has any kind of ownership interest in a rental property whether as an individual, partner, joint venture, stock owner, or ownership interest in some other capacity or the owner's designee. If more than one person or an entity owns the subject real property, owner or property owner refers to each person or entity holding any kind of ownership interest in the property, and the property owners' obligations in this chapter are joint and several as to each property owner.
- F. "Single-Family Rental Property," "Rental Property" or "Rental Unit" means a dwelling unit as defined in Chapter 19.02 of the San Bernardino Development Code, in a single structure, or in a group of attached or detached structures containing three or less such dwelling units on the same parcel of land, and is occupied or for occupancy by a person(s) other than the owner of the unit and includes the premises on which said rental property is situated and any common areas, including but not limited to parking lots, driveways, landscaping, accessory structures, fences, walls, swimming pools, hot tubs, and spas. For the purpose of this chapter, the following types of dwelling units or facilities are not considered single-family rental housing units:
- a) Multifamily Rental Housing Complexes as defined in Chapter 15.25 of this Code;
 - b) Hotels or motels.
 - c) Condominiums, as defined in Chapter 19.02 of the San Bernardino Development Code, that are used for residential dwellings. This exception only applies if the condominium has a bona fide Home Owner's Association ("HOA"). For purposes of this exemption, an HOA is "bona fide" if the HOA has approved and recorded Covenants, Conditions & Restrictions (CC&R's), holds meetings on a regular (at least bi-monthly) basis and/or contracts with a property management company to ensure the maintenance of the common areas.
 - c) Accommodations in any hospital, extended care facility, residential care facility, convalescent home, nonprofit home for the aged, or dormitory that is owned and operated by an education institution.
 - d) Mobile home parks.

(Ord. MC-1371, 3-20-12)

15.26.050 Compliance with Business Registration Requirements

Every property owner subject to this chapter must comply with the business registration requirements of Title 5 of this Code.

(Ord. MC-1371, 3-20-12)

[\[Return to Municipal Code Contents\]](#)

15.26.060 Biennial Inspection Required

All rental property located in the City shall be subject to an annual inspection by the Director for compliance with applicable laws.

15.26.070 Inspection Fees

- A. Any fees established by this chapter shall be set by separate resolution of the Common Council and may be adjusted from time to time by the Common Council to ensure that the fee adequately finances the costs of inspections and enforcement of this chapter.
- B. The owner of a rental property shall pay an annual inspection fee to the City sufficient to pay the costs of the Director's annual inspection pursuant to this chapter.
- C. Owners qualified for the Self-Certification Program shall pay the annual inspection fee the first year of participation and thereafter shall not be required to pay the annual inspection fee for the second and third year of participation in the program. If an owner is removed from the Self-Certification Program he shall become subject to annual inspections and annual inspection fees.

15.26.080 Notice of Inspection

The Director shall mail written notice of the date and time of the inspection to the owner of the rental property at least three weeks before the scheduled annual inspection. Such notice shall provide the address and phone number where additional information concerning the inspection may be obtained. Notice to the owner shall be mailed by certified mail to the owner's last known address as it appears in the records of the County Assessor's Office.

15.26.090 Violations

- A. Whenever the Director determines that a violation of this chapter exists, the Director shall give notice of violation and an order to correct to the property owner. The notice shall be in writing and shall describe with reasonable detail the violation(s) so that the property owner has the opportunity to correct said violation.
- B. Any person who fails to comply with any provisions of this chapter after receiving written notice of the violations(s) and being given a reasonable opportunity to correct such violations(s) shall be deemed to be in violation of this chapter.
- C. Any owner of a rental property, who fails to permit the annual inspection by the Director pursuant to this chapter, shall be in violation of this chapter.

[\[Return to Municipal Code Contents\]](#)

- D. Any owner of a rental property who fails to pay any applicable fee(s) established to cover the City's costs pursuant to this chapter shall be in violation of this chapter.

15.26.100 Re-Inspections

- A. One or more re-inspections will be conducted to verify that the deficiencies noted by the Director during the annual inspection have been corrected.
- B. Violations that were not noted on the initial inspection report, but are discovered on the re-inspection due to subsequent damage or deterioration shall be subject to correction.

15.26.110 Administrative Citations

- A. Owners who fail to correct any deficiencies noted during any inspection or re-inspection may be subject to an administrative citation in accordance with San Bernardino Municipal Code Chapter 9.92 until all deficiencies have been corrected to the satisfaction of the Director.
- B. Issuance of an administrative citation is in addition to any other administrative or judicial (civil or criminal) remedy established by law which may be pursued to address any violation of the Municipal Code.

15.26.120 Appeals

- A. Any recipient of an administrative citation may contest the citation by the procedures set forth in Section 9.92.080 of this Code.
- B. Any party to an administrative citation hearing may appeal from an adverse ruling to the Board of Building Commissioners as set forth in Chapter 9.92.180 of this Code.

15.26.130 Self-Certification Program

- A. Well-maintained rental property with no outstanding violations of any applicable laws may qualify to participate in the Self-Certification Program. Qualifying properties will not be subject to inspections for a period of three (3) years, provided that conditions of the rental property do not deteriorate during that time to the point where the rental property would no longer meet eligibility standards for the Self-Certification Program.
- B. To qualify for the Self-Certification Program, a property owner must:

[\[Return to Municipal Code Contents\]](#)

1. Complete the Self-Certification Program application packet provided by the City; and
 2. Pay the annual inspection fee and any other fees required by applicable laws; and
 3. Conduct a self-inspection of all exterior and site conditions of all rental property, and certify that conditions at the rental property meet the exterior standards listed on the Self-Certification Program's checklist.
- C. Upon receipt of a request from a property owner to participate in the Self-Certification Program and payment of the appropriate fee(s), the City may inspect the rental property. If the Director determines that the property is qualified to participate in the Self-Certification Program a certificate of compliance will be issued and the property owner will not be required to pay the annual inspection fee for the second and third years. Recertification in the Self-Certification Program and payment of the annual inspection fee shall be required every three (3) years.
- D. If the Director determines that the property is not eligible to participate in the Self-Certification Program, then the residential rental property shall be subject to inspection and the property owner shall be assessed the annual inspection fee as well as any other applicable fees.
- E. At all times, the City shall retain the authority to investigate and address any violation of applicable laws.
- F. Any Owner that fails to maintain a rental property to meet all of the standards listed on the Self-Certification Program's checklist shall immediately be removed from the Self-Certification Program and become subject to annual inspections.
- G. If an officer determines that a property qualifies for self-certification upon inspecting the property in accordance with this chapter, the property shall be automatically enrolled in the Self Certification Program.

(Ord. MC-1371, 3-20-12)

15.26.140 Complaint-Based Inspections

Nothing contained in this chapter shall prevent or restrict the City's authority to inspect any rental property in response to a complaint alleging code violations or violations of applicable laws and to pursue all remedies permissible under this Code or applicable laws.

[\[Return to Municipal Code Contents\]](#)

15.26.150 Voluntary Inspection Requests

Nothing contained in this chapter shall be construed to prohibit a property owner or occupant from voluntarily requesting an inspection pursuant to this chapter to determine whether the rental property complies with applicable laws.

15.26.160 Enforcement-Public Nuisance

It shall be considered a public nuisance to have or maintain any rental properties that fail to comply with any applicable laws. The Director shall have the power to require correction of violations identified through the annual inspection by using the procedure set forth in Chapter 8.30 of the San Bernardino Municipal Code.

15.26.170 Enforcement-Alternatives

Nothing herein shall prevent the enforcement of this chapter by criminal, civil or administrative actions either undertaken individually or in conjunction with other remedies. The enforcement of this chapter by a criminal, civil or administrative action shall not relieve the property owner of his or her obligations under this chapter.

15.26.180 Penalties

- A. A violation of this chapter shall be considered a misdemeanor and may be punished as such, however, at the discretion of the City Attorney, the violation of any provisions of this article may be filed as an infraction. The complaint charging such violation shall specify whether the violation is a misdemeanor or an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010.
- B. Any fees established pursuant to this section which are more than 30 days delinquent shall constitute an assessment against the rental property for the inspection of which the fees were billed. Such delinquent fees shall be a lien on the rental property. The Director shall notify the property owner of the affected rental property not less than 30 days prior to notifying the county that a lien will be placed on the property, and shall state the amount then owed. If full payment is not received within 30 days after said notice, the Director shall take whatever action is required for the amount due to be included in the next property tax bill assessment for the rental property.

In the event that any provision of this Ordinance, or any part thereof, or any application thereof to any person or circumstance, is for any reason held to be unconstitutional or otherwise invalid or ineffective by a court of competent jurisdiction on its face or as applied, such holding shall not affect the validity of the remaining provisions of this Ordinance, or any part thereof, or any application thereof to any person or circumstance or of said provision as applied to any other person or circumstance. It is hereby declared

[\[Return to Municipal Code Contents\]](#)

to be the legislative intent of the City that this Ordinance would have been adopted had such unconstitutional, invalid, or ineffective provision not been included herein.

(Ord. MC-1266, 4-08-08)

15.27.010 Purpose

The Crime-Free Rental Housing Program is a part of the City of San Bernardino's overall effort to reduce crime in multi-family rental properties as defined herein. Owners of any multi-family rental property will be required to maintain these units in accordance with all applicable laws.

15.27.020 Applicability

The provisions of this chapter shall apply to all multi-family rental property, as that term is defined herein, within the City. This chapter also applies to the premises on which a multi-family rental property is located, including but not limited to parking lots, driveways, landscaping, accessory structures, fences, and walls.

[\[Return to Municipal Code Contents\]](#)

The provisions of this chapter are supplementary and complementary to other provisions of this code and applicable laws. Nothing in this chapter may be construed to limit any existing right of the City to abate nuisances or to enforce any provisions of applicable law, statute or this Code, including provisions of uniform codes adopted by reference in this Code.

15.27.030 Definitions

For the purpose of this chapter, unless otherwise apparent from their context, certain words and phrases used in this chapter shall have the meanings hereinafter designated. The definitions in this chapter are included for reference purposes only and are not intended to narrow the scope of definitions set forth in federal or state laws or regulations. Words used in this chapter in the singular may include the plural and the plural may include the singular. Use of the masculine shall also mean feminine and neuter.

- A. "Applicable Laws" means the City's Municipal Code, the California Fire Code, the California Building Code, the Uniform Housing Code, Uniform Code for the Abatement of Dangerous Building and any other laws or regulations relating to the health or safety of City residents or the general public, as adopted by the City.
- B. "City" means the City of San Bernardino.
- C. "Director" means the Director of Community Development of the City of San Bernardino or his/her designee.
- D. "Occupant" means any person who occupies a multi-family rental property, whether as a tenant or permittee of the owner.
- E. "Owner" or "Property Owner" means a single individual, partnership or joint venture or any entity that has any kind of ownership interest in a multi-family rental property whether as an individual, partner, joint venture, stock owner, or ownership interest in some other capacity or the owner's designee. If more than one person or an entity owns the subject real property, owner or property owner refers to each person or entity holding any kind of ownership interest in the property, and the property owners' obligations in this chapter are joint and several as to each property owner.
- F. "Multi-family Rental Housing Unit" or "Unit" means any residential dwelling unit, as defined in Chapter 19.02 of the San Bernardino Development Code, in a single structure, or in a group of attached or detached structures containing two or more such dwelling units on the same parcel of land, and is occupied or intended to be occupied on a rental basis. For the purpose of this Chapter, the following types of dwelling units or facilities are not considered multi-family rental housing units:
 - a) Hotels or motels

[\[Return to Municipal Code Contents\]](#)

b) Accommodations in any hospital, extended care facility, residential care facility, convalescent home, nonprofit home for the aged, or dormitory that is owned and operated by an education institution

c) Mobile Home Parks

G. "Multi- family Rental Housing Complex" means a multi-unit residential structure consisting of four (4) or more units existing on one (1) parcel of land.

15.27.040 Scope

The provisions of this Chapter shall apply to all multi-family rental housing complexes containing four or more units on a single parcel.

15.27.050 Mandatory Participation

A. All multi-family rental property located in the City shall be subject to an annual inspection by the Director for compliance with the Crime-Free Housing Program standards.

B. All property owners and managers of multi-family rental property shall attend the 8 hour crime free housing course presented by the City within eight (8) months of the passage of this ordinance. If a new owner or manager takes over the property, the new property owner or manager shall complete the 8 hour crime free housing course presented by the City within six (6) months of said ownership or employment.

C. The property owner shall use a crime free lease addendum on every unit rented. The lease addendum shall provide for tenant eviction against tenants that allow or conduct certain prohibited activities (gang, drug, or other specified criminal behavior).

D. The property owner shall provide the City with 24 hour contact information for the property.

15.27.060 Landlord Certification

A. Certification as a Crime Free property is optional. In order for the property owner/ landlord to be certified as a Crime Free property under this program, the property owner/landlord shall complete the following phases:

1. Phase I

a. Owners and onsite Manager(s), where applicable, shall attend an eight-hour crime-free housing course presented by code compliance, police,
[Return to Municipal Code Contents]

and fire within one year of notification of the requirement, unless extended by the Director.

- b. Property owner shall use a written lease including the City of San Bernardino Crime-Free Rental Housing Lease Addendum.
- c. Property owner shall check the criminal background of all perspective tenants.
- d. Property owner shall actively pursue the eviction of tenants who violate the terms of the lease and/or crime- free lease addendum.

2. Phase II

- a. Property owner shall complete an annual security assessment and security improvement inspection to certify that the rental property has met the security

Property owner shall complete an annual security assessment and security requirements pursuant to the Principles of Crime Prevention through Environmental Design for the tenant's safety.

- b. Property owner shall have no unresolved City code violations within the past year.

3. Phase III

- a. Property owner shall conduct resident training annually for the residents where crime watch and crime prevention techniques are discussed.

- B. Certification may be revoked if there are 10 or more calls for service in a one year period.

15.27.070 Inspection Fees

- A. The annual inspection fee shall be set by separate resolution of the Common Council and may be adjusted from time to time by the Common Council to ensure that the fee adequately finances the costs of inspections and enforcement of this chapter.
- B. The owner of a multi-family rental property shall pay an annual inspection fee to the City sufficient to pay the costs of the Director's annual inspection pursuant to this chapter.

[Return to Municipal Code Contents]

15.27.080 Notice of Inspection

The Director shall mail written notice of the date and time of the inspection to the owner of the multi-family rental property at least three weeks before the scheduled annual inspection. Such notice shall provide the address and phone number where additional information concerning the inspection may be obtained. Notice to the owner shall be mailed by regular mail to the owner's last known address as it appears in the records of the County Assessor's Office.

The notice of inspection for the Crime-Free Rental Housing Program shall be combined with the Multi-Family Rental Housing Program notice to the greatest extent possible for the convenience of the property owner.

15.27.090 Violations

- A. Whenever the Director determines that a violation of this chapter exists, the Director shall give notice of violation and an order to correct to the property owner. The notice shall be in writing and shall describe with reasonable detail the violation(s) so that the property owner has the opportunity to correct said violation.
- B. Any person who fails to comply with any provisions of this chapter after receiving written notice of the violations(s) and being given a reasonable opportunity to correct such violations(s) shall be deemed to be in violation of this chapter.
- C. Any owner of a multi-family rental property, who fails to permit the annual inspection by the Director pursuant to this chapter, shall be in violation of this chapter.
- D. Any owner of a multi- family rental property who fails to pay any applicable fee(s) established to cover the City's costs pursuant to this chapter shall be in violation of this chapter.

15.27.100 Re- Inspections

- A. One or more re-inspections may be conducted to verify that the deficiencies noted by the Director during the annual inspection have been corrected.
- B. Violations that were not noted on the initial inspection report, but are discovered on the re-inspection due to subsequent damage or deterioration shall be subject to correction.

15.27.110 Administrative Citations

- A. Owners who fail to correct any deficiencies noted during any inspection or re-inspection may be subject to an administrative citation in accordance with San Bernardino Municipal Code Chapter 9.92 until all deficiencies have been corrected to the satisfaction of the Director.

[\[Return to Municipal Code Contents\]](#)

- B. Issuance of an administrative citation is in addition to any other administrative or judicial (civil or criminal) remedy established by law which may be pursued to address any violation of the Municipal Code.

15.27.120 Appeals

- A. Any recipient of an administrative citation may contest the citation by the procedures set forth in Section 9.92.080 of this Code.
- B. Any party to an administrative citation hearing may appeal from an adverse ruling to the Board of Building Commissioners as set forth in Chapter 9. 92. 180 of this Code.

15.27.130 Complaint-Based Inspections

Nothing contained in this chapter shall prevent or restrict the City's authority to inspect any multi-family rental property in response to a complaint alleging code violations or violations of applicable laws and to pursue all remedies permissible under this Code or applicable laws.

15.27.140 Enforcement-Public Nuisance

It shall be considered a public nuisance to have or maintain any multi- family rental properties that fail to comply with any applicable laws. The Director shall have the power to require correction of violations identified through the annual inspection by using the procedure set forth in Chapter 8.30 of the San Bernardino Municipal Code.

15.27.150 Enforcement-Alternatives

Nothing herein shall prevent the enforcement of this chapter by criminal, civil or administrative actions either undertaken individually or in conjunction with other remedies.

The enforcement of this chapter by a criminal, civil or administrative action shall not relieve the property owner of his or her obligations under this chapter.

15.27.160 Penalties

- A. A violation of this chapter shall be considered a misdemeanor and may be punished as such, however, at the discretion of the City Attorney, the violation of any provisions of this article may be filed as an infraction. The complaint charging such violation shall specify whether the violation is a misdemeanor or an infraction, which upon conviction thereof is punishable in accordance with the provisions of Section 1. 12.010.

- B. Any fees established pursuant to this section which are more than 30 days delinquent shall constitute an assessment against the rental property for the inspection of which the fees were billed. Such delinquent fees shall be a lien on the rental property. The Director shall notify the property owner of the affected rental property not less than 30 days prior to notifying the county that a lien will be placed on the property, and shall state the amount then owed. If full payment is not received within 30 days after said notice, the Director shall take whatever action is required for the amount due to be included in the next property tax bill assessment for the rental property.

15.27.170 Severability

In the event that any provision of this Ordinance, or any part thereof, or any application thereof to any person or circumstance, is for any reason held to be unconstitutional or otherwise invalid or ineffective by a court of competent jurisdiction on its face or as applied, such holding shall not affect the validity of the remaining provisions of this Ordinance, or any part thereof, or any application thereof to any person or circumstance or of said provision as applied to any other person or circumstance. It is hereby declared to be the legislative intent of the City that this Ordinance would have been adopted had such unconstitutional, invalid, or ineffective provision not been included herein.

15.28.020 Uniform Code for the Abatement of Dangerous Buildings - Amended

Chapters 5, 6, and 9 of the Uniform Code for the Abatement of Dangerous Buildings are hereby deleted.

Procedures for appeals, hearings, enforcement of orders, and abatements related to the administrative enforcement procedures in the UCADB shall be in accordance with Chapter 8.30 of the San Bernardino Municipal Code. Except for vacation orders made under Section 404 of the UCADB, enforcement of any notice and order of the building official is stayed during the pendency of an appeal therefrom that is properly and timely filed.

(Ord. MC-1521, 9-18-19; Ord. MC-880, 6-23-93; Ord. 3481, 3-12-75; Ord. 2291, 3-29-60)

15.28.140 Securing dangerous buildings from entry

- A. The building official is authorized to secure from entry any structure that is ordered vacated in accordance with Chapter 4 of the Uniform Code for the Abatement of Dangerous Buildings and where the building official determines, in his or her sole discretion, that securing the structure is necessary to enforce the order to vacate. The enforcement official may secure such structures using any method deemed appropriate under the circumstances in his or her discretion.

- B. It is unlawful to remove a notice to vacate posted in accordance with Chapter 4 of the Uniform Code for the Abatement of Dangerous. Any person who removes a notice to vacate without the express written consent of the City of San Bernardino Building Official is guilty of a misdemeanor, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of the San Bernardino Municipal Code.

- C. The building official's decision to secure a structure may be appealed in the same manner as the issuance of the underlying notice to vacate and as provided in Section 15.28.020.

(Ord. MC-1521, 9-18-19; Ord. MC-607, 9-22-87; Ord. MC-228, 12-07-82;

15.28.150 Abatement of nuisance by Building Official

[\[Return to Municipal Code Contents\]](#)

- A. The same procedures provided in Section 15.28.140 for abating nuisances through securing from entry any structure which is determined by the Building Official to be immediately dangerous or hazardous may be used by the Building Official in connection with the summary abatement of all other nuisances upon private property which the Building Official determines in his discretion to constitute an immediately dangerous or hazardous condition in accordance with California Building Code section 116.

- B. The Building Official or his representative may summarily abate conditions found to be a nuisance under subsection (A) in his discretion in the most appropriate manner under the circumstances.
 - 1. The manner of abatement may include, but is not limited to, the following methods: fencing, draining water from swimming pools and filling with appropriate ballast, removing the fire hazards, filling or covering open holes and grading or strengthening landfills or excavations.

 - 2. Although the manner and method used by the Building Official shall be at his discretion, he shall, in making his determinations, seek the most economical method and endeavor not to place an undue economic hardship upon the owners of the property, using only those measures which will eliminate the dangerous and hazardous conditions.

- C. The Building Official shall immediately after such abatement action mail notice to the owners as provided in Section 15.28.140. The notice shall include:
 - 1. A description of the action he has taken;

 - 2. The cost thereby incurred by the City, including all administrative costs;

 - 3. The reasons why he has taken the action;

 - 4. That an appeal may be taken within ten days to the Board of Building Commissioners as provided in Section 15.28.140; and

 - 5. That if this action is not annulled by the Board of Building Commissioners, the cost of abating the nuisance on the property shall become a special assessment and lien on the property unless the cost is paid to the City within thirty days of the mailing of the notice.

- D. Fees for processing of demands for information regarding liens imposed under this chapter shall apply in an amount set by resolution of the Mayor and City Council.

- E. The procedures hereunder for appeal, hearing, and any other actions shall be as provided in Chapter 3.68* for determination and collection of the assessment for costs of abatement.

Ord. MC-177, 7-07-82; Ord. 3593, 8-02-76; Ord. 3227, 1-04-72; Ord. 2291, 3-29-60)

15.28.160 Discontinuance of utilities

The Building Official may order the discontinuance or disconnection of utilities for unsafe conditions as allowed by the California Building Code.

(Ord. MC-1525, 01-15-20; Ord. 3227, 1-04-72; Ord. 2291, 3-29-60)

15.28.170 Filing of notice of pendency of administrative proceedings

At any time after the Building Official has initiated action to locate and serve the owners with the notice and order referred to in Section 401 of the Uniform Code for the Abatement of Dangerous Buildings, the Building Official or the City Engineer may file with the county recorder a notice of pendency of administrative proceedings which shall constitute notice to any subsequent owner, purchaser, encumbrancer of the property described therein or involved in the proceedings, beneficiary of a trust deed, lienholder, mortgagee, or any other person holding or claiming any interest of any kind in the property described therein who shall be bound by the administrative proceedings, including liability for all amounts and costs and expenses assessed against the property as a lien for abatement in the same manner as if he had been the owner at the time of commencement of the proceedings and had been properly served at that time.

(Ord. MC-1521, 9-18-19; Ord. MC-880, 6-23-93; Ord. MC-580, 2-04-87; Ord. 3227, 1-04-72;
Ord. 2291, 3-29-60)

15.28.180 [Reserved]

15.28.190 Post-disaster Safety Assessment Placards

- A. Intent. This section establishes standard placards to be used to indicate the condition of a structure for continued occupancy after any natural or man-made disaster. The chapter further authorizes the Planning and Building Services Department, as well as authorized representatives or designees of that department, to post the appropriate placard at each entry point to a building or structure upon completion of a safety assessment.

[\[Return to Municipal Code Contents\]](#)

- B. Application of Provisions. The provisions of this section are applicable, following each natural or man-made disaster, to all buildings and structures of all occupancies regulated by the City of San Bernardino. The Mayor and Common Council may extend the provisions as necessary.
- C. Definitions.
1. Safety Assessment - A visual, non-destructive examination of a building or structure for the purpose of determining the condition for continued occupancy following a natural or man-made disaster.
- D. Placards
1. The following are verbal descriptions of the official jurisdiction placards to be used to designate the condition for continued occupancy of buildings or structures.
 - (a) INSPECTED - Lawful Occupancy Permitted is to be posted on any building or structure wherein no apparent structural hazard has been found. This placard is not intended to mean that there is no damage to the building or structure.
 - (b) RESTRICTED USE is to be posted on each building or structure that has been damaged wherein the damage has resulted in some form of restriction to the continued occupancy. The evaluator who posts this placard will note in general terms the type of damage encountered and will clearly and concisely note the restrictions on continued occupancy.
 - (c) UNSAFE - Do Not Enter or Occupy is to be posted on each building or structure that has been damaged such that continued occupancy poses a threat to life safety. Buildings or structures posted with this placard shall not be entered under any circumstance except as authorized in writing by the department that posted the building. Safety assessment teams shall be authorized to enter these buildings at any time. This placard will note in general terms the type of damage encountered.
 2. Each placard shall include the ordinance number, the name of the department, its address and phone number, and a statement regarding the manner in which an appeal may be filed.
 3. Once it has been attached to a building or structure, a placard shall not be removed, altered, or covered until done so by an authorized representative of the department or upon written notification from the department.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 15 Contents\]](#)

4. Any person removing such placard without the express written consent of the City of San Bernardino Building Official is guilty of a misdemeanor which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of the San Bernardino Municipal Code.
- E. Notification. The Building Official shall, as soon as practicable but no later than 30 days from the date of posting, mail a notice to the owner of each building posted as Restricted Use or Unsafe. Such notice shall be mailed to the owner(s) of record of the property as ascertained from the latest assessment roll of the County Assessor. The notice shall include the following information:
- 1 A statement indicating that the structure has suffered disaster related damage which constitutes a hazard to its occupants, the public, or adjacent property,
 - 2 that the building has been posted with placards in accordance with this section,
 - 3 the restrictions placed on the use or occupancy of the building,
 - 4 a brief description of the damage, (5) that the damage must be repaired and the hazards eliminated prior to re-occupancy, and (6) that an appeal may be filed in accordance with the procedures contained in Chapter 15.28 of this code.
- F. Abatements. If a damaged structure becomes a public nuisance due to abandonment or the failure to repair damage which poses a hazard to the occupants, the public, or adjacent property, the building official may initiate abatement proceedings in accordance with Chapters 8.30 and 15.28 of this code.

(Ord. MC-1018, 2-04-98)

15.28.200 Section 103 amended

Section 301 of the Uniform Code for the Abatement of Dangerous Buildings is amended to read as follows:

"All buildings or structures which are required to be repaired under the provisions of this code shall be subject to the provisions of the California Building Standards Code promulgated by the California Building Standards Commission in Title 24 of the California Code of Regulations, as adopted and amended by the City of San Bernardino."

(Ord. MC-1521, 9-18-19)

[\[Return to Municipal Code Contents\]](#)

15.28.210 Section 205 amended

Section 205 of the Uniform Code for the Abatement of Dangerous Buildings is amended by deleting the section.

(Ord. MC-1521, 9-18-19)

15.28.220 Section 301 amended

Section 301 of the Uniform Code for the Abatement of Dangerous Buildings is amended to read as follows:

"For the purpose of this code, certain terms, phrases, words, and their derivatives shall be construed as specified in either this chapter or as specified in the International Building Code. Where terms are not defined, they shall have their ordinary accepted meanings within the context with which they are used. Words used in the singular include the plural and plural the singular. Words used in the masculine gender include the feminine and the feminine the masculine.

BUILDING CODE is the California Building Code, as adopted and amended by the City of San Bernardino.

DANGEROUS BUILDING is any building or structure deemed to be dangerous under the provisions of Section 302 of this code."

(Ord. MC-1521, 9-18-19)

Chapter 15.32 (Repealed by Ord. MC-781, 4-22-91)

Chapter 15.34 REMOVAL OR DESTRUCTION OF TREES

Sections:

- 15.34.010 Findings**
- 15.34.020 Permit required**
- 15.34.030 Exceptions**
- 15.34.040 Application procedure**
- 15.34.050 Inspection fee**
- 15.34.060 Violation**

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 15 Contents\]](#)

15.34.010 Findings

Public safety and welfare and the protection of the environment requires that certain regulations be adopted pertaining to the removal of trees within the City of San Bernardino.

(Ord. MC-682, 11-09-89)

15.34.020 Permit Required

It is unlawful for any person, firm, corporation, partnership or association, either as owner, agent or otherwise, to cut down, uproot, destroy and/or remove more than five (5) trees within any thirty-six (36) month period from a development site or parcel of property without first being issued a permit from the Development Services Department of the City of San Bernardino.

(Ord. MC-1027, 9-09-98; Ord. MC-682, 11-09-89)

15.34.030 Exceptions

A permit shall not be required when a lawful order to remove the trees for Health and Safety purposes has been issued by a local, state or federal government agency, nor shall a permit be required if a removal is to be accomplished by, or under the auspices of a governmental entity or employee(s) thereof. Commercial tree farms are also excepted from this Chapter.

(Ord. MC-682, 11-09-89)

15.34.040 Application Procedure

- A. The owner of the property or his agent shall file a written application with the Planning Official prior to the destruction or removal of the trees. The Planning Official shall cause an inspection to be made of the property within ten (10) working days to determine whether the trees can be removed. If it is determined that the trees can be removed without detriment to the environment and welfare of the community, then the Planning Official shall issue the permit. Such permit may be issued subject to reasonable conditions imposed by the Planning Official.
- B. When an inspection discloses that the removal of trees would be detrimental to the environment and harmful to the safety and welfare of the community, the Planning Official shall deny the issuance of a permit.
- C. Any person aggrieved by the denial of a permit by the Planning Official may appeal the decision to the Mayor and Common Council in accordance with the provisions of Chapter 2.64 of this Code.

(Ord. MC-682, 11-09-89)

[\[Return to Municipal Code Contents\]](#)

15.34.050 Inspection Fee

Each application for a permit shall be accompanied by an inspection fee which shall be established by resolution of the Mayor and Common Council.

(Ord. MC-682, 11-09-89)

15.34.060 Violation

Any person who violates or causes violation of any provision of this Chapter shall be deemed guilty of an infraction or misdemeanor, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of the San Bernardino Municipal Code.

Any person who violates or causes violation of any provision of this Chapter, in addition to the above fine, shall pay restitution to the City of San Bernardino for unlawful destruction or removal of the trees in an amount not to exceed the replacement value of the trees.

(Ord. MC-682, 11-09-89)

**Chapter 15.36
DEMOLITION AND MOVING OF BUILDINGS AND STRUCTURES**

Sections:

- 15.36.010 Permit required - Application**
- 15.36.020 (Repealed by Ord. MC-460, 5-15-85)**

15.36.010 Permit required - Application

Any person, firm, or corporation desiring to demolish, dismantle, or tear down any house, building, or structure within the City or to move the same outside the City limits shall, before proceeding with such work, file an application with the Building Official for permit to do so. The Building Official, if he feels that the granting of such permit is not contrary to public health, safety, and welfare, and if he determines that the applicant has fully complied with and satisfied each and every other applicable provision of local and state law, shall issue such permit; provided, however, that as a condition to the issuance of such permit, the applicant shall pay to the Building Official a fee in a sum in accordance with the schedule set forth in Section 303 of the California Building Code which shall be in addition to any other fee required by law, and shall deposit with him a surety bond in the amount of one thousand dollars to ensure the faithful performance by the applicant of the following conditions under which such permit is granted, namely: that upon the moving, demolition, dismantling or tearing down of such house, building or other structure, the lot, parcel, or site shall be cleared of all debris, brick, rock, cement work, foundations, weeds,

[\[Return to Municipal Code Contents\]](#)

brush, dead or uncared for trees and vegetation and be filled and graded in accordance with the provisions of Chapter 15.04 in such a manner that storm waters and other waters will not accumulate thereon so that the premises are left in a clean and safe condition as determined by the Director of Community and Economic Development.

Any permit issued under this section shall be further conditioned upon completion of the work of moving or demolition, dismantling, tearing down, filling, grading and cleaning of the site within a period of ninety days from the date of its issuance which period may be extended by the Chief Building Inspector upon good cause shown for such additional periods as may be reasonably required to carry out the purposes of the permit.

The permit shall not be issued or approved unless and until the applicant has furnished satisfactory evidence to the Superintendent

1. that he has fully complied with the provisions of Section 119(a) of the Uniform Plumbing Code or other law pertaining to the plugging or capping of abandoned sewer outlets;
2. that he has obtained a permit for such plugging and capping in accordance with Section 1.8 of the Uniform Plumbing Code or other law;
3. that he has completed the plugging and capping thereof in an approved manner as evidenced by a final inspection; and
4. that he has cleaned and filled any abandoned cesspool and has filled and graded the property as required herein.

15.37.010 Findings and purpose

The Mayor and City Council find and declare:

- A. The City of San Bernardino General Plan, adopted on November 1, 2005 includes a Historical and Archaeological Resources Element which provides a basis for historic preservation in the City of San Bernardino.
- B. This ordinance is adopted to establish a procedure for consideration of demolition requests for historic buildings and structures as defined herein.

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09; Ord. MC-850, 9-09-92;
Ord. MC-694, 12-18-89)

15.37.020 Definitions

For the purpose of carrying out the intent of this Chapter, the words, phrases and terms set forth herein shall be deemed to have the meaning ascribed to them in this Chapter.

- A. Building - Any structure having a roof and walls built and maintained to shelter human activity or property.
- B. Demolition - To destroy any building or structure so that it is no longer standing or functional.

[\[Return to Municipal Code Contents\]](#)

- C. Report - Historic Resource Evaluation Report, a report that evaluates the historical significance of a resource based upon established criteria.
- D. Resource - A building or structure as defined in this Chapter.
- E. Structure -
 - 1. Any structure having a roof and walls built and maintained to shelter human activity or property; or,
 - 2. a work made up of independent and interrelated parts that performs a primary function unrelated to human shelter.
- F. Survey - Historic Resources Reconnaissance survey (Volumes 1-5 and Attachments, April 30, 1991 and all subsequent revisions), a Citywide survey of buildings and structures constructed prior to December 31, 1941 which provides baseline information regarding the types and locations of resources, approximate construction dates, representative architectural styles, construction materials, and contextual historical themes.
- G. The Arts and Historical Preservation Commission - A commission formed by Resolution of the Mayor and City Council whose members are appointed by the Mayor and City Council.
 - (Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

15.37.030 Demolition Prohibited

No building or structure fifty (50) years old or older shall be demolished unless a valid Demolition Permit has been issued in accordance with this Chapter.

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

15.37.040 Dangerous Buildings Exempted Under Exigent Circumstances

The demolition of any building or structure fifty (50) years old or older shall be exempt from the provisions of this Chapter if a determination has been made, supported by findings of fact, by the Hearing Officer or the Building Official pursuant to Chapter 15.28 of the Municipal Code declaring that the building or structure is a dangerous building and constitutes an imminent threat to the health and safety of the public. In lieu of immediate demolition of a structure posing an imminent hazard, feasible mitigation

measures should be employed where practicable in order to preserve the structure and site until the historical review process is completed.

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

15.37.045 Evaluation Thresholds and Review Requirements

Buildings and structures fifty (50) years old or older proposed for demolition shall be evaluated to determine historical significance. The level of review required shall be determined in accordance with the following thresholds and requirements which are based upon the Historic Resources Reconnaissance Survey (Volumes 1-5 and attachments, April 30, 1991 and all subsequent revisions):

- A. A Historic Resource Evaluation Report (Report) shall be required for any resource identified on a modified California Department of Parks and Recreation (DPR) 523 Form (Volume 3, Appendix B, Resource List and DPR Forms) or located within an area identified as being potentially eligible for Historic District designation and listed as a contributing resource (Volume 3, Appendix C, Historic Districts and Overlay Zones, Items 1. through 4).
- B. A Historic Resource Evaluation Report may be required for any resource listed on the Tabular List and located within the boundaries of an area identified in the Survey as being potentially eligible for Historic Overlay Zone designation (Volume 3, Appendix C, Historic Districts and Overlay Zones, Items 5 through 13) Using the criteria established in Section 15.37.055 of this Chapter, the Community Development Director shall evaluate demolition proposals for these resources to determine the requirement for a Report.
- C. Demolition Permit Applications for buildings and structures which are listed only on the Tabular List or not included in the Survey shall not require a Report unless the Community Development Director determines that a Report is required based upon new historical or cultural information not contained in the Survey. When required, Historic Resource Evaluation Reports shall be prepared in accordance with Section 15.37.050 of this Chapter.

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

15.37.050 Historic Resource Evaluation Report

A Historic Resource Evaluation Report required as a submittal for a Demolition Permit Application shall contain the following elements:

- A. Purpose and Scope

[\[Return to Municipal Code Contents\]](#)

- B. Methods of Evaluation: Field and Archival
- C. Location and Setting
- D. Architectural Description of the Resource
- E. Historical Background
- F. Discussion of Eligibility for NR listing
- G. Statement of Significance
- H. Conclusions
- I. Recommendations (may include proposed mitigation)
- J. Archival Documentation (Appendices)

The Statement of Significance element (Item G. above) shall be made using the criteria listed in Section 15.37.055 of this Chapter and shall include a discussion of the related historical contextual themes.

The archival documentation (Item J. above) of the resource shall include a completed DPR 523 Form and archival quality photo documentation. This information shall be included as an appendix to the Report.

Preparation and submittal of the Report shall be the responsibility of the applicant. All Reports shall be prepared by consultants who meet the professional qualification standards for the field of Historic Preservation as described in the [Federal Register](#).

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-1027, 9-09-98; Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

15.37.055 Criteria for Determination of Historical Significance

1. The building or structure has character, interest or value as a part of the heritage of the City of San Bernardino; or,
2. The location of the building or structure is the site of a significant historic event; or,
3. The building or structure is identified with a person(s) or group(s) who significantly contributed to the culture and development of the City of San Bernardino; or,
4. The building or structure exemplifies a particular architectural style or way of life important to the City; or,

[Return to Municipal Code Contents]

5. The building or structure exemplifies the best remaining architectural type in a neighborhood; or,
6. The building or structure is identified as the work of a person whose work has influenced the heritage of the City, the State or the United States; or,
7. The building or structure reflects outstanding attention to architectural design, detail, materials or craftsmanship; or,
8. The building or structure is related to landmarks or historic districts and its preservation is essential to the integrity of the landmark or historic district; or,
9. The unique location or singular physical characteristics of the building or structure represents an established and familiar feature of a neighborhood; or,
10. The building, structure or site has the potential to yield historical or archaeological information.

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

5.37.060 Review Process

1. Director Review - The Community Development Director shall determine whether to issue a Demolition Permit for an Application which does not require a Report in accordance with Evaluation Thresholds B. and C. and the requirements specified in Section 15.37.045 of this Chapter.
2. The Development and Environmental Review Committee (DERC) Review -An Initial Study (pursuant to the California Environmental Quality Act) shall be prepared for a Demolition Permit Application when a Historical Resource Evaluation Report is required in accordance with Section 15.37.045, Subsections A. - C. of this Chapter.

The Report may be included as an attachment to the Initial Study or referenced in the Initial Study. The Initial Study shall be reviewed by the DERC for an environmental determination in compliance with the provisions of the California Environmental Quality Act, and applicable City requirements. Following the DERC review, the application and the environmental determination shall be reviewed by the Arts and Historical Preservation Commission.

3. Arts and Historical Preservation Commission Review - The Arts and Historical Preservation Commission shall receive notification of Demolition Permit Applications for which a Historic Resource Evaluation Report is prepared for their review and make recommendations to the Planning Commission regarding the historic significance of resources and the approval or denial of applications.

[Return to Municipal Code Contents]

4. Planning Commission Review - A Demolition Permit Application for which a Historic Resource Evaluation Report and Initial Study are prepared shall be scheduled for review by the Planning Commission within forty-five (45) days of the DERC's environmental determination. The Planning Commission shall review Demolition Permit Applications to determine the historical significance of the resource based upon the criteria set forth in Section 15.37.055 of this Chapter. The Planning Commission may also consider the National Register criteria for evaluation.

Based upon the information provided, the Planning Commission shall take action on the environmental determination and approve or deny the issuance of the Demolition Permit. The Planning Commission's review must be completed within 30 days of the first public hearing before the Planning Commission or the Application shall be forwarded to the Mayor and City Council.

When a Demolition Permit Application is denied because of a determination of historical significance, the Planning Commission shall forward that recommendation to the Mayor and City Council.

If the Planning Commission approves the Demolition Permit Application, the Demolition Permit shall be issued in accordance with the Planning Commission action and following compliance with the provisions of this Chapter and all other City requirements.

5. Effective Date of Permit - Demolition Permits shall become effective 16 days following the final date of action (i.e., approval) by the Director or the Planning Commission unless an appeal has been filed pursuant to Section 15.37.070, which shall stay the issuance of the Demolition Permit until after the Appeal is decided

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

15.37.070 Appeals

Any person may appeal the decisions of the Community Development Director pursuant to this Chapter to the Planning Commission. Decisions of the Planning Commission pursuant to this Chapter may be appealed to the Mayor and City Council.

An appeal must be submitted in writing with the required appeal fee (if applicable) to the Community Development Department within fifteen (15) days following the final date of the action for which an appeal is made. The written appeal shall include the reason(s) why the Historic Resource Evaluation Report should or should not be required; or why the Demolition Permit Application should be granted, denied or exempt from the provisions of this ordinance.

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-1027, 9-09-98; Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

[\[Return to Municipal Code Contents\]](#)

15.37.080 Penalty

Any person, firm or corporation, whether as principal, agent, employee, or otherwise, violating or causing the violation of any of the provisions of this Chapter is guilty of a misdemeanor, which upon conviction thereof is punishable in accordance with the provisions of Sections 1.12.010 and 1.12.020 of this Code in addition to any other civil or administrative remedies.

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

15.37.085 (Deleted by Ord. MC-1482, 4-18-18)

15.37.090 Fees

Upon submittal of a Demolition Permit Application to the Community Development Department, the applicant shall pay all applicable Planning Division fees in the amounts as adopted by resolution of the Mayor and City Council for an Initial Study and for the Planning Commission review. The applicant shall pay all required Building Inspection Division fees in the amounts as adopted by resolution of the Mayor and City Council prior to issuance of a Demolition Permit. The applicant shall also pay all fees required by other governmental agencies prior to issuance of a Demolition Permit.

(Ord. MC-1482, 4-18-18; Ord. MC-1306, 6-02-09;
Ord. MC-850, 9-09-92; Ord. MC-694, 12-18-89)

Chapter 15.38 (Repealed by Ord. MC-880, 6-23-93)

Chapter 15.40 (Repealed by Ord. MC-880, 6-23-93)

- 15.48.090 Reserved**
- 15.48.100 Existing pools**
- 15.48.110 (Repealed by Ord. MC-460, 5-15-85)**

15.48.010 Public policy

It is found, declared, and determined that private swimming pools shall be fenced as a precautionary measure to prevent severe hazard to the health, safety, and welfare of the inhabitants of the City, particularly children.

(Ord. 2431, 4-02-62)

15.48.020 Person defined

For the purpose of this Chapter, "person" shall include, but not be limited to, any individual, firm, association, partnership, trust, corporation, political subdivision within the City, or other form of organization whether operating for profit or otherwise.

(Ord. 2431, 4-02-62)

15.48.030 Fence required

Each person in possession of land within the City, as owner, purchaser under contract, lessee, tenant, licensee or otherwise, upon which is situated a swimming pool or other out-of-doors body of water or structure designed, constructed or used, or capable of being used, for swimming or bathing, having a depth in excess of eighteen inches, shall maintain on the premises, completely surrounding the pool or body of water, a fence or wall not less than four feet in height. There shall be no openings, holes, or gaps in the fence or wall larger than four inches square, except that if a picket fence or other fence constructed of vertical members is maintained, the open space between the pickets or

[\[Return to Municipal Code Contents\]](#)

vertical members shall not exceed four inches horizontally and shall be not less than thirty-six inches vertically. Openings, holes, or gaps shall not be constructed or maintained in a horizontal series constituting steps or other means of access. A dwelling house or accessory building may be used as part of the required fence or wall.

(Ord. 3971, 9-24-80; Ord. 3031, 12-09-69; Ord. 2431, 4-02-62)

15.48.040 Gates and doors - Specifications

All gates or doors opening through the required enclosure shall be not less than four feet high. Gates or doors shall be equipped with a self-closing and self latching device located within three inches of the required height of fence or wall. Closing and latching devices shall be designed to keep and capable of keeping the door or gate securely closed at all times when not in actual use. No gate or door across a driveway providing access to any required parking area may open into the area between a fence or wall and the pool or body of water.

(Ord. MC-1525, 01-15-20; Ord. 3971, 9-24-80; Ord. 2431, 4-02-62)

15.48.050 Distance between inside of pool and rear lot line

Any swimming pool constructed after the effective date of the ordinance codified in this Chapter shall be constructed so that there shall be at least five feet between the inside or poolside face of the swimming pool and side or rear lot line. No mechanical equipment shall be placed nearer than five feet to any side lot line.

(Ord. 3031, 12-09-69; Ord. 2431, 4-02-62)

15.48.060 Reserved

(Ord. MC-1525, 01-15-20; Ord. 3031, 12-09-69; Ord. 2431, 4-02-62)

15.48.070 Soils engineering reports

- A. Prior to issuance of a swimming pool permit, the building official may require that the swimming pool plans shall be reviewed by an approved soils engineer. All reports shall be subject to approval by the building official, and supplemental reports and data may be required as he may deem necessary. Recommendations included in the report and approved by the building official shall be incorporated in the swimming pool plans by the permittee.
- B. Swimming pools constructed of materials that are subject to failure by deterioration, tears or rips shall not be so located so that a failure would possibly endanger any private property or result in the deposition of debris on any public way.

(Ord. 3031, 12-09-69; Ord. 2431, 4-02-62)

[\[Return to Municipal Code Contents\]](#)

15.48.080 Exemptions

All swimming pools which are completely contained within the walls of a building shall be exempt from the provisions of the fencing requirements.

(Ord. 3474, 1-22-75; Ord. 2431, 4-02-62)

15.48.090 Reserved

Chapter 15.57

Cultural Development Construction Tax

Sections:

- 15.57.010 Purpose**
- 15.57.020 Definitions**
- 15.57.030 Cultural Development Construction Tax imposed**
- 15.57.040 Time of payment**
- 15.57.050 Tax- Place of payment**
- 15.57.060 Disposition of cultural development construction taxes**
- 15.57.070 Severability**

15.57.010 Purpose

The purpose of this Chapter is to provide for the payment of a tax applicable to new construction or reconstruction of commercial structures to provide funds for the promotion of fine art culture and other cultural enhancements as the Mayor and City Council may direct. Enhancement of the cultural development is deemed to be a public benefit to all citizens of the community.

(Ord. MC-1451, 12-20-17; Ord. MC-650, 1-19-89; Ord. MC-542, 9-11-86)

15.57.020 Definitions

For the purposes of this Chapter, unless otherwise apparent from the context, certain words and phrases used in this Chapter are defined as follows:

- A. "Commercial structure" shall mean any building or structure all or part of which contains a commercial or industrial use permitted by this Code; provided, however, "Commercial Structure" shall not include any building or structure constructed or reconstructed for the elderly and handicapped pursuant to Title 15 of this Code, or pursuant to Title 25 or 26 of the California Code of Regulations..
- B. "Construction cost" shall mean the total value of all construction or reconstruction work on a commercial structure as determined by the Director of Community Development pursuant to Section 15.04.080 of this Code in issuing a building permit for such construction or reconstruction.
- C. "New Construction" shall mean all new commercial construction.
- D. "Reconstruction" shall mean additions, alterations, repairs or remodels made to an existing commercial structure. Reconstruction is required to conform to the requirements for new buildings pursuant to the California Building Code and Title 15

[\[Return to Municipal Code Contents\]](#)

of this Code. Reconstruction necessitated by natural disaster or accidental damage shall not be subject to this Chapter provided, however, that damage in the normal course of business shall be included.

(Ord. MC-1525, 01-15-20; Ord. MC-1451, 12-20-17; Ord. MC-1027, 9-09-98;
Ord. MC-768, 3-12-91; Ord. MC-650, 1-19-89; Ord. MC-542, 9-11-86)

15.57.030 Cultural Development Construction Tax imposed

- A. A cultural development construction tax is imposed on the privilege of New Construction or Reconstruction as defined in Section 15.57.020 Subsections C and D. Such tax shall be equal to one-half (1/2) of one (1) percent of the Construction Cost.
- B. Notwithstanding the foregoing provisions, the tax shall not be imposed and charged for any permit for which an application together with two sets of complete plans and specifications as required by Sections 301 and 302 of the California Building Code are filed and approved with the City prior to September 8, 1986, provided that the applicant has paid all plan check fees prior to that date.
- C. No cultural development construction tax shall be charged for the first Reconstruction of any Commercial Structure up to its previously existing square footage, if the previously existing Commercial Structure was voluntarily demolished by the property owner after Code Enforcement has issued a Notice of Violation/Abatement.

(Ord. MC-1525, 01-15-20; Ord. MC-1451, 12-20-17; Ord. MC-1175, 7-22-04;
Ord. MC-768, 3-12-91; Ord. MC-650, 1-19-89; Ord. MC-542, 9-11-86)

15.57.040 Time of payment

The cultural development construction tax required in Section 15.57.030 to be paid shall be due and payable upon issuance by the City of a building permit for the New Construction or Reconstruction of any Commercial Structure; provided, however, that there shall be a refund of such tax in the event that the building permit expires, within the meaning of Section 302 (d) of the latest edition of the California Building Code adopted in the City, within thirty days after the date of such expiration, upon written application for such refund by the person who paid such tax setting forth in full the facts showing that such permit has expired. The full amount due under this Chapter shall constitute a debt to the City. An action for the collection thereof may be commenced in the name of the City in any court having jurisdiction of the cause.

(Ord. MC-1525, 01-15-20; Ord. MC-1451, 12-20-17;
Ord. MC-650, 1-19-89; Ord. MC-542, 9-11-86)

[Return to Municipal Code Contents]

15.57.050 Tax- Place of payment

The tax shall be paid to the Building Official of the City or his/her authorized agent in the Community Development Department of the City.

(Ord. MC-1451, 12-20-17; Ord. MC-1027, 9-09-98;
Ord. MC-650, 1-19-89; Ord. MC-542, 9-11-86)

15.57.060 Disposition of cultural development construction taxes

The funds derived from this tax shall be placed in the General Fund with identification as to the source, so that the Mayor and City Council may consider appropriate expenditures in its annual budget for allocation to cultural development activities in the City or such other uses as the Mayor and City Council may direct. The use of the funds shall be reviewed annually by the Mayor and City Council.

(Ord. MC-1451, 12-20-17; Ord. MC-650, 1-19-89; Ord. MC-542, 9-11-86)

15.57.070 Severability

If any section, subsection, sentence, clause, phrase, or portion of this Chapter is held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct, and independent provision, and such holding shall not affect the validity of the remaining portions of the Chapter.

(Ord. MC-1451, 12-20-17; Ord. MC-650, 1-19-89; Ord. MC-542, 9-11-86)

Chapter 15.60 (Repealed by Ord. MC-880, 6-23-93)

Chapter 15.64 (Repealed by Ord. MC-84, 7-21-81)

Chapter 15.68
WASHERS, DRYERS, EXTRACTORS, AND COMPRESSORS

Sections:

- 15.68.010 Purpose**
- 15.68.020 Permit for installation - Fee**
- 15.68.030 Operation prohibited when excessive ground vibration occurs**
- 15.68.040 Distance of commercial laundry compressor from other buildings**
- 15.68.050 Requirements in addition to building code and other laws**
- 15.68.060 (Repealed by Ord. MC-460, 5-15-85)**

15.68.010 Purpose

The purpose of this Chapter is to regulate the installation, operation and maintenance of equipment or machinery, including but not limited to washers, dryers, extractors and washer extractors of fifty-five-pound capacity or larger, and compressors.

(Ord. 3064, 4-07-70)

15.68.020 Permit for installation - Fee

- A. No person, firm or corporation shall install any equipment or machinery without first obtaining a permit from the Department of Development Services. The fee for such permit shall be ten dollars. Such fee shall be in addition and supplemental to any other fee charged for the installation of such equipment or machinery.
- B. A design drawing and calculations shall be submitted with the application for a permit showing all information pertaining to the equipment or machinery which is necessary for a determination of foundation requirements in order that it may operate efficiently, safely, and with a minimum of vibration. A requirement of installation based on the design shall be that the ground vibration inherently and recurrently generated does not cause a displacement of the earth greater than .033 of one inch as measured at any point radially in any plane from the foundation, as determined by the City Engineer.

(Ord. MC-1027, 9-09-98; Ord. 3064, 4-07-70)

15.68.030 Operation prohibited when excessive ground vibration occurs

- A. No person shall operate any of the above equipment or machinery which due to faulty installation, maintenance or operation causes a ground vibration in excess of that described in Section 15.68.020. If in the opinion of the City Engineer

[Return to Municipal Code Contents]

equipment or machinery presently in operation does cause such excessive vibration, the Superintendent of the Development Services Department may require the operator to submit all the information required for an original installation of such equipment or machinery.

- B. If such information shows to the satisfaction of the City Engineer that the existing installation of such equipment or machinery does not meet the required standards, changes and modifications of installation shall be required to obtain compliance with the standards before the operation of the equipment or machinery may be continued.

(Ord. MC-1027, 9-09-98; Ord. 3064, 4-07-70)

15.68.040 Distance of commercial laundry compressor from other buildings

Any commercial laundry compressor maintained outside of the commercial building on the premises shall be at least seventy-five feet from any other building occupied as a residential dwelling unless provision is made to completely enclose the compressor in accordance with the minimum standards set forth in a drawing marked "commercial laundry compressor" on file in the Department of Development Services, City Hall, San Bernardino, California.

(Ord. MC-1027, 9-09-98; Ord. 3064, 4-07-70)

15.68.050 Requirements in addition to building code and other laws

The requirements of this Chapter are in addition and supplemental to any other requirements set forth in the California Building Code or other laws.

(Ord. MC-1525, 01-15-20; Ord. 3064, 4-07-70)

- 15.73.110 Severability**
- 15.73.120 Other fees**

15.73.010 Findings and determination

The Mayor and Common Council hereby find and determine as follows:

- A. The City of San Bernardino (the "City") must provide for the acquisition, construction and installation of certain right-of-way and related infrastructure improvements (as hereinafter defined and as hereinafter referred to as the "Right-of-Way Improvements") and certain other public improvements (as hereinafter described and as hereinafter referred to as the "Public Improvements") within the Verdemont Area of the City in order to maintain current levels of service if new development is to be accommodated without decreasing current levels of service and in order to ensure that the infrastructure system is in conformity with the requirements of the City's General Plan.
- B. It is in the interests of the present landowners within the Verdemont Area and the residents, both within the Verdemont Area and within the City generally, that the City causes the acquisition, construction and installation of the Right-of-Way Improvements and the Public Improvements within the Verdemont Area;
- C. The imposition of infrastructure development fees (the "Infrastructure Fees") is one of the preferred methods of ensuring that development in the Verdemont Area bears a proportionate share of the cost of capital facilities necessary to accommodate such development in order to effectively provide the quality and extent of infrastructure required within the Verdemont Area;

[Return to Municipal Code Contents]

- D. Development within the Verdemont Area will (i) generate increased traffic volumes necessitating the acquisition, construction and installation of the Right-of-Way Improvements and (ii) create a need for the acquisition, construction and installation of the Public Improvements;
- E. Revenues generated from the levy of the Infrastructure Fees will be used to facilitate the acquisition, construction and installation of the Right-of-Way Improvements and the Public Improvements which in turn will allow for the future development of property within the Verdemont Area by providing additional traffic flow capacity and other public improvements;
- F. The Infrastructure Fees established by Section 15.73.050 of this Chapter shall be calculated pursuant to a resolution duly adopted by the Mayor and Common Council simultaneously herewith (the "Resolution"). The Infrastructure Fees established by this Ordinance and as calculated pursuant to the Resolution are derived from, and based upon, and do not exceed the costs of undertaking the acquisition, construction and installation of the Right-of-Way Improvements;
- G. It is anticipated that certain excess revenues may be generated through the levy of the Infrastructure Fees for the acquisition, construction and installation of the Right-of-Way Improvements, and to the extent such revenues are generated, such revenues as are in excess of the amount required for the acquisition, construction and installation of the Right-of-Way Improvements shall be used for the purposes of funding the acquisition, construction and installation of the Public Improvements as defined in Section 15.73.030(e); provided, however, that if such excess revenues are not generated, then the Infrastructure Fees established by Section 15.73.050 of this Chapter and calculated pursuant to the Resolution will be increased in accordance with the terms of the Resolution or any subsequent resolution adopted by the Mayor and the Common Council of the City in order to cause the funding of the acquisition, construction and installation of the Public Improvements;
- H. That certain engineers report entitled "Engineers Report - Right-of-Way Improvements - Verdemont Area" (the "Engineers Report") sets forth the scope and extent of the Right-of-Way Improvements and the Public Improvements required in the Verdemont Area and sets forth a reasonable methodology and analysis for the determination of the impact of development on the need for, and costs of, acquisition, construction and installation of the Right-of-Way Improvements and the Public Improvements in the Verdemont Area;
- I. This Chapter shall apply only to that area of the City known as the Verdemont Area and is intended to assist in the continued development of the Verdemont Area;

- J. The purpose of this Chapter is to regulate the use and development of land so as to assure that new development bears a proportionate share of the cost of capital expenditures necessary to provide Right-of-Way Improvements and Public Improvements within or for the benefit of the Verdemont Area; and
- K. The City has the authority to enact this Chapter pursuant to Section 66000, et seq., of the California Government Code and Sections 40 (z) and 40 (aa) of the Charter of the City of San Bernardino.

(Ord. MC-707, 3-19-90)

15.73.020 Rules of Construction

- A. The provisions of this Chapter shall be liberally construed so as to effectively carry out its purpose in the interest of the public health, safety and welfare.
- B. For the purposes of administration and enforcement of this Chapter, unless otherwise stated in this Chapter, the following rules of construction shall apply to the text of this Chapter:
 - 1. In the case of any difference of meaning or implication between the text of this Chapter and any caption, illustration or summary table, the text shall control.
 - 2. The word "shall" is always mandatory and not discretionary; the word "may" is permissive.
 - 3. Words used in the present tense shall include the future tense; and words used in the singular number shall include the plural, and the plural the singular unless the context clearly indicates to the contrary.
 - 4. The word "person" includes an individual, a corporation, a partnership, an unincorporated association, or any other similar entity.
 - 5. The word "includes" shall not limit the term to the specific example but is intended to extend its meaning to all other instances or circumstances of like kind or character.

(Ord. MC-707, 3-19-90)

15.73.030 Definitions

- A. "Verdemont Area" is defined as that area of the City of San Bernardino delineated by the Verdemont Area Plan adopted by the Mayor and Common Council on November 17, 1986, excepting therefrom that area southwesterly of Kendall Drive, from the southerly boundary of the Verdemont Area Plan to Palm Avenue and

[\[Return to Municipal Code Contents\]](#)

portions north of Kendall Drive and southeasterly of Pine as shown in the Engineer's Report, and southwesterly of Route I-215 Freeway, from Palm Avenue to the northerly boundary of the Verdemont Area Plan and as more fully described in the Engineer's Report.

- B. "Development" shall mean every project for which either (i) a building permit is required, except that it shall not include those projects increasing either the size or value of a single family residence by twenty-five percent (25%) or less, or (ii) a permit is required in connection with the installation of a mobile home.
- C. A "Fee Payer" shall mean a person commencing a land development activity which generates traffic, necessitates the construction of additional publicly owned facilities or improvements and which requires the issuance of a building permit or a permit for the installation of a mobile home.
- D. "Right-of-Way Improvements" shall mean the acquisition, construction and installation of full width streets including, full-width paving, curbs and gutters, sidewalks, street lights, sewer mains, storm drains, catch basins and water mains in the following locations and all as more fully described in the Engineer's Report.

Portions of Palm Avenue

between Kendall Drive and Verdemont Avenue which portions are immediately adjacent to undeveloped projects

- E. "Public Improvements" shall mean the acquisition, construction and installation of drainage facilities, park facilities, fire station facilities and landscaping, all as more fully described in the Engineer's Report.
- F. "Engineer's Report" shall mean that certain Engineer's Report prepared for the Verdemont Area dated January 3, 1990.
- G. "Equivalent Dwelling Unit" shall refer to a numerical value designation for residentially zoned property whereby one (1) Equivalent Dwelling Unit is equivalent to a residential unit whether such residential unit be a single family attached or detached unit, or multi-family unit within a multi-family structure, or a mobile home. For land uses other than residential uses, the Equivalent Dwelling Unit shall equal the density of residential units that could be built per acre as determined by the zoning of the immediately adjacent or, if not immediately adjacent, the most proximate residentially zoned property.

(Ord. MC-707, 3-19-90)

[\[Return to Municipal Code Contents\]](#)

15.73.040 Persons Subject to Infrastructure Fee

Any person who seeks to develop land within the Verdemont Area by applying for a building permit, an extension of a building permit, a permit for a mobile home installation, or an extension of a permit for mobile home installation to make improvements to land which will generate additional traffic or increase the need for public facilities is hereby required to pay an Infrastructure Fee in the manner set forth in this Chapter.

(Ord. MC-707, 3-19-90)

15.73.050 Infrastructure fee

The Infrastructure Fee for any given parcel of property shall be determined by ascertaining the land use category of the parcel and multiplying the amount of the Infrastructure Fee by the number of Equivalent Dwelling Units allocated to such land use category. The initial amount of the Infrastructure Fee shall be set by the Resolution, and may be subject to increase pursuant to the terms of any subsequent resolutions to be adopted by the Mayor and Common Council, which resolutions shall provide for increases to the Infrastructure Fee in order to cover any administrative and carrying costs incurred in connection with the issuance of bonds required in order to finance the acquisition, construction and installation of all or any portion of the Right-of-Way Improvements and/or the Public Improvements.

It is anticipated that there may be certain excess revenues generated in connection with the levy of the Infrastructure Fee in the initial dollar amounts and to the extent any such excess revenues do exist, said excess revenues will be applied to fund the costs of the acquisition, construction and installation of the Public Improvements. To the extent said excess revenues do not exist, the Infrastructure Fee in the dollar amount as initially established, may be subject to additional increases by subsequent resolutions of the Mayor and Common Council in order to cause the funding of the acquisition, construction and installation of the Public Improvements.

The above-referenced subsequent resolutions and the dollar amount of the Infrastructure Fee initially established pursuant to this Chapter and the Resolution shall be reviewed and amended at least annually, or more often as may be necessary under the circumstances to reflect any increases in costs.

- A. For applications for an extension of a building permit or an extension of a permit for mobile home installation, the amount of the fee is the difference between the fee then applicable and any amounts previously paid in connection with the application for the initial permit.
- B. In the case of change of use, rehabilitation, expansion or modification of an existing use which requires the issuance of a building permit or permit for mobile home installation, the Infrastructure Fee shall be based upon the net

[\[Return to Municipal Code Contents\]](#)

positive increase in the demands placed upon the Right-of-Way Improvements and the Public Improvements by the new or expanded use compared to the previous use or level of use.

(Ord. MC-707, 3-19-90)

15.73.060 Time of Payment

- A. Except as may otherwise be provided in subsection (b) hereof, each applicant for a commercial or industrial building permit shall pay to the City the then applicable Infrastructure Fee, as initially established pursuant to this Chapter and adjusted pursuant to any subsequent resolutions of the City as more fully described in Section 15.73.050 hereof, upon the submission to the City of an application for a commercial or industrial building permit, which application is complete and in a form acceptable to the City. Each applicant for a residential building permit who submits an application, which application is complete and in the form acceptable to the City, shall pay to the City the then applicable Infrastructure Fee, as initially established pursuant to this Chapter and adjusted pursuant to any subsequent resolutions of the City as more fully described in Section 15.73.050 hereof, for all residential units subject to a building permit upon the earlier of the following dates:
- (i) upon the date of final inspection of the first dwelling unit completed in the residential development to which the building permit is applicable, or
 - (ii) upon the date a certificate of occupancy is issued for the first dwelling unit completed in the residential development to which the building permit is applicable.

In the event the City accepts any payment of Infrastructure Fees in connection with the submission of a building permit application, which application is incomplete or not in a form satisfactory to the City, all payments made in connection with such application shall be returned to the applicant and such applicant shall be required to submit a complete and acceptable application, and, at the time of such submission, shall pay any then applicable Infrastructure Fees. Notwithstanding any provision herein to the contrary, the City, by official action of the Mayor and Common Council, may require the payment of applicable Infrastructure Fees for residential units prior to the approval of a final tract or parcel map applicable to residential development if one of the following conditions are met:

1. The Director of Development Services of the City has determined that the applicable Infrastructure Fee will be collected from the subdivider for public improvements or facilities for which an account has been established and funds have been appropriated, and for which the City has adopted a proposed construction schedule or plan, or

[\[Return to Municipal Code Contents\]](#)

2. The applicable Infrastructure Fee will reimburse the City for expenditures previously made by the City. All applicants for permits for the installation of mobile homes will be subject to the procedures applicable to residential developments set forth hereinabove.
- B. Any person or entity who would otherwise be required to pay the Infrastructure Fee pursuant to paragraph (A) hereinabove may receive as a credit towards the Infrastructure Fee attributable to such person or entity, all or a portion of the costs of any Right-of-Way Improvements or Public Improvements that may be or may have been acquired, constructed or installed by such an entity.
 - C. All funds collected shall be promptly identified as Right-of-Way/Public Improvement Infrastructure Fees and promptly transferred for deposit in the appropriate Right-of-Way/Public Improvement Infrastructure Fee Fund to be held in a separate account and, together with interest earnings thereon, used solely for the purposes specified in this Chapter.
 - D. Notwithstanding anything in this section to the contrary, for any subdivision for which a final map has been approved prior to the effective date of this Chapter the fee established pursuant to Section 15.73.050 may be paid at the close of escrow on each individual lot, unless a later time is allowed by this Chapter.

(Ord. MC-1027, 9-09-98; Ord. MC-707, 3-19-90; Ord. MC-755, 11-21-90)

15.73.065 Deferral

For the construction of new single-family homes, the fees imposed by Section 15.73.060 may be deferred at the request of the owner of the property until the release of utilities is issued or eighteen (18) months from the issuance of the Building Permit, whichever is less. The owner of the property must personally guarantee payment of the fees, sign documents authorizing the City to place a lien on the property in the amount of the fees, agree to place the payment of the fees in any escrow for the sale of the property, authorize the City to demand payment in any such escrow, and pay an administrative fee set by resolution of the Mayor and Common Council. The amount of the fees due shall be the amount in effect at the time of collection of the fees. In no event shall utilities be released until the fees are paid, except that electrical service may be released at the discretion of the building official where necessary for security or maintenance purposes.

(Ord. MC-1045, 4-20-99; Ord. MC-1044, 4-07-99;
Ord. MC-1011, 12-16-97; Ord. MC-961, 3-20-96)

[\[Return to Municipal Code Contents\]](#)

15.73.070 Establishment of Infrastructure Fee Fund

There is hereby established a Right-of-Way/Public Improvement Infrastructure Fee Fund. The funds withdrawn from this account must be used in accordance with the provisions of Section 15.73.080 of this Chapter.

(Ord. MC-707, 3-19-90)

15.73.080 Use of Funds

- A. Funds collected from the Infrastructure Fees shall be used for the purpose of causing the acquisition, construction and installation of the Right-of-Way Improvements and/or Public Improvements within the Verdemont Area, as more specifically described in the Engineer's Report.
- B. No funds collected pursuant to this Chapter shall be used for periodic or routine maintenance.
- C. Funds may also be used to pay debt service on bonds or similar debt instruments issued in order to provide financing for the acquisition, construction and installation of the Right-of-Way Improvements and/or the Public Improvements for which the Infrastructure Fee may be expended.

(Ord. MC-707, 3-19-90)

15.73.090 Refunds

Any funds not expended or encumbered by the end of the calendar quarter immediately following six years from the date the Infrastructure Fee was paid shall, upon application of the then current landowner, be returned to such landowner with accrued interest thereon, provided the landowner submits an application for refund to the City Finance Officer within one hundred eighty (180) days of the expiration of the six year period.

(Ord. MC-707, 3-19-90)

15.73.100 Penalties

A violation of this Chapter shall be prosecuted in the same manner as misdemeanors are prosecuted and upon conviction the violator shall be punishable according to law; however, in addition to or in lieu of any criminal prosecution, the City shall have the power to sue in civil court to enforce the provisions of this Chapter.

(Ord. MC-707, 3-19-90)

[\[Return to Municipal Code Contents\]](#)

15.73.110 Severability

If any Section, phrase, sentence or portion of this Chapter is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion or portions hereof shall be deemed to be a separate, distinct and independent provision, and such holding shall not affect the validity of the remaining portions hereof.

(Ord. MC-707, 3-19-90)

15.73.120 Other Fees

Notwithstanding the payment of Infrastructure Fees as set forth in this Chapter, any developer or Fee Payer shall be responsible for the payment of any applicable installation fees, sewer connection fees, water acquisition charges or other fees or charges levied by the City and all other public bodies in connection with the development of property with the Verdemont Area, and such developer or Fee Payer shall either

- (i) provide for the acquisition, construction and installation of any and all other public improvements required by the City of such developer or Fee Payer as a condition to approval of any development which are in addition to both
 - (a) the Right-of-Way Improvements to be funded by the Infrastructure Fees as established by this Chapter in the initial dollar amount and
 - (b) the Public Improvements to be funded by subsequent increases to the Infrastructure Fees or as established by this Chapter in the initial dollar amount,
- (ii) pay any other on or off-site improvement fees, assessments or special taxes as may be levied by the City as a condition to the approval of any development in lieu of the actual acquisition, construction or installation of public improvements as set forth in (i) above.

Unless a developer or Fee Payer has provided for the payment of Infrastructure Fees in an amount to provide for the acquisition, construction and installation of the Right-of-Way Improvements and the Public Improvements, plus any financing costs if applicable, or has constructed a proportionate share of the Right-of-Way Improvements and the Public Improvements, such developer or Fee Payer shall not be relieved from the obligation to participate in any benefit assessment district or special tax district established for the purpose of funding that portion of the Right-of-Way Improvements and/or the Public Improvements not covered by the Infrastructure Fees as may have been previously paid by a developer or Fee Payer.

(Ord. MC-707, 3-19-90)

Chapter 15.74 VIOLATION - PENALTY

Sections:

15.74.010 Violation - Penalty

15.74.010 Violation - Penalty

- A. Any person, firm or corporation whether as a principal, agent, employee or otherwise who erects, constructs, enlarges, alters, repairs, moves, improves, removes, converts or demolishes a building or a structure for which a building permit is required by this title and the adopted codes, and for which a permit has not been obtained from the Building Official, or otherwise violates any provision of the adopted codes, or this Title, shall be guilty of either an infraction or a misdemeanor. Any person, firm or corporation whether as a principal, agent, employee or otherwise, violating or causing the violation of any provision of the Fire Code is guilty of a misdemeanor, which upon conviction thereof is punishable in accordance with the provisions of Section 1.12.010 of this Code.
- B. Each day during any part of which the activity prohibited by Subdivision A of this section continues, or a violation of the adopted codes continues to exist shall be a separate and distinct offense. The imposition of any penalty for any violation of this Title shall not excuse the violation or permit it to be continued, and all persons shall be required to correct or remedy all such violations or defects within a reasonable time. The application of any penalty shall not be held to prevent the enforced removal of prohibited conditions.

16.16.010 Filing of application

- A. A street banner is defined as a banner extended over a public street or other public property, either on an established bridge or independently suspended. The locations permissible for the erection of street banners within the City of San Bernardino are:
1. The "E" Street pedestrian foot bridge between the Maruko [Radisson] Hotel and Convention Center and Central City Mall. The banner will be installed on hand rails on the south side of the bridge, facing northbound traffic.
 2. On "E" Street, immediately north of Church Street. The banner will be installed between streetlight standards, facing northbound traffic; Requests for street banner installation at any other location within the City of San Bernardino over a public street will require approval of the City Administrator.
- B. An applicant for a street banner permit shall obtain, complete and file with the City Administrator an application which shall contain the following.
1. The location, dimensions and purpose of the banner;
 2. A facsimile of the proposed banner;
 3. The proposed date when the banner will be installed, which must be at least ten (10) days after the date of the application;
 4. The proposed date when the banner will be removed;
 5. A hold harmless clause in language approved by the City Attorney.

(Ord. MC-689, 12-08-89; Ord. 3804, 2-08-79; Ord. 2802, 3-14-67; Ord. 821, 8-09-1921)

16.16.020 Granting of permits

Permits for street banners issued under this Chapter shall be granted only to non-profit civic organizations or governmental bodies for the purpose of bringing to the attention of the public the events which are of a general public interest, or of welcoming conventions or similar gatherings and shall be subject to such terms and conditions as shall be reasonably imposed. No permits shall be issued to further political or religious purposes, or purposes primarily involving private financial gain. Nothing in this Chapter shall be construed to prohibit the issuance of a permit for a street banner welcoming the convention or similar gathering of a private, religious or political organization.

(Ord. MC-689, 12-08-89; Ord. 3804, 2-08-79; Ord. 2802, 3-14-67; Ord. 821, 8-09-1921)

[\[Return to Municipal Code Contents\]](#)

16.16.030 Duration of permit

Permits for street banners shall be granted for a period of not more than seven days unless a longer period is specifically requested and justified due to special or extraordinary circumstances.

(Ord. MC-689, 12-08-89; Ord. 2802, 3-14-67; Ord. 821, 8-09-1921)

16.16.040 Deposit

Each applicant shall make a deposit of money with the City, in an amount specified by resolution, to cover the costs of permit issuance and the cost of erection and removal of each banner where required by this Chapter.

(Ord. MC-689, 12-08-89; Ord. MC-427, 1-25-85; Ord. MC-144, 3-16-82;
Ord. 3804, 2-08-79; Ord. 2802, 3-14-67; Ord. 821, 8-09-1921)

16.16.050 Erection and Removal of Street Banner

Each such banner shall be furnished by the applicant at its cost, at least one day prior to the date the banners to be erected. Each street banner shall be erected and removed by the City.

(Ord. MC-689, 12-08-89; Ord. MC-427, 1-25-85;
Ord. 2802, 3-14-67; Ord. 821, 8-09-1921)

16.16.060 Standard specifications

Each banner shall be constructed in conformity with the specifications and requirements of the City, as adopted from time to time by resolution.

(Ord. MC-689, 12-08-89)

16.16.070 Appeal

An applicant may appeal to the Common Council from the denial of a permit, or from the terms and conditions of a permit. Such appeal shall be in accordance with the provisions of Chapter 2.64 of this Code.

(Ord. MC-689, 12-08-89; Ord. MC-410, 9-17-84; Ord. 3804, 2-08-79; Ord. 821, 8-09-1921)

Chapter 16.18
UNAUTHORIZED SIGNS ON PUBLIC PROPERTY
(Added by Ord. MC-1343, 12-20-10)²

Sections:

- 16.18.010 Definitions**
- 16.18.020 Prohibitions**
- 16.18.030 Abatement**
- 16.18.040 Cost of Removal**
- 16.18.050 Collection of costs**
- 16.18.060 Violation - Penalty**
- 16.18.070 Appeal**

16.18.010 Definitions

For the purpose of this chapter only, unless otherwise apparent from context, words and phrases used in this chapter shall have the meanings hereinafter designated. The definitions in this chapter are included for reference purposes only and are not intended to narrow the scope of definitions set forth in federal, state or other applicable laws or regulations. Words used in this chapter in the singular may include the plural and the plural may include the singular. Use of the masculine shall also mean feminine and neuter.

- A. "Code" means the San Bernardino Municipal Code.
- B. "Development Code" means Title 19 of the San Bernardino Municipal Code.
- C. "Director" means the Director of Community Development or his/her designee.
- D. "Responsible Party" means the person liable for placement of a sign. The following is a non-exclusive list of facts which when found to exist, shall constitute prima facie evidence that a person is a Responsible Party:
 - 1. Based on information contained on the sign, and information from other sources, the person is identified as the owner or lessee of property used for the activity or event, and/or is the sponsor or promoter of the activity or event described on the sign.

² Ord. MC-1343, 12-20-10 contains "16.18.070 Appeal" in the table of contents, but does not have any text for that section.

2. Based on information that appears on the sign, and information from other sources, including but not limited to information establishing the individual or corporate identity of the owner of the sign, it is found that the person placed the sign or caused the sign to be placed.

E. "Sign" means any notice, writing of letters, words or numerals, pictorial presentation, illustrations or decorations, emblems or devices, symbols or trademarks, flags, banners or pennants, graphic announcement, posters, pictures or any item used to convey any message or idea.

16.18.020 Prohibitions

No person shall place, affix, erect, extend, project over, suspend or maintain or cause to be placed, affixed, erected, extended, suspended or maintained any unauthorized sign in, over or on public property, public utility poles, light poles, public rights-of-way, trees in the public right-of-way, or on publicly owned or maintained land unless:

1. The prior approval by the owner of the public property for placement of the sign appears on the sign or has otherwise been provided to the City of San Bernardino, in writing, prior to such placement; or
2. The public property is a traditional public forum such as the park or the sidewalk, and the sign is held or personally attended to by one or more persons.

"personally attended" means that the person is in such control of the sign as to prevent the infliction of damage upon the sign or the infliction of physical damage by the sign; or

3. Placement is otherwise permitted by the Development Code or other applicable law of the City of San Bernardino.

16.18.030 Abatement

A Violation of this chapter shall constitute a public nuisance. The Director is hereby authorized to proceed with the summary abatement of such public nuisance by causing the sign to be removed and destroyed without prior notice to the Responsible Party. If the Responsible Party can be identified and located, any sign so removed may be stored by the Director pending any action to recover the City's costs of removal.

16.18.040 Costs of Removal

The costs of the removal of any sign by City employees and/or City contractors pursuant to this chapter shall be borne by the Responsible Party. The costs of removal shall be established by separate resolution of the Mayor and Common Council.

16.18.050 Collection of costs

Unpaid costs of removal shall be a debt to the City and subject to all remedies for debt collection as allowed by law.

16.18.060 Violation - Penalty

A violation of this chapter may be enforced or punished in any manner prescribed by law or through any other process or procedure established or allowed by this Code or applicable law.

It shall not be a defense to a violation of this chapter that the Responsible Party was unaware that the property on which the sign was posted is public property.

Chapter 17.05
Hazardous Waste Management Plan

Sections:

- 17.05.010 Applicability
- 17.05.020 Hazardous Waste Facility Defined

17.05.010 Applicability

Any application for a zoning amendment, subdivision, conditional use permit, or variance for a hazardous waste facility shall comply with Chapter 5 of the County Hazardous Waste Management Plan, entitled "Siting of Specified Hazardous Waste Facilities" attached as Attachment "1" and incorporated herein by reference, in addition to complying with all other applicable City ordinances.

(Ord. MC-766, 12-17-90)

17.05.020 Hazardous Waste Facility Defined

Hazardous Waste Facility, as defined in California Health and Safety Code Section 25117.1, means all contiguous land and structures, other appurtenances, and improvements on the land used for the treatment, transfer, storage, resource recovery, disposal, or recycling of hazardous waste. A hazardous waste facility may consist of one or more treatment, transfer, storage, resource recovery, disposal, or recycling hazardous waste management units, or combinations of these units.

Chapter 17.06 Water Wise Landscape Program

Sections:

- 17.06.010 Purpose and Intent
- 17.06.020 Definitions
- 17.06.030 Applicability
- 17.06.040 Water Wise Landscape Program
- 17.06.050 Administration
- 17.06.060 Program Requirements
- 17.06.070 Action on Application
- 17.06.080 Temporary Limited Exemption From Specified Code Provisions
- 17.06.090 Fire Hazard Prohibited
- 17.06.100 Yard Sign
- 17.06.110 Certificate of Completion
- 17.06.120 Failure to Timely Complete Installation
- 17.06.130 Withdrawal From Program
- 17.06.140 False Statement in Required Documents
- 17.06.150 Severability
- 17.06.160 CEQA Exemption

17.06.010 Purpose and intent

- A. The purpose of this Chapter is to encourage water conservation in the City of San Bernardino by facilitating the voluntary conversion of existing residential landscaping to less water-intensive landscaping. The provisions contained in this Chapter are intended to permit property owners to retire existing vegetation by temporary non-irrigation of their property, without being subject to provisions of this Code that otherwise would effectively preclude this practice.
- B. Except as specifically stated in this Chapter, nothing in this Chapter shall be construed to exempt any person or property from any otherwise applicable provision of this Code.

17.06.020 Definitions

As used in this Chapter, the following terms, when capitalized, have the meanings stated:

- A. **"Agreement"** shall mean the Water Wise Landscape Agreement described in this Chapter.
- B. **"City"** shall mean the City of San Bernardino.
- C. **"Code"** shall mean the Municipal Code of the City of San Bernardino.
- D. **"Department"** shall mean the Development Services Department of the City of San Bernardino.
- E. **"Director"** shall mean the Director of Development Services of the City of San Bernardino, or his or her designee.
- F. **"Guidelines"** shall mean the Water Wise Landscape Guidelines developed by the Water Resources Institute, California State University, San Bernardino.
- G. **"Permit"** shall mean the Water Wise Landscaping Permit described in this Chapter.
- H. **"Program"** or **"Water Wise Landscape Program"** shall mean the City of San Bernardino Water Wise Landscape Program described in this Chapter.
- I. **"Water Wise Landscape"** shall mean a landscape that uses drought tolerant, California friendly landscaping in lieu of large turf areas, and that uses efficient irrigation.

17.06.030 Applicability

This Chapter shall apply to single-family residential properties in the City.

17.06.040 Water Wise Landscape Program

There is hereby established the City of San Bernardino Water Wise Landscape Program.

17.06.050 Administration

The Program shall be administered by the Director through the Department.

[Return to Municipal Code Contents]

17.06.060 Program Requirements

To participate in the Program, a property owner must:

- A. Own a single-family residential property in the City with existing landscaping, and occupy the property continuously for the entire period of time that the property is subject to the Program.
- B. Have the desire and the ability to convert the existing landscaping on the property to less water-intensive landscaping.
- C. Sign and submit to the Department a properly completed application for participation in the Program, in a form prescribed by the Department for that purpose. The application must accurately set forth:
 1. The street address and Assessor's Parcel Number of the property.
 2. A description of the landscaping that is to be retired and replaced.
 3. A description of the Water Wise Landscape that is to be installed.

The landscape must conform to the Guidelines, as follows:

- a. The landscape shall consist of water-efficient, drought tolerant and native plant material, and may include ground covers, small plants, shrubs and appropriate trees. Buffer areas and bioswales may be included and may be designed with rocks, cobble or decomposed granite, landscaped shrubs or accents, or suitable ground cover.
- b. All planted areas must be a minimum of one inch below adjacent hardscapes (sidewalks and driveways) to eliminate runoff and overflow of irrigation water.
- c. Mounded or sloped planting areas that would contribute to runoff of irrigation water onto non-irrigated areas, walks, roadways or structures must be avoided.
- d. Any turf areas shall be set back at least 24 inches from curbs, driveways, sidewalks or any other area that may result in runoff of irrigation water onto streets.
- e. Plants having similar water requirements should be grouped together in "hydrozones" so that watering can be done efficiently.

[\[Return to Municipal Code Contents\]](#)

- f. Annual color plantings should be used only in areas of high visibility where they can be seen and appreciated. Otherwise, perennial plantings should be the primary source of color.
 - g. Landscaping must not obstruct or interfere with street signs, lights, or visibility on roads or walkways.
 - 4. The date on which the installation of the replacement landscaping will begin, which shall not be later than twelve (12) months from the date of submittal of the application.
 - 5. The date on which the installation of the replacement landscaping will be completed, which must not be later than the next May 31 immediately following the date on which the installation is to begin.
- D. Sign and submit to the Department a properly completed Water Wise Landscape Agreement. The Agreement shall require that the participant agree to maintain the replacement landscaping to ensure water efficiency.

17.06.070 Action on Application

- A. After a properly completed application has been submitted, the Director shall review the application and shall verify that the proposed project will comply with all applicable requirements of this Code. Upon making this verification, the Director shall approve the application and shall issue to the applicant a Water Wise Landscaping Permit in a form prescribed by the Department.
- B. If in the judgment of the Director the project will not comply with one or more applicable requirements of this Code, the Director shall specify the requirement(s) with which the project will not comply and shall deny the application.

17.06.080 Temporary Limited Exemption From Specified Code Provisions¹

- A. From the date on which an application is approved by the Director until the date on which the installation of the replacement landscaping will begin, as stated in the application, the property owner shall not be subject to citation by any City officer for violation of the following provisions of this Code, in the following respects only:
 - 1. Section 8.27.010.A, with respect to the prohibition on dry vegetation.
 - 2. Section 8.27.010.B, with respect to the prohibition on dry grass and stubble.
 - 3. Section 8.30.010.D, with respect to the prohibition on vegetation constituting an unsightly appearance. This temporary exemption shall apply only to vegetation that is unsightly due to lack of irrigation.
 - 4. Section 15.24.040.A.2, with respect to the requirement that planted vegetation be regularly irrigated.
 - 5. Section 15.24.040.A.2, with respect to the prohibition on dead vegetation.
- B. The exemptions provided for in this Section shall apply only to the portion of the property that is to be re-landscaped pursuant to the Program. The property owner must maintain the remaining portion of the property in compliance with all applicable provisions of this Code at all times.

17.06.090 Fire Hazard Prohibited

Notwithstanding any other provision of this Chapter, no property shall at any time be maintained in such a manner as to constitute a fire hazard.

17.06.100 Yard Sign

- A. Each participant in the Program shall obtain from the Department and prominently display on the property subject to the Program a yard sign indicating that the property is subject to the Program, for the purpose of informing City officers that the property is subject to the exemptions provided for in this Chapter.
- B. The yard sign shall be displayed at all times during which the property is subject to the exemptions provided for in this Chapter.

¹Ord. MC-1418, 11-05-15 deleted Ch. 8.27 and directed that references to it be directed to Ch. 8.30 and also amended Ch. 8.30; specific subsections referenced may either no longer exist or no longer work as specific references although the content may still be found elsewhere in Ch. 8.30 as a whole.

- C. It shall be the responsibility of the Program participant to promptly replace a sign that is lost or stolen.
- D. Knowingly displaying a sign issued by the Department pursuant to this Section on property that is not covered by a properly issued Water Wise Landscaping Permit is a violation of this Code. Any person who violates or causes the violation of this provision is guilty of a misdemeanor, and upon conviction may be punished in accordance with Section 1.12.010 of this Code.

17.06.110 Certificate of Completion

Upon the completion of the installation of replacement landscaping pursuant to the Program, the owner of the property must sign and submit to the Department a properly completed Certificate of Completion in a form prescribed by the Department, attesting that the landscaping has been installed in compliance with the approved Program application. The Certificate of Completion must be accompanied by full-color photographs taken from the front perimeter of the property sufficient to illustrate that a Water Wise Landscape has been completed.

17.06.120 Failure to Timely Complete Installation

A property owner who fails to complete installation of replacement landscaping pursuant to this Chapter by the next May 31 immediately following the date on which the installation begins forfeits the exemptions provided for in Section 17.06.080 and any other benefits to which Program participants are entitled under this Chapter.

17.06.130 Withdrawal From Program

A property owner who obtains a Permit but later elects not to continue participation in the Program may withdraw from the Program by notifying the Director in writing of the election to withdraw and paying a withdrawal fee of one hundred dollars (\$100) for each month the Permit was in effect, prorated day-by-day for partial months.

17.06.140 False Statement in Required Documents

Making a knowingly false statement in any of the documents required for participation in the Program is a violation of this Code. Any person who violates or causes the violation of this provision is guilty of a misdemeanor, and upon conviction may be punished in accordance with Section 1.12.010 of this Code.

17.06.150 Severability

The provisions of this Chapter are severable, and, if any sentence, section or other part of this Chapter should be found to be invalid, such invalidity shall not affect the remaining provisions, which shall continue in full force and effect.

17.06.160 CEQA Exemption

The adoption of this Chapter is exempt from the provisions of the California Environmental Quality Act pursuant to Section 15061(b)(3) of the Guidelines for Implementation of the California Environmental Quality Act (Title 14, California Code of Regulations, commencing with Section 15000), as it can be seen with certainty that there is no possibility that the activity permitted by this Chapter may have a significant effect on the environment.

(Ord. MC-1311, 8-18-09)

Chapter 17.07 Water Efficient Landscape Ordinance (Repealed by Ord. MC-1368, 1-09-12)

Chapter 17.08

Mobile Source Air Pollution Ordinance

Sections:

- 17.08.010 Title**
- 17.08.020 Findings**
- 17.08.030 Intent**
- 17.08.040 Definitions**
- 17.08.050 Administration of Vehicle Registration Fee**
- 17.08.060 Liberal Construction**

17.08.010 Title

This Chapter may be referred to as the Mobile Source Air Pollution Ordinance.
(Ord. MC-784, 5-07-91)

17.08.020 Findings

The City of San Bernardino hereby finds and declares that:

1. The City is committed to improving the public health, safety and welfare, including air quality.
2. Mobile sources are a major contributor to air pollution in the South Coast Air Basin.
3. Air quality goals for the region established by state law cannot be met without reducing air pollution from mobile sources.
4. The South Coast Air Quality Management Plan (AQMP) calls upon cities and counties to reduce emissions from motor vehicles consistent with the requirements of the California Clean Air Act of 1988 by developing and implementing mobile source air pollution reduction programs.
5. To the extent that such programs place demands upon the City's funds, those programs should be financed by shifting the responsibility for financing from the general fund to the motor vehicles creating the demand, to the greatest extent possible.

6. Health and Safety Code, Section 44223, added by action of the California Legislature on September 30, 1990, (Stats. 1990, Ch. 1705), authorizes the South Coast Air Quality Management District (SCAQMD) to impose an additional motor vehicle registration fee of Two Dollars (\$2.00), commencing on April 1, 1991, increasing to Four Dollars (\$4.00), commencing on April 1, 1992, to finance the implementation of transportation measures embodied in the AQMP and provisions of the California Clean Air Act.
7. Forty Cents (\$.40) of every dollar collected under Section 44223 of the Health and Safety Code shall be distributed to cities and counties located in the South Coast Air Quality Management District that comply with Section 44243 based on the jurisdiction's prorated share of population as defined by the State Department of Finance.
8. The City is located within the South Coast Air Quality Management District and is eligible to receive a portion of revenues from the motor vehicle registration fees upon adoption of this Chapter.
9. The City, after careful consideration, hereby finds and declares that the imposition of the motor vehicle registration fee by the SCAQMD to finance mobile source air pollution reduction programs is in the best interest of the general welfare of the City and its residents.

Therefore, the City deems it advisable to adopt this Chapter.

(Ord. MC-784, 5-07-91)

17.08.030 Intent

This Chapter is intended to support the SCAQMD's imposition of the vehicle registration fee and to bring the City into compliance with the requirements set forth in Section 44243 of the Health and Safety Code in order to receive fee revenues for the purpose of implementing programs to reduce air pollution from motor vehicles.

(Ord. MC-784, 5-07-91)

17.08.040 Definitions

As used in this Chapter, the following words and terms shall be defined as follows:

1. **"City"** shall mean the City of San Bernardino.

[\[Return to Municipal Code Contents\]](#)

2. **"Mobile source air pollution reduction programs"** shall mean any program or project implemented by the City to reduce air pollution from motor vehicles pursuant to the California Clean Air Act of 1988 or the plan proposed pursuant to Article 5 (commencing with Section 40460) of Chapter 5.5 of Part 3 of the Health and Safety Code.
3. **"Fee Administrator"** shall mean the Finance Director of the City.

(Ord. MC-784, 5-07-91)

17.08.050 Administration of Vehicle Registration Fee

1. Receipt of Fee: Vehicle registration fees due pursuant to this Chapter disbursed by the SCAQMD and remitted to the City shall be accepted by the Fee Administrator.
2. Transfer of Funds: Upon receipt of vehicle registration fees, the Fee Administrator shall be responsible for placement of such funds into a separate account as hereinafter specified.
3. Establishment of Air Quality Improvement Trust Fund: The Fee Administrator shall establish a separate interest-bearing trust fund account in a financial institution authorized to receive deposits of City funds. Interest earned by the account shall be credited to that account and shall be used to finance mobile source air pollution programs.
4. Audits: The City consents to audits, at least once every two years, of all programs and projects funded by vehicle registration fee revenues provided under Section 44223 of the Health and Safety Code.

(Ord. MC-784, 5-07-91)

17.08.060 Liberal Construction

The provisions of this Chapter shall be liberally construed to effectively carry out its purposes, which are hereby found and declared to be in furtherance of the public health, safety, welfare and convenience.

(Ord. MC-784, 5-07-91)

ARTICLE I - GENERAL PROVISIONS

CHAPTER 19.02 BASIC PROVISIONS

Sections:

- 19.02.010 Title
- 19.02.020 Purpose
- 19.02.030 Authority and General Plan Consistency
- 19.02.040 Review Authorities
- 19.02.050 Definitions.
- 19.02.060 Establishment of Zones
- 19.02.070 General Requirements
- 19.02.080 Density and Intensity
- 19.02.090 Severability

19.02.010 Title

This Title shall be known as the “City of San Bernardino Development Code,” hereafter referred to as the “Development Code.”

(Ord. MC-782, 5-03-91)

19.02.020 Purpose

The purpose of this Development Code is to promote the public health, safety, general welfare and preserve and enhance the aesthetic quality of the City by providing regulations to ensure an appropriate mix of land uses in an orderly manner. In furtherance of this purpose, the City desires to achieve a pattern and distribution of land uses which generally:

1. Retain and enhance established residential neighborhoods, commercial and industrial zones, regional-serving uses, recreation and amenities.
2. Allow for the infill and recycling of areas at their prevailing scale and character.
3. Allow for the intensification of commercial industrial uses and mixed-density in select residential neighborhoods.
4. Accommodate expansion of development into vacant and low-use lands within environmental and infrastructure constraints.

[\[Return to Municipal Code Contents\]](#)

5. Maintain and enhance significant environmental resources.
6. Provide a diversity of areas characterized by differing land use activity, scale and intensity.
7. Establish San Bernardino as a unique and distinctive place in the Inland Empire with a high quality of life and aesthetic, secure environment for the City's residences and businesses.

(Ord. MC-1393, 12-02-13; Ord. MC-782, 5-03-91)

19.02.030 Authority And General Plan Consistency ¹

This Development Code is the primary tool for implementing the goals, objectives, and policies of the San Bernardino General Plan, pursuant to the mandated provisions of the State Planning and Zoning Law (Government Code Section 65000 et seq.), State Subdivision Map Act (Government Code Section 66410 et seq.), California Environmental Quality Act (Public Resources Code 21000 et seq.), and other applicable State and local requirements. All development within the unincorporated area of the City's Sphere of Influence, should be consistent with the San Bernardino General Plan. All development in the incorporated area of the City shall be consistent with the General Plan.

The subdivision provisions of this Development Code are intended to supplement and implement the Subdivision Map Act, and serves as the Subdivision Ordinance of the City. If the provisions of this Development Code conflict with any provision of the Subdivision Map Act, the provisions of the Subdivision Map Act shall prevail.

This Development Code is designed to treat in one unified text those areas of regulation more typically dealt with in separate zoning and subdivision ordinances, and related chapters of the Municipal Code. No land shall be subdivided and/or developed for any purpose which is not in conformity with the General Plan, and any applicable specific plan of the City and permitted by this Development Code, or other applicable provisions of the San Bernardino Municipal Code.

The type and intensity of land use as shown on the General Plan and any applicable specific plan shall determine, together with this Development Code, the type of streets, roads, highways, utilities and public services that shall be provided by the subdivider.

(Ord. MC-782, 5-03-91)

¹ Ord. MC-1559, 5-03-21 contains a typographical error that would have caused 19.02.030 to accidentally be supplanted with the text of 19.04.030(1). The City Attorney's Office has advised to instead place the content and reference into 19.04.030 where it was intended and provide this explanation.

19.02.040 Review Authorities

The development review process involves the participation of the following:

1. MAYOR AND COMMON COUNCIL

The Council shall have final decision authority for appeals, final maps, Specific Plans, General Plan Amendments, Development Code Amendments, Improvement and Development Agreements, Surface Mining and Land Reclamation, and the acceptance by the City of lands and/or improvements as may be proposed for dedication to the City, except Deeds of Dedication and parcel maps of four or fewer parcels with no development agreements. The Council may also impose conditions of approval.

2. PLANNING COMMISSION

A. APPOINTMENT

The Planning Commission shall consist of nine members appointed by the Mayor and Common Council and serve pursuant to the provisions of Chapter 2.17 of the Municipal Code.

B. DUTIES

The Commission shall perform the duties and functions prescribed in this Development Code. The Commission shall prepare, recommend adoption, implement and periodically review and recommend revisions to the General Plan and this Development Code for the desired physical development of the City, and any land within its Sphere of Influence.

C. POWERS

Final approval for Variances, Specified Development Permits, Conditional Use Permits, Tentative Tract Maps, Reversions to Acreage, and Vesting Tentative Tract Maps subject to appeal to the Mayor and Common Council. Also, the Commission recommends to the Mayor and Common Council for final determination on the following entitlements: Specific Plans, General Plan Amendments, Development Code Amendments, Development Agreements and Surface Mining and Land Reclamation Plans. The Commission may also impose conditions of approval or make interpretations of the General Plan which may be appealed to the Mayor and Common Council.

(Ord. MC-1393, 12-02-13)

[\[Return to Municipal Code Contents\]](#)

3. DIRECTOR OF PLANNING AND BUILDING SERVICES

A. APPOINTMENT

The Director of Community Development shall be appointed by the Mayor and Common Council.

B. DUTIES

The Director shall perform the duties and functions provided in this Development Code, in addition to the day-to-day and long range management of the Community Development Department.

This includes the acceptance and processing of all land use permit applications (i.e. variances, development permits, tract maps, etc.).

C. POWERS

Final approval authority for and enforcement of: Building Permits, Certificates of Occupancy, Specified Development Permits, Lot Line or Boundary Adjustments, Home Occupation Permits, Minor Exceptions, Minor Modifications, Sign Permits, Similar Use Determinations, Temporary Use Permits. All of the above except Building Permits and Certificates of Occupancy are subject to appeal to the Planning Commission. The Director may impose conditions of approval or make interpretations of this Development Code, which may be appealed to the Planning Commission.

(Ord. MC-1393, 12-02-13)

4. DEVELOPMENT REVIEW COMMITTEE (DRC)

A. MEMBERSHIP

The DRC members shall consist of representatives of the following departments: Community Development (a designee from the Planning Division [Chairperson], a designee from the Building Division, and a designee from the Land Development Division [representing the Public Works Department]), Integrated Waste Management, Fire, and Water. The representatives shall be the Director of the Department or their designees(s). An urban design professional may be retained on a consultant basis or placed on staff to provide input on design review as required by Chapter 19.38, Design Review.

(Ord. MC-1383, 1-16-13)

[Return to Municipal Code Contents]

B. DUTIES

The DRC shall perform the duties and functions provided in this Development Code.

C. POWERS

Final approval authority for: specified Development Permits, Tentative Parcel Maps, design review and adoption of Negative Declarations, subject to appeal to the Planning Commission. The DRC may impose conditions of approval.

(Ord. MC-1393, 12-02-13)

5. ENVIRONMENTAL REVIEW COMMITTEE (ERC)

A. MEMBERSHIP

The ERC members shall consist of representatives of the following departments: Community Development (a designee from the Planning Division [Chairperson], a designee from the Building Division, and a designee from the Land Development Division [representing the Public Works Department]), Integrated Waste Management, Fire, and Water. The representatives shall be the Director of the Department or their designees(s).

(Ord. MC-1383, 1-16-13)

B. DUTIES

The ERC shall perform the duties and functions provided in the City Environmental Review Guidelines, the California Environmental Quality Act (CEQA) and the CEQA State Guidelines, as amended.

C. POWERS

The ERC shall have authority to make determinations for Negative Declaration, mitigated Negative Declarations, or the need for preparing an Environmental Impact Report for discretionary (non-ministerial) applications. The ERC may recommend mitigation measures or requirements in making environmental determinations. Determinations of the ERC shall be final unless appealed to the Planning Commission. The ERC may recommend conditions of approval.

6. CITY ENGINEER

The City Engineer shall be responsible for the following:

- A. The processing and recommendation to the Council on all matters pertaining to final tract and final parcel maps.
- B. Determining if proposed subdivision improvements comply with the provisions of the Municipal Code, the Map Act and improvement standards.
- C. Establishing design and construction details, improvement standards and specifications.
- D. The processing and approval, conditional approval, or denial of certificates of compliance, mergers/unmergers and correction and amendment of maps.
- E. The inspection and approval of subdivision improvements.
- F. Establishment of security amounts, and other financial provisions.
- G. Approval of parcel maps without an agreement.
- H. Acceptance of dedications on parcel maps without an agreement.

(Ord. MC-782, 5-03-91)

19.02.050 Definitions

The words and phrases set out in this section, when used in this Development Code, shall, for the purposes of this Development Code only, have the following respective meanings. These definitions do not apply to any other chapter of the Municipal Code, and the same words and phrases may have different meanings in other chapters of the Municipal Code.

Abutting (Adjacent). Two or more parcels sharing a common boundary, of at least 1 point.

Abandoned. To cease or suspend from developing or maintaining a building or use for a stated period of time.

Abandoned Activity. A business or activity with no reported sales or activity for a period of at least 180 days. Exceptions are temporary closures for repairs, alterations, or other similar situations.

[Return to Municipal Code Contents]

Access. Safe, adequate, and usable ingress or egress to a property or use.

Accessory Building or Structure. A structure detached from a principal structure on the same lot, incidental to the principal building, and not designed for human habitation.

Accessory Use. A use that is incidental to the principal use on the same lot.

Action. The decision made by the review authority on a land use application, including appropriate findings, environmental determination and conditions of approval, where applicable.

Adult-Oriented Businesses. See Section 19.06.030 (2)(A) for specific definition of terms.

Agriculture. The use of land for farming, dairying, pasteurizing and grazing, horticulture, floriculture, viticulture, apiaries, animal and poultry husbandry, and accessory activities, including, but not limited to storage, harvesting, feeding or maintenance of equipment excluding stockyards, slaughtering or commercial food processing.

Airport or Heliport. Any area of land designated and set aside for the landing and taking off of any aircraft regulated by Federal Aviation Administration.

Alley. A public or private way, at the rear or side of property, permanently reserved as an ancillary means of vehicular or pedestrian access to abutting property.

Alteration. Any construction or physical change in the internal arrangement of rooms or the supporting members of a building or structure, or change in the appearance of any building or structure.

Ancillary Use. A use incidental to and customarily associated with a specific principal use, located on the same lot or parcel.

Animal Boarding. The provision of overnight shelter and care for small animals on a commercial basis. This classification includes activities such as feeding, exercising, training, grooming, and incidental medical care.

Animal Hospital. A place where animals or pets are given medical or surgical treatment and are cared for during the time of such treatment; the ancillary use of the premises as a kennel or a place where animals or pets are boarded for remuneration.

Antenna. A device for transmitting or receiving radio, television, or any other transmitted signal.

Apartment/Multi-family. A portion of a structure designed and used for occupancy by 2 or more individual persons or families living independently of each other, including duplex, triplex, fourplex, and other multi-unit configurations.

Applicant. Owner(s) or lessee(s) of property, or their agent(s), or person(s) who have contracted to purchase property contingent upon their ability to acquire the necessary permits under this Development Code, or the agent(s) of such persons.

Artist Colony. A single or integrated group of structures providing live/work space for individuals who are engaged in a creative effort including but not limited to, studio arts, photography, music, dance theater and arts related businesses and services. Such colonies may include a retail component in addition to the live/work space provided.

Attached. Any structure that has an interior wall or roof in common with another structure.

Automobile Sales Lot. An open area used for the display, sale and/or rental of new or used automobiles.

Automobile Service Station. An area which provides for the servicing or fueling of motor vehicles, including tube and tire repairs, battery charging, storage of merchandise and supplies related to the servicing of motor vehicles, sale of gasoline and other fuel and lubricants, motor vehicle washing, grease racks, and motor vehicle repairs, excluding body and fender work, engine overhauling and replacement, transmission work and other similar activities.

Automotive Stereo Shops. Establishments that either exclusively or as a substantial portion (+50%) of their floor area, sell and install automotive stereos and accessories. This category shall not apply to the establishment of a new Automotive Stereo shop in the Auto Center Plaza area.

Automobile Wrecking. The wrecking or dismantling of motor vehicles or trailers, or the storage of, sale of or dumping of dismantled, partly dismantled, or wrecked motor vehicles or their parts.

Awning. A roof-like cover that is attached to and projects from the wall of a building for the purpose of shielding from the elements.

Banquet Hall. An establishment operated for profit wherein the facilities are leased on a temporary basis for private wedding receptions, parties, banquets, and other similar events. Such events shall not be open to the general public and may include food preparation facilities and areas for dancing, dining and other entertainment, including live entertainment, activities customarily found in association with banquets or receptions.

[\[Return to Municipal Code Contents\]](#)

Bar. An establishment that provides on-site alcoholic beverage sales for drinking on the premises and does not admit persons under the age of twenty-one (21). This classification includes businesses with Alcoholic Beverage Control (ABC) licenses of 40, 42, 48, 49 or 61.

Basement. A story partly or completely underground. A basement shall be counted as a story for purposes of height measurement where any portion of a basement has more than ½ of its height above grade.

Bed and Breakfast. A transient lodging establishment primarily engaged in providing overnight or otherwise temporary lodging for the general public and may provide meals to the extent otherwise permitted by law.

Berm. A mound or embankment of earth.

Block. A parcel of land surrounded by public streets, highways, freeways, railroad rights-of-way, flood control channels, creeks, washes, rivers or unsubdivided acreage or any combination thereof.

Block Face. One complete side of a block, usually facing a public street.

Blood Bank. A place where blood is collected from donors, typed, separated into components, stored, and prepared for transfusion to recipients. A blood bank may be a separate free-standing facility or part of a larger laboratory in a hospital, and may also include plasma centers.

Boarding House. A structure where lodging and meals for 7 or more boarders is provided for compensation.

Building. Any structure having a roof supported by columns or walls.

Building Area. The net portion of the lot remaining after deducting all required setbacks from the gross area of the lot.

Building Coverage. The percent of lot area which may be covered by all the footprints of buildings or structures on a lot.

Building Height. The building height is the vertical distance from the finished grade to the highest point of the structure, excluding chimneys and vents. Refer to Section 19.20.030 (13) for specific provisions (e.g., building pad, foundation, etc.).

Building, Principal. A building in which the principal use is conducted.

Building Site. The ground area of a building together with all open spaces required by this Development Code.

Carport. A permanent roofed structure not completely enclosed to be used for vehicle parking.

Certificate of Occupancy. A permit issued by the Planning and Building Services Department prior to occupancy of a structure to assure that the structure is ready for occupancy with all defects corrected and all construction debris removed and the site graded to final grade. Additionally, all on-site amenities (i.e., paving, landscaping, etc.) shall be in place prior to the issuance of the permit.

Check-Cashing, Cash Advance, and Loan Facilities. Establishments that engage, in whole or in part, in the business of cashing checks, warrants, drafts, money orders, or other commercial paper serving the same purpose, such facilities do not include a state or federally chartered bank, savings and loan association, credit union, or industrial loan company.

1. This category shall include any business licensed by the California Commissioner of Corporations to make deferred deposit transactions pursuant to California Financial Code Section 23000 et seq., sometimes referred to as “payday advance,” “cash advance,” or “payday loan” services.
2. This category shall not include any ancillary check-cashing facility that is located entirely within a major retailer over 15,000 square feet in size.

City. The City of San Bernardino.

Clinic. A place for outpatient medical services to human patients.

Club. An association of persons (whether or not incorporated) organized for some common purpose, but not including a group organized primarily to render a service customarily carried on as a business.

Clustered Subdivision. A subdivision development in which building lots are sized to conform to the “footprint” of the structures and sited closer together than conventional development, usually in groups or clusters, provided that the total density does not exceed that permitted under conventional zoning and subdivision regulations. The additional land that remains undeveloped is preserved as open space and recreation land. Private development easements around the structures are permitted for inclusion of private landscaping, pools, spas, yards, etc.

Combination Residence/Office Use. A structure used for a residence and an office where no major external structural alterations or additions are made and no advertising is permitted except for up to a 3 square foot attached sign identifying the name of the occupant or business.

Commercial Cannabis Activity. Any activity engaging in the cultivation, possession, manufacture, distribution, processing, storing, laboratory testing, packaging, labeling, transportation, delivery or sale of cannabis and cannabis products as provided for in Chapter 5.10 of the Municipal Code.

Commercial Vehicle. A vehicle customarily used as part of a business for the transportation of goods or people.

Commission. The Planning Commission of the City of San Bernardino.

Community Apartment. A development in which an undivided interest in the land is coupled with the right of exclusive occupancy of an apartment located on the land.

Community Care Facility. Consistent with Health and Safety Code (Section 1267.8) the intermediate care facility shall include provisions for developmentally disabled habilitative - nursing or congregate living.

Community Garden. Any plot of land managed and maintained by community residents or community-based organizations for growing fruits, vegetables, herbs, or ornamental plants for consumption and use by local residents. The garden may be divided into individual or family plots, or it may be cultivated collectively.

Conditional Use/Development Permit. A discretionary entitlement which may be granted under the provisions of this Development code and which when granted authorizes a specific use to be made of a specific property, subject to compliance with all terms and conditions imposed on the entitlement.

Condominium. A development consisting of an undivided interest in common for a portion of a parcel coupled with a separate interest in space in a residential or commercial building on the parcel.

Construction Commencement. The start of construction of substantial site and structural improvements after a building permit has been issued, subject to determination by the Director.

Convalescent Home. A place of residence for people who require constant nursing care and have significant deficiencies with activities of daily living. Residents may include the elderly and younger adults with physical or mental disabilities. Residents in a convalescent home or skilled nursing facility may also receive physical, occupational, and other rehabilitative therapies following an accident or illness.

Convenience Store. The retail sale of groceries, staples, sundry items, and/or alcoholic beverages where the gross floor area is less than 5,000 square feet. This category shall not include any convenience store located on the same parcel with an automobile service station.

Council. The Mayor/Common Council of the City of San Bernardino.

County. The County of San Bernardino, hereafter referred to as “County.”

Court. An open, unoccupied space, other than a yard, on the same lot with a building and bounded on 2 or more sides by the walls of a building.

Day Care Center, Children. A facility which provides non-medical care to children under 18 years of age in need of personal services, supervision or assistance essential for sustaining the activities of daily living or for the protection of the individual on less than a 24 hour basis. Day care center means any child care facility other than a family day care home and includes infant centers, pre-schools, and extended day care facilities.

Day Care Home, Children. A single-family residence, which is occupied and used as such and provides family day care to children under 18 years of age. Day care home includes:

Day Care Home - Small Family. The use of a single-family residence to provide family day care to 8 or fewer children, including children under the age of 10 years who reside at the home, in conformance with California Code of Regulations Title 22, Division 12.

[\[Return to Municipal Code Contents\]](#)

Day Care Home - Large Family. The use of a single-family residence to provide family day care to 9-14 children, inclusive, including children under the age of 10 years who reside at the home, in conformance with California Code of Regulations Title 22, Division 12.

Days. Shall always be consecutive calendar days unless otherwise stated.

Defensible Space. A design concept term used to describe a series of physical design characteristics that maximize resident control of behavior, particularly crime, within a public, semiprivate, or private area, structure, or community.

Density. The number of dwelling units per gross acre, unless otherwise stated, for residential uses.

Department. The San Bernardino City Planning and Building Services Department, hereafter referred to as the “Department.”

Design. Includes the planning and engineering of the following: street alignments, grades and widths; drainage and sanitary facilities and utilities, including alignment and grades thereof; location and size of all required easements and rights-of-way; fire roads and fire breaks; lot size and configuration; traffic access; grading; land to be dedicated for park or recreational purposes; building and other such specific physical requirements.

Detached. Any building or structure that does not have a wall or roof in common with any other building or structure.

Development. The placement or erection of any solid material or structure; discharge or disposal of any dredged material or any gaseous liquid, solid or thermal waste; grading, removing, dredging, mining or extraction of any soil or materials; change in the density or intensity of use of land, including, but not limited to, subdivision pursuant to the Subdivision Map Act (commencing with Section 66410 of the Government Code), and any other division of land, including lot splits, except where the land division is brought about in connection with the purchase of such land by a public agency for public recreational use; change in the intensity of use of water, or of access thereto; construction, reconstruction, demolition, or alteration of the size of any structure including any facility of any private, public or municipal utility; and the removal of any major vegetation. As used in this Development Code, “structure” includes but is not limited to any building, road, pipe, flume, conduit, siphon, aqueduct, telephone line, and electrical power transmission and distribution line. A “project,” as defined in Government Code Section 65931, is included with this definition.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

Development Code. A unified text incorporating those areas of regulation more typically presented in separate zoning and subdivision ordinances and related chapters of the Municipal Code, hereafter referred to as the “Development Code.”

Director. The Director of the San Bernardino Community Development Department, hereinafter referred to as “Director” or designee.

Dormitory. A structure intended principally for sleeping accommodations, and where no individual kitchen facilities are provided, where such structure is related to an educational or public institution or is maintained and operated by a recognized non-profit welfare organization.

Dwelling. A structure or portion thereof designed for residential occupancy, not including hotels or motels.

Dwelling, Multiple. A structure containing 2 or more dwelling units or a combination of 2 or more separate single family dwelling units.

Dwelling Unit. One or more rooms including bathroom(s) and a kitchen, designed as a unit for occupancy by 1 family for living and sleeping purposes.

Easement. A grant of 1 or more property rights by the property owner for the use by the public, a corporation or another person or entity.

Educational Institution. A school, college or university, supported wholly or in part by public funds or giving general academic instruction equivalent to the standards prescribed by the State Board of Education.

Educational Service. A private educational institution, such as a charter school, university, etc., but does not include a vocational/trade/tech school.

Emergency Shelter. As used in Government Code Sections 65582, 65583 and 65589.5 (Senate Bill 2), and as defined in Health and Safety Code Section 50801(e), “emergency shelter” means housing with minimal supportive services for homeless persons that is limited to occupancy of six months or less by a homeless person. No individual or household may be denied emergency shelter because of an inability to pay. Emergency shelters shall be occupied only by homeless persons unable to pay for housing. Facilities occupied by individuals who pay for their housing shall not be permitted as emergency shelters. Also referred to as “homeless shelter”, “homeless facility” or “social service center with a residential component.”

Entertainment (Live). Any act, play, revue, pantomime, scene, dance act, or song and dance act, or any combination thereof, performed by 1 or more persons whether or not they are compensated for the performance.

[\[Return to Municipal Code Contents\]](#)

Extended Lodging Facility. A limited service lodging facility containing one hundred (100) or more guest rooms in one or more buildings containing individual guestrooms or suites of rooms which provides some additional services such as kitchen facilities, amenities, recreational facilities, and/or meals. Lengths of stay are defined in Section 19.06.030(2)(Z)(11) of this Development Code.

Family. One or more persons living together in a dwelling unit, with common access to, and common use of all living, kitchen and eating areas within the dwelling unit.

Fraternity/Sorority House. A building rented or owned, and occupied by a regularly organized college fraternity or sorority as a place of residence.

Frontage. The side of a lot abutting a street (the front lot line), except the side of a corner lot.

Front Wall. The nearest wall of a structure to the street upon which the structure faces, but excluding cornices, canopies, eaves, or any other architectural embellishments.

Fuel Dealer. A business that sells heating oil, propane and other fuels directly to end users. Business operations may include deliveries of fuel to customers. Fuel dealers are separate uses from automobile service stations.

Garage. An enclosed building, or a portion of an enclosed building used for the parking of vehicles.

General Plan. The City of San Bernardino General Plan as adopted by the Mayor and Common Council, who may amend the Plan from time to time, hereafter referred to as the “General Plan.”

General Plan Land Use District. A portion of the City, as identified on the City’s General Plan Land Use Map, within which certain uses of land are defined and specified.

Grade. The degree of rise or descent of a sloping surface (see Slope).

Gross Acreage. The total area within the lot lines of a lot or parcel of land before public streets, easements or other areas to be dedicated or reserved for public use are deducted from such lot or parcel, and does not include adjacent lands already dedicated for such purposes.

Gross Floor Area. The area included within the surrounding exterior finish wall surface of a building or portion thereof, exclusive of courtyards.

Guest House. Living quarters, having no kitchen facilities, located on the same premises with a main building and occupied for the sole use of members of the family, temporary guest, or persons permanently employed on the premises.

Half Story. A story under a gable, hip or gambrel roof, plates of which are not more than 2 feet above the floor of such story.

Health/Athletic Club. An establishment with equipment for exercise and physical conditioning. This classification includes spas, gyms, tennis clubs, racquet ball clubs, pools, diet centers, reducing salons, fitness studios, health studios, and massage therapy as an accessory use to another health and fitness center use.

Home Occupation. An activity conducted in compliance with Chapter 19.54 carried out by an occupant conducted as an accessory use within the primary dwelling unit.

Hospital. An institution, designed within an integrated campus setting for the diagnosis, care, and treatment of human illness, including surgery and primary treatment.

Hotel. A full service lodging facility containing one hundred (100) or more guest rooms which provides some additional services such as restaurants, meeting rooms, amenities, and recreational facilities and stays are fourteen (14) days or less.

Indoor Retail Concession Mall. Any indoor, multi-tenant retail or discount mall, operated during regular business hours, wherein the majority of square footage is used (or offered) for concession or leased floor area and/or wall space for which a fee, commission, or lease is charged. Individual licensed vendors shall be permitted to engage in sales of either new or used merchandise.

Infill Development. Development that occurs on up to 4 contiguous vacant lots scattered within areas that are already largely developed or urbanized. Generally, these sites are vacant because they were once considered of insufficient size for development, because an existing building located on the site was demolished or because there were other, more desirable sites for development.

Junk and Salvage Facility. Primary or accessory use of structures and/or land for storage, dismantling and/or selling of cast-off, unused, scrap or salvage material of any sort.

kennel. Any lot where 4 or more dogs, cats, or other small animals over the age of 4 months are kept, whether such keeping is for pleasure, profit, breeding, or exhibiting, including places where said animals are boarded, kept for sale, or hire.

Kitchen. Any room, all or part of which is designed and/or used for storage, refrigeration, cooking and the preparation of food.

Landscaping. An area devoted to or developed and maintained predominantly with native or exotic plant materials including lawn, groundcover, trees, shrubs, and other plant materials; and also including accessory decorative outdoor landscape elements such as pools, fountains, paved or decorated surfaces (excluding driveways, parking, loading, or storage areas), and sculpture elements.

Land Use Zoning District. A portion of the City within which certain uses of land and structures are defined, and regulations are specified.

Liquor Stores. A retail store principally involved in the business of selling alcoholic beverages, including “hard liquor,” where sold for the consumption off the premises. This classification includes stores or facilities that are covered by a State license for “general alcohol sales” (Class 21 ABC license).

Live-Work. A structure or complex of structures that integrates space for both residential and nonresidential uses within an individual unit. Nonresidential uses should operate with limited noise, odor and other similar impacts, consistent with applicable City ordinances.

Lot. A parcel, tract or area of land established by plat, subdivision, or as otherwise permitted by law, to be used, developed or built upon. The classification of lots are:

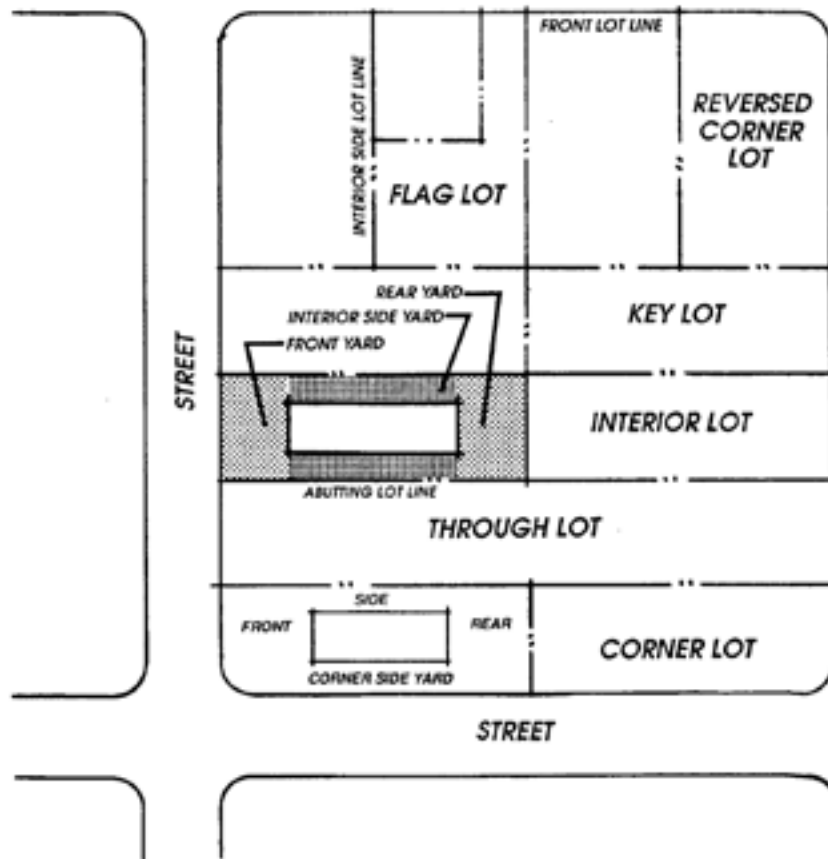

- Corner - A lot located at the intersection of 2 or more streets at an angle of not more than 135 degrees. If the angle is greater than 135 degrees, the lot shall be considered an “interior lot.”
- Flag - A lot having access or an easement to a public or private street by a narrow, private right-of-way.
- Interior - A lot abutting only 1 street.
- Key - A lot with a side line that abuts the rear line of any 1 or more adjoining lots.

Reverse Corner - A corner lot, the rear of which abuts the side of another lot.

Through - A lot having frontage on 2 generally parallel streets, with only 1 primary access.

Lot Area. The total horizontal area included within the lot lines of a lot.

Illustration of Terms

Lot Averaging. The design of individual adjoining lots within a residential subdivision in which the average lot area equals the minimum prescribed area for the RL, Low Residential Land Use Zoning District. To maintain an average, some lots may be reduced to a maximum of 10% below the minimum lot size, while a corresponding number of lots shall each maintain a lot area of at least 10% above the minimum lot size. Allowable density shall be within the prescribed maximums.

$64,800 \text{ S.F.} \div 6 \text{ LOTS} = 10,800 \text{ S.F. AVE.}$

AVERAGE SIZE REQUIRED: 10,800 S.F.

Lot Depth. The average distance between the front and rear lot lines or between the front line and the intersection of the two side lines, if there is no rear line.

Lot Frontage. The portion of the lot contiguous to the street.

Lot Line. Any boundary of a lot. The classifications of lot lines are:

Front. On an interior lot, the line separating the parcel from the street. On a corner lot, the shorter lot line abutting a street. (If the lot lines on a corner lot are equal in length, the front lot line shall be determined by the Director.) On a through lot, the lot line abutting the street providing the primary access to the lot.

Interior. Any lot line not abutting a street.

Rear. A lot line, not intersecting a front line, which is most distant from and most closely parallel to the front lot line. In the case of an irregularly shaped lot or a lot bounded by only three lot lines, a line within the lot having a length of 10 feet, parallel to and most

distant from the front lot line shall be interpreted as the rear lot line for the purpose of determining required yards, setbacks, and other provisions of this Development Code.

Side. Any lot line which is not a front or rear lot line.

Lot Width. The horizontal distance between the side lot lines, measured at right angles to the lot depth at a midway point between the front and rear lot lines.

Manufactured Home. A factory built or manufactured home including mobile homes, as permitted by State of California and Federal laws.

Median. A paved or planted area separating a street or highway into 2 or more lanes of opposite direction of travel.

Microbrewery. A small scale production of beer, with or without food service, including on-site storage and shipping of products produced on the premises; food service may be provided ancillary to the use.

Mini-Mall. Small-scale, up to 30,000 square feet, multi-tenant shopping center.

Mixed Use Development. The development of a parcel(s) or structure(s) with 2 or more different land uses such as, but not limited to a combination of residential, office, manufacturing, retail, public, or entertainment in a single or physically integrated group of structures.

Mobile Home. Same as “Manufactured Home,” but subject to the National Manufactured Housing Construction and Safety Act of 1974.

Mobile Vendor. An individual providing sales of retail and/or food items from a moveable cart in a public place.

Motel. A limited service lodging facility which provides some additional services such as restaurants, amenities, and/or recreational facilities, and stays are fourteen (14) days or less.

Multi-Family Residential. Three (3) or more dwelling units in a single building on a site.

Neighborhood Grocery Stores. A full-service grocery store ranging in size from 5,001 to 15,000 square feet in gross floor area, that sells fresh fruit, vegetables, meat and fish, has food prepared on-site, and which may or may not sell alcohol.

Net Site Area. The total area within the lot lines of a parcel of land after public street easements or other areas to be dedicated or reserved for public use are deducted from such lot or parcel.

Nonconforming Structure. A structure which conformed to applicable laws when constructed but does not conform to the provisions of this Development Code.

Nonconforming, Illegal. A structure, lot, or use which did not conform to applicable laws when constructed or initiated, and does not conform to the provisions of this Development Code.

Nonconforming Lot. A lot, the area, frontage or dimensions of which do not conform to the provisions of this Development Code.

[\[Return to Municipal Code Contents\]](#)

Nonconforming Use. A use complying with applicable laws when established but does not conform to the provisions of this Development Code.

Nurseries/Garden Supplies. Establishments that sell plants and related items (hoses, hardscaping materials, fountains, fertilizer, etc.) in which all merchandise other than plants is kept within an enclosed building or a fully screened enclosure, and fertilizer of any type is stored and sold in package form only.

Outdoor Sales/Displays. A promotional sales event conducted by 1 or more businesses which is held outside the confines of the commercial structure(s) in which such business is normally conducted and which sale involves the outdoor display within a paved or concreted area on the same lot as the structure(s) of merchandise which is normally displayed within the structure(s). Sale events shall be conducted solely on private property and not encroach within public rights-of-way.

Parcel. A parcel of land under one ownership that has been legally subdivided or combined and is shown as a single parcel on the latest equalized assessment roll.

Parkway. The area of a public street that lies between the curb and the adjacent property line or physical boundary definition such as fences or walls, which is used for landscaping and/or passive recreational purposes.

Party Supply Stores. Establishments that either exclusively or as a substantial portion of their floor area, sell or rent party supplies and equipment. This category shall not include party supply stores of at least 2,500 square feet and located in a multi-tenant center of at least 20,000 square feet, or party supply stores established in a single-tenant building of at least 10,000 square feet of floor area; and approved under a Conditional Use Permit.

Pawn Shops. Businesses that loan money or other items of value to any person, firm or corporation, upon any personal property, personal security or the purchasing of personal property and reselling or agreeing to resell such articles at prices previously agreed upon. This category shall not include any legally established pawnshop in an unreinforced masonry building to be relocated to another building within 50 feet of the current location.

Person. Any individual, firm, co-partnership, joint venture, association, social club, fraternal organization, company, joint stock association, corporation, estate, trust, organization, business, business trust, public agency, school district, State of California, and its political subdivisions or instrumentalities, receiver, syndicate or any group or combination thereof, acting as a unit, including any trustee, receiver or assignee.

Permitted Use. Any use allowed in a zone and subject to the provisions applicable to that district.

Planned Residential Development (PRD). A type of development characterized by comprehensive planning for the project as a whole, clustering of structures to preserve usable open space and other natural features, and a mixture of housing types within the prescribed densities.

Principal Use. The primary or predominant use of any lot, building or structure.

Public Park. A park, playground, swimming pool, beach, pier, reservoir, golf course or athletic field within the City which is under the control, operation or management of the City, the County, or the State.

Public Right-of-Way. A strip of land acquired by reservation, dedication, prescription or condemnation and intended to be occupied by a road, trail, water line, sanitary sewer and/or other public uses.

Quarry. A place where rock, ore, stone and similar materials are excavated, processed for sale or for off-site use.

Queue Line. An area for temporary waiting of motor vehicles while obtaining a service or other activity.

Recreational Vehicle. A vehicle towed or self-propelled on its own chassis or attached to the chassis of another vehicle and designed or used for recreational or sporting purposes. The term recreational vehicle includes, but is not limited to, travel trailers, pickup campers, camping trailers, motor coach homes, converted trucks or buses, boats and boat trailers, and all-terrain vehicles.

Recycling. The process by which waste products are reduced to raw materials and transformed into new products, including automobiles.

Recycling Center. Small collection facilities which occupy an area of less than 500 square feet, and which accept by donation, redemption or purchase, recyclable materials from the public, unless required as a Certified Recycling Center by the California Public Resources Code, or donation drop boxes operated by a valid non-profit organization.

Religious Institution. A structure which is used primarily for religious worship and related religious activities.

Repairs/Services, Miscellaneous. Small-scale businesses under 5,000 square feet in gross floor area, which provide on-site repair and service of items, such as computers, appliances, electronics, plumbers, etc., but excluding vehicle repair and the installation of vehicle components, such as car stereos, window tinting, etc.

Residential Care Facility. A family home, group care facility, or similar facility for 24 hour non-medical care of persons in need of personal services, supervision or assistance essential for sustaining the activities of daily living or for the protection of the individual.

Resort Hotel. A group of buildings containing guest rooms and providing outdoor recreational activities.

Rest Home. Premises used for the housing of and assisted caring for the aged and infirm. There shall be only incidental convalescent care not involving either a nurse or physician residing on the premises. There shall be no surgery, physical therapy or other similar activities.

Restaurant. A use providing preparation and retail sale of food and beverages, including cafes, coffee shops, sandwich shops, ice cream parlors, fast food take-out (i.e., pizza), and similar uses, and may include licensed “on-site” provision of alcoholic beverage for consumption on the premises when accessory to such food service.

Restaurant, Drive-Thru. A use providing preparation and retail sale of food and beverages, as defined under “Restaurant” with the added provision of 1 or more drive-thru lanes for the ordering and dispensing of food and beverages to patrons remaining in their vehicles.

Restaurant, Take-Out Only. A use providing preparation and retail sale of food and beverages, as defined under “Restaurant”, but which contains no seating area for eat-in or outdoor dining.

Review Authority. The person, committee, Commission or Council responsible for the review and/or final action on a land use entitlement.

Rounding of Quantities. The consideration of distances, unit density, density bonus calculations, or other aspects of development or the physical environment expressed in numerical quantities which are fractions of whole numbers; the numbers are to be rounded to the nearest highest whole number when the fraction is .5 or more, and to the next lowest whole number when the fraction is less than .5, except as otherwise provided in this Development Code.

Sales and Production of Handicraft Items. Small scale sales and production of products made from materials including, but not limited to clay, glass, plaster, precious metals, stone and wood.

Satellite Dish Antenna. An apparatus capable of receiving or transmitting communications from a satellite.

School. An institution of learning for minors, whether public or private, which offers instruction in those courses of study required by the California Education Code or which is maintained pursuant to standards set by the State Board of Education. This definition includes a nursery school, kindergarten, elementary school, junior high school, senior high school or any special institution of Education, but it does not include a vocational or professional institution of higher education, including a community or junior college, college, or university.

Second Hand Stores/Thrift Stores. Establishments that sell used merchandise such as clothing and shoes, household furniture, home furnishings and appliances, books and magazines, office furniture, used musical instruments, used phonographs and records, used fixtures and equipment, including re-sale shops, consignment shops, and similar businesses. This category shall not include the following:

1. Stores owned or operated by existing entities recognized as non-profit by the Secretary of State of the State of California, and in “good status” with the same.
2. Antique Stores – An antique, for the purposes of this ordinance, shall be a work of art, piece of furniture, decorative object, or the like, of or belonging to the past, and at least 50 years old. This includes any premise used for the sale or trade of articles of which 90% or more are over 50 years old or have collectible value.
3. Existing, legally established indoor concession malls and outdoor swap meets, unless otherwise prohibited.

Self-service Laundry. Any commercial establishment providing the use of self-service washing machines and dryers to the public, usually coin-operated. This category shall not include self-service laundries approved under a Conditional Use Permit to be established in a multi-tenant center of at least 20,000 square feet.

Senior Congregate Care Housing. A structure(s) providing residence for a group of senior citizens (60 years of age or more) with central or private kitchen, dining, recreational, etc. facilities with separate bedrooms and/or living quarters.

Setback. The required distance that a building, structure, parking or other designated item must be located from a lot line.

Setback, Front/Rear Average. The average front/rear yard setback of a group of 5 adjacent dwelling units. The setback on any unit may vary up to 5 feet as long as the average setback of all 5 units equals the minimum required for the land use zoning district.

Sidewalk/Parking Lot Sale. A promotional sales event conducted by 1 or more businesses which is held outside the confines of the commercial or manufacturing structure(s) in which such business is normally conducted and which sale involves the outdoor display within a paved or concreted area on the same lot as the structure(s) of merchandise which is normally displayed within the structure(s). Sale events shall be conducted solely on private property and not encroach within the public rights-of-way.

Single-Price Overstock/Discount Store. Establishments that sell a broad range of outlet, close-out, discontinued, liquidation, or overstock merchandise, and primarily at a single discount price in the low and very low price ranges, including but not limited to food stuffs, alcoholic beverages, apparel and accessories, costume jewelry, notions and wares, housewares, fountain refreshments, and toys. This category shall not include single-price overstock discount stores containing a minimum floor area of 9,000 square feet in size and approved under a Conditional Use Permit.

Single Room Occupancy (SRO) Facility. A cluster of 7 or more units within a newly constructed residential hotel of weekly or longer tenancy providing sleeping or living facilities for 1 or 2 persons per unit, in which sanitary facilities may be provided within the units, and cooking facilities may be shared within the hotel.

Slope. The degree of deviation of a surface from the horizontal, usually expressed in percent or degrees.

Slope Percentage = Rise/Run x 100 = %

Slope Ratio = Run/Rise = (x) feet run to one foot rise = x:1

% Grade	100%	50%	40%	33.3%	30%	25%	20%	15%	12%	10%	8%	6%
Degrees	45	26.6	21.8	18.4	16.7	14	11.3	8.5	6.8	5.7	4.6	3.4
Ratio	1:1	2:1	2.5:1	3:1	3.3:1	4:1	5:1	6.7:1	8.3:1	10:1	12.5:1	16.7:1

Small Lot Subdivision. Limited lot size subdivision (5,000 s.f. minimum lot size) for single family detached dwellings.

Smoke Shops. Establishments that either exclusively or as a substantial portion (+50%) of their floor area, sell cigarettes, cigars, pipes, bong, tobacco, and related paraphernalia.

Social Service A service or activity undertaken to advance the welfare of people in need. A social service may include, but is not limited to, the distribution of food and/or goods; rehabilitative or recovery assistance programs; self-help or other treatment or assistance; drug and alcohol recovery facilities (outpatient or residential); supporting office use; supporting medical office or clinic use; supporting vocational or trade training; supporting personal services; and, any other similar use as determined by the Director.

Social Service Facility. A facility operated by a non-profit group or agency (public and/or private) that is open to the public that provides any service, or combination of services, defined in this code as "social service" to people in need on a less than 24-hour basis. This classification is distinguished from licensed day care centers, health clinics, and places of public assembly where any social service or activity is deemed ancillary (i.e. does not occupy more than 25% of the gross floor area) to the primary use or function; and, any similar use as determined by the Director.

Social Service (Residential) Facility. A facility operated by a non-profit group or agency (public and/or private) that is open to the public that provides any service, or combination of services, defined in this code as "social service" to people in need in which the party being served remains onsite on an overnight basis. This classification is distinguished from emergency shelters providing 24-hour or overnight care and places of public assembly where any social service or activity is deemed ancillary (i.e. does not occupy more than 25% of the gross floor area) to the primary use or function; and, any other similar use as determined by the Director.

Solar Facilities. The airspace over a parcel that provides access for a solar energy system to absorb energy from the sun.

Specialty Food Stores. Retail stores specializing in particular or distinctive food items, including but not limited to retailers whose primary business maintains an inventory of gourmet, health, or ethnic food items not commonly found in area supermarkets or convenience stores, with no alcohol sales and no more than 15 percent of the gross floor area devoted to the sale of related accessory items.

Specific Plan. A plan consisting of text, maps, and other documents and exhibits regulating development within a defined area of the City, consistent with the General Plan and the provisions of Government Code Section 65450 et. seq.

Stable, Commercial. A structure for keeping of horses, mules or ponies which are boarded for compensation.

Stable, Private. An accessory structure for the keeping of horses and for the use of occupants of the premises.

Standard Industrial Classification (SIC) System. The classification of establishments by type of activity which is determined by its principal product or group of products produced or distributed, or services rendered. The purpose of the system is to facilitate the collection, tabulation, presentation and analysis of data relating to the establishments. This system is detailed in the Federal Office of Management and Budget's Standard Industrial Classification Manual, as amended.

Storage. A space where goods, materials and/or personal property is put for more than 24 hours.

Story. That portion of a building included between the surface of any floor and the surface of and the surface of the floor next above it, or if there is no floor above it, then the space between such floor and the ceiling above it.

Street. Any public or private thoroughfare, which affords a primary means of access to abutting property.

Student Housing Complex. A building or buildings containing multiple family dwellings which allow for each bedroom to be leased to students attending California State University, San Bernardino, which provides common area amenities for units ranging from one to no more than four bedrooms per unit. The site shall be adjacent to California State University, San Bernardino, bus service shall be available (within 500 feet of a bus stop), and retail services shall be within 2000 feet of the site. The designation will be applied only to projects which demonstrate an affiliation with California State University, San Bernardino; and to parcels located within 500 feet of California State University, San Bernardino and specifically, only on the 8.28 acres on the south side of Northpark Boulevard, east of University Parkway,

[\[Return to Municipal Code Contents\]](#)

as designated in General Plan Amendment No. 01-06, and the 10.16 acres on the west side of Northpark Boulevard, northwest of the intersection of University Parkway and Northpark Boulevard in Tract 17703-2 Lot 1, and Tract 17703-3 Lots 1, 2 and 3." east of University Parkway, as designated in General Plan Amendment No. 01-06, and the 10.16 acres on the west side of Northpark Boulevard, northwest of the intersection of University Parkway and Northpark Boulevard in Tract 17703-2 Lot 1, and Tract 17703-3 Lots 1, 2 and 3."

Structure. Anything constructed or erected, the use of which requires location on the ground or attachment to something having location on the ground.

Supermarket. A full-service, self-service retail store, larger than 15,000 square feet in gross floor area, which sells food and household supplies.

Swap Meets. Any outdoor place, location, or activity where new or used goods or secondhand personal property is offered for sale or exchange to the general public by a multitude of individual licensed vendors, usually in compartmentalized spaces; and, where a fee may be charge to prospective buyer for admission, or a fee may be charged for the privilege of offering or displaying such merchandise. The term swap meet is interchangeable with and applicable to: flea markets, auctions, open air markets, farmers markets, or similarly named or labeled activities; but the term does not include the usual supermarket or department store retail operations.

Tattoo Parlors and/or Body Piercing Studios. Establishments that engage in any method of placing permanent designs, letters, scrolls, figures, symbols, or any other marks upon or under the skin with ink or any other substance, by the aid of needles or any other instruments designed to touch or puncture the skin, resulting in either the coloration of the skin, or the production of scars or scarring and/or establishments that create an opening in the body of a person for the purpose of inserting jewelry or other decoration. This category shall not include licensed physicians, nurses, electrologists, and cosmetologists and shall also not include jewelry stores that offer ear piercing.

Temporary Use. A use established for a specified period of time, with the intent to discontinue the use at the end of the designated time period.

Tire Stores. Establishments less than 5,000 square feet in size which sell new and/ or used automobile tires and accessories. This category shall not include legally established service stations and auto repair facilities.

Traffic Safety Sight Area. A space that is set aside on a corner lot in which all visual obstructions, such as structures and plantings that inhibit visibility and thus cause a hazard to traffic and pedestrian safety are prohibited.

Transit Center. A passenger station for bus and rail mass transit systems including bus bays, railway platforms, administrative offices, security, quasi-public meeting rooms, public waiting areas, public restrooms; also providing minor ancillary services for administrative purposes and/or maintenance of vehicles or trains and provision for supportive paratransit services.

Transportation/Distribution. Establishments whose sole purpose is to provide for the consolidation, division and/or distribution of bulk goods through the use of large trucks and trailers. This classification includes cross-dock trucking uses, which have only minimal warehousing facilities.

Truck Stop. A commercial facility that provides fuel, parking and usually food and other services to long-haul trucks. Truck stops are usually located on or near a busy road and consist of a diesel grade fueling station with bays wide and tall enough for modern tractor/trailer rigs and have a large enough parking area to accommodate trucks or other heavy vehicles. Auto-related services, similar to automobile service stations may or may not also be an incidental use within the truck stop.

Use. The purpose (type and extent) for which land or a building is arranged, designed, or intended, or for which either land or a structure is occupied or maintained.

Use Initiation. The implementation of a use on a parcel or occupancy of a structure, or construction of substantial site improvements after a building permit has been issued, subject to determination by the Director.

Variance. A discretionary entitlement which permits the departure from the strict application of the development standards contained in this Development Code.

Veterinary Services. Any facility used for the purpose of giving licensed medical treatment to animals or pets and any other customarily incidental treatment of the animals, such as grooming, or selling of pet supplies, and which may or may not provide boarding.

Wildlands. Any area of land that is essentially unimproved, in a natural state of hydrology, vegetation and animal life, and not under cultivation.

Yard. An open space on a parcel of land, other than a court, unobstructed and unoccupied from the ground upward, except for projections permitted by this Development Code.

Yard, Front. An area extending across the full width of the lot between the front lot line or the existing or future street right-of-way and a structural setback line parallel thereto. On corner lots, the shortest street frontage shall be the front yard in residential land use districts, while the longest street frontage shall be the front yard in commercial/industrial land use districts.

[\[Return to Municipal Code Contents\]](#)

Yard, Interior Side. An area extending from the required front yard or, where there is no required front yard, from the front lot line to the required rear yard or, where there is no required rear yard, to the rear lot line and from the interior side lot line to a setback line parallel thereto.

Yard, Rear. An area extending across the full width of the lot between the rear lot line and a setback line parallel thereto. On flag lots, the rear yard location shall be determined through project review.

Yard, Side of Street. An area extending from the required front yard or, where there is no required front yard, from the front lot line to the rear lot line, and from the side street lot line, or the existing or future side street right-of-way (whichever is greater) to a structural setback line parallel thereto.

Zero Lot Line. The location of a structure on a lot in such a manner that 1 or more of the structure's sides rest directly on a lot line.

Zone. A portion of the City within which certain uses of land and structures are defined, and regulations are specified.

19.02.060 Establishment of Zones

1. ESTABLISHMENT OF ZONES

San Bernardino shall be divided into zones which consistently implement the General Plan. The following zoning districts are established:

RE (Residential Estate) Zone

RL (Residential Low) Zone

RS (Residential Suburban) Zone

RU (Residential Urban) Zone

RM (Residential Medium) Zone

[\[Return to Municipal Code Contents\]](#)

RMH (Residential Medium-High) Zone

RH (Residential High) Zone

CO (Commercial Office) Zone

CG-1 (Commercial General) Zone

CG-2 (Commercial General-2) Zone

CG-3 (Commercial General-3) Zone

CR-1 (Commercial Regional-Malls) Zone

CR-2 (Commercial Regional-Downtown) Zone

CR-3 (Commercial Regional-Tri-City/Club) Zone

CR-4 (Commercial Regional-Auto Plaza) Zone

CH (Commercial Heavy) Zone

CCS-1 (Central City South-1) Zone

CCS-2 (Central City South-2) Zone

OIP (Office Industrial Park) Zone

IL (Industrial Light) Zone

IH (Industrial Heavy) Zone

IE (Industrial Extractive) Zone

OS (Open Space) Zone

PCR (Public/Commercial Recreation) Zone

PF (Public Facility) Zone

PFC (Public Flood Control) Zone

PP (Public Park) Zone

SP (Specific Plan) District

A (Airport Overlay) District (AD-I, AD-II, AD-III, AD-IV, AD-V)

FC (Freeway Corridor Overlay) Zone

FF (Foothill Fire Zones Overlay) Zone (Zones A, B, and C)

FP (Flood Plain Overlay) Zone

HM (Hillside Management Overlay) Zone

HP (Historic Preservation Overlay) Zone

MS (Main Street Overlay) Zone

RSH (Residential Student Housing) Zone

TD Transit Overlay District Zone

UBP (University Business Park) Zone (UBP-1, UBP-2, UBP-3)

2. ADOPTION OF ZONING MAP

The boundaries of the zoning districts established by this Section shall be shown upon the map designated as the “City of San Bernardino Official Zoning Map,” on file with the City Clerk, and available at the Community Development Department. This map shall be consistent with the adopted General Plan Land Use Map. Amendments shall follow the process outlined in Chapter 19.74 (Zoning Map Amendments).

3. RULES APPLYING TO UNCERTAIN BOUNDARIES ON ZONING MAP

The following shall apply in determining uncertain boundaries of a district as shown on the Official Zoning Map:

- A. Where a boundary follows a public street or alley, the centerline of the street shall be the boundary.

- B. Where a district boundary divides a lot or parcel, the location of the boundary, unless indicated by dimension, shall be determined by referencing the adopted General Plan Land Use District Map and legal description of the parcel.
- C. Where any public right-of-way is officially vacated or abandoned, the zoning regulations applied to abutting property shall thereafter extend to the centerline of such vacated or abandoned right-of-way.
- D. In case any uncertainty exists, the Director shall determine the location of the district boundary.

4. PRE-ZONING

The City may pre-zone unincorporated property adjoining the City. This process shall comply with Chapters 19.50 (General Plan Amendments) and 19.74 (Zoning Map Amendments). The zoning shall become effective upon annexation.

(Ord. MC-1393, 12-02-13; Ord. MC-1387, 3-04-13; Ord. MC-782, 5-03-91)

19.02.070 General Requirements

1. APPLICATION

All land or structures shall be used and constructed in accordance with the regulations and requirements of this Development Code including obtaining applicable permits prior to use initiation.

2. CONFLICTING PERMITS AND LICENSES TO BE VOIDED

All permits or licenses shall be issued in conformance with the provisions of this Development Code. Any permit or license subsequently issued and in conflict with this Development Code shall be null and void.

3. SIMILAR USES PERMITTED

When a use is not specifically listed in this Development Code, it shall be understood that the use may be permitted if it is determined by the Director that the use is similar to other uses listed.

It is further recognized that every conceivable use cannot be identified in this Development Code, and anticipating that new uses will evolve over time, this Section establishes the Director's authority to compare a proposed use and measure it against those listed in this Development Code and the Standard Industrial Classification Manual for determining similarity.

In determining "similarity," the Director shall make all of the following findings:

- A. The proposed use shall meet the intent of, and be consistent with the goals, objectives and policies of the General Plan;
- B. The proposed use shall meet the stated purpose and general intent of the district in which the use is proposed to be located;
- C. The proposed use shall not adversely impact the public health, safety and general welfare of the City's residents; and
- D. The proposed use shall share characteristics common with, and not be of greater intensity, density or generate more environmental impact, than those uses listed in the zone in which it is to be located.

4. MINIMUM REQUIREMENTS

When interpreting and applying the regulations of this Development Code, the provisions shall be the minimum requirements, unless otherwise stated.

5. CONFLICT WITH OTHER REGULATIONS

Where conflicts occur between the provisions of this Development Code and the Building and Fire Codes, or other regulations of the City, the more restrictive shall apply.

It is not intended that this Development Code shall interfere with, repeal, abrogate or annul any easement, covenant, or other agreement in effect at the time of adoption. Where this Development Code imposes a greater restriction upon the use of structures or land, the provisions of this Development Code shall apply.

Nothing contained in this Development Code shall be deemed to repeal or amend any regulation of the City requiring a permit or license or both. Nor shall anything in this Development Code be deemed to repeal or amend the Building Code of the City.

6. LANGUAGE

In interpreting this Development Code, it is understood that the term “shall” is mandatory, “should” is not mandatory, and “may” is permissive.

7. IMPLEMENTATION

All applications which have been accepted as complete, pursuant to Government Code Section 65943, by the Department prior to the effective date of this Development Code, shall be processed in compliance with the regulations and requirements in effect at the time the application was accepted as complete. Applications for extensions of time shall be consistent with this Development Code.

(Ord. MC-1393, 12-02-13; Ord. MC-782, 5-03-91)

19.02.080 Density and Intensity

The density and intensity limitations established in the Land Use Element of the General Plan shall apply to each lot, except as provided in this Development Code.

(Ord. MC-782, 5-03-91)

19.02.090 Severability

If any chapter, section, subsection, sentence, clause, or phrase of this Development Code is for any reason, held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this Development Code. The Council hereby declares that it would have adopted this Development Code and each chapter, section, subsection, sentence, clause, or phrase thereof irrespective of the fact that any one or more portions of this Development Code might be declared invalid.

(Ord. MC-782, 5-03-91)

ARTICLE II - ZONES

CHAPTER 19.04 RESIDENTIAL ZONES

Sections

- 19.04.010 Purpose
- 19.04.020 Permitted, Development Permitted, and Conditionally Permitted Uses
- 19.04.030 Development Standards
- 19.04.040 Applicable Regulations

Tables

- 04.01 Permitted, Development Permitted, and Conditionally Permitted Uses
- 04.02 Residential Development Standards
- 04.03 Residential Zones Specific Standards

Guidelines

- G19.04.050 Residential Development Design Guidelines

19.04.010 Purpose

1. The purpose of this Chapter is to achieve the following:
 - A. Reserve neighborhood areas for residential living with a broad range of dwelling unit densities (i.e., low-density estate, single-family detached and attached, multi-family, and housing for special needs) consistent with the General Plan and appropriate standards of public health, safety, welfare, and aesthetics.
 - B. Ensure adequate light, air, privacy, and open space for each dwelling.
 - C. Minimize traffic congestion and avoid the overloading of public services and utilities.
 - D. Protect residential neighborhoods from excessive noise, illumination, unsightliness, odor, smoke, and other objectionable influences.
 - E. Facilitate the provision of public improvements commensurate with anticipated increase in population, dwelling unit densities, and service requirements.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- F. Provide lands to accommodate housing units which meet the diverse economic and social needs of the residents; locating development to achieve the following:
 - 1. Retain the scale and character of existing residential neighborhoods;
 - 2. Facilitate the upgrade of declining and mixed-density residential neighborhoods; and
 - 3. Allow expansion into vacant and low-intensity use lands within infrastructure and environmental constraints.
- G. Single-family dwelling units which legally existed in the residential zones prior to June 3, 1991 may remain as a permitted use.

(Ord. MC-1393, 12-02-13; Ord. MC-823, 3-03-92)

- 2. The purpose of the individual residential zones is as follows

(Ord. MC-1393, 12-02-13)

- A. RE (RESIDENTIAL ESTATE) ZONE

This zone is intended for low density residential units located on large lots and conveying an "estate" character with a minimum lot size of 1 net acre per unit.

- B. RL (RESIDENTIAL LOW) ZONE

This zone is intended to promote the development of low-density, large lot, single-family detached residential units with a minimum average lot size of 10,800 square feet. The RL zone allows a maximum density of 3.1 units per net acre.

- C. RS (RESIDENTIAL SUBURBAN) ZONE

This zone is intended to promote the development of single-family detached units in a suburban setting with a minimum lot size of 7,200 square feet, and a maximum density of 4.5 units per net acre.

D. RU (RESIDENTIAL URBAN) ZONE

This zone is intended to promote the development of detached and attached units, duplex, mobile home parks, and small lot subdivisions as part of a planned residential development where the intent is to consolidate lots to achieve maximum open space. The RU zone requires a minimum lot size of 7,200 square feet. However, on existing lots of record, recorded prior to June 2, 1989, a minimum lot area of 6,200 square feet and existing lot widths and depths are permitted. The RU zone allows a maximum density of eight units per net acre, and permits the development of senior citizen and senior congregate care housing at a maximum density of 12 units per net acre with a marketing feasibility study and a conversion plan. Multi-family units which legally existed in the RU zone prior to June 3, 1991, may remain as a permitted use.

(Ord. MC-821, 2-19-92)

E. RESIDENTIAL MULTI-FAMILY ZONES

These zones are intended to promote the development of multi-family townhomes, condominiums, and apartments.

All multi-family zones require a reduced density if the minimum lot size for the zone is not met, and shall comply with maximum densities provided in Table 04.02.

Multi-family units which legally existed in the multi-family zones prior to June 3, 1991, may remain as a permitted use.

(Ord. MC-821, 2-19-92)

1. RM (Residential Medium) Zone

This zone requires a minimum lot size of 14,400 square feet with a maximum density of 12 units per net acre. Parcels less than 14,400 square feet in area shall be developed at RU density.

2. RMH (Residential Medium High) Zone

This zone requires a minimum lot size of 20,000 square feet with a maximum density of 24 units per net acre. Lots 14,400-20,000 square feet shall be development at RM density. Lots less than 14,400 square feet shall be developed at RU density.

[Return to Municipal Code Contents]

3. RH (Residential High) Zone

This zone requires a minimum lot size of 20,000 square feet with a maximum density of 31 units per net acre. Lots 14,400-20,000 square feet shall be developed at RM density. Lots less than 14,400 square feet shall be developed at RU density.

All multi-family zones listed above permit the development of senior citizen and senior congregate care housing at a density up to 50% greater than that allowed in the zone with a marketing feasibility study and a conversion plan.

4. RSH (Residential Student Housing) Zone

The overlay district is specifically designed to allow student housing complexes on lots located within 500 feet of California State University San Bernardino, and which are at least five acres in size, at a maximum density of 20 units per acre and with no more than 75 bedrooms per acre, and specifically, only on the 8.28 acres on the south side of Northpark Boulevard, east of University Parkway, as designated in General Plan Amendment No. 01-06, and the 10.16 acres on the west side of Northpark Boulevard, northwest of the intersection of University Parkway and Northpark Boulevard in Tract 17703-2 Lot 1, and Tract 17703-3 Lots 1, 2 and 3. In the event that the project no longer houses California State University, San Bernardino students or is demolished, further use of the site will revert back to the underlying land use district policies and standards.

Ord. MC-1406, 7-21-14

19.04.020 PERMITTED, DEVELOPMENT PERMITTED AND CONDITIONALLY PERMITTED USES

The following list represents those uses in the residential zones which are Permitted (P), subject to an Administrative or Development Permit (D), a Conditional Use Permit (C), a Fence Permit (F) or Prohibited (X):

**Table 04.01

19.04.030 DEVELOPMENT STANDARDS

1. GENERAL STANDARDS

The standards contained in [Table 04.02](#) (Residential Development Standards) relating to density, lot area and configuration, building setbacks, building lot coverage and height, accessory building and structure height, distance between buildings, and private outdoor living space, apply to all residential zones, and shall be determined to be minimum requirements, unless states as maximum by this Development Code.

- A. Single-Family Dwellings located in the RU, RM, RMH, or HR zones shall be constructed in compliance with the development standards for the RS zone.
- B. Accessory Dwelling Units shall be constructed in compliance with the requirements of Section 19.04.030(2)(P).

(Ord. MC-1559, 5-03-21⁹; Ord. MC-1393, 12-02-13)

⁹ Ord. MC-1559, 5-03-21 contains a typographical error that would have caused 19.02.030 to accidentally be supplanted with the text of 19.04.030(1). The City Attorney's Office has advised to instead place the content and reference into 19.04.030 where it was intended and provide this explanation.

Key: "+" applies in the zone.

A. ACCESSORY STRUCTURES

Accessory structures in residential zones are subject to Development review and shall be compatible with the materials and architecture of the main dwelling of the property. Accessory structures may only be constructed on a lot containing a main dwelling unit. Accessory structures may be built to the interior side and rear property lines provided that such structures are not closer than 10 feet to any other structure. Building Code requirements may further restrict the distance to be maintained from property lines or other structures. The accessory structure may be a maximum of 50% of the main structure footprint and a maximum of 16 feet in height.

(Ord. MC-1393, 12-02-13)

B. DAY CARE CENTER DESIGN STANDARDS

Day Care Centers are permitted for 15 or more children, subject to Conditional Use Permit review, pursuant to Section 19.04.020 (Table 04.01) and Section 19.06.020 (Table 06.01). The centers shall be constructed in the following manner

(Ord. MC-1393, 12-02-13)

1. The facility shall conform to all property development standards of the zone in which it is located.
2. Large facilities shall not be located within 500 feet of another day care center.
3. An outdoor play area of no less than 75 square feet per child, but in no case less than 450 square feet in area shall be provided. The outdoor play area shall be located in the rear area. Stationary play equipment shall not be located in required side and front yards.
4. A six-foot high solid decorative fence or wall shall be constructed on all property lines, except in the front yard. In the front yard, the open fence shall not exceed 48 inches in height, and a solid wall shall not exceed 36 inches in height. Materials, textures, colors, and design of the fence or wall shall be compatible with on-site development and adjacent properties. All fences or walls shall provide for safety with controlled points of entry.
5. On-site landscaping shall be consistent with that prevailing in the neighborhood and shall be installed and maintained, pursuant to Chapter 19.28 (Landscaping Standards). Landscaping shall be provided to reduce noise impacts on surrounding properties.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

6. All on-site parking shall be provided pursuant to the provisions of Chapter 19.24 (Off-Street Parking). On-site vehicle turnaround or separate entrance and exit points, and adequate passenger loading spaces, shall be provided.
7. All on-site lighting shall be stationary, directed away from adjacent properties and public rights-of-way, and of an intensity appropriate to the use it is serving.
8. All on-site signage shall comply with the provisions of Chapter 19.22. (Sign Standards).
9. The center shall contain a fire extinguisher and smoke detector devices and meet all standards established by the City Fire Marshall.
10. A center within a residential zone may operate up to 14 hours per day.
11. Outdoor activities may only be conducted between the hours of 8:30 A.M. to 8:00 P.M.

(Ord. MC-841, 7-08-92)

C. DAY CARE HOMES, LARGE FAMILY

Large family day care homes may be located no closer than 500 feet, in any direction, from an existing large family day care home, measured from property line to property line except that they may be located no closer than 250 feet measured from property line to property line from any existing large family day care home not fronting on the same street.

(Ord. MC-859, 1-22-93; Ord. MC-841, 7-08-92)

D. DENSITY BONUS

This section contains two density bonus provisions. The first entitlement is based upon the provision of affordable housing pursuant to State Government Code Section 65915. The second provision is intended to provide density bonus incentives for the incorporation of on-site amenities.

1. Affordable Housing

State Government Code Section 65915 provides for the granting of a density bonus or other incentives of equivalent financial value when a developer of housing agrees to construct at least 1 of the following:

- a. Twenty percent of the total units of a housing development for persons and families or lower income, as defined in Section 50079.5 of the Health and Safety Code.
- b. Ten percent of the total units of a housing development for very low income households, as defined in Section 50105 of the Health and Safety Code.
- c. Fifty percent of the total dwelling units of a housing development for qualifying residents, as defined in Section 51.2 of the Civil Code.

A request for a density bonus and regulatory concessions and/or incentives shall require Conditional Use Permit review and be subject to the following provisions:

- a. For the purpose of this Section, "density bonus" shall mean a density increase of 25% over the otherwise maximum allowable residential density under this Development Code and the General Plan. When determining the number of housing units which are to be affordable, the density bonus shall not be included.
- b. The purposes for implementing this section are as follows:
 - 1) The City shall within 90 days of receipt of a written proposal, notify the developer in writing of the procedures governing these provisions.

- 2) The Council may approve the density bonus and regulatory concessions and/or incentives only if all of the following findings are made:
 - a) The developer has proven that the density bonus and adjustment of standards is necessary to make the project economically feasible;
 - b) That additional adjustment of standards is not required in order for the rents for the targeted units to be set, pursuant to Government Code Section 65915(c); and
 - c) The proposed project is compatible with the purpose and intent of the General Plan and this Development Code.
- c. The density bonus shall only apply to housing developments consisting of five or more dwelling units.
- d. The density bonus provision shall not apply to senior citizen and senior congregate care housing projects that utilize the senior citizen housing density provisions of this Development Code.
- e. Prior to the issuance of a building permit for any dwelling unit in a development for which "density bonus units" have been awarded or incentives have been received, the developer shall submit documentation which identifies the restricted units and shall enter into a written agreement with the City to guarantee for 30 years their continued use and availability to low and moderate-income households. The agreement shall extend more than 30 years if required by the Construction or Mortgage Financing Assistance Program, Mortgage Insurance Program, or Rental Subsidy Program. The terms and conditions of the agreement shall run with the land which is to be developed, shall be binding upon the successor in interest of the developer, and shall be recorded in the Office of the San Bernardino County Recorder.

The agreement shall include the following provisions:

- 1) The developer shall give the City the continuing right-of-first-refusal to purchase or lease any or all of the designated units at the fair market value;

- 2) The deeds to the designated units shall contain a covenant stating that the developer or his/her successor in interest shall not sell, rent, lease, sublet, assign, or otherwise transfer any interests for same without the written approval of the City confirming that the sales price of the units is consistent with the limits established for low- and moderate-income households, which shall be related to the Consumer Price Index;
 - 3) The City shall have the authority to enter into other agreements with the developer or purchasers of the dwelling units, as may be necessary to assure that the required dwelling units are continuously occupied by eligible households.
- f. "Density bonus units" shall be generally dispersed throughout a development project and shall not differ in appearance from other units in the development.
- g. The City shall provide, in addition to a density bonus, at least 1 of the following regulatory concessions and/or incentives to ensure that the multi-family residential project will be developed at a reduced cost:
- 1) A reduction or modification of Development Code requirements which exceed the minimum building standards approved by the State Building Standards Commission as provided in Part 2.5 (commencing with Section 18901) of Division 123 of the Health and Safety Code, including, but not limited to, a reduction in setback and square footage requirements and in the ratio of vehicular parking spaces that would otherwise be required.
 - 2) Approval of mixed use development in conjunction with the multi-family residential project if commercial, office, industrial, or other land uses will reduce the cost of the development and if the project will be compatible internally as well as with the existing or planned development in the area where the proposed housing project will be located.
 - 3) Other regulatory incentives or concessions proposed by the developer or the City which result in identifiable cost reductions.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

2. Amenities Bonus Provision

This provision allows an increase in the maximum permitted density of 15% in only the RU, RM, RMH, RH, CO-1 & 2, CG-2, and CR-2 land use zoning districts. Increases of up to 15% may be granted based upon the finding(s) that any proper combination of the following amenities are provided in excess of those required by the applicable zone:

- a. Architectural features that promote upscale multi-family development;
- b. Additional on-site or off-site mature landscaping which will benefit the project;
- c. Additional useable open space;
- d. Attached garages;
- e. Additional recreational facilities (i.e., clubhouse, play area, pool/Jacuzzi, tennis court, etc.); and
- f. Day care facilities.

This amenity bonus provision shall not be used as an addition to the affordable housing density bonus provision.

E. FRONT/REAR YARD AVERAGING STANDARDS

Front/rear setbacks required by the base district in Table 04.02 may be averaged on the interior lots within a single family detached or duplex subdivision.

The front/rear yard setback of a group of five adjacent dwelling units may vary up to five feet from that required. The average setback of all five units shall equal the minimum required for the base zone.

F. GOLF COURSES AND RELATED FACILITIES STANDARDS

Golf course developments are subject to Conditional Use Permit review and shall be constructed in the following manner:

1. State-of-the-art water conservation techniques shall be incorporated into the design and irrigation of the golf course.
2. Treated effluent shall be used for irrigation where available.
3. Perimeter walls or fences shall provide a viewshed window design along all public rights-of-way, incorporating a mix of pilasters and wrought iron fencing or equivalent treatment.
4. All accessory facilities, including but not limited to, club houses, maintenance buildings, and half-way club houses shall be designed and located to ensure compatibility and harmony with the golf course setting.

G. GUEST HOUSE DESIGN STANDARDS

Guest houses shall be constructed in the following manner:

1. All guest houses shall conform to all development standards of the underlying zone.
2. There shall be no more than 1 guest house on any lot.
3. The floor area of the guest house shall not exceed 500 square feet.
4. The guest house shall not exceed the height of the main dwelling.
5. There shall be no kitchen or cooking facilities or wet bar facilities within a guest house.
6. The guest house shall conform to all of the setback regulations outlined in the applicable zone.
7. A guest house shall be used only by the occupants of the main dwelling, their non-paying guests, or domestic employees. The guest house shall not be rented.

(Ord. MC-1393, 12-02-13)

H. MINIMUM DWELLING SIZE STANDARDS

The following minimum dwelling areas are computed by calculating the living area as measured from the outside of walls and excludes garages, carports, exterior courtyards, patios, or balconies.

1. The minimum area requirements for single-family residential units are as follows:

a.

Zone	Minimum Area in Square Feet	Minimum Average Livable Area in Square Feet
RE	1,700	---
RL	1,200	1,500
RS	1,200	---
RU	1,000	---

(Ord. MC-826, 4-07-92)

b. Infill Single-Family Dwellings

Minimum Livable Area in Square Feet 1,000 sq. ft.*

*Note: The minimum setbacks of applicable zone shall be applied.

2. The minimum area requirements for apartments/multi-family are as follows:

Livable Area in Square Feet	Bedrooms Maximum Number	Baths Minimum Number
500	Bachelor	1
600	1	1
800	2	1½
1,000	3	2
1,200	3+	2

I. MINIMUM ROOM SIZE STANDARDS

Minimum room size standards are as follows:

Room	Minimum Area in Square Feet
Garage	400

All Other Subject to adopted UBC Standards

(Ord. MC-826, 4-07-92)

J. MOBILE HOME AND MANUFACTURED HOUSING DESIGN STANDARDS

Manufactured or mobile homes are subject to Development Permit review and shall be installed in the following manner:

1. Mobile or manufactured homes may be used as single-family dwellings if the home is certified under the National Mobile Home Construction and Safety Standards Act of 1974.
2. Mobile or manufactured homes which are used as single-family residences shall be installed on an approved permanent foundation system in compliance with applicable codes.
3. Director shall determine that the subject lot together with the proposed mobile or manufactured home is compatible with surrounding development. This determination shall include an assessment of on-site design and development standards and materials, architectural aesthetics, setbacks, building height, accessory buildings, access, off-street parking and minimum square footage requirements, and any other criteria determined appropriate by the Director.
4. The following Specific Design Standards shall govern the installation and construction of manufactured and mobile homes.
 - a. All homes shall have a minimum eave dimension of 1 foot.
 - b. All siding shall be non-reflective and shall be installed from the ground up to the roof.
 - c. All roofs shall have a minimum pitch of 1:4.
 - d. All homes shall have a minimum width (across the narrowest portion) of 20 feet.

K. MOBILE HOME PARK OR SUBDIVISION DESIGN STANDARDS

Mobile home parks or subdivisions are subject to Development Permit review and shall be constructed in the following manner:

1. Individual mobile home space minimum setbacks shall be measured from the edge of internal streets and space lines as follows:
 - a. Front - 10 feet
 - b. Side - 5 feet on each side, or zero lot line on one side with 10 feet on the opposite side.
 - c. Rear - 10 feet
 - d. Structural separation - 10 foot minimum between dwelling units.
2. Maximum mobile home space coverage (mobile home and its accessory structure) shall be 75%.
3. Each mobile home shall be equipped with skirting, or provided with a support pad which is recessed to give the appearance of the mobile home being located on-grade.
4. All on-site utilities shall be installed underground.
5. The mobile home park shall be provided with parking as required by Chapter 19.24 (Off-street Parking Standards).
6. A common recreation area which may contain a recreation building shall be provided in the park for use by all tenants and their invited guests. The area shall be provided in one common location with a minimum aggregate area of 400 square feet of recreational space for each mobile home space.
7. All exterior boundaries of the mobile home park shall appear similar to conventional residential developments and shall be screened by a decorative wall, fence or other comparable device six feet in height, with a minimum six-foot wide landscaped area provided along the inside of the perimeter screen.
8. Common open space shall be landscaped in accordance with a landscape plan approved by the review authority and in a manner consistent with Chapter 19.28 (Landscaping Standards).

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

9. All mobile home park or subdivision developments shall provide recreational amenities within the site which may include: a swimming pool; spa; clubhouse; tot lot with play equipment; picnic shelter - barbecue area; court game facilities such as tennis, basketball, or racquetball; improved softball or baseball fields; or, day care facilities. The type of amenities shall be approved by the Director and provided according to the following schedule:

Units	Amenities
0-9	0
10-50	1
51-100	2
101-200	3
201-300	4

Add 1 amenity for each 100 additional units or fraction thereof.

L. MULTI-FAMILY HOUSING STANDARDS

Multi-family housing is permitted in the RU, RM, RMH, RH, CG-2, and CR-2 zones subject to Development Permit Review and shall be constructed in the following manner:

1. All multi-family developments with 12 or more dwelling units shall provide 30% useable open space for passive and active recreational uses. Useable open space areas shall not include: rights-of-way; vehicle parking areas; areas adjacent to or between any structures less than 15 feet apart; setbacks; patio or private yards; or, slope areas greater than 8%.
2. Each dwelling unit shall have a private (walled) patio or balcony not less than 300 square feet in area or 25% of the dwelling unit size, whichever is less.

3. All multi-family developments shall provide recreational amenities within the site which may include: a swimming pool; spa; clubhouse; tot lot with play equipment; picnic shelter - barbecue area; court game facilities such as tennis, basketball, or racquetball; improved softball or baseball fields; or, day care facilities. The type of amenities shall be approved by the Director and provided according to the following schedule:

Units	Amenities
0-11	0
12-50	1
51-100	2
101-200	3
201-300	4

Add 1 amenity for each 100 additional units or fraction thereof.

4. Off-street parking spaces for multi-family residential developments shall be located within 150 feet from the dwelling unit (front or rear door) for which the parking space is provided.
5. Each dwelling unit shall be provided a minimum of 150 cubic feet of private enclosed storage space within the garage, carport, or immediately adjacent to the dwelling unit.
6. Driveway approaches within multiple family developments of 12 or more units shall be delineated with interlocking pavers, rough-textured concrete, or stamped concrete and landscaped medians.
7. All parts of all structures shall be within 150 feet of paved access for single story and 50 feet for multi-story.
8. Common laundry facilities of sufficient number and accessibility consistent with the number of living units and the Uniform Building Code shall be provided.

9. Each dwelling unit shall be plumbed and wired for a washing machine and dryer.
10. Management and security plans shall be submitted for review and approval for multi-family developments with 12 or more dwelling units. These plans shall be comprehensive in scope.

M. MULTI-FAMILY HOUSING, EXISTING

Additions, alterations, and expansions to multi-family housing which legally existed prior to June 3, 1991, shall comply with the standards of the multi-family zone in which the project is located.

(Ord. MC-821, 2-19-92)

N. PLANNED RESIDENTIAL DEVELOPMENT/SMALL LOT SUBDIVISIONS

Planned Residential Development (PRD) including Clustered Subdivision and Small Lot Divisions are permitted in Residential Urban (RU), Residential Medium (RM), Residential Medium High (RMH), and Residential High (RH) zones subject to Development Permit review. Attached and detached single-family dwelling units are permitted. The purpose of allowing these types of developments is to promote residential amenities beyond those expected in conventional residential developments, to achieve greater flexibility in design, to encourage well planned neighborhood through creative and imaginative planning as a unit, to provide for appropriate use of land which is sufficiently unique in its physical characteristics or other circumstances to warrant special methods of development, to reduce development problems in hillside areas and to preserve areas of natural scenic beauty through the encouragement of integrated planning and design.

(Ord. MC-1213, 12-07-05)

1. Density

The underlying residential zone or the Hillside Management Overlay Zone shall determine the maximum number of dwelling units allowed in a PRD or Small Lot Subdivision. Where a parcel or parcels have more than one zone, the maximum number of dwelling units shall be determined by adding together the allowable density for each zone area. Density transfer throughout the PRD project area is permitted for the promotion of clustering units in those areas suited to development, and thus preserving the open space and natural features of the site. (See Hillside Management Overlay Zone for restrictions to on-site density transfer.)

[Return to Municipal Code Contents]

2. Minimum Lot Size

The minimum lot size for a detached single-family unit in a Small Lot Subdivision shall be 5,000 square feet. PRDs may create lot sizes to accommodate the creation of attached single-family dwelling units or Clustered Subdivisions.

3. Site Coverage

Structures shall not occupy more than 40% of the gross site area.

4. Structure Height/Number of Attached Dwelling Units

Detached single-family structures shall not exceed 2½ stories, or 35 feet. Attached single-family structures shall not exceed three stories or 42 feet. The maximum average number of single-family units attached in any manner to form a single structure shall be six.

5. Setbacks

The minimum front, rear, and side structural setback from the project perimeter boundary shall be 15 feet. The minimum dwelling unit side structural setback from other dwelling unit structures is 15 feet plus one foot for each 15 feet of structure length. In small lot subdivisions the minimum side setback is five feet with a 15-foot minimum dwelling unit separation.

6. Open Space

All Planned Residential Developments with 12 or more dwelling units shall provide 30% useable open space for passive and active recreational uses. Planned Residential Development consisting of single-family detached units may provide 15% useable open space in lieu of the required 30%.

Useable open space areas shall not include: rights-of-way; vehicle parking areas; areas adjacent to or between any structures less than 15 feet apart; setbacks; patios and private yards; or, slope areas greater than eight percent. Slopes greater than eight percent may be approved in the Hillside Management Overlay District by the Director as useable open space.

(Ord. MC-1178, 8-17-04)

7. Amenities

All Planned Residential Developments shall provide recreational amenities within the site which may include: a swimming pool; spa; clubhouse; tot lot with play equipment; picnic shelter - barbecue area; court game facilities such as tennis, basketball, or racquetball; improved softball or baseball fields; or, day care facilities. The type of amenities shall be approved by the Director and provided according to the following schedule:

Units	Amenities
0-11	0
12-50	1
51-100	2
101-200	3
201-300	4

Add 1 amenity for each 100 additional units or fraction thereof.

8. Private Streets

Private streets shall be permitted when there is a homeowners' association established to maintain them. The streets shall be built to standards and specifications for public works construction.

9. Maintenance and Completion of Open Space, Amenities, Landscaping, and Manufactured Slopes

No lot or dwelling unit in the development shall be sold unless a corporation, homeowners' association, assessment district or other approved appropriate entity has been legally formed with the right to assess all those properties which are jointly owned or benefited to operate and maintain all of the mutually available features of the development including, but not limited to, open space, amenities, landscaping or slope maintenance landscaping (which may be on private lots adjacent to street rights-of-way). Conditions, Covenants, and Restrictions (CC&Rs) may be developed and recorded for the development subject to the review and approval of the City Attorney. The recorded CC&Rs shall permit the enforcement by the City, if required. No lot or dwelling unit shall be sold unless all approved and required open space, amenities, landscaping, or other improvements, or approved phase thereof, have been completed or completion is assured by a financing guarantee method approved by the City Engineer.

[Return to Municipal Code Contents]

10. Fire Department Standard

All parts of the structures shall be within 150 feet of paved access for single-story and 50 feet for multi-story.

11. Residential Specific Standards

In addition to the PRD development requirements, the following specific standards contained within this chapter shall apply:

- a. Day care facilities
- b. Golf courses and related facilities
- c. Guest house
- d. Lighting
- e. Minimum room size
- f. Minimum dwelling size
- g. Mobile home and manufactured housing
- h. Mobile home park or subdivision
- i. Recreational vehicle storage

O. RECREATIONAL VEHICLE STORAGE FACILITIES

Developments within the multi-family zones and with 12 or more dwelling units shall provide recreational vehicle storage facilities. The storage facilities shall be reviewed as part of the Development Permit and shall be constructed in the following manner:

1. Centralized storage areas shall be provided for recreational vehicles, boats, etc., at a minimum of one space for each eight dwelling units. Any fractional space requirement shall be construed as requiring one full storage space pursuant to Chapter 19.24 (Off-Street Parking Standards).
2. Individual storage spaces shall measure not less than 12 feet by 30 feet, and shall have direct access to a driveway with a minimum paved width of 25 feet.

3. Storage areas shall be paved and drained.
4. Storage areas shall be completely screened from exterior view by a combination of landscaping, masonry walls, fences or other comparable screening devices 8 feet in height, subject to the approval of the Director.

P. Accessory Dwelling Units

1. **Purpose.** The purpose of this section is to allow and regulate accessory dwelling units (ADUs) and junior accessory dwelling units (JADUs) in compliance with California Government Code sections 65852.2 and 65852.22
2. **Effect of Conforming.** An ADU or JADU that conforms to the standards in this section will not be:
 - a. Deemed to be inconsistent with the city's general plan and zoning designation for the lot on which the ADU or JADU is located.
 - b. Deemed to exceed the allowable density for the lot on which the ADU or JADU is located.
 - c. Considered in the application of any local ordinance, policy, or program to limit residential growth.
 - d. Required to correct a nonconforming zoning condition, as defined in subsection 3. g below. This does not prevent the City from enforcing compliance with applicable building standards in accordance with Health and Safety Code section 17980.12.
- 3.. **Definitions.** As used in this section, terms are defined as follows:
 - a. **"Accessory dwelling unit" or "ADU"** means an attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. An accessory dwelling unit also includes the following:
 - i. An efficiency unit, as defined by section 17958.1 of the California Health and Safety Code; and
 - ii. A manufactured home, as defined by section 18007 of the California Health and Safety Code.

- b. **"Accessory structure"** means a structure that is accessory and incidental to a dwelling located on the same lot.
- c. **"Complete independent living facilities"** means permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family or multifamily dwelling is or will be situated.
- d. **"Efficiency kitchen"** means a kitchen that includes each of the following:
 - i. A cooking facility with appliances.
 - ii. A food preparation counter and storage cabinets that are of a reasonable size in relation to the size of the JADU.
- e. **"Junior accessory dwelling unit" or "JADU"** means a residential unit that satisfies all of the following:
 - i. It is no more than 500 square feet in size.
 - ii. It is contained entirely within an existing or proposed single-family structure. An enclosed use within the residence, such as an attached garage, is considered to be a part of and contained within the single-family structure.
 - iii. It includes its own separate sanitation facilities or shares sanitation facilities with the existing or proposed single-family structure.
 - iv. If the unit does not include its own separate bathroom, then it contains an interior entrance to the main living area of the existing or proposed single-family structure in addition to an exterior entrance that is separate from the main entrance to the primary dwelling.
- f. **"Living area"** means the interior habitable area of a dwelling unit, including basements and attics, but does not include a garage or any accessory structure.
- g. **"Nonconforming zoning condition"** means a physical improvement on a property that does not conform with current zoning standards.
- h. **"Passageway"** means a pathway that is unobstructed clear to the sky and extends from a street to one entrance of the ADU or JADU

- i. **"Proposed dwelling"** means a dwelling that is the subject of a permit application and that meets the requirements for permitting.
 - j. **"Public transit"** means a location, including, but not limited to, a bus stop or train station, where the public may access buses, trains, subways, and other forms of transportation that charge set fares, run on fixed routes, and are available to the public.
 - k. **"Tandem parking"** means that two or more automobiles are parked on a driveway or in any other location on a lot, lined up behind one another.
4. **Approvals.** The following approvals apply to ADUs and JADUs under this section:
- a. **Statutory Criteria.** If an ADU or JADU complies with each of the general requirements in subsection (e) below, it is allowed with only a building permit in the following scenarios:
 - i. **Converted on Single-family Lot:** One ADU as described in this subsection 0 and one JADU on a lot with a proposed or existing single-family dwelling on it, where the ADU or JADU:
 - a) Is either: within the space of a proposed single-family dwelling; within the existing space of an existing single-family dwelling; or (in the case of an ADU only) within the existing space of an accessory structure, plus up to 150 additional square feet if the expansion is limited to accommodating ingress and egress; and
 - b) Has exterior access that is independent of that for the single-family dwelling; and
 - c) Has side and rear setbacks sufficient for fire and safety, as dictated by applicable building and fire codes.
 - d) The JADU complies with the requirements of Government Code Section 65852.22.
 - ii **Limited Detached on Single-family Lot:** One detached, new-construction ADU on a lot with a proposed or existing single-family dwelling (in addition to any JADU that might otherwise be established on the lot under subsection 0 above), if the detached ADU satisfies each of the following limitations:

- a) The side- and rear-yard setbacks are at least four-feet.
 - b) The total floor area is 800 square foot or smaller.
 - c) The peak height above grade does not exceed the applicable height limit in subsection 5.c below.
- iii. **Converted on Multifamily Lot:** One or more ADUs within portions of existing multifamily dwelling structures that are not used as livable space, including but not limited to storage rooms, boiler rooms, passageways, attics, basements, or garages, if each converted ADU complies with state building standards for dwellings. Under this subsection 1.a.i.c), at least one converted ADU is allowed within an existing multifamily dwelling, up to a quantity equal to 25 percent of the existing multifamily dwelling units.
- iv. **Limited Detached on Multifamily Lot:** No more than two detached ADUs on a lot that has an existing or proposed multifamily dwelling if each detached ADU satisfies both of the following limitations:
- a) The side- and rear-yard setbacks are at least four feet. If the existing multifamily dwelling has a rear or side yard setback of less than four feet, the city will not require any modification to the multifamily dwelling as a condition of approving the ADU.
 - b) The peak height above grade does not exceed the applicable height limit provided in subsection 5.c below.
- b. **Additional Criteria.**
- i. An ADU that does not qualify under the criteria set forth in subsection 0 above may be created with a building permit if it complies with the standards set forth in subsections 5 and 6 below
- c. **Process and Timing.**
- i. An ADU application is considered and approved ministerially, without discretionary review or a hearing.
 - ii. The City must approve or deny an application to create an ADU or JADU within 60 days from the date that the City receives a completed application. If the City does not approve or deny the completed application within 60 days, the application is deemed approved unless either:

[Return to Municipal Code Contents]

- a) The applicant requests a delay, in which case the 60-day time period is tolled for the period of the requested delay, or
- b) When an application to create an ADU or JADU is submitted with a permit application to create a new single-family or multifamily dwelling on the lot, the City may delay acting on the permit application for the ADU or JADU until the City acts on the permit application to create the new single-family or multifamily dwelling, but the application to create the ADU or JADU will still be considered ministerially without discretionary review or a hearing
- iii. If the city denies an application to create an ADU or JADU, the city must provide the applicant with comments that include, among other things, a list of all the defective or deficient items and a description of how the application may be remedied by the applicant. Notice of the denial and corresponding comments must be provided to the applicant within the 60-day time period established by subsection Error! Reference source not found. above.
- iv. A demolition permit for a detached garage that is to be replaced with an ADU is reviewed with the application for the ADU and issued at the same time.

5. **General ADU and JADU Requirements.** The following requirements apply to all ADUs and JADUs that are approved under subsections 0 or 0 above:

a. **Zoning.**

- i. An ADU or JADU subject only to a building permit under subsection 0 above may be created on a lot in a residential or mixed-use zone.
- ii. An ADU or JADU subject to an ADU permit under subsection 0 above may be created on a lot that is zoned to allow single-family dwelling residential use or multifamily dwelling residential use.

b. **Access.** Each ADU and JADU must have direct exterior access that is separate from that of the primary dwelling.

c. **Height.**

- i. **Except as otherwise provided by subsections 0 and 0 below, a detached ADU created on a lot with an existing or proposed single family or multifamily dwelling unit may not exceed 16 feet in height.**

[Return to Municipal Code Contents]

- ii. A detached ADU may be up to 18 feet in height if it is created on a lot with an existing or proposed single family or multifamily dwelling unit that is located within one-half mile walking distance of a major transit stop or a high quality transit corridor, as those terms are defined in Section 21155 of the Public Resources Code, and the ADU may be up to two additional feet in height (for a maximum of 20 feet) if necessary to accommodate a roof pitch on the ADU that is aligned with the roof pitch of the primary dwelling unit.
- iii. A detached ADU created on a lot with an existing or proposed multifamily dwelling that has more than one story above grade may not exceed 18 feet in height.
- iv. An ADU that is attached to the primary dwelling may not exceed 25 feet in height or the height limitation imposed by the underlying zone that applies to the primary dwelling, whichever is lower. Notwithstanding the foregoing, ADUs subject to this subsection 0 may not exceed two stories.
- v. For purposes of this subsection 5.c, height is measured above existing legal grade to the peak of the structure.
- d. **Rental Term.**
 - i. Fire sprinklers are required in an ADU if sprinklers are required in the primary residence.
 - ii. The construction of an ADU does not trigger a requirement for fire sprinklers to be installed in the existing primary dwelling.
- e. **Rental Term.** No ADU or JADU may be rented for a term that is shorter than 30 days. This prohibition applies regardless of when the ADU or JADU was created.
- f. **No Separate Conveyance.** An ADU or JADU may be rented, but, except as otherwise provided in Government Code Section 65852.26, no ADU or JADU may be sold or otherwise conveyed separately from the lot and the primary dwelling (in the case of a single-family lot) or from the lot and all of the dwellings (in the case of a multifamily lot).

- g. **Septic System.** If the ADU or JADU will connect to an onsite wastewater-treatment system, the owner must include with the application a percolation test completed within the last five years or, if the percolation test has been recertified, within the last 10 years.
- h. **Owner Occupancy.** As required by state law, all JADUs are subject to an owner-occupancy requirement. A natural person with legal or equitable title to the property must reside on the property, in either the primary dwelling or JADU, as the person's legal domicile and permanent residence. However, the owner-occupancy requirement in this subsection does not apply if the property is entirely owned by another governmental agency, land trust, or housing organization.
- i. **Deed Restriction.** Prior to issuance of a building permit for an ADU or JADU, a deed restriction must be recorded against the title of the property in the County Recorder's office and a copy filed with the Director. The deed restriction must run with the land and bind all future owners. The form of the deed restriction will be provided by the City and must provide that:
- i. Except as otherwise provided in Government Code Section 65852.26, the ADU or JADU may not be sold separately from the primary dwelling.
 - ii. The ADU or JADU is restricted to the approved size and to other attributes allowed by this section.
 - iii. The deed restriction runs with the land and may be enforced against future property owners.
 - iv. The deed restriction may be removed if the owner eliminates the ADU or JADU, as evidenced by, for example, removal of the kitchen facilities. To remove the deed restriction, an owner may make a written request of the Director, providing evidence that the ADU or JADU has in fact been eliminated. The Director may then determine whether the evidence supports the claim that the ADU or JADU has been eliminated. Appeal may be taken from the Director's determination consistent with other provisions of this Code. If the ADU or JADU is not entirely physically removed, but is only eliminated by virtue of having a necessary component of an ADU or JADU removed, the remaining structure and improvements must otherwise comply with applicable provisions of this Code.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- v. The deed restriction is enforceable by the Director or his or her designee for the benefit of the City. Failure of the property owner to comply with the deed restriction may result in legal action against the property owner, and the City is authorized to obtain any remedy available to it at law or equity, including, but not limited to, obtaining an injunction enjoining the use of the ADU or JADU in violation of the recorded restrictions or abatement of the illegal unit.

6. **Specific ADU Requirements.** The following requirements apply only to ADUs that are approved under subsection 0 above.

a. **Maximum Size.**

- i. The maximum size of a detached or attached ADU subject to this subsection 6 is 850 square feet for a studio or one-bedroom unit and 1,000 square feet for a unit with two or more bedrooms.
- ii. An attached ADU that is created on a lot with an existing primary dwelling is further limited to 50 percent of the floor area of the existing primary dwelling.
- iii. **Application of other development standards in this subsection 6, such as setbacks or lot coverage, might further limit the size of the ADU, but no application of the percent-based size limit in subsection 0 above or of a lot coverage limit or open-space requirement may require the ADU to be less than 800 square feet.**

b. **Setbacks.**

- i. **An ADU that is subject to this subsection 6(6) must conform to a 25-foot front-yard setback, subject to subsection 0 above.**
- ii. An ADU that is subject to this subsection 6 must conform to 4-foot side- and rear-yard setbacks.
- iii. No setback is required for an ADU that is subject to this subsection 6 if the ADU is constructed in the same location and to the same dimensions as an existing structure.

c. **Lot Coverage.** No ADU subject to this subsection 6 may cause the total lot coverage of the lot to exceed 50 percent, subject to subsection 0 above.

- d. **Passageway.** No passageway, as defined by subsection 3. h above, is required for an ADU.
 - e. **No Replacement Parking.** When a garage, carport, or covered parking structure is demolished in conjunction with the construction of an ADU or converted to an ADU, those off-street parking spaces are not required to be replaced.
 - f. **Architectural Requirements.**
 - i. The materials and colors of the exterior walls, roof, and windows and doors must match the appearance and architectural design of those of the primary dwelling.
 - ii. The roof slope must match that of the dominant roof slope of the primary dwelling. The dominant roof slope is the slope shared by the largest portion of the roof.
 - iii. The exterior lighting must be limited to down-lights or as otherwise required by the building or fire code.
 - iv. The ADU must have an independent exterior entrance, apart from that of the primary dwelling. The ADU entrance must be located on the side or rear building facade, not facing a public-right-of-way.
7. **Fees.** The following requirements apply to all ADUs and JADUs that are approved under subsections 0 or 0 above.
- a. **Impact Fees.**
 - i. No impact fee is required for an ADU or JADU that is less than 750 square feet in size. For purposes of this subsection 7.a, “impact fee” means a “fee” under the Mitigation Fee Act (Gov. Code § 66000(b)) and a fee under the Quimby Act (Gov. Code § 66477). “Impact fee” here does not include any connection fee or capacity charge for water or sewer service.
 - ii. Any impact fee that is required for an ADU that is 750 square feet or larger in size must be charged proportionately in relation to the square footage of the primary dwelling unit. (E.g., the floor area of the ADU, divided by the floor area of the primary dwelling, times the typical fee amount charged for a new dwelling.)

b. Utility Fees.

- i. If an ADU or JADU is constructed with a new single-family home, a separate utility connection directly between the ADU or JADU and the utility and payment of the normal connection fee and capacity charge for a new dwelling are required.
- ii. Except as described in subsection 0, converted ADUs and JADUs on a single-family lot that are created under subsection 0 above are not required to have a new or separate utility connection directly between the ADU or JADU and the utility. Nor is a connection fee or capacity charge required.
- iii. Except as described in subsection 0, all ADUs and JADUs that are not covered by subsection 0 require a new, separate utility connection directly between the ADU or JADU and the utility.
 - a) The connection is subject to a connection fee or capacity charge that is proportionate to the burden created by the ADU or JADU, based on either the floor area or the number of drainage-fixture units (DFU) values, as defined by the Uniform Plumbing Code, upon the water or sewer system.
 - b) The portion of the fee or charge that is charged by the City may not exceed the reasonable cost of providing this service.

(Ord. MC-1604U, 12-07-22; Ord. MC-1559, 5-05-21; Ord. MC-1393, 12-02-13)

Q. SENIOR CITIZEN/CONGREGATE CARE HOUSING DESIGN STANDARDS

Senior group housing developments are subject to Development Permit review and shall be constructed in the following manner:

1. A bus turnout and shelter on the on-site arterial frontage shall be dedicated if the project is located on a bus route as determined by the Director.
2. Dial-a-ride transportation shuttles shall be provided; number to be determined during project review.
3. The parcel upon which the senior group housing facility is to be established shall conform to all standards of the underlying zone.
4. The senior group housing shall conform with all local, state, and federal requirements.

[Return to Municipal Code Contents]

5. The number of dwelling units shall be based on Table 4.02 (Residential Development Standards).
6. The minimum floor area for each residential unit shall be as follows:

Studio:	410 square feet
One-bedroom:	510 square feet if kitchen-dining living areas are combined.
	570 square feet if kitchen-dining living areas are separate.
Two-bedroom:	610 square feet if kitchen-dining living areas are combined.
	670 square feet if kitchen-dining living areas are separate.
7. The main pedestrian entrance to the development, common areas, and the parking facility shall be provided with handicapped access pursuant to Section 19.24.050.
8. Indoor common areas and living units shall be handicap adaptable and be provided with all necessary safety equipment (e.g., safety bars, etc.) as well as emergency signal/intercom systems as determined by the Director.
9. Adequate internal and external lighting including walkways shall be provided for security purposes. The lighting shall be energy efficient, stationary, deflected away from adjacent properties and public rights-of-way, and of an intensity compatible with the residential neighborhood.
10. Common recreational and entertainment activities of a size and scale consistent with the number of living units shall be provided. The minimum size shall equal 100 square feet for each living unit.
11. Common laundry facilities of sufficient number and accessibility, consistent with the number of living units and the Uniform Building Code shall be provided. The facilities shall have keyed access for tenants only.
12. Each residential unit shall be plumbed and wired for a washing machine and dryer.

13. The development may provide one or more of the following specific internal common facilities for the exclusive use of the residents:
 - a. Central cooking and dining room(s).
 - b. Beauty and barber shop.
 - c. Small scale drug store not exceeding 1,000 square feet.
14. Off-street parking shall be provided in the following manner:
 - a. One covered parking space for each dwelling unit for the exclusive use of the senior citizen residents plus one space for every 5 units for guest parking.
 - b. Three parking spaces for every four dwelling units for employee and guest use for congregate care residences.
 - c. All off-street parking shall be located within 150 feet of the front door of the main entrance.
 - d. Adequate and suitably striped paved areas for shuttle parking. Shaded waiting areas shall be provided adjacent to the shuttle stops.
 - e. Design standards relating to handicapped parking, access, surfacing, striping, lighting, landscaping, shading, dimensional requirements, etc. shall be consistent with the standards outlined in Chapter 19.24 (Off-Street Parking Standards).
 - f. Senior citizen/congregate care parking requirements may be adjusted on an individual project basis, subject to parking study based on project location and proximity to services for senior citizens including, but not limited to medical offices, shopping areas, mass transit, etc.
15. The project shall be designed to provide maximum security for residents, guests, and employees.
16. Trash receptacle(s) shall be provided on the premises. Trash receptacle(s) shall comply with adopted Public Works Department Standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least three sides by a solid wall six feet in height and on the fourth side by a solid gate not less than five feet in height. The gate shall be maintained in good working order and shall remain closed

[Return to Municipal Code Contents]

except when in use. The wall and gate shall be architecturally compatible with the surrounding buildings and structures. The receptacle(s) shall be located within close proximity to the residential units which they are intended to serve.

17. Residential occupancy shall be limited to single persons over 60 years of age or married couples of which one spouse is over 60 years of age.
18. Developers of Senior Citizen/Congregate Care housing which have a density larger than that allowed in the underlying zone, shall provide a marketing analysis which analyzes long term feasibility and a conversion plan of Senior residential units to standard units, with a corresponding reduction in the number of units to equal the density allowed in the underlying zone if the project is not occupied by Seniors 60 years of age or older. The feasibility study and conversion plan shall not be required if the project is sponsored by any government housing agency, the City's Development Department or a non-profit housing development corporation. If the proposed project is to be located in the CO zone the conversion plan shall address the transformation of residential units into the uses allowed in the Commercial Office (CO) zone.
19. All parts of all structures shall be within 150 feet of paved access for single-story and 50 feet for multi-story.

R. SINGLE FAMILY HOUSING, EXISTING

Additions, alterations and expansions to single-family housing which legally existed prior to June 3, 1991, shall comply with the standards of the Residential Suburban (RS) zone.

(Ord. MC-888, 12-07-93; Ord. MC-823, 3-03-92)

S. SMALL LOT SUBDIVISION STANDARDS

Standards for small lot subdivisions are located in Subsection N. (Planned Residential Development Standards) of this chapter.

T. SOCIAL SERVICE FACILITIES

The following provisions are applicable to social service facilities:

1. **Action**

Social Service Facilities may be established in commercial and industrial zones subject to approval of a Development Permit. Facilities located within one thousand (1,000) of a residentially zoned parcel may be permitted subject to approval of a Conditional Use Permit.

[\[Return to Municipal Code Contents\]](#)

Social Service (Residential) Facilities may be established in multi-family residential and commercial zones subject to approval of a Conditional Use Permit.

2. General Provisions

- a. Hours of Operation. Facilities shall only be premitted to operate between the hours of 8:00 a.m. and 8:00 p.m. daily, unless authorized by the Planning Commission
- b. Wating Areas. All waiting areas shall be located on the same premise as the facility served, and shall not obstruct public access to sidewalks, rights-of-way, or adjacent properties. In residential zones all waiting areas shall be located indoors.
- c. Management Plan. All facilities shall provide a management plan that includes the following:
 - Description of services provided.
 - Facility Capacity
 - On-Site Management. On-site supervision must be provided at all times that the center is in operation. The facility operator shall provide the name, phone number and email address of an on-site manager to whom one can provide notice if there are operating problems associated with the facility.
 - Residential Provisions (if applicable).
 - Security Plan (security staffing, alarms, etc.). The facility operator shall submit a sercurity plan for approval by the Director. The plan shall nclude provisions for security staffing, alarms, and other elements the Director deems necessary to ensure the security of the site. A centrally monitored alarm system shall be installed and maintained in good working order.
 - Transportation Services Provided (if applicable).
- d. Prohibited Activities. Patrons shall not be permitted on the site if not waiting for or receiving services, and no consumption of alcoholic beverages shall be allowed on the premises. The facility operator shall post a sign detailing these requirements.

- e. Food and Goods Distribution. No distribution of food or goods to anyone not residing at the facility shall be permitted from any facility located in or within one thousand (2,000) feet of a residentially zoned parcel.
- f. State Licensing. When one is required, evidence of preliminary state agency approval or a current state agency license shall be provided to the department.

3. Development Standards

- a. Outdoor Areas. All outdoor areas shall be adequately screened to prevent adverse impacts on any adjacent properties.
- b. Trash Receptacles. Outdoor trash receptacles shall be available near the primary entrances and exits of the facility.
- c. Residential Density. The density of residential uses shall be determined at project review.
- d. Distancing. Facilities shall not be any closer than five hundred (500) feet from any of the following uses:
 - A public or private state licensed or accredited school.
 - A public park, playground, recreational area, or youth facility, including a nursery school, preschool, or day-care facility.
 - A place of public assembly.
 - A hospital.
 - Another social service facility.
- e. Access. The site shall have direct frontage along a major, secondary, or collector arterial. Vehicular access shall be provided from a major, secondary, or collector arterial.

(Ord. MC-1548, 10-21-20; Ord. MC-1106, 10-02-01)

U. VOCATIONAL/TRADE SCHOOLS

Vocational/trade schools are subject to a Conditional Use Permit and shall comply with the following standards:

[Return to Municipal Code Contents]

1. Vocational/trade schools shall be permitted only at the facilities of an existing church, hospital or other not for profit organization fronting a major or secondary arterial.
2. The vocational/trade school curriculum may include GED courses, business, office and secretarial skill courses, dental or medical assistant courses, or other courses determined by the Director of Community Development to be compatible with the adjacent neighborhood. No courses in automotive repair, welding, construction, woodworking, or industrial manufacturing shall be taught due to their incompatibility with surrounding residential uses.
3. All curriculum activities shall be conducted entirely within an enclosed structure.
4. Off-street parking shall comply with the standards contained in Chapter 19.24 of this Development Code.
5. In addition to the required on-site parking, on-street parking may be permitted along the major or secondary arterial only.
6. Vehicular access to the vocational/trade school shall be restricted to the frontage along the major or secondary arterial.

(Ord. MC-933, 2-09-95)

V. STUDENT HOUSING COMPLEX

1. Student Housing complexes are only permitted in the Residential Student Housing District on lots within 500 feet of California State University, San Bernardino, and on only the 8.28 acres on the south side of Northpark Boulevard, east of University Parkway, as designated in General Plan Amendment No. 01-06.
2. The minimum unit size shall be as follows:
 - 1-bedroom 600 square feet
 - 2-bedroom 800 square feet
 - 3-bedroom 1,000 square feet
 - 4-bedroom 1,200 square feet

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

3. Student housing complex units may be up to 20% smaller than the minimum dwelling unit size prescribed above if a common area is provided on each floor. The common area shall be no less than 300 square feet, and shall include: a television set, sofa and chairs; or a game table (pool table, card table, etc.), chairs and a sofa; desks, chairs and computer access facilities; or other such amenity as is consistent with an area used for common social activity, subject to approval by the Planning Commission.
4. All student-housing complexes shall provide 35% of each unit size as useable open space for passive and active recreational use. A minimum of 5% of the outdoor open space must be private (balcony or patio), and a minimum of 25% of the outdoor open space must be common useable. The balance (5%) may be either common or private useable open space. Useable open space= areas shall not include: right-of-ways; vehicle parking areas; areas adjacent to or between any structures less than 15 feet apart; or slope areas greater than 8%. Useable open space areas shall be delineated on project site plans, and total square footage in open space shall be listed on the site plan.
5. Every bedroom shall be wired for computer Internet access in addition telephone access.
6. Every bedroom shall be equipped with an individual lock for use only by the tenant. Master keys shall be maintained for each building.
7. All student housing complexes shall provide indoor and outdoor recreational amenities within the site which may include: a swimming pool; spa; clubhouse; picnic shelter and barbeque area; court game facilities such as tennis, basketball, volleyball or racquetball; improved softball or baseball fields; or such other similar facilities as approved by the Planning Commission. The amenities shall be equivalent to a minimum of 50 square feet per resident.

The type of amenities shall be provided according to the following schedule:

Bedrooms	No. of Amenities
0-25	0
26-100	1
101-200	2
201-300	3

Add one amenity for each 100 additional bedrooms or fraction thereof.

8. One off street parking space shall be provided for each bedroom, plus three uncovered off-street guest parking spaces per 100 rooms. A minimum of 65% of the parking spaces shall be covered. The balance of the parking spaces shall be shaded by trees in such a manner that all parking spaces shall be fully shaded within five years of construction of the project.
9. Common laundry facilities at a ratio of one full size washer and one full size dryer per 10 units, and consistent with the Uniform Building Code shall be provided on each floor.
10. Access to student housing complexes shall be limited through the use of fencing or walls with locked gates. Gates shall be equipped with either key or card access and an intercom system for guests.
11. Each building within a student housing complex shall be locked, and equipped with either key or card access and an intercom system for guests.
12. A professional, non-student resident manager shall live within each project. In addition, a resident student manager, working a minimum of 16 hours a week, shall be provided for each floor of each building.
13. Management and security plans shall be submitted for review and approval by the Community Development Department and Police Department.
14. Each lease shall be for a minimum of one academic year. Short-term tenancy during the summer months may be permitted, with the approval of a Temporary Use Permit. No month-to-month tenancy or sub-leasing of individual rooms shall be permitted.
15. The applicant shall enter into and continuously maintain an affiliation agreement with California State University San Bernardino (“CSUSB”) and shall provide the City with a copy of such affiliation agreement prior to the approval of any building or grading permit for the project. The affiliation agreement shall include, but not be limited to, the following:
 - a. Require that the project conform to CSUSB on-campus housing policies. Require that all tenant leases incorporate CSUSB on-campus housing policies.

- b. Require that the design, engineering and construction of the project be approved by CSUSB.
- c. Grant CSUSB an option to purchase and a right of first of to purchase the property and the project at fair market value with a guaranteed minimum and maximum price.
- d. If a court finds that the project cannot limit the residents to students of CSUSB, then CSUSB shall have an immediate right to purchase the property at fair market value and, if it elects not to so purchase, then CSUSB shall have the immediate right to lease the property at fair market value so that the property will be part of the CSUSB campus and therefore occupancy can be limited to students. If CSUSB does not exercise either right on the property, then the property and project must continue to conform to all requirements in this Development Code and in the affiliation agreement except the requirement that the project limit residents to students of CSUSB.
- e. If the affiliation agreement is terminated either mutually by the parties, or unilaterally by the property/project owner, then CSUSB shall have an immediate right to purchase the property at fair market value and, if it elects not to so purchase, then CSUSB shall have an immediate right to lease the property at fair market value so that the property will be part of the CSUSB campus and therefore occupancy can be limited to students. If CSUSB does not exercise either right on the property, then the property must convert to a use consistent with the underlying General Plan Land Use District.
- f. Require that any successor in interest to the property and project, prior to the conveyance of title, enter into an affiliation agreement with CSUSB, the contents of which shall conform to the requirements of this section.

(Ord. MC-1132, 11-20-02)

- 16. Townhome Student Housing complexes are only permitted in the Residential Student Housing District on lots within 500 feet of California State University, San Bernardino, and only the 10.16 acres on the west side of Northpark Boulevard, north of University Parkway in Tract 17703-2 Lot 1 and Tract 17703-3 Lots 1, 2 and 3.
 - (a) Whenever the requirements of this Section 19.04.030(2)(V)(16) conflicts with the underlying base zone, specific plan, or other requirements of the Development Code, the requirements of this Section 19.04.030(2)(V)(16) shall govern.

[Return to Municipal Code Contents]

- (b) Townhome Student Housing complexes are only permitted in the Residential Student Housing District on lots within 500 feet of California State University, San Bernardino, and on only the 10.16 acres on the west side of Northpark Boulevard, north of University Parkway.
- (c) The requirements specified above in Section 19.04.030(2)(V) (2),(3),(5),(6) and(13) shall apply to a Townhome Student Housing complex.
- (d) The maximum density of a townhome student housing complex is 80 beds per acre.
- (e) The minimum townhome unit size shall be as follows:

a.	1-bedroom	600 square feet
b.	2-bedroom	800 square feet
c.	3-bedroom	1,000 square feet
d.	4-bedroom	1,200 square feet
e.	5-bedroom	1,400 square feet
f.	6-bedroom	1,600 square feet
- (f) A minimum of 5 percent of the bedrooms in the student housing project shall be designed as bedroom studios that meet Americans with Disabilities Act(ADA) standards, including a private bathroom and facilities for preparation of food (including storage, refrigeration and cooking).
- (g) Townhome Student Housing complexes are not required to provide a balcony or patio for each bedroom and/or each unit provided the site of the student housing project is within 1,000 feet of a public park and the student housing project provides indoor and outdoor living space for passive and active recreational uses equivalent to a minimum of 15 percent of the gross floor area of dwellings in the project.
- (h) Student housing complexes shall provide indoor and outdoor recreational amenities within the site which may include: a swimming pool; spa; clubhouse; picnic shelter and barbeque area; court game facilities such as tennis, basketball, volleyball or racquetball; improved softball

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

or baseball fields; patios and balconies, or such other similar facilities. Each student housing complex shall have a minimum of one swimming pool and Jacuzzi. The amenities shall be equivalent to a minimum of 25 square feet per bedroom.

- (i) Student housing shall provide off street parking to conform to the requirements specified in the Development Code for townhomes and the TD (Transit District Overlay) District.
- (j) Common laundry facilities with a minimum of one full size washer and one full size dryer and consistent with the City's Building Code shall be provided in each townhome.
- (k) Each townhome shall be lockable and equipped with either key or card access. Each bedroom shall be lockable and equipped with either key or card access.
- (l) A professional, non-student resident manager shall live within each project. In addition, a resident student manager, working a minimum of 16 hours a week, shall be provided at a ratio of one per 100 beds.
- (m) The residents of the townhomes and bedrooms shall be limited to students enrolled at California State University San Bernardino (including students graduating during their lease terms and continuing occupancy until the end of their lease terms), faculty and staff at California State University San Bernardino, and on-site managers living in the student housing complex; persons affiliated with the California University system; and visiting faculty and staff from other colleges and universities, and students enrolled at other colleges and universities; and tenants who do not qualify under the standards in this section may be approved in writing by California State University San Bernardino.
- (n) Fraternities and sororities are permitted uses in townhome student housing complexes.
- (o) The height of buildings shall not exceed the height standards of the underlying zoning district.

Ord. MC-1406, 7-21-14

W. URBAN LOT SPLITS

1. Purpose. The purpose of this subpart (W) is to allow and appropriately regulate urban lot splits in accordance with Government Code Section 66411.7.

[Return to Municipal Code Contents]

2. Definition. An “urban lot split” means the subdivision of an existing, legally subdivided lot into two lots in accordance with the requirements of this section.
3. Application.
 - a. Only individual property owners may apply for an urban lot split. “Individual property owner” means a natural person holding fee title individually or jointly in the person’s own name or a beneficiary of a trust that holds fee title. “Individual property owner” does not include any corporation or corporate person of any kind (partnership, LP, LLC, C corp, S corp, etc.) except for a community land trust (as defined by Rev. & Tax Code §402.1(a)(11)(C)(ii)) or a qualified nonprofit corporation (as defined by §214.15).
 - b. An application for an urban lot split must be submitted on the City’s approved form. Only a complete application will be considered. The City will inform the applicant in writing of any incompleteness within 30 days after the application is submitted.
 - c. The City may establish a fee to recover its costs for adopting, implementing, and enforcing this section of the code, in accordance with applicable law. The Mayor and City Council may establish and change the fee by resolution. The fee must be paid with the application.
4. Approval.
 - a. An application for a parcel map for an urban lot split is approved or denied ministerially, by the Community and Economic Development Director, or his or her designee, without discretionary review.
 - b. A tentative parcel map for an urban lot split is approved ministerially if it complies with all the requirements of this section. The tentative parcel map may not be recorded. A final parcel map is approved ministerially as well, but not until the owner demonstrates that the required documents have been recorded, such as the deed restriction and easements. The tentative parcel map expires three months after approval.
 - c. The approval must require the owner and applicant to hold the City harmless from all claims and damages related to the approval and its subject matter.
 - d. The approval must require the owner and applicant to reimburse the City for all costs of enforcement, including attorneys’ fees and costs associated with enforcing the requirements of this Code.

[\[Return to Municipal Code Contents\]](#)

5. Requirements. An urban lot split must satisfy each of the following requirements:
 - a. Map Act Compliance.
 - i. The urban lot split must conform to all applicable objective requirements of the Subdivision Map Act (Gov. Code §66410 et. seq., “SMA”), including implementing requirements in this Code, except as otherwise expressly provided in this section.
 - ii. If an urban lot split violates any part of the SMA, the City’s subdivision regulations, including this subpart (W), or any other legal requirement:
 - a) The buyer or grantee of a lot that is created by the urban lot split has all the remedies available under the SMA, including but not limited to an action for damages or to void the deed, sale, or contract.
 - b) The City has all the remedies available to it under the SMA, including but not limited to the following:
 - (I) An action to enjoin any attempt to sell, lease, or finance the property.
 - (II) An action for other legal, equitable, or summary remedy, such as declaratory and injunctive relief.
 - (III) Criminal prosecution, punishable by imprisonment in county jail or state prison for up to one year, by a fine of up to \$10,000, or both; or a misdemeanor.
 - (IV) Record a notice of violation.
 - (V) Withhold any or all future permits and approvals.
 - iii. Notwithstanding Section 66411.1 of the SMA, no dedication of rights-of-way or construction of offsite improvements is required for an urban lot split.
 - b. Zone. The lot to be split is in a single-family residential zone. For purposes of this subpart (W), a single-family residential zone is a zone where the only residential use that is allowed as a primary use is a single

residential dwelling on a lot and only includes the Residential Estate (RE), Residential Low (RL) and Residential Suburban (RS) zones.

c. Lot Location.

- i. The lot to be split is not located on a site that is any of the following:
 - a) Prime farmland, farmland of statewide importance, or land that is zoned or designated for agricultural protection or preservation by the voters.
 - b) A wetland.
 - c) Within a very high fire hazard severity zone, unless the site complies with all fire-hazard mitigation measures required by existing building standards.
 - d) A hazardous waste site that has not been cleared for residential use.
 - e) Within a delineated earthquake fault zone, unless all development on the site complies with applicable seismic protection building code standards.
 - f) Within a 100-year flood hazard area, unless the site has either:
 - (I) been subject to a Letter of Map Revision prepared by the Federal Emergency Management Agency and issued to the local jurisdiction, or
 - (II) meets Federal Emergency Management Agency requirements necessary to meet minimum flood plain management criteria of the National Flood Insurance Program.
 - g) Within a regulatory floodway, unless all development on the site has received a no-rise certification.
 - h) Land identified for conservation in an adopted natural community conservation plan, habitat conservation plan, or other adopted natural resource protection plan.

- i) Habitat for protected species.
 - j) Land under conservation easement.
- ii. The purpose of subpart (W)(e)(3)(A) above is merely to summarize the requirements of Government Code Section 65913.4(a)(6)(B)–(K). (See Gov. Code §66411.7(a)(3)(C).)
- d. Not Historic. The lot to be split must not be a historic property or within a historic district that is included on the State Historic Resources Inventory. Nor may the lot be or be within a site that is designated by ordinance as a City or County landmark or as a historic property or district.
- e. No Prior Urban Lot Split.
 - i. The lot to be split was not established through a prior urban lot split.
 - ii. The lot to be split is not adjacent to any lot that was established through a prior urban lot split by the owner of the lot to be split or by any person acting in concert with the owner.
- f. No Impact on Protected Housing. The urban lot split must not require or include the demolition or alteration of any of the following types of housing:
 - i. Housing that is income-restricted for households of moderate, low, or very low income.
 - ii. Housing that is subject to any form of rent or price control through a public entity’s valid exercise of its policy power.
 - iii. Housing, or a lot that used to have housing, that has been withdrawn from rental or lease under the Ellis Act (Gov. Code §§7060–7060.7) at any time in the 15 years prior to submission of the urban lot split application.
 - iv. Housing that has been occupied by a tenant in the last three years. The applicant and the owner of a property for which an urban lot split is sought must provide a sworn statement as to this fact with the application for the parcel map. The City may conduct its own inquiries and investigation to ascertain the veracity of the sworn statement, including but not limited to, surveying owners of nearby

properties; and the City may require additional evidence of the applicant and owner as necessary to determine compliance with this requirement.

g. Lot Size.

- i. The lot to be split must be at least 2,400 square feet.
- ii. The resulting lots must each be at least 1,200 square feet.
- iii. Each of the resulting lots must be between 60 percent and 40 percent of the original lot area.

h. Easements.

- i. The owner must enter into an easement agreement with each public-service provider to establish easements that are sufficient for the provision of public services and facilities to each of the resulting lots.
- ii. Each easement must be shown on the tentative parcel map.
- iii. Copies of the unrecorded easement agreements must be submitted with the application. The easement agreements must be recorded against the property before the final map may be approved, in accordance with subpart (W)(d)(2) above.

i. Lot Access.

- i. Each resulting lot must adjoin the public right of way.
- ii. Each resulting lot must have frontage on the public right of way of at least 12.5 feet.

j. Unit Standards.

- i. Quantity. No more than two dwelling units of any kind may be built on a lot that results from an urban lot split. For purposes of this paragraph, "unit" means any dwelling unit, including, but not limited to, a primary dwelling unit, a unit created under Subpart (X) of this Code, an ADU, or a JADU

- ii. Unit Size.
 - a) The total floor area of each primary dwelling that is developed on a resulting lot must be
 - (I) less than or equal to 800 and
 - (II) more than 500 square feet.
 - b) A primary dwelling that was legally established prior to the urban lot split and that is larger than 800 square feet is limited to the lawful floor area at the time of the urban lot split. It may not be expanded.
 - c) A primary dwelling that was legally established prior to the urban lot split and that is smaller than 800 square feet may be expanded to 800 square feet after the urban lot split.
- iii. Height Restrictions.
 - a) On a resulting lot that is larger than 2,000 square feet, no new primary dwelling unit may exceed a single story or 16 feet in height, measured from grade to peak of the structure.
 - b) On a resulting lot that is smaller than 2,000 square feet, no new primary dwelling unit may exceed two stories or 22 feet in height, measured from grade to peak of the structure. Any portion of a new primary dwelling that exceeds one story must be stepped back by an additional five feet from the ground floor; no balcony deck or other portion of the second story may project into the setback.
 - c) No rooftop deck is permitted on any new or remodeled dwelling or structure on a lot resulting from an urban lot split.
- iv. Lot Coverage. This lot coverage standard is only enforced to the extent that it does not prevent two primary dwelling units on the lot at 800 square feet each.
- v. Open Space. This open space standard is only enforced to the extent that it does not prevent two primary dwelling units on the lot at 800 square feet each.

- vi. Setbacks.
 - a) Generally. All setbacks must conform to those objective setbacks that are imposed through the underlying zone.
 - b) Exceptions. Notwithstanding subpart (W)(e)(10)(F) above:
 - (I) Existing Structures. No setback is required for an existing legally established structure or for a new structure that is constructed in the same location and to the same dimensions as an existing legally established structure.
 - (II) 800 square feet; four-foot side and rear. The setbacks imposed by the underlying zone must yield to the degree necessary to avoid physically precluding the construction of up to two units on the lot or either of the two units from being at least 800 square feet in floor area; but in no event may any structure be less than four feet from a side or rear property line.
 - c) Front Setback Area. Notwithstanding any other part of this Code, dwellings that are constructed after an urban lot split must be at least 20 feet from the front property lines. The front setback area must:
 - (I) be kept free from all structures greater than three feet high;
 - (II) be at least 50 percent landscaped with drought-tolerant plants, with vegetation and irrigation plans;
 - (III) allow for vehicular and fire-safety access to the front structure.
- vii. Parking. Each new primary dwelling unit that is built on a lot after an urban lot split must have at least one off-street parking space per unit unless one of the following applies:
 - a) The lot is located within one-half mile walking distance of either
 - (I) a corridor with fixed route bus service with service intervals no longer than 15 minutes during peak commute hours or

(II) a site that contains

- (ia) an existing rail or bus rapid transit station,
- (ib) a ferry terminal served by either a bus or rail transit service, or
- (ic) the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods.

b) The site is located within one block of a car-share vehicle location.

viii. Architecture.

- a) If there is a legal primary dwelling on the lot that was established before the urban lot split, any new primary dwelling unit must match the existing primary dwelling unit in exterior materials, color, and dominant roof pitch. The dominant roof slope is the slope shared by the largest portion of the roof.
- b) If there is no legal primary dwelling on the lot before the urban lot split, and if two primary dwellings are developed on the lot, the dwellings must match each other in exterior materials, color, and dominant roof pitch. The dominant roof slope is the slope shared by the largest portion of the roof.
- c) All exterior lighting must be limited to down-lights.
- d) No window or door of a dwelling that is constructed on the lot after the urban lot split may have a direct line of sight to an adjoining residential property. Fencing, landscaping, or privacy glass may be used to provide screening and prevent a direct line of sight.
- e) If a dwelling is constructed on a lot after an urban lot split and any portion of the dwelling is less than 30 feet from a property line that is not a public right-of-way line, then all windows and doors in that portion must either be (for windows) clerestory with the bottom of the glass at least six feet above the finished floor, or (for windows and for doors) utilize frosted or obscure glass.

[Return to Municipal Code Contents]

- ix. Landscaping. Evergreen landscape screening must be planted and maintained between each dwelling and adjacent lots (but not rights of way) as follows:
 - a) At least one 15-gallon size plant shall be provided for every five linear feet of exterior wall. Alternatively, at least one 24" box size plant shall be provided for every ten linear feet of exterior wall.
 - b) Plant specimens must be at least six feet tall when installed. As an alternative, a solid fence of at least 6 feet in height may be installed.
 - c) All landscaping must be drought-tolerant.
 - x. Nonconforming Conditions. An urban lot split may be approved without requiring a legal nonconforming zoning condition to be corrected.
 - xi. Utilities.
 - a) Each primary dwelling unit on the resulting lots must have its own direct utility connection to the utility service provider.
 - b) Each primary dwelling unit on the resulting lots that is or that is proposed to be connected to an onsite wastewater treatment system must first have a percolation test completed within the last five years or, if the percolation test has been recertified, within the last 10 years.
 - xii. Building & Safety. All structures built on the lot must comply with all current local building standards. An urban lot split is a change of use.
- k. Fire-Hazard Mitigation Measures.
- i. A lot in a very high fire hazard severity zone must comply with each of the following fire-hazard mitigation measures:
 - a) It must have direct access to a public right of way with a paved street with a width of at least 40 feet. The public right of way must have at least two independent points of access for fire and life safety to access and for residents to evacuate.

[Return to Municipal Code Contents]

- b) All dwellings on the site must comply with current fire code requirements for dwellings in a very high fire hazard severity zone.
 - c) All enclosed structures on the site must have fire sprinklers.
 - d) All sides of all dwellings on the site must be within a 150-foot hose-pull distance from either the public right of way or of an onsite fire hydrant or standpipe.
 - e) If the lot does not have a swimming pool, the lot must have a water reservoir of at least 5,000 gallons per dwelling, with fire-authority approved hookups compatible with fire-authority standard pump and hose equipment.
- ii. Prior to submitting an application for an urban lot split, the applicant must obtain a certificate of compliance with all applicable fire-hazard mitigation measures in accordance with this subpart (W) (e)(11). The City or its authorized agent must inspect the site, including all structures on the site, and certify as to its compliance. The certificate must be included with the application. The applicant must pay the City's costs for inspection. Failure to pay is grounds for denying the application.

I. Separate Conveyance.

- i. Within a resulting lot.
 - a) Primary dwelling units on a lot that is created by an urban lot split may not be owned or conveyed separately from each other.
 - b) Condominium airspace divisions and common interest developments are not permitted on a lot that is created by an urban lot split.
 - c) All fee interest in a lot and all dwellings on the lot must be held equally and undivided by all individual property owners.
- ii. Between resulting lots. Separate conveyance of the resulting lots is permitted. If dwellings or other structures (such as garages) on different lots are adjacent or attached to each other, the urban lot split boundary may separate them for conveyance purposes if the structures meet building code safety standards and are sufficient

[Return to Municipal Code Contents]

to allow separate conveyance. If any attached structures span or will span the new lot line, the owner must record appropriate Covenants, Conditions & Restrictions (CC&Rs), easements, or other documentation that is necessary to allocate rights and responsibility between the owners of the two lots.

m. Regulation of Uses.

- i. Residential-only. No non-residential use is permitted on any lot created by urban lot split.
- ii. No Short Term Rentals. No dwelling unit on a lot that is created by an urban lot split may be rented for a period of less than 30 days.
- iii. Owner Occupancy. The applicant for an urban lot split must sign an affidavit stating that the applicant intends to occupy one of the dwelling units on one of the resulting lots as the applicant's principal residence for a minimum of three years after the urban lot split is approved.

n. Notice of Construction.

- i. At least 30 business days before starting any construction of a structure on a lot created by an urban lot split, the property owner must give written notice to all the owners of record of each of the adjacent residential parcels, which notice must include the following information:
 - a) Notice that construction has been authorized,
 - b) The anticipated start and end dates for construction,
 - c) The hours of construction,
 - d) Contact information for the project manager (for construction-related complaints), and
 - e) Contact information for the Building & Safety Division.
- ii. This notice requirement does not confer a right on the noticed persons or on anyone else to comment on the project before permits are issued. Approval is ministerial. Under state law,

the City has no discretion in approving or denying a particular project under this section. This notice requirement is purely to promote neighborhood awareness and expectation.

- o. Deed Restriction. The owner must record a deed restriction, acceptable to the city, that does each of the following:
 - i. Expressly prohibits any rental of any dwelling on the property for a period of less than 30 days.
 - ii. Expressly prohibits any non-residential use of the lots created by the urban lot split.
 - iii. Expressly prohibits any separate conveyance of a primary dwelling on the property, any separate fee interest, and any common interest development within the lot.
 - iv. States that the property is formed by an urban lot split and is therefore subject to the city's urban lot split regulations, including all applicable limits on dwelling size and development.

6. Specific Adverse Impacts.

- a. Notwithstanding anything else in this subpart (W), the City may deny an application for an urban lot split if the Building Official makes a written finding, based on a preponderance of the evidence, that the project would have a "specific, adverse impact" on either public health and safety or on the physical environment and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact.
- b. "Specific adverse impact" has the same meaning as in Gov. Code §65589.5(d)(2): "a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete" and does not include (1) inconsistency with the zoning ordinance or general plan land use designation or (2) the eligibility to claim a welfare exemption under Revenue and Taxation Code Section 214(g).
- c. The Building Official may consult with and be assisted by planning staff and others as necessary in making a finding of specific, adverse impact.

Ord. MC-1570U, 1-19-22

X. TWO-UNIT PROJECTS

1. Purpose. The purpose of this subpart (X) is to allow and appropriately regulate two-unit projects in accordance with Government Code section 65852.21.
2. Definition. A “two-unit project” means the development of two primary dwelling units or, if there is already a primary dwelling unit on the lot, the development of a second primary dwelling unit on a legally subdivided lot in accordance with the requirements of this section.
3. Application.
 - a. Only individual property owners may apply for a two-unit project. “Individual property owner” means a natural person holding fee title individually or jointly in the person’s own name or a beneficiary of a trust that holds fee title. “Individual property owner” does not include any corporation or corporate person of any kind (partnership, LP, LLC, C corp, S corp, etc.) except for a community land trust (as defined by Rev. & Tax Code § 402.1(a)(11)(C)(ii)) or a qualified nonprofit corporation (as defined by § 214.15).
 - b. An application for a two-unit project must be submitted on the City’s approved form.
 - c. The applicant must obtain a certificate of compliance with the Subdivision Map Act for the lot and provide the certificate with the application.
 - d. Only a complete application will be considered. The City will inform the applicant in writing of any incompleteness within 30 days after the application is submitted.
 - e. The City may establish a fee to recover its costs for adopting, implementing, and enforcing this section of the code, in accordance with applicable law. The Mayor and City Council may establish and change the fee by resolution. The fee must be paid with the application.
4. Approval.
 - a. An application for a two-unit project is approved or denied ministerially, by the Community and Economic Development Director, or his or her designee, without discretionary review.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- b. The ministerial approval of a two-unit project does not take effect until the City has confirmed that the required documents have been recorded, such as the deed restriction and easements.
 - c. The approval must require the owner and applicant to hold the City harmless from all claims and damages related to the approval and its subject matter.
 - d. The approval must require the owner and applicant to reimburse the City for all costs of enforcement, including attorneys' fees and costs associated with enforcing the requirements of this code.
5. Requirements. A two-unit project must satisfy each of the following requirements:
- a. Map Act Compliance. The lot must have been legally subdivided.
 - b. Zone. The lot is in a single-family residential zone. For purposes of this section, a single-family residential zone is a zone where the only residential use that is allowed as a primary use is a single residential dwelling on a lot and only includes the Residential Estate (RE), Residential Low (RL) and Residential Suburban (RS) zones
 - c. Lot Location.
 - i. The lot is not located on a site that is any of the following:
 - a) Prime farmland, farmland of statewide importance, or land that is zoned or designated for agricultural protection or preservation by the voters.
 - b) A wetland.
 - c) Within a very high fire hazard severity zone, unless the site complies with all fire-hazard mitigation measures required by existing building standards.
 - d) A hazardous waste site that has not been cleared for residential use.
 - e) Within a delineated earthquake fault zone, unless all development on the site complies with applicable seismic protection building code standards.

[Return to Municipal Code Contents]

- f) Within a 100-year flood hazard area, unless the site has either:
 - (I) been subject to a Letter of Map Revision prepared by the Federal Emergency Management Agency and issued to the local jurisdiction, or
 - (II) meets Federal Emergency Management Agency requirements necessary to meet minimum flood plain management criteria of the National Flood Insurance Program.
- g) Within a regulatory floodway, unless all development on the site has received a no-rise certification.
- h) Land identified for conservation in an adopted natural community conservation plan, habitat conservation plan, or other adopted natural resource protection plan.
- i) Habitat for protected species.
- j) Land under conservation easement.
- ii. The purpose of subpart (X)(e)(3)(A) above is merely to summarize the requirements of Government Code section 65913.4(a)(6)(B)–(K). (See Gov. Code §66411.7(a)(3)(C).)
- d. Not Historic. The lot must not be a historic property or within a historic district that is included on the State Historic Resources Inventory. Nor may the lot be or be within a site that is designated by ordinance as a City or County landmark or as a historic property or district.
- e. No Impact on Protected Housing. The two-unit project must not require or include the demolition or alteration of any of the following types of housing:
 - i. Housing that is income-restricted for households of moderate, low, or very low income.
 - ii. Housing that is subject to any form of rent or price control through a public entity’s valid exercise of its policy power.
 - iii. Housing, or a lot that used to have housing, that has been withdrawn from rental or lease under the Ellis Act (Gov. Code §§7060–7060.7) at any time in the 15 years prior to submission of the urban lot split application.

[Return to Municipal Code Contents]

- iv. Housing that has been occupied by a tenant in the last three years. The applicant and the owner of a property for which a two-unit project is sought must provide a sworn statement as to this fact with the application for the parcel map. The city may conduct its own inquiries and investigation to ascertain the veracity of the sworn statement, including but not limited to, surveying owners of nearby properties; and the city may require additional evidence of the applicant and owner as necessary to determine compliance with this requirement.

- f. Unit Standards.
 - i. Quantity.
 - a) No more than two dwelling units of any kind may be built on a lot that results from an urban lot split. For purposes of this paragraph, “unit” means any dwelling unit, including, but not limited to, a primary dwelling unit, a unit created under this Subpart (X) of this Code, an ADU, or a JADU.

 - b) A lot that is not created by an urban lot split may have a two-unit project under this subpart (X), plus any ADU or JADU that must be allowed under state law and the City’s ADU ordinance.

 - ii. Unit Size.
 - a) The total floor area of each primary dwelling built that is developed under this section must be
 - (I) less than or equal to 800 and

 - (II) more than 500 square feet.

 - b) A primary dwelling that was legally established on the lot prior to the two-unit project and that is larger than 800 square feet is limited to the lawful floor area at the time of the two-unit project. The unit may not be expanded.

 - c) A primary dwelling that was legally established prior to the two-unit project and that is smaller than 800 square feet may be expanded to 800 square feet after or as part of the two-unit project.

- iii. Height Restrictions.
 - a) On a lot that is larger than 2,000 square feet, no new primary dwelling unit may exceed a single story or 16 feet in height, measured from grade to peak of the structure.
 - b) On a lot that is smaller than 2,000 square feet, no new primary dwelling unit may exceed two stories or 22 feet in height, measured from grade to peak of the structure. Any portion of a new primary dwelling that exceeds one story must be stepped back by an additional five feet from the ground floor; no balcony deck or other portion of the second story may project into the setback.
 - c) No rooftop deck is permitted on any new or remodeled dwelling or structure on a lot with a two-unit project.
- iv. Demo Cap. The two-unit project may not involve the demolition of more than 25 percent of the existing exterior walls of an existing dwelling unless the site has not been occupied by a tenant in the last three years.
- v. Lot Coverage. This lot coverage standard is only enforced to the extent that it does not prevent two primary dwelling units on the lot at 800 square feet each.
- vi. Open Space. This open space standard is only enforced to the extent that it does not prevent two primary dwelling units on the lot at 800 square feet each.
- vii. Setbacks.
 - a) Generally. All setbacks must conform to those objective setbacks that are imposed through the underlying zone.
 - b) Exceptions. Notwithstanding subpart (X)(e)(6)(G) above:
 - (I) Existing Structures. No setback is required for an existing legally established structure or for a new structure that is constructed in the same location and to the same dimensions as an existing legally established structure.

- (II) 800 square feet; four-foot side and rear. The setbacks imposed by the underlying zone must yield to the degree necessary to avoid physically precluding the construction of up to two units on the lot or either of the two units from being at least 800 square feet in floor area; but in no event may any structure be less than four feet from a side or rear property line.
- c) Front Setback Area. Notwithstanding any other part of this code, dwellings that are constructed under this section must be at least 20 feet from the front property lines. The front setback area must:
 - (I) be kept free from all structures greater than three feet high;
 - (II) be at least 50 percent landscaped with drought-tolerant plants, with vegetation and irrigation plans;
 - (III) allow for vehicular and fire-safety access to the front structure.
- viii. Parking. Each new primary dwelling unit must have at least one off-street parking space per unit unless one of the following applies:
 - a) The lot is located within one-half mile walking distance of either
 - (I) a corridor with fixed route bus service with service intervals no longer than 15 minutes during peak commute hours or
 - (II) a site that contains
 - (ia) an existing rail or bus rapid transit station,
 - (ib) a ferry terminal served by either a bus or rail transit service, or
 - (ic) the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods.

- b) The site is located within one block of a car-share vehicle location.
- ix. Architecture.
- a) If there is a legal primary dwelling on the lot that was established before the two-unit project, any new primary dwelling unit must match the existing primary dwelling unit in exterior materials, color, and dominant roof pitch. The dominant roof slope is the slope shared by the largest portion of the roof.
 - b) If there is no legal primary dwelling on the lot before the two-unit project, and if two primary dwellings are developed on the lot, the dwellings must match each other in exterior materials, color, and dominant roof pitch. The dominant roof slope is the slope shared by the largest portion of the roof.
 - c) All exterior lighting must be limited to down-lights.
 - d) No window or door of a dwelling that is constructed on the lot may have a direct line of sight to an adjoining residential property. Fencing, landscaping, or privacy glass may be used to provide screening and prevent a direct line of sight.
 - e) If any portion of a dwelling is less than 30 feet from a property line that is not a public right-of-way line, then all windows and doors in that portion must either be (for windows) clerestory with the bottom of the glass at least six feet above the finished floor, or (for windows and for doors) utilize frosted or obscure glass.
- x. Landscaping. Evergreen landscape screening must be planted and maintained between each dwelling and adjacent lots (but not rights of way) as follows:
- a) At least one 15-gallon size plant shall be provided for every five linear feet of exterior wall. Alternatively, at least one 24" box size plant shall be provided for every ten linear feet of exterior wall.
 - b) Plant specimens must be at least six feet tall when installed. As an alternative, a solid fence of at least 6 feet in height may be installed.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- c) All landscaping must be drought-tolerant.
 - xi. Nonconforming Conditions. A two-unit project may only be approved if all nonconforming zoning conditions are corrected.
 - xii. Utilities.
 - a) Each primary dwelling unit on the lot must have its own direct utility connection to the utility service provider.
 - b) Each primary dwelling unit on the lot that is or that is proposed to be connected to an onsite wastewater treatment system must first have a percolation test completed within the last five years or, if the percolation test has been recertified, within the last 10 years.
 - xiii. Building & Safety. All structures built on the lot must comply with all current local building standards. A project under this section is a change of use and subjects the whole of the lot, and all structures, to the city's current code.
- g. Fire-Hazard Mitigation Measures. A lot in a very high fire hazard severity zone must comply with each of the following fire-hazard mitigation measures:
 - i. It must have direct access to a public right of way with a paved street with a width of at least 40 feet. The public right of way must have at least two independent points of access for fire and life safety to access and for residents to evacuate.
 - ii. All dwellings on the site must comply with current fire code requirements for dwellings in a very high fire hazard severity zone.
 - iii. All enclosed structures on the site must have fire sprinklers.
 - iv. All sides of all dwellings on the site must be within a 150-foot hose-pull distance from either the public right of way or of an onsite fire hydrant or standpipe.
 - v. If the lot does not have a swimming pool, the lot must have a water reservoir of at least 5,000 gallons per dwelling, with fire-authority approved hookups compatible with fire-authority standard pump and hose equipment.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- h. Separate Conveyance.
 - i. Primary dwelling units on the lot may not be owned or conveyed separately from each other.
 - ii. Condominium airspace divisions and common interest developments are not permitted within the lot.
 - iii. All fee interest in the lot and all the dwellings must be held equally and undivided by all individual property owners.
- i. Regulation of Uses.
 - i. Residential-only. No non-residential use is permitted on the lot.
 - ii. No Short Term Rentals. No dwelling unit on the lot may be rented for a period of less than 30 days.
 - iii. Owner Occupancy. Unless the lot was formed by an urban lot split, the individual property owners of a lot with a two-unit project must occupy one of the dwellings on the lot as the owners' principal residence and legal domicile.
- j. Notice of Construction.
 - i. At least 30 business days before starting any construction of a two-unit project, the property owner must give written notice to all the owners of record of each of the adjacent residential parcels, which notice must include the following information:
 - a) Notice that construction has been authorized,
 - b) The anticipated start and end dates for construction,
 - c) The hours of construction,
 - d) Contact information for the project manager (for construction-related complaints), and
 - e) Contact information for the Building & Safety Division.

- ii. This notice requirement does not confer a right on the noticed persons or on anyone else to comment on the project before permits are issued. Approval is ministerial. Under state law, the City has no discretion in approving or denying a particular project under this section. This notice requirement is purely to promote neighborhood awareness and expectation.
- k. Deed Restriction. The owner must record a deed restriction, acceptable to the city, that does each of the following:
 - i. Expressly prohibits any rental of any dwelling on the property for a period of less than 30 days.
 - ii. Expressly prohibits any non-residential use of the lot.
 - iii. Expressly prohibits any separate conveyance of a primary dwelling on the property, any separate fee interest, and any common interest development within the lot.
 - iv. If the lot is not created by an urban lot split: Expressly requires the individual property owners to live in one of the dwelling units on the lot as the owners' primary residence and legal domicile.
 - v. States that the property is formed by an urban lot split and is therefore subject to the city's urban lot split regulations, including all applicable limits on dwelling size and development.

6. Specific Adverse Impacts.

- a. Notwithstanding anything else in this subpart (X), the City may deny an application for a two-unit project if the building official makes a written finding, based on a preponderance of the evidence, that the project would have a "specific, adverse impact" on either public health and safety or on the physical environment and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact.
- b. "Specific adverse impact" has the same meaning as in Gov. Code §65589.5(d)(2): "a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete" and does not include (1) inconsistency with the zoning ordinance or general plan land use designation or (2) the eligibility to claim a welfare exemption under Revenue and Taxation Code section 214(g).

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- c. The Building Official may consult with and be assisted by planning staff and others as necessary in making a finding of specific, adverse impact.
7. Remedies. If a two-unit project violates any part of this code or any other legal requirement:
- a. The buyer, grantee, or lessee of any part of the property has an action for damages or to void the deed, sale, or contract.
 - b. The city may:
 - i. Bring an action to enjoin any attempt to sell, lease, or finance the property.
 - ii. Bring an action for other legal, equitable, or summary remedy, such as declaratory and injunctive relief.
 - iii. Pursue criminal prosecution, punishable by imprisonment in county jail or state prison for up to one year, by a fine of up to \$10,000, or both; or a misdemeanor.
 - iv. Record a notice of violation.
 - v. Withhold any or all future permits and approvals.
 - vi. Pursue all other administrative, legal, or equitable remedies that are allowed by law or the city's code.

Ord. MC-1570U, 1-19-22

19.04.040 APPLICABLE REGULATIONS

All uses shall be subject to the applicable regulations of this Development Code, including, but not limited to, Article IV, Administration provisions.

G19.04.050 RESIDENTIAL DEVELOPMENT DESIGN GUIDELINES

1. PURPOSE

The following design guidelines are intended as a reference to assist the designer in understanding the City's goals and objectives for high quality residential development. The guidelines complement the mandatory site development regulations contained in this chapter by providing good examples of potential design solutions and by providing design interpretations of the various mandatory regulations.

The design guidelines are general and may be interpreted with some flexibility in their application to specific projects. The guidelines will be utilized during the City's design review process to encourage the highest level of design quality while at the same time providing the flexibility necessary to encourage creativity on the part of project designers.

The design guidelines are formatted into two general categories; 1) single-family residential and 2) multi-family residential. Each category is further divided into architectural guidelines and site planning guidelines.

Unless there is a compelling reason, these design guidelines shall be followed. If a guideline is waived by the Development Review Committee, the Mayor and Common Council shall be notified. An appeal, which does not require a fee, may be filed by the Mayor or any Council person within 15 days of the waiver approval.

2. APPLICABILITY

The provisions of this section shall apply to all residential development within the City except for the CR-2 Zone (downtown) where large scale, mid to high rise residential structures may be located. Any addition, remodeling, relocation or construction requiring a building permit subject to review by the Development Review Committee shall adhere to these guidelines where applicable.

3. SINGLE-FAMILY SITE PLANNING

An important goal of the single-family site planning guidelines is to create functional and visual variety along local streets. It is the intent of these guidelines to discourage subdivisions where identical homes march down long, uninterrupted straight streets, with no variation in building placement or the street scene.

[Return to 19.04]

All single-family subdivision plans that apply for alternative lot sizes will be evaluated using the guidelines contained in this section with emphasis on the following criteria:

- A. Proportional mix and placement of lots
- B. Preserving of mature trees and natural features
- C. Placement of dwelling unit on lot
- D. Preserving of views
- E. Provision of amenities (subdivision entrance treatment, landscaping, open space, etc.)
- F. Treatment of drainage courses
- G. Treatment of walls and fences
- H. Other unique amenities

A. VARIED FRONT SETBACKS

Placement of homes and garages close to or back from the street creates different patterns of visible open space. The structures themselves, when close to the street, also add diversity to the view.

B. INTERRUPTION OF STRAIGHT STREETS

On straight roads, knuckles or cul-de-sacs can be introduced to limit the length of straight stretches.

C. VARIED SIDE YARD SETBACKS

Varying the distance between adjoining homes, or between homes and fences, results in different types of yards and private patio areas.

[Return to 19.04]

Varied Front Setbacks

Staggering of setbacks to each entry creates variety and identity.

Interruption of Straight Streets

Varied Side Yard Setbacks

D. ATTACHED DWELLINGS

Attached dwellings can look like two or more separate structures, or can look like one large home, depending on how they are treated. Attached dwellings can yield larger open areas between structures.

E. LOT ORIENTATION

On curves or at corners, lots can often be oriented in a different direction than those at mid-block. In these cases some lots can be non-rectangular and angled on the street.

Structures should be oriented so that a majority of primary living spaces receive direct sunlight for the daylight hours. In new projects, structures should be positioned to minimize the impact of shadows on adjacent properties and within the project.

[Return to 19.04]

F. VARIED LOT WIDTHS

Making some lots wider, and some narrower, than the average can provide different amounts of open area between structures. It also allows placement of different shapes and sizes of homes. On narrow lots, a variation of only 3 or 4 feet can make a perceptible difference.

G. VARIED GARAGE PLACEMENT AND ORIENTATION

When lot size permits, garages can be on the front side of the house and can be entered from the front or side. They can also vary in size. Garages can be detached and connected to the home by breezeways.

H. ZERO LOT LINE HOMES

Zero lot line homes (flush to the side lot line), as allowed in Planned Residential Development, lend themselves well to creation of courts and patios that a traditional center plot may prevent. The two yield different street scenes.

[Return to 19.04]

I. CUL-DE-SAC TREATMENTS

Closed cul-de-sacs are preferable in general. However, for longer cul-de-sacs, openings should be provided at the ends for pedestrians.

J. STRAIGHT AND CURVED STREETS

While straight streets are the most efficient, occasional curves can provide changing street scenes. Curves that seem very slight in a bird's-eye view are readily perceived by the driver and interrupt the line of sight.

K. WALLS

Walls and fences are an integral part of the streetscape.

1. Walls should be of plaster or smooth stucco finish or other approved masonry. They should be designed in a style, materials and color to complement the dwelling units to which they are attached.
2. Other materials may include wrought iron, tile insets or grillwork. The recommended choice for wrought iron is 1 inch pickets, at a maximum of 6 inch on center.
3. Both sides of all perimeter walls or fences should be architecturally treated.

[Return to 19.04]

L. GARAGES

1. Garage door setbacks should allow driveway parking that keeps the sidewalk clear of vehicles.
2. Garages should have a single story mass at the front of the structures to provide an architectural transition in 2 story massing.
3. Angled garages are encouraged to break up the monotony of all garage doors being parallel to the street.

*0-24 ft. Driveway
Cars will park in too short of
a driveway creating a traffic
hazard - pedestrian traffic
is forced out into road.*

*24 ft. Driveway
Adequate space for off-
street parking - pedestrian
lane not severely obstructed.*

*Garage has single story mass.
Upper portion of structure is set back.*

[Return to 19.04]

M. INFILL IN EXISTING NEIGHBORHOODS

To the extent possible, new single-family development in existing neighborhoods should be integrated with the housing units in the adjacent area.

1. Site setbacks of residential projects should be either:
 - a. Equal to the average setback of all residences on both sides of public streets within 100 feet of the property lines of the new project, or;
 - b. Equal to the average of the 2 immediately adjacent residences.

In cases where averaging between 2 adjacent existing residences is chosen, the new residence may be averaged in a stepping pattern between the setbacks of adjacent residences, or the new residence's entire frontage may be built on the average setback line.

Stepped setbacks to match adjacent buildings.

Average of setbacks on both sides of street.

Average of setbacks of adjacent buildings.

2. New development in existing neighborhoods should incorporate distinctive architectural characteristics of surrounding development, for example: window and door detailing, decoration, materials, roof style and pitch, finished-floor height, porches, bay windows, and the like.

3. New development should continue the functional, on-site relationships of the surrounding neighborhood. For example, in many older neighborhoods common patterns that should be continued are entries facing the street, front porches, and parking at the rear.

N. GRADING

Development should relate to the natural surroundings and minimize grading by following the natural contours as much as possible. Graded slopes should be rounded and contoured to blend with the existing terrain. Significant natural vegetation should be retained and incorporated into the project whenever possible. Contact the City's Parks, Recreation and Community Services Department regarding requirements for a certified arborist report concerning existing vegetation.

[Return to 19.04]

4. SINGLE-FAMILY ARCHITECTURE

There is no particular architectural "style" required for residential structures but the focus should be on the development of a high quality residential environment. In general, the architecture should consider compatibility with surrounding character, including harmonious building style, form, size, color, material, and roofline. Individual dwelling units should be distinguishable from one another.

A. FACADE AND ROOF ARTICULATION

The articulation of facades and the massing of structures give them richness and scale. Long uninterrupted exterior walls should be avoided on all structures. All structure walls should have "relief" to create an interesting blend with landscaping, structures, and the casting of shadows. The integration of varied texture, relief, and design accents on building walls can soften the architecture.

For sloped roofs, both vertical and horizontal articulation is encouraged. Roof lines should be representative of the design and scale of the units under them. Roof articulation may be achieved by changes in plane of no less than 2 feet 6 inches and/or the use of traditional roof forms such as gables, hips, and dormers. Flat roofs and A-frame type roofs are discouraged unless appropriate to the architectural style.

[Return to 19.04]

B. VARIED STRUCTURE DESIGN

Design of structures should be varied in tract developments to create variety and interest. A significant difference in the massing and composition (not just finish materials) of each adjacent house should be accomplished. One design should not be repeated more frequently than each fourth house.

C. ATTACHED DWELLINGS

1. Single-family attached dwellings should be architecturally articulated to project an image of customized homes. Preferred configurations include architectural treatment either as apparently large single-family units or as traditional rowhouses.

Three attached units appear as one large custom home.

2. Walls or other features should be used to lengthen the horizontal elements of elevations and reduce the visual impact of garage doors.
3. Driveways should be grouped with a separating planting strip to provide maximum effective turf areas.
4. Garages should have a single-story appearance at the front of the building to allow a stepped-back architectural transition for two-story structures. Garages must be set back from the street sufficiently to allow driveway parking without overhanging the sidewalk.

D. SCALE

Form and scale should relate to the use of the structure as a single-family residence. Also, the scale of structures should be within a human scale so as not to overwhelm or dominate its surroundings.

[Return to 19.04]

E. MATERIALS

The choice and mix of materials on the facades of structures and garage doors is important in providing an attractive living environment. Materials should be consistently applied and should be chosen to work harmoniously with adjacent materials. Piecemeal embellishment and frequent changes in materials should be avoided. All structure elevations should be architecturally treated.

Materials tend to appear substantial and integral when material changes occur at changes in plane. Material or color changes at the outside corners of structures give an impression of thinness and artificiality which should be avoided. Material changes not accompanied by changes in plane also frequently give material an insubstantial or applied quality.

Materials to be avoided include: metal or aluminum siding and roofs, reflective materials and finishes, and unfinished concrete block.

*Change in plane with
change in material
Recommended*

*Material or color change
at outside corner
Not recommended*

*Change of materials on same
plane Not Recommended*

F. VENTS AND DOWNSPOUTS

Roof flashing, rain gutters, and downspouts, vents, and other roof protrusions should be finished to match the adjacent materials and/or colors.

G. EQUIPMENT SCREENING

Any equipment, whether on the roof, side of structure, or ground, must be screened. The method of screening must be architecturally compatible in terms of materials, color, shape, and size. The screening design should blend with the building design. Where individual equipment is provided, a continuous screen is desirable.

[Return to 19.04]

H. ANCILLARY STRUCTURES

The design of ancillary structures (guesthouses, cabanas, barns, storage sheds, etc.) should be architecturally compatible with the main structure through the use of walls/roofs/trellises, fence/wall connections, and/or landscaping.

I. GARAGE DOORS

Garage doors should appear to be set into the walls rather than flush with the exterior wall. Garage door design should be kept simple, clean, and unadorned. They are a major visual element of a home.

Plywood is acceptable when three or more panels are used or when joints are sealed with trim. A variety of compatible designs should be used throughout a project to ensure variety. The design of the garage door should relate to the particular architectural style selected.

Garage door wood trim

[Return to 19.04]

5. MULTI-FAMILY SITE PLANNING

Multi-family and cluster housing because of their higher densities, tend to generate large parking areas and a decrease in private open space. If not properly designed, parking facilities can dominate the site and open spaces may be relegated to left over areas, not related to the structures or the people who live there. Residential developments surrounded by high walls, parking lots, and rows of carports along public streets are examples of practices to be avoided. Perimeter parking drives are discouraged because parking areas provide a poor image of a project and often function as barriers between the project and the surrounding community. The guidelines that follow are intended to help mitigate the effects of these situations and to provide a pleasant residential environment within the context of higher density development.

A. BUILDING ARTICULATION

Long, unbroken facades and box-like forms should be avoided. Building facades should be broken up to give the appearance of a collection of smaller structures. To the extent possible, each of the units should be individually recognizable. This can be accomplished with the use of balconies, setbacks and projections which help articulate individual dwelling units or collections of units, and by the pattern and rhythm of windows and doors.

B. CLUSTERING OF UNITS

Clustering of multi-family units should be a consistent site planning element. Structures composed of a series of simple yet varied planes assure compatibility and variety in overall building form.

Articulated facade gives appearance of a collection of smaller structures

[Return to 19.04]

The following design techniques should be considered and implemented whenever possible:

1. Varying front setbacks within same structure.
2. Staggered and jogged unit planes.
3. Use of reverse building plans to add variety.
4. Maximum of 2 adjacent units with identical wall and rooflines.
5. Variety of orientations to avoid the monotony of garage door corridors.

C. PROJECT ENTRIES

Project entry areas provide the resident and visitor with an overview to the project. They should provide an open window with landscaping, recreational facilities, and project directories. Special attention should be given to hardscape and landscape treatments to enhance the overall project image.

D. ENTRY DRIVES

The principal vehicular access into a multi-family housing project should be through an entry drive rather than a parking drive. Colored, textured paving treatment at entry drives is encouraged, however, stamped concrete is not permitted within public street right-of-ways.

E. ON-SITE PARKING AND DRIVES

1. In higher-density projects, there are three means of accommodating parking: parking drives, parking courts, and garages within residential buildings. Projects with either long, monotonous parking drives or large, undivided parking lots are not desired. When cost considerations preclude parking within residential structures, dispersed parking courts are the desired alternative.
2. Parking drives, when located on the periphery of a project, isolate the development from its surroundings. Unless the new and existing adjacent uses are considered incompatible, the extent of perimeter parking drives should be minimized.
3. Parking areas should be visible from the residential units which use them.

[Return to 19.04]

F. PARKING COURTS

1. A parking court of any length should not consist of more than two double-loaded parking aisles (bays) adjacent to each other.
2. The length of a parking court should not exceed 14 stalls.
3. Parking courts should be separated from each other by dwelling units or by a landscaped buffer not less than 30 feet wide.

G. PARKING DRIVES

1. There should be no more than an average of 10 spaces of uninterrupted parking, whether in garages, carports, or open parking areas.
2. Each average of 10 spaces of parking should be separated from additional spaces by a landscaped bulb not less than 12 feet wide. Architectural elements, such as trellises, porches, or stairways, may extend into these landscaped bulbs.

[Return to 19.04]

H. GARAGES

1. Individual parking garages within residential structures should be enclosed behind garage doors.
2. Garages with parking aprons less than 20 feet in length should have automatic garage door openers and/or sectional roll-up doors.

I. CARPORTS

Where carports are utilized, they must follow the same criteria for spatial arrangement as parking courts (#F above). Carports may be incorporated with patio walls or used to define public and private open space, but incorporating carports into exterior project walls adjacent to streets is strongly discouraged. The ends of each cluster of carports should be landscaped.

J. PEDESTRIAN ACCESS FROM PARKING

Landscape bulbs should, wherever possible, align with major building entrances to provide pedestrian access to the building entrance from a parking court or drive. Bulbs that align with entrances should be at least 2 car spaces wide and should include a pathway as well as a vertical landscape or architectural element, for example, a trellis or a tree.

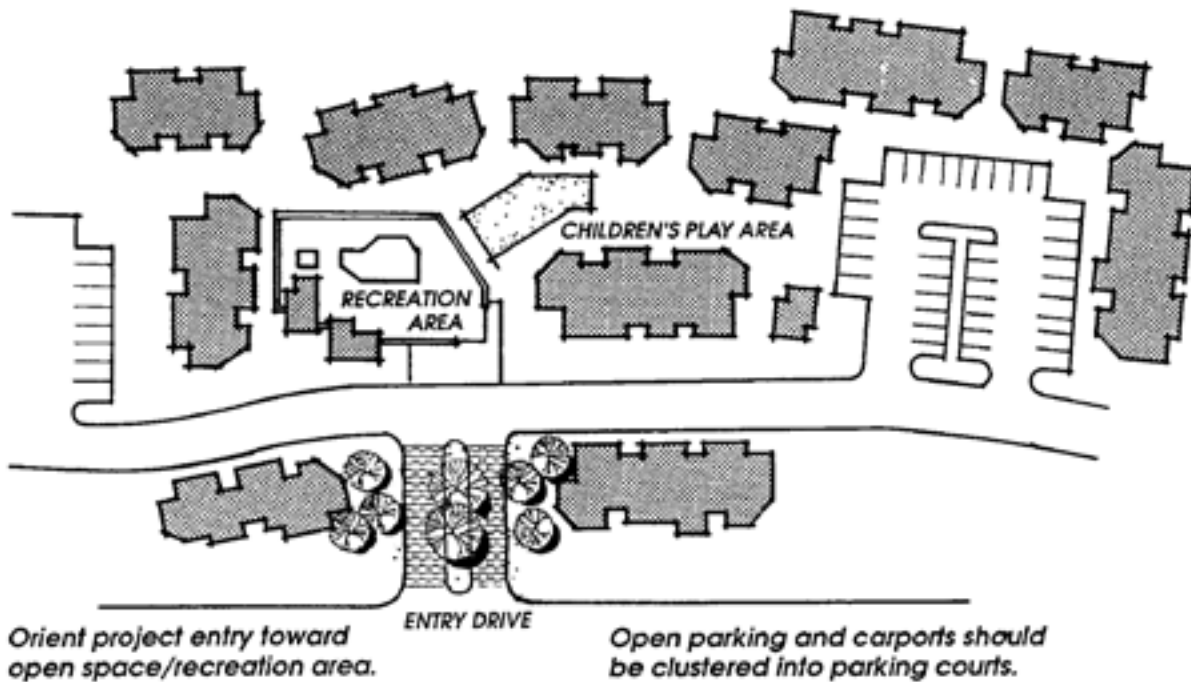

[Return to 19.04]

K. OPEN SPACE

Residents of housing projects should have safe and efficient access to useable open space, whether public or private, for recreation and social activities. The design and orientation of these areas should take advantage of available sunlight and should be sheltered from the noise and traffic of adjacent streets or other incompatible uses.

Required common open spaces should be conveniently located for the majority of units. Private open spaces should be contiguous to the units they serve and screened from public view. Projects should have secure open spaces and children's play areas that are visible from the units.

L. PLANTED AREAS

All areas not covered by structured drives, parking or hardscape should be appropriately landscaped.

Landscaping is used to frame, soften, and embellish the quality of environment, to buffer units from noise or undesirable views, to break up large expanses of parking, and to separate frontage roads within a project from public streets. To accomplish these design objectives, landscape elements need vertical dimension. Trees and tall shrubs are needed in addition to grass and groundcover. Trees can also be used to provide shading and climatic cooling of nearby units.

M. REFUSE STORAGE/DISPOSAL

Trash bins must be fully enclosed in accordance with City of San Bernardino Public Works Department Standards. Said enclosures should be softened with landscaping on their most visible sides whenever possible. Recommended locations include inside parking courts or at the end of parking bays. Locations should be conveniently accessible for trash collection and maintenance and should not block access drives during loading operations.

[Return to 19.04]

N. SUPPORT FACILITIES

Any support structures within multi-family residential projects such as laundry facilities, recreation buildings and sales/lease offices should be consistent in architectural design and form with the rest of the complex. Temporary sales offices should also be compatible with these guidelines.

O. MAILBOXES

Where common mailbox services are provided, they should be located close to the project entry, near recreational facilities. The architectural character should be similar in form, materials, and colors to the surrounding buildings. Mailbox locations must be approved by the U.S. Postal Service.

P. SITE GRADING

Site grading should recognize existing drainage patterns, and landforms while providing appropriate transition of architectural elements to grade. Site grading should also provide for an uninterrupted flow of vehicular and pedestrian traffic through the development. The plan should direct and provide adequate flow of surface run-off to catch basins while gracefully contouring the land to blend with existing conditions at the boundaries of the site.

Street drainage should be collected in curb gutters. The use of center-swale drainage devices is strongly discouraged. Parking lots may drain to a single concrete swale at the edge of the aisle.

Q. SECURITY

Multi-family should be designed to provide the maximum amount of security for residents and visitors. Parking areas should be well lit and located so as to be visible from residential units. Landscaping should be planned and maintained to provide views into open space areas.

[Return to 19.04]

6. MULTI-FAMILY ARCHITECTURE

There is no particular architecture "style" proposed for multi-family residential structures. The primary focus should be on constructing a high quality residential environment. The criteria presented here strive for this "quality" through descriptions and examples of appropriate building materials and architectural expression. In general, the design of multi-family developments should consider compatibility with the surrounding neighborhood. Often, such projects are developed adjacent to single family neighborhoods and measures should be taken to ensure that the height and bulk of higher density projects do not impact these lower density residential areas.

Many of the same architectural principles and techniques discussed under the single family category of these guidelines are also applicable to multi-family projects and these should be reviewed by the designer in conjunction with the following:

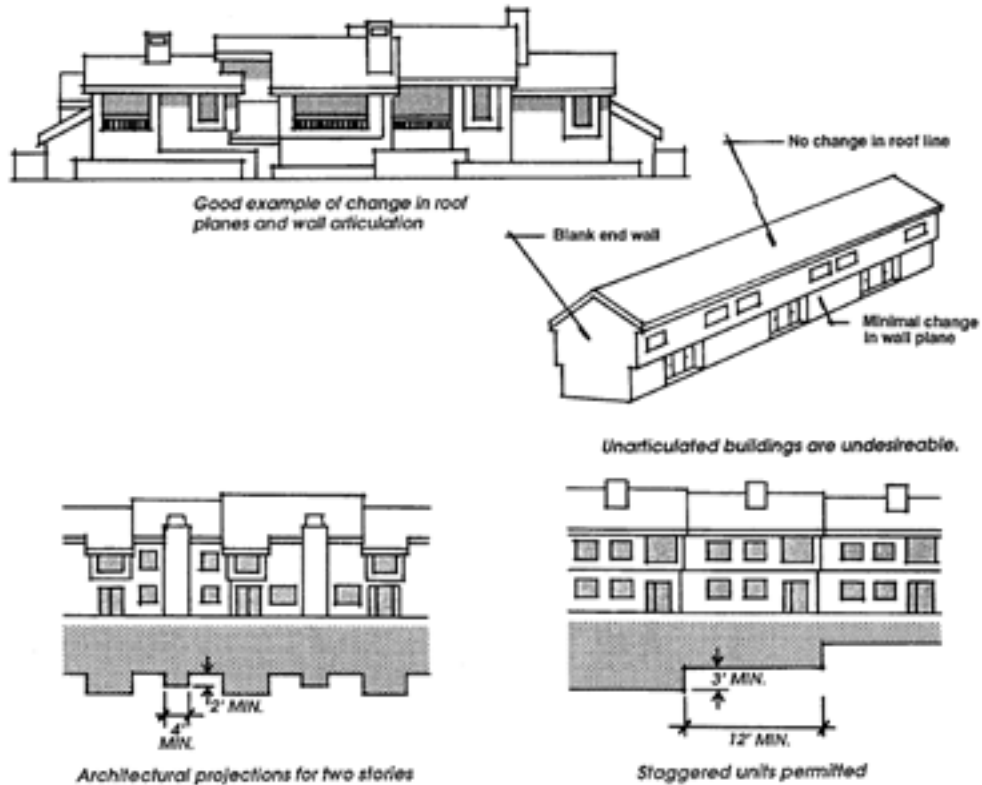

A. FACADE AND ROOF ARTICULATION

Separations, changes in plane and height, and the inclusion of elements such as balconies, porches, arcades, dormers, and cross gables mitigate the barracks-like quality of flat walls and roofs of excessive length. Secondary hipped or gabled roofs covering the entire mass of a building are preferable to mansard roofs or segments of pitched roof applied at the structure's edge. Extremely long structures, if they are appropriately articulated, may be acceptable; however, structures (including garages and carports) exceeding 150 feet in length are generally discouraged.

Structures containing three or more attached dwellings in a row should incorporate at least one of the following:

1. For each dwelling unit, at least 1 architectural projection not less than two feet from the wall plane and not less than four feet wide should be provided. Such projections should extend the full height of single story structures, at least 1/2 the height of a 2-story building, and 2/3 the height of a 3-story building.
2. A change in wall plane of at least three feet in depth for at least 12 feet in length for each two units should be provided.

[Return to 19.04]

B. SCALE

Because multi-family projects are usually taller than one story, their bulk can impose on surrounding uses. The scale of such projects should be considered within the context of their surroundings. Structures with greater height may require additional setbacks so as not to dominate the character of the neighborhood.

Large projects should be broken up into groups of structures. The use of single "mega-structures" is to be avoided.

C. MATERIALS

Materials selected for multi-family projects should be very durable and require low maintenance. Piecemeal embellishment and frequent changes in materials should be avoided.

[Return to 19.04]

D. BALCONIES, PORCHES, AND PATIOS

The incorporation of balconies, porches, and patios within multi-family structures, is encouraged for both practical and aesthetic value. These elements should be integrated to break up large wall masses, offset floor setbacks, and add human scale to structures.

Common exterior balconies and corridors that provide access to units should not require circulation past adjacent unit windows and entries.

E. DWELLING UNIT ACCESS

The use of long, monotonous access balconies and corridors which provide access to five or more units should be avoided. Instead, access points to units should be clustered in groups of four or less. To the extent possible, the entrances to individual units should be plainly visible from nearby parking areas. The use of distinctive architectural elements and materials to denote prominent entrances is encouraged.

F. EXTERIOR STAIRS

Simple, clean, bold projections of stairways are encouraged to complement the architectural massing and form of the multi-family structure. Stairways should be of smooth stucco, plaster or wood, with accent trim of complementary colors. Thin-looking, open metal, prefabricated stairs are discouraged.

[Return to 19.04]

G. CARPORTS, GARAGES AND ACCESSORY STRUCTURES

Carports, detached garages, and accessory structures should be designed as an integral part of the architecture of projects. They should be similar in materials, color, and detail to the principal structures of a development. Carports may utilize flat roofs but should not project above any exterior walls adjacent to streets. Prefabricated metal carports should not be used.

Where garages are utilized, doors should appear set into walls rather than flush with the exterior wall. Their design should be simple and unadorned.

H. GUTTERS AND DOWNSPOUTS

Gutters and downspouts should be concealed unless designed as a continuous architectural feature. Exposed gutters used as architectural features should be colored to match fascia or wall material. Exposed downspouts should be colored to match the surface to which they are attached unless copper is used.

Roof vents should be colored to match roofing materials or the dominant trim color of the structure.

I. SOLAR PANELS

Solar panels should be integrated into the roof design, flush with the roof slope. Frames should be colored to match roof colors. Natural aluminum finish is strongly discouraged. Any mechanical equipment should be enclosed and completely screened from view.

[Return to 19.04]

J. MECHANICAL AND UTILITY EQUIPMENT

All mechanical equipment whether mounted on the roof or ground must be screened from view. Utility meters and equipment must be placed in locations which are not exposed to view from the street or they must be suitably screened. All screening devices are to be compatible with the architecture and color of the adjacent structures.

Utility meters and other outdoor equipment must be suitably screened from view. Screening devices should be compatible with adjacent structures.

K. ANTENNAS

All antennas should be placed in attics or building interiors. It is recommended that all new units be pre-wired to accommodate cable reception. Satellite dish antennas are specifically prohibited on roofs and should be considered early in the design process in terms of location and any required screening.

7. MULTI-FAMILY IN-FILL IN SINGLE FAMILY NEIGHBORHOOD

Efforts should be made to integrate new multi-family projects into existing neighborhoods so that they are compatible with adjacent structures and fit within the context of the existing neighborhood.

[Return to 19.04]

A. FRONT YARD SETBACKS

Front yard setbacks for new multi-family projects should be equal to or greater than the average setbacks for the two adjacent properties. If one or both of the adjacent properties are vacant then the average shall be calculated on the next adjacent occupied property.

B. ARCHITECTURAL COMPATIBILITY

New multi-family development in existing neighborhoods should incorporate architectural characteristics and maintain the scale of existing structures on the property and surrounding development, for example; window and door detailing, facade decoration, materials, color, roof style and pitch, porches, and the like.

C. SITE DESIGN

New multi-family developments should be designed to continue the on-site relationships of the original structure(s) and surrounding neighborhood. Site access should be taken from the adjacent alley whenever possible.

[Return to 19.04]

EXISTING SFD ELEVATIONS

INAPPROPRIATE INFILL STRUCTURE

Multi-Family structure/addition does not conform to adjacent SF forms.

APPROPRIATE INFILL OF MULTI-FAMILY

Articulation and form is compatible with existing structure and adjacent SF units.

[Return to 19.04]

Unacceptable infill of Multi-Family structures does not conform to articulation and scale of adjacent single family structures.

Appropriate infill of Multi-Family units transitions and conforms to architectural articulation of adjacent single family structures.

8. PRIVATE TENNIS COURT DESIGN GUIDELINES

Private tennis courts are subject to Development Permit review and should be constructed in the following manner:

1. Tennis courts should not encroach into the front and side setback or within 10 feet of rear property line.
2. There should be no more than 1 tennis court for each residential parcel of land. The review authority may approve additional tennis courts in multi-family developments in the RM, RMH, and RH zones.
3. Private tennis courts should not be used for commercial purposes, and shall be used only by the residents and their invited guests.
4. All tennis court fencing should not exceed 10 feet in height as measured from the court surface, and shall be screened from public view.
5. All tennis courts should be recessed four feet and shall be further screened with a combination of walls, berms or landscaping.
6. A plan for overhead court lighting shall be subject to Development Permit review.
7. Light standards should not exceed the following heights as measured from the court surface:
 - a. Eighteen feet with 4 poles on each side.
 - b. Twenty feet with 3 poles on each side.
8. All illumination fixtures shall be energy efficient and directed inward and away from adjoining properties and public rights-of-way.
9. Hours of lighting operation should be determined during permit review; in no instance should lighting be used after 11:00 P.M.

06.03	Commercial and Industrial Zones Specific Standards

Guidelines

G19.06.050	Commercial Development Design Guidelines
-------------------	---

19.06.010 Purpose

1. The purpose of this Chapter is to achieve the following:
 - A. Provide appropriate commercial areas for retail and service establishments, neighborhood convenience and office uses required by residents of the City in a manner consistent with the General Plan.
 - B. Provide adequate space to meet the needs of commercial development, including off-street parking and loading.
 - C. Minimize traffic congestion and avoid the overloading of utilities.
 - D. Protect commercial areas from excessive noise, illumination, unsightliness, odor, smoke, and other objectionable influences.
 - E. Promote high standards of site planning, and landscape design for commercial and office developments within the City.
 - F. Provide employment opportunities for existing and future residents of the City and those of adjacent communities.
 - G. Provide for land uses which meet the needs of and attract regional populations, in addition to local residents.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- H. Ensure compatibility with adjacent land uses.
- I. Single-family dwelling units which legally existed in commercial land use districts prior to June 3, 1991 may remain as a permitted use.

(Ord. MC-823, 3-03-92)

- 2. The purpose of the individual commercial zones are as follows:

(Ord. MC-1393, 12-02-13)

- A. CO (COMMERCIAL OFFICE) ZONE

This zone is intended to provide for the continued use, expansion, and new development of administrative and professional offices, hospitals, and supporting retail uses in proximity to major transportation corridors and ensure their compatibility with adjacent residential and commercial uses. Additionally, this zone permits a maximum density of 47 units per net acre for senior citizen and senior congregate care housing. Existing single family residential structures may remain as a permitted use.

(Ord. MC-1381, 12-19-12; Ord. MC-818, 1-07-92)

- B. CG-1 (COMMERCIAL GENERAL) ZONE

This zone is intended to provide for the continued use, enhancement, and new development of retail, personal service, entertainment, office and related commercial uses along major transportation corridors and intersections to service the needs of the residents; reinforcing existing commercial corridors and centers and establishing new locations as residential growth occurs. Additionally, this zone permits a maximum density of 47 units per net acre for senior citizen and senior congregate care housing.

(Ord. MC-1304, 5-05-09)

C. CG-2 (COMMERCIAL GENERAL-2) ZONE

This zone is intended to enhance the economic activity of appropriate commercial corridors; infilling and intensifying existing development, establishing new key activity centers and nodes, allowing for the development of medium and medium high residential density as alternative uses. The residential development shall have a minimum contiguous area of one net acre with a maximum density of 12 units per net acre along Mount Vernon Avenue and Baseline Street and other designated locations west of I-215 and a maximum density of 21 units per net acre along Baseline Street and other designated locations east of I-215. Additionally, a bonus density of 50% for the development of senior citizen and senior congregate care housing shall be permitted, subject to the approval of a Conditional Use Permit.

(Ord. MC-1381, 12-19-12)

D. CG-3 (COMMERCIAL GENERAL-3) ZONE

This zone provides for the development of local and regional serving retail, personal service, entertainment, office and related commercial uses. This district includes, but is not limited to, properties adjacent to California State University at San Bernardino along North Park Boulevard, Kendall Drive, and University Parkway for commercial and personal service uses to meet the needs of students, faculty, and visitors, and properties along Mt. Vernon Avenue, between 4th and 9th Streets, within the Paseo Las Placitas Specific Plan area.

Design guidelines for the Mount Vernon Corridor (Paseo Las Placitas) are contained in Chapter 19.10, Special Purpose Zones, Section 19.10.030(3).

(Ord. MC-1381, 12-19-12)

E. CR-1 (COMMERCIAL REGIONAL-MALLS) ZONE

This zone is intended to maintain and enhance the Inland Center Malls and adjacent properties to this and the Carousel Mall as the principal region-serving retail centers of the City.

(Ord. MC-1381, 12-19-12)

F. CR-2 (COMMERCIAL REGIONAL-DOWNTOWN) ZONE

This zone is intended to permit a diversity of regional-serving uses in the Downtown area including local, county, and state governmental-administrative, professional offices, cultural-historical and entertainment, convention facilities, hotels-motels, financial establishments, restaurants, supporting retail and services, educational institutions, public open spaces, and residential and senior citizen housing. Development of sites exclusively for residential uses shall have a minimum contiguous area of 1 net acre, with a maximum density of 47 units per net acre. Senior citizen and senior congregate care housing shall permit a maximum density of 130 units per net acre, subject to the approval of a Conditional Use Permit.

G. CR-3 (COMMERCIAL REGIONAL-TRI-CITY-CLUB) ZONE

This zone is intended to permit a diversity of regional-serving uses including corporate and professional offices, retail commercial, entertainment (theaters, nightclubs, etc.), financial establishments, restaurants, hotels-motels, warehouse-promotional retail, supporting retail and services, and similar uses.

(Ord. MC-1436, 12-21-16; Ord. MC-1098, 6-05-01)

H. CR-4 (COMMERCIAL REGIONAL-AUTO PLAZA) ZONE

This zone is intended to provide for the development of new and used automobile and truck sales and related retail and service uses in the Auto Plaza area.

I. CCS-1 (CENTRAL CITY SOUTH) ZONE

This zone is intended to permit general retail, professional office and medical types of uses. Standards are contained in Chapter 19.13.

(Ord. MC-1381, 12-19-12)

J. CCS-2 (CENTRAL CITY SOUTH) ZONE

This zone is intended to permit service commercial uses. Standards are contained in Chapter 19.13.

K. CCS-3 (CENTRAL CITY SOUTH-FLOOD CONTROL CHANNEL) ZONE

This zone is intended to provide for the flood control channel. Standards are contained in Chapter 19.13.

[\[Return to Municipal Code Contents\]](#)

L. CH (COMMERCIAL HEAVY) ZONE

This zone is intended to accommodate automobile and truck sales and repair facilities, lumberyards, and related hardware sales, plant nurseries, light industrial manufacturing and storage facilities, and similar uses requiring extensive outdoor or indoor space for their sales, service, and-or storage, excluding neighborhood commercial uses.

19.06.020 DEVELOPMENT PERMITTED AND CONDITIONALLY PERMITTED USES

[Table 06.01](#) represents those uses in the commercial zones which are subject to a Development Permit (D) or Conditional Use Permit (C).

(Ord. MC-888, 12-07-93)

**TABLE 06.01
COMMERCIAL ZONES LIST OF PERMITTED, DEVELOPMENT PERMITTED
AND CONDITIONALLY PERMITTED USES**

The following list represents those primary uses in the commercial zones, which are Permitted (P), subject to an Administrative or Development Permit (D), or a Minor-Conditional Use Permit (C). Those with a -- are not permitted uses in that zone.

(Ord. MC-1381, 12-19-12)

19.06.025 Prohibited Uses

(Ord. MC-1233, 10-02-06)

1. Notwithstanding any conflicting provision(s) in any other section of the San Bernardino Municipal Code, including the Development Code, no Conditional Use Permit, Development Permit, Building Permit, Certificate of Occupancy, or Zoning Verification Review (also referred to as “Zoning Consistency Review”), shall be issued or granted for the establishment of a new business, or the relocation of an existing business, in the City of San Bernardino within the following categories of commercial uses:

A. Smoke Shops and Hookah Lounges– Establishments that either exclusively sell or have more than ten percent (10%) of their floor area dedicated to the display, use, or sale of cigarettes, cigars, pipes, bongs, tobacco, hookah, e-cigarettes, and related paraphernalia.

Ord. MC-1405, 7-07-14

B. Single-price overstock-discount store – Establishments that sell a broad range of outlet, close-out, discontinued, liquidation, or overstock merchandise, and primarily at a single discount price in the low and very low price ranges, including but not limited to food stuffs, alcoholic beverages, apparel and accessories, costume jewelry, notions and wares, housewares, fountain refreshments, and toys. This category shall not include single-price overstock discount stores containing a minimum floor area of 9,000 square feet in size and approved under a Conditional Use Permit.

(Ord. MC-1367, 11-08-11)

C. Tattoo Parlors and-or Body Piercing Studios – Establishments that engage in any method of placing permanent designs, letters, scrolls, figures, symbols, or any other marks upon or under the skin with ink or any other substance, by the aid of needles or any other instruments designed to touch or puncture the skin, resulting in either the coloration of the skin, or the production of scars or scarring and-or establishments that create an opening in the body of a person for the purpose of inserting jewelry or other decoration. This category shall not include licensed physicians, nurses, electrologists, and cosmetologists and shall also not include jewelry stores that offer ear piercing.

D. Second Hand Stores-Thrift Stores – Establishments that sell used merchandise such as clothing and shoes, household furniture, home furnishings and appliances, books and magazines, office furniture, used musical instruments, used phonographs and records, used fixtures and equipment, including re-sale shops, consignment shops, and similar businesses. This category shall not include the following:

[Return to Municipal Code Contents]

1. Stores owned or operated by existing entities recognized as non-profit by the Secretary of State of the State of California, and in “good status” with the same.
 2. Antique Stores – An antique, for the purposes of this ordinance, shall be a work of art, piece of furniture, decorative object, or the like, of or belonging to the past, and at least 50 years old. This includes any premise used for the sale or trade of articles of which 90% or more are over 50 years old or have collectible value.
 3. Existing, legally established indoor concession malls and outdoor swap meets, unless otherwise prohibited.
- E. Check-Cashing, Cash Advance, and Loan Facilities – Establishments that engage, in whole or in part, in the business of cashing checks, warrants, drafts, money orders, or other commercial paper serving the same purpose, such facilities do not include a state or federally chartered bank, savings and loan association, credit union, or industrial loan company.
1. This category shall include any business licensed by the California Commissioner of Corporations to make deferred deposit transactions pursuant to California Financial Code Section 23000 et seq., sometimes referred to as “payday advance,” “cash advance,” or “payday loan” services.
 2. This category shall not include any ancillary check-cashing facility that is located entirely within a major retailer over 15,000 square feet in size.
- F. Convenience Stores (if located within a one mile radius or another convenience store) – The retail sale of groceries, staples, sundry items, and-or alcoholic beverages where the gross floor area is less than 5,000 square feet. This category shall not include any convenience store located on the same parcel with an automobile service station.
- G. Pawn Shops - Businesses that loan money or other items of value to any person, firm or corporation, upon any personal property, personal security or the purchasing of personal property and reselling or agreeing to resell such articles at prices previously agreed upon.
1. This category shall not include any legally established pawnshop in an unreinforced masonry building to be relocated to another building within 50 feet of the current location.

[Return to Municipal Code Contents]

2. This category shall not include any legally established pawnshop relocating to another property within the City subject to approval of a Conditional Use Permit.

(Ord. MC-1443, 5-01-17)

- H. Automotive Stereo Shops – Establishments that either exclusively or as a substantial portion (+50%) of their floor area, sell and install automotive stereos and accessories. This category shall not apply to the establishment of a new Automotive Stereo shop in the Auto Center Plaza area.
- I. Tire Stores – Establishments less than 5,000 square feet in size which sell new and-or used automobile tires and accessories. This category shall not include legally established service stations and auto repair facilities.
- J. Self-service Laundry – Any commercial establishment providing the use of self-service washing machines and dryers to the public, usually coin-operated. This category shall not include self-service laundries approved under a Conditional Use Permit to be established in a multi-tenant center of at least 20,000 square feet.

(Ord. MC-1367, 11-08-11)

- K. Recycling Center – Small collection facilities which occupy an area of less than 500 square feet, and which accept by donation, redemption or purchase, recyclable materials from the public, unless required as a Certified Recycling Center by the California Public Resources Code, or donation drop boxes operated by a valid non-profit organization.

(Ord. MC-1381, 12-19-12)

- L. Party Supply Stores – Establishments that either exclusively or as a substantial portion of their floor area, sell or rent party supplies and equipment. This category shall not include party supply stores of at least 2,500 square feet and located in a multi-tenant center of at least 20,000 square feet, or party supply stores established in a single-tenant building of at least 10,000 square feet of floor area; and approved under a Conditional Use Permit.

(Ord. MC-1367, 11-08-11)

2. Section 19.06.025(1) shall not apply to any of the enumerated uses if established in a shopping center or mall containing over 150,000 square feet of floor area and that have at least one major commercial-anchor-tenant, and subject to approval of a Conditional Use Permit pursuant to Development Code Chapter 19.36.

Ord. MC-1405, 7-07-14

[Return to Municipal Code Contents]

3. Section 19.06.025(1) shall not apply to any of the enumerated uses if that use is exclusively established in single independent building exceeding 25,000 square feet in size

19.06.026 (Repealed by Ord. MC-1464, 3-07-18)

19.06.030 Development Standards

1. GENERAL STANDARDS

- A. The following standards are minimum unless stated as maximum. See [Table 06.02](#).

- B. COMMERCIAL LAND USE DISTRICT STANDARDS

The following standards shall apply to development in all commercial districts, except as otherwise provided for in this Development Code:

The following standards shall apply to development in all commercial zones, except as otherwise provided for in this Development Code:

1. All indoor uses shall be conducted within a completely enclosed structure. Limited outside uses (e.g. patio dining areas and nursery sales limited to plants and trees) or permanent outdoor sales and display areas, for major tenants (15,000 sq. ft. or greater) shall be approved with a Development Permit. Temporary outdoor sales and displays are permitted pursuant to Chapter 5.22 of the Municipal Code.

(Ord. MC-972, 6-04-96)

2. Outside storage, which shall be limited to within cargo containers only, shall be confined to the rear of the principal structure(s) or the rear two-thirds of the site, whichever is the more restrictive, and screened from public view from any adjoining properties and public rights-of-way by appropriate walls, fencing and landscaping and shall be approved with a Development Permit. No storage shall occur on any vacant parcel. Building materials for use on the same premises may be stored on the parcel during the time that a valid building permit is in effect for construction.

(Ord. MC-1393, 12-02-13)

[Return to Municipal Code Contents]

3. Every parcel with a structure shall have a trash receptacle on the premises. The trash receptacle shall comply with adopted Public Works Department standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least three sides by a solid wall six feet in height and on the fourth side by a solid gate not less than five feet in height. The gate shall be maintained in working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures.
4. All roof-mounted air conditioning or heating equipment, vents or ducts shall not be visible from any abutting lot, or any public street or right-of-way. This shall be accomplished through the extension of the main structure or roof or screened in a manner which is architecturally integrated with the main structure(s).
5. Elevations of all structures shall be architecturally treated to ensure compatibility with high quality neighboring structures.
6. An intensity bonus of up to 12 square feet for each 1 square foot of permanent space for properly designed and administered day care facilities may be approved by the review authority.

2. SPECIFIC STANDARDS FOR COMMERCIAL ZONES

In addition to the general development requirements contained in Chapter 19.20 (Property Development Standards), the following standards shall apply to specific commercial zones. (See [Table 06.03](#) on previous page.) For residential uses in commercial zones, see [Table 4.03](#) and the standards contained in Chapter 19.04.030(2).

A. ADULT BUSINESSES

(Ord. MC-1060, 10-19-99)

1. **Legislative Purpose.** It is the intent of this ordinance to prevent community wide adverse economic impacts, increased crime, decreased property values, and the deterioration of neighborhoods which can be brought about by the concentration of Adult Businesses in close proximity to each other or proximity to other incompatible uses such as schools, parks, religious institutions, and residentially zoned districts or uses. The City Council finds that it has been demonstrated in various communities that the concentration of Adult Businesses causes an increase in the number of transients in the area, and an increase in crime, and in addition to the effects described above, can cause other businesses and residents to move elsewhere. It is, therefore, the purpose of this article to establish reasonable and uniform regulations to prevent the concentration of Adult Businesses or their close proximity to incompatible uses, while permitting the location of Adult Businesses in certain areas. It is also the purpose of this ordinance to regulate Adult Businesses in order to promote the health, safety, and general welfare of the citizens of the City. The provisions of this ordinance have neither the purpose nor effect of imposing a limitation or restriction on the content of any communicative materials, including adult materials. Similarly, it is not the intent nor effect of this ordinance to restrict or deny access by adults to adult materials protected by the First Amendment, or to deny access by the distributors and exhibitors of adult entertainment to their intended market. Neither is it the intent nor effect of this ordinance to condone or legitimize the distribution of obscene material.
2. **Definitions.** For the purpose of this section, the following definitions shall apply:
 - a. **Adult Arcade.** An establishment where, for any form of consideration, one or more motion picture projectors, slide projectors or similar machines, for viewing by 5 or fewer persons each, are used to show films, motion pictures, video cassettes, slides or other photographic reproductions which are characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas."

[\[Return to Municipal Code Contents\]](#)

- b. **Adult Bookstore.** An establishment which has a substantial portion of its stock-in-trade and offers for sale for any form of consideration any 1 or more of the following:
- 1) Books, magazines, periodicals or other printed matter, or photographs, films, motion pictures, video cassettes, slides or other visual representations which are characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas;" or
 - 2) Instruments, devices or paraphernalia which are designed for use in connection with "specified sexual activities."
- c. **Adult Business-Adult Entertainment Business** means:
- 1) Any business establishment which as a regular and substantial course of conduct offers, sells or distributes adult-oriented merchandise or sexually oriented merchandise, or which offers to its patrons materials, products, merchandise, services or entertainment characterized by an emphasis on matters depicting, describing, or relating to "specified sexual activities" or "specified anatomical areas," but not including those uses or activities which are preempted by State law; or
 - 2) Any business establishment or concern which as a regular and substantial course of conduct operates as an adult arcade, adult bookstore, adult cabaret, adult motel, adult motion picture theater, adult theater, massage parlor, or sexual encounter establishment.
- d. **Adult Cabaret.** Nightclub, bar, restaurant or similar establishment which regularly features live performances which are characterized by the exposure of "specified anatomical areas" or by "specified sexual activities", or films, motion pictures, video cassettes, slides or other photographic reproductions which are characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas."
- e. **Adult Motel.** A motel or similar establishment offering public accommodations for any form of consideration which provides patrons with closed-circuit television transmissions, films, motion pictures, video cassettes, slides or other photographic reproductions which are characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas."

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- f. **Adult Motion Picture Theater.** An establishment where, for any form of consideration, films, motion pictures, video cassettes, slides or similar photographic reproductions are shown, and in which a substantial portion of the total presentation time is devoted to the showing of material which is characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas."
- g. **Adult Theater.** A theater, concert hall, auditorium or similar establishment which, for any form of consideration, regularly features live performances which are characterized by the exposure of "specified anatomical areas" or by "specified sexual activities."
- h. Establishment of an Adult Entertainment Business includes any of the following:
 - 1) The opening or commencement of any such business as a new business;
 - 2) The conversion of an existing business, whether or not an adult entertainment business, to any of the adult entertainment businesses defined herein;
 - 3) The addition of any of the adult entertainment businesses defined herein to any other existing adult entertainment business; or
 - 4) The relocation of any such business.
- i. **Massage Parlor.** An establishment where, for any form of consideration, massage, alcohol rub, fomentation, electric or magnetic treatment, or similar treatment or manipulation of the human body is administered unless such treatment or manipulation is administered by a medical practitioner, chiropractor, acupuncturist, physical therapist or similar professional person licensed by the State. This definition does not include an athletic club, health club, school, gymnasium, reducing salon, spa or similar establishment where massage or similar manipulation of the human body is offered as an incidental or accessory service.

- j **Sexual Encounter Establishment.** An establishment, other than a hotel, motel or similar establishment offering public accommodations, which, for any form of consideration, provides a place where 2 or more persons may congregate, associate or consort in connection with "specified sexual activities" or the exposure of "specified anatomical areas." This definition does not include an establishment where a medical practitioner, psychologist, psychiatrist or similar professional person licensed by the State engages in sexual therapy.

- k. **Specified Anatomical Areas.** Includes any of the following:
 - 1) Less than completely and opaquely covered human genitals, pubic region, buttocks, anus or female breasts below a point immediately above the top of the areola; or
 - 2) Human male genitals in a discernibly turgid state, even if completely and opaquely covered.

- l. **Specified Sexual Activities.** Includes any of the following:
 - 1) The fondling or other erotic touching of human genitals, pubic region, buttocks, anus or female breasts;
 - 2) Sex acts, normal or perverted, actual or simulated, including intercourse, oral copulation or sodomy;
 - 3) Masturbation, actual or simulated; or
 - 4) Excretory functions as part of or in connection with any of the activities set forth in subdivisions (1) through (3) of this subsection.

- m. **Substantial Enlargement.** The increase in floor area occupied by the business by more than 10%, as such floor area exists on the effective date of this Development Code.

- n. **Substantial Portion.** For the purposes of this section "substantial portion" shall mean 20% or more of the face value of the stock in trade, or 20% of the floor area of the store, whichever is more.

(Ord. MC-799, 7-02-91)

3. Adult Business Development Permit (DP-D). Adult businesses are permitted, subject to a Development Permit (DP-D), only in the CH and IL zones. It shall be unlawful for any person to establish an Adult Business in the City of San Bernardino unless the person first obtains and continues to maintain in full force and effect a Development Permit (DP-D) from the City of San Bernardino as herein required.
 - a. Notwithstanding any other provision of this Development Code, the Development-Environmental Review Committee (D-ERC) shall adopt findings and approve an application for an Adult Business Development Permit II within forty-five (45) days after receipt of a complete application if the application satisfies the requirements of this section. If the D-ERC determines that the application does not satisfy the requirements of this section, the D-ERC shall deny the application.
 - b. Any party shall have the right to appeal the D-ERC's decision to the Planning Commission, and to subsequently appeal the Planning Commission's decision to the Council pursuant to Development Code Chapter 19.52. The Planning Commission and the Council shall each hold a hearing and shall render a decision within thirty (30) days after each appeal is filed unless a continuance is requested by the applicant for the Adult Business Development Permit II.
 - c. Pursuant to Code of Civil Procedure Section 1094.6, any action to review the decision of the Council shall be commenced not later than the ninetieth day after the Council's decision is rendered. The Council shall take all lawful steps to ensure that any party aggrieved by its decision shall be afforded prompt judicial review of said Council's decision.
 - d. Standards for Approval of Adult Business Development Permit II:
 - 1) The operation, as proposed by the applicant, would comply with all applicable laws, including but not limited to the City's building, fire, zoning and health regulations.
 - 2) The applicant has not knowingly made any false, misleading or fraudulent statement of fact in the application process, or on any document required by the City in conjunction therewith.
 - 3) It is unlawful to cause or permit the establishment or substantial enlargement of an adult business, within 2,000 feet of another adult business or within 1,000 feet of any religious institution which received development approval prior to December 14, 1994,

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

any school or any public park within the City or within 1,000 feet of any property designated for residential use or used for residential purposes.

(Ord. MC-942, 6-06-95; Ord. MC-915, 12-20-94)

- 4) Measurement of Distance. The distance between any 2 adult entertainment businesses shall be measured in a straight line, without regard to intervening structures, from the closest exterior structural wall of each business. The distance between any adult entertainment business and any religious institution, school or public park or any property designated for residential use or used for residential purposes shall be measured in a straight line, without regard to intervening structures, from the closest exterior structural wall of the adult entertainment business to the closest property line of the religious institution, school or public park or the property designated for residential use or used for residential purposes. Should the straight line distance be intersected by a freeway, a river or a flood control channel, the distance shall instead be measured by the shortest route of travel.

(Ord. MC-977, 7-31-96)

- 5) Signs. All on-site signage shall conform to Chapter 19.22.
- 6) Viewing Area.
 - a. It is unlawful to maintain, operate or manage or permit to be maintained, operated or managed any adult business in which the viewing areas are not visible from a continuous main aisle or are obscured by a curtain, door, wall, or other enclosure. For purposes of this Section, viewing area means the area where a patron or customer would ordinarily be positioned while watching the performance, picture, show or film.
 - b. It is unlawful for more than 1 person at a time to occupy any individual partitioned viewing area or booth.
 - c. It is unlawful to create, maintain or permit to be maintained any holes or other openings between any 2 booths or individual viewing areas for the purpose of providing viewing or physical access between the booth or individual viewing area.
 - d. The opening to the viewing area shall be from the main aisle.

[Return to Municipal Code Contents]

- 7) The applicant and owner, and every subsequent owner of the adult business shall obtain an adult entertainment license pursuant to SBMC Chapter 5.14. Failure to maintain said adult entertainment license in effect while the adult business is in operation shall be grounds for revocation of the Adult Business Development Permit II. The conditions of approval imposed on said adult entertainment license shall be included as conditions of approval on the Adult Business Development Permit II.
- 8) All construction shall comply with all applicable requirements in the San Bernardino Municipal Code and Development Code including, but not limited to the California Building Standards Code as incorporated in San Bernardino Municipal Code Chapter 15.04.
- 9) The D-ERC shall impose additional conditions prior to approval of an application for an Adult Business Development Permit II which are deemed necessary by the DERC to ensure compliance with the Development Code and to protect the public health and safety. Such conditions shall be limited to the following: hours of operation, maximum occupancy, fire and life safety issues, fire suppression, exterior signage, exterior and interior lighting, parking, landscaping, existence of public telephones, and security guards.

B. ALCOHOL BEVERAGE SALES

ARTICLE I – GENERAL

SECTION I – TITLE AND PURPOSE

A. Title:

- (1) This ordinance shall be known as the Conditional Use Permit - Deemed Approved Alcoholic Beverage Sales Regulations Ordinance.
- (2) This ordinance requires land use permits for newly established alcoholic beverage sales activities, confers deemed approved status for existing alcoholic beverage sales activities and provides standards and an administrative hearing process to review violations of those standards in order to protect the general health, safety, and welfare of the residents of the City of San Bernardino and to prevent nuisance activities where alcoholic beverage sales occur.

B. Purpose:

- (1) To protect residential, commercial, industrial and civic areas and minimize the adverse impacts of nonconforming and incompatible uses; and
- (2) To provide opportunities for alcoholic beverage sales establishments to operate in a mutually beneficial relationship to each other and to other commercial and civic services; and
- (3) To provide mechanisms to address problems associated with the public consumption of alcoholic beverages such as litter, loitering, graffiti, unruly behavior and escalated noise levels; and
- (4) To provide that alcoholic beverage sales establishments are not the source of undue public nuisances in the community; and
- (5) To provide for properly maintained alcoholic beverage sales establishments so that the negative impacts generated by these activities are not harmful to the surrounding environment in any way; and
- (6) To monitor Deemed Approved establishments to ensure they do not substantially change in mode or character of operation.

SECTION II – DEFINITIONS

The meaning and construction of these words and phrases, as set forth below, shall apply throughout, except where the context clearly indicates a different meaning or construction.

- (A) “**Administrator**” means the Administrative Hearing Officer as identified in Section III.
- (B) “**Alcoholic Beverage**” means alcohol, spirits, liquor, wine, beer, and any liquid or solid containing alcohol, spirits, wine, or beer, that contains one-half of one percent or more of alcohol by volume and that is fit for beverage purposes either alone or when diluted, mixed or combined with other substances, the sale of which requires an ABC license.
- (C) “**Alcoholic Beverage Sales Activity**” means the retail sale of alcoholic beverages for onsite or offsite consumption.

- (D) **"Alcoholic Beverage Sales Establishment"** means an establishment where an alcoholic beverage sales activity occurs. Alcoholic beverage sales establishments include but are not limited to the following recognized types of establishments: liquor stores; beer and wine stores; convenience markets; markets; neighborhood specialty food markets; retail sales establishments; wine shops; service stations; taverns; clubs; cocktail lounges, ballrooms, cabarets, dance bars, piano bars; billiard or game parlors, bowling alleys; nightclubs, dance halls; cafes, bars, restaurants with bars; full-service restaurants; and fast food establishments.
- (E) **"California Department of Alcoholic Beverage Control"** or **"ABC"** refers to the department of the State of California empowered to act pursuant to Article 20, section 22, of the California Constitution and authorized to administer the provisions of the Alcoholic Beverage Control Act.
- (F) **"Conditions of Approval"** means a requirement that must be carried out by the activity by: (1) a new alcoholic beverage sales activity to exercise a land use permit; or (2) a legal nonconforming alcoholic beverage sales activity to comply with deemed approved performance standards and to retain its deemed approved status.
- (G) **"Deemed Approved Activity"** means any Legal Nonconforming alcoholic beverage sales activity, as defined in subsection (J). Such activity shall be considered a Deemed Approved activity as long as it complies with the Deemed Approved Performance Standards set forth in Article III, Section IV.
- (H) **"Deemed Approved Status"** means the permitted use of land for a Deemed Approved Activity. Deemed Approved status replaces Legal Nonconforming status with respect to Alcoholic Beverage Sales Commercial Activity and remains in effect as long as it complies with the Deemed Approved provisions and performance standards.
- (I) **"Illegal Activity"** means an activity, which has been finally determined to be in noncompliance with the Deemed Approved provisions and performance standards. Such an activity shall lose its Deemed Approved status and shall no longer be considered a Deemed Approved activity.

- (J) **“Legal Nonconforming Alcoholic Beverage Sales Commercial Activity”** or **“Legal Nonconforming Activity”** means an Alcoholic Beverage Sales Commercial Activity which was a nonconforming use pursuant to San Bernardino Municipal Code (Development Code) Chapter 19.62, and for which a valid state of California Alcoholic Beverage Control license had been issued and used in the exercise of the rights and privileges conferred by the license at a time immediately prior to the effective date of the Deemed Approved Alcoholic Beverage Sale Regulations Ordinance. Such an activity shall be considered a Deemed Approved Activity and shall no longer be considered a Legal Nonconforming Activity.
- (K) **“Off-Sale Alcohol Outlet”** means an establishment that conducts retail sales of Alcoholic Beverages for consumption off the premises where sold.
- (L) **“On-Sale Alcohol Outlet”** means an establishment that conducts retail sales of Alcoholic Beverages for consumption on the premises where sold.
- (M) **“Operational Standards”** means regulations for the business practice activities and land use for locations with a Conditional Use Permit or those further requirements imposed to achieve these goals. Operational Standards constitute requirements which must be complied with by an establishment in order to maintain its Conditional Use Permit.
- (N) **“Performance Standards”** means regulations for the business practice activities and land use for locations with Deemed Approved status or those further requirements imposed to achieve these goals. Performance Standards constitute requirements which must be complied with by an establishment in order to retain its Deemed Approved status.
- (O) **“Permit”** means a Conditional Use Permit issued pursuant to this ordinance.
- (P) **“Permittee”** means the individual or entity that owns an alcoholic beverage sale establishment and to whom a Conditional Use Permit to operate an alcoholic beverage sale establishment has been issued by the City of San Bernardino.
- (Q) **“Premises”** means the actual space in a building devoted to alcoholic beverage sales.
- (R) **“Restaurant”** means a bona fide eating place whose predominant function is the service of food and where on-site sale of alcoholic beverages is incidental or secondary.

SECTION III – ADMINISTRATIVE HEARING OFFICER

The “Administrative Hearing Officer” shall have the same appointment and qualifications as that designated in San Bernardino Municipal Code Chapter 9.93, Administrative Civil Penalties; and shall conduct public hearings and make recommendations intended to encourage and achieve the compliance of particular alcoholic beverage sale establishments with the provisions of this Ordinance. This section is not intended to restrict the powers and duties otherwise pertaining to other City officers or bodies in the field of monitoring and ensuring the harmony of alcoholic beverage sale activities in the City. The Administrative Hearing Officers shall have the powers and duties assigned to them by the Development Code, and other San Bernardino Municipal Code ordinances.

SECTION IV - INSPECTION AND RIGHT OF ENTRY

The sale of alcoholic beverages is a closely regulated industry. The officials responsible for enforcement of the City Municipal Code or other provisions of the Development Code or their duly authorized representatives may enter on any site or into any structure open to the public for the purpose of investigation provided they shall do so in a reasonable manner whenever they have cause to suspect a violation of any provision of this ordinance or whenever necessary to the investigation of violations to the Conditions of Approval or Deemed Approved performance standards prescribed in these regulations. If an owner, occupant or agent refuses permission to enter, inspect or investigate, premises which are not open to the public, the officials or their representatives may seek an inspection warrant under the provisions of California Code of Civil Procedure section 1822.50 et. seq. All such inspections shall be conducted in compliance with the Fourth Amendment to the United States Constitution.

SECTION V – SEVERABILITY

If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portions of this ordinance. The Mayor and Common Council hereby declare that it would have adopted the ordinance and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more of the sections subsections, sentences, clauses or phrases may be declared invalid.

ARTICLE II – CONDITIONAL USE PERMITS FOR NEW ALCOHOLIC BEVERAGE SALES ACTIVITIES

SECTION I – PURPOSE

The general purposes of these regulations are to protect and promote the public health, safety, comfort, convenience, prosperity and general welfare by requiring consideration and approval of a Conditional Use Permit before a new alcoholic beverage sales activity will be permitted in any land use zoning district of the City and by requiring all new alcoholic beverage sales activities to comply with the operational standards in this ordinance and to achieve the following objectives:

- (A) Protect surrounding neighborhoods from the harmful effects attributable to the sale of alcoholic beverages and to minimize the adverse impacts of nonconforming and incompatible uses.
- (B) Encourage businesses selling alcoholic beverages to operate in a manner that is mutually beneficial to other such businesses and other commercial and civic activities.
- (C) Provide a mechanism to address problems often associated with the public consumption of alcoholic beverages, such as litter, loitering, graffiti, unruly behavior and escalated noise levels.
- (D) Ensure that businesses selling alcoholic beverages are not the source of undue public nuisances in the community.
- (E) Ensure that sites where alcoholic beverages are sold are properly maintained so that negative impacts generated by these activities are not harmful to the surrounding environment in any way.

This Article alone does not allow or permit alcoholic beverage sales activities, but only applies to these activities where otherwise allowed or permitted within an applicable land use zoning district. This Article does not authorize alcoholic beverage sales activities in any land use district where they are not otherwise allowed or permitted by the applicable involved zoning district's regulations. The provisions of this ordinance are intended to compliment the State of California alcohol-related laws. The city does not intend to replace or usurp any powers vested in the California Department of Alcoholic Beverage Control.

SECTION II – REQUIREMENT

Notwithstanding any other provisions of this Code, no new on-site or off-site alcoholic beverage sales activity may be established unless a Conditional Use Permit is first obtained in accordance with the requirements of this Article. The following uses are

[\[Return to Municipal Code Contents\]](#)

exempt from this requirement to obtain a Conditional Use Permit, and shall be subject to Director approval of a Development Permit and a finding of public convenience or necessity, if required:

- (A) Sit-down restaurants whose predominant function is the service of food and where the on-site sale of alcoholic beverages is incidental or secondary.
- (B) Establishments containing 10,000 square feet or more, including but not limited to supermarkets and drug stores, which do not sell alcoholic beverages as the principal business
- (C) Establishments, whose applications have been deemed complete prior to the effective date of this Ordinance by the Community Development s Department.
- (D) Temporary uses issued a Temporary License by the California Department of Alcoholic Beverage Control and established in compliance with all City laws and regulations.

SECTION III – LOCATIONAL RESTRICTIONS

- (A) Unless otherwise exempted under subsections B – H, a new alcoholic beverage sales activity is not permitted within 500 feet of any of the following locations:
 - 1. A public or private state licensed or accredited school.
 - 2. A public park, playground, recreational area, or youth facility, including a nursery school, preschool, or day-care facility.
 - 3. A place of worship or religious institution.
 - 4. A hospital.
 - 5. An alcohol or other drug abuse recovery or treatment facility.
 - 6. A county social service office.
- (B) Establishments containing 10,000 square feet or more, including but not limited to supermarkets and drugstores, which do not sell alcoholic beverages as the principal business are exempt from the locational restrictions.

- (C) Sit down restaurants whose predominant function is the service of food and where the on-site sale of alcoholic beverages is incidental or secondary are exempt from these locational restrictions. An incidental bar or lounge shall be allowed for the convenience of dining patrons. (Establishments which are primarily a bar or lounge or have a bar or lounge area as a principal or independent activity are not included in this exemption.)
- (D) All other establishments for on-site consumption of alcohol may be exempted from the locational restrictions, subject to evaluation of site-specific conditions through the Conditional Use Permit review process and considering recommendations from the Police Department.
- (E) Specialty retail establishments that offer unique product lines or variety of selection warranting a finding of public convenience or necessity are exempt from the locational restrictions.
- (F) An automobile service station convenience store that meets the location criteria of Section 19.06.030(2)(T) may be exempted from these locational restrictions, subject to evaluation of site-specific conditions through the Conditional Use Permit review process and considering recommendations from the Police Department.
- (G) A fraternal organization or veterans club may be exempted from the locational restrictions, subject to evaluation of site-specific conditions through the Conditional Use Permit review process and considering recommendations from the Police Department.
- (H) Temporary uses issued a Temporary License by the California Department of Alcoholic Beverage Control and established in compliance with all City laws and regulations are exempt from the locational restrictions.
- (I) The following location conditions will be considered in the review of Conditional Use Permit applications, and may be grounds for denial based on potential adverse effects to the public interest, health, safety or convenience:
 - 1. A location within a crime reporting district, or within 500 feet of a crime reporting district, where the general crime rate exceeds the city-wide general crime rate by more than 20 percent.
 - 2. A location where the new alcoholic beverage sales activity would be within 500 feet from an existing alcoholic beverage sales activity, or would lead to the grouping of more than four alcoholic beverage sales activities within a 1,000 foot radius from the new alcoholic beverage sales activity.

SECTION IV – OPERATIONAL STANDARDS

All new alcoholic beverage sales activities shall be designed, constructed, and operated to conform to all of the following operational standards:

- (A) That it does not result in adverse effects to the health, peace or safety of persons residing or working in the surrounding area.
- (B) That it does not jeopardize or endanger the public health or safety of persons residing or working in the surrounding area.
- (C) That it does not result in repeated nuisance activities within the premises or in close proximity of the premises, including but not limited to disturbance of the peace, illegal drug activity, public drunkenness, drinking in public, harassment of passersby, gambling, prostitution, sale of stolen goods, public urination, theft, assaults, batteries, acts of vandalism, excessive littering, loitering, graffiti, illegal parking, excessive loud noises, especially in the late night or early morning hours, traffic violations, curfew violations, lewd conduct, or police detentions and arrests.
- (D) That it complies with all provisions of local, state or federal laws, regulations or orders, including but not limited to those of the California Department of Alcoholic Beverage Control (“ABC”), California Business and Professions Code §§ 24200, 24200.6, and 25612.5, as well as any condition imposed on any permits issued pursuant to applicable laws, regulations or orders. This includes compliance with annual City business registration fees.
- (E) That its upkeep and operating characteristics are compatible with, and will not adversely affect the livability or appropriate development of abutting properties and the surrounding neighborhood.
- (F) That the owners and all employees of establishments involved in the sale of alcoholic beverages complete an approved course in Licensee Education on Alcohol and Drugs (LEAD), or other "Responsible Beverage Service" (RBS) training by October 21, 2011, or within sixty (60) days of hire for employees hired after that date. To satisfy this requirement, the RBS course must be recognized by the California Department of Alcoholic Beverage Control. The RBS course shall include at a minimum the following: a review of ABC laws and regulations; administrative, criminal and civil liabilities; acceptable forms of identification; and how to identify minors and persons already intoxicated.

(Ord. MC-1358, 7-06-11)

[Return to Municipal Code Contents]

1. Sit down restaurants that continue to serve menu items until closing and whose predominant function is the service of food and where the on-site sale of alcoholic beverages is incidental or secondary are exempt from this training requirement. An incidental bar or lounge shall be allowed for the convenience of dining patrons. (Establishments which are primarily a bar or lounge or have a bar or lounge area as a principal or independent activity are not included in this exemption.) Fraternal organizations and veterans clubs are exempt from this training requirement.
2. Retail outlets with 25 or more employees or containing 10,000 square feet or more, and subject to this training requirement may elect to send only supervisory employees to the RBS training, who would then be responsible for training all employees who are involved in the sale of alcoholic beverages.

(G) A copy of these operational standards, any applicable ABC or City operating conditions, and any training requirements shall be posted in at least one prominent place within the interior of the establishment where it will be readily visible and legible to the employees and patrons of the establishment.

SECTION V – ADMINISTRATION

The San Bernardino City Planning Commission shall administer Conditional Use Permits.

SECTION VI – PERMIT APPLICATION

Any person, association, partnership, corporation or other entity desiring to obtain an alcoholic beverage sales activity Conditional Use Permit shall file an application with the City of San Bernardino Community Development Department to forward to the San Bernardino City Planning Commission on a form provided by the City. The application shall be accompanied by a nonrefundable application processing fee in an amount established by a resolution of the Mayor and Common Council.

The application for a Conditional Use Permit shall include, but not be limited to the following information:

- (A) The name, address and telephone number of the applicant. If the applicant is a corporation, the applicant shall set forth the name of the corporation exactly as shown in its articles of incorporation. The applicant corporation or partnership shall designate one of its officers or general partners to act as its responsible management officer.

[Return to Municipal Code Contents]

- (B) The name, address, and telephone number of each lender or share holder with a five percent or more financial interest in the proposed business or any other person to whom a share or percentage of the income of the establishment is to be paid.
- (C) The name, address, and telephone number of the person who shall manage and operate the establishment for which the permit is requested.
- (D) The name, address, and telephone number, if available, of all existing schools, parks, playgrounds or recreational areas, nonprofit youth facilities, places of worship, hospitals, alcohol or other drug abuse recovery or treatment facilities or county social service offices within 500 feet of the proposed alcoholic beverage sales activity establishment.
- (E) The name, address, and telephone number, if available, of all alcoholic beverage sale activities within 500 feet of the proposed alcoholic beverage sales activity establishment and within a 1000 foot radius from the proposed alcoholic beverage sales activity establishment.
- (F) The name, address, and telephone number of a person authorized to accept service of legal notices.
- (G) The proposed business name of the alcoholic beverage sales activity establishment and description of all operating aspects of the proposed business.
- (H) The type of ABC license the applicant is seeking for the alcoholic beverage sales activity establishment.
- (I) Any other information reasonably necessary to accomplish the purposes of this ordinance.
- (J) The Planning Commission may refer the application to other City departments to determine whether the premises where the alcoholic beverage sales activity establishment will be located, complies with the City's building, health, zoning and fire ordinances or other applicable ordinances or laws. City departments may conduct an inspection of the premises to determine compliance with the ordinances and other laws they administer. City departments may prepare reports summarizing their inspections and recommending whether to approve or deny the application based on their inspections.

SECTION VII – ACTION ON PERMIT APPLICATION

The Planning Commission shall approve issuance of the Conditional Use Permit to allow a new alcoholic beverage sales activity upon making the following findings:

[Return to Municipal Code Contents]

- (A) The proposed alcoholic beverage sales activity establishment is located in a zoning district in which the establishment is a permitted use.
- (B) A finding of "public convenience and necessity" (Business and Professions Code Section 23958.4(b) (2)), if the activity will be located in an area that has been determined by the state of California Department of Alcoholic Beverage Control to have an undue concentration of licenses as defined in Business and Professions Code Section 23958.4(a).
- (C) A finding that the alcoholic beverage sales activity will not aggravate existing problems in the neighborhood created by the sale of alcohol such as loitering, public drunkenness, alcoholic beverage sales to minors, noise and littering.
- (D) The proposed establishment will not detrimentally affect nearby neighborhoods considering the distance of the alcohol establishment to residential buildings, schools, parks, playgrounds or recreational areas, nonprofit youth facilities, places of worship, hospitals, alcohol or other drug abuse recovery or treatment facilities, county social service offices, or other alcoholic beverages sales activity establishments.
- (E) The proposed establishment will otherwise be compatible with existing and potential uses within the general area.
- (F) The proposed establishment is not located in what has been determined to be a high-crime area or where a disproportionate number of police service calls occur.
- (G) The use of the proposed establishment is consistent with the General Plan.

SECTION VIII – CONDITIONS OF APPROVAL

Conditions of Approval that may be imposed include but are not limited to the following:

- (A) Prohibited Products: To discourage nuisance activities, an Off-Sale Alcohol Outlet may be prohibited from selling one or more of the following products:
 - (1) Wine or distilled spirits in containers of less than 750 milliliters.
 - (2) Malt beverage products with alcohol content greater than five and one-half percent by volume.
 - (3) Wine with an alcoholic content greater than 14 percent by volume unless in corked bottles and aged at least two years.

- (4) Beer or malt liquor sold individually in containers of 40 ounces or less.
 - (5) Containers of beer or malt liquor not in their original factory packages of six-packs or greater.
 - (6) Distilled spirits in bottles or containers smaller than 375 milliliters.
 - (7) Cooler products, either wine- or malt beverage- based, in less than four-pack quantities.
- (B) Pay Telephones: Pay telephones on the site of the establishment shall be required to be of the type that only allow outgoing calls and shall be located in a visible and well-lighted location.
- (C) Program: A “complaint response community relations” program established and maintained by the establishment conducting the Deemed Approved Activity may be required. The program may include the following:
- (1) Posting at the entry of the establishment providing the telephone number for the area commander of the local law enforcement substation to any requesting individual.
 - (2) Coordinating efforts with the police department to monitor community complaints about the establishment activities.
 - (3) Having a representative of the establishment meet with neighbors or the applicable neighborhood association on a regular basis and at their request attempt to resolve any neighborhood complaints regarding the establishment.
- (D) Activities: If appropriate the following activities may be prohibited on the premises: pool or billiard tables football or pinball games, arcade style video or electronic games coin-operated amusement devices.
- (E) Chilled Alcoholic Beverages: An Off-Sale Alcohol Outlet may be prohibited from maintaining refrigerated or otherwise chilled alcoholic beverages on the premises.
- (F) Hours of Operation: In an Off-Sale Alcohol Outlet, the sale of alcoholic beverages may be restricted to certain hours of each day of the week unless limited further by the State of California Department of Alcoholic Beverage Control.
- (G) Cups: In Off-Sale Outlets, the sale or distribution to the customer of paper or plastic cups in quantities less than their usual and customary packaging may be prohibited.

- (H) Signs: The following signs shall be required to be prominently posted in a readily visible manner on an interior wall or fixture, and not on windows, in English, Spanish and the predominant language of the patrons:
 - (1) “California State Law prohibits the sale of alcoholic beverages to persons under 21 years of age.”
 - (2) "No Loitering or Public Drinking."
 - (3) “It is illegal to possess an open container of alcohol in the vicinity of this establishment.”
- (I) Presentation of Documents: A copy of the Conditions of Approval and the California Department of Alcoholic Beverage Control license shall be required to be kept on the premises and presented to any City Enforcement Officer or authorized state or county official upon request.
- (J) Mitigating Alcohol Related Problems: The establishment shall be required to operate in a manner appropriate with mitigating alcohol related problems that negatively impact those individuals living or working in the neighborhood including but not limited to sales to minors, the congregation of individuals, violence on or near the premises, drunkenness, public urination, solicitation, drug-dealing, drug use, loud noise and litter.
- (K) Drug Paraphernalia: An Off-Sale Alcohol Outlet shall be prohibited from selling drug-tobacco paraphernalia products as defined in Health and Safety Code sections 11014.5 and 11364.5. “Drug Paraphernalia” means all equipment products and materials of any kind that are used intended for use or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, injecting, ingesting, inhaling, or otherwise introducing into the human body a controlled substance in violation of the California Uniform Controlled Substances Act commencing with California Health and Safety Code section 11000.
- (L) Loitering: The establishment’s operators or employees shall be required to discourage loiterers and to ask persons loitering longer than fifteen minutes to leave the area and contact local law enforcement officials for enforcement of applicable trespassing and loitering laws if persons requested to leave fail to do so.

- (M) Security Cameras: At least two 24-hour time lapse security cameras may be required to be installed and properly maintained on the exterior of the building at locations recommended by the Police Department. All criminal and suspicious activities recorded on this surveillance equipment must be reported to local law enforcement. To the extent allowed by law, the establishment operators may be required to provide any tapes or other recording media from the security cameras to the Police Department.
- (N) Security Guards: An establishment may be required to retain a specified number of security guards. The number of security guards shall vary based upon the specific facts and circumstances of each establishment site and operation. All security guards shall have all required state and City permits and licenses.
- (O) Prohibited Vegetation: Exterior vegetation shall not be planted or maintained that could be used as a hiding place for persons on the premises. Exterior vegetation may be planted and maintained in a manner that minimizes its use as a hiding place.
- (P) Window Obstructions: No more than 25% of windows or clear doors shall bear advertising of any sort, and all advertising signage shall be placed and maintained in a manner that ensures that law enforcement personnel have a clear and unobstructed view of the interior of the premises, including the area in which the cash registers are maintained, from the exterior public sidewalk or entrance.

**SECTION IX –
APPEALS FROM A DETERMINATION
ON AN APPLICATION FOR PERMIT**

Any applicant or other person aggrieved by a decision of the Planning Commission on an application for a Conditional Use Permit required by this Article may appeal the decision to the Mayor and Common Council pursuant to Development Code Chapter 19.52.

**SECTION X –
GROUNDS FOR CONDITIONAL USE PERMIT
SUSPENSION OR REVOCATION**

An alcoholic beverage sales activity establishment Conditional Use Permit may be suspended by the Planning Commission for up to one year or revoked after a noticed public hearing held pursuant to Development Code Chapter 19.52, for failure to comply with Operational Standards, training requirements or conditions imposed through the Conditional Use Permit.

Notice of intention to suspend or revoke shall be in writing and shall state the grounds therefore. Notice shall be mailed by U.S. First-Class Mail and Certified Mail Return Receipt Requested at least 10 days before the date of the hearing.

[Return to Municipal Code Contents]

SECTION XI – INVESTIGATIVE PROCEDURES OF POTENTIAL VIOLATION OF CONDITIONS OF APPROVAL

The City shall appoint an Administrative Hearing Officer pursuant to San Bernardino Municipal Code Chapter 9.93, to conduct hearings, make findings and determine whether violations of this Article, including the Operational Standards and Conditions of Approval, as well as whether undue negative impacts or public nuisance activities have occurred, are occurring or are likely to occur in the future. The assigned Administrative Hearing Officer shall exercise all powers relating to the conduct of the administrative hearing pursuant to San Bernardino Municipal Code Chapter 9.93.

Upon the City's receipt of a complaint from the public, Police Department, City official or any other interested person that a Conditional Use Permit activity is in violation of the Operational Standards and-or Conditions of Approval set forth in this Article, the following procedure shall be followed:

- (A) A City Enforcement Officer (any Police Officer or other City Enforcement Officer as listed in San Bernardino Municipal Code Chapter 9.93) shall assess the nature of the complaint and its validity by conducting an on-site observation and inspection of the premises to assess the activity's compliance with Operational Standards and-or Conditions of Approval.
- (B) If the Enforcement Officer determines that the activity is in violation of the Operational Standards and-or Conditions of Approval, the Enforcement Officer may issue an Administrative Citation or an Administrative Civil Penalties Notice, which then may be subject to a hearing by the Administrative Hearing Officer pursuant to San Bernardino Municipal Code Chapter 9.92 or 9.93.
- (C) Any Administrative Citation or Administrative Civil Penalties Notice issued under this section shall be issued, processed, and enforced in compliance with all of the provisions of San Bernardino Municipal Code Chapter 9.92 and 9.93, unless otherwise expressly provided by this Ordinance.
- (D) The Administrative Hearing Officer shall determine whether the activity is in compliance with the operational standards and-or Conditions of Approval. Based on this determination, the Hearing Officer may continue the Conditional Use permit status for the use in question, may impose Administrative Civil Penalties pursuant to San Bernardino Municipal Code Chapter 9.93 for violations of the Operational Standards and-or Conditions of Approval or may recommend that the Planning Commission revoke the activity's Conditional Use Permit. If the Hearing Officer determines instead to impose further, new conditions on the activity, such conditions shall be based upon the information then before the Hearing Officer. In reaching a determination as to whether a use has violated the Operational Standards or

[\[Return to Municipal Code Contents\]](#)

Conditions of Approval, or as to the appropriateness of imposing additional or amended conditions on a use, recommending suspension or revocation of a use, assessing administrative penalties, or the amount of Administrative Civil Penalties to assess, the Hearing Officer may consider:

1. The length of time the activity has been out of compliance with the Operational Standards and-or Conditions of Approval.
2. The impact of the violation of the Operational Standards and-or Conditions of Approval on the community.
3. Any information regarding the owner of the activity's efforts to remedy the violation of the operational standards and-or Conditions of Approval.

(E) "Efforts to Remedy" shall include, but are not limited to:

1. Timely calls to the Police Department that are placed by the owner of the Deemed Approved activity, his or her employees, or agents.
2. Requesting that those persons engaging in activities causing violations of the Operational Standards and or Conditions of Approval cease those activities, unless the owner of the activity, or his or her employees or agents feels that their personal safety would be threatened in making that request.
3. Making improvements to the activity's property or operations, including but not limited to the installation of lighting sufficient to illuminate the area within the use's property line, the installation of security cameras, the clearing of window obstructions, the cleaning of sidewalks and the abatement of graffiti within three days.

(F) If in the judgment of the Administrative Hearing Officer, the operations of the owner of the activity constitute a nuisance, the owner is unable or unwilling to abate the nuisance and the nuisance is shown to be a threat to the public health and safety of the surrounding neighborhood, the Hearing Officer may recommend that the Planning Commission suspend or revoke the activity's Conditional Use permit. All determinations, decisions, and conditions made or imposed regarding the use of a activity shall run with the land.

(G) The decision of the Administrative Hearing Officer shall become final and conclusive and shall not be subject to appeal to the Mayor and Common Council. Once the decision of the Administrative Hearing Officer becomes final, the time in which judicial review of the decision must be sought shall be governed by California Code of Civil Procedure Section 1094.6, or other applicable State Law.

[Return to Municipal Code Contents]

SECTION XII – APPEAL FROM SUSPENSION OR REVOCATION OF CONDITIONAL USE PERMIT

Any applicant or other person aggrieved by a decision of the Planning Commission from a suspension or revocation of a Conditional Use Permit may appeal the decision to the Mayor and Common Council pursuant to Development Code Chapter 19.52.

ARTICLE III – STANDARDS AND PROCEDURES FOR EXISTING DEEMED APPROVED ALCOHOLIC BEVERAGE SALES ACTIVITIES

SECTION I – PURPOSE

The purposes of these regulations are to protect and promote the public health, safety, comfort, convenience, prosperity and general welfare by requiring that alcoholic beverage sales activities that are legal nonconforming activities to comply with the Deemed Approved performance standards in this Chapter and to achieve the following objectives:

- (A) Protect surrounding neighborhoods from the harmful effects attributable to the sale of alcoholic beverages and to minimize the adverse impacts of nonconforming and incompatible uses.
- (B) Encourage businesses selling alcoholic beverages to operate in a manner that is mutually beneficial to other such businesses and other commercial and civic activities.
- (C) Provide a mechanism to address problems often associated with the public consumption of alcoholic beverages, such as litter, loitering, graffiti, unruly behavior and escalated noise levels.
- (D) Ensure that businesses selling alcoholic beverages are not the source of undue public nuisances in the community.
- (E) Ensure that sites where alcoholic beverages are sold are properly maintained so that negative impacts generated by these activities are not harmful to the surrounding environment in any way.

SECTION II – APPLICABILITY

The Deemed Approved alcoholic beverage sales regulations shall apply to all alcoholic beverage sales activities for on-site or off-site consumption existing and operating within the City on the effective date of this ordinance.

SECTION III – AUTOMATIC DEEMED APPROVED STATUS

All Alcoholic Beverage Sales Commercial Activities that were Legal Nonconforming Activities, on the effective date of this ordinance, whether or not previously granted a Conditional Use Permit by the City, shall automatically become Deemed Approved Activities as of the effective date of this ordinance and shall no longer be considered Legal Nonconforming Activities.

Each deemed approved activity shall retain its Deemed Approved status as long as it complies with the performance standards of this ordinance.

The occurrence of any of the following shall terminate the Deemed Approved status of the alcoholic beverage sales activity after notice and a hearing in accordance with Section VI below, and require the issuance of a Conditional Use Permit in order to continue the alcoholic beverage sales activity:

- (A) An existing alcoholic beverage sales activity changes its activity so that ABC requires a different type of license.
- (B) There is a substantial modification to the mode or character of operation.
- (C) As used herein, the phrase “substantial change of mode or character of operation” includes but is not be limited to the following:
 - 1. The off-site alcoholic beverage sales activity establishment increases the floor or land area or shelf space devoted to the display or sales of any alcoholic beverage.
 - 2. The on-site alcoholic beverage sales activity establishment increases the floor or land area or shelf space devoted to the display, sales or service of any alcoholic beverage.
 - 3. The off-site or on-site alcoholic beverage sales activity establishment expands the sale or service of any alcoholic beverages and-or increases the number of customer seats primarily devoted to the sale or service of any alcoholic beverages.
 - 4. The off-site or on-site alcoholic beverage sales activity establishment extends the hours of operation.
 - 5. The alcoholic beverage sales activity establishment proposes to reinstate alcohol sales after the ABC license has been either revoked or suspended for a period 90 days or greater by ABC.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

6. The alcoholic beverage sales activity voluntarily discontinues active operation for more than 90 consecutive days or ceases to be licensed by the ABC.

(D) A substantial change in the mode of character of operation shall not include:

1. Re-establishment, restoration or repair of an existing alcoholic beverage sales activity on the same premises after the premises have been rendered totally or partially inaccessible by a riot, insurrection, toxic accident or act of God, provided that the re-establishment, restoration or repair does not increase the sales or service of any alcoholic beverage, extend the hours of operation of any establishment or add to the capacity, floor or land area or shelf space devoted to alcoholic beverages of any establishment that sells or serves any alcoholic beverages.
2. Temporary closure for not more than ninety days in cases of vacation or illness or for purposes of repair, renovation, or remodeling if that repair, renovation, or remodeling does not change the nature of the premises and does not increase the sales or service of any alcoholic beverage, extend the hours of operation of any establishment, or add to the capacity, floor or land area, or shelf space devoted to alcoholic beverages of any establishment that sells or serves any alcoholic beverages.

- (E) Discontinuance. Once it is determined by the City that there has been a discontinuance of active operation for 90 consecutive days or a cessation of ABC licensing, it may be resumed only upon the granting of a Conditional Use Permit as provided in Article II. The property owner shall be notified by the City of the termination of the Deemed Approved status and shall be informed of the property owner's right to appeal the City's decision to the Administrative Hearing Officer.

SECTION IV – DEEMED APPROVED PERFORMANCE STANDARDS

The provisions of this section shall be known as the Deemed Approved performance standards. The purpose of these standards is to control dangerous or objectionable environmental effects of alcoholic beverage sales activities. These standards shall apply to all Deemed Approved alcoholic beverage sales activities that hold Deemed Approved status pursuant to this Article.

An alcoholic beverage sales activity ("Alcohol Outlet") shall retain its Deemed Approved status only if it conforms to all of the following Deemed Approved performance standards:

- (A) The Alcohol Outlet shall not cause adverse effects to the health, peace or safety of persons residing or working in the surrounding area.

[Return to Municipal Code Contents]

- (B) The Alcohol Outlet shall not jeopardize or endanger the public health or safety of persons residing or working in the surrounding area.
- (C) The Alcohol Outlet shall not allow repeated nuisance activities within the premises or in close proximity of the premises, including but not limited to disturbance of the peace, illegal drug activity, public drunkenness, drinking in public, harassment of passersby, gambling, prostitution, sale of stolen goods, public urination, theft, assaults, batteries, acts of vandalism, excessive littering, loitering, graffiti, illegal parking, excessive loud noises, especially in the late night or early morning hours, traffic violations, curfew violations, or lewd conduct.
- (D) The Alcohol Outlet shall comply with all provisions of local, state or federal laws, regulations or orders, including but not limited to those of the ABC, California Business and Professions Code §§ 24200, 24200.6, and 25612.5, as well as any condition imposed on any permits issued pursuant to applicable laws, regulations or orders. This includes compliance with annual City business registration fees.
- (E) The Alcohol Outlet's upkeep and operating characteristics shall be compatible with and not adversely affect the livability or appropriate development of abutting properties and the surrounding neighborhood.
- (F) A copy of these performance standards, any applicable ABC or City operating conditions, and any training requirements shall be posted in at least one prominent place within the interior of the establishment where it will be readily visible and legible to the employees and patrons of the establishment.
- (G) The owners and all employees of establishments involved in the sale of alcoholic beverages shall complete an approved course in Licensee Education on Alcohol and Drugs (LEAD), or other "Responsible Beverage Service" (RBS) training by October 21, 2011, or within 60 days of hire for employees hired after that date. To satisfy this requirement, the RBS course must be recognized by the California Department of Alcoholic Beverage Control. The RBS course shall include at a minimum the following: a review of ABC laws and regulations; administrative, criminal and civil liabilities; acceptable forms of identification; and how to identify minors and persons already intoxicated.

(Ord. MC-1358, 7-06-11)

1. Sit down restaurants that continue to serve menu items until closing and whose predominant function is the service of food and where the on-site sale of alcoholic beverages is incidental or secondary are exempt from this training requirement. An incidental bar or lounge shall be allowed for the convenience

[\[Return to Municipal Code Contents\]](#)

of dining patrons. (Establishments which are primarily a bar or lounge or have a bar or lounge area as a principal or independent activity are not included in this exemption.) Fraternal organizations and veterans clubs are exempt from this training requirement.

2. Retail outlets with 25 or more employees or containing 10,000 square feet or more, and subject to this training requirement may elect to send only supervisory employees to the RBS training, who would then be responsible for training all employees who are involved in the sale of alcoholic beverages.

SECTION V – NOTIFICATION TO OWNERS OF ESTABLISHMENTS CONDUCTING DEEMED APPROVED ACTIVITIES

The City’s Community Development Department shall notify the owner of each Deemed Approved activity, and also, if not the same, any property owner at the address shown on the City’s property tax assessment records, of the activity’s Deemed Approved status. The notice shall be sent by U.S. First Class Mail and Certified Mail Return Receipt Requested and shall include a copy of the performance standards in this Article with the requirement that they be posted in a conspicuous and unobstructed place visible from the entrance of the establishment for public review. This notice shall also provide that the activity is required to comply with all performance standards, and that the activity is required to comply with all other aspects of the Deemed Approved regulations. Should the notice be returned, then the notice shall be sent via regular U.S. Mail. Failure of any person to receive notice given pursuant to this Article shall not affect the Deemed Approved status of the activity.

SECTION VI - DEEMED APPROVED STATUS PROCEDURES

The City shall appoint an Administrative Hearing Officer pursuant to San Bernardino Municipal Code Chapter 9.93 to conduct hearings, make findings and determine whether violations of this Article, including the Deemed Approved performance standards, Conditions of Approval, undue negative impacts or public nuisance activity, have occurred, are occurring, or are likely to occur in the future. The assigned Administrative Hearing Officer shall exercise all powers relating to the conduct of the administrative hearing pursuant to San Bernardino Municipal Code Chapter 9.93.

Upon the City’s receipt of a complaint from the public, Police Department, City official or any other interested person that a Deemed Approved use is in violation of the performance standards set forth in this Article, the following procedure shall be followed:

- (A) A City Enforcement Officer shall assess the nature of the complaint and its validity by conducting an on-site observation and inspection of the premises to assess the activity’s compliance with performance standards.

[\[Return to Municipal Code Contents\]](#)

- (B) If the Enforcement Officer determines that the Deemed Approved activity is in violation of the performance standards, the Enforcement Officer may issue an Administrative Citation or an Administrative Civil Penalties Notice, which then may be subject to a hearing by the Administrative Hearing Officer pursuant to San Bernardino Municipal Code Chapters 9.92 or 9.93.
- (C) Any Administrative Citation or Administrative Civil Penalties Notice issued under this section shall be issued, processed, and enforced in compliance with all of the provisions of San Bernardino Municipal Code Chapters 9.92 and 9.93, unless otherwise expressly provided by this Ordinance.
- (D) The Administrative Hearing Officer shall determine whether the Deemed Approved activity is in compliance with the performance standards. Based on this determination, the Hearing Officer may continue the Deemed Approved status for the use in question, may impose Administrative Civil Penalties for violations of the performance standards pursuant to San Bernardino Municipal Code Chapter 9.93, may impose such reasonable conditions, including but not limited to the conditions listed in Article II, Section VIII above, as are in the judgment of the Hearing Officer necessary to ensure compliance with the performance standards and may suspend or revoke the Deemed Approved activity's Deemed Approved status. If the Hearing Officer determines instead to impose further, new conditions on the Deemed Approved activity, such conditions shall be based upon the information then before the Hearing Officer. In reaching a determination as to whether a use has violated the performance standards, or as to the appropriateness of imposing additional or amended conditions on a use, suspending or revoking a use, assessing Administrative Civil Penalties, or the amount of Administrative Civil Penalties to assess, the Hearing Officer may consider:
 - 1. The length of time the Deemed Approved activity has been out of compliance with the performance standards.
 - 2. The impact of the violation of the performance standard(s) on the community.
 - 3. Any information regarding the owner of the Deemed Approved activity's efforts to remedy the violation of the performance standard(s).
- (E) "Efforts to Remedy" shall include, but are not limited to:
 - 1. Timely calls to the Police Department that are placed by the owner of the Deemed Approved activity, his or her employees, or agents.
 - 2. Requesting that those persons engaging in activities causing violations of the performance standard(s) cease those activities, unless the owner of the Deemed Approved activity, or his or her employees or agents feels that their personal safety would be threatened in making that request.

[Return to Municipal Code Contents]

3. Making improvements to the Deemed Approved activity's property or operations, including but not limited to the installation of lighting sufficient to illuminate the area within the use's property line, the installation of security cameras, clear unobstructed windows, clean sidewalks and graffiti abated within three days.
- (F) If in the judgment of the Administrative Hearing Officer, the operations of the owner of the deemed Approved activity constitute a nuisance, the owner is unable to abate the nuisance and the nuisance is shown to be a threat to the public health and safety of the surrounding neighborhood, the Hearing Officer may suspend or revoke the activity's Deemed Approved status. Any continued operation of the business shall require a Conditional Use Permit approved by the Planning Commission. All determinations, decisions, and conditions made or imposed regarding the use of a Deemed Approved activity shall run with the land.
- (G) The decision of the Administrative Hearing Officer shall become final and conclusive and shall not be subject to appeal to the Mayor and Common Council. Once the decision of the Administrative Hearing Officer becomes final as provided in this Chapter, the time in which judicial review of the decision must be sought shall be governed by California Code of Civil Procedure Section 1094.6, or other applicable State Law.

ARTICLE IV - ALCOHOLIC BEVERAGE SALES ACTIVITY PENALTIES

- (A) Any person who violates, causes or permits another person to violate any provision of this ordinance is guilty of either an infraction or misdemeanor. Any person convicted of either an infraction or misdemeanor under the provision of this ordinance shall be punished by a fine, imprisonment or both according to Chapter 1.12 of the San Bernardino Municipal Code.
- (B) **Separate Offenses for Each Day:** Any violator shall be guilty of a separate offense for each and every day during any portion of which any violation of any provision of these regulations is committed, continued, permitted, or caused by such violator and shall be punishable accordingly.
- (C) **Any Violation a Public Nuisance:** In addition to the penalties provided in this section, any use or condition caused or permitted to exist in violation of any of the provisions of these regulations shall be and is declared to be a public nuisance and may be abated as such by the City.
- (D) **Injunction as Additional Remedy:** Any violation of any provision of these regulations shall be and is declared to be contrary to the public interest and shall at the discretion of the City, create a cause of action for injunctive relief.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- (E) Administrative Civil Penalties: In addition to any other penalties provided in this section, \$1,000.00 in Administrative Civil Penalties shall be imposed for each and every offense and for each and every day during any portion of which any violation of any provision of these regulations is committed, continued, permitted, or caused by such violator.
- (F) The City shall bill all persons liable for these Administrative Civil Penalties by mail showing the itemized cost of such chargeable service and requesting payment. Payment of the penalties shall be due within thirty 30 days of the date of the bill is deposited in the Mail. If full payment is not received within the required time for payment the bill will be delinquent and all persons liable for the penalties shall be charged interest at the maximum legal rate from the date the payment period expires and a further civil penalty in the amount of \$100.00 per day. The delinquent costs may be placed as a lien against the property or collected by the City in any manner authorized bylaw and are recoverable in a civil action filed by the City in a court of competent jurisdiction.
- (G) Liability for Expenses: In addition to the punishment provided by law a violator is liable for such costs expenses and disbursements paid or incurred by the City or any of its contractors in correction abatement and prosecution of the violation. Re-inspection fees to ascertain compliance with previously noticed or cited violations shall be charged against the owner of the establishment conducting the Deemed Approved Activity or owner of the property where the establishment is located. The Enforcement Officer shall give the owner or other responsible party of such affected premises a written notice showing the itemized cost of such chargeable service and requesting payment thereof. Should the bill not be paid in the required time, the charges shall be placed as a lien against the property.

C. AUTOMOBILE SALES

Automobile sales dealerships, new and-or used, in the City must conform with the intent of this Development Code and shall enhance and promote the image of the City. A Development Permit shall be required for automobile sales dealerships of new vehicles and a Conditional Use Permit shall be required for automobile sales dealerships of used vehicles, and all dealerships must be constructed in the following manner:

1. The minimum site area shall be 15,000 square feet, except CR-4 where one acre minimum is required.
2. All parts, accessories, etc., shall be stored within a fully enclosed structure.

3. Service and associated car storage areas shall be completely screened from public view.
4. All on-site lighting shall be stationary and directed away from adjoining properties and public rights-of-way.
5. All landscaping shall be installed and permanently maintained pursuant to the provisions of Chapter 19.28 (Landscaping Standards).
6. All on-site signage shall comply with the provisions of Chapter 19.22 (Sign Standards).
7. All loading and unloading of vehicles shall occur on-site and not in adjoining streets or alleys.
8. All vehicles associated with the business shall be parked or stored on-site and not in adjoining streets and alleys.
9. An adequate on-site queuing area for service customers shall be provided. Required parking spaces may not be counted as queuing spaces.
10. No vehicle service or repair work shall occur except within a fully enclosed structure. Service bays with individual access from the exterior of the structure shall not directly face or front on a public right-of-way.
11. All on-site parking shall comply with provisions of Chapter 19.24 (Off-Street Parking Standards). A parking plan shall be developed as part of the permit review process.
12. Every parcel with a structure shall have a trash receptacle on the premises. The trash receptacle shall comply with adopted Public Works Department standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least three sides by a solid wall six feet in height and on the fourth side by a solid gate not less than five feet in height. The gate shall be maintained in working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures.

D. AUTOMOBILE DISMANTLING

Automobile dismantling establishments are subject to Conditional Use Permit review and shall be constructed in the following manner:

1. The minimum site area shall be 15,000 feet.
2. The site shall be entirely paved, except for structures and landscaping, so that vehicles are not parked in a dirt or otherwise not fully improved area.
3. All landscaping shall be installed and permanently maintained pursuant to the provisions of Chapter 19.28 (Landscaping Standards).
4. All stored, damaged, or wrecked vehicles shall be effectively screened so as not to be visible from adjoining properties or public rights-of-way.
5. Service access shall be located at the rear or side of structure(s) and as far as possible from adjoining residential uses.
6. Repair activities and vehicle loading and unloading shall be prohibited on adjoining streets and alleys.
7. Service bays with individual access from the exterior of the structure shall not face the public right-of-way.
8. Every parcel with a structure shall have a trash receptacle on the premises. The trash receptacle shall comply with adopted Public Works Department standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least three sides by a solid wall six feet in height and on the fourth side by a solid gate not less than five feet in height. The gate shall be maintained in working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures.
9. All on-site lighting shall be stationary and directed away from adjoining properties and public rights-of-way.
10. All on-site signage shall comply with the provisions of Chapter 19.22 (Sign Standards).
11. All repair activities and operations shall be conducted entirely within an enclosed structure. Outdoor hoists shall be prohibited.
12. All repair facilities shall close all windows when performing body and fender work, hammering, sanding or other noise-generating activity. Exterior noise shall not exceed 65 dBA at the property line.

13. All on-site parking shall comply with the provisions of Chapter 19.24 (Off-Street Parking Standards). A parking plan shall be developed as part of the permit review process.
14. The premises shall be kept in a neat and orderly condition at all times.
15. All used or discarded automotive parts or equipment or permanently disabled, junked or dismantled vehicles shall be permanently screened from public view.
16. All hazardous materials resulting from the repair or dismantling operation shall be properly stored and removed from the premises in a timely manner. Storage, use and removal of toxic substances, solid waste pollution, and flammable liquids, particularly gasoline, paints, solvents and thinners, shall conform to all applicable federal, state and local regulations prior to issuance of a Certificate of Occupancy.

E. BONUS HEIGHT

Proposed structures within CR-2 zone shall have a maximum height limit of 100 feet. This section provides a special incentive to increase the maximum allowable height through a program which encourages such additional amenities as deemed desirable by the Commission. These amenities may include, but are not limited to, the following:

(Ord. MC-908, 8-16-94)

1. Mixed Use Developments (i.e., residential above commercial office and retail uses, restaurants, theaters, etc.);
2. Enhanced pedestrian activities;
3. Improved signage and additional landscaping;
4. Additional parking;
5. Ground level and second floor plazas;
6. Outdoor cafes;
7. Artistic sculptures and aquatic amenities; and
8. Day care facilities.

F. COMMERCIAL CANNABIS ACTIVITIES

Commercial Cannabis Activities are permitted in accordance with the provisions of SBMC Chapter 5.10 (Commercial Cannabis Activities)

(Ord. MC-1519, 7-17-19)

G. CONVENIENCE STORES

The retail sale of groceries, staples, sundry items and-or alcoholic beverages where the gross floor area is less than 5,000 square feet is subject to Conditional Use Permit review, and shall be constructed and operated in the following manner:

1. The minimum site area shall be 10,000 square feet.
2. The site shall have direct frontage along a major or secondary street. The site shall not have direct access on a local residential street.
3. One access drive may be permitted for each street frontage. The design and location of the access drive(s) shall be subject to the approval of the DRC.
4. No convenience store shall be located within a one-mile radius of another convenience store or less than 1,000 feet from an existing elementary, junior high school, or high school, as measured from one property line to another. Service stations that include a convenience store as an ancillary use are not subject to the distance restrictions from other convenience stores. Exceptions to the distance restrictions from schools may be considered on a case by case basis through the Conditional Use Permit Process, considering mitigating factors of circulation patterns, security and management plans and subject to recommendations from the affected school district.

(Ord. MC-1381, 12-19-12; Ord. MC-1345, 2-08-11;
Ord. MC-1210, 7-06-05; Ord. MC-963, 3-20-96)

5. All on-site lighting shall be energy efficient, stationary and directed away from adjoining properties and public rights-of-way.
6. All on-site signage shall comply with the provisions of Chapter 19.22 (Sign Standards).
7. All landscaping shall be installed and permanently maintained pursuant to the provisions of Chapter 19.28 (Landscaping Standards).

[Return to Municipal Code Contents]

8. All on-site parking shall comply with the provisions of Chapter 19.24 (Off-Street Parking Standards). A parking plan shall be developed as part of the permit review process.
9. The premises shall be kept in a neat and orderly condition at all times.
10. Every parcel with a structure shall have a trash receptacle on the premises. The trash receptacle shall comply with adopted Public Works Department standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least three sides by a solid wall six feet in height and on the fourth side by a solid gate not less than five feet in height. The gate shall be maintained in working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures.
11. If on-site dispensing of automotive fuels is provided, the design, location and operation of these facilities shall be consistent with the provisions of Section 19.06.030(2)(O)(Service Station Standards). Additionally, the cashier location shall provide direct visual access to the pump islands and the vehicles parked adjacent to the islands.
12. A bicycle rack shall be installed in a convenient location visible from the inside of the store.
13. Each convenience store shall provide a public restroom located within the store.
14. Public pay telephones provided on-site shall not be set up for incoming calls. Public telephones shall be featured with call out service only.
15. On-site video games may not be installed or operated on the premises.
16. A convenience store adjacent to any residentially designated district shall have a six-foot high decorative masonry wall along property lines adjacent to such districts.
17. All parking, loading, circulation aisles, and pump island bay areas shall be constructed with (PCC) concrete.

H. DAY CARE CENTERS

Refer to Section 19.04.030(2)(B).

I. DRIVE-THRU RESTAURANTS

This Section contains standards for drive-thru restaurants as well as prohibition of same in specified zones. Drive-thru restaurants are subject to Conditional Use Permit review.

1. Establishments providing drive-thru facilities may be permitted in the CG-1, CG-2, CG-3, CG-4, CR-2 (on properties in the Freeway Corridor Overlay Zone with frontage on 5th Street only) and CR-3 zones.

(Ord. MC-1436, 12-21-16; Ord. MC-1338, 11-16-10; Ord. MC-1098, 6-05-01)

2. Pedestrian walkways should not intersect the drive-thru drive aisles, but where they do, they shall have clear visibility, and they must be emphasized by enriched paving or striping.
3. Drive-thru aisles shall have a minimum 12-foot width on curves and a minimum 11-foot width on straight sections.
4. Drive-thru aisles shall provide sufficient stacking area behind menu board to accommodate a minimum of six cars.
5. All service areas, restrooms and ground mounted and roof mounted mechanical equipment shall be screened from view.
6. Landscaping shall screen drive-thru or drive-in aisles from the public right of way and shall be used to minimize the visual impact of readerboard signs and directional signs.
7. Drive-thru aisles shall be constructed with (PCC) concrete.
8. Parking areas and the drive-thru aisle and structure shall be set back from the ultimate curb face a minimum of 25 feet.
9. Menu boards shall be a maximum of 30 square feet, with a maximum height of seven feet, and shall face away from the street.

10. Drive-thru restaurants within an integrated shopping center shall have an architectural style consistent with the theme established in the center. The architecture of any drive-thru restaurant must provide compatibility with surrounding uses in form, materials, colors, scale, etc. Structure plans shall have variation in depth and angle to create variety and interest in its basic form and silhouette. Articulation of structure surface shall be encouraged through the use of openings and recesses which create texture and shadow patterns. Structure entrances shall be well articulated and project a formal entrance through variation of architectural plane, pavement surface treatment, and landscape plaza.

11. No drive-thru aisles shall exit directly onto a public right-of-way.

J. INDOOR RETAIL CONCESSION MALLS

Indoor retail concession malls are subject to a Conditional Use Permit and shall comply with the following standards:

1. Additional refuse containers may be required.
2. A centralized loading area is required.

3. A parking study may be required which addresses available off-street parking for establishments which are proposed for tenant suites within existing multi-tenant, commercial centers.
4. Indoor retail concession malls shall be considered to be one tenant for purposes of Development Code sign standards.

(Ord. MC-825, 3-17-92)

K. MICROBREWERIES-WINERIES

Microbreweries and wineries may be established subject to Minor-Conditional Use Permit review and shall be constructed in the following manner:

1. Fifty percent of the total building square footage may be used for production and storage of beer produced on the premises.
2. Accessory uses may include but are not limited to food-beverage service and live entertainment and are subject to a Conditional Use Permit.
3. All on-site parking shall comply with provisions of Chapter 19.24 (Off-Street Parking).
4. All on-site signage shall comply with the provisions of Chapter 19.22 (Sign Standards).
5. Service access shall be located at the rear or side of structure(s) and as far as possible from adjoining residential uses.

(Ord. MC-1381, 12-19-12; Ord. MC-997, 7-08-97)

L. MINI-MALLS

Mini-malls (small scale, up to 30,000 square feet, multi-tenant shopping centers) are subject to a Conditional Use Permit and shall comply with the following standards:

1. All development and operational standards outlined in Section 19.06.030(2)(F) (Convenience Stores), except for item numbers 4 and 17 shall apply.
2. The development shall provide internal continuity, uniformity, and compatibility relating to architectural design, vehicular and pedestrian access, and on-site provisions for landscaping, loading, parking, and signage.
3. To the extent feasible, the on-site vehicular circulation system shall provide continuity with adjacent and similar commercial developments.

[Return to Municipal Code Contents]

4. No outdoor displays or sale of merchandise shall be permitted. However, limited outdoor sales may be allowed pursuant to Chapter 5.22 of the Municipal Code.

(Ord. MC-972, 6-04-96)

5. Every parcel with a structure shall have a trash receptacle on the premises. The trash receptacle shall comply with adopted Public Works Department standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least three sides by a solid wall six feet in height and on the fourth side by a solid gate not less than five feet in height. The gate shall be maintained in working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures.

M. MINI-STORAGE

Mini-storage facilities are subject to a Conditional Use Permit and shall be constructed in the following manner:

1. The minimum site area shall be 20,000 square feet.
2. The site shall be entirely paved, except for structures and landscaping.
3. All on-site lighting shall be energy efficient, stationary and directed away from adjoining properties and public rights-of-way.
4. All landscaping shall be installed and permanently maintained pursuant to the provisions of Chapter 19.28 (Landscaping Standards).
5. All on-site signage shall comply with the provisions of Chapter 19.22 (Sign Standards).
6. The site shall be completely enclosed with a six-foot high solid decorative masonry wall, except for points of ingress and egress (including emergency fire access) which shall be properly gated. The gate(s) shall be maintained in good working order and shall remain closed except when in use.
7. No business activity shall be conducted other than the rental of storage spaces for inactive storage use.
8. All storage shall be located within a fully enclosed structure(s).
9. No flammable or otherwise hazardous materials shall be stored on-site.

[Return to Municipal Code Contents]

10. Residential quarters for a manager or caretaker may be provided in the development.
11. The development shall provide for two parking spaces for the manager or caretaker, and a minimum of five spaces located adjacent or in a close proximity to the manager's quarters for customer parking.
12. Aisle width shall be a minimum of 25 feet between buildings to provide unobstructed and safe circulation.
13. Every parcel with a structure shall have a trash receptacle on the premises. The trash receptacle shall comply with adopted Public Works Department standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least three sides by a solid wall six feet in height and on the fourth side by a solid gate not less than five feet in height. The gate shall be maintained in working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures.
14. Storage facilities located adjacent to residential districts shall have their hours of operation restricted to 7:00 A.M. to 9:00 P.M., Monday through Saturday, and 9:00 A.M. to 9:00 P.M. on Sundays.

**N. MIXED USE COMMERCIAL AND RESIDENTIAL DEVELOPMENT
(INCLUDING ARTIST COLONY AND COMBINATION RESIDENCE- OFFICE**

(Ord. MC-1218, 3-07-06)

Vertical and-or horizontal mixed-use developments containing a mix of office and retail uses, but no residential uses, are permitted in the CO, CG-1, CG-2, CG-3, CR-1, CR-2, CR-3, CH and CCS-1 zones. Horizontal and-or vertical mixed-use developments containing a mix of residential, commercial and-or office uses are permitted in the CO, CG-1, CG-2, CG-3, CR-1, CR-2, CR-3 and CCS-1 zones. Mixed-use development having commercial uses mixed with residential uses shall be constructed, maintained, and operated in the following manner:

1. Development Standards for mixed use development containing one or more dwellings, including live-work units, shall be as specified in Table 6.02 Commercial Zones Development Standards. Multi-family dwelling units in mixed use development containing commercial uses shall be constructed in compliance with Section 19.04.030 (2) (L) Multi-Family Housing Standards. Mixed use development not containing multi-family apartment dwelling units and containing only single family units, townhomes and-or condominium dwelling units and commercial land uses shall be exempt from Section 19.04.030 (2) L and be constructed in compliance with the following development standards:
 - a. Each dwelling unit shall provide a minimum of 300 square feet of private useable open space (which may include private (walled) patio, balcony, and-or roof deck). Private useable open space areas shall not include: right-of-ways; vehicle parking areas; areas adjacent to or between any structures less than six feet apart, required front, rear, and side yard setbacks from property lines; or keep slope areas greater than six percent.
 - b. Each non-live-work dwelling unit shall have a private (walled) patio, balcony, and-or roof deck not less than 150 square feet in area and having a minimum width of 10 feet and depth of 10 feet.
 - c. Mixed use developments containing one or more dwelling units, including live-work units, shall provide recreational amenities, within the site which may include: a swimming pool; spa; clubhouse; tot lot with play equipment; picnic shelter–barbecue area; court game facilities such as tennis, basketball, or racquetball; improved softball or baseball fields; or, daycare facilities. The type of amenities shall be approved by the Director and provided according to the following schedule:

Units	Amenities
0 – 11	0
12 – 50	1
51 – 100	2
101 – 200	3
201 – 300	4

Add one amenity for each 100 additional units or fraction thereof.

- d. Locations of Off-Street Parking. Spaces for residential uses shall be located within 150 feet from the dwelling unit (front or rear door) for which the parking space is provided.
 - e. Private Enclosed Storage Approaches. Each dwelling unit in a mixed use development shall be provided a minimum of 150 cubic feet of private enclosed storage space within the garage, or immediately adjacent to the dwelling unit.
 - f. Community Entry Driveway Approaches. Driveway approaches accessing a public street in a mixed use development of 12 or more units shall be delineated with interlocking pavers, rough-textured concrete, or stamped concrete.
 - g. Washing Machine and Dryer. Each dwelling unit shall be plumbed and wired for a washing machine and dryer.
 - h. Building Separation. The distance between buildings containing one or more dwelling units in a mixed use development shall be a minimum of 6 feet (excluding roof overhangs and fireplace chimneys); and, at a minimum, shall comply with the requirements of the City's building code. A live-work unit that does not have a wall or roof in common with any other building or structure may either be constructed with no side yard separation of distance between units (i.e., double exterior walls separating units), or shall be a minimum of six feet (excluding roof overhangs and fireplace chimneys). Notwithstanding the above, the distance between dwelling units separated by an entry courtyard and facing another structure shall be a minimum of 15 feet. In the event that the front of the units are internally oriented to face one another, then a minimum 15-foot building separation is required between the fronts of the units.
 - i. The maximum structure height in the CG-2 and CG-3 zones shall be four stories (not to exceed 56 feet).
2. Land Use Activities in Mixed Use Buildings Having Residential Units. Land use activities where residential and commercial land use activities are allowed to mix shall be any land use activity permitted by right and-or subject to approval of a Conditional Use Permit in the land use district governing the premises; provided, however, that in order to enhance the success of businesses in mixed use buildings and protect the health and safety of persons who reside in a mixed use building, the following land use activities shall not be permitted:
- a. Automotive related uses,

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- b. Boarding-lodging facilities,
- c. Home improvements with outdoor display,
- d. Indoor retail concession malls,
- e. Mini-malls
- f. Nurseries-garden supplies,
- g. Publishing-printing plants,
- h. Recycling facilities,
- i. Recycling facilities (reverse vending only),
- j. Veterinary services-animal boarding,
- k. Funeral parlors-mortuaries,
- l. Single-price overstock-discount stores,
- m. Adult-oriented businesses (see Section 19.06.030(2)(A) for specific definition of terms,
- n. Turkish baths,
- o. Commercial saunas,
- p. Fortune tellers,
- q. Tattoo parlors and-or body piercing studios,
- r. Aroma therapy boutiques,
- s. Oxygen boutiques,
- t. Second hand stores-thrift stores
- u. Check-cashing facilities, and
- v. Pawn shops

3. Home Occupations are allowed in compliance with Chapter 19.54 in townhome, condominium, and detached single family units only.
4. Parking Requirements. As specified for each use in the Development Code.
5. Signage. A signage program shall be submitted as part of the site development permit application package, addressing proposed monument, ladder and-or individual property signage.
6. Public Telephones. Exterior public pay telephones are prohibited.
7. Conditions, Covenants, and Restrictions (CC&Rs). CC&Rs shall be reviewed and subject to the approval of the Development Services Deputy Director-City Planner. The CC&Rs shall list restricted uses. At a minimum, the property owners association will be responsible for maintaining concrete and asphalt paved areas, fences and walls, and landscape areas exterior to private yards and private open space; and common areas. The property owners association will be responsible for controlling hours of business, visitor and guest parking, and enforcing standards established for the exterior of the structures.
8. Live-Work Units. A dwelling constructed, maintained, and operated having commercial and residential uses is classed as a Live-Work Unit and shall adhere to the requirements for Mixed Use Residential and Commercial Development, with the following standards and exceptions:
 - a. Permitted Dwelling Types. Live-work units shall be townhome, condominium and-or detached single family units only.
 - b. Commercial Land Use Activities in Live-Work Units. The following land use activities shall not be permitted in live-work units:
 - 1) Night clubs-bars-lounges,
 - 2) Entertainment-recreation,
 - 3) Medical-care facilities-social services,
 - 4) Tanning salons,
 - 5) Dry cleaners,
 - 6) Health-athletic clubs,

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- 7) Laundromats (self-serve),
 - 8) Convenience stores,
 - 9) Drug stores,
 - 10) Supermarkets,
 - 11) Liquor stores,
 - 12) Mobile home sales, and
 - 13) Religious facilities.
- c. Minimum Dwelling Size Standards. The minimum dwelling unit area for each live-work unit shall be not less than 1,000 square feet, exclusive of work area; and the minimum dwelling unit area for Artist Colony dwelling units shall not be less than 750 square feet.
- d. Hazardous Activities. Storage of hazardous materials necessary for work activities in live-work units may be stores in controlled areas per the current Uniform Building Code-Uniform Fire Code used by the City of San Bernardino. Hazardous activities including but not limited to welding, open flame, or storage of flammable liquids, storage of hazardous materials, or similar hazardous operations are not permitted in live-work units without express written approval from the Fire Department, which shall impose the appropriate requirements for such approval.
- e. Open Space. Each live-work unit shall provide a minimum 300 square feet of useable private open space; or, a minimum of 120 square feet of usable private open space and 300 square feet of common useable open space. Useable private open space areas may include private (walled) patios, balconies, and-or roof decks. Useable private open space areas shall not include right-of-way, private streets or driveways, vehicle-parking areas, required setbacks from property lines, or slope areas greater than 6 percent.
- f. Entries. With the exception of Artist Colony units, the work area in a live-work unit is required to have either separate access entry or, if approved by the Director, a shared live-work entry on the grade level of the unit. Each live-work unit shall be provided a primary entry from common areas such as hallways, corridors, and-or exterior portions of the building such as courtyards, breezeways, parking areas, and public spaces.

[Return to Municipal Code Contents]

- g. Work Area. With the exception of Artist Colony units, each live-work unit shall have a minimum of 300 square feet of floor area designed and constructed as work area.
- h. Walls Facing Street and-or Parking Lot. Excluding professional live-work units, ground floor exterior walls facing a street and-or a parking lot shall have one store front window having a minimum height of 3 feet and width of 5 feet.
- i. Vehicle Parking Requirements. One space for each 250 square feet of cumulative gross floor area of work area in the live-work units in the mixed use development; and 2 covered spaces within an enclosed garage for each live-work unit, plus 1 uncovered off-street guest parking space for every 5 live-work units.
- j. Tandem Parking. Unattended tandem parking will be permitted if the Deputy Director-City Planner determines that such parking would be appropriate and effectively used.
- k. Loading spaces are not required for the commercial components of a live-work unit provided the work area of the live-work unit does not exceed 700 square feet of floor area.
- l. Noise. Noise levels generated by a live-work unit shall conform to the requirements of the Municipal Code for residential use.
- m. Business Hours. Hours of operation for businesses serving customers on-site from live-work units shall be limited to 7:00 a.m. to 7:00 p.m. Monday through Friday, and from 9:00 a.m. to 5:00 p.m. Saturday and Sunday.
- n. No Separation Sale or Rental. No portion of a live-work unit may be separately rented or sold as a commercial space for a person or persons not living in the premises or as a residential space for a person or persons not working in the same unit.
- o. Businesses in Live-Work Units. Conducting a business in the work area of a live-work unit is an opportunity for those whose home-based businesses will blend with the unique environment. Conducting a business in the work area is not required.
- p. Arcade-Pinball and Arcade Video Games. On-site arcade-pinball machines and arcade video games may not be installed or operated in the work area of a live-work unit.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- q. Employment. A business conducted in a work area of a live-work unit may have on the premises at any given time a maximum of three part-time and-or full-time employees, or a combination not exceeding four employees on the premises. There is no limit to resident-family-member-employees.
 - r. Pre-wired. Each live-work unit shall have a minimum of 200 amp electric service. Each live-work unit shall be pre-wired for telephone, cable television, and computer Internet. Each live-work unit shall be pre-wired for a security system approved by the Police Department.
9. Professional Live-Work Unit. A dwelling constructed, maintained, and operated having commercial uses restricted to Studio-Artist and Creative-Tech-based offices and services, and-or Professional offices and services (including combination residence-office), and primarily non-retail uses in the work area, is classed as a Professional Live-Work unit.
- a. The following types of live-work units are Professional Live-Work Units:
 - 1) Studio-Artist and Creative-Tech-based offices and services. Activities in these live-work units include, but are not limited to, artist studios and non-traditional live and work space for technology art and graphics-based professional activities and services such as web and software-based application and development, animation, multimedia development, programming, research, and other similar uses which do not require intensive customer traffic.
 - 2) Professional offices and services. Activities in these live-work units include, but are not limited to, tax preparation, accounting, financial planner, architecture, landscaping architecture, engineering and planning consultant services, graphic and arts, attorney, chiropractor, internet or web oriented businesses, and other similar uses which do not require intensive customer traffic.
 - b. Professional Live-Work Units (including but not limited to Combination Residence-Office in the CO zone) shall be constructed, maintained, and operated as live-work units, with the following additional standards and exceptions:
 - 1) Land use activities in professional live-work units. Residential uses shall be condominium, townhome, and-or single family detached dwellings only. In addition to the land use activities prohibited in live-work units, no retail sales shall occur in a live-work unit designated as a “professional live-work unit” unless the sales

products are jewelry, art products such as ceramics, paintings, graphics, pottery, sculpture, photography, or similar products, and-or the products of the occupant's primary business located in the work area on the premises.

- 2) Occupancy. The residential portion of a Professional Live-Work unit shall only be occupied by the individual and his-her family that has their professional occupation or business established in the work areas of said unit.
- 3) Signage shall be restricted to signage attached to the dwelling and shall not exceed three (3) square feet for each dwelling unit containing a business.
- 4) Parking Requirements. One space for each 500 square feet of cumulative gross floor area; and 2 covered spaces in an enclosed garage for each professional live-work unit.

O. MOBILE VENDORS

Mobile vendors are permitted by temporary use permits only, in accordance with the provisions of Chapter 19.70.

(Ord. MC-1363, 8-02-11)

P. MULTI-FAMILY HOUSING

Refer to Section 19.04.030(2)(L).

Q. NEIGHBORHOOD GROCERY STORES

(Ord. MC-1093, 3-05-01)

Neighborhood Grocery Stores (with or without alcohol) may be established subject to Conditional Use Permit and shall be operated in the following manner:

1. A maximum of seventy-five (75) square feet of the sales area may be used for the display or sale of alcohol.
2. The primary business must be a full service grocery store (fresh fruit, vegetables, meat and fish) with food preparation facilities on site.
3. No gasoline sales are allowed.

[Return to Municipal Code Contents]

4. The hours of operation are limited to 7:00am to 9:00pm.
5. The sale of alcohol is limited to off-sale of beer and wine only, with no single sales.
6. All parking shall comply with provision of Chapter 19.24 (Off-Street Parking).
7. All signage shall comply with the provisions of Chapter 19.22 (Sign Standards).
8. Periodic inspections may be required.

R. RECYCLING FACILITIES FOR REUSABLE DOMESTIC CONTAINERS
 (Amended by Ord. MC-1430, 11-10-16)

Recycling facilities are subject to permit review in all commercial and industrial zones according to the following schedule:

Type of Facility	Zones Permitted	Permit Required
Reverse Vending Machine(s)	All Commercial and Industrial	Development Permit and up to 5 reverse vending machines
Small Collection	CG-1, CG-2, CR-3 (So. of I-10) & All Industrial	Development Permit
Large Collection	CH and All Industrial	Conditional Use Permit
Light Processing	All Industrial	Conditional Use Permit
Heavy Processing	All Industrial	Conditional Use Permit

1. For the purposes of this Section, the following definitions shall apply:
 - a. Collection Facility. A center for the acceptance by donation, redemption or purchase of recyclable materials from the public, which may include the following:
 - 1) Reverse vending machine(s);

- 2) Small collection facilities which occupy an area of less than 500 square feet and may include:
 - a) A mobile unit;
 - b) Bulk reverse vending machines occupying more than 50 square feet; and
 - c) Kiosk-type units which may include permanent structures.
- 3) Large collection facilities which may occupy an area of more than 500 square feet and may include permanent structures.
 - b. Mobile Recycling Unit. An automobile, truck, trailer, or van, licensed by the Department of Motor Vehicles which is used for the collection of recyclable materials, including bins, boxes, or containers transported by trucks, vans, or trailers, and used for the collection of recyclable materials.
 - c. Convenience Zones. An area within a ½ mile radius of a supermarket.
 - d. Supermarket. A full-service, self-service retail store with gross annual sales of 2,000,000 dollars or more, and which sells a line of dry grocery, canned goods, or non-food items and some perishable items.
 - e. Processing Facility. A building or enclosed space used for the collection and processing of recyclable materials to prepare for either efficient shipment, or to an end-user's specifications by such means as baling, briquetting, compacting, flattening, grinding, crushing, mechanical sorting, shredding, cleaning and remanufacturing. Processing facilities include the following:
 - 1) Light processing facility occupies an area of under 45,000 square feet of collection, processing and storage area, and averages two outbound truck shipments per day. Light processing facilities are limited to baling, briquetting, crushing, compacting, grinding, shredding and sorting of source separated recyclable materials sufficient to qualify as a certified processing facility. A light processing facility shall not shred, compact, or bale ferrous metals other than food and beverage containers.
 - 2) A heavy processing facility is any processing facility other than a light processing facility.

- f. Recycling Facility. A center for the collection and-or processing of recyclable materials. A certified recycling facility or certified processor is certified by the California Department of Conservation as meeting the requirements of the California Beverage Container Recycling and Litter Reduction Act of 1986. A recycling facility does not include storage containers located on a residential, commercial or manufacturing designated parcel used solely for the recycling of material generated on the parcel.
- g. Recycling or Recyclable Material. Reusable domestic containers including but not limited to metals, glass, plastic and paper which are intended for reuse, remanufacture, or reconstitution for the purpose of using in altered form. Recyclable material does not include refuse or hazardous materials.
- h. Reverse Vending Machine. An automated mechanical device which accepts at least 1 or more types of empty beverage containers including, but not limited to aluminum cans, glass and plastic bottles, and issues a cash refund or a redeemable credit slip with a value not less than the container's redemption value as determined by the State. A reverse vending machine may sort and process containers mechanically provided that the entire process is enclosed within the machine. In order to accept and temporarily store all container types in a proportion commensurate with their relative redemption rates, and to meet the requirements of certification as a recycling facility, multiple grouping of reverse vending machines may be necessary.

A bulk reverse vending machine is a reverse vending machine that is larger than 50 square feet, is designed to accept more than 1 container at a time and will pay by weight instead of by container.

- i.. Unattended Collection Boxes

(Added by Ord. MC-1430, 11-10-16)

The purpose of this section is to enact and enforce standards for "Unattended Collection Boxes" located within the City limits. Nothing in this chapter shall preempt or make inapplicable any provision in state or federal law.

- 1. **"Director"** means the Director of the City of San Bernardino Community Development Department or his/her designee.
- 2. **"Operator"** means any person or entity who maintains "Unattended Collection Boxes" to solicit salvageable personal property as defined herein.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

3. **"Permittee"** means a property owner who is issued a permit authorizing the placement of an Unattended Collection Box on his/her property.
 4. **"Property Owner"** means the person who owns the real property where the "Unattended Collection Box" is located or is proposed to be located.
 5. **"Residential District"** means zones designated as RE, RL, RS, RU, RM, MH or RH by the City of San Bernardino Planning Department.
 6. **"Commercial District"** means zones designated CO, CG-1, CG-2, CG-3, CR, CR-2, CR-3, CR-4, or CH by the City of San Bernardino Planning Department.
 7. **"Unattended Collection Box"** means any unattended container, receptacle, product lockers or similar device that is located on any lot or property within the City for the purpose of soliciting and collecting clothing or other salvageable personal property. This term does not refer to recycle bins for the collection of recyclable material governed or regulated by the zoning code, or any unattended collection box located within a building.
2. The standards for recycling facilities are as follows:
- a. Reverse vending machine(s) located within a commercial structure shall require a Development Permit, shall not require additional parking spaces for recycling customers, and may be permitted in all commercial and industrial zones subject to compliance with the following standards:
 - 1) Shall be installed as an accessory use to a commercial use which is in full compliance with all applicable provisions of this Development Code and the Municipal Code;
 - 2) Shall be located within 30 feet of the entrance to the commercial structure and shall not obstruct pedestrian or vehicular circulation;
 - 3) Shall not occupy parking spaces required by the primary use;
 - 4) Shall occupy no more than 50 square feet of floor space per installation, including any protective enclosure, and shall be no more than eight feet in height;

- 5) Shall be constructed and maintained with durable waterproof and rustproof material;
- 6) Shall be clearly marked to identify the type of material to be deposited, operating instructions, and the identity and phone number of the operator or responsible person to call if the machine is inoperative;
- 7) Shall have a sign area of a maximum of four square feet per machine, exclusive of operating instructions;
- 8) Shall be maintained in a clean, sanitary, and litter-free condition on a daily basis;
- 9) Operating hours shall be consistent with the operating hours of the primary use;
- 10) Shall be illuminated to ensure comfortable and safe operation if operating hours are between dusk and dawn; and
- 11) Shall maintain an adequate on-site refuse container for disposal of non-hazardous waste.

b. Small collection facilities that are required as Certified Recycling Centers by the California Public Resources Code or that are operated as drop boxes by valid non-profit organizations only, and which are located within applicable commercial and industrial zones shall be subject to a Development Permit, and comply with the following standards:

- 1) Shall be installed as an accessory use to an existing commercial use which is in full compliance with all applicable provisions of this Development Code and the Municipal Code;
- 2) Shall be no larger than 500 square feet and occupy no more than five parking spaces not including space that will be periodically needed for removal of materials or exchange of containers;
- 3) Shall be set back at least 10 feet from any public right-of-way, and not obstruct pedestrian or vehicular circulation;
- 4) Shall accept only glass, metals, plastic containers, papers and reusable items;
- 5) Shall use no power-driven processing equipment except for reverse vending machines;

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- 6) Shall use containers that are constructed and maintained with durable waterproof and rustproof material, covered when site is not attended, secured from unauthorized entry or removal of material, and shall be of a capacity sufficient to accommodate materials collected and collection schedule;
- 7) Shall store all recyclable material in the mobile unit vehicle and shall not leave materials outside of the unit when attendant is not present;
- 8) Shall be maintained in a clean and sanitary manner free of litter and any other undesirable materials, including mobile facilities;
- 9) Shall not exceed noise levels of 65 dBA as measured at the property line of adjacent residential land use districts;
- 10) Attended facilities shall not be located within 100 feet of any residential land use district;
- 11) Collection containers, site fencing, and signage shall be of such color and design so as to be compatible with and to harmonize with the surrounding uses and neighborhood;
- 12) Containers shall be clearly marked to identify the type of material which may be deposited; the facility shall be clearly marked to identify the name and telephone number of the facility operator and the hours of operation and display a notice stating that no material shall be left outside the recycling enclosure of containers;
- 13) Signs may be provided as follows:
 - a) Recycling facilities may have identification signs with a maximum of 15% per side of a structure or 16 square feet, whichever is greater. In the case of a wheeled facility, the side will be measured from the ground to the top of the container;
 - b) Signs shall be consistent with the character of their location; and
 - c) Directional signs, consistent with Chapter 19.22 (Sign Standards), bearing no advertising message may be installed with the approval of the Director if found necessary to facilitate traffic circulation or if the facility is not visible from the public right-of-way.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- 14) The facility shall not impair the landscaping required by Chapter 19.28 (Landscaping Standards) for any concurrent use;
 - 15) No additional parking space shall be required for customers of a small collection facility located at the established parking lot of the primary use. One space will be provided for the attendant, if needed;
 - 16) Mobile recycling units shall have an area clearly marked to prohibit other vehicular parking during hours when the mobile unit is scheduled to be present;
 - 17) Occupation of parking spaces by the facility and by the attendant shall not reduce available parking spaces below the minimum number required for the primary use unless all of the following conditions exist:
 - a) A parking study shows that existing parking capacity is not already fully utilized during the time the recycling facility will be on the site; and
 - b) The permit shall be reviewed at the end of 18 months.
 - 18) Small collection facilities shall not be 24 hour operations;
 - 19) Small collection facilities may be subject to landscaping and-or screening as determined by the review authority; and
 - 20) Shall maintain adequate refuse containers for the disposal of non-hazardous waste.
- c. A large collection facility which is larger than 500 square feet, or on a separate parcel not accessory to a "primary" use, which has a permanent structure is permitted in the commercial, and industrial zones, subject to a Conditional Use Permit, and the following standards:
- 1) The facility does not abut a parcel designated or planned for residential use;
 - 2) The facility shall be screened from the public right-of-way, within an enclosed structure;
 - 3) Structure setbacks and landscape requirements shall be those provided for the land use district in which the facility is located;

[Return to Municipal Code Contents]

- 4) All exterior storage of material shall be in sturdy containers which are covered, secured, and maintained in good condition. Outdoor storage shall be screened by a six-foot, solid decorative masonry wall. No storage, excluding truck trailers shall be visible above the height of the wall. No outdoor storage shall be permitted in the land use districts; which do not permit outdoor storage.
- 5) The site shall be maintained clean, sanitary and free of litter and any other undesirable materials, and will be cleaned of loose debris on a daily basis;
- 6) Space shall be provided on site for six vehicles to circulate and to deposit recyclable materials;
- 7) Four parking spaces for employees plus one parking space for each commercial vehicle operated by the recycling facility shall be provided on-site;
- 8) Noise levels shall not exceed 65 dBA as measured at the property line of adjacent residential land use districts;
- 9) If the facility is located within 500 feet of property designated, or planned for residential use, it shall not be in operation between 7:00 P.M. and 7:00 A.M.;
- 10) Any containers provided for after hours donation of recyclable materials shall be at least 50 feet from any residential land use district, permanently located, of sturdy rustproof construction, and shall have sufficient capacity to accommodate materials collected and be secure from unauthorized entry or removal of materials;
- 11) Donation areas shall be kept free of litter and any other undesirable material and the containers will be clearly marked to identify the type of material that may be deposited. The facility shall display a notice stating that no material shall be left outside the recycling containers;
- 12) The facility shall be clearly marked with the name and phone number of the facility operator and the hours of operation; identification and informational signs shall meet the standards of the land use district; and directional signs bearing no advertising message may be installed with the approval of the Director, if necessary to facilities traffic circulation; and

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- 13) Adequate refuse containers for the disposal of non-hazardous waste shall be permanently maintained on-site.
- d. Light processing facilities and large processors shall be permitted in all industrial zones subject to a Conditional Use Permit, and shall comply with the following standards:
- 1) The facility shall not abut a residentially designated parcel;
 - 2) In the CH or IE zones, processors shall operate within a completely enclosed structure;
 - 3) Power-driven processing shall be permitted provided all noise level requirements are met. Light processing facilities are limited to baling, briquetting, crushing, compacting, grinding, shredding and sorting of source-separated recyclable materials and repairing of reusable materials;
 - 4) A light processing facility shall be no larger than 45,000 square feet and shall have no more than an average of two outbound truck shipments of material per day and shall not shred, compact or bale ferrous metals other than food and beverage containers;
 - 5) Structure setbacks and landscaping requirements shall be those provided for the land use district in which the facility is located;
 - 6) All exterior storage of material shall be in sturdy containers or enclosures which are covered, secured and maintained in good condition. Storage containers for flammable materials shall be constructed of non-flammable material. No storage excluding truck trailers shall be visible above the height of the required walls;
 - 7) The site shall be maintained in a clean manner and free of litter and any other undesirable material(s). Loose debris shall be collected on a daily basis and the site shall be secured from unauthorized entry and removal of materials when attendants are not present;
 - 8) Space shall be provided on-site for the anticipated peak load of customers to circulate, park and deposit recyclable materials. If the facility is open to the public, a parking area shall be provided for a minimum of 10 customers at any one time;

- 9) One employee space shall be provided for each commercial vehicle operated by the processing center;
- 10) Noise levels shall not exceed 65 dBA as measured at the property line of residential land use districts;
- 11) If the facility is located within 500 feet of property designated or planned for residential use, it shall not be in operation between 7:00 P.M. and 7:00 A.M. The facility shall be administered by on-site personnel during the hours the facility is open;
- 12) Any containers provided for after-hours donation of recyclable materials shall be at least 100 feet from any residential land use district parcel, and shall be sturdy, rustproof construction, with sufficient capacity to accommodate materials collected, and shall be secure from unauthorized entry or removal of materials;
- 13) Donation areas shall be kept free of litter and any other undesirable material. The containers shall be clearly marked to identify the type of material that may be deposited. The facility shall display a notice stating that no material shall be left outside the recycling containers;
- 14) Signs shall be installed pursuant to Chapter 19.22 (Sign Standards). Additionally, the facility shall be clearly marked with the name and phone number of the facility operator and the hours of operation.
- 15) No dust, fumes, smoke, vibration or odor above ambient level shall be detectable from adjacent residentially designated parcels; and
- 16) The facility shall maintain adequate on-site refuse containers for the disposal of non-hazardous waste.

e. Unattended Collection Box Standards.

(Added by Ord. MC-1430, 11-10-16)

1. Physical Standards.

- i. Unattended Collection Boxes shall not be more than eighty-two (82) inches high, sixty (60) inches wide, and fifty (50) inches deep.

- ii. Unattended Collection Boxes shall be fabricated from durable metal and waterproof materials.
- iii. Unattended Collection Boxes shall not be electrically or hydraulically powered or mechanized.
- iv. Unattended Collection Boxes shall not become a fixture of the site and shall not be considered an improvement to real property.
- v. Unattended Collection Boxes shall require one dedicated parking spot for item drop-off and content retrieval.
- vi. Unattended Collection Boxes shall contain an opening with a tamper-restraint locking mechanism. Unattended Collection Boxes shall be secured in such a manner that the contents may not be accessed by anyone other than those responsible for the retrieval of the boxes contents.
- vii. Each Unattended Collection Box shall be maintained in good condition and appearance, and free of structural damage, holes, rust, graffiti, and chipping/peeling paint.
- viii. Unattended Collection Boxes shall not overflow at any time.
- ix. Items left next to or outside of the Unattended Collection Box shall be considered a nuisance. Such nuisance may be abated by the City at the Permittee's expense pursuant to San Bernardino Municipal Code 8.30.
- x. Permittee or Operator shall address all Unattended Collection Box maintenance issues within twenty- four (24) hours of notice from the City, including but not limited to graffiti, vandalism, and structurally - damaged boxes.
- xi. The Permittee or Operator shall inspect the Unattended Collection Box a minimum of once per week to empty the contents of the Unattended Collection Box and address any existing maintenance issues.
- xii. Operator and Permittee shall be responsible for disposing undesirable material or unwanted items in accordance with Municipal and State laws.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- xiii. The name, address, telephone number, email address and web address of the Operator shall be displayed on the front of each Unattended Collection Box in two-inch type face letters.
- xiv. Each Unattended Collection Box shall display its weekly pick up schedule. Pickup must be at least once a week as stated in this chapter.
- xv. No other signage or advertisements shall be allowed on box.
- xvi. Each Unattended Collection Box shall display the City of San Bernardino Business Permit number and a weatherproof copy of the permit granted pursuant to this chapter.
- xvii. Each Unattended Collection Box shall display the phone number of a City hotline provided by the Director in legible type with each number at least two inches in height.

2. Locational Standards.

- i. Unattended Collection Boxes shall not be located in, encroach onto, or obstruct any of the following:
 - a) Access to any parking
 - b) Pedestrian pathways or alternate pathways provided in accordance with the Americans with Disabilities Act
 - c) Emergency access or fire lanes
 - d) Marked drive aisles or on-site vehicular and pedestrian traffic circulation
 - e) Landscaped areas
 - f) Trash enclosures or access to trash enclosures
 - g) Setback areas required by law, including, but not limited to, front setback areas and street setbacks
 - h) Building exits

- ii Unattended Collection Boxes shall not be permitted on any unimproved parcel or where the principal use of land has been closed or unoccupied for more than thirty (30) consecutive days.
- iii Unattended Collection Boxes shall be placed on a surface that is paved, level, and free of dust.
- iv The location of the Unattended Collection Box shall not disrupt or impact any line-of-sight for pedestrians, bicyclists, or operators of motor vehicles.
- v. It shall be unlawful to locate any Unattended Collection Box less than 1,000 feet from the property line where another Unattended Collection Box is permitted.
- vi Only one (1) Unattended Collection Box shall be allowed per each City-approved parcel.
- vii Unattended Collection Boxes shall provide a minimum 100 foot setback from parcel line with properties that are residentially zoned or have existing residential uses.

3 Permits.

- i. It shall be unlawful and hereby declared a public nuisance for any person to place, operate, maintain or allow Unattended Collection Boxes on real property unless the property owner first obtains a permit pursuant to this chapter.
- ii. The permit application shall be made on a form provided by the Director or his/her designee and shall include all of the following information:
 - a) The name, physical address, email address, and telephone number of both the property owner and operator. Operator shall also provide its organization's website address where applicable.
 - b) The text of the disclosures that will be made on the Unattended Collection Box as required by this Chapter.

- c) The physical address of the property where the proposed Unattended Collection Box will be located, a drawing indicating the size of the Unattended Collection Box, and the proposed location of the Unattended Collection Box on said property.
 - iii. Each application shall be accompanied by a nonrefundable fee in the amount to be established by resolution of the Mayor and Common Council. This fee shall be in addition to any fee or tax imposed by the City pursuant to any other provision of this Code.
 - iv. All applications shall be filed with the Community Development Department.
 - v. Within sixty (60) days of receiving a completed application, the Community Development Department shall either issue a permit or deny the issuance of a permit.
 - vi. Unattended Collection Boxes that existed prior to the enactment of this chapter shall be subject to the same regulations herein.
 - vii. The Community Development Department shall not issue a permit unless the applicant has submitted a complete and accurate application accompanied by the applicable fee.
 - viii. When the Director denies an application, the Director shall provide a written statement to the Property Owner indicating the reasons for denial.
4. Term of Permit, Renewal of Permits.
- i. The permit year shall begin on January 1 each year and shall terminate on December 31 of the same calendar year. An annual permit issued between December 1 and December 31 of any year shall expire on December 31 of the following calendar year.

- ii. The permit shall be renewed annually. The application for renewal must be filed no later than thirty (30) days before permit expires.
 - iii. Permittee may apply for permit renewal by submitting a renewal application and a non-refundable annual renewal fee to the Director before the expiration of a current permit. The annual renewal fee shall be in the amount set by resolution of the Mayor and Common Council.
 - iv. The Director shall either approve or deny the renewal of a permit within sixty (60) days of receipt of the complete renewal application and payment of the renewal fee.
 - v. Prior to expiration of the permit, a Permittee may voluntarily cancel the permit by notifying the Director in writing of his or her intent to cancel the permit. The permit shall become void upon the Director's receipt of a written notice of intent to cancel the Permit.
 - vi. If a permit expires and is not timely renewed, the Unattended Collection Box must be removed from the property within ten (10) days of the expiration of the permit.
5. Revocation of Permit, Removal of Unpermitted Collection Boxes, Restitution of Fees.
- i. The Director shall have the right to revoke any permit issued here under for cause. Failure to comply with the provisions of this chapter or any other law shall constitute grounds for revocation of the permit. When the Director revokes a permit, the Director shall provide a written notification to the Permittee stating the specific grounds for revocation.

- ii. Upon revocation, the Unattended Collection Box shall be removed from the Permittee's real property within thirty (30) days.
- iii. Upon revocation of a permit, a Permittee shall be prohibited from applying for a permit for a period of one calendar year.

6. Permits Nontransferable.

- i. Permits under this chapter are nontransferable.

- A Permittee shall not transfer, assign or convey such permit to another person.

Any purported transfer, assignment, or conveyance of a permit issued under this chapter shall be considered null and void.

Appeals.

- i. When the Director denies a permit application or revokes an existing permit, the property owner may appeal the Director's determination to the Planning Commission within ten (10) days of the Director's decision. Appeals of the Director's determination must be made in writing with the Office of the City Clerk.

Liability.

- i. An Operator shall maintain a general liability insurance policy of a minimum of one million dollars (\$1,000,000.00) for the duration of the operation of an Unattended Collection Box at each site, to cover any claims or losses due to the placement, operation, or maintenance of the Unattended Collection Box. Operator's failure to maintain the required insurance coverage shall be grounds for revocation of the permit.

Violation and Penalty.

- i. Any person who violates, causes, or allows another person to violate any provision of this ordinance is guilty of either an infraction or misdemeanor. Any person convicted of an infraction or misdemeanor under the provision of this ordinance shall be punished by a fine, imprisonment, or both, according to Chapter 1.12 of the City of San Bernardino Municipal Code.

[Return to Municipal Code Contents]

- ii. In addition to any other penalties provided in this section, up to \$1,000.00 in Administrative Civil Penalties may be imposed for each and every day during any portion of which any violation of any provision of these regulations is committed, continued, permitted, or caused by such violator.
- iii. Nothing in this Chapter shall preclude the City from pursuing the remedies made applicable hereto elsewhere in this Municipal Code or under State law, including but not limited to, as applicable, revocation of permits, injunctive relief and removal of the Unattended Collection Boxes pursuant to Chapter 8.30 of the San Bernardino Municipal Code.
- iv Pursuant to Government Code section 38773, all unpaid expenses incurred by the City in connection with an action to abate a public nuisance shall be a lien against the property on which it is maintained and a personal obligation against the property owner

Severability.

- i. The provisions of this Chapter are severable, and, if any sentence, section or other part of this Chapter should be found to be invalid, such invalidity shall not affect the remaining provisions, and the remaining provisions shall continue in full force and effect.

S. SALES AND PRODUCTION OF HANDICRAFT ITEMS

Facilities providing for the sales and production of handicraft items may be established subject to Development Permit review and shall be constructed in the following manner:

- 1. The sales and production of handicraft items shall be permitted only on parcels located within both the CR-2 zone and the Main Street Overlay.
- 2. The retail and service operations shall be contained within the main structure which houses the primary use.
- 3. Retail and service operations shall occupy a minimum of 15% of the total building square footage.
- 4. Accessory items not produced on site may be sold on the premises in addition to those products manufactured, warehoused and-or assembled on the premises.
- 5. Outside storage of materials shall be prohibited.

(Ord. MC-997, 7-08-97)

[Return to Municipal Code Contents]

T. SENIOR CITIZEN-CONGREGATE CARE HOUSING STANDARDS

Refer to Section 19.04.030(2)(Q).

U. SERVICE STATION STANDARDS

Service stations are subject to a Conditional Use Permit and shall comply with the following standards:

1. New service stations shall be permitted only at the intersections of major and secondary arterials, and along major or secondary arterials with freeway off-ramps within the Freeway Corridor Overlay zone. Stations within the Freeway Corridor Overlay shall only be located at the intersection of the arterial with the New service stations shall be permitted only at the intersections of major and secondary arterials, and along major or secondary arterials with freeway off-ramps within the Freeway Corridor Overlay zone. Stations within the Freeway Corridor Overlay shall only be located at the intersection of the arterial with the freeway on- and off-ramps or with streets forming the boundary of the Freeway Corridor Overlay zone. A maximum of three service stations shall be permitted at each intersection, or on each side of the freeway along a major or secondary arterial with a freeway off-ramp within the Freeway Corridor Overlay zone, provided that at least one station offers only non-petroleum alternative fuel.

(Ord. MC-1381, 12-19-12; Ord. MC-1353, 7-06-11; Ord. MC-963, 3-20-96)

2. A minimum street footage of 100 feet on each street shall be provided.

Ord. MC-1400, 5-05-14

3. All activities and operations shall be conducted entirely within an enclosed structure, except as follows:
 - a. The dispensing of petroleum products, water and air from pump islands.
 - b. The provision of emergency service of a minor nature.
 - c. The sale of items via vending machines which shall be placed next to the main structure in a designated area not to exceed 32 square feet, and which must be screened from public view.

4. Pump islands shall be located a minimum of 20 feet from a street property line, however, a canopy or roof structure over a pump island may encroach up to 10 feet within this distance. Additionally, the cashier location shall provide direct visual access to the pump islands and the vehicles parked adjacent to the islands.
5. The maximum number of points of ingress-egress to any one street shall be 2.
6. There shall be a minimum distance of 30 feet between curb cuts along a street frontage.
7. No driveway may be located closer than 35 feet to the curb return.
8. The width of a driveway may not exceed 36 feet at the sidewalk.
9. On-site parking shall be provided at 1 space for each pump island, plus 1 space for each service bay.
10. Outside storage of motor vehicles is prohibited.
11. No vehicles may be parked on sidewalks, parkways, driveways or alleys.
12. No vehicle may be parked on the premises for the purpose of offering same for sale.
13. Landscaping shall comprise a minimum of 15% of the service station site area, exclusive of required setbacks, and shall be provided and permanently maintained according to the following regulations, as well as those contained in Chapter 19.28 (Landscaping Standards).
 - a. A minimum five-foot wide (inside dimension), six-inch high planter area shall be provided along interior property lines, except for openings to facilitate vehicular circulation to adjacent properties. Where adjacent to a periphery wall, trees planted not more than 16 feet apart shall be included in the planter areas.
 - b. A planter area of not less than 200 square feet shall be provided at the corner of 2 intersecting streets. Landscaping shall not exceed a height of 30 inches.
 - c. A minimum of 50 square feet of planter area shall be located along those portions of the main structure fronting on a public street.

- d. Additional landscaping may be required to screen the service station from adjacent properties.
14. All on-site signage shall comply with the provisions of Chapter 19.22 (Sign Standards).
15. Openings of service bays shall not face public rights-of-way and shall be designed to minimize the visual intrusion onto adjoining properties.
16. No used or discarded automotive parts or equipment, or disabled, junked or wrecked vehicles may be located in any open area outside the main structure.
17. Every parcel with a structure shall have a trash receptacle on the premises. The trash receptacle shall comply with adopted Public Works Department standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least three sides by a solid wall six feet in height and on the fourth side by a solid gate not less than five feet in height. The gate shall be maintained in working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures.
18. All light sources, including canopy, perimeter, and flood shall be energy efficient, stationary and shielded or recessed within the roof canopy so that the service station shall be indirectly visible and light is deflected away from adjacent properties and public rights-of-way. Lighting shall not be of such a high intensity as to cause a traffic hazard or adversely affect adjoining properties. No luminaire shall be higher than 15 feet above finished grade.
19. Where an existing service station adjoins property in a residential land use district, a six-foot high decorative masonry wall shall be constructed at the time the station requires a permit for the on-site improvement-modification. Materials, textures, colors and design of the wall shall be compatible with on-site development and adjoining properties. When the wall reaches the established front-yard setback line of a residentially designated lot abutting or directly across an alley from the service station, it shall decrease to a height of 30 inches.
20. Restroom entrances viewable from adjacent properties or public rights-of-way shall be concealed from view by planters or decorative screening.
21. Noise from bells or loudspeakers shall not be audible beyond the property line at any time.
22. All parking, loading, circulation aisles, and pump island bay areas shall be constructed with (PCC) concrete.

[Return to Municipal Code Contents]

V. SERVICE STATION CONVERSIONS

A structure originally constructed as a service station and which is proposed for conversion to another allowable use shall require upgrading and remodeling for such items as, but not limited to, removal of all gasoline appurtenances, removal of canopies, removal of pump islands, removal of gas tanks, removal of overhead doors, additional street improvements or modification of existing improvements to conform to access regulations, exterior remodeling, and any additional standards as required by this Development Code.

W. SINGLE FAMILY HOUSING, EXISTING

Additions, alterations and expansions to single-family units which legally existed in the commercial and industrial districts prior to June 3, 1991, shall comply with the RS, Residential Suburban, zone Standards.

(Ord. MC-823, 3-03-92)

X. SINGLE FAMILY-OFFICE CONVERSIONS

(Ord. MC-818, 1-07-92)

A structure originally constructed as a single family residence which is proposed for conversion to a low intensity office use shall require the following:

1. The building elevations and the landscaping between the front property line and the building front shall be maintained in their residential character.
2. Parking shall be provided to the rear of the structure. Access may be permitted from the original driveway if there is a minimum width of 10 feet.
3. Any trees with a trunk diameter greater than six inches shall be preserved. If it becomes necessary to remove a tree with a trunk diameter greater than six inches, each tree removed shall be replaced on a 2:1 ratio with 36-inch box trees.
4. If the rear property line abuts an alley, access to parking shall be provided from the alley whenever possible.
5. Where two or more single-family residences adjacent to one another are converted to office uses, reciprocal access and parking may be required.

[Return to Municipal Code Contents]

6. Parking spaces shall be provided as determined at project review. To the greatest extent possible, professional office parking requirements shall be met. Landscaping requirements may be reduced to provide adequate parking.
7. Unattended tandem parking will be permitted if it is determined such parking would be appropriate and effectively used.
8. Parking lot landscaping may be reduced to 5% of the parking area (plus setbacks) if it is deemed necessary in order to provide adequate parking spaces.
9. Loading spaces are not required.
10. A monument sign shall be permitted with the following standards:

Maximum height	4 feet.
Maximum area	16 square feet.
Minimum distance from property line	10 feet

No illumination shall be permitted.
11. The structure shall be made to conform to the provisions of the Uniform Fire Code and the Uniform Building Code for commercial structures.
12. Trash receptacles should be placed to the rear of the structure and screened from view. Location and size of receptacles will be determined at project review.

Y. SINGLE ROOM OCCUPANCY (SRO) FACILITIES

(Ord. MC-809, 10-08-91)

Single Room Occupancy (SRO) facilities are subject to Conditional Use Permit review and approval and shall conform to the following standards:

1. SROs shall not be located within 250 feet of a parcel which has a school for children, adult bookstore or theater, or liquor store.

(Ord. MC-878, 6-09-93)

2. SROs shall be located within ¼ mile of a bus stop.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

3. SROs shall comply with the following parking requirements: One space per full time SRO employee at maximum shift and 1 per 10 occupants.
4. Secured bicycle or motorcycle spaces shall be provided at a ratio of one space per 10 occupants.
5. Any design of a SRO project shall coordinate with and complement the existing architectural style and standards of the surrounding land uses and local community. If a design theme has become established in an area, this should be reflected in the design and scale of the SRO project.
6. An unrestricted drop-off-pick-up-loading-temporary parking area shall be provided near a single entry located adjacent to front entry-desk area.
7. Exterior common areas and/or open courtyards should be provided throughout the project. If common areas are made available, these areas should be designed to provide passive open space with tables, chairs, planters, or small garden spaces to make these areas useful and functional for the residents. Exterior common areas, including parking areas, should be illuminated with a minimum of two footcandles by low pressure sodium lighting from dusk to dawn.
8. Each SRO unit shall be provided with the following minimum amenities:
 - a. Adequate heating and air conditioning. (Window air conditioning units are not permitted. Air conditioning units may be installed for each SRO unit as long as they are flush with the exterior wall surface.)
 - b. Kitchen sink with garbage disposal.
 - c. Counter top measuring a minimum of 12 inches deep and 24 inches wide.
 - d. Space and proper wiring for a microwave and small refrigerator. (These appliances must be available for rent.)
 - e. Pre-wired for telephone and cable television.
 - f. Toilet and sink in a separate room that is a minimum of 20 square feet.
 - g. One bed space per person.
 - h. One closet per person.
 - i. One storage-desk arrangement per person.

[Return to Municipal Code Contents]

- j. Intercom system.
 - k. Lockable door, which is a minimum of 36 inches wide, opens inward, and has a reprogrammable key card access from a secured enclosed interior hallway or common area.
9. The maximum occupancy and minimum unit size (not including toilet compartments) shall be:
- 1 person - 150 square feet.
 - 2 persons - 175 square feet.

The maximum unit size shall be 325 square feet.

- 10. Elevators shall be required on new SROs which are 3 stories or more in height.
- 11. A full common kitchen facility shall be provided on each floor, if complete kitchens are not provided in each unit. Complete kitchen shall include a microwave, sink with garbage disposal, and refrigerator. Other cooking appliances or facilities shall be prohibited in each SRO unit, unless approved in writing by the management staff.

(Ord. MC-878, 6-09-93)

- 12. If complete bathrooms are not provided in each unit, shared showers shall be provided at a ratio of 1 per 7 occupants or fraction thereof on the same floor with interior lockable doors. These shall be directly accessible from indoor common areas or indoor hallways.
- 13. SRO facilities shall provide for 1 handicapped-accessible unit for every 25 units or fraction thereof for up to 100 units and 1 handicapped-accessible unit for every 40 units or fraction thereof for the number of units over 100.
- 14. At least 1 janitor closet and trash chute shall be provided on each floor.
- 15. Common laundry facilities shall be provided with 1 washer and 1 dryer for every 25 units or fraction thereof for up to 100 units and 1 washer and 1 dryer for every 50 units or fraction thereof for the number of units over 100. Keyed access for tenants only shall be provided. Defensible space concepts should be employed in the design and location of the laundry facility areas.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

16. Common furnished and secured indoor space shall be provided at the following ratios:

4.5 sq. ft. per 150 to 159 sq. ft. unit

4.0 sq. ft. per 160 to 169 sq. ft. unit

3.5 sq. ft. per 170 to 179 sq. ft. unit

3.0 sq. ft. per 180 and up sq. ft. unit

Common indoor space means all useable interior common areas not used for circulation or service facilities. Common indoor space includes lobby, recreation room or reading room.

17. Ingress and egress shall be strictly limited and monitored by the use of a front desk area which has a full view of the entry-lobby area, is staffed 24 hours a day, 7 days a week, and has an operational outdoor entry intercom system with intercoms in each unit and common areas. Entrance into the hallways of common areas where individual units are located shall be regulated by the front desk clerk through the use of "buzz-in" doors. Each resident and guest must be cleared by the front desk clerk before entry is permitted. The required secondary egress areas shall also be alarmed and monitored. A notice shall be posted in the common indoor lobby area regarding contact procedures to investigate code compliance problems. At least 1 pay telephone, a drinking fountain and individual mail boxes shall be provided in the lobby-front desk area.
18. An adequately sized supply room shall be provided with adequate security control.
19. SROs of any size shall be required to have fully automatic fire sprinkler systems with a central monitoring system, alarm and fire annunciator in compliance with Fire Department standards. A manual fire alarm system shall also be installed.
20. All provisions of the Uniform Building Code and Uniform Fire Code must be complied with for hotels. However, reasonable equivalent alternatives to Fire and Building Code requirements may be utilized, if approval is obtained from the Chief Building Official and Fire Chief on a case-by-case, item-by-item basis.
21. Defensible space concepts should be employed in the design and location of SROs.

[\[Return to Municipal Code Contents\]](#)

22. Interior hallways shall be brightly lit with at least 1 footcandle of lighting on the floor surface.
23. All lighting fixtures shall be vandal and graffiti resistant. All ground-floor exteriors and common areas, including hallways, elevators and shower facilities should be made graffiti resistant through the use of special paint, texturing, carpeting or other means as approved by the Police Department.
24. A Management Plan shall be submitted for review and approval, or approval with modifications as part of the Conditional Use Permit. This Plan shall be comprehensive and shall contain provisions as recommended by the Director of the Department of Planning and Building Services and as adopted by the Planning Commission. The failure of the property owner to comply with the Management Plan may be grounds for revocation of the Conditional Use Permit pursuant to San Bernardino Municipal Code Chapter 19.36.
25. Security provisions shall be provided in the following manner:
 - a. Video cameras equipped with infrared detectors must be strategically placed in all public areas including hallways, elevator entrances, lobby areas, garage areas, laundry areas, profit centers and other common areas, and monitored for internal security. The monitoring station may be at the front desk. In order to provide for adequate monitoring, the location and configuration of monitors is subject to review by the Police Department. NOTE: Infrared detectors are to activate a flashing light to help direct monitoring staff to a specific monitor and area of the facility.
 - b. Unit doors shall be equipped with interior locks and key card entrance systems which shall be reprogrammable.
 - c. Common shower area doors accessible through hallways shall be equipped with interior locks with access by a management master key. An emergency call button or pull cord shall be provided.
 - d. Front entry areas shall allow for adequate visual access into the front desk-lobby area by police from patrol cars.
 - e. Each room and all common areas shall have operable windows, except for the first floor which may be fixed, if a reasonable equivalent alternative is approved by the Chief Building Official and Fire Chief.

- f. Adequate measures shall be taken to provide for vehicle parking security including limited secured access by electronic wrought iron security gates and fencing or alternative materials compatible with the architectural style, night lighting and video camera monitoring. Override devices for gates shall be provided for the Police and Fire Department.
 - g. Pursuant to 19.06.030(2)(S)(26) or (27), if "failure by management" has occurred or violations of conditions of approval are found, then a private security guard may be required to be provided on a 24 hours a day basis. The security guard shall be fully uniformed, bonded, P.O.S.T. certified and licensed by the State to bear firearms.
 - h. Valid photo identification shall be required as a condition of registration. A valid photo identification is a state or official driver's license, a military identification card, an official state identification card or a San Bernardino Police Department registration card. Management shall post in the registration area signs declaring that photo identification is required for tenants and a valid identification for their guests (photo identification is not required, unless the guest is staying overnight), and that the registration information will be presented to the Police Department upon demand.
 - i. Management is to keep and maintain complete and accurate tenant registration cards in duplicate, including photocopies of required photo identification. Registration information shall include the name of the occupant, unit number, rental rate, vehicle type and vehicle license number. The duplicate copies of the registration cards shall be taken to the San Bernardino Police Department weekly. Registration information shall be provided to the Police Department upon demand.
26. A condition of approval of a SRO facility shall be in compliance with Municipal Code Chapter 5.82 (Business Permit Regulation's). A SRO facility with excessive drug or prostitution arrests may be brought before the Police Commission for review, with notice of that review meeting being sent to the SRO facility owner. If the Police Commission determines that a "failure by management" has occurred, in that a finding is made that excessive drug or prostitution arrests are occurring at the SRO facility, the Operators Permit issued to the SRO facility may be revoked pursuant to Municipal Code Chapter 5.82. Further operation of the SRO facility shall not occur without first processing and obtaining approval for a new Operators Permit.

27. Condition compliance inspections by the City may be made on an annual basis, and the costs of such inspections, up to \$5,000.00 adjusted annually for inflation, shall be paid by the SRO facility operator. Any violation(s) of the conditions of approval, municipal codes, or state or federal laws or regulations pertaining to SRO facilities, as they exist at the time of the inspection, shall be corrected within the time period(s) specified in the notice of violation. If the Director makes a finding that the corrections have not been made within the specified time period(s), the Conditional Use Permit and Operators Permit for the SRO facility may be revoked pursuant to the provisions in Chapter 19.36 and 5.82 of the Municipal Code.
28. The maximum number of SRO units to be brought into service within the City of San Bernardino after the effective date of the Development Code, shall be the number that accommodates 500 occupants. Prior to any proposed amendments to these SRO standards or to an increase in the maximum number of SRO units in service, the Department of Planning and Building Services shall present a report to the City Council with the following information: the number and location of permitted SRO projects, the number and capacity of existing SRO units, the average occupancy rate, the rent levels, the average number of vehicles per resident, and the perceived adequacies or deficiencies of the management services provided in the SRO facilities.
29. Existing motels, hotels or apartments shall not be permitted to convert to SROs.

(Ord. MC-878, 6-09-93)

Z. SOCIAL SERVICE USES-CENTERS

Refer to Section 19.04.030(2)(T).

(Ord. MC-1106, 10-02-01)

AA. HOTELS, MOTELS, B&BS, AND EXTENDED LODGING FACILITIES

(Ord. MC-1381, 12-19-12; Ord. MC-1126, 6-04-02)

1. Hotels, Motels and Bed & Breakfast Inns (B&Bs) are allowed in the CG-1, CG-2, CR-2, CR-3, and CCS-1 zones. Extended Lodging Facilities are allowed in the CR-2 and CR-3 zones.
2. All Hotels, Motels, Bed & Breakfast Inns (B&Bs), and Extended Lodging Facilities are subject to a Conditional Use Permit and shall comply with the following standards in addition to any conditions imposed by the Planning Commission.

[Return to Municipal Code Contents]

- a. Hotels and Extended Lodging Facilities shall provide guestrooms with voicemail, dataports, desk, laundry facilities, color television, alarm clock or wake up service. Hotels and Extended Lodging Facilities shall also make irons and ironing boards available to guests upon request. Motels shall provide guestrooms with voicemail, desk, color television, and alarm clock or wake up service.
 - b. The minimum lot size for a Hotel or Extended Lodging Facilities shall be one (1) acre, with a minimum of 100 rooms. The minimum room size for Hotels and Extended Lodging Facilities shall be 300 square feet. There shall be a minimum of 25 square feet per guestroom of meeting space for full service Hotels.
 - c. Hotels and Extended Lodging Facilities shall include at least one recreational facility, such as a pool, whirlpool-spa, or fitness room. Motels shall provide a pool.
 - d. A restaurant shall be provided for full service Hotels and a guest courtesy lounge (for snacks including vending machines) shall be provided for limited service Hotels and Extended Lodging Facilities.
 - e. Extended Lodging Facilities shall provide a 24-hour per day on-site supervisor, as designated by the owner-operator.
 - f. Hotels and Extended Lodging Facilities shall provide interior access to rooms. Motels can have access from walkways or the parking lot.
3. An application for a Conditional Use Permit for a Hotel, Motel, or Extended Lodging Facility shall be accompanied by a report with the following information.
 - a. Number of Hotel, Motel, and Extended Lodging Facility rooms available in the City;
 - b. Current rates structure of existing facilities in the City and-or the adjacent areas;
 - c. Proposed rate structure, including term (daily, weekly, etc.).
 4. Kitchens, kitchenettes and other cooking facilities shall not be permitted with Hotel or Motel units except the manager's unit. Kitchens, kitchenettes or other cooking facilities may be permitted within Extended Lodging Facilities.
 5. Housekeeping services including cleaning and linen service shall be made available daily to each guestroom, at the option of the guest.

[Return to Municipal Code Contents]

6. Leases and rental agreements of any duration are prohibited.
7. Hotels, Motels, and Extended Lodging Facilities cannot be used for a mailing address, voter registration, school registration, or listed for a personal phone number.
8. No existing Hotels or Motels can be converted to an Extended Lodging Facility.
9. Hotels, Motels, and Extended Lodging Facilities cannot be used for long-term occupancy for uses and facilities such as apartments, care facilities, boarding houses, and other similar uses and facilities, etc.
10. Hotels may have a maximum continuous length of stay of fourteen (14) days with a five-day interruption required before commencement of each such subsequent stay.
11. Motels may have a maximum continuous length of stay of fourteen (14) days with a five-day interruption required before commencement of each such subsequent stay.
12. Extended Lodging Facilities may have a maximum continuous length of stays as follows:
 - a. One hundred (100) % of the total guest rooms in the facility may be occupied by guests having a maximum length of stay of up to 30 days with a five-day interruption required before commencement of each such subsequent stay.
 - b. Fifteen (15) % of the total guest rooms in the facility may be occupied by guests having a maximum continuous length of stay of up to 90 days with a five-day interruption required before commencement of each such subsequent stay.
 - c. Five (5) % of the total guest rooms in the facility may be occupied by guests having a maximum continuous length of stay of up to 180 days with a five-day interruption required before commencement of each such subsequent stay.
 - d. Four (4) % of the total guest rooms in the facility may be occupied by guests having a maximum continuous length of stay of up to 270 days with a five-day interruption required before commencement of each such subsequent stay.
 - e. Two (2) % of the total guestrooms in the facility will be unlimited as to length of stay.

[Return to Municipal Code Contents]

13. No Hotel, Motel, or Extended Lodging Facility shall solicit or accept advance payment for more than seven (7) days lodging.
14. Compliance with the foregoing limitations will be determined on a year-to-year basis, based on average guest length of stay throughout each twelve (12) month period of operation on the applicable Extended Lodging Facility.
15. Operators of Hotels, Motels, and Extended Lodging Facilities shall provide the City with rental receipts, and related, pertinent information, within 3 days after request by any City official.
16. All of the provisions of this section of the Development Code Amendment, and applicable conditions of approval, shall be written in to the deed and recorded, prior to the issuance of a grading permit.

19.06.040 Applicable Regulations

All uses shall be subject to the applicable regulations of this Development Code, including, but not limited to Article IV, Administration provisions.

G19.06.050 COMMERCIAL DEVELOPMENT DESIGN GUIDELINES

1. GENERAL

The following design guidelines are intended as a reference framework to assist the designer in understanding the City's goals and objectives for high quality development within the commercial zones. The guidelines complement the mandatory site development regulations contained in this chapter by providing good examples of appropriate design solutions and by providing design interpretations of the various mandatory regulations.

The design guidelines are general and may be interpreted with some flexibility in their application to specific projects. The guidelines will be utilized during the City's design review process to encourage the highest level of design quality while at the same time providing the flexibility necessary to encourage creativity on the part of project designers.

Unless there is a compelling reason, these design guidelines shall be followed. If a guideline is waived by the Development Review Committee, the Mayor and Common Council shall be notified. An appeal, which does not require a fee, may be filed by the Mayor or any Council person within 15 days of the waiver approval.

2. APPLICABILITY

The provisions of this section shall apply to all commercial development within the City, except within the downtown area, CR-2 zone, which is regulated by the Main Street Overlay zone, and the area located within the Paseo Las Placitas Specific Plan which is subject to the guidelines contained in Chapter 19.10, Special Purpose zones. (Reso 92-135 4/6/92.) Any addition, remodeling, relocation, or construction requiring a building permit within any commercial zone subject to review by the Development Review Committee shall adhere to these guidelines where applicable.

[Return to 19.06]

3. GENERAL DESIGN PRINCIPLES

A. DESIRABLE ELEMENTS OF PROJECT DESIGN

The most desirable qualities and design elements for commercial structures include:

1. Richness of surface and texture
2. Significant wall articulation (insets, canopies, wing walls, trellises)
3. Multi-planed, pitched roofs
4. Roof overhangs, arcades
5. Regular or traditional window rhythm
6. Articulated mass and bulk
7. Significant landscape and hardscape elements
8. Prominent access driveways
9. Landscaped and screened parking
10. Comprehensive sign program

[Return to 19.06]

B. UNDESIRABLE ELEMENTS

The elements to avoid or minimize include:

1. Large blank, unarticulated stucco wall surfaces
2. Unpainted concrete precision block walls
3. Highly reflective surfaces
4. Metal siding on the main facade
5. Plastic siding
6. Square "boxlike" structures
7. Mix of unrelated styles (i.e. rustic wood shingles and polished chrome)
8. Large, out of scale signs with flashy colors
9. Visible outdoor storage, loading, and equipment areas
10. Disjointed parking areas and confusing circulation patterns

4. SITE PLANNING

Placement of structures should consider the existing built context of commercial area, the location of incompatible land uses, the location of major traffic generators as well as an analysis of a site's characteristics and particular influences.

- A. Structures should be sited in a manner that will complement the adjacent structures. Sites should be developed in a coordinated manner to provide order and diversity and avoid a jumbled, confused development.
- B. Whenever possible, new structures should be clustered. This creates plazas or pedestrian malls and prevents long "barracks-like" rows of structures. When clustering is impractical, a visual link between separate structures should be established. This link can be accomplished through the use of an arcade system, trellis, or other open structure.

**CLUSTER BUILDINGS ON THE SITE
TO CREATE PEDESTRIAN AREAS**

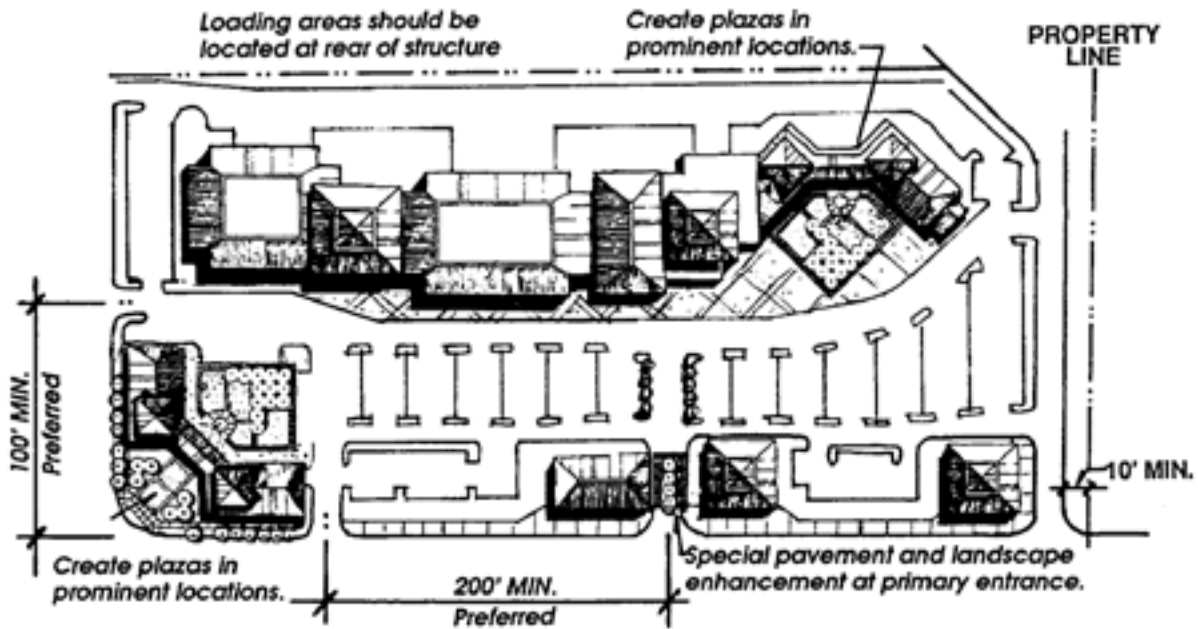

**DO NOT SEPARATE BUILDINGS
WITH PARKING LOTS**

- C. Locate structures and on-site circulation systems to minimize pedestrian/vehicle conflicts where possible. Link structures to the public sidewalk where possible with textured paving, landscaping, and trellises.
- D. Recognize the importance of spaces between structures as "outdoor rooms" on the site. Outdoor spaces should have clear, recognizable shapes that reflect careful planning and are not simply "left over" areas between structures. Such spaces should provide pedestrian amenities such as shade, benches, fountains, etc.

[Return to 19.06]

- E. Freestanding, singular commercial structures should be oriented with their major entry toward the street where access is provided, as well as having their major facade parallel to the street.
- F. Loading facilities should not be located at the front of structures where it is difficult to adequately screen them from view. Such facilities are more appropriate at the rear of the site where special screening may not be required.
- G. Open space areas should be clustered into larger, predominant landscape areas rather than equally distributing them into areas of low impact such as at building peripheries, behind a structure or areas of little impact to the public view, where they are not required as a land use buffer or as a required yard setback.

[Return to 19.06]

5. PARKING AND CIRCULATION

Parking lot design can be a critical factor in the success or failure of a commercial use. In considering the possibilities for developing a new parking area, a developer should analyze the following factors: ingress and egress with consideration to possible conflicts with street traffic; pedestrian and vehicular conflicts; on-site circulation and service vehicle zones; and the overall configuration and appearance of the parking area.

- A. Separate vehicular and pedestrian circulation systems should be provided. Pedestrian linkages between uses in commercial developments should be emphasized, including distinct pedestrian access from parking areas in large commercial developments, such as shopping centers.

- B. Parking aisles should be separated from vehicle circulation routes whenever possible.
- C. Common driveways which provide vehicular access to more than 1 site are encouraged.
- D. Angled parking is preferred over 90° parking.
- E. Parking areas shall be landscaped, receiving interior as well as perimeter treatment in accordance with the requirements of this Development Code.
- F. Parking areas should be separated from structures by either a raised concrete walkway or landscaped strip, preferably both. Situations where parking spaces directly abut the structures should be avoided.

[Return to 19.06]

- G. Shared parking between adjacent businesses and/or developments is highly encouraged whenever practical.
- H. Where parking areas are connected, interior circulation should allow for a similar direction of travel and parking bays in all areas to reduce conflict at points of connection.
- I. Whenever possible, locate site entries on side streets in order to minimize pedestrian/vehicular conflicts. When this is not possible, design the front site entry with appropriately patterned concrete or pavers to differentiate it from the sidewalks.
- J. Parking access points, whether located on front or side streets should be located as far as possible from street intersections so that adequate stacking room is provided. The number of access points should be limited to the minimum amount necessary to provide adequate circulation.

- K. Design parking areas so that pedestrians walk parallel to moving cars. Minimize the need for the pedestrian to cross parking aisles and landscape areas.

- L. Frontage roads should be provided for large projects on major arterials whenever possible.
- M. Parking areas and pedestrian walkways should be visible from structures to the greatest degree possible.
- N. The parking area should be designed in a manner which links the structures to the street sidewalk system as an extension of the pedestrian environment. This can be accomplished by using design features such as walkways with enhanced paving, trellis structures, or a special landscaping treatment.
- O. Parking areas which accommodate a significant number of vehicles should be divided into a series of connected smaller lots. Landscaping and offsetting portions of the lot are effective in reducing the visual impact of large parking areas.

[Return to 19.06]

- P. The first parking stall which is perpendicular to a driveway or first aisle juncture, should be at least 40 feet back from the curb. With larger centers, significantly more setback area may be required.

- Q. Utilize a 36-inch high opaque wall or landscaping to screen any parking at the street periphery. A combination of walls, berms, and landscape material is highly recommended. Where practical, lowering the grade of the parking lot from existing street elevations may aid in obscuring views of automobiles while promoting views of architectural elements of the structures beyond.

[Return to 19.06]

Design parking so that pedestrians walk parallel to moving cars.
 Minimize the need for pedestrians to cross traffic aisles.

Parking shall be separated from buildings, sidewalks, plazas, and landscaped area with a six inch curb.

In essence, buildings should be located on "islands" of turf or other landscape material.
 Parking adjacent to a building wall is prohibited.

Ensure that handicapped stalls close to the building entrance are provided

Driveway entries on separate properties should be located as far from one another as possible.

Common driveways which provide vehicular access to more than one site are encouraged.

Whenever possible, divide the parking into a series of smaller connected lots.

Driveway entries should be at least 25' wide and preferably 30' - 35' wide

[Return to 19.06]

6. LANDSCAPING

- A. Landscaping for commercial uses should be used to define specific areas by helping to focus on entrances to buildings and parking lots, define the edges of various land uses, provide transition between neighboring properties (buffering), and provide screening for loading and equipment areas.
- B. Landscaping should be in scale with adjacent structures and be of appropriate size at maturity to accomplish its intended purpose.
- C. Landscaping around the entire base of structures is recommended to soften the edge between the parking lot and the structure. This should be accented at entrances to provide focus.
- D. Trees should be located throughout the parking lot and not simply at the ends of parking aisles. In order to be considered within the parking lot, trees should be located in planters that are bounded on at least three sides by parking area paving.
- E. Landscaping should be protected from vehicular and pedestrian encroachment by raised planting surfaces, depressed walks, or the use of curbs. Concrete mow-strips separating turf and shrub areas are required per the development regulations.
- F. Vines and climbing plants integrated upon buildings, trellises, and perimeter garden walls are strongly encouraged. A few plants to consider for this purpose are: bougainvillea, grape ivy, and wisteria vines.
- G. Use boxed and tubbed plants in clay or wood containers, especially for enhancement of sidewalk shops, plazas, and courtyards.
- H. At maturity, trees should be able to be trimmed 10 feet above ground and shrubs should be maintained at a height of approximately three feet to provide adequate visibility.

[Return to 19.06]

7. WALLS AND FENCES

- A. If not required for a specific screening or security purpose, walls should not be utilized within commercial areas. The intent is to keep the walls as low as possible while performing their screening and security functions.
- B. Where walls are used at property frontages, or screen walls are used to conceal storage and equipment areas, they should be designed to blend with the site's architecture. Both sides of all perimeter walls or fences should be architecturally treated. Landscaping should be used in combination with such walls whenever possible.

- C. When security fencing is required, it should be a combination of solid walls with pillars and decorative view ports, or short solid wall segments and wrought iron grill work.

[Return to 19.06]

- D. Long expanses of fence or wall surfaces should be offset and architecturally designed to prevent monotony. Landscape pockets should be provided.

8. SCREENING

- A. Screening for outdoor storage should be a minimum of 6 feet and a maximum of 10 feet high. The height should be determined by the height of the material or equipment being screened. Chain link fencing with redwood or neutral colored slatting is an acceptable screening material for areas of any lot not visible from the street. Exterior storage should be confined to portions of the site least visible to public view.
- B. Where screening is required, a combination of elements should be used including solid masonry walls, berms, and landscaping. Chainlink fencing with wood or metal slatting is not permitted when visible from the public right-of-way.

[Return to 19.06]

- C. Any outdoor equipment, whether on a roof, side of a structure, or on the ground, shall be appropriately screened from view. The method of screening shall be architecturally integrated with the adjacent structure in terms of materials, color, shape, and size. Where individual equipment is provided, a continuous screen is desirable.

9. ARCHITECTURAL DESIGN GUIDELINES

- A. Heights of structures should relate to adjacent open spaces to allow maximum sun and ventilation, protection from prevailing winds, enhance public views of surrounding mountains and minimize obstruction of view from adjoining structures.
- B. Height and scale of new development should be compatible with that of surrounding development. New development height should "transition" from the height of adjacent development to the maximum height of the proposed structure.
- C. Large buildings which give the appearance of "box-like" structures are generally unattractive and detract from the overall scale of most buildings. There are several ways to reduce the appearance of large scale, bulky structures.
1. Vary the planes of the exterior walls in depth and/or direction. Wall planes should not run in one continuous direction for more than 50 feet without an offset.
 2. Vary the height of the buildings so that it appears to be divided into distinct massing elements.
 3. Articulate the different parts of a building's facade by use of color, arrangement of facade elements, or a change in materials.
 4. Use landscaping and architectural detailing at the ground level to lessen the impact of an otherwise bulky building.

[Return to 19.06]

5. Avoid blank walls at the ground floor levels. Utilize windows, trellises, wall articulation, arcades, change in materials, or other features.
6. All structure elevations should be architecturally treated.

AWNINGS OF THE SAME FORM AND LOCATION ARE REPEATED, WITH THE SIGNAGE ON THE AWNING'S VALANCE.

VARYING ROOF PLANES, SETBACKS AND ARTICULATED FRONT FACADES ADD A PEDESTRIAN SCALE.

D. Scale, for purposes here, is the relationship between the size of the new structure and the size of adjoining permanent structures. It is also how the proposed building's size related to the size of a human being (human scale). Large scale building elements will appear imposing if they are situated in a visual environment which is predominantly smaller in scale.

1. Building scale can be reduced through the proper use of window patterns, structural bays, roof overhangs, siding, awnings, moldings, fixtures, and other details.
2. The scale of buildings should be carefully related to adjacent pedestrian areas (i.e. plazas, courtyards) and other structures.

[Return to 19.06]

3. Large dominating structures should be broken up by: 1) creating horizontal emphasis through the use of trim; 2) adding awnings, eaves, windows, or other architectural ornamentation; 3) use of combinations of complementary colors; and 4) landscape materials.

Storefront elements and pedestrian level details provide an intimate scale

Form and texture shall be repeated in a manner to provide a sense of unity within a large mass.

- E. The use of standardized "corporate" architectural styles associated with chain-type restaurants is strongly discouraged.
- F. Much of the existing color in the City is derived from the primary building's finish materials such as brick, wood, stucco, and terra cotta tile. Also dominant are earth tones that match these natural materials.
 1. Large areas of intense white color should be avoided. While subdued colors usually work best as a dominant overall color, a bright trim color can be appropriate.
 2. The color palette chosen for new structures should be compatible with the colors of adjacent structures. An exception is where the colors of adjacent structures strongly diverge from these design guidelines.
 3. Wherever possible, minimize the number of colors appearing on the structure's exterior. Small commercial structures should use no more than 3 colors.
 4. Primary colors should only be used to accent elements, such as door and window frames and architectural details.
 5. Architectural detailing should be painted to complement the façade and tie in with adjacent structures.

[Return to 19.06]

10. ROOFS

- A. The roofline at the top of the structure should not run in continuous plane for more than 50 feet without offsetting or jogging the roof plane.
- B. All roof top equipment shall be screened from public view by screening materials of the same nature as the structure's basic materials. Mechanical equipment should be located below the highest vertical element of the building.
- C. The following roof materials should not be used:
 - 1. Corrugated metal (standing rib metal roofs are permitted)
 - 2. Highly reflective surfaces (copper roofs may be considered)
 - 3. Illuminated roofing

*Partial mansard
roof discouraged*

*Clipped roof to hide
rooftop equipment*

*Full mansard roof will
hide rooftop equipment*

11. AWNINGS

- A. The use of awnings along a row of contiguous structures should be restricted to awnings of the same form and location. Color of the awnings should be consistent and a minimum eight-foot vertical clearance should be maintained.
- B. Signs on awnings should be painted on and be limited to the awning's flap (valance) or to the end panels of angled, curved, or box awnings.
- C. Plexiglas, metal, and glossy vinyl illuminated awnings are strongly discouraged. Canvas, treated canvas, matte finish vinyl, and fabric awnings are encouraged.
- D. Internally lit awnings should not be used.

[Return to 19.06]

12. SIGNS

- A. Every structure and commercial complex should be designed with a precise concept for adequate signing. Provisions for sign placement, sign scale in relationship with the building, and sign readability should be considered in developing the signing concept. All signing should be highly compatible with the building and site design relative to color, material, and placement.
- B. Monument-type signs are the preferred alternative for business identification whenever possible. Where several tenants occupy the same site, individual wall mounted signs are appropriate in combination with a monument sign identifying the development and address.
- C. The use of backlit individually cut letter signs is strongly encouraged.
- D. Each development site should be appropriately signed to give directions to loading and receiving areas, visitor parking and other special areas.

[Return to 19.06]

13. LIGHTING

- A. Lighting should be used to provide illumination for the security and safety of on-site areas such as parking, loading, shipping, and receiving, pathways, and working areas.
- B. The design of light fixtures and their structural support should be architecturally compatible with the main structures on-site. Illuminators should be integrated within the architectural design of the structures.
- C. As a security device, lighting should be adequate but not overly bright. All building entrances should be well lighted.
- D. All lighting fixtures must be shielded to confine light spread within the site boundaries.

[Return to 19.06]

CHAPTER 19.08 INDUSTRIAL ZONES

Sections:

- 19.08.010 Purpose**
- 19.08.020 Permitted, Development Permitted and Conditionally Permitted Uses**
- 19.08.030 Land Use District Development Standards**
- 19.08.040 Applicable Regulations**

Tables:

- 08.01 Industrial Zones List of Permitted, Development Permitted and Conditionally Permitted Uses**
- 08.02 Industrial Zones Development Standards**

Guidelines:

- G19.08.050 Industrial Development Design Guidelines**

19.08.010 Purpose

1. The purpose of this Chapter is to achieve the following:
 - A. Provide appropriate industrial areas to accommodate enterprises engaged in the manufacturing, processing, creating, repairing, renovating, painting, cleaning, or assembling of goods, merchandise, or equipment.
 - B. Provide adequate space to meet the needs of industrial development, including off-street parking and loading.
 - C. Minimize traffic congestion and avoid the overloading of utilities.
 - D. Protect industrial areas from excessive noise, illumination, unsightliness, odor, smoke, toxic wastes, and other objectionable influences.
 - E. Promote high standards of site planning and landscape design for industrial developments within the City.
 - F. Promote consolidation of industrial uses into comprehensively planned industrial parks.
 - G. Promote a mix of industrial uses that provide the City with a sound, diverse industrial base.
 - H. Ensure compatibility with adjacent land uses.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- I. Single-family dwelling units which legally existed in the industrial zones prior to June 3, 1991, may remain as a permitted use.

(Ord. MC-823, 3-03-92)

2. The purpose of the individual industrial zones is as follows:

(Ord. MC-1393, 12-02-13)

- A. OIP (OFFICE INDUSTRIAL PARK) ZONE

This zone is intended to establish distinctive office industrial parks and corporate centers serving City and regional needs. Supporting retail/commercial services may be located in Corporate Office Industrial Park structures.

- B. IL (INDUSTRIAL LIGHT) ZONE

This zone is intended to retain, enhance, and intensify existing and provide for the new development of lighter industrial uses along major vehicular, rail, and air transportation routes serving the City.

- C. IH (INDUSTRIAL HEAVY) ZONE

This zone is intended to provide for the continuation and development of heavy manufacturing industries in locations where they will be compatible with and not adversely impact adjacent land uses.

- D. IE (INDUSTRIAL EXTRACTIVE) ZONE

This zone is intended to promote the mining and processing of the City's mineral resources in the Cajon Creek, Lytle Creek, and Santa Ana River areas, while ensuring their compatibility with adjacent land uses. Additionally, this zone provides for the development of interim uses including, but not limited to lumber yards, outdoor storage, plant nurseries, recreation (non-structural), etc., which do not impair the long term ability to extract and process mineral resources.

19.08.020 Permitted, Development Permitted and Conditionally Permitted Uses

The following list represents those primary uses in the manufacturing/industrial zones which are Permitted (P), subject to a Development Permit (D) or a Conditional Use Permit (C):

**TABLE 08.01
INDUSTRIAL ZONES LIST OF PERMITTED, DEVELOPMENT PERMITTED
AND CONDITIONALLY PERMITTED USES**

The following list represents those primary uses in the industrial zones, which are Permitted (P), subject to an Administrative or Development Permit (D), or a Minor/Conditional Use Permit (C). Those with a – are not permitted uses in that zone.

LAND USE ACTIVITY	OIP	IL	IH	IE
1. Accessory structures/uses typically appurtenant to a principally permitted land use activity	D	D	D	D
2. Agricultural Production-crops	—	—	D	D
3. Agricultural Services	—	D	D	—
4. Assembling, cleaning, manufacturing, processing, repairing or testing of products (except vehicle-related) and welding and excluding explosives, conducted entirely within an enclosed structure except for screened outdoor storage areas	D	D	D	—
5. Assembling, cleaning, manufacturing, processing, repair of products, research, storage, testing or wholesale land uses (except vehicle-related and explosives) with a portion of the operation (other than storage) occurring outside of the enclosed structure	—	—	D	—
A. Outside land uses in the CH and IH districts within 150 feet of a residential land use district	—	—	C	—
6. Commercial Cannabis Activity (Ord. MC-1519, 7-17-19)	D	D	D	—
7. Concrete batch plants, processing of minerals and aggregate and other related land uses, not including extraction activities	—	—	C	C
8. Crematory	—	D	D	—
9. Dwelling unit for a full-time security guard and family	—	D	D	D
10. Educational Service, including day care	D	D	C	—

19.08.030 Land Use District Development Standards

1. GENERAL STANDARDS

A. The following standards are minimum unless stated as maximum:

**TABLE 08.02
INDUSTRIAL ZONES DEVELOPMENT STANDARDS**

DEVELOPMENT STANDARDS	OIP	IL	IH	IE
Net Lot Area ¹	10,000	20,000	40,000	N/A
Front Setback	20 ⁴	10	20	N/A
Rear Setback	10	10	10	N/A
Side Setback (Each)	10	10 ²	10 ²	N/A
Side Setback (Street Side)	10	10	10	N/A
Lot Coverage (Maximum %)	50	75	75	N/A
Structure Height (Maximum)/Feet	42	2 stories/50 ³	None	N/A

st. = story

ac. = acre

- 1. This standard is only required for new industrial subdivisions
- 2. The minimum setback of 20 feet is required only along major or secondary arterial streets. Ten (10) feet is the minimum setback along all other streets.
- 3. Unless attached buildings are proposed, whereby no setback would be required for the attached side.
- 4. Unless the Commission finds that increased height is necessary for the proposed industrial use.

2. INDUSTRIAL ZONE STANDARDS

The following standards shall apply to development in all industrial zones, except as otherwise provided for in this Development Code:

1. All uses shall be subject to the approval of a Development Permit or a Conditional Use Permit pursuant to [Chapters 19.44](#) and [19.36](#).
2. Retail sales and service incidental to a principally permitted use are allowable provided that the following standards are met:
 - a. The operations are contained within the main structure which houses the primary use;
 - b. Retail sales occupy no more than 15% of the total building square footage;
 - c. No retail sales or display of merchandise occur(s) outside the structure(s); and
 - d. All products offered for retail sales on the site are manufactured, warehoused, or assembled on the premises.
3. Outside storage shall be confined to the rear of the principal structure(s) or the rear two-thirds of the site, whichever is the more restrictive, and screened from public view from any adjoining properties and public rights-of-way by appropriate walls, fencing and landscaping.
4. An intensity bonus of up to 12 square feet for each 1 square foot of permanent space for properly designed and administered day care facilities may be approved by the review authority.
5. Every parcel with a structure shall have a trash receptacle on the premises. The trash receptacle shall comply with adopted Public Works Department standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least 3 sides by a solid wall 6 feet in height and on the fourth side by a solid gate not less than 5 feet in height. The gate shall be maintained in working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures.

6. In addition to the general development requirements contained in Chapter 19.20 (Property Development Standards), the Standards referred to in Table 06.03 shall apply to specific Industrial Zones.

SITE DEVELOPMENT STANDARDS OIP (OFFICE INDUSTRIAL PARK) ZONE

Minimum Lot Area: 10,000 square feet
Max. Lot Coverage: 50%

19.08.040 Applicable Regulations

All uses shall be subject the applicable regulations of this Development Code, including, but not limited to, Article IV, Administration provisions.

[\[Return to Municipal Code Contents\]](#)

G19.08.050 INDUSTRIAL DEVELOPMENT DESIGN GUIDELINES

1. PURPOSE

The following design guidelines are intended as a reference framework to assist the designer in understanding the City's goals and objectives for high quality development within the industrial zones. The guidelines complement the mandatory site development regulations contained in this chapter by providing good examples of appropriate design solutions and by providing design interpretations of the various mandatory regulations.

The design guidelines are general and may be interpreted with some flexibility in their application to specific projects. The guidelines will be utilized during the City's design review process to encourage the highest level of design quality while at the same time providing the flexibility necessary to encourage creativity on the part of project designers.

Unless there is a compelling reasons, these design guidelines shall be followed. If a guideline is waived by the Development Review Committee, the Mayor and Common Council shall be notified. An appeal, which does not require a fee, may be filed by the Mayor or any Council person within 15 days of the waiver approval.

2. APPLICABILITY

The provisions of this section shall apply to all industrial development within the City, unless otherwise specified herein. Any addition, remodeling, relocation, or construction requiring a building permit within any industrial zone subject to review by the Development Review Committee shall adhere to these guidelines where applicable.

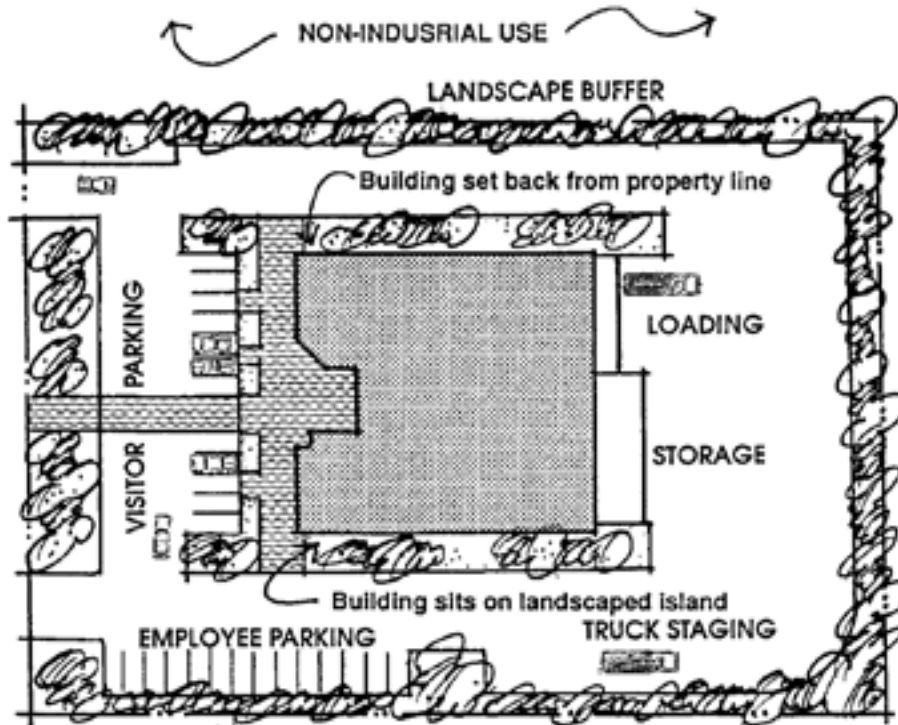

3. SITE PLANNING PRINCIPLES

A. The main elements of sound industrial site design include the following:

1. Controlled site access
2. Service areas located at the sides and rear of buildings
3. Convenient access, visitor parking and on-site circulation
4. Screening of outdoor storage, work areas, and equipment
5. Emphasis on the main building entry and landscaping
6. Landscaped open space

[Return to 19.08]

- B. A variety of building and parking setbacks should be provided in order to avoid long monotonous building facades and to create diversity.
- C. Structures should be located on "turf islands", where the office portion of the building does not directly abut paved parking areas. A minimum five- to seven- foot landscape strip should be provided between parking areas and the office portion of a structure.

- D. Building setbacks should be provided proportionate to the scale of the structure and in consideration of existing development adjacent to it. Larger structures require more setback area for a balance of scale and so as not to impose on neighboring uses.
- E. Placement of structures which creates opportunities for plazas, courts, or gardens is encouraged. Setback areas can often be used to provide space for patio areas.
- F. Where industrial uses are adjacent to non-industrial uses, appropriate buffering techniques such as setbacks, screening, and landscaping need to be provided to mitigate any negative effects of industrial operations.

[Return to 19.08]

- G. Proposed development should be designed to preserve existing stands of trees wherever possible. Contact the City's Park, Recreation and Community Services Department regarding requirements for certified arborist's report concerning existing vegetation.

4. PARKING AND CIRCULATION

- A. The parking lot and cars should not be the dominant visual elements of the site. Large expansive paved areas located between the street and the building are to be avoided in favor of smaller multiple lots separated by landscaping and buildings. Angled parking is highly encouraged for larger parking lots which can accommodate one way aisles.
- B. Site access and internal circulation should be designed in a straight forward manner which emphasizes safety and efficiency. The circulation system should be designed to reduce conflicts between vehicular and pedestrian traffic, combine circulation and access areas where possible, provide adequate maneuvering and stacking areas and consideration for emergency vehicle access. Circulation routes and parking areas should be separated.
- C. Entrances and exits to and from parking and loading facilities should be clearly marked with appropriate directional signage where multiple access points are provided.
- D. Vehicles should not be required to enter the street in order to move from 1 area to another on the same site.
- E. Parking lots adjacent to and visible from public streets must be adequately screened from view through the use of rolling earth berms, low screen walls, changes in elevation, landscaping or combinations thereof whenever possible.

[Return to 19.08]

- F. The industrial site should be a self-contained development capable of accommodating its own parking needs. The use of the public street for parking and staging of trucks is not allowed.
- G. All parking spaces should be visible from the interior of the structures, especially entrances.

5. LOADING FACILITIES

- A. To alleviate the unsightly appearance of loading facilities for industrial uses, these areas should not be located at the front of buildings where it is difficult to adequately screen them from view. Such facilities are more appropriate at the rear of the site where special screening may not be required.

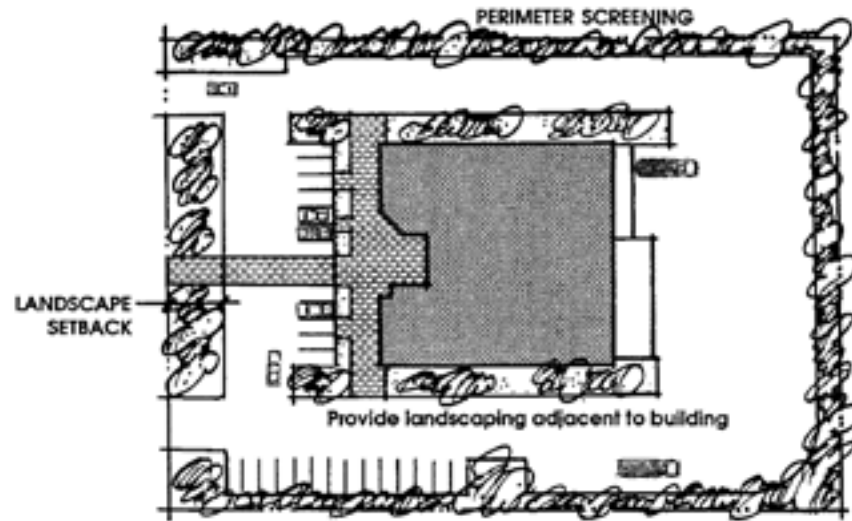

- B. When it is not possible to locate loading facilities at the rear of the building, loading docks and doors should not dominate the frontage and must be screened from the street. Loading facilities should be offset from driveway openings.
- C. Backing from the public street onto the site for loading into front end docks causes unsafe truck maneuvering and should not be utilized except at the ends of industrial cul-de-sacs where each circumstance will be studied individually at the time of design review.

[Return to 19.08]

6. LANDSCAPING

- A. For industrial uses landscaping should be used to define areas by helping to focus on entrances to buildings, parking lots, loading areas, defining the edges of various land uses, providing transition between neighboring properties (buffering), and providing screening for outdoor storage, loading, and equipment areas.

- B. Landscaping should be in scale with adjacent buildings and be of appropriate size at maturity to accomplish its intended goals.
- C. Use of vines on walls is appropriate in industrial areas because such walls often tend to be large and blank.
- D. Landscaping around the entire base of buildings is recommended to soften the edge between the parking lot and the structure. This should be accented at entrances to provide focus.
- E. Trees should be located throughout the parking lot and not simply at the ends of parking aisles. In order to be considered within the parking lots, trees should be located in planters that are bounded on at least three sides by parking area paving.

[Return to 19.08]

- F. Landscaping should be protected from vehicular and pedestrian encroachment by raised planting surfaces, depressed walks, or the use of curbs. Concrete mow-strips are required per development regulations between turf and shrub areas.

7. WALLS AND FENCES

- A. Walls will serve a major function in the industrial landscape and will be used to screen automobiles, loading and storage areas, and utility structures. However, if not required for a specific screening or security purpose they should not be utilized. The intent is to keep the walls as low as possible while performing their screening and security functions.
- B. Where walls are used at property frontages, or screenwalls are used to conceal storage and equipment areas, they should be designed to blend with the site's architecture. Both sides of all perimeter walls should be architecturally treated. Landscaping should be used in combination with such walls whenever possible.
- C. When security fencing is required, it should be a combination of solid pillars or short solid wall segments and wrought iron grill work.

- D. Long expanses of fence or wall surfaces should be offset and architecturally designed to prevent monotony. Landscape pockets should be provided.

8. SCREENING

- A. Screening for outdoor storage should be a minimum of eight feet and a maximum of 12 feet high. The height should be determined by the height of the material being screened. Chain link fencing with appropriate slatting is an acceptable screening material for areas of any lot not visible from the street. Exterior storage should be confined to portions of the site least visible to public view.
- B. Where screening is required, a combination of elements should be used including solid masonry walls, berms, and landscaping. Chain link fencing with wood or metal slatting is an acceptable screening material only for areas of a lot not visible from a public street.

[Return to 19.08]

- C. Any equipment, whether on the roof, side of building, or ground, shall be screened. The method of screening shall be architecturally integrated in terms of materials, color, shape, and size. The screening design shall blend with the building design. Where individual equipment is provided, a continuous screen is desirable.

- D. The need to screen rooftop equipment should be taken into consideration during the initial design phase for the structure.

9. ARCHITECTURAL DESIGN

A. As a category of structure types, industrial structures often present unattractive and monotonous facades. There are, however, a variety of design techniques which can be utilized to help overcome this situation and to direct development into a cohesive design statement.

1. Employ variety in structure forms, to create visual character and interest.
2. Avoid long, "unarticulated" facades. Facades with varied front setbacks are strongly encouraged. Wall planes should not run in one continuous direction for more than 50 feet without an offset.
3. Avoid blank front and side wall elevations on street frontages.
4. Entries to industrial structures should portray a quality office appearance while being architecturally tied into the overall mass and building composition.
5. All structure elevations should be architecturally treated.

Entry projection and indentation color bands

Vertical seams, window glazing bands and textured walls

Window glazing, color bands, textured walls and entry indentation

Mix of complimentary materials, varied wall planes, increased window areas, and some textured walls

[Return to 19.08]

6. Windows and doors are key elements of any structure's form, and should relate to the scale of the elevation on which they appear. Windows and doors can establish character by their rhythm and variety. Recessed openings help to provide depth and contrast on elevation planes.
 7. Sensitive alteration of colors and materials can produce diversity and enhance architectural forms.
 8. The staggering of planes along an exterior wall elevation creates pockets of light and shadow, providing relief from monotonous, uninterrupted expanses of wall.
- B. Design elements which are undesirable and should be avoided include:
1. Highly reflective surfaces at the ground story
 2. Large blank, unarticulated wall surfaces
 3. Exposed, untreated precision block walls
 4. Chain link fence, barbed wire
 5. False fronts
 6. "Stuck on" mansard roofs on small portion of the roofline
 7. Unarticulated building facades
 8. Materials with high maintenance such as stained wood, shingles or metal siding
- C. Choose wall materials that will withstand abuse by vandals or accidental damage from machinery.
- D. All metal buildings should be architecturally designed providing variety and visual interest to the streetscape.
- E. Berming in conjunction with landscaping can be used at the building edge to reduce structure mass and height along facades.

[Return to 19.08]

- F. Rolling shutter doors located on the inside of the building are the preferred method for providing large loading doors while keeping a clean, uncluttered appearance from the exterior.

10. ROOFS

- A. The roofline at the top of the structure should not run in a continuous plane for more than 50 feet without offsetting or joggging the roof plane.
- B. Nearly vertical roofs (A-frames) and piecemeal mansard roofs (used on a portion of the building perimeter only) should not be utilized. Mansard roofs should wrap around the entire perimeter of the structure.
- C. All roof top equipment must be screened from public view by screening materials of the same nature as the building's basic materials. Mechanical equipment should be located below the highest vertical element of the building.
- D. The following roof materials should not be used:
1. Corrugated metal (standing rib metal roofs are permitted)
 2. Highly reflective surfaces
 3. Illuminated roofing

[Return to 19.08]

- E. The roof design should be considered as a component of the overall architectural design theme.

11. SIGNS

- A. Every structure should be designed with a precise concept for adequate signing. Provisions for sign placement, sign scale in relationship with building and the readability of the sign should be considered in developing the overall signing concept. All signs should be highly compatible with the structure and site design relative to color, material, and placement.
- B. Monument-type signs are the preferred alternative for business identification. Where several tenants occupy the same site individual wall mounted signs are appropriate in combination with a monument sign identifying the development and address.
- C. The use of backlit individually cut letter signs is strongly encouraged.

[Return to 19.08]

- D. The industrial site should be appropriately signed to give directions to loading and receiving areas, visitor parking and other special areas.

Employ a consistent sign program for multiple tenant projects

Lowering the site elevation is an effective way to screen parking

12. LIGHTING

- A. Lighting should be used to provide illumination for the security and safety of on-site areas such as parking, loading, shipping, and receiving, pathways, and working areas.
- B. The design of light fixtures and their structural support shall be architecturally compatible with main buildings on-site. Illuminators should be integrated within the architectural design for the buildings.
- C. As a security device, lighting should be adequate but not overly bright. All building entrances should be well lighted.
- D. All lighting should be shielded to confine light spread within the site boundaries.
- E. One footcandle evenly distributed across a parking lot is the required minimum. At entrances and loading areas, up to 2 footcandles may be appropriate.

CHAPTER 19.10 SPECIAL PURPOSE ZONES

Sections:

- 19.10.010 Purpose**
- 19.10.020 General Standards**
- 19.10.030 Land Use District Specific Standards**
- 19.10.040 Applicable Regulations**

Tables:

- 10.01 University Business Park Specific Plan
List of Permitted Uses**
- 10.02 University Business Park Specific Plan
Preferred/Permitted Uses by Parcel**

Guidelines:

- G19.10.050 Development Design Guidelines**
- G19.10.060 40th Street Project Area Design Guidelines**

19.10.010 Purpose

1. The purpose of this Chapter is to achieve the following:
 - A. Protection, preservation, and management of natural resources;
 - B. Protection of public outdoor recreation;
 - C. Protection of public health and safety, particularly in areas subject to periodic inundation;
 - D. Provide for the continuation and expansion of existing public facilities; and
 - E. Allow for the consideration and adoption of specific plans which recognize unique areas of the City necessitating special consideration and implementation.
 - F. Single-family dwelling units which legally existed in the Special Purpose zones prior to June 3, 1991 may remain as a permitted use.

(Ord. MC-823, 3-03-92)

2. The purpose and permitted uses for each of the individual special zones are as follows:

(Ord. MC-1393, 12-02-13)

[\[Return to Municipal Code Contents\]](#)

A. PCR (PUBLIC/COMMERCIAL RECREATION) ZONE

1. The purpose of this zone is to provide for the continuation of existing and development of new public and private commercial recreation facilities which ensure their compatibility with adjacent land uses;
2. The following uses may be permitted subject to the approval of a Development Permit:
 - a. Baseball stadiums, arenas, exhibition, convention, and sporting facilities;
 - b. Entertainment, hotels, restaurants, specialty commercial, and farmers markets;
 - c. Open space;
 - d. Public and private golf courses; and
 - e. Other such uses that the Director may find to be similar with those uses listed above, pursuant to Section 19.02.070(3).

B. PF (PUBLIC FACILITIES) ZONE

The purpose of this zone is to provide for the continuation of existing and development of new schools, government administrative, police, fire, libraries, social service, and other public facilities.

C. PFC (PUBLIC FLOOD CONTROL) ZONE

The purpose of this zone is to provide for the continuation, maintenance, and expansion of public flood control facilities.

D. PP (PUBLIC PARK) ZONE

The purpose of this zone is to provide for the continuation and enhancement of existing public parks and open space and development of new parks and recreation facilities.

E. SP (SPECIFIC PLAN) DISTRICT

This district is intended to provide a base designation to further implement the goals, objectives, and policies of the General Plan with respect to specific areas and uses which by their unique character require a more comprehensive and intense evaluation and planning effort. This district will apply to individual parcel(s) only after the adoption of a specific plan by the Council, pursuant to Government Code Section 65450 et seq.

F. OS (OPEN SPACE) ZONE

This zone is intended to preserve areas of permanent open space.

(Ord. MC-1381, 12-19-12)

19.10.020 General Standards

Any structure located in a Special Purpose zone (except the Open Space zone, wherein all structures are prohibited) shall be subject to an Administrative or Development Permit and shall be:

(Ord. MC-1381, 12-19-12)

1. Clearly incidental to the primary use;
2. Sited in a manner sensitive to the existing natural resources and constraints of the land;
3. Subject to demonstrating need and appropriateness;
4. Landscaped in a manner which complements both the immediate setting and surrounding areas;
5. Subject to demonstrating the need for exterior lighting, and if justified shall be appropriately located, directed, and shielded from surrounding properties and public rights-of-way;
6. Subject to a visual analysis relating building proportions, massing, height, and setbacks to preserve and enhance the scenic character of the area; and
7. Compatible and in harmony with surrounding development and land use designations.

[Return to Municipal Code Contents]

19.10.030 Land Use District Specific Standards

1. Golf Courses and Related Facilities

Golf course developments are subject to a Conditional Use Permit and shall be constructed in the following manner:

- A. State-of-the-art water conservation techniques shall be incorporated into the design and irrigation of the golf course;
- B. Treated effluent shall be used for irrigation where available;
- C. Perimeter walls or fences shall provide a viewshed window design along all public rights-of-way, incorporating a mix of pilasters and wrought iron fencing or equivalent treatment; and
- D. All accessory facilities, including but not limited to, club houses, maintenance buildings, and half-way club houses shall be designed and located to ensure compatibility and harmony with the golf course setting.

2. Single-Family Housing, Existing

Additions, alterations, and expansions to single-family units which legally existed in a Special Purpose zone prior to June 3, 1991, shall comply with the RS, Residential Suburban, Zone Standards.

(Ord. MC-823, 3-03-92)

3. Specific Plan 91-01, Paseo Las Placitas, Mount Vernon Corridor

(Ord. MC-1054, 8-17-99)

- A. Permitted uses within Paseo Las Placitas shall be as established in Chapter 19.06, Table 06.01.
- B. New development and rehabilitation of existing structures shall be in compliance with the design guidelines in the Paseo Las Placitas Specific Plan.
- C. Plazas, fountains, courtyards, outdoor eating areas, and similar uses may be permitted in the required building setback, subject to the approval of the Review Authority.
- D. Commercial parking may be provided on-site or off-site elsewhere within the Paseo Las Placitas in a public parking area.

[\[Return to Municipal Code Contents\]](#)

- E. Parking required by Chapter 19.24 may be reduced up to 20 percent by the Review Authority, provided that off-site parking areas have been established and developed.
- F. Signage is permitted pursuant to Chapter 19.22, consistent with the design guidelines in the Paseo Las Placitas Specific Plan.
- G. Landscaping is required pursuant to Chapter 19.26, consistent with the design guidelines and species list in the Paseo Las Placitas Specific Plan.
- H. Public improvements (i.e., street dedication/widening, curbs, gutters, sidewalks, etc.) shall be required, consistent with adopted City standards and requirements.

4. Specific Plan 92-01, University Business Park

(Ord. MC-856, 12-23-92)

- A. The following development standards for new construction apply to all three designations within the University Business Park.

Gross Lot Area (for new subdivision)	UBP-1 =	20,000 sq. ft
	UBP-2 =	10,000 sq. ft.
	UBP-3 =	1 acre
Front Setback All zones =		10 feet
Rear Setback All zones =		10 feet
Side Setback (Each) All zones =		10 feet
Side Setback (Street Side) All zones =		10 feet
Lot Coverage (Maximum) All zones =		50 percent
Structure Height (Maximum)	UBP-1 =	2 stories or 42 feet
	UBP-2 =	2 stories or 35 feet
	UBP-3 =	3 stories or 42 feet

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- B. No outside storage shall be permitted within the UBP-2 and UBP-3 designations. In the UBP-1 designation, outside storage may be permitted only if adequately screened with decorative walls.
- C. All uses shall be conducted within a completely enclosed structure, except for parcels fronting on Georgia Boulevard. Limited outside uses (e.g. patio dining areas and nursery sales limited to plants and trees) shall be approved with a Development Permit. Miscellaneous Outdoor Entertainment in the UBP-2 zone shall require a Conditional Use Permit.
- D. There shall be no visible storage of motor vehicles (except display areas for sale or rent of motor vehicles, where permitted), trailers, airplanes, boats, recreational vehicles or their composite parts; loose rubbish, garbage, junk or their receptacles; tents; equipment; or building materials, in any portion of a lot except for parcels fronting on Georgia Boulevard. No storage shall occur on any vacant parcel. Building materials for use on the same premises may be stored on the parcel during the time that a valid building permit is in effect for construction.
- E. Every parcel with a structure will have a trash receptacle on the premises. The trash receptacle shall comply with adopted Public Works Department standards and be of sufficient size to accommodate the trash generated. The receptacle(s) shall be screened from public view on at least 3 sides by a solid wall 6 feet in height and on the fourth side by a solid gate not less than 5 feet in height. The gate shall be maintained in working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures.
- F. No roof-mounted air conditioning or heating equipment, vents or ducts shall be visible from any abutting lot, or any public street or right-of-way. This shall be accomplished through the extension of the main structure or roof or screened in a manner which is architecturally integrated with the main structure(s).
- G. Elevations of all structures shall be architecturally treated to ensure compatibility with high quality neighboring structures.
- H. An intensity bonus of up to 12 square feet for each 1 square foot of permanent space for properly designed and administered day care facilities may be approved by the review authority.

- I. Permitted Operations and Uses. Unless otherwise specifically prohibited, industrial, research and development uses will be permitted if such uses are performed or carried out entirely within a building that is so designed and constructed that the operations and uses therein do not cause or produce a nuisance to adjacent site, including without limitation nuisance caused by vibration, sound, electro-mechanical disturbance, radiation, air or water pollution, emission of obnoxious odors or emission of duct or other toxic or non-toxic matter. Nuisances of reasonable limited duration which result from breakdowns or malfunctions in systems or equipment which were not reasonable preventable shall not be deemed a violation of this policy.

- J. Prohibited Operations and Uses. The following operations and uses shall not be permitted:
 - 1) Residential uses, whether permanent or temporary,
 - 2) Hospital uses,
 - 3) Heavy manufacturing,
 - 4) Operation of salvage or junk yards, or storage of inoperable vehicles, junk or surplus materials,
 - 5) Oil drilling, development, refining or processing,
 - 6) Keeping, breeding or slaughtering of animals, rendering of animal fat or other animal products, or dumping, disposing, incinerating or other reduction of garbage, sewage, offal, dead animals or refuse,
 - 7) Foundry operations and smelting of any minerals or metals,
 - 8) Quarry operations.

- K. Maintenance and Repair. All improvements located on each parcel shall be maintained at all times in good, safe and attractive condition and repair, and shall be properly painted in colors approved in the Development Permit.

- L. Materials Prohibited. Buildings made from prefabricated metal components shall be prohibited. Wood or other pressed-board siding shall not be permitted as exterior surface material, except for trim or other minor uses of wood products, as approved by the Development Permit.

- M. Fences. Chain link or barbed wire fences shall not be permitted.

[Return to Municipal Code Contents]

- N. Loading Areas. The provisions of Chapter 19.26, off-street loading standards apply.
- O. Signs. All tenant identification and public information signs shall meet the provisions of Chapter 19.22, Sign Regulations, except for the following provisions which shall apply to every parcel in this Specific Plan:
- 1) Freestanding pole signs shall not be permitted,
 - 2) One monument sign up to a maximum area of 75 square feet and a maximum height of eight feet may be permitted on any parcel.
- P. Site Layout. All structures shall be oriented on the site in such a way as to provide a buffer from high winds for public outdoor areas.
- Q. Parking. The number of parking spaces required for any use may be reduced by up to 25 percent provided:
- 1) The required 75 percent is fully paved and meets all other Development Code standards for parking areas,
 - 2) The remaining 25 percent is set aside as expansion area and is paved with approved concrete landscape pavers, planted with turf, irrigated and properly maintained,
 - 3) The expansion area is not used for storage of any type,
 - 4) Trees shall not be required to be planted within the expansion area until it is brought up to full development standards.
- R. The following standards apply only to the five parcels fronting on McArthur Boulevard which are designated UBP-3. The primary purpose of these standards is to enhance the view of these parcels from the travel lanes along Interstate 215 and to encourage architectural designs which are "inviting" to travelers. Although the parcels may develop at different times, it is incumbent upon the City to maintain a unified architectural and landscape theme between parcels.
- 1) Parking Location. No vehicular parking shall be permitted closer than 20 feet from the front property line. This parking setback area shall be entirely landscaped except for required driveways for access. On-street parking shall not be permitted along McArthur Boulevard.

[Return to Municipal Code Contents]

- 2) Sidewalks. All development along McArthur Boulevard shall provide pedestrian sidewalks at the parkway to allow entrance to the structure(s) through the main entrance facing the street.
- S. University Business Park incorporates three separate districts created as part of the University Business Park Specific Plan and is intended to apply only to parcels within the boundaries of the Specific Plan. These are labeled UBP-1, UBP-2 and UBP-3.

(Ord. MC-1381, 12-19-12 0

1) UBP-1

The UBP-1 designation emphasizes industrial and non-retail commercial service uses. Essentially, it combines uses currently permitted within the OIP and IL designations, but without the more intense industrial uses such as motor freight transportation, mini-storage, truck stops, service stations, etc.

2) UBP-2

The UBP-2 designation emphasizes the typical commercial retail uses currently permitted in the CG-1 designation but eliminates some of the heavier (and less desirable) uses that would not be appropriate within a business park setting. For example, the UBP-2 does not permit recreation camps and RV parks, funeral parlors, truck and RV rental agencies and commercial sports. No outside uses or storage is permitted.

3) UBP-3

The UBP-3 designation emphasizes large, stand-alone uses which have a single freestanding building on each parcel. It would not permit strip commercial centers with several small tenants. Light manufacturing uses, including warehouses and research and development businesses, are permitted as long as all activities take place indoors and there is no outside storage. One of the primary criteria for structures within this designation is the visual impact to the Interstate freeway.

Table 10.03 represents those uses allowed within the sub-areas, subject to an Administrative or Development Permit (D), a Minor/Conditional Use Permit (C) or a Temporary Use/Special Event Permit (T). (See Table 10.03, University Business Park, List of Permitted Uses.)

T. Descriptions of the permitted uses, conditionally permitted uses and temporary uses within each of the three land use sub-areas are as follows:

- 1) Construction - Activities include the storage of construction equipment and supplies by either large or small contractors for both general and special trade. This use is permitted only on parcels fronting Georgia Boulevard.

UBP-1	Permitted
-------	-----------

UBP-2	Not Permitted
-------	---------------

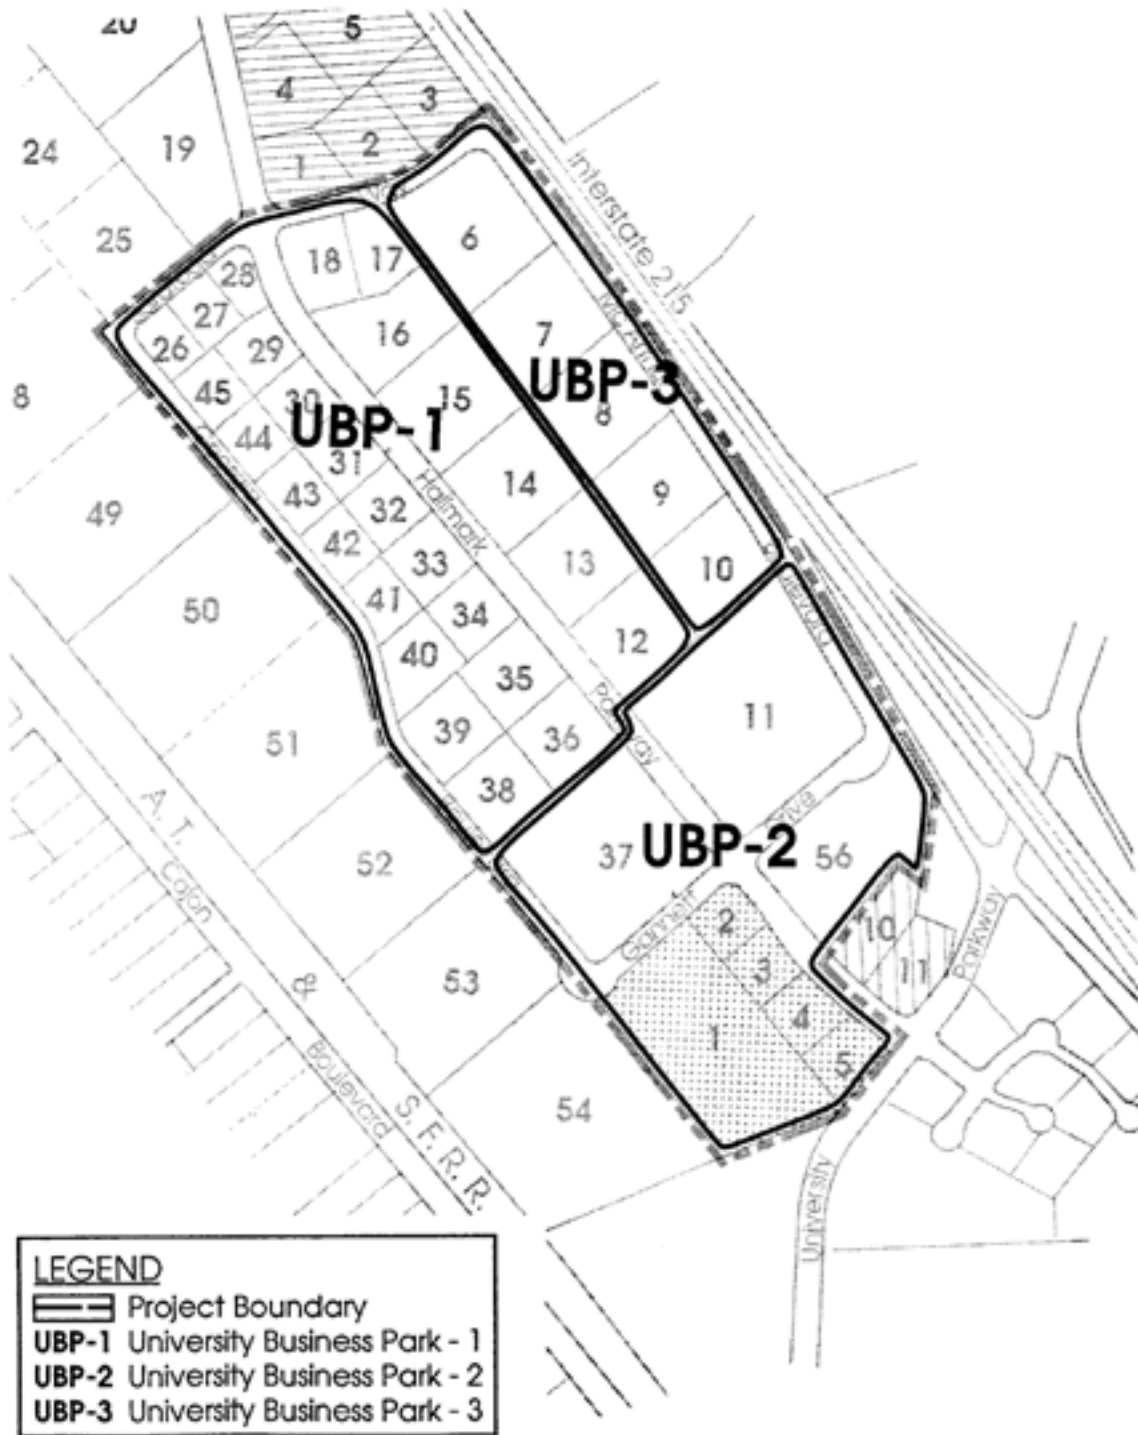

UBP-3	Not Permitted
-------	---------------

- 2) Manufacturing - These activities involve the manufacture or assembly of products typically used for business, commercial or residential purposes. Among these are precision instruments for medical and optical uses, electronic equipment, office supplies and equipment, wrought iron, leather, rubber or plastic products, non-explosive chemicals, paper products, fixtures and furniture. Printing and publishing establishments for private and commercial purposes, regardless of size, are permitted. The manufacture of stone, clay, glass or concrete products may be permitted subject to a Conditional Use Permit.

- 3) Transportation, Communication and Similar Services - These activities include, but are not limited to, warehousing, heliports, and helipads, pipelines and various transportation and communications services. Warehousing is not permitted in the UBP-2 zone.

UBP-1	Permitted
UBP-2	Permitted/CUP
UBP-3	Not Permitted

- 4) Wholesale Trade - Activities include large volume sales of durable and non-durable goods to wholesale users or contractors as opposed to retail consumers.

UBP-1 Permitted

UBP-2 Not Permitted

UBP-3 Permitted

- 5) Retail

- a. Building Materials, Garden Supply and Hardware - Activities include the sale of these items for home and office use to small contractors or homeowners. Garden supplies and live plants may be available for retail consumers as opposed to wholesale users or contractors.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

- b. General Merchandise - Activities include, but are not limited to, the sale of both durable goods such as furniture, pianos, organs, major appliances and furnishings and non-durable items such as apparel, cosmetics, infant supplies and sundries to retail consumers as opposed to wholesale buyers.

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Permitted

- c. Mini-Malls/Commercial Centers - Mini-Malls are groupings of retail establishments of less than 20,000 square feet, while Commercial Centers are groupings of retail establishments of greater than 20,000 square feet. Within both, activities typically include, but are not limited to, the sale of apparel, children's furnishings and clothing, music and videos, home entertainment equipment and sports equipment. These groupings may also typically include eating establishments, bakery and specialty food stores. Personal services establishments and dry cleaners are also included in this category.

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- d. Commercial Centers - Commercial Centers are groupings of retail establishments of greater than 20,000 square feet. Activities typically include, but are not limited to, the sale of apparel, children's furnishings and clothing, music and videos, home entertainment equipment and sports equipment. Small specialty store, personal service establishments and dry cleaners are not included in this category.

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- e. Food Stores - Activities typically include, but are not limited to, the retail sales of meat, fish, produce and other foods and associated household products. This category includes uses such as supermarkets and large discount stores. Bakeries and specialty food stores are permitted in the UBP-2 Zone. In the UBP-3 Zone, however, bakeries and specialty food stores must be integrated into the primary business.

UBP-1 Not Permitted

[Return to Title 19 Contents]

- f. Freeway Oriented, Self-Serve Gasoline Station - This use is limited to Assessor's Parcel Number 266-361-18 (shown as Parcel 5 on Land Use Plan Map). Please refer to Section 19.10.030(4)(U)(3) for a complete description of the preferred use for this parcel.

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- g. Automotive Dealers - Activities typically include new automobile sales dealerships with incidental used-car sales. The category also permits associated part and accessories sales and vehicle service and repair work (except for auto body work).

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- h. Apparel and Accessory Stores - Activities typically include but are not limited to, the retail sales of clothing, shoes, hosiery, jewelry and related items to retail consumers as opposed to wholesale customers.

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Permitted

- i. Eating Establishments - These activities typically involve businesses primarily engaged in the sale of prepared food and non-alcoholic beverages for on-site or off-site consumption. If alcoholic beverages are to be sold for on-site consumption with food services, a Development Permit will be required. Typical uses include sit-down restaurants, coffee shops, bakeries, take-out fast food restaurants, short order eating places, including free standing fast food. In the UBP-1 Zone, these activities are intended to be ancillary to the primary use(s) on a parcel. They must be integrated into the main structure and may not be stand-alone structures. In the UBP-2 and UBP-3 Zones, these establishments are primarily stand alone structures and are not ancillary to other uses. Drive through service is only permitted in the UBP-2 Zone.

UBP-1	Permitted
UBP-2	Permitted
UBP-3	Permitted

- j. Sale of Alcoholic Beverages - These activities include establishments or stores primarily engaged in the sale of alcoholic beverages for either on-site or off-site consumption. These typically include liquor stores, cocktail lounges, pubs, and private clubs.

UBP-1	Not Permitted
UBP-2	Permitted/CUP
UBP-3	Permitted/CUP

- k. Video Tape Rental - Activities include, but are not limited to, the retail sale and rental of video tapes for home entertainment purposes.

UBP-1	Not Permitted
UBP-2	Permitted
UBP-3	Not Permitted

- I. Miscellaneous Retail - Activities include, but are not limited to, small recyclable materials collection facilities, pet stores (including grooming), hobby and craft supply sales, book, card and music sales and similar establishments.

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- m. Fuel Dealers - Activities include the sale of different types of fuel (gasoline, diesel, propane, oil, etc.) either at the premises or by a fleet of delivery vehicles.

UBP-1 Permitted

UBP-2 Not Permitted

UBP-3 Not Permitted

6) Professional Offices and Services

- a. Business Services - Activities include, but are not limited to, establishments that provide mass-mailing, reprographics, cleaning, delivery, repair, maintenance or other similar services for individuals and business customers.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

- b. Professional Offices and Services - These activities include temporary employment, secretarial and clerical support, telephone answering and protective services, engineering, accounting, research, management, real estate, financial, government, legal or other professional offices and similar services.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

- c. Schools - These activities include any type of educational facility which conducts classes in business, the arts, sciences, auto repair, electronic repair, family and home economics, basic living skills, primary and secondary education and similar subjects.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

- d. Health Services and Treatment - Activities typically include, but are not limited to, establishments primarily engaged in the provision of personal health services including prevention, diagnosis and treatment or rehabilitation services provided by physicians, dentists, mental health technicians, nurses and other health personnel as well as the provision of medical testing and analysis services. Typical uses include medical offices, emergency clinics, dental laboratories and health/fitness centers. Excluded are facilities which provide overnight sleeping facilities for patients. A facility for treatment of alcohol or drug related cases requires a Conditional Use Permit.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted.

- e. Animal Care - Activities typically include, but are not limited to, the provision of animal care, treatment and boarding services of large and small animals. Uses include, but are not limited to, animal clinics, hospitals and kennels which support and are incidental to these uses. Outdoor kennels are not permitted.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

- f. Laundry - This type of use is intended to serve as the large, wholesale laundry and cleaning service for several small, independent commercial cleaning establishments located elsewhere. Retail customers would not come directly to this facility.

UBP-1 Permitted

UBP-2 Not Permitted

UBP-3 Not Permitted

- g. Dry Cleaners and Laundromats - Activities typically include, but are not limited to, apparel and drapery dry cleaning establishments and self-serve laundry facilities.

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- h. Equipment Rent/Lease - These activities include the rental, lease and repair of various types of equipment ranging from precision and medical items to heavy construction items. All such equipment must be stored indoors.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Not Permitted

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- i. Auto Repair and Related Services - These activities include any type of auto or truck repair (except for dismantling yards) including tune-up, detailing, engine work and general repairs, painting and body work (except in the UBP-2 Zone), upholstery, window tinting, etc. All such activities must be done inside an enclosed structure out of view from the public right-of-way. Vehicles awaiting repair may be stored outdoors during the day and indoors at night and weekends except along Georgia Boulevard where vehicles may be stored outdoors, even at night and on weekends, as long as decorative screening and landscaping is provided to completely shield the vehicles from public view.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- j. Auto and Truck Rental and Leasing - These activities include the rental and leasing of autos and trucks. Fleets of vehicles available for rent or lease must be stored and maintained out of view from the public right-of-way. The rental or leasing of trucks is not permitted in the UBP-2 Zone.

UBP-1 Permitted/CUP

UBP-2 Permitted/CUP

UBP-3 Not Permitted

- k. Car Wash - These activities include the washing and detailing of vehicles. Also included are minor servicing and repair that can be accomplished without the need for overnight storage, except along Georgia Boulevard, subject to the same provisions as item j. above.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- I. Miscellaneous Repair Services - These activities include the repair of appliances, garden tools, electronic equipment and similar home and business items. Such services in the UBP-1 Zone may include dismantling and the use of welding equipment.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- m. Personal Services - Activities typically include, but are not limited to, beauty and barber shops, manicuring establishments, massage, florist shops and photography studios. Uses also include some sales of small personal convenience items.

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Not Permitted

- n. Hotels and Motels - Activities typically include, but are not limited to, lodging services to transient guests. All uses are subject to a Conditional Use Permit. Ancillary uses may include, but not be limited to, eating establishments, pool and spa or other recreation, conference facilities and specialty retail sales.

UBP-1 Not Permitted

UBP-2 Permitted/CUP

UBP-3 Permitted/CUP

- o. Cinemas - Activities typically include, but are not limited to, the showing of motion pictures with associated sales of refreshments, snacks and non-alcoholic beverages.

UBP-1 Not Permitted

UBP-2 Permitted

UBP-3 Permitted

7) Special Purpose

- a. Motion Pictures - This use includes the production of film and/or video motion pictures and any associated technical support.

UBP-1 Permitted

UBP-2 Not Permitted

UBP-3 Permitted

- b. Theatrical Production - This use is intended to provide for the rehearsal space, storage space and production activities which are typically needed to put on a performance at another location.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

- c. Miscellaneous Outdoor Entertainment - This type of facility may include open-air stadiums for sports such as baseball, soccer, boxing, etc. Such facility must provide fixed seating for all patrons. Other types of amusement facilities such as miniature golf are also permitted. All uses in the UBP-2 Zone are subject to a Conditional Use Permit. Loud or potentially hazardous sports or competitions such as go-cart racing, bicycle or motorcycle race courses, shooting with firearms or bow and arrow, etc. are specifically prohibited.

UBP-1 Permitted

UBP-2 Permitted/CUP

UBP-3 Not Permitted

- d. Miscellaneous Indoor Entertainment - Activities include any kind of indoor sport or recreation such as bowling, boxing, video arcades, swimming, exercise or similar items. Sports or competition events such as go-cart racing, bicycle or motorcycle race courses, shooting with firearms or bow and arrow, etc. are also permitted. This type of facility must be fully enclosed to prevent noise from affecting adjacent properties. Also included are ancillary dining, conference room and daycare facilities.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

- e. Daycare Facilities - Activities typically include the day-time care of individuals under 18 years of age within nursery schools, preschools and day care centers. However, adult day care facilities will be considered. Overnight sleeping facilities are not permitted.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

8) Other

- a. Miscellaneous - Activities include museums, membership organizations, and churches, or antennae, satellite or vertical, or other uses the Director determines to be similar.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

- b. Temporary - Uses of a temporary or seasonal nature such as fairs, farmer's markets, pumpkin sales and Christmas tree sales are permitted subject to a Temporary Use Permit.

UBP-1 Permitted

UBP-2 Permitted

UBP-3 Permitted

- U. Assignment of Preferred Use(s) on Specific Parcels. Table 10.04 (Preferred/Permitted Uses by Parcel) lists every parcel within the University Business Park Specific Plan area, its land use designation and size, and the use or uses that are either preferred or permitted within each one. Table 10.04 lists 6 separate parcels as having preferred uses assigned to them. These uses are approved upon adoption of this plan and only require review of a Development Permit application. The following is a detailed description of the preferred uses that have been approved on the parcels listed.

**TABLE 10.02

- 1) Assessor's Parcel Number 266-361-34 (also shown as Parcel 11 on the Land Use Plan Map) may contain a multi-screen theater complex with up to 15 individual screens and not greater than 60,000 square feet. One freeway oriented marquee sign listing names of movies currently being shown shall be permitted to be placed on a wall facing the Interstate 215 right-of-way. Said sign shall be a maximum of 125 square feet in area and shall be placed no higher than the eave of the structure. One monument sign with a maximum height of 8 feet from ground level may be placed along the Gannett Drive frontage. No other monument or pole sign may be permitted. Parking area shall be located on the opposite side of the main building as the Interstate 215 right-of-way, with the building, landscaping and berming situated such that visibility of the parking area is screened as much as possible. No parking shall be permitted along the street frontage surrounding the site. All other Development Code requirements apply. In lieu of this preferred use or uses, any other permitted use (as determined by Table 10.03) may be developed.

- 2) Assessor's Parcel Numbers 266-361-16 and 266-361-17 (also shown as Parcels 3 and 4 on the Land Use Plan Map) will each contain fast food restaurants with drive-up windows. The gross floor area of each shall not exceed 2,500 square feet. On-site traffic circulation and stacking lane for the drive-up window is subject to review and approval by the City. One monument sign per parcel with a maximum height of eight feet from ground level may be placed along the Hallmark Parkway frontage. No other monument or pole sign may be permitted. All other Development Code requirements shall also apply. In lieu of this preferred use or uses, any other permitted use (as determined by Table 10.03) may be developed.

- 3) Assessor's Parcel number 266-361-18 (also shown as Parcel 5 on the Land Use Plan Map) may contain a freeway oriented, self-service, 24-hour gasoline station with ancillary mini-market. The facility will have no less than 12 gasoline dispensing pumps for autos and/or trucks and 18 parking spaces. The mini-market will not exceed a gross floor area of 5,000 square feet. The sale of alcoholic beverages for off-premise consumption will be permitted. One monument sign with a maximum height of 8 feet from ground level may be placed along the Hallmark Parkway frontage. No other monument or pole sign may be permitted on this parcel. However, the tenant for this parcel may utilize the Park's existing freeway oriented sign. All other Development Code requirements shall also apply. In lieu of this preferred use or uses, any other permitted use (as determined by Table 10.03) may be developed.

- 4) Assessor's Parcel Number 266-361-92 (also shown as Parcel 56 on the Land Use Plan Map) may contain a motel with up to 150 units and a maximum height of two stories. The motel shall provide a swimming pool, spa and at least one conference room that is available to the community for various meetings, etc. To comply with the City's Freeway Corridor Overlay, the structure shall be located at least 50 feet from the Interstate 215 right-of-way. Parking may be located within this setback area, but the first 25 feet from the right-of-way line shall be landscaped. Any elevations of the structure facing the Interstate right-of-way shall be designed to be an integrated part of the architectural theme.

The parcel may also contain a restaurant with a maximum of 5,000 square feet of gross floor area and/or a full service car care center including washing and detailing. These uses shall be located to the west of the motel use described above. The car center may include the sale of auto accessories and gasoline, minor auto maintenance services and a tune-up shop. No heavy or major mechanical work or auto painting shall be permitted. One monument sign with a maximum height of 8 feet from ground level may be placed along the Hallmark Parkway frontage.

[\[Return to Municipal Code Contents\]](#)

The sign shall identify the use or uses available on the site. No other monument or pole sign may be permitted. All other Development Code requirements shall also apply. In lieu of these preferred uses, any other permitted use (as determined by Table 10.03) may be developed.

- 5) Assessor's Parcel Number 266-361-15 (also shown as Parcel 2 on the Land Use Plan Map) may contain a full service restaurant. The gross floor area shall not exceed 5,500 square feet. One monument sign with a maximum height of 8 feet from ground level may be placed along the Hallmark Parkway frontage. The sign shall identify the use or uses available on the site. No other monument or pole sign may be permitted. All other Development Code requirements shall also apply. In lieu of this preferred use, any other permitted use (as determined by Table 10.03) may be developed.

V. A graphic illustration of the locations of the sub-areas designated for land use purposes is shown on the Land Use Plan Map.

W. Landscaping in this area shall be installed in a manner consistent with Chapter 19.26, Landscaping Standards, of this Development Code.

5. Specific Plan No. 90-01, CalMat Cajon Creek

This Specific Plan district is intended to provide for the development of industrial light, industrial heavy, industrial extractive and open space uses with mining-related interim uses within the CalMat Cajon Creek Specific Plan Area and to provide employment opportunities within the CalMat Cajon Creek Specific Plan area for existing and future residents of the City and those of adjacent communities. The CalMat Cajon Creek Specific Plan establishes zones, permitted uses, development standards and design guidelines for the Specific Plan area and is incorporated herein by reference.

(Ord. MC-874, 6-02-93)

6. Specific Plan No. 95-01, San Bernardino International Trade Center

This Specific Plan district is intended to provide for zones and development standards which are compatible with the development goals of the International Trade Center Specific Plan and the surrounding community. It provides a variety of land use districts which will help stimulate business development and job growth within and around the Specific Plan. The Plan establishes zones, permitted uses, development standards and design guidelines which will provide compatibility between different types of development and land uses and is incorporated herein by reference.

(Ord. MC-962, 3-20-96)

19.10.040 Applicable Regulations

All uses shall be subject to the applicable regulations of this Development Code, including, but not limited to, Article IV, Administration provisions.

G19.10.050 DEVELOPMENT DESIGN GUIDELINES

1. GENERAL

The following design guidelines are intended as a reference framework to assist the designer in understanding the City's goal's and objectives for high quality development within areas of approved Specific Plans. The guidelines complement the mandatory site development regulations contained in this chapter by providing good examples of appropriate design solutions and by providing design interpretations of the various mandatory regulations.

The design guidelines are general and may be interpreted with some flexibility in their application to specific projects. The guidelines will be utilized during the City's design review process to encourage the highest level of design quality while at the same time providing the flexibility necessary to encourage creativity on the part of project designers.

Unless there is a compelling reason, these design guidelines shall be followed. If a guideline is waived by the Development Review Committee, the Mayor and Common Council shall be notified. An appeal, which does not require a fee, may be filed by the Mayor or any Council person within 15 days of the waiver approval.

2. APPLICABILITY

The provisions of this section shall apply to all commercial development and rehabilitation projects within the areas of approved Specific Plans. Any addition, remodeling, relocation, or construction requiring a building permit within any Specific Plan area subject to review by the Development Review Committee shall adhere to these guidelines where applicable.

3. DESIGN GUIDELINES FOR PASEO LAS PLACITAS (MOUNT VERNON CORRIDOR) SPECIFIC PLAN

The pleasant, pedestrian-oriented environment envisioned for the entire Paseo Las Placitas area is achieved by the proper scaling, proportioning and detailing of both the public streetscape and private courtyard spaces.

The Paseo Las Placitas Design Palette is inspired by Spanish Revival architecture with its variety of materials, forms, fountains and landscape materials.

The environment to be created is one of courtyards and walkways defined by light colored or white, plastered walls of one- to three-story structures. Clay roof tiles, wrought iron fences, gates and railings and wooden trellis beams and/or columns complete the major vocabulary of building materials.

[\[Return to 19.10\]](#)

- A. Parking Structures should:
 - 1. Accommodate a 40-foot by 40-foot Entry Plaza.
 - 2. Incorporate a major automobile entry off side streets.
 - 3. Provide a continuous, 18-foot colonnade with retail storefronts adjacent.
 - 4. Be separated from the adjacent residential area by a 15-foot buffer.
 - 5. Be designed as three-story garage with two levels of covered parking and a roof-top level. Shade elements, such as trellises should be used on the roof level.
 - 6. Be designed in a Spanish Revival style utilizing the materials previously described.
- B. Public Surface Lots will be provided as the first phase of parking for the Maximum Development Plan. These lots should be sized so that the lot dimensions will allow future parking structures of efficient design.
- C. Extensive use of potted plants, vines on trellises, courtyard and wall fountains and appropriate, metal crafted light fixtures and well-detailed signage of tile or carved wood is recommended.
- D. Fountains are one of the major features of Paseo Las Placitas. Each courtyard segment is to incorporate at least one freestanding and/or one wall fountain.
- E. Window boxes, hand painted signs and awnings can add interest and color to the environment.
- F. A variety of designs of wrought iron fences and gates is consistent with the Spanish Revival vocabulary.
- G. The Gateways to Paseo Las Placitas should include the Corner Plazas, Gateway Structures and special Entry Intersection Paving.
 - 1. The corner plazas should include fountains, landscaping and tile accents.
 - 2. The gateways should incorporate the design theme of Spanish Revival architecture including tile accent and plaster finish.

[Return to 19.10]

- H. Smaller building development as will be appropriate for the Restaurant and Retail/Office complexes: These guidelines, for these uses, also apply wherever the uses are ultimately located.
- I. Courtyards and outdoor dining areas should have a minimum width of 15 feet. Fountains are encouraged in all courtyards.
- J. Towers should be used as vertical elements to relieve the predominant horizontal lines of buildings.
- K. Veranda style, open rail, second level balconies and exterior stairways are encouraged to add interest to the building massing and facades. Ceramic tile accent is encouraged.
- L. The massing of building should:
 - 1. Maintain low plate lines and profiles at street fronts and property edges.
 - 2. Stagger long linear walls horizontally to provide interest by breaking long lines.
 - 3. Not include large expanses of flat wall planes vertically or horizontally.
 - 4. Reduce apparent volumes by lowering roof lines.
 - 5. Be varied in height to add variety and interest.
 - 6. Employ clean, simple, geometric forms and coordinated massing that produce overall unity while creating interest.
 - 7. Embody the Spanish Revival architecture theme in all structures-major and minor.
 - 8. Incorporate awnings, moldings, pilasters and other architectural embellishments whenever possible to create comfortable, human and visually stimulating facades.
 - 9. Relate buildings with one another to create acceptable compositional patterns that create a sense of unity and overall harmony.
 - 10. Integrate columns into the facade.
 - 11. Include facade articulation which reinforces a sense of order through the interplay of light, shadow and texture.

[Return to 19.10]

M. Entries - Recessed door, window and wall openings are characteristic elements of the Spanish Revival theme.

1. Door and window openings in buildings should be accented architecturally through indentation and framing.
2. Articulation and color for identity and interest is a recommended treatment for building entrances.
3. Integration with overall building form is required for the building entrance.
4. Metal doors without articulation are strongly discouraged.

N. Windows

1. Fully recessed openings are encouraged, although plaster projections and projecting windows may be used to add articulation to wall surfaces.
2. High interior spaces should have operable windows or exhaust vents to release built-up heat.
3. Color accented window frames are encouraged.
4. Metal window frames are allowed. Factory finish aluminum window or door frames are strongly discouraged.
5. The following glazing materials are allowed:
 - a. Transparent glass
 - b. Lightly tinted glass
 - c. Lightly reflective solar glass (glass with a reflective factor of 30 percent or less) above the first floor.
6. The following glazing materials are not allowed:
 - a. Highly reflective glass
 - b. Dark tinted glass
 - c. Glass of a pronounced color

[Return to 19.10]

O. Roofs

1. Principal roof forms should be gable or hip with pitches from 3:12 to 6:12.
2. All pitched roof materials should be clay or concrete tile.
3. The use of double stacked roof tiles for additional texture is encouraged.
4. Varying plate heights and ridge heights is encouraged.
5. Large roof overhangs and exposed rafter tails are encouraged.
6. The use of wood shingles, simulated wood shingles, flat concrete tiles or other roofs should not be acceptable unless approved in a specific case by the Review Authority. Metal roofs are not acceptable.
7. Roof lines should be broken and varied within an overall horizontal context.
8. Skylights are to be designed as an integral part of the roof. Their form, location and color should relate to the building.
9. Solar panels should be integrated into the roof design, flush with the roof slope. Frames should be colored to complement roof. Natural aluminum frames are prohibited. Support solar equipment should be enclosed and screened from view.

P. Loading Areas

1. Loading and service areas should not be visible from the Wide Sidewalk Pedestrian Promenade or the courtyards. Loading docks and service areas should be located on the rear side of all buildings adjacent to the alley/buffer areas.
2. Loading docks should be articulated and painted to match the building.
3. Access to service ways should be from side streets with truck traffic avoiding main, pedestrian-oriented streets, wherever possible.
4. Generally, side loading will be necessary.

[Return to 19.10]

Q. Trash

1. Refuse enclosures are required by the Development Code. Gates should be painted to match adjacent buildings. Recommended enclosure locations include inside parking courts, or at the end of parking bays. Locations should be conveniently accessible for trash collection and maintenance.
2. Refuse collection areas should be located on an interior side or rear yard.
3. Walls of refuse enclosures may be screened by landscaping materials.

R. Building Materials

1. Exterior plaster should be a smooth trowel finish, sand finish or float finish which simulates plaster over an uneven adobe brick structure.
2. Exterior columns for trellises, porches or colonnades should utilize materials and colors which are compatible with the adjacent building.
3. The use of bull nose or beveled corners at plaster walls is encouraged.
4. Exterior paving materials at courtyards, patios, and pedestrian identification points should utilize brick, interlocking pavers, quarry tile or colored/textured concrete. Natural concrete should not be acceptable in these locations.
5. Applied veneers on columns are discouraged.
6. Tile accent bands on plaster columns are acceptable.
7. Wood trimmed details for balconies are encouraged.
8. Rough sawn lumber, preferably with uneven edges for rafter tails, beams, posts and trim.
9. Rafter tails should be four inches or larger.
10. Thin posts, such as four inches by four inches wood or metal pipe columns are unacceptable. Wood posts should be six inches or larger.
11. The use of fascia boards is discouraged.

[Return to 19.10]

12. The underside of eaves, porches and colonnades should be wood planking or exterior plaster.
13. Stucco or plaster walls with wrought-iron grilles between pilasters are encouraged.
14. Use of wood lattice, if any, should be very minimal.
15. Bold trim and patterns are discouraged.
16. The crisp, clean and simple use of tile, brick, stone and masonry are encouraged as design accent and trim if used in an authentic expression of Spanish Revival architecture.
17. Use of material such as vinyl or aluminum siding is encouraged. Wood, masonite siding and stone should be limited to specific cases as approved by the Review Authority.
18. Patio trellises, arbors and other exterior structures may be of stucco or wood. They should incorporate forms typical of early California architecture as defined herein.
19. Materials should not be used to form any high contrasting or graphic pattern that would cause visual distraction.

S. Landscaping Guidelines

1. The use of vines and shrubbery around columns is encouraged.
2. The use of vines on trellis structures is encouraged.
3. Vegetation should be mass planted in key areas, define circulation patterns and create courtyard environments.
4. Plant material, particularly vines and espaliered trees, should be used to visually soften project walls.
5. Plant material should be massed to:
 - a. Distinguish entries
 - b. Define circulation patterns
 - c. Unify the overall project

[Return to 19.10]

6. Buildings in most cases should be landscaped with low-level plantings and trees to soften the impact of the architecture and provide a more human scale.
 7. Vegetation of varying heights and textures should be placed along perimeter walls and fences to soften hard planes and to create interest and variety.
- T. Plant Palette - The plant palette encourages the use of plant materials which are indigenous to Southern California, or were imported and used extensively for decades when Spanish Revival architecture was initially introduced to Southern California.

Drought tolerant species have been emphasized.

COMMON NAME	BOTANICAL NAME
STREET TREES-LARGE SPECIES	
Green Ebony	Jacaranda Acutifolia
American Sweet Gum	Liquidamber Styraciflua
Southern Magnolia	Magnolia Grandiflora
Paper Bark Tree	Melaleuca Leucadendron

U. Rehabilitation of Existing Buildings.

1. Existing entries should be enhanced by the addition of replacement doors and added porticoes or trellises.
2. Existing windows and walls should be enhanced by the superimposition of plaster frames or the replacement of window walls.
3. The colors and materials of the additive elements should conform to the design palette and materials contained in the guidelines for new construction.
4. Accessory structures, built in former parking areas, should conform to all the design guidelines for Paseo Las Placitas.
5. All trash and utility systems should be upgraded to comply with the new construction guidelines where possible.
6. If possible, existing signage should be replaced with new signage constructed in accordance with the signage requirements.
7. To the extent feasible, existing roofs and rooflines, if not consistent with the Design Guidelines, should be modified to harmonize with the new construction guidelines contained herein.

V. Parking Lot Design

1. Surface parking lots are prevalent in the Minimum Development Plan and in limited portions of the Maximum Development Plan.
2. Tree well and planter areas within paved parking areas should provide a minimum clear planting dimension of 5 feet (from inside face of curb).
3. Parking should be screened from streets through combined use of berming and/or low walls and landscape.
4. Vehicular access to building service areas and off-street parking lots should be located to minimize curb cuts over sidewalks and onto any street.

[Return to 19.10]

W. Noise Abatement - The impact from significant noise sources should be mitigated through noise abatement techniques which include the following:

1. Solid masonry enclosure-minimum 6 feet high around noise emitting source.
2. Solid masonry or concrete walls at interface of noise source.
3. Ground mounted air-conditioning or other equipment which should be located away from entries, windows or adjoining property lines.
4. Roof mounted air-conditioning equipment which should be mounted on isolators to reduce vibration.

X. Signs

1. Sign materials should complement the building with materials, colors and textures which reflect those of the overall Specific Plan area.
2. Signs should utilize lettering styles reminiscent of the Spanish Revival Style rather than that of contemporary signage.
3. The use of tile wall signs and wood signs is preferred for individual tenant identification.
4. Sign colors should not be overpowering but should be an accent to the building on which it is mounted.
5. Signs generally may not be painted on exterior walls. However, extremely well-designed, painted signs which offer a special accent, may be approved by the Review Authority.

Graphic examples and illustrations of these design guidelines are contained in the document entitled "Paseo Las Placitas, Specific Plan and Environmental Impact Report for the Mount Vernon Corridor" on file in the Department. Reso 92-135, 4-06-92

[Return to 19.10]

G19.10.060 40th STREET PROJECT AREA DESIGN GUIDELINES

1. GENERAL

The following design guidelines are intended as a reference framework to assist owners, tenants, architects and contractors in understanding the 40th Street Project Area goals and objectives for high quality development. The guidelines complement the mandatory site development regulations contained in Chapter 19.06 of the Development Code by providing examples of appropriate design solutions and by providing design interpretations of the various mandatory regulations.

The design guidelines are general and may be interpreted with some flexibility in their application to specific projects. The guidelines will be utilized during the City's design review process to encourage the highest level of design quality while at the same time providing the flexibility necessary to encourage creativity on the part of project designers.

Unless there is a compelling reason, these design guidelines shall be followed. If the Development Review Committee waives a guideline, members of the Planning Commission and the Mayor and Common Council shall be notified. The Mayor or any Councilperson may file an appeal within 15 days of the DRC's approval of the waiver. No fee shall be required for such appeal.

2. APPLICABILITY

The provisions of this section shall apply to all development in commercial areas within the 40th Street Project Area. Any addition, remodeling, relocation, construction or reconstruction requiring a building permit within any commercial zone subject to review by the Community Development Department or the Development Review Committee shall adhere to these guidelines where applicable. Exception: These provisions shall not apply to tenant improvements that do not change the exterior of the building.

(Ord. MC-1393, 12-02-13)

3. GENERAL DESIGN PRINCIPLES

A. PURPOSE

These Design Guidelines are established in order to achieve the following objectives for the 40th Street Project Area:

1. Renew general pride and confidence in the 40th Street area.

[Return to 19.10]

2. Create an identity, community and sense of place for 40th Street
3. Promote quality design
4. Promote pedestrian activities
5. Promote property maintenance
6. Promote enhancement of property and area values
7. Promote an aesthetically pleasing environment

B. DESIRABLE ELEMENTS OF PROJECT DESIGN

The qualities and design elements for commercial properties that are most desirable include:

1. Pedestrian scale
2. Richness of surface and texture
3. Significant wall articulation (insets, canopies, wing walls, trellises)
4. Multi-planed, pitched roofs
5. Roof overhangs, arcades
6. Regular or traditional window rhythm
7. Articulated mass and bulk
8. Significant landscape and hardscape elements
9. Prominent access driveways
10. Landscaped and screened parking
11. Lighting elements
12. Limited color palette

[Return to 19.10]

C. UNDESIRABLE ELEMENTS

The elements to avoid or minimize include:

1. Large blank, flat wall surfaces
2. Unpainted concrete precision block walls
3. Highly reflective surfaces
4. Metal siding on the main facade
5. Plastic siding
6. Square "boxlike" buildings
7. Mix of unrelated styles (i.e. rustic wood shingles and polished chrome)
8. Visible outdoor storage, loading, and equipment areas
9. Disjointed parking areas and confusing circulation patterns

4. SITE PLANNING

Placement of buildings should consider the existing built context of the area, the location of residential neighborhoods and an analysis of a site's characteristics and particular influences.

A. BUILDING LOCATION

1. Buildings should be located to complement adjacent buildings. Sites should be developed in a coordinated manner to provide order and diversity.

[Return to 19.10]

2. Clustering three or more buildings in a shopping center provides opportunities to create plazas or pedestrian malls and prevents long rows of buildings. When clustering is not practical, a visual link between separate buildings should be established. This link can be accomplished through the use of an arcade, trellis, landscaping or other open structure and textured walkways.
3. Sites should be designed so as to link individual designed structures into a single unified project. Juxtaposition of contrasting architectural designs is not encouraged.
4. Locate buildings and on-site circulation systems to minimize pedestrian/vehicle conflicts where possible. Link buildings to the public sidewalk with textured paving, landscaping, and trellises. Create landscaped walkways from the business to the street to encourage pedestrian traffic.

5. Freestanding, singular commercial buildings should be oriented with their major entry toward the street where access is provided, as well as having their major facade parallel to the street. Structures facing more than one street shall be designed in such a manner as to be equally attractive from each street.

B. OPEN SPACE

1. Recognize the important potential of spaces between buildings as "outdoor rooms" on a shopping center site. Outdoor spaces should have a clear, recognizable shape that reflects careful planning and not simply left over area between buildings. Such spaces should provide pedestrian amenities such as shade, benches, fountains, etc.
2. Open space areas should be clustered into larger, predominant landscape areas rather than equally distributed into areas of low impact such as at building peripheries, behind a structure or areas of little impact.

[Return to 19.10]

5. PARKING AND CIRCULATION

Parking lot design can be a critical factor in the success or failure of a commercial use. In considering the possibilities for developing a new parking area, a developer should analyze the following factors:

- I) ingress and egress with consideration to possible conflicts with street traffic; 2) pedestrian and vehicular conflicts; 3) on-site circulation and service vehicle zones; and 4) the overall configuration and appearance of the parking area.

A. SEPARATION

1. Separate vehicular and pedestrian circulation systems should be provided. Pedestrian linkages between uses in commercial developments should be emphasized, including distinct pedestrian access from and through parking areas in large commercial developments, such as shopping centers.
2. Parking should be separated from pedestrian circulation routes whenever possible.

[Return to 19.10]

B. ACCESS

1. Common driveways that provide vehicular access to more than one site are encouraged, particularly where development occurs on narrow lots.
2. Shared parking between adjacent businesses and/or developments is highly encouraged whenever practical.
3. Design the pedestrian site entry with patterned concrete or pavers to differentiate it from the sidewalks. The handicap path of travel (sidewalk) should be designed with landscaping so that it is integrated into parking lot as a landscape feature.
4. Design parking areas so that pedestrians walk parallel to moving cars. Minimize the need for the pedestrian to cross parking aisles and landscape areas.

C. PARKING

1. Parking areas should be separated from buildings by either a raised concrete walkway or landscaped strip, preferably both. Situations where parking spaces directly abut the buildings should be avoided.
2. The parking area should be designed in a manner that allows the structure to be linked to the street sidewalk with pedestrian walkways. This can be accomplished by using design features such as walkways with enhanced paving, trellis structures, or a special landscape treatment.

[Return to 19.10]

3. Parking areas that accommodate a significant number of vehicles should be divided into a series of connected smaller lots. Landscaping and offsetting portions of the lot are effective in reducing the visual impact of large parking areas.

6. LANDSCAPING

Landscaping for commercial businesses should be used to define entrances to businesses, parking lots. Landscaping can also define the edges of various land uses, and provide buffering and screening between neighboring properties.

A. DESIGN PRINCIPLES

1. Landscaping should be in scale with adjacent buildings and be of appropriate size at maturity to accomplish its intended goals.
2. Landscaping should be protected from vehicular and pedestrian encroachment by raised planting surfaces, depressed walks, or the use of curbs.
3. Landscaping around the entire base of a building is recommended to soften the edge between the parking lot and the structure. This should be accented at building entries to identify and enhance the entrances.
4. Vines and climbing plants integrated upon buildings, trellises, and perimeter garden walls are strongly encouraged.

[Return to 19.10]

5. To accent business entries, use boxed and tubbed plants in clay or wood containers, especially for enhancement of sidewalk shops, plazas, and courtyards.

B. TREES

1. Trees should be located throughout the parking lot and not simply at the ends of parking aisles. A minimum of one, 24" box shade tree is required for every 4 parking spaces per the Development Code.

7. ARCHITECTURAL DESIGN GUIDELINES

A. HEIGHT AND MASS

1. Height and scale of new development should be compatible with that of surrounding development. New development is encouraged, where practical, to "transition" from the height of adjacent development to the maximum height of the proposed building.
2. Large buildings that give the appearance of "box-like" structures are generally unattractive and distort the overall scale of an area. There are several ways to reduce the appearance of excessive mass in large buildings.

[Return to 19.10]

- a. Vary the planes of the exterior walls in depth and/or direction. Wall planes should not run in 1 continuous direction for more than 50 feet without an offset.

- b. Vary the height of the building so that it appears to be divided into distinct massing elements.

- c. Articulate the different parts of a building's facade by use of color, arrangement of facade elements, or a change in materials.
- d. Use landscaping and architectural detailing at the ground level to lessen the impact of an otherwise bulky building.
- e. Avoid blank walls at the ground floor levels. Use windows, trellises, wall articulation, arcades, change in materials, or other such features.

[Return to 19.10]

B. SCALE

Scale, for purposes here, is the relationship between building size and the size of adjoining permanent buildings. It is also how the proposed building's size relates to the size of a human being, particularly at ground level. Large-scale building elements will appear imposing if they are situated in a visual environment of a smaller scale.

1. Buildings can be designed for pedestrians through the use of window patterns, structural bays, roof overhangs, siding, awnings, moldings, fixtures, and other details.

2. The scale of buildings should be carefully related to adjacent pedestrian areas (i.e. plazas, courtyards) and buildings.
3. Large dominating buildings should be broken up by:
 - a. Creating horizontal emphasis through the use of trim, cornices or belt courses;

Storefront elements and pedestrian level details provide an intimate scale

[Return to 19.10]

- b. Adding awnings, eaves, windows, or other architectural ornamentation;
- c. Use of combinations of complementary colors; and
- d. Landscape materials.

Form and texture shall be repeated in a manner to provide a sense of unity within a large mass

C. COLOR

Much of the existing color in the 40th Street Area does not contribute to a cohesive commercial area. At times, color has been used inappropriately to attract attention to buildings and the business therein without regard to the negative impact such use of color has on the visual quality and character of the area as a whole. The following guidelines are intended to provide for a cohesive, identifiable area.

1. Large areas of intense white color should be avoided. While subdued colors usually work best as a dominant overall color, a bright trim color can be appropriate.
2. Primary colors (red, blue, orange) should only be used to accent elements, such as door and window frames and architectural details.
3. The color palette chosen for new buildings should be compatible with the colors of adjacent buildings. An exception is where the colors of adjacent buildings strongly diverge from these design guidelines.
4. Wherever possible, minimize the number of colors appearing on the structure's exterior. Small commercial buildings should use no more than 3 colors.
5. Architectural detailing should be painted to complement the facade and tie in with adjacent buildings. An exception is where the colors of adjacent buildings strongly diverge from these design guidelines.
6. The use of standardized "corporate" architectural styles is permitted provided they are consistent with the design standards of the area.

D. ROOFS

1. The roofline at the top of the structure should not run in continuous plane for more than 50 feet without offsetting or jogging the roof plane.
2. All roof top equipment shall be screened from public view by screening materials of the same nature as the structure's basic materials. Mechanical equipment should be located below the highest vertical element of the building.

[Return to 19.10]

3. The following roof materials should not be used:
 - a. Corrugated metal (standing rib metal roofs are permitted)
 - b. Highly reflective surfaces
 - c. Illuminated roofing

E. AWNINGS

The use of awnings along a row of contiguous buildings should be restricted to awnings of the same form and location. Color of the awnings should be consistent and a minimum eight-foot vertical clearance is required.

1. The awning should be well maintained, washed regularly, and replaced when frayed or torn.
2. Signs on awnings should be painted on and be limited to the awning's flap (valance) or to the end panels of angled, curved, or box awnings. In shopping centers with more than two tenants, awning signs are allowed only as a coordinated program.
3. Plexiglas, metal, and glossy vinyl illuminated awnings are strongly discouraged. Canvas, treated canvas, matte finish vinyl, and fabric awnings are encouraged.
4. Internally lit awnings should not be used.
5. Care should be taken so that awnings do not obstruct the view to adjacent businesses.

F. LIGHTING

Lighting should be used to provide illumination for the security and safety of on-site areas such as parking, loading, pathways and working areas. Higher light levels are expected in heavily used pedestrian areas.

1. The design of light fixtures and their structural support should be architecturally compatible with the main buildings on-site.
2. As a security device, lighting should be adequate but not excessively bright. All building entrances should be well lighted.

[Return to 19.10]

8. WALLS AND FENCING

- A. If not required for a specific screening or security purpose, walls should not be utilized within commercial areas. The intent is to keep the walls as low as possible while performing their screening and security functions.

- B. Where walls are used at property peripheries, or screen walls are used to conceal storage and equipment areas, they should be designed to blend with the site's architecture. Both sides of all perimeter walls or fences should be architecturally treated. Landscaping should be used in combination with such walls whenever possible.
- C. When security fencing is required, it should be a combination of solid walls with pillars and decorative view ports, or short solid wall segments and wrought iron grillwork.

[Return to 19.10]

9. SCREENING

- A. The location of utilities and equipment should be considered early in the design process so they are integrated into the layout of the site and visibility is minimized. Screen should be consistent with the design, colors and materials of the main structure.

- B. Wherever possible, building screening should be accomplished by primary building elements (i.e. parapet wall or Mansard roof) instead of after-the-fact add-on screening.
- C. Loading facilities should not be located at the front of buildings where it is difficult to adequately screen them from view. Such facilities are more appropriate at the rear of the site where special screening may not be required.

[Return to 19.10]

CHAPTER 19.10-E EMERGENCY SHELTER OVERLAY ZONE

Sections

- 19.10-E.010 Purpose**
- 19.10-E.020 Applicability**
- 19.10-E.030 General Provisions**
- 10.10-E.040 Development Standards**

19.10-E.010 Purpose

The purpose of this chapter is to provide for areas within the CH, Commercial Heavy, IL, Industrial Light and OIP, Office Industrial Park zones as referenced in Table 06.01 of Chapter 19.06 and Table 08.01 of Chapter 19.08, where emergency shelters, in accordance with Government Code Section 65583, are allowed without a conditional use permit or other discretionary permit. Recognizing the need for available and affordable sites for establishment of emergency shelters outside the traditional locations in commercial zones, the Emergency Shelter Overlay zone provides several areas within the CH, IL and OIP zones for new emergency shelters to be integrated with commercial and light industrial uses and existing social services throughout the City. The purpose of the designated boundaries (area of applicability) is to maximize the potential for provision of emergency shelter and support services throughout the City of San Bernardino.

19.10-E.020 Applicability

The Emergency Shelter Overlay zone shall apply to CH, Commercial Heavy, IL, Industrial Light and OIP, Office Industrial Park zones as specified in reference maps adopted with the Emergency Shelter Overlay zone and available in the Community Development Department. All land use regulations and development standards for commercial and industrial uses as specified in Chapters 19.06 and 19.08 shall remain in effect. The effect of the Emergency Shelter Overlay zone shall be to define the area of applicability where emergency shelters shall also be permitted with Director approval, and to add general and specific development standards for emergency shelters within the CH, IL and OIP zones.

19.10-E.030 General Provisions

1. Emergency shelters located in the Emergency Shelter Overlay zone shall be developed and operated according to the land use regulations, development standards and design guidelines for the CH, IL and OIP zones, as applicable, as well as Chapter 19.10-E.

[\[Return to Municipal Code Contents\]](#)

2. Emergency shelters shall be permitted with the approval of an Administrative Permit within the Emergency Shelter Overlay zone as specified in Table 06.01 of Chapter 19.06 and Table 08.01 of Chapter 19.08.

19.10-E.040 Development Standards

1. The following standards shall apply to development of emergency shelters within the Emergency Shelter Overlay zone:

A EMERGENCY SHELTERS

Emergency shelters, providing temporary housing and support services to homeless persons, shall be permitted in the Emergency Shelter Overlay zone of the CH, Commercial Heavy, IL, Industrial Light and OIP, Office Industrial Park zones, subject to the standards in this Section. As social services with residential components, emergency shelters are also conditionally permitted in several commercial zones and throughout the IL, Industrial Light zone. The following standards shall be required for development or establishment of emergency shelters in the Emergency Shelter Overlay zone:

- (1) The maximum resident density shall be one resident per 150 sq. ft., up to a maximum of 60 residents;
- (2) The maximum length of stay shall be six months;
- (3) The site shall be located no more than ½ mile from a public transit line;
- (4) Any new or existing structure proposed for use as an emergency shelter shall meet current California Building Code requirements.
- (5) Off-street parking shall be provided at a ratio of one space per 1,000 square feet of gross floor area, or one space for each employee on the largest shift plus one space for each agency vehicle plus three visitor spaces, whichever is greater;
- (6) Fencing and exterior lighting conforming to the development standards of Chapter 19.20 shall be required to ensure the security of site residents;

- (7) A security and management plan shall be required to demonstrate adequate plans and capability to operate the emergency shelter in a safe and effective manner, including complete descriptions of the following:
- (a) Fencing, lighting, video cameras, and any other physical improvements intended to provide or enhance security for residents and staff;
 - (b) Staffing plans, including the qualifications and responsibilities of all staff members and the number and positions of employees on each shift;
 - (c) Procedures and policies for screening of potential residents to identify individuals who should be referred to medical facilities, residential care facilities, other service agencies or law enforcement;
 - (d) Plans and policies for daily operations and supervision of residents;
 - (e) Support services to be offered to residents, including life skills training, counseling, referral to other service agencies and job placement assistance;
 - (f) Plans to coordinate services of the facility with other homeless service providers in San Bernardino County, to improve the effectiveness of the network of agencies serving the homeless, countywide.

CHAPTER 19.11

TCC (TRICITY CORPORATE CENTRE OVERLAY) ZONE

Sections:

19.11.010 Purpose

19.11.010 Purpose

The purpose of this chapter is to promote and encourage that development in the TriCity Corporate Centre Project area is consistent and compatible and in accordance with the TriCity Corporate Centre Land Use Plan and Design Guidelines which is incorporated into this Development Code by reference. The TriCity Corporate Centre Land Use Plan and Design Guidelines establishes planning areas, permitted uses and standards and design guidelines which shall be used in the TriCity Corporate Centre Project area as shown on the Zoning Map.

(Ord. MC-1393, 12-02-13; Ord. MC-881, 7-08-93)

CHAPTER 19.12 A (AIRPORT OVERLAY) DISTRICTS

Sections:

- 19.12.010 Purpose
- 19.12.020 Definitions
- 19.12.030 Airport Districts
- 19.12.040 Airport Provisions
- 19.12.050 Airport District One (AD I)
- 19.12.060 Airport District Two (AD II)
- 19.12.070 Airport District Three (AD III)
- 19.12.080 Airport District Four (AD IV)
- 19.12.090 Airport District Five (AD V)

19.12.010 Purpose

The purpose of this chapter is to promote the public health, safety and general welfare in the vicinity of airports by minimizing exposure to crash hazards and high noise levels generated by airport operations and to encourage future development that is compatible with the continued operation of airports.

19.12.020 Definitions

For the purpose of this chapter, certain words are defined as follows:

1. **Air Installation Compatible Use Zone Report.**

A report prepared by the Department of the Air Force examining, evaluating, and summarizing the aircraft operations at U.S. Air Force Bases with respect to the effects of noise and accident hazards.

2. **Airport District One (AD I).**

The area within a 3,000 by 5,000 foot rectangle having 2 of its sides parallel with, and 1,500 feet from either side of, an extension of the centerline of a runway running from 3,000 to 8,000 feet from the midpoint of the end of the runway.

3. **Airport District Two (AD II).**

The area within a 3,000 by 7,000 foot rectangle having 2 of its sides parallel with, and 1,500 feet from either side of, an extension of the centerline of a runway running from 8,000 to 15,000 feet from the midpoint at the end of the runway.

[\[Return to Municipal Code Contents\]](#)

4. **Airport District Three (AD III).**

The area between the 75 Ldn and 80 Ldn noise contour lines developed by the application of the day-night average sound level methodology of sound measurement (Ldn) but not within any other airport District as defined herein.

5. **Airport District Four (AD IV).**

The area between the 70 Ldn and 75 Ldn noise contour lines developed by the application and the day-night average sound level methodology of sound measurement (Ldn), but not within any other Airport District as defined herein.

6. **Airport District Five (AD V).**

The area between the 65 Ldn and 70 Ldn noise contour lines developed by the application of the day-night average sound level methodology of the sound measurement (Ldn), but not within any other Airport District as defined herein.

7. **Clear Zone.**

The area within a 3,000 by 3,000 foot square having 2 of its sides parallel with and 1,500 feet from either side of, an extension of the centerline of a runway running 3,000 feet from the midpoint of the end of the runway.

8. **Day-night Sound Level (Ldn).**

The sound level during a 24 hour time period with a 10 decibel penalty applied to the equivalent sound level during nighttime hours of 10:00 P.M. to 7:00 A.M.

9. **Decibel.**

The physical unit commonly used to describe noise level.

10. **High Noise Levels.**

Sound levels which equal or exceed that within the 65 Ldn noise contour line developed by the application of the day-night average sound level methodology of sound measurement (Ldn).

11. **Human Occupancy.**

Any structure having overnight or longer living accommodations or that is intended for such use.

[\[Return to Municipal Code Contents\]](#)

12. **Ldn.**

The day-night sound level.

13. **Runway.**

An artificially surfaced strip of ground designed and actively used at an airport for the landing and taking off of aircraft.

14. **Severe Accident Potential.**

The level of crash hazard risk associated with the Clear Zone. Said risk shall be identified in the same manner as crash hazard risk is identified in United States Air Force Air Installation Compatible Use Zone Reports for military airports.

15. **Significant Accident Potential.**

The level of crash hazard risk associated with Airport District II. Said risk shall be identified in the same manner as crash hazard risk is identified in United States Air Force Air Installation Compatible Use Zone Reports for military airports.

16. **Substantial Accident Potential.**

The level of crash hazard risk associated with Airport District I. Said risk shall be identified in the same manner as crash hazard risk is identified in United States Air Force Air Installation Compatible Use Zone Reports for military airports.

19.12.030 Airport Districts

For the purpose of this chapter, 5 Airport Districts are hereby created. The boundaries of these districts shall be delineated on official land use district maps as overlay districts. These districts are as follows:

1. Airport District One (AD I);
2. Airport District Two (AD II);
3. Airport District Three (AD III);
4. Airport District Four (AD IV); and
5. Airport District Five (AD V).

19.12.040 Airport Provisions

1. Nothing contained herein shall require any change or alteration in a lawfully constructed or established structure, or use in existence at the time of the adoption or amendment of these regulations. These regulations are intended to regulate only the following actions:
 - A. The erection or establishment of any new structure or use;
 - B. The moving or relocation of any structure, or use to a new site or new location;
 - C. The operation or continuance, at any time following the effective date of these regulations, of any structure or use which has been unlawfully established, erected, remodeled, or rehabilitated; and
 - D. The change from 1 use to another of any structure, or land, or the re-establishment of a use after its discontinuance for a period of 180 consecutive days or more.
2. Except for agricultural uses, including structures not more than 20 feet in height and not intended for human occupancy, a Development Permit shall be required for all development in AD I and AD II.

A. DEVELOPMENT PERMIT FINDINGS

A Development Permit shall be approved only when specific findings are made which indicate that the proposed use complies with the following regulations in addition to those outlined elsewhere in this Development Code:

- 1) All uses shall be compatible with the continued operation of the airport. No uses shall be allowed which:
 - a. release into the air any substances which would impair visibility or otherwise interfere with the operation of aircraft;
 - b. produce light emissions, either direct or indirect (reflective), which would interfere with pilot vision;
 - c. produce emissions which would interfere with aircraft communication systems or navigational equipment; and
 - d. attract birds or water fowl in such numbers as would create a hazard to aircraft operations.

[Return to Municipal Code Contents]

- 2) No development intended for human occupancy, whether on a temporary or permanent basis, shall be allowed in AD I and AD II.
- 3) No uses shall cause or produce objectionable effects which would impose a hazard or nuisance to adjacent or other properties by reason of smoke, soot, dust, radiation, odor, noise, vibration, heat, glare, toxic fumes or other conditions that would affect adversely the public health, safety and general welfare.
- 4) No uses which require the use or storage of materials which are explosive, flammable, toxic, corrosive, or otherwise exhibit hazardous characteristics shall be permitted.
- 5) No uses which are labor intensive or promote the concentration of people for extended periods of time shall be permitted, except as expressly authorized in this section.
- 6) No structure or any portion thereof on the premises of a permitted use shall be used for a residential dwelling by the owner, operator, or caretaker, their family members or others.
- 7) A Noise Level Reduction (NLR) of not less than 30 decibels from exterior to interior shall be incorporated into the design and construction of those portions of structures where the public is regularly received and into office areas.

B. PROCEDURES

The provisions of Section 19.44 (Development Permit) shall apply.

C. DECISION OF DEPARTMENT

- 1) The decision of the Department shall be based on findings of fact that the purpose of this section has been preserved.
- 2) The decision of the Department may include reasonable requirements deemed necessary to promote the purpose of this section. Said requirements may include, but are not limited to, the following:
 - a. yards and open spaces;
 - b. fences and walls, or other screening;
 - c. surfacing of parking spaces and specifications thereof;

[Return to Municipal Code Contents]

- d. street improvements, including provision of service roads or alleys when practical and necessary;
- e. regulation of points of vehicular ingress and egress;
- f. regulation of signs;
- g. landscaping and maintenance thereof;
- h. maintenance of grounds;
- i. control of noise, vibration, odor, and other potentially dangerous or objectionable elements;
- j. lot size;
- k. height restrictions;
- l. restrictions in accessory structures;
- m. time limits which may be imposed for the commencement of construction, and/or review and further action by the Department and/or a time limit within which the Development Permit shall cease to exist.

19.12.050 Airport District One (AD I)

This overlay district is designed to regulate land use and reduce hazards in an area characterized by high noise levels and a substantial accident potential resulting from aircraft operations. Only those types of activities authorized by this section may be permitted, and any other uses shall be subject to the requirements for a Conditional Use Permit pursuant to Chapter 19.36 except for agricultural uses, including structures not more than 20 feet in height and not intended for human occupancy.

1. INDUSTRIAL/MANUFACTURING USE REGULATIONS

Permitted industrial/manufacturing uses within AD I include, but are not limited to, the following types of labor nonintensive activities provided they comply with the standards prescribed by this chapter:

- A. warehousing and storage;
- B. manufacture of stone, clays, leather, glass and similar products;

[Return to Municipal Code Contents]

- C. manufacture of lumber and wood products;
- D. printing and publishing;
- E. paper and allied products;
- F. furniture and fixtures;
- G. chemicals and allied products;
- H. outside storage activities;
- I. rubber and miscellaneous plastic;
- J. primary metal industries; and
- K. fabricated metal products.

The following regulations shall apply to all industrial uses permitted in AD I in addition to those regulations contained in other portions of this chapter:

- A. Lot size: The minimum net lot area shall be 35,000 square feet.
- B. Height restrictions: The maximum height of structures shall be 30 feet.
- C. Parking regulations: The parking restrictions and regulations outlined in Chapter 19.24 shall apply.
- D. Yard regulations: Yards are required as follows:
 - 1. Front yard: There shall be a front yard having a depth of not less than 50 feet from the planned public right-of-way line.
 - 2. Side yard: There shall be a side yard having a width of not less than 20 feet on each side of any structure.
 - 3. Rear yard: There shall be a rear yard having width of not less than 20 feet on each side of any structure.
- E. Signs are permitted in this district subject to the requirements prescribed in Chapter 19.22.

2. COMMERCIAL USE REGULATIONS

Permitted commercial uses within AD I include, but are not limited to, the following types of labor intensive activities, provided they comply with the standards prescribed in this Section.

- A. groceries and related wholesale;
- B. machinery, equipment, supplies, wholesale;
- C. hardware and metals, wholesale;
- D. other wholesale trade activities;
- E. building and lumber materials; retail; and
- F. furniture, home furnishings, retail.

Within AD I, no structure or premise shall be used for:

- A. food, retail;
- B. apparel and accessories, retail;
- C. eating and drinking places; and
- D. general merchandise, retail.

The following regulations shall apply to all commercial activities permitted in AD I in addition to those regulations contained in other portions of this chapter:

- A. Lot size: The minimum net lot area shall be 35,000 square feet.
- B. Height restrictions: The maximum height of structures shall be 30 feet.
- C. Parking regulations: The parking restriction and regulations outlined in Chapter 19.24 shall apply.
- D. Yard regulations: Yards are required as follows:
 - 1. Front yard: There shall be a front yard having a depth of not less than 30 feet from the planned public right-of-way.

2. Side yard: There shall be a side yard having width of not less than 20 feet on each side of any structure.
 3. Rear yard: There shall be a rear yard having a depth of not less than 20 feet on each side of any structure.
- E. Signs are permitted in this district subject to the requirements prescribed in Chapter 19.22.

3. ADMINISTRATIVE AND PROFESSIONAL SERVICE REGULATIONS

No administrative and professional service uses shall be permitted in AD I, except repair services.

4. PUBLIC AND QUASI-PUBLIC ADMINISTRATIVE USE REGULATIONS

No public and quasi-public administrative uses shall be permitted in AD I.

5. OUTDOOR RECREATION USE REGULATIONS

Permitted uses shall be limited to the following:

- A. golf courses; and
- B. horseback riding stables and trails (except that no public shows and public events shall be permitted).

6. RESOURCE PRODUCTION USE REGULATIONS

All resource production uses may be permitted in AD I including, but not limited to, the following activities:

- A. agricultural uses;
- B. commercial dairies; and
- C. mining.

19.12.060 Airport District Two (AD II)

This overlay district is designed to regulate land use and reduce hazards in an area characterized by high noise levels and a significant accident potential resulting from aircraft operations. Only those types of activities authorized by this chapter may be permitted, and any other uses shall be subject to the requirements of a Conditional Use Permit contained in Chapter 19.36 except for agricultural uses, including structures not more than 20 feet in height and not intended for human occupancy, as well as the applicable standards established herein.

1. INDUSTRIAL/MANUFACTURING USE REGULATION

Permitted industrial/manufacturing uses within AD II include, but are not limited to, the uses approved for Airport District I, and provided they comply with the standards prescribed by this chapter.

The following regulations shall apply to all industrial uses permitted AD II in addition to those regulations contained in other portions of this section:

- A. Lot size: The minimum net lot area shall be 35,000 square feet.
- B. Height restrictions: The maximum height of structures shall be 30 feet except where otherwise specified.
- C. Parking regulations: The parking restrictions and regulations outlined in Chapter 19.24 shall apply.
- D. Yard regulations: Yards are required as follows:
 - 1) Front yard: There shall be a front yard having a depth of not less than 50 feet from the planned public right-of-way line.
 - 2) Side yard: There shall be a side yard having a width of not less than 15 feet on each side of any structure.
 - 3) Rear yard: There shall be a rear yard having a depth of not less than 15 feet.
- E. Signs are permitted in this district subject to the requirements as prescribed in Chapter 19.22.

2. COMMERCIAL USE REGULATIONS

All commercial uses permitted in Section 19.06.020 (Table 06.01) may be allowed in AD II.

Within AD II, no structure or premises shall be used for the following:

- A. funeral chapels;
- B. auditoriums;
- C. sports arenas;
- D. gymnasiums;
- E. stadiums;
- F. churches;
- G. theaters; and
- H. restaurants, except that coffee shops not serving alcoholic beverages and fast food restaurants are permitted.

The following regulations shall apply to all commercial activities permitted in AD II in addition to those regulations contained in other portions of this chapter;

- A. Lot size: The minimum net lot area shall be 35,000 square feet.
- B. Height reductions: The maximum height of structures shall be 30 feet.
- C. Parking regulation: The parking restrictions and regulations outlined in Chapter 19.24 shall apply.
- D. Yard regulations: Yards are required as follows:
 - 1) Front yard: There shall be a front yard having a depth of not less than 30 feet from the planned public right-of-way line.
 - 2) Side yard: There shall be a side yard having a width of not less than 15 feet.

3) Rear yard: There shall be a rear yard having depth of not less than 15 feet.

E. Signs are permitted in this district subject to the requirements in Chapter 19.22

3. ADMINISTRATIVE AND PROFESSIONAL USE REGULATIONS

The type of administrative and professional service uses that may be allowed in AD II include, but are not limited to:

A. professional offices;

B. banks and other financial institutions;

C. electrical repair shops;

D. dry cleaning establishments; and

E. similar uses not involving high occupancy activities.

The following regulations shall apply to all administrative and professional service activities in addition to those appearing elsewhere in this chapter:

A. Lot size: The minimum net lot area shall be 35,000 square feet.

B. Height restrictions: The maximum height of structures shall be 30 feet.

C. Parking regulations: The parking restrictions and regulations outlined in Chapter 19.24 shall apply.

D. Yard regulations: Yards are required as follows:

1. Front yard: There shall be a front yard having a depth of not less than 25 feet from the planned public right-of-way line.

2. Side yard: There shall be a side yard having a depth of not less than 15 feet on each side of any structure.

3. Rear yard: There shall be a rear yard having a depth of not less than 15 feet.

E. Signs are permitted in this district subject to the requirements in Chapter 19.22.

[Return to Municipal Code Contents]

4. OUTDOOR RECREATION USE REGULATIONS

Permitted uses shall be limited to the following:

- A. Golf courses; and
- B. Horseback riding stables and trails (except that no public shows and public events shall be permitted).

5. RESOURCE PRODUCTION USE REGULATIONS

The following resource production uses may be permitted in AD II:

- A. Agricultural uses;
- B. Commercial dairies; and
- C. Mining.

19.12.070 Airport District Three (AD III)

This district is designed to regulate land use in an area characterized as having high noise levels. All new development located in this district shall incorporate a noise level reduction of 30 decibels. Where the contemplated use to be made of any structure makes noise reduction unnecessary or useless, the noise reduction requirements specified herein shall not apply, but approval may be subject to such conditions as to changes of use or subsequent uses as the Commission may impose.

19.12.080 Airport District Four (AD IV)

This district is designed to regulate land use in an area characterized as having high noise levels. All new development located in this district shall incorporate a noise level reduction of 25 decibels. Where the contemplated use to be made of any structure makes noise reduction unnecessary or useless, the noise reduction requirements specified herein shall not apply, but approval may be subject to such conditions as to changes of use or subsequent uses as the Commission may impose.

19.12.090 Airport District Five (AD V)

This district is designed to regulate land use in an area characterized as having high noise levels. All new development located in this district shall incorporate a noise level reduction of 20 decibels. Where the contemplated use to be made of any structure makes noise reduction unnecessary or useless, the noise reduction requirements specified herein shall not apply, but approval may be subject to such conditions as to changes of use or subsequent uses as the Commission may impose.

CHAPTER 19.12A A (AIRPORT) ZONE

Sections:

19.12A.010	Purpose
19.12A.020	Permitted, Development and Conditionally Permitted Uses

19.12A.02	Airport Zone Development Standardss

Guidelines

G19.12A.050	Airport Development Design Guidelines
--------------------	--

19.12A.010 Purpose

1. The purpose of this chapter is to achieve the following:
 - (A) To define specific uses and development standards related to the unique needs and requirements of an international airport.
 - (B) Ensure compatibility with adjacent land uses.
 - (C) Provide an appropriate area for airport-related activities and uses.

2. The purpose of the (A) Airport Zone is as follows:
 - (A) Provide for the conversion, reuse and expansion of the existing airfield and related facilities into an air carrier airport.
 - (B) Provide for a regionally important land use which will offer employment opportunities for existing and future residents of the City and surrounding communities.
 - (C) Provide for a land use that will meet the needs of and attract users from throughout the region.

19.12A.020 Permitted, Development and Conditionally Permitted Uses

The following list represents those primary uses in the Airport Zone which are Permitted (P), subject to a Development Permit (D) or a Conditional Use Permit (C).

TABLE 19.12A.01. AIRPORT ZONE LIST OF PERMITTED USES¹

Land Use Activity "A" Zone

1.	Accessory structures and uses typically appurtenant to a principally permitted land use activity.	D
2.	Air cargo and air freight terminals.	D
3.	Aircraft associated activities.	D
	(a) Aerial firefighting enterprises.	D
	(b) Aerial photo and surveying enterprises.	D
	(c) Air carrier, commuter, scheduled air taxi and air taxi operations.	D
	(d) Aircraft wash and wax operations.	D
	(e) Car rental.	D
	(f) Flying school or flying club administrative and classroom facilities.	D
	(g) Rental of hangar and tie-down space for aircraft storage.	D
	(h) Sale of aviation petroleum products.	D
	(i) Sale, rental or charter of aircraft.	D
	(j) Sale, rental or service of aircraft parts, avionics, instruments or other aircraft equipment.	D
	(k) Taxicabs, buses, limousines, rail and other ground transportation.	D

¹ Permits or development applications shall be accepted for processing only with the written authorization from the Executive Director of the Airport Authority.

| 6. Air Museum. | D |
| 7. Airport, airfield, helicopter field or port, landing and take-off runways and taxiways | D |
| 8. Buildings, improvements and activities primarily related to the operation of the airport facility, such as hangars, passenger terminal, operation towers, parking lots, fuel storage and refueling facilities, maintenance, security and public safety facilities. | D |
| 9. Cellular and microwave communication facilities. | D |
| 10. Fire training facility. | D |
| 11. Field crops, truck gardening, berry and bush crops, flower gardening, wholesale nurseries and similar open agricultural uses. | P |
| 12. Hotel/Motel. | C |
| 13. Interim Uses ² | D |
| 14. Intermodal Cargo Transfer Facility. | D |
| 15. Offices. | C |
| 16. Packaging and packing of perishable products for air transport. | D |
| 17. Preparation of chemical fire retardants as required for aerial fire fighting. | D |

² Interim Uses which are not airport or aviation related may be permitted on airport property for periods not to exceed 5 years. Interim uses shall be compatible with the airport operations and adjacent uses including those which may be located or planned off-site of the airport itself. Interim uses must be located within a fully enclosed structure.

- 18. Recreation uses such as park, golf course, golf driving range and similar recreational uses involving the open use of land without structures or improvements. D
- 19. Repair, maintenance, rebuilding, alteration or exchange of aircraft and aircraft engine components or other parts. D
- 20. Restaurant food service establishments including sale of alcoholic beverages, and retail sales as an accessory use within the terminal facilities. D
- 21. Temporary uses pursuant to Chapter 19.70, Temporary Use Permits, subject to approval by the Airport Authority Executive Director and the Director of Planning and Building Services. T
- 22. Truck Terminal including on-site maintenance. C

Other similar uses which the Director finds to fit within the purpose/intent of the Airport Zone in compliance with Section 19.02.070(3).

(Ord. MC-1393, 12-02-13)

19.12A.030 Development Standards

1. GENERAL STANDARDS

A. The following standards are minimum unless stated as maximum.

TABLE 19.12A.02 AIRPORT ZONE DEVELOPMENT STANDARDS ³

Minimum Parcel Site	1 acre
Building Separation	10 feet
Front Setback (external streets)	50 feet
Front Setback (internal streets)	10 feet
Side Street Setback	10 feet
Rear Setback	10 feet ⁴
Side Setback	10 feet ⁴

B. Airport Zone Standards

1. For purposes of this section, the following definitions shall apply:

- (a) **Airside:** Those land uses, activities and portions of building structures that fall on the airport operations side of a fenced boundary around the airport separating those operations from direct public access.
- (b) **Landside:** Those land uses, activities and portions of buildings and/or structures that face an adjacent public street or frontage road and are outside of a fence boundary separating the airport operations area from public access.

³ The maximum lot coverage and structure height shall be governed by Federal Aviation Administration (FAA) requirements and regulations.

⁴ These setbacks are only applicable to new construction on the landside area.

2. The line which separates the airside area from the landside area shall, for the purposes of this section, be referred to as the airside boundary. This boundary is shown on a map on file with the Department. This boundary may be adjusted administratively by the Director over time as development occurs on airport-owned property fronting on adjacent public streets
3. The following development standards shall be applicable to all development that occurs on the landside portion of the airside boundary.
 - (a) The provisions of Chapter 19.20 Property Development Standards shall apply.
 - (b) Setback - all structures shall be set back from Third Street and Del Rosa Avenue a minimum of 50 feet. A minimum of the first 25 feet adjacent to the street shall be landscaped. The remaining area may be used for automobile parking. The setback can be reduced to 25 feet where a frontage road is constructed on airport property adjacent to Third Street.
4. The regulations provided herein do not supersede or replace any regulations or limitations governing airport or airfields which have been enacted by State or Federal agencies, but are in addition to any such regulations or limitation. Where these regulations are in conflict, State and Federal regulations shall supersede the provisions of this chapter.
5. Security fencing to be installed on the airside boundary shall consist of eight (8) foot chain link with three (3) strands of barbed wire as approved by the FAA.

19.12A.040 General Provisions

1. Non-Conforming Structures - The existing structures within the boundaries of this district shall be exempt from the provisions of Section 19.62.020(7) of this Development Code for a period of 10 years, commencing on the effective date of this Chapter 19.12A.
2. Off-Site or Shared Parking - Development on the airport shall have the ability for off-site or shared parking. Parking improvements shall be consistent with the provisions of this section.
3. All tenant identification and public information shall meet the provisions of Chapter 19.22, Sign Regulations, of this Development Code.

(Ord. MC-932, 1-24-95)

[\[Return to Municipal Code Contents\]](#)

G19.12A.050 AIRPORT DEVELOPMENT DESIGN GUIDELINES

1. GENERAL

Design Guidelines for airport development shall be the same as the applicable to the Industrial zones (Sec G 19.08.050) except as modified herein.

Ord. MC-1393, 12-02-13

2. APPLICABILITY

The provisions of this section shall apply to all development located in the landside portion of the San Bernardino International Airport, as defined in Section 19.11.030(B)(1)(b) of this chapter and shown on a map on file in the Department. Any addition, remodeling, relocation, or construction requiring a building permit shall adhere to these guidelines where applicable.

[Return to 19.12A]

CHAPTER 19.13 CCS (CENTRAL CITY SOUTH) ZONE

Sections:

- 19.13.010 Purpose**
- 19.13.020 Applicability**
- 19.13.030 Establishment of Zones**
- 19.13.040 Development Standards**
- 19.13.050 Uses Permitted**

19.13.010 Purpose

The purpose of this zone is to provide the basis for a cohesive, functional, and economically productive environment.

19.13.020 Applicability

The CCS (Central City South) Zones include an area bounded by the centerline of Rialto Avenue on the north, the centerline of Inland Center Drive on the south, the centerline of "E" Street on the east, and the east right-of-way of the I-215 freeway on the west.

19.13.030 Establishment of Zones

The following zones and their general description and location are as follows:

(Ord. MC-1393, 12-02-13)

1. CCS-1:

General retail-type uses are permitted. The zone is generally between "E" Street and the I-215 Freeway, and between Inland Center Drive and Rialto Avenue.

2. CCS-2:

Limited manufacturing, warehousing, research and development, and service commercial (including auto repair) uses are permitted. The zone is located on the north side of the intersection of Mill and "G" Streets.

3. CCS-3:

The flood control channel which flows through Central City South.

19.13.040 Development Standards

The following development standards shall apply:

1. LANDSCAPING

All development in the CCS zones is subject to Chapter 19.28 (Landscaping Standards) of this Development Code. The Parks Department shall refer to the "Landscape Palette" contained in the Central City South Design Guidelines for appropriate plant materials when reviewing for approval of any landscape plans.

2. PARKING AND LOADING

All development in the CCS zones is subject to Chapter 19.24 (Off-Street Parking Standards) and Chapter 19.26 (Off-Street Loading Standards) of this Development Code.

3. SIGNS

All development in the CCS zones shall be subject to Chapter 19.22 (Sign Standards) of this Development Code. Table 22.01(C) is applicable.

4. STANDARDS

A. CCS-1 ZONE

- 1) Maximum non-retail building frontage along "E" Street shall be 25% of each parcel.
- 2) Building height - maximum 2 stories (30 feet).
- 3) "E" Street front setback - 30 feet from curb face.
- 4) Minimum lot size for new subdivisions - 10,000 square feet.
- 5) In addition to these standards, the standards and guidelines contained in Chapter 19.06 (Commercial Zones) of this Development Code are applicable to all development and uses in the CCS-1 subzone.

6) Parcels located on the west boundary of the CCS zone which are also in the FC (Freeway Corridor Overlay) zones shall be subject to Chapter 19.14.

7) Should any standards conflict, the more restrictive shall apply.

B. CCS-2 ZONE

Uses and development in the CCS-2 zone are subject to the standards and guidelines contained in Chapters 19.06 and 19.08 (Commercial and Industrial Zones) of this Development Code, with a minimum lot size for new subdivisions of 1 acre and a height limitation of a maximum of 2 stories or 50 feet.

C. CCS-3 ZONE

This subzone is governed by Chapter 19.10 (Public Flood Control Zone) of this Development Code.

19.13.050 Uses Permitted

Uses listed under each zone shown in Table 06.01, Commercial and Industrial Zones, List of Permitted Uses, are permitted with a Conditional Use or Development Permit.

Chapter 19.14

FC (Freeway Corridor Overlay) Zone

Sections:

- 19.14.010 Purpose**
- 19.14.020 Applicability**
- 19.14.030 Development Standards**

19.14.010 Purpose

The purpose of this overlay zone is to provide special design guidelines-standards which address the siting and design of non-residential structures within the immediate viewshed of motorists traveling the I-10 and I-215 freeway corridors and State Highway 30 and its connecting segment to the I-215.

(Ord. MC-1393, 12-02-13)

19.14.020 Applicability

The FC (Freeway Corridor Overlay) zone shall be in effect in all non-residential zones for a distance of 500 feet from the edge of the freeway right-of-way. Any parcel wholly or partially within this area is subject to these requirements.

(Ord. MC-1057, 9-09-99)

As an overlay, this zone is applied in addition to those standards of the underlying zone. Any developments within the geographic limits of this zone shall conform to the requirements of both zones or the more restrictive of the two.

19.14.030 Development Standards

The following development standards shall apply:

(Ord. MC-1362, 8-02-11)

1. SERVICE, LOADING, AND EQUIPMENT STORAGE AREA SCREENING

Service areas including storage, special equipment, maintenance, and loading areas shall be screened with landscaping and architectural elements. The purpose is to hide those areas from the freeways. Loading docks and service areas shall be located on interior side yards and concealed from public freeway view (side yard opposite the direction of traffic).

Utility equipment and communication devices located on the grounds shall be screened so that the site will appear free of all such devices. Utility lines for water, gas, sewage, electrical, and communication shall be installed underground.

Refuse collection areas are to be visually screened with a solid perimeter wall using materials and colors compatible with those of the adjacent structures. Refuse collection areas are to be located on an interior building side yard and shall be roofed if the contents of the area are visible from any freeway.

Service, storage, and maintenance areas shall be constructed and maintained according to the following standards:

- A. No materials, supplies or equipment, including trucks or other motor vehicles, are to be stored on-site except inside an enclosed structure or behind architectural screening, to prevent visibility from the freeway. The storage of vehicles for sale is exempt from this requirement.
- B. All storage areas shall be screened by walls and shall be located on the side or rear portions of structures.
- C. Architectural screening shall be constructed of the same materials and finishes compatible with the adjacent structure, and shall be designed and placed to complement the building design.
- D. No service, storage, maintenance, or loading area may extend into a landscape setback buffer area.

2. BUILDING FACADE

Desirable:

- A. Facades should be designed to convey a sense of order through the interplay of light, shadow and texture. Facade articulation should reinforce a sense of quality and integrity.
- B. A sophisticated refinement of the building proportions and fenestration details should be carefully conceived to achieve desired goals.

- C. Facades shall reflect the quality and the sense of order of the underlying structure in a clear and consistent manner. Window panels (if used) and spandrels shall be differentiated and the percentage of window glass to non-glass area should be a minimum of 25% (window) and 25% (wall) in retail uses.
- D. Recessed or articulated wall surfaces, columns and beams will help to visually segment an otherwise massive exterior wall surface.

Undesirable:

- A. No boxy and monotonous facades which lack a sense of scale shall be permitted.
- B. No weak or token expressions of structure or an inconsistent statement of structure shall be permitted.
- C. No arbitrary, decorative, or stylized architectural treatments shall be permitted.
- D. No large amounts (more than 70% of wall surface) of reflective glass shall be permitted.

3. MECHANICAL EQUIPMENT

Roof-mounted mechanical equipment shall be screened on all sides. Any devices located on the structure shall be properly screened to minimize visual impact. The color of these devices shall match the building color.

Structures shall appear free of all utility and communication devices. Satellite dishes and antennas shall be ground mounted unless technically infeasible, and shall be located and treated in a manner that reduces visibility from freeways. All installation locations shall be noted on the site plans.

4. FREEWAY SIGNS

- A. Freeway signs are limited to identifying the complex, major anchor tenant, structure, or company occupying the site, or a qualifying offsite business, pursuant to Section 19.22.080(4) of this Development Code.

(Ord. MC-929, 12-20-94)

- B. Freeway signs are permitted on parcels with more than 100 feet of freeway or street frontage in addition to other signs allowed.
- C. Freeway signs shall be perpendicular to the freeway. Location shall be approximately midway between side property lines.
- D. Projects over five acres in size with more than 1,000 feet of freeway frontage may be permitted two freeway adjacent signs at the discretion of the Commission. These signs shall not be placed closer than 600 feet to each other. All other regulations shall apply.
- E. Buildings, such as hotels and restaurants, fronting the freeway are entitled to have a freeway sign and a building sign visible from the freeway.
- F. Any tree that is removed to accommodate the installation of any sign shall be replaced with a minimum 48-inch box tree.

(Ord. MC-1057, 9-09-99)

5. PROHIBITED STRUCTURES

Structures with open, exposed cranes are prohibited.

CHAPTER 19.15 FF (FOOTHILL FIRE ZONES OVERLAY) ZONE

Sections:

- 19.15.010 Purpose
- 19.15.020 Applicability
- 19.15.030 Definitions
- 19.15.040 Standards

19.15.010 Purpose

The purpose of the Foothill Fire Zones Overlay zone is to mitigate the spread of fire, to help minimize property damage and to reduce the risk to the public health and safety.

(Ord. MC-1393, 12-02-13)

19.15.020 Applicability

This overlay zone identifies three foothill fire zones that have different degrees of hazard based on slope, type of fuel present and natural barriers. The foothill fire zones are: A-Extreme Hazard, B-High Hazard, and C-Moderate Hazard. Fire Zones A and B shall be determined by the slope analysis, submitted with the project application. A reference map specifying identified fire zones within the City is on file with the Department.

19.15.030 Definitions

Fire Model. A computer generated model done by an independent contractor, company or firm to demonstrate the effects of an urban - wildland interface fire. This model is designed to demonstrate the minimum required fuel modification necessary to protect existing or proposed structures in the high fire hazard areas. All factors are taken into account including, but not limited to structure(s), amount and arrangement of surrounding vegetation, topography and annual climatic conditions.

Fire Zone A. Fire Zone A is determined based on slope. Fire Zone A includes areas with slopes of 30% or greater.

Fire Zone B. Fire Zone B is also determined based on slope. Fire Zone B includes area with slopes between 15-30%.

Fire Zone C. Fire Zone C includes those areas with slopes of 0 to 15%.

Fire Zone C, Abutting Wildlands. Fire Zone C, Abutting Wildlands is defined as those lots on the perimeter of a tract that are adjacent to wildlands.

[\[Return to Municipal Code Contents\]](#)

Fuel Modification. Fuel modification is a wide strip of land where flammable native vegetation has been removed or modified, and partially or totally replaced with drought tolerant fire-resistive plants. Fuel modification provides a more acceptable level of risk from wildland fires and provides a more acceptable level or risk from wildland fires and provides a safer area in which to take fire suppression action.

Wildlands. Any area of land that is essentially unimproved, in a natural state of hydrology, vegetation and animal life, and not under cultivation.

19.15.040 Standards

The following standards shall apply to all, or some, of the foothill fire zones as noted by the letter(s) in parenthesis following the standard.

1. ACCESS AND CIRCULATION

- A. Local hillside street standards shall be used to minimize grading and erosion potential while providing adequate access for vehicles, including emergency vehicles. The right-of-way shall be 48.5 feet with 40 feet of paved width and parking on both sides and a sidewalk on one side. (A + B)
- B. Streets shall have a paved width of 32 feet with parking and sidewalk on 1 side of the street only and right-of-way of 40.5 feet, subject to review and recommendation by the Fire Chief and the City Engineer, with approval by the Commission. (A + B)
- C. Subdivisions shall be designed to allow emergency vehicle access to wildland areas behind structures. This is to be accomplished in either of two ways:
 - 1. Provide a perimeter street along the entire wildland side of a development; or
 - 2. Provide a fuel-modified area, a minimum of 150 feet in depth from the rear of the structure, adjacent to the subdivision and connected to the interior street by flat 12-foot minimum access ways placed no more than 350 feet apart. If designed as a gated easement, access ways may be part of a side yard. (A + B, and C where abuts wildlands.)
- D. No dead-end streets are permitted. Temporary cul-de-sacs are required. (A+B+C)

- E. All permanent cul-de-sac turnarounds and curves shall be designed with a minimum radius of 40 feet to the curb face. No parking shall be allowed on the bulb of a cul-de-sac. (A+B+C)
- F. Cul-de-sacs to a maximum of 750 feet in length may be permitted with a maximum of 30 dwelling units, and to a maximum of 1,000 feet in length with a maximum of 20 dwelling units. (A+B)
- G. Driveways to residential garages of more than 30 feet in length shall extend for a minimum distance of 20 feet from the garage, on a maximum grade of 5%. Driveways less than 30 feet in length shall have a maximum grade of 8% for a minimum distance of 20 feet from the garage. No portion of a driveway shall exceed a grade of 15%, unless approved by the Fire Chief and City Engineer. Driveways shall be designed so that the algebraic difference in grades will not cause a vehicle to drag or hang-up. (A+B+C)
- H. Hillside collector and arterial streets shall not exceed 8% grade. Hillside residential streets shall not exceed 15% grade. Grades of streets shall be as provided in this subsection, unless otherwise approved in writing by the Public Services, Fire, and Public Works Departments. (A+B+C)
- I. A tentative tract or parcel map shall provide for at least two different standard means of ingress and egress which provide safe, alternate traffic routes subject to approval by the Fire Department. The two separate means of access shall be provided pursuant to Section 19.30.200 of this Development Code. (A+B+C)

2. SITE AND STREET IDENTIFICATION

- A. Non-combustible and reflective street markers shall be visible for 100 feet pursuant to City standards. (A+B+C)
- B. Non-combustible building addresses of contrasting colors shall be placed on the structure fronting the street. Four-inch high (residential) and 5-inch high (commercial) lettering and numbers visible at least 100 feet are required. (A+B+C)

3. ROADSIDE VEGETATION

All vegetation shall be maintained and all dead plant material shall be removed for a distance of 10 feet from curblines. (A+B+C)

4. WATER SUPPLY

- A. Static water sources such as fire hydrants and wells shall have clear access on each side of at least 15 feet. (A+B+C)
- B. A minimum of two private spigots facing the foothills/wildlands shall be required for each structure. (A+B+C)
- C. Fire hydrants shall be identified with approved blue reflecting street markers. (A+B+C)
- D. Each cul-de-sac greater than 300 feet in length shall have a minimum of 1 hydrant. (A+B+C)
- E. Minimum fire flow shall be 1,000 gallons per minute. (A+B+C)

5. EROSION CONTROL

- A. All fills shall be compacted. (A+B+C)
- B. For all new projects, erosion and drainage control plans must be prepared by a licensed civil engineer, and be approved prior to permit issuance. (A+B+C)
- C. The faces at all cut and fill slopes shall be planted with a ground cover approved by the City Engineer. This planting shall be done as soon as practicable and prior to final inspection. Planting of any slope less than five feet in vertical height, or a cut slope not subject to erosion due to the erosion-resistant character of the materials, may be waived by the City Engineer. An automatic irrigation system shall be installed for planted slopes in excess of 15 feet in vertical height, unless recommended otherwise in the preliminary soils report or waived by the City Engineer. If required by the City Engineer, a recommendation for types of planting materials shall be obtained from a Landscape Architect. The Landscape Architect shall, prior to final inspection, provide the City Engineer with a statement that the planting has been done in compliance with recommendations approved by the City Engineer. (A+B+C)
- D. Erosion landscaping plans shall incorporate the use of fire resistant vegetation. (A+B+C)

- E. All parties performing grading operations, under a grading permit issued by the City Engineer, shall take reasonable preventive measures, such as sprinkling by water truck, hydroseeding with temporary irrigation, dust palliative, and/or wind fences as directed by the City Engineer, to avoid earth or other materials from the premises being deposited on adjacent streets or properties, by the action of storm waters or wind, by spillage from conveyance vehicles or by other causes. Earth or other materials which are deposited on adjacent streets or properties shall be completely removed by the permittee as soon as practical, but in any event within 24 hours after receipt of written notice from the City Engineer to remove the earth or materials, or within such additional time as may be allowed by written notice from the City Engineer. In the event that any party performing grading shall fail to comply with these requirements, the City Engineer shall have the authority to engage the services of a contractor to remove the earth or other materials. All charges incurred for the services of the contractor shall be paid to the City by the permittee prior to acceptance of the grading. (A+B+C)

6. CONSTRUCTION AND DEVELOPMENT DESIGN

- A. Building standards governing the use of materials and construction methods for structures contained within the Foothill Fire Zones shall be in accordance with the San Bernardino Municipal Code Section 15.10.
- B. A slope analysis shall be filed with all discretionary applications for all projects in Fire Zones A & B consistent with the Hillside Management section of the General Plan and Section 19.17.080(2) of this Development Code. (A+B)
- C. Structures shall be located only where the upgraded slope is 50% or less. If the building pad is adjacent to a slope which is greater than 50% and is greater than 30 feet in height, a minimum pad setback of 30 feet from the edge of the slope is required. The setback may be less than 30 feet only when the entire slope, or 100 feet adjacent to the building pad, whichever is less, is landscaped with fire resistant vegetation and maintained by an automatic irrigation system. (A+B)
- D. All proposed property lines shall be placed at the top of slopes, except where the original parcel's exterior boundary line does not extend to the top of the slope. (A+B+C)
- E. Development on existing slopes exceeding 30% or greater may occur if in conformance with all applicable ordinances, statutes and California Environmental Quality Act review. (A)

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- F. Structures shall be permitted in narrow canyon mouths or ridge saddles, only if approved by the City Engineer and Fire Department. (A+B)
- G. All new structures requiring permits, including accessory structures, guest housing or second units shall conform to all applicable fire zone standards. (A+B+C)
- H. Excluding openings, all exterior elements, including walls, garage doors, fences, etc., shall be free of exposed wood (as defined in Chapter 15.10). (A+B, and C where abuts wildlands.)
- I. The minimum distance between structures shall be 60 feet in Zone A and 30 feet in Zone B, unless otherwise approved by the Fire Chief with concurrence by the Development Review Committee. (A+B)
- J. A fuel-modification plan, or a reasonable equivalent alternative as approved by the Fire Chief is required. The plan, shall include a "wet zone" of a minimum depth of 50 feet of irrigated landscaping behind any required setback and "thinning zones" of a minimum depth of 100 feet of drought tolerant, low volume vegetation, adjacent to any natural area behind structures and provisions for maintenance. A fire model shall be prepared pursuant to Section 19.30.200(6) (D)(3). (A+B, and C where abuts wildlands.)
- K. Retrofitting of any element is required when more than 25% replacement of that element occurs; i.e., roofing, fencing. (A+B+C)

7. MISCELLANEOUS

- A. All future transfers of property shall disclose to the purchaser at the time of purchase agreement and the close of escrow the high fire hazard designation applicable to the property. (A+B+C)
- B. Firebreak fuel modification zones shall be maintained, when required, through homeowner associations, assessment districts or other means. (A+B+C)

CHAPTER 19.16 FP (FLOOD PLAIN OVERLAY) ZONE

Sections

19.16.010	Purpose
19.16.020	Definitions
19.16.030	General Provisions
19.16.040	Administration
19.16.050	Provisions for Flood Hazard Reduction
19.16.060	Floodways
19.16.070	Mud Slide (i.e., Mud Flow) – Prone Areas
19.16.080	Flood-Related Erosion-Prone Areas
19.16.090	Appeals and Variances

19.16.010 Purpose

The purpose of the Flood Plain Overlay zone is to protect public health, safety, and general welfare, and to minimize hazards due to flooding in specific areas as identified by the latest adopted Flood Insurance Rate Maps, in addition to the following:

(Ord. MC-1393, 12-02-13)

1. To minimize expenditure of public money for costly flood control projects;
2. To minimize the need for the rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
3. To minimize prolonged business interruption;
4. To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in areas of special flood hazard;
5. To help maintain a stable tax base by providing for the second use and development of area of special flood hazard so as to minimize future flood blight areas;
6. To ensure that potential buyers are notified that property is in an area of special flood hazard; and
7. To ensure that those who occupy the areas of special flood hazard assume responsibility for their actions.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

In order to accomplish its purposes, this Chapter includes methods and provisions for:

1. Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion of flood heights or velocities;
2. Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
3. Controlling the alteration of natural floodplains, stream channels, and natural protective barriers, which help accommodate or channel flood waters;
4. Controlling filling, grading, dredging, and other development which may increase flood damage; and
5. Preventing or regulating the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards in other areas.

19.16.020 Definitions

In addition to those terms defined in Section 19.02.050, the following definitions shall apply:

Appeal. A request for a review of the City Engineer's interpretation of any provision of this Chapter.

Area of shallow flooding. A designated AO, AH, or CP Zone on the Flood Insurance Rate Map (FIRM). The base flood depths range from 1 to 3 feet; a clearly defined channel does not exist; the path of flooding is unpredictable and indeterminate; and velocity flow may be evident.

Area of special flood-related erosion hazard. The area of subject to severe flood-related erosion losses. The area is design is designated as Zone E on the Flood Insurance Rate Map (FIRM).

Area of special flood hazard. See "Special flood hazard area."

Area of special mud slide (i.e., mud flow hazard). The area subject to severe mud slides (i.e. mud flows). The area is designated as Zone M on the Flood Insurance Rate Map (FIRM).

Base Flood. The flood having a 1% chance of being equaled or exceeded in any given year (also called the "100-year flood").

[\[Return to Municipal Code Contents\]](#)

Basement. Any area of the building having its floor subgrade - i.e., below ground level – on all sides.

(Ord. MC-1062, 11-16-99)

Encroachment. The advance or infringement of uses, plant growth, fill, excavation, buildings, permanent structures or development into a floodplain which may impede or alter the flow capacity of a floodplain.

(Ord. MC-1062, 11-16-99)

Flood or flooding. A general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of flood waters, the unusual and rapid accumulation or run-off of surface water from any source, and/or the collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in this definition.

Flood Boundary and Floodway Map. The official map on which at the General Emergency Management Agency or Federal Insurance Administration has delineated both the areas of flood hazard and the floodway.

Flood Insurance Rate Map (FIRM). The official map on which the Federal Emergency Management Agency of Federal Insurance Administration has delineated both the areas of special flood hazards and the risk premium zones applicable to the community.

Flood Insurance Study. The official report provided by the Federal Insurance Administration that includes flood profiles, the FIRM, the Flood Boundary and Floodway Map, and the water surface elevation of the base flood.

Floodplain or flood-prone area. Any land area susceptible to being inundated by water from any source (see "Flooding").

Floodplain management. The operation of an overall program of corrective and preventative measures for reducing flood damage, including but not limited to, emergency preparedness plans, flood control works and floodplain management regulations.

[Return to Municipal Code Contents]

Floodplain management regulations. Development Code, building codes, health regulations, special purpose ordinances (i.e., grading ordinance and erosion control ordinance) and other applications of police power. The term describes such state or local regulations in any combination thereof, which provide standards for the purpose of flood damage prevention and reduction.

Flood proofing. Any combination of structural and nonstructural additions, changes or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

Floodway. The channel or a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than 1 foot. Also referred to as "Regulatory floodway."

Functionally dependent use. A use which cannot perform its intended purpose unless it is located or carried out in close proximity to water.

Hardship. The exceptional hardship that would result from a failure to grant a requested variance. The variance must be exceptional, unusual, and peculiar to the property involved. Mere economic or financial hardship alone is not exceptional. Inconvenience, aesthetic considerations, physical handicaps, personal preferences, or the disapproval of one's neighbors likewise cannot, as a rule, qualify as an exceptional hardship. All of these problems can be resolved through other means without granting a variance, even if the alternative is more expensive, or requires the property owner to build elsewhere or put the parcel to a different use than originally intended.

(Ord. MC-1062, 11-16-99)

Highest adjacent grade. The highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

Lowest floor. The lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this chapter.

Manufactured home park or subdivision. A parcel (or contiguous parcels) of land divided into 2 or more manufactured home lots for sale or rent.

[\[Return to Municipal Code Contents\]](#)

Mean sea level. For purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.

New construction. For floodplain management purposes, structures for which the "start of construction" commenced on or after the effective date of this Development Code.

One hundred year flood. A flood which has a 1% annual probability of being equaled or exceeded. It is identical to the "base flood," which will be the term used throughout this Chapter.

Remedy a violation. To bring the structure or other development into compliance with State or local floodplain management regulations, or, if this is not possible, to reduce the impacts of its noncompliance. Ways that impacts may be reduced include protecting the structure or other affected development from flood damages, implementing the enforcement provisions of this Development Code or otherwise deterring future similar violations, or reducing Federal financial exposure with regard to the structure or other development.

Riverine. Relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

Special flood hazard area (SFHA). An area having special flood or flood-related erosion hazards, and shown on an FHBM or FIRM as Zone A, AO, A1-30, AE, A99, AH, CO, C1-V30, VE, or V.

Start of construction. The date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days from the date of the permit. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufacture home on a foundation. Permanent construction does not include land preparation, such as clearing, grading, and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

(Ord. MC-1062, 11-16-99)

[\[Return to Municipal Code Contents\]](#)

Substantial damage. Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

(Ord. MC-1062, 11-16-99)

Substantial improvement. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50% of the market value of the structure either:

- A. Before the improvement or repair is started; or
- B. If the structure has been damaged, and is being restored, before the damage occurred.

For the purposes of this definition "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include either:

1. Any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions; or
2. Any alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.

Violation. The failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in this chapter is presumed to be in violation until such time as that documentation is provided.

Water surface elevation. The height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, (or other datum, where specified) of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

(Ord. MC-1062, 11-16-99)

Watercourse. A lake, river, creek, stream, wash, arroyo, channel or other topographic feature on or over which waters flow at least periodically. Watercourse includes specifically designated areas in which substantial flood damage may occur.

(Ord. MC-1062, 11-16-99)

[Return to Municipal Code Contents]

19.16.030 General Provisions

1. This chapter shall apply to all areas of special flood hazards, areas of flood-related erosion hazards and areas of mud slide (i.e. mud flow) hazards within the jurisdiction of the City.
2. The areas of special flood hazard, areas of flood-related erosion hazards and areas of mud slide (i.e. mud flow) hazards identified by the Federal Insurance Administration of the Federal Emergency Management Agency in the Flood Insurance Study dated March, 1996, and accompanying Flood Insurance Rate Maps, and all subsequent amendments and/or revisions, are hereby adopted by reference and declared to be a part of this Chapter. This Flood Insurance Study is the minimum area of applicability of this Chapter and may be supplemented by studies for other areas which allow implementation of this Chapter and which are recommended to the Council by the City Engineer.
3. No structure or land shall hereafter be constructed, located, extended, converted, or altered without full compliance with the terms of this chapter and other applicable regulations. Violations of the provisions of this chapter by failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with conditions) shall constitute a misdemeanor. Nothing herein shall prevent the City from taking such lawful action as is necessary to prevent or remedy any violation.
4. This Chapter is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this chapter and any other code, ordinance, easement, covenant, or deed restriction conflict or overlap, whichever imposes the more restrictive restrictions shall prevail.
5. In the interpretation and application of this chapter, all provisions shall be:
 - A. Considered as minimum requirements;
 - B. Liberally construed in favor of the governing body; and
 - C. Deemed neither to limit nor repeal any other powers granted under state statutes.
6. The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This Chapter does not imply that land outside the areas of special flood hazards, areas of flood-related erosion hazards and areas of mud slide (i.e. mud flow) hazards or uses permitted within

[\[Return to Municipal Code Contents\]](#)

such areas will be free from flooding or flood damages. This Chapter shall not create liability on the part of the City, any officer or employee thereof, or the Federal Insurance Administration, for any flood damages that result from reliance on this chapter or any administrative decision lawfully made thereunder.

19.16.040 Administration

1. A Flood Control Development Permit shall be obtained before construction or development begins within any area of special flood hazards, areas of flood-related erosion hazards or areas of mud slide (i.e., mud flow) established in Section 19.16.030(2). An application for a Flood Control Development Permit shall be made on forms furnished by the City Engineer and may include, but not be limited to: plans in duplicate drawn to scale showing the nature, location, dimensions, and elevation of the area in question; existing or proposed structures, fill, storage of materials, drainage facilities; and the location of same. Specifically, the following information is required:
 - A. Proposed elevation in relation to mean sea level, of the lowest floor (including basement) of all structures; in zone AP or VO, elevation of highest adjacent grade and proposed elevation of lowest floor of all structures;
 - B. Proposed elevation in relation to mean sea level to which any structure will be flood-proofed;
 - C. All appropriate certifications listed in Section 19.16.050(3) of this Chapter; and
 - D. Description of the extent to which a watercourse will be altered or relocated as a result of proposed development.
2. The City Engineer is hereby appointed to administer and implement this chapter by granting or denying Flood Control Development Permits in compliance with its provisions.
3. The duties and responsibilities of the City Engineer, as related to this Chapter, shall include, but not be limited to:
 - A. PERMIT REVIEW
 1. Review all Flood Control Development Permits to determine that the permit requirements of this Chapter have been satisfied;
 2. All other required state and federal permits have been obtained;

[Return to Municipal Code Contents]

3. The site is reasonably safe from flooding;
 4. The proposed development does not adversely affect the carrying capacity of areas where base flood elevations have been determined but the floodway has not been designated. For the purposes of this Chapter, "adversely affects" means that the cumulative effect of the proposed development when combined with all other existing and anticipated development will not increase the water surface elevation of the base flood more than 1 foot at any point.
- B. When base flood elevation data has been provided in compliance with Section 19.16.030(2), the City Engineer shall obtain, review, and reasonably utilize any base flood elevation and floodway data available from a Federal, State or other source, in order to administer Section 19.16.050. Any such information shall be submitted to the Council for adoption.
- C. Whenever a watercourse is to be altered or relocated, the City Engineer shall:
1. Notify adjacent communities and the California Department of Water Resources prior to the alteration or relocation of a watercourse, and submit evidence of the notification to the Federal Insurance Administration;
 2. Require that the flood carrying capacity of the altered or relocated portion of the watercourse is maintained.
- D. Secure and maintain for public inspection and availability the certifications, appeals and variances identified in Section 19.16.050(3) and Section 19.16.090.
- E. Make interpretation where needed, as to the exact location of the boundaries of the areas of special flood hazards, areas of flood-related erosion hazards or areas of mud slide (i.e., mud flow) (for example, where there appears to be a conflict between a mapped boundary and actual field conditions). The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in Section 19.16.090.
- F. Take action to remedy violations of this Chapter as specified in Section 19.72.

19.16.050 Provisions for Flood Hazard Reduction

In all areas of special flood hazards the following standards shall apply:

1. ANCHORING
 - A. All new construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
 - B. All manufactured homes shall meet the anchoring standards of Section 19.16.050(6).
2. CONSTRUCTION MATERIALS AND METHODS
 - A. All new construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.
 - B. All new construction and substantial improvements shall be constructed using methods and practices that minimize flood damage.
 - C. All new construction and substantial improvements shall be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.
 - D. Require within Zones AH, AO, or VO, adequate drainage paths around structures on slopes to guide flood waters around and away from proposed structures.
3. ELEVATION AND FLOOD-PROOFING
 - A. New construction and substantial improvement of structure shall have the lowest floor, including basement, elevated to or above the base flood elevation. Nonresidential structures shall meet the standards in Section 19.16.050(3)(C). Upon the completion of the structure, the elevation of the lowest floor including basement shall be certified by a registered professional engineer to be properly elevated. The certification or verification shall be provided to the City Engineer.

- B. New construction and substantial improvement of any structure in Zone AH, AO, or VO shall have the lowest floor, including basement, elevated above the highest adjacent grade at least as high as the depth number specified in feet on the FIRM, or at least 2 feet if no depth number is specified. Nonresidential structures shall meet the standards in Section 19.16.050(3)(C). Upon the completion of the structure the elevation of the lowest floor including basement shall be certified by a registered professional engineer, or verified by the building inspector to be properly elevated. The certification or verification shall be provided to the City Engineer.
- C. Nonresidential construction shall either be elevated in conformance with Section 19.16.050(3)(A)(B) or (D) or together with attendant utility and sanitary facilities:
1. Be flood-proofed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water;
 2. Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and
 3. Be certified by a registered professional engineer or architect that the standards of this subsection are satisfied. The certifications shall be provided to the City Engineer.
- D. Require, for all new construction and substantial improvements, that fully enclosed areas below the lowest floor that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of flood waters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:
1. Either a minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of flood waters; or
 2. Be certified to comply with a local flood-proofing standards approved by the Federal Insurance Administration.
- E. Manufactured homes shall also meet the standards in Section 19.16.050(6).

4. STANDARDS FOR UTILITIES

- A. All new and replacement water supply and sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system and discharge from systems into flood waters.
- B. On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

5. STANDARDS FOR SUBDIVISIONS

Applications for Tentative Tract and Parcel Maps shall contain the requirements identified in Section 19.48 and 19.50 (content and form) in addition to the following:

- A. Identify the flood hazards area and the elevation of the base flood.
- B. All Final Maps shall provide the elevation of proposed structure(s) and pads. If the site is filled above the base flood, the final pad elevation shall be verified by a registered professional engineer or surveyor and provided to the City Engineer.
- C. All proposals shall be consistent with the need to minimize flood damage.
- D. All proposals shall have public utilities and facilities such as sewer, gas, electrical, and water systems located and constructed to minimize flood damage.
- E. All proposals shall provide adequate drainage to reduce exposure to flood hazards.

6. STANDARDS FOR MANUFACTURED HOMES

All new and replacement manufactured homes and additions to manufactured homes shall be constructed in the following manner:

- A. Be elevated so that the lowest floor is at or above the base flood elevation;
and

- B. All manufactured homes shall be anchored to resist flotation, collapse, or lateral movement by providing over-the-top and frame ties to ground anchors. Specific requirements include:
1. Over-the-top ties be provided at each of the four corners of the manufactured homes, with two additional ties per side at intermediate locations, with manufactured homes less than 50 feet long requiring one additional tie per side;
 2. Frame ties be provided at each corner of the home with five additional ties per side at intermediate points, with manufactured homes less than 50 feet long requiring four additional ties per side;
 3. All components of the anchoring system be capable of carrying a force of 4,800 pounds; and
 4. Any additions to the manufactured homes be similarly anchored.

19.16.060 Floodways

1. Located within areas of special flood hazard established in Section 19.16.030(2) are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of flood waters which carry debris, potential projectiles, and erosion potential, the following provisions shall apply:

Prohibit encroachments, including fill, new construction, substantial improvements, and other development unless certification by a registered professional engineer or architect is provided demonstrating that encroachments shall not result in any increase in flood levels during the occurrence of the base flood discharge.

2. If Section 19.16.060(1) is satisfied, all new construction and substantial improvements shall comply with all other applicable flood hazard reduction provisions of Section 19.16.050.

19.16.070 Mud Slide (i.e., Mud Flow) - Prone Areas

1. The City Engineer shall review permits for proposed construction or other development to determine if it is proposed within a mud slide area.
2. Permits shall be reviewed to determine that the proposed development is reasonably safe from mud slide hazards. Factors to be considered in making this determination shall include but are not limited to:
 - A. The type and quality of soils;
 - B. Evidence of ground water or surface water problems;
 - C. The depth and quality of any fill;
 - D. The overall slope of the site; and
 - E. The weight that any proposed development will impose on the slope.
3. Within areas which have mud slide hazards, the following requirements shall apply:
 - A. A site investigation and further review shall be made by persons qualified in geology and soils engineering;
 - B. The proposed grading, excavation, new construction and substantial improvements shall not aggravate the existing hazard by creating either on-site or off-site disturbances; and
 - C. The proposed grading, excavations, new construction and substantial improvements shall not aggravate the existing hazard by creating either on-site or off-site disturbances; and
 - D. Drainage, planting, watering, and maintenance shall not endanger slope stability.
4. Within Zone M on the Flood Insurance Rate Map, excavation, grading and drainage shall be constructed in compliance with Chapter 70 of the Uniform Building Code as modified by Municipal Code Sections 15.04.120 through 15.04.220. The following information shall be provided:
 - A. The location of foundation and utility systems of new construction and substantial improvements;

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- B. The location, drainage, and maintenance of all excavations, cuts and fills, and planted slopes;
- C. Protective measures including but not limited to retaining walls, fills, subdrains, diverter terraces, benchings, etc.; and
- D. Engineering drawings and specifications to be submitted for all corrective measures, accompanied by supporting soils engineering and geology reports.

19.16.080 Flood-Related Erosion-Prone Areas

1. The City Engineer shall require permits for proposed construction and other development within all flood-related erosion-prone areas identified within the City.
2. The permits shall be reviewed to determine whether the proposed site alterations and improvements will be reasonable safe from flood-related erosion and will not cause flood-related erosion hazards or otherwise aggravate the existing hazard.
3. If a proposed improvement is found to be in the path of flood-related erosion or would increase the erosion hazard, the improvement shall be relocated or adequate protective measures shall be taken to avoid aggravating the existing erosion hazard.

19.16.090 Appeals and Variances

1. The Commission shall hear and decide appeals and requests for flood control variances from the requirements of this Chapter.
 - A. The Commission shall hear and decide appeals when it is alleged there is an error in any requirement, decision, or determination made by the City Engineer in the enforcement or administration of this Chapter.
 - B. In passing upon such applications, the Commission shall consider all technical evaluations, all relevant factors, standards specified in other sections of this chapter, and;
 1. The danger that materials may be swept onto other lands to the injury of others;
 2. The danger of life and property due to flooding or erosion damage;
 3. The susceptibility of the proposed facility and its contents to flood and the effect of such damage on the individual owner;

[Return to Municipal Code Contents]

4. The importance of the services provided by the proposed facility to the City;
 5. The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage;
 6. The compatibility of the proposed use with existing and anticipated development;
 7. The relationship of the proposed use to the General Plan and flood plain management program for that area;
 8. The safety of access to the property in time of flood for ordinary and emergency vehicles;
 9. The expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters expected at the site; and
 10. The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water system, and streets and bridges.
- C. Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed in the National Register of Historic Places, without regard to the procedures identified in the remainder of this Section.
- D. Generally, variances may be issued for new construction and substantial improvements to be erected on a lot 1/2 acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing items 19.16.050 through 19.16.080 have been fully considered. As the lot size increases beyond 1/2 acre, the technical justification required for issuing the variance increases.
- E. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.
- F. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

- G. Flood control variances shall only be issued if:
1. There are exceptional or extraordinary circumstances or conditions applicable to the property involved or to the intended use of the property, which do not apply generally to other property in the same flood zone;
 2. A determination that failure to grant the variance would result in exceptional hardship to the applicant;
 3. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of, the public, or conflict with the Municipal Code.
- H. Variances may be issued for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use provided that the provisions of Sections 19.16.050 through 19.16.080 are satisfied and that the structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.
- I. Upon consideration of the factors in this Section and the purposes of this Chapter, the Commission may impose conditions to the granting of flood control variances as it deems necessary to further the purposes of this Chapter.
- J. Any applicant to whom a variance is granted shall be given written notice that:
1. The issuance of a variance to construct a structure below the base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage, and
 2. Such construction below base flood level increases risks to life and property. A copy of the notice shall be recorded by the City Engineer in the office of the San Bernardino County Recorder and shall be recorded in a manner so that it appears in the chain of title of the affected parcel of land.

(Ord. MC-1062, 11-16-99)

- K. The City Engineer shall maintain the records of variance actions, including justification for their issuance, and report such variances issued in its biennial report submitted to the Federal Insurance Administration, Federal Emergency Management Agency.

(Ord. MC-1062, 11-16-99)

[Return to Municipal Code Contents]

CHAPTER 19.17 HM (HILLSIDE MANAGEMENT OVERLAY) ZONE

Sections:

- 19.17.010 Purpose**
- 19.17.020 Policies**
- 19.17.030 Applicability**
- 19.17.040 Permitted and Conditionally Permitted Uses**
- 19.17.050 Conditional Use Permit Required**
- 19.17.060 Development Standards**
- 19.17.070 Development Performance Standards**
- 19.17.080 Conditional Use Permit Processing**
- 19.17.090 Applicable Regulations**

19.17.010 Purpose

The purpose of this overlay zone is to provide for low-density residential development in the City's hillside areas and to assure that this development occurs in a manner which protects the hillside's natural and topographic character and identity, environmental sensitivities, aesthetic qualities, and the public health, safety, and general welfare.

(Ord. MC-1393, 12-02-13)

This protection is obtained by insuring that development does not create soil erosion, silting of lower slopes, slide damage, flooding problems, and severe cutting or scarring.

It is the intent to encourage a sensitive form of development while still allowing for residential uses which complement the natural and visual character of the City and its hillsides.

19.17.020 Policies

The regulations, development standards, and design guidelines set forth in this section are based on the following policies:

1. To minimize the effects of grading and ensure that the natural character of hillside areas is retained;
2. To preserve the most visually significant slope banks and ridgelines in their natural state by providing for low density development;
3. To encourage variety in housing types, padding techniques, grading techniques, lot sizes, site design, density, arrangement, and spacing of homes and developments;

[\[Return to Municipal Code Contents\]](#)

4. To encourage innovative architectural, landscaping, circulation, and site design;
5. To discourage mass grading of large pads and excessive terracing;
6. To provide for safe circulation of vehicular and pedestrian traffic to and within hillside areas, and to provide adequate access for emergency vehicles necessary to serve hillside areas;
7. To take into account unstable slopes, or slopes subject to erosion and deterioration, in order to protect human lives and property;
8. To encourage design and building practices to assure maximum safety from wild fire hazard; and
9. To preserve visually significant rock outcroppings, native plant materials, and natural hydrology.

19.17.030 Applicability

This zone is intended to be the approximate location of the hillside areas along the foothills in the northern area of the City. The foothill area is defined as that area of 15% or greater slope as shown on the General Plan Land Use Plan map on file in the Department.

Areas of 15% natural slope or less along the external border of the zone at the base of the hillsides, as determined by the preparation of a slope map by a licensed civil engineer, may be excluded from the density and development provisions of this Section. Those areas excluded shall revert to the underlying zone density and development standard provisions.

The standards contained in this section apply to all subdivisions, uses, and structures within the District and are in addition to those of the zone.

(Ord. MC-1393, 12-02-13)

19.17.040 Permitted and Conditionally Permitted Uses

Uses permitted or conditionally permitted within the HM Overlay Zone shall be the same as those for the underlying district.

A Conditional Use Permit shall be required for all tentative tract and parcel maps and non-residential uses.

19.17.050 Conditional Use Permit Required

A Conditional Use Permit, in accordance with the requirements of Chapter 19.36 of this Development Code, shall be required for all applicable uses and structures permitted in this overlay zone except in-fill single family homes on existing lots of record which will require a Development Permit.

19.17.060 Development Standards

1. DENSITY

Notwithstanding the density allowed by the underlying land use district or the amenities or Senior Citizen and Senior Congregate Care density bonus provisions, the maximum density on any parcel to which this section applies shall not exceed the units per acre for each of the average percent slope ranges indicated below.

Average Slope (%)	Units Per Acre
0 to 15	2.0
15+ to 25	1.0
25+ to 30	0.5
30+ and above	0.1

(Note: For areas with an average slope above 40%, density transfer is encouraged.)

The computation of the maximum number of lots is intended solely to set up an absolute maximum. A lesser number of units may prove to be the maximum permitted based upon compliance with other hillside development and grading requirements.

2. DENSITY TRANSFER

Within a project, in the Hillside Management Overlay zone, a density transfer may be granted when permitted development is transferred from one slope category to a lower slope category. In consideration for such a transfer of development, the allowable density of the lower slope category may be increased by 50%. For example, if density/ development is transferred from the 25% to 30% slope category (from the above table) to the next lower category (15% to 25%), the allowable density of the lower category, 1.0 dwelling units per

acre, may be increased to 1.5 units per acre. Similarly, if development is limited from the 30% and above slope category and transferred to the 0% to 15% slope category, the allowable density may be increased by 50%, or from two units per acre to three units per acre.

In no situation shall the total number of units permitted for any project exceed the number of units that would have been permitted without any transfer of density.

A project may transfer density outside the Hillside Management Overlay zone, if the project area is included in a Specific Plan. A General Plan Amendment may also be necessary.

Areas from which density is transferred shall be restricted from future development in an appropriate manner.

3. MINIMUM PARCEL SIZE

No absolute minimum parcel size, widths and depths are specified.

4. SETBACKS

Front, side, and rear setbacks shall be determined based upon the precise development plan and environmental studies and in conformance with FF (Foothill Fire Zones) Overlay requirements.

5. BUILDING HEIGHT

Applicable only to in-fill single family residential construction of more than one story on existing lots of record, if there is a grade separation of more than eight feet and less than 20 feet between the average level of the lot proposed for construction and the immediately uphill lot.

- A. The maximum height of a proposed structure shall not exceed the midpoint of the structure on the immediately uphill lot.
- B. Where there is no structure on the immediately uphill lot, the maximum height shall not exceed a point eight feet above the average ground level of the uphill lot.
- C. "Immediately uphill lot" shall mean an adjacent lot, whether or not separated by streets, easements, or the like, which has an average ground level higher than the average ground level of the subject lot. If more than one lot meets the definition of "immediately uphill lot" then the measurements required by this section shall be made against the lower lot.

[\[Return to Municipal Code Contents\]](#)

- D. "Midpoint" shall be that point equidistant from the foundation at ground level to the apex of the roof, but not including roof structures, stairways, tanks, ventilating fans, or similar equipment required to operate and maintain the building and fire or parapet walls skylights, towers, flagpoles, chimneys, smokestacks, wireless and television masts, or similar structures.
- E. Nothing in this Section shall be construed to allow the height of a structure, including a single family residence, to exceed that allowed in the underlying land use district, or to prohibit a single story residence.

6. INGRESS AND EGRESS

A tentative tract or parcel map shall provide for at least two different standard routes for ingress and egress. Standard ingress/egress road is a route which is dedicated to the City and has a minimum paved width of 24 feet.

7. STREET STANDARDS

Streets in this overlay zone shall conform to the following standards:

- A. Local hillside street standards shall be used to minimize grading and erosion potential while providing adequate access for vehicles, including emergency vehicles. The right-of-way shall be 48.5 feet with 40 feet of paved width and parking on both sides and a sidewalk on one side.
- B. Streets shall have a paved width of 32 feet with parking and sidewalk on one side of the street only and right-of-way of 40.5 feet, subject to review and recommendation by the Fire Chief and the City Engineer, with approval by the Commission.
- C. Grades of streets in the hillside management areas shall be as provided in this subsection, unless otherwise approved in writing by the Public Services, Fire, and Public Works Departments. Hillside collector and arterial street shall not exceed 8%. Hillside residential local streets shall not exceed 15%.
- D. Minimum horizontal curve of streets shall be in accordance with Caltrans computational methods using design speed estimated by the Public Works Department.
- E. One way streets may be permitted where it can be shown that they reduce the overall amount of cut and fill required.

- F. Cul-de-sacs to a maximum of 750 feet in length may be permitted with a maximum of 30 dwelling units, and to a maximum of 1,000 feet in length with a maximum of 20 dwelling units and shall terminate with a turn around area not less than 40 feet in radius to curb face.
- G. Sidewalks on only one side of a street may be permitted in hillside areas subject to the approval of the City Engineer.
- H. All other street improvement standards shall conform to the standard plans and specifications of the City Engineer.

19.17.070 Development Performance Standards

The following minimum performance standards are required for any development within this Overlay zone. Necessary information shall be provided with the Conditional Use Permit application as prescribed in Chapter 19.36 to determine compliance with these standards.

1. SOILS/GRADING

- A. Grading of any site shall conform to the following grading standards, based upon the percent of the natural slope. The City Engineer shall review and make recommendation to the Planning Commission on the proposed grading.

- 1. 0 - 15%.

Redistribution of earth over large areas may be permitted.

- 2. 15+ - 25%.

Some grading may occur, but landforms must retain their natural character. Padded building sites may be allowed, but custom foundations, split level designs, stacking and clustering is expected to mitigate the need for large padded building areas.

- 3. 25+ - 30%.

Limited grading may occur, however, major topographic features shall retain their natural landforms. Special hillside architectural and design techniques are expected in order to conform to the natural land form, by using techniques such as split level foundations of greater than 18 inches, stem walls, stacking and clustering.

[\[Return to Municipal Code Contents\]](#)

4. Greater than 30%.

Development and limited grading can only occur in this category if it can be clearly demonstrated that safety, environmental, and aesthetic impacts will be avoided. Use of larger lots, variable setbacks and variable building structural techniques such as stepped or pole foundations are expected. Structures shall blend with the natural environment through their shape, materials and colors. Impact of traffic and roadways is to be minimized by following natural contours or using grade separations.

B. Grading shall be designed to:

1. Conserve natural topographic features and appearances by means of land sculpturing to blend graded slopes and benches with natural topography.
2. Retain major natural topographic features such as canyons and prominent landmarks.

C. All graded areas shall be protected from wind and water erosion through acceptable slope stabilization methods such as planting, walls, or netting. Interim erosion control plans shall be required, certified by the project engineer, and reviewed and approved by the Public Works Department.

D. Slopes created by grading of the site shall not exceed 50 percent or 2:1, without a soils report and stabilization study indicating a greater permissible slope; or shall not exceed 30 feet in height between terraces or benches; except that the Planning Commission may permit slopes exceeding these dimensions where the slopes will result in a natural appearance and will not create geological or erosion hazards.

2. PUBLIC SAFETY

A. FIRE SAFETY

All developments in this overlay zone shall comply with the standards of the FF (Foothill Fire Zones) Overlay. In the course of the review for a project in this overlay zone, the City will be reviewing each project to determine compliance with fire safety standards. The standards cover such items as, but not limited to:

1. Number of access points and street designs for each development;
2. Driveway lengths and widths;
3. Distances between dwellings;
4. Fuel modification plan;
5. Water flow and fire hydrant requirements;
6. Fire retardant building materials;

[Return to Municipal Code Contents]

7. Residential sprinkler requirements as provided in the Foothill Fire Zone Overlay standards.

B. GEOTECHNICAL

1. Any subdivision within the Alquist-Priolo "Special Studies Zone" shall conduct a geologic study in conformance with the requirements of the Zone. This study shall be prepared by a certified engineering geologist.
2. No structure for human occupancy shall be permitted within 50 feet of an active or potentially active fault trace. Sensitive and high occupancy structures as defined in the General Plan shall maintain a minimum 100 foot setback.
3. No emergency facilities, community facilities, or places of general public assembly (not including open space areas) shall be permitted within the Alquist-Priolo Zone.
4. All structures within the trace shall require the seismic features of the structure to be reviewed and approved by a professional engineer specializing in seismic/structural design.
5. The Building Official may require special construction methods of structures where it has been determined to have potential geologic hazards.
6. A statement shall be included at the time of purchase agreement and at the close of escrow to the purchaser of each lot within the development, which informs the prospective owner of the potential for seismic activity, and the potential hazards.

3. WATER/DRAINAGE

- A. On-site catch basins or siltation basins, as well as energy absorbing devices, may be required as a means to prevent erosion as well as to provide for ground water recharge.
- B. Natural drainage courses should be protected from grading activity.
- C. Where brow ditches are required, naturalize with plant materials and native rocks.
- D. Maximum coverage of a parcel by impervious surfaces shall not exceed 40% of the gross land area, and such maximum may be reduced by the Director in areas where the slope exceeds 15%.

[Return to Municipal Code Contents]

4. ANIMAL AND PLANT LIFE

- A. Areas of a site which are identified in the environmental study as having biological significance shall be preserved, unless exempted by the Planning Commission through the Conditional Use Permit process.
- B. Natural vegetation shall be maintained wherever possible. If removal is required, reestablishment of a compatible plant material will be required at a ratio of at least 2:1.
- C. All exposed slopes and graded areas shall be landscaped with ground cover, shrubs, and trees.
- D. Existing mature trees shall be incorporated into the project where feasible.

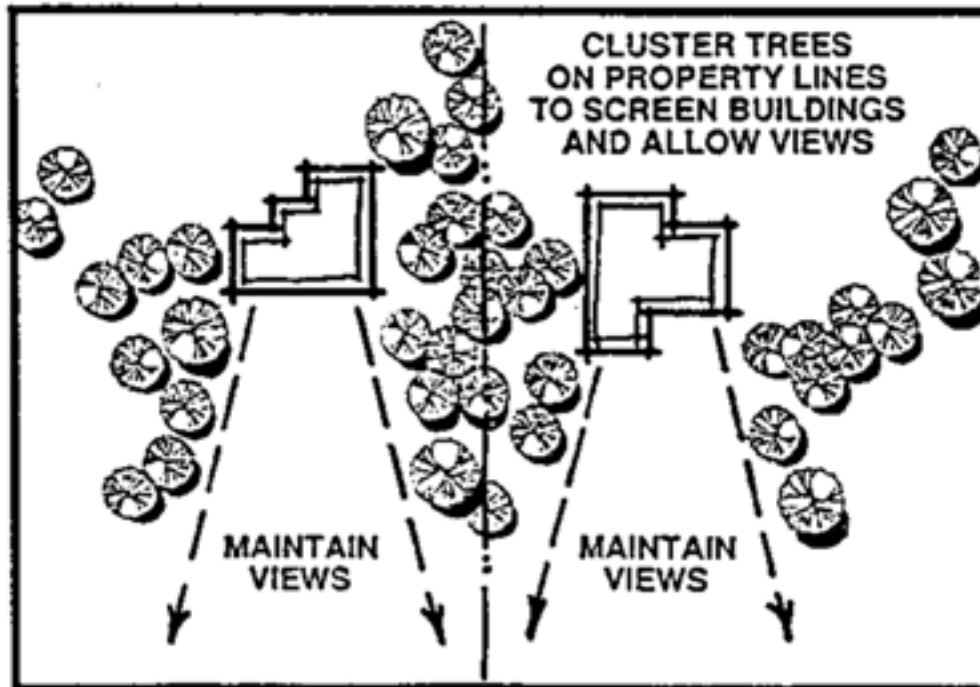

- E. Water and energy conservation techniques shall be utilized, such as special irrigation techniques (e.g., drip irrigation), drought tolerant plant species, alluvial rockscape, etc.
- F. Wherever possible, fire resistant native vegetation shall be preserved and planted.
- G. Introduction of landscaping within the hillside areas should make maximum use of texture, color, and be capable of blending in with the natural landscape, and help to soften the effects of buildings, walls, pavement, and grading.
- H. Screening along roadways should make maximum use of berming and landscaping but shall not interfere with sight distance.

[Return to Municipal Code Contents]

5. DESIGN

- A. Dwelling units and structures shall be compatible with the natural surroundings of the area and shall not dominate the natural environment.
- B. Exterior finishes of dwelling units and structures should blend in with the natural surroundings by using earth tone colors and avoiding reflective materials or finishes.
- C. Site design should utilize varying setbacks, building heights, innovative building techniques, and building and wall forms which serve to blend buildings into the terrain.

DO THIS

DO THIS

DO THIS

- D. Dwelling units and structures shall be sited in a manner that will:
1. Retain outward views from each unit;
 2. Preserve or enhance vistas, particularly those seen from public places;
 3. Preserve visually significant rock outcroppings, natural hydrology, native plant materials, and areas of visual or historical significance.
- E. The highest point of any structure shall not be located above the ridgeline. A ridgeline is a long, narrow, conspicuous elevation which is visible north of Highland Avenue, from a freeway, major arterial, secondary arterial, or collector street, which forms part of the skyline or is seen as a distant edge against a backdrop of land at least 300 feet horizontally behind it. (See graphic.)
1. Use the natural ridgeline as a backdrop for structures;
 2. Use landscape plant materials as a backdrop; and
 3. Use the structure to maximize concealment of cut slopes.

DO THIS

DO THIS

DO THIS

F. Retaining Walls/Fences

1. Retaining walls shall be used in the following manner:

Upslope - One wall per lot not exceeding eight feet in height.

Downslope - One wall per lot not exceeding 42 inches in height may be used.

Lots sloping with the street of access or other conditions - One retaining wall on each side of the lot may be used not exceeding 42 inches in height.

Retaining walls adjacent to driveways - Walls being an integral part of the structure may exceed 8 feet in height if necessary.

2. Exposed retaining walls facing roadways shall be no greater than 5 feet in height.
3. Where retaining walls face roadways, they shall be faced with aesthetically pleasing materials (e.g., rock facing).

19.17.080 Conditional Use Permit Processing

1. PROJECT INITIATION

To initiate a project on any parcel within the HM Overlay Zone, the property owner(s) or assignee(s) shall submit a Conditional Use Permit Application to the Department in accordance with the provisions of Chapter 19.36.

The Commission shall have the responsibility for review and approval of said applications, except that the Director shall review and act upon all Development Permits for single family residences on existing lots.

2. CONTENTS OF THE APPLICATION

An application for a Conditional Use Permit within the HM Overlay Zone shall include the following:

- A. A topographic map of the project site and land and structures within 100 feet of the project boundaries. The map shall be drawn to a scale of not less than one inch equals 100 feet with a maximum contour interval of 10 feet. The maximum contour interval shall be five feet where terrain has a slope of less than 25%.
- B. A tree map, drawn to the scale prescribed above, locating existing trees on the project site with a trunk diameter of six inches or greater or having a vertical height from ground level to tree-top level of 25 feet or greater. This map shall define the species of such trees and identify their approximate trunk diameter, base elevation, height, and condition. No such trees shall be removed without prior written approval of the Commission.
- C. A site or plot plan of the proposed project, including representations of property lines and recorded and proposed easements and public rights-of-way. Existing structures within 100 feet of the site shall also be shown on the site or plot plan.
- D. A preliminary grading plan for the project, drawn to the same scale as required above.
- E. Colored maps of existing and final slope, based on the following slope categories: 0-15%; 15+-25%, 25+-30%; 30+% shall be shown using contrasting colors.
- F. Sections or elevations of the proposed project. Plans shall indicate those residences which may be affected in terms of view obstruction.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- G. A soils engineering report including data regarding the nature, distribution and strengths of existing soils, conclusions, and recommendations for grading procedures, design criteria for and identified corrective measures, and opinions and recommendations regarding existing conditions and proposed grading. This investigation and report shall be performed by a professional soils engineer experienced in the practice of soil mechanics and registered with the State of California.
- H. Any subdivision in Alquist-Priolo shall provide a geology report including the surface and subsurface geology of the site, degree of seismic hazard, conclusions and recommendations regarding the effect of geologic conditions on the proposed development, opinions and recommended design criteria to mitigate any identified geologic hazards. This investigation and report shall be performed by a professional geologist experienced in the practice of engineering geology and registered with the State of California.
- I. A hydrology report which shall include areas of possible inundation, downstream effects, natural drainage courses, conclusions, and recommendations regarding the effect of hydrologic conditions on the proposed development, opinions and recommendations regarding the adequacy of facilities proposed for the site, and design criteria to mitigate identified hydrologic hazards. This report shall account for runoff and debris from tributary areas and shall provide consideration for each lot or dwelling unit site in a development. Runoff and debris volumes shall be computed using San Bernardino County Flood Control District criteria. This investigation and report shall be prepared by a registered civil engineer experienced in hydrology and hydrologic investigation.
- J. A preliminary landscaping plan showing disposition of existing trees, and the type and extent of proposed vegetation.
- K. The applicant may be requested to submit a scaled profile model or an isometric drawing depicting any or all of the site proposed for development. The developer may be required to submit photographs of the site showing the proposed development and its effect.
- L. Covenants, conditions, and restrictions (CC&Rs), including but not limited to development plans, common area and slope maintenance, private area landscaping and maintenance shall be submitted and approved prior to the recordation of a final tract map.
- M. Other information or application materials as may be deemed necessary or desirable by the Director.

[\[Return to Municipal Code Contents\]](#)

3. MODIFICATION OF SUBMITTAL REQUIREMENTS

The requirement to submit any or all of the materials enumerated above may be varied by the Director under the following conditions:

- A. Recently completed and satisfactory reports covering the same subject matter of the same site already in existence; or
- B. Some or all of the above reports are included as part of an approved Environmental Impact Report or Negative Declaration; or
- C. The reports described in 1. and 2. above were previously prepared for a site in close proximity to the project and such other site possesses similar characteristics to the subject project lot or parcel.

4. EVALUATION OF CONDITIONAL USE PERMIT APPLICATION

The Commission shall evaluate the Conditional Use Permit Application based on the following criteria:

- A. In general, the project shall be designed to fit the existing topography; the site shall not be graded to accommodate the project.
- B. The proposed density does not exceed the maximum allowed density.
- C. Final contours and slopes shall generally reflect existing landforms; in particular, building pads and terraces interspersed with slopes shall not be created and ridgelines, knolls, and significant tree masses shall be maintained.
- D. The proposed development seeks to avoid significant intrusion(s) into the view from adjoining up-slope residences.
- E. Views from public open space areas, rights-of-way, and other public places and of major public open space areas are not significantly affected.
- F. Wide pads or level areas are not created to accommodate roads. Roads should be fit into the existing topography; one-way roads may be preferred over two-way roads to reduce grading, and on-street parking should be parallel to the road, not perpendicular.
- G. Buildings, parking, carports, and landscaping shall be arranged so that view corridors from downslope lots are created.

[Return to Municipal Code Contents]

19.17.090 Applicable Regulations

All uses shall be subject to the applicable regulations of this Development Code, including, but not limited to Article IV, Administration provisions.

CHAPTER 19.18
HP (HISTORIC PRESERVATION OVERLAY) ZONE

This section reserved for future ordinance.

CHAPTER 19.19 MS (MAIN STREET OVERLAY) ZONE

Sections:

- 19.19.010 Purpose**
- 19.19.020 Applicability**
- 19.19.030 Permitted and Conditionally Permitted Uses**
- 19.19.040 Development Standards**

Guidelines

- G19.19.050 Design Guidelines for Rehabilitation and Infill Development**

19.19.010 Purpose

The purpose of this overlay zone is to provide a comprehensive set of development standards to be applied within the City's downtown area. These standards are provided for the continuance and enhancement of the historic downtown area as the functional and symbolic center of the City.

This Overlay Zone is established in order to achieve the following objectives for the City's downtown:

1. General pride and confidence in the downtown area.
2. Create an attractive environment which is active throughout the day and evening.
3. Maintain a consistently high level of design quality.
4. Encourage pedestrian activity by creating a positive pedestrian experience.
5. Protect property values through quality control.

19.19.020 Applicability

This Zone is an area bounded by the north property line of the parcels on the north side of 8th Street on the north, the centerline of Rialto Avenue on the south, east right-of-way of I-215 on the west, and the east property line of parcels fronting on the east side of Sierra Way on the east.

The standards contained in this Section apply to all uses and structures within this zone and are in addition to those of the underlying zone. In addition, the commercial design guidelines (Section G19.06) also apply as design guidelines to projects within this Zone where applicable. Further, the "Main Street Design Guidelines Manual" provides additional guidance for developers of projects within this Zone. The manual must be consulted by project proponents prior to submitting development plans for review. If there is inconsistency between the requirements of this Development Code and the Main Street Design Guidelines Manual, these Development Code requirements shall prevail.

19.19.030 Permitted and Conditionally Permitted Uses

Uses permitted or conditionally permitted within this District shall be the same as those for the underlying zone.

19.19.040 Development Standards

1. SETBACKS

- A. The first two floors of any building in the Main Street Area must be built at the property line or provide a hardscaped plaza (for up to 50% of building face) between the building face and the front property line. If it can be demonstrated by the project proponent that the above configuration causes undue hardship due to "special circumstances", the City may require that only 50% of the building face be located on the front property line.
- B. Pedestal buildings (buildings with the first floor set back from the front property line while upper floors project out to the front property line) are prohibited.
- C. Awnings, trellises and other accessory building structures which are relatively open and do not restrict pedestrian or vehicular movement may project into the front right-of-way. Permanent building canopies are not included in this category.

- D. Any building located at a corner intersection shall incorporate architectural features at the ground floor which emphasize the importance of pedestrian movement. These features may include building cut-offs, walk-through covered arcades, trellis structures, and other elements which focus visual interest on the corners.

- E. Where appropriate, new buildings must set back their corners at intersections to create pedestrian plazas as well as improve visual sight lines for vehicles. The corner setback minimum dimension shall be 10 feet from the corner. (See graphic)

BUILDING CORNER TREATMENTS

2. PARKING ORIENTATION

- A. Parking lots and structures shall be located as much as possible to the rear of buildings.
- B. Locating parking lots between the front property line and the primary building storefront/entry is specifically prohibited.
- C. Vehicular entry points to parking lots shall receive special paving accents where the drive crosses the public sidewalk.
- D. Off-street parking facilities shall be designed so that a car within a facility will not have to enter a street to move from one location to any other location within the same parking facility.

3. PLAZA PROVISIONS

Front setbacks are allowed at the ground level if the area is designed as a pedestrian plaza. To qualify as a pedestrian plaza, the following minimums shall be incorporated into its design.

- A. Minimum size: 10 feet deep and the width of the entire building storefront or 650 square feet.
- B. Paving: A minimum of 80% of the area shall be paved in a decorative paver or textured, colored concrete. Asphalt paving is prohibited as a plaza paving material.
- C. Landscaping: Landscaping is required pursuant to Chapter 19.28.
- D. Walls: An optional low wall (max. 30 inches high) which allows people to sit on it, may be located on the property line for restaurants or other uses utilizing the plaza for active retailing or other entertainment use. The wall may not extend for more than 80% of the building frontage.

4. STREETSCAPE IMPROVEMENTS

Developers of new projects or rehabilitation projects with a value above 50% of the current assessed value of the property are required to reimburse the City for streetscape improvements made within the public right-of-way adjacent to their property. Said projects shall be assessed a fee based on the number of lineal feet of street frontage of the project.

The fee shall be assessed in accordance with the fee schedule established by resolution of the Mayor and Council and filed in the office of the City Clerk.

5. ARCHITECTURAL DESIGN (GENERAL)

- A. Storefront construction shall be minimum of 60% transparent with a maximum of 85% transparency.
- B. Upper story street wall construction shall be a minimum of 35% transparent.
- C. Blank, solid end walls or side walls visible from public view shall be avoided. If such walls are necessary for interior reasons, the structure wall shall receive some form of articulation or add-on elements such as awnings, cornice bands, etc.
- D. The facades of adjacent structures shall be considered in the design of new projects to avoid clashes in architectural style and materials.

E. Acceptable Materials:

Building Walls:

clear glass, glass block, concrete or plaster (lightly troweled or sand finish)
cast iron, new or used face-brick, terra-cotta, cut or carved stone, baked enamel, metal panels, clapboard where appropriate (limited), ceramic tile

Roofs (where visible):

flat concrete or clay tiles, slate or slate appearing substitutes, standing seam metal roofs (not batten), class a composition shingles

Fences/Walls/Gates:

concrete or plaster with smooth or lightly textured surface, wrought iron, split face block, new or used face brick, cut or carved stone

[Return to Municipal Code Contents]

F. Prohibited materials:

Building Walls:

highly reflective glass, imitation stone, or flagstone, parquet, imitation masonry of any kind, corrugated fiberglass, imitation wood siding, coarsely finished, rough-sawn, or rustic materials, such as wood shakes, shingles, barnwood, board and batten, and rough-sawn poorly-crafted or rustic wood-working and finishing techniques, antiqued or imitation old brick, mottled or light-colored variegated brick, oversize brick and white brick mortar, astro-turf, materials with a glossy or reflective finish such as glass or polished marble should not be used as the dominant facade material.

Roofs:

(where visible) crushed stone, exposed corrugated metal or plastic, cedar shake, brightly colored tile (orange, blue, etc.)

Fences/Walls/Gates:

concrete block, whether colored or unfinished, chain link, or cyclone fences, rough sawn or natural wood, split rail

6. CANOPIES AND AWNINGS

- A. Canopies and awnings must respect the style and character of the structure on which they are located, particularly in the material and color.
- B. The highest point of a canopy or its superstructure shall not be higher than the midpoint of the space between the second story window sills and the top of the first floor storefront window, awning, canopy, or transom. The purpose of this requirement is to leave a comfortable space between the top of the canopy and the windows, trim, and other architectural elements.
- C. Canopies are encouraged to shelter all openings of each building from sun and rain at the bottom floor. Awnings are allowed on upper floors.
- D. The minimum height of a canopy or a sign hung from a canopy shall be 8 feet from the lowest point to the sidewalk.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

Encouraged

Shed Awning At Lower Level
Is Consistent With Rectilinear
Building Form.

Discouraged:

Round Awning At Lower
Level Is Not Consistent
With Rectilinear
Building Form.

Encouraged:

Awning In Scale With Facade.

Discouraged:

Awning Dominates Facade.

7. DOORS AND WINDOWS

- A. The design and location of doors and windows must consider the architectural tradition of the historic downtown area. Use simple wood and glass doors and windows of traditional design. If aluminum is used, it shall be simple in design with a dark anodized or baked enamel finish.
- B. Only clear glass (88% light transmission) may be used on the first floor. Tinted glass allowing a minimum of 50% light transmission will be considered only for use in second floor windows and above and on an individual case basis. The use of reflective glass is prohibited on the first three floors (or equivalent).
- C. Storefront windows must be as large as possible while maintaining height standards for bulkheads. Maximum bulkhead heights for new construction shall be 42 inches. Minimum bulkhead heights shall be 24 inches. Existing buildings are encouraged to retrofit within height range.
- D. Replacement windows must always fill the entire opening and duplicate the original patterns.

- E. Security grilles, either fixed or sliding, are prohibited on the exterior of doors and windows on the fronts or sides of structures adjacent to streets. If such security systems are justified, they must be placed on the interior of the building, a minimum of 24 inches behind windows and doors. Security grilles are prohibited by the California Code of Regulations for Title 19 occupancies, such as: mental hospitals, hospitals, homes for the aged, children's homes or institutions, schools; and any theater, dance hall, skating rink, auditorium, assembly hall, meeting hall, night club, fair building, or similar place of assemblage where 50 or more persons may gather together.

[\[Return to Municipal Code Contents\]](#)

8. LIGHTING

- A. Lighting is an integral part of the downtown design concept and a major element in creating a unique, safe, and exciting night-time ambiance. All exterior lighting shall be designed as part of the overall architectural concept. Fixtures, standards and all exposed accessories shall be harmonious with the building design, the lighting design and hardware of the public spaces, and the overall visual environment of the downtown. Obtrusive appearance of their setting should be avoided.
- B. Night lighting of buildings shall be selective and focused; overall ambient lighting of buildings is not desirable. Rather, lighting should highlight entrances, dramatize special architectural features, keynote repeated features, and use the play of light and shadow to articulate the facade. The creative use of lighting to accomplish these ends is strongly encouraged. The lighting of signs themselves will play a significant role in the nighttime visual environment.
- C. For safety, identification and convenience, entrances of buildings and parking areas shall be well illuminated.
- D. Vestibules created by recessed entries shall be illuminated by downlights.
- E. All show window areas shall be adequately lighted employing concealed or baffled sources which will not create glare or uncomfortable visual conditions for pedestrians.

G19.19.050
DESIGN GUIDELINES FOR REHABILITATION
AND INFILL DEVELOPMENT

1. GENERAL

The following design guidelines are intended as a reference framework to assist property owners, developers and designers in understanding the City's goals and objectives for high quality development and rehabilitation within the MS (Main Street Overlay) zone. The guidelines are intended to complement the mandatory site development regulations contained in this section by providing good examples of potential design solutions and by providing design interpretations of the various mandatory regulations. The design guidelines are general and may be interpreted with some flexibility in their application to specific projects. The guidelines will be utilized during the City's design review process to encourage the highest level of design quality while at the same time providing the flexibility necessary to encourage creativity on the part of the project designers.

Ord. MC-1393, 12-02-13

2. APPLICABILITY

The provisions of this section shall apply to all development within the MS zone. Any addition, remodeling, relocation, or construction requiring a building permit within the MS zone subject to review by the Development Review Committee shall adhere to these guidelines where applicable.

Unless there is compelling reason, these guidelines shall be followed. If a guideline is waived by the Development Review Committee, the Mayor and Common Council shall be notified. An appeal, which does not require a fee, may be filed by the Mayor or any Council person within 15 days of the waiver approval.

[Return to 19.19]

3. PRESERVATION OF TRADITIONAL DECORATION

Existing historic decoration should be preserved whenever possible. It reinforces the traditional character of the downtown and adds a richness of detail which is often irreplaceable at today's costs. At the same time, the details of the decoration lend a unique character to individual buildings and to the downtown as a whole.

Many times in the remodeling of storefronts, original decorative details are left partially intact as visual "leftovers" or simply covered with new construction. In future improvements, these forgotten details should not be wasted. If enough details remain, they should be restored as part of the original design. If only a few remain, they can be incorporated as design features in a new storefront. In either case, the design of any improvements should grow out of the remaining details and create a harmonious background which emphasizes them.

Storefront with Traditional Materials

A Cornice can be constructed with wood framing, plywood and moldings with a sloping sheet metal cap to shed water. The Cornice spans the top of the storefront, often covering a structural beam or unfinished brick.

Transoms are optional design elements that help to break up the massive effect of very large sheets of glass. Transom windows can be clear, tinted or stained glass.

Masonry piers are uncovered and match the upper facade.

The storefront is recessed 6 inches into the opening.

The storefront and windows are framed in wood. The sill slopes forward for drainage.

The bulkheads are constructed with wood framing and a plywood back with trim applied to it.

The storefront rests on a masonry or concrete base to prevent water damage.

Storefront with Contemporary Materials

A Cornice is made with sheet metal over a wooden frame.

Optional transoms can be stained glass, clear glass or opaque.

Masonry piers are uncovered and match the upper facade.

The storefront is recessed 6 inches into the opening.

The storefront and windows are framed with dark anodized aluminum or painted aluminum.

The storefront rests on a masonry or concrete base.

[Return to 19.19]

Existing building elements incompatible with the original facade design of the building should be removed. These include: overdone exterior embellishments and "modernized" facades, using such elements as metal grilles or rusticated materials. The facade will then be remodeled or restored to reflect its original appearance. The remodeling/ restoration will stress the conservation of the unique stylistic features of the original building.

4. SELECTION OF BUILDING MATERIALS

Contemporary materials which have characteristics similar to traditional materials can be appropriately used in facade rehabilitation. In general, they should have a smooth texture with a satin or flat finish and a color which enhances the traditional character of the facade. Their profile should be similar to the profile of the traditional material they replace. High gloss materials such as opaque glass and porcelain enamel should be used only within the storefront opening.

Materials such as cedar shakes, textured plywood, stone veneer, log paneling, stucco and plastic are not appropriate for use on traditional facades for three reasons. First, these materials often attempt to create a theme which conflicts with the traditional character of the downtown. Second, these materials are usually not of a quality - in terms of durability, finish and appearance - that is necessary to establish an image of quality and stability. Third, these materials often detract from the character of the storefront and the facade. They create a confused and cluttered appearance instead of reinforcing the traditional character of the facade.

5. WINDOW REPLACEMENT

If a window has deteriorated beyond repair or is missing, the replacement should match the original window. Replacement windows should always fill the entire window opening and duplicate the original patterns. For example, a double hung sash window should not be replaced by a single fixed pane of glass. Avoid the use of windows and shutters that are not in keeping with the style of the building.

6. DOOR REPLACEMENT

Traditionally, the entrance door was made of wood with a large glass panel. Every effort should be made to maintain and repair an original door, if possible.

[Return to 19.19]

Many original doors have been replaced by standard aluminum and glass commercial doors. Although lacking in historical character, they are generally unobtrusive. Aluminum doors and storefronts can be made more compatible by painting them a dark color. An exposed aluminum surface must be cleaned and prepared for a zinc chromate primer or metal primer, followed by appropriate finish coats as recommended by the primer manufacturer. New aluminum should be exposed to weather for at least two months before painting.

If a door is to be replaced, there are three basic options:

- Have a new door built with the same design and proportions of the original.
- Find a manufactured wooden or steel door that resembles the traditional store door.
- Use a standard aluminum commercial door with wide stiles and a dark anodized or baked enamel finish.

Do not use doors decorated with molding, cross bucks or window grills. These doors are more residential in character and can look out of place on commercial buildings.

7. REMOVAL OF EXISTING CANOPIES AND METAL AWNINGS

Canopies have a thin, insubstantial and "tacked on" appearance which is inconsistent with the concept for downtown San Bernardino. All canopies should be removed and, if appropriate, replaced with fabric awnings. Existing metal awnings should be removed and replaced with fabric awnings.

Aluminum awnings or canopies generally detract from the historic character of a building and should not be erected.

Existing canopies on historic storefronts (added during the 50's and not original) should be removed and replaced with canvas or vinyl awnings.

If a flat canopy exists and was part of the original architecture, it can be dressed up with a 12 to 24-inch canvas awning valance.

Various awning materials offer different colors and patterns. There are several to choose from: Canvas, Vinyl-coated, and Acrilan, a synthetic material.

Try to avoid shiny vinyl awnings on historic facades.

8. MODIFICATIONS OF INCONSISTENT SETBACKS

To strengthen the pedestrian environment in the downtown, buildings which are not "sidewalk adjacent" are encouraged to create pedestrian courtyards, plazas or seating areas with the space between the sidewalk and building wall.

9. DESIGN CONSIDERATION OF REAR ENTRANCE

In developing a rear entrance to a downtown structure, a number of opportunities must be considered. In general, the rear entrance must respond to the same needs as the storefront only at a reduced scale. These include identification signage, display, and a pleasant entry. In addition, it must also meet the service needs of the business as it has in the past. Since these two functions are often in conflict, the design of the rear entrance must be carefully planned. A particular concern is the storage and disposal of refuse. Trash cans, dumpsters, and other containers should be hidden from view whenever possible. Regular maintenance is of paramount importance.

The design of a rear entrance should be appropriate to its surroundings. The visual character of the rear facades, alleys, and parking lots is a relatively casual and utilitarian one, especially when compared to the more formal street facades. In this type of context, a refined or grand design can look out of place. The design should be pleasantly inviting, but simple in detail.

Any exterior plumbing, electrical lines, or other utilities on any facade in public view should be relocated or enclosed.

Unsightly electrical services entries should be relocated or rehabilitated.

Gutters, downspouts, and windows may require repair and/or cosmetic treatment.

Rear facade masonry may require repair and/or re-pointing.

Signs should be modestly scaled to fit the casual visual character of the alley.

Existing windows can be easily converted into a small display window.

Surface paving at the rear entry should be repaired to appear inviting to pedestrians.

A canvas awning can soften rear facades and provide a pleasant protected space.

A rear entry door should be wood and glass or similar to the front door.

Lighting should be modest but bright enough to discourage vandalism.

Refuse containers and service facilities should be screened from view.

10. INFILL CONSTRUCTION

The construction of new buildings along the traditional commercial street is a valid tool for downtown revitalization. It is extremely important, however, that these new buildings relate harmoniously with the older buildings which surround them. Since these buildings are often constructed on vacant lots, thus filling a "hole" in the street, they are called infill construction.

Visually, the design of an infill building, particularly its front facade, should be designed by repeating rhythms, cornice lines, window and door arrangement with the other facades on the street. It should "grow" out of them.

The new design should not, however, duplicate the design of neighboring facades. Rather, it should be a contemporary design influenced by its surroundings ... a blend of new and old. The infill facade should not pretend to be historic by using fake "historical" detail. Pseudo-Classical or Quasi-Mission elements are often used to blend a new building with older surroundings. This approach generally ends up only compromising what is authentically historic in the environment.

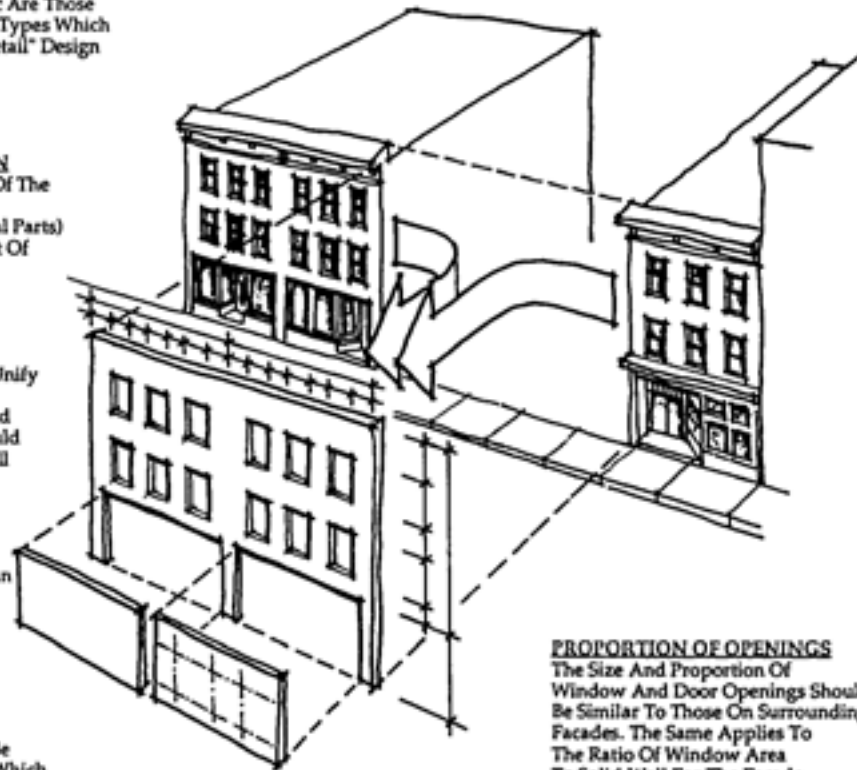

The Concepts And Characteristics Presented In This Graphic Are Those Of Existing Architectural Types Which Would Determine the "Detail" Design Of The Infill Facade.

VISUAL COMPOSITION
The Visual Composition Of The Infill Facade (That is, The Organization Of It's Visual Parts) Should Be Similar To That Of Surrounding Facades.

FACADE RHYTHMS
Visual Rhythms Which Unify The Blockscape In Their Consistency (window and storefront rhythms) Should Be Incorporated Into Infill Facades.

USE OF COLOR
The Colors Chosen For An Infill Facade Should Tie It To It's Neighbors.

USE OF MATERIALS
An Infill Facade Should Be Composed Of Materials Which Relate To Adjacent Facades.

PROPORTION OF OPENINGS
The Size And Proportion Of Window And Door Openings Should Be Similar To Those On Surrounding Facades. The Same Applies To The Ratio Of Window Area To Solid Wall For The Facade As A Whole.

[Return to 19.19]

11. MOTOR STRUCTURE/DRIVE-UP BUILDING

A significant number of commercial structures built in the 1950s, 60s and 70s along auto oriented boulevards and commercial strips have found their way into the traditional pattern of San Bernardino's downtown development particularly along 5th and 6th Streets. In most cases, these buildings are either fast food restaurants, automobile service stations or the small strip commercial development.

These types of uses are usually set back from the street and neighboring buildings to allow for a visible parking area directly in front of the building. Large, freestanding pole signs often are placed near or at the front property line, so that identity of the business establishment can be recognized from great distances up and down the street. The shape of the entire building, as well as the applied architectural details, the type of building materials and the bold colors of the signage, are designed to attract the attention of people in fast-moving motor vehicles. Often the building possesses stylized roof and wall treatments in an effort to give the establishment a strong identity, and to stand it apart from surrounding uses.

The construction of additional motor structures and/or drive-up buildings in this zone is prohibited.

CHAPTER 19.19A TD (TRANSIT DISTRICT OVERLAY) ZONE

19.19A.010 Purpose

The Transit Overlay District (TD) Zone and its regulations are established in order to implement the City's General Plan policies promoting transit-oriented development within San Bernardino.

The intent of the TD is to allow and encourage an appropriate mix and intensity of land uses in a compact pattern around transit stations that will foster transit usage, create new opportunities for economic growth, encourage infill and redevelopment, reduce dependency on the automobile, improve air quality, and promote high quality, interactive neighborhoods. The regulations and guidelines of this chapter are based upon the following transit-oriented development area principles, consistent with the California Transit Village Development Planning Act of 1994:

- An attractive transit station with surrounding pedestrian amenities as the focus of the transit-oriented development area.

[\[Return to Municipal Code Contents\]](#)

- An appropriate mix and intensity of uses such as office, retail, entertainment, residential, and recreational facilities that support transit use and are designed for convenient access by transit riders, pedestrians, and bicyclists.
- Inviting and pedestrian-focused open spaces on both public and private properties, such as smaller public pocket parks, civic plazas, outdoor dining areas, common greens, and other types of urban spaces.
- A walkable and bikeable area with pleasant connections linking transit stations with businesses and neighborhoods.
- An interconnected street and non-vehicular network where walkways, bikeways, landscaping, and other streetscape amenities receive priority.

19.19A.020 Applicability

The Transit Overlay District (TD) Zone applies to transit station areas within San Bernardino. The TD establishes standards and regulations beyond those required by the underlying base zones. Whenever the requirement of the TD conflicts with the underlying base zone, the requirement of the TD shall govern.

(Ord. MC-1393, 12-02-13)

As transit service is expanded within San Bernardino, additional areas may be designated as TD within the City. TD boundaries may also be expanded over time as development becomes more transit oriented. Boundary adjustments within a half mile of a transit station may be proposed by an applicant and approved at the discretion of the Community Development Director. The boundaries for each station area are established below, as shown in Figures 1 to 13.

The TD standards apply to the establishment of all new structures and uses within the boundaries of the TD. Existing structures and uses those are inconsistent with the TD standards may be maintained, repaired, altered, and expanded only as allowed by Chapter 19.62 (Nonconforming Structures and Uses).

19.19A.030 Transit Station Area Types

This Chapter establishes five transit station area types, each with its own unique character and neighborhood scale. The transit station area types are based on the design and function of the stations and the predominant development patterns surrounding the station. The station area types are a framework for tailoring the development regulations for each of the station areas. The station area types also provide a guide for applying the TD to additional areas within the City.

- A. Kendall Drive Neighborhood Stations. This type of station area provides transit access to serve neighborhoods and businesses in the Kendall Drive area, within an approximately 10-minute walk or up to a half-mile radius. The station area is typically a predominantly residential area with supporting neighborhood or community level retail and services. The transit stations are designed as pull-up stations along an arterial and may include transfers between bus rapid transit (BRT) and local bus service. The following transit station areas are identified as Neighborhood Walk-up Station areas:
 - 1. Kendall Drive and Palm Avenue
 - 2. Kendall Drive and Little Mountain Drive
 - 3. Kendall Drive and Shandin Hills Drive

- B. E Street Neighborhood Stations. This type of station area provides transit access to serve surrounding neighborhoods and businesses in the E Street area north of 8th Street, within an approximately 10-minute walk or up to a half-mile radius. The station area is typically a predominantly residential area with supporting neighborhood or community level retail and services. The transit stations are designed as pull-up stations along an arterial and may include transfers between BRT and local bus service. The following transit station areas are identified as Neighborhood Walk-up Station areas:
 - 1. E Street and Marshall Boulevard
 - 2. E Street and Highland Avenue
 - 3. E Street and Baseline Avenue

C. Village/Urban Center Station Areas. This type of station area serves as a high-activity center and village center for nearby residential neighborhoods, up to a half mile radius. The area contains a variety of neighborhood and community level retail uses and services, along with the integration of higher intensity housing including student housing, and offices uses in a mixed-use configuration. The transit stations within this station area type are designed as either a pull-up station along an arterial, or as an in-line station. The following transit station areas are identified as Village/Urban Center Station areas:

1. University Avenue and North Parkway
2. E Street and North Mall Way

D. Downtown Station Area. This type of station area is intended for the highest intensity of development within in the city. The downtown station areas contain a planned mix of employment-intensive office, civic uses, regional-level retail and service uses, entertainment, hospitality, education, hospital or medical facilities, and high density residential uses in a compact urban form. Uses are to be served by an interconnected multi-modal transportation center and public spaces network that will accommodate the highest levels of pedestrian activity. The following transit station areas are identified as Downtown Station Areas:

1. E Street and Court Street
2. E Street and Rialto Avenue

E. Employment Center Station Areas. This type of station area serves as concentrated employment areas within the City. They contain a mix of office or high employment industrial uses, educational or technical training institutions, hospital or medical facilities, supporting retail, restaurant, entertainment, and other similar services. Higher density residential development, in mixed-use configurations, may also be located in Employment Center Station Areas. The transit stations within this station area type are designed as either a pull-up station along an arterial, or as an in-line station. The following transit station areas are identified as Employment Center Station:

1. Hospitality Lane and Hunts Lane
2. Hospitality Lane and Carnegie Drive
3. Hospitality Lane and Tippecanoe Avenue

19.19A.040 General Provisions

A. Precedence.

The requirements of this Chapter take precedence over the Citywide regulations found elsewhere in the City of San Bernardino Development Code. In the event of a conflict between this Chapter and other portions of the Development Code, the provisions of this chapter shall govern.

B. Build-to Line.

This chapter establishes standards for a Build-to Line(s) that apply to the TDs. Build-to Line is a line(s) established at a certain distance from the corresponding lot line along which the building, or a portion thereof, must be built. The purpose of the build-to line is to ensure that redevelopment within the TD is well integrated with adjacent development and enhances the design character of existing streets, where appropriate. Build-to Lines also help to create consistent and strong pedestrian and public spaces that advance commercial development and activity. The location of applicable Build-to Lines is shown on Figures 1 through 13 of this chapter. Standards that apply to properties adjacent to a Build-to Line are located in Section 19.19A.050 below.

C. Modifications to Existing Development.

All legally established structures and uses within the TD which do not conform with the standards contained within this chapter shall be deemed legal nonconforming uses and/or structures. The repair, renovation, and minor expansion to these uses and structures shall be allowed as permitted by Chapter 19.62 (Nonconforming Structures and Uses).

D. Public Facilities.

Public facilities such as parks, public schools, and transit centers and stations, and other public facilities due to their unique use and special function may deviate from the provisions of this chapter upon approval of a Design Review Development Permit.

19.19A.050 Building Form and Placement Standards

A. Purpose and Intent.

This section establishes standards for building form and placement within the TD. Customized standards are provided for each station area type. The intent of these standards is to ensure excellence in community and building design in order to create a vibrant and well-defined public realm that is pedestrian-friendly and supports transit use.

B. Standards Established.

Building form and placement standards in the TD are the same as in the base zoning district, except as follows;

- 1. Minimum and maximum requirements for Build-to Line setback, building height, and upper floor step-back shall follow the standards specified in Table 19A.01.
- 2. New development within TD station areas shall have no minimum lot size and no maximum lot coverage requirements.
- 3. New development along existing railroad right-of-way shall provide a minimum 10-foot setback for landscaping and/or a multiuse pathway to accommodate pedestrians and bicyclists.

C. Residential Density.

1. Commercial Base Zones.

When the TD applies to property within a commercial base zone that already allows for residential uses, the maximum permitted density of the underlying zone shall apply.

2. Residential Base Zones.

When the TD applies to property within a residential base zone, maximum permitted residential density shall be the same as the base zone.

D. Commercial Intensity. When the TD applies to property within a commercial base zone, the maximum permitted intensity of the underlying zone shall apply.

Table 19A.01 Building Form and Placement Standards

TD Station Areas		Build-to Line Setback	Building Height ^[1]	Upper Floor Step-back ^[2]
Kendall Neighborhood Station Areas	Minimum	None ^[3]	None	None
	Maximum	25 ft. ^[4]	30 ft. / 2 stories	None
E Street Neighborhood Station Areas	Minimum	None ^[3]	None	None
	Maximum	15 ft ^[4]	42 ft. / 3 stories	None
Village/ Urban Station Areas	Minimum	None	None	None
	Maximum	15 ft ^[4]	56 ft. / 4 stories	None
Downtown Station Areas	Minimum	None ^[3]	None	None
	Maximum	15 ft ^[4]	100 ft. / 7 stories ^[5]	None
Employment Center Station Areas	Minimum	None ^[3]	None	None
	Maximum	25 ft. ^[4]	75 ft. / 6 stories	None

^[1] Building height of new development adjacent to existing single-family residential zones may not exceed 30ft/2 stories applicable to all TD station areas.

^[2] Upper floor step-back shall be measured from the building wall at the street level.

^[3] Building must be set back to provide for a minimum 10-foot sidewalk including street trees. Build-to line setback along Tippecanoe Avenue shall provide for landscaping and a multiuse pathway to accommodate pedestrians and bicyclists.

^[4] Setback areas from the build-to line not occupied by a structure or driveway shall be landscaped and/or contain semi-public amenities such courtyards or outdoor seating areas.

^[5] Additional height bonus may be allowed per section 19.06.030(2) (E).

E. Building Presence along Build-to Lines.

The primary building(s) located on a parcel shall occupy the following minimum linear percentage of the parcel width fronting a build-to line:

1. Kendall Neighborhood Station Area: 50%
2. E Street Neighborhood Station Area: 60%
3. Village/Urban Center Station Area: 70%
4. Downtown Station Area: 80%
5. Employment Center Station Area: 50%

F. Ground Floor Transparency.

The ground floor building façade facing a street frontage line shall consist of the following minimum area percentage glass doors, windows, or other transparent materials.

1. Kendall Neighborhood Station Area: 50%
2. E Street Neighborhood Station Area: 50%
3. Village/Urban Center Station Area: 75%
4. Downtown Station Area: 75%
5. Employment Center Station Area: 50%

G. Entrance Orientation.

1. Within the Kendall Neighborhood station area type, all ground-floor building facades fronting a primary street shall feature a main building entrance.
2. Within the E Street Neighborhood, Village/Urban Center, Downtown, and Employment Center station area types, all ground-floor building facades fronting a primary street shall feature the building's main entrance.

H. Minimum First Floor Ceiling Height.

[Return to Municipal Code Contents]

For buildings with ground floor commercial uses, the minimum required floor to ceiling height at the ground floor level for buildings facing public frontage lines should be 15 feet.

I. Building and Site Design.

Refer to Sections 19.19A.140 to 19.19A.160 for design guidelines applicable to building form and placement within the Transit Overlay District.

19.19A.060 Permitted and Conditionally Permitted Uses

A. Purpose and Intent.

This section identifies permitted, conditionally permitted, and prohibited land uses within the TD. The intent of these regulations is to permit and encourage land uses that create a pedestrian-friendly environment that supports transit use and thriving commercial districts and residential neighborhoods.

B. Land Use Regulations – Commercial Base Zones.

When the TD applies to property within a commercial base zone, permitted and conditionally permitted shall be the same as the base commercial zone, except as specified below.

1. Permitted Uses.

The following uses are permitted with the approval of a Development Permit: Convenience stores pursuant to Section 19.06.025.

- Dry cleaners
- Educational services
- Medical/care facilities/social services (within CCS-1 only)
- Mixed-use (with residential where allowed in commercial base zones)
- Mobile vendors
- Neighborhood

- grocery stores
- Parking structures

2. Prohibited Uses.

The following uses are prohibited:

- Auto parts sales
- Auto repair
- Car, RV, and truck sales
- Car Washes
- Service Stations
- Service Commercial uses pursuant to Table 06.01 J., excluding veterinary services
- Impound vehicle storage yard
- Vehicle leasing/rental
- RV parks
- Blood banks
- Drive-thru commercial uses
- Restaurants with drive-thru
- Nurseries

3. Exceptions to Prohibited Uses.

Exceptions are permitted to Section 19.19A.060(B)(2) for projects that stimulate economic development activity subject to a Conditional Use Permit in accordance with Section 19.06.030, Project Review.

Ord. MC-1404, 7-07-14

19.19A.070 Residential Transition Standards

A. Purpose.

This section establishes standards to ensure that new development in the TD is compatible with adjacent single-family residential uses.

B. Applicability.

The following standards apply to buildings located on a parcel that either:

1. Shares a property line with an existing single-family residential zone; or
2. Faces an existing single-family residential zone across a street.

C. Building Setbacks.

1. **Front Setbacks.** For a parcel located across a street from an existing single-family residential zone, the front setback shall be no less than the average front setback requirement of the facing homes block face but not more than 20 feet.
2. **Interior Side Setbacks.** For a parcel sharing an interior side property line with an existing single-family residential zone, the interior side setback shall be no less than the interior side setback requirement of the adjacent property but not more than 20 feet.
3. **Rear Setbacks.** For a parcel sharing a rear property line with an existing single-family residential zone, the rear setback requirement shall be no less than 10 feet.

D. Upper Floor Step-backs.

1. **Front Building Walls.** For a parcel located across a street from an existing single-family residential zone, the height of the front building wall shall not exceed 2 stories and 30 feet.
2. **Side and Rear Building Walls.** For a parcel sharing an interior side or rear property line with an existing single-family residential zone, the height of the side or rear building wall, as applicable, shall not exceed 2 stories and 30 feet.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

3. Upper Floors. When permitted by the applicable zone, any portion of a building taller than 2 stories or 30 feet should step back a minimum of 8 feet from the first- and second-story building walls.

E. Commercial Service Location and Screening.

1. Outdoor storage, trash collection and loading areas associated with commercial uses shall be set back a minimum of 15 feet from any property line abutting a parcel occupied by a detached single-family home.
2. Outdoor storage, trash collection, and loading areas shall be located and screened from view such that they are not visible from any parcel occupied by a detached single-family home.

F. Parking and Driveways. See Section 19.20.100, Subsection G (Parking Buffers).

G. Noise Generating Activities.

Outdoor dining, amplified music, and other noise-generating activities shall be set back a minimum of 150 feet from the property line of any parcel occupied by a detached single-family home.

19.19A.080 Parking Standards

A. Purpose.

1. This Section establishes parking standards that apply to new and expanded land uses in the TD. The intent of the standards is to ensure the success of the transit corridor by providing efficient parking in the corridor. This includes design standards for parking area design and parking supply standards.
2. The parking requirements reflect the immaturity of the transit system along the corridor. As the system matures, there will be increased potential to refine the parking requirements, applying techniques such as parking maximums (e.g., no minimum parking requirements). These requirements should be updated as the system matures to reflect the change in required parking along the corridor.

B. Required On-Site Parking.

All land uses within the TD shall provide on-site parking as shown in Table 19A.3 (Required On-Site Parking) unless further reductions can be justified as part of project approval by utilizing shared parking, unbundled parking, in-lieu parking fees, or other parking reduction techniques, as described below:

[Return to Municipal Code Contents]

1. Shared parking assessment shall be completed using the latest information from ULI's (Urban Land Institute's) Shared Parking.
2. Unbundled parking occurs when development does not include parking in the standard cost of the facilities (e.g., residents/employees must pay additional cost for the right to park on-site).
3. In-lieu parking fees are effective if a parking district or other management agency owns and maintains parking facilities. With in-lieu fees, a developer can pay the identified fee for the right to use that parking and reduce their own on-site parking facilities.

Table 19A.02 Required On-Site Parking

Base Zoning District	Parking Requirement (per sq. ft. of leasable area, unless otherwise noted)
Commercial General (CG-1)	1 space per 300 sq. ft.
Commercial General – Baseline/Mt. Vernon (CG-2)	1 space per 500 sq. ft.
Commercial General – University Village (CG-3)	1 space per 250 sq. ft.
Commercial Office (CO)	1 space per 370 sq. ft.
Commercial Regional – Malls (CR-1)	1 space per 250 sq. ft.
Commercial Regional – Downtown (CR-2)	1 space per 500 sq. ft.
Commercial Regional – Tri-City/Club (CR-3)	1 space per 250 sq. ft.
Central City South (CCS-1)	1 space per 500 sq. ft.
Commercial Heavy (CH)	1 space per 300 sq. ft.
Industrial Heavy (IH)	1 space per 1,230 sq. ft. of gross floor area
Office Industrial Park (OIP)	1 space per 350 sq. ft.
Public/Commercial Recreation (PCR)	Special study required

[Return to Municipal Code Contents]

Public Facilities (PF)	Special study required
Public Flood Control (PFC)	1 space per access point
Residential High (RH)	1 space per unit
Residential Low (RL)	1 space per unit
Residential Medium (RM)	1 space per unit
Residential Medium High (RMH)	1 space per unit
Residential Suburban (RS)	2 spaces per unit
Residential Urban (RU)	1 space per unit
Industrial Light (IL)	1 space per 625 sq. ft.

C. Residential Guest Parking.

Current visitor and guest parking standards of the underlying zone shall apply. On-street parking may be considered for visitors to residential uses along public and private streets adjacent to the residential use.

D. Handicapped Parking Requirements.

Handicapped parking space design shall be consistent with approved designs in the off-street parking standards Section 19.24.050

E. Bicycle Parking Requirements.

One bicycle parking space shall be provided for each ten automobile parking spaces provided. For office and multifamily uses, bicycle parking should be provided in sheltered and secure facilities.

F. Location of Surface Parking.

New surface parking lots should not be located between the front wall of a building and a public street. Surface parking should be located to the rear or side of buildings. If surface parking is not feasible, all other parking should be located in structures, underground, and/or off-site.

[\[Return to Municipal Code Contents\]](#)

G. Parking Structures.

All multistory parking structures shall be lined with commercial, retail, or residential uses on the ground floor along primary build-to lines, except for pedestrian and vehicular entries into the parking structure.

H. Surface Parking Lot Screening.

1. Surface parking lots abutting a public sidewalk or street shall provide a landscaped buffer and/or decorative or “greenwall” screening along the perimeter of the parking lot abutting the sidewalk or street.
2. Surface parking abutting a residential zone shall provide a six foot high decorative wall and a landscaped buffer at least eight feet in width.

I. Alley Access.

For new structures adjacent to a rear alley, service access to the property shall be provided only through the rear alley.

J. Driveways.

All new driveways within a TD shall comply with the following standards.

1. Driveways shall comply with the dimension standards shown in Table 19A.03 (Driveway Dimension Standards).
2. All new curb cuts providing access to a driveway from a public street shall be separated a minimum distance of 50 feet from another existing or new curb cut, unless the parcel size requires shorter spacing. In that case, a minimum spacing of 35 feet shall be provided.
3. Parking spaces shall not be located along the sides of a driveway.

Table 19A.03 Driveway Dimension Standards

Driveway Type	Driveway Width	
	Minimum	Maximum
1-way	8 ft.	12 ft.
2-way	20 ft.	25 ft.

19.19A.090 Subdivision Standards

A. Purpose.

This section establishes standards for the subdivision of parcels within the TD to ensure that large parcels are subdivided in a manner that supports a walkable, transit-oriented environment.

B. Applicability.

The following standards apply to subdivisions of parcels 10 acres or greater.

C. Block Lengths.

1. Except as permitted by Subsection 2 below, the maximum length of a block created by the establishment of one or more new streets shall not exceed 400 feet.
2. The City may approve a block length in excess of 400 feet when necessary to achieve project compliance with connectivity standards in Subsection D below, or if there are physical limitations, such as the size of the project area, that do not allow for compliance with this standard.
3. Block lengths shall be measured as the length of property abutting one side of a street between either the two nearest intersecting streets or the nearest such street and any other physical barrier to the continuity of development. Block lengths shall be measured from property lines that intersect at an angle of 45 degrees or more.

D. Connectivity Standards.

1. New streets established within the TD shall align and connect with any existing adjacent street.
2. Block lengths shall increase connectivity to surrounding existing and planned pedestrian and bicycle facilities.
3. New development of large sites (in excess of one acre) shall maintain and enhance connectivity with a hierarchy of public streets, private streets, walks and bike paths.
4. Bicycle/pedestrian connections shall be provided at each cul-de-sac end, where feasible.

G19.19A

TRANSIT OVERLAY DISTRICT (TD) ZONE DESIGN GUIDELINES

Sections:

G19.19A.100 Transit Overlay District (TD) Zone Design Guideliines

G19.19A.110 District Image

G19.19A.120 Transit Oriented Design

G19.19A.130 Site Planniing and Architectural Design

G19.19A.140 Parking Design

G19.19A.150 Landscape Design

G19.19A.100 Transit Overlay District (TD) Zone Design Guidelines

The guidelines are intended to promote quality design, consistent with City General Plan goals and objectives, while providing a level of flexibility to encourage creative design. These design guidelines implement various policies in the Land Use, Housing, Economic Development, Community Design, Circulation, and Natural Resources and Conservation Elements pertaining to transit oriented development.

- A. Purpose and Intent. The following design guidelines are intended to direct the physical design of building sites, architecture, and landscape elements located within the City's Transit Overlay District (TD) Zone. This comprehensive approach represents a more understandable and predictable role in shaping each TD's physical future by emphasizing community form, architectural typologies, and landscape design that reinforce traditional and modern development patterns. In the Downtown, Village/Urban Center, and Employment Center station areas, contemporary architecture that has a strong pedestrian orientation, visual interest on the ground floor, quality long lasting materials, human scale, and articulated facades are also encouraged. The guidelines are intended to complement the mandatory TD development regulations contained in this chapter by providing design solutions and interpretations of the mandatory regulations.

(Ord. MC-1393, 12-02-13)

- B. Applicability. The guidelines shall apply to all development within the TD districts. Any addition, remodeling, relocation, or construction requiring a building permit within the TD districts that is subject to review by the Development Review Committee shall adhere to these guidelines where applicable. Unless there is a compelling reason, these guidelines shall be followed. If a guideline is waived by the Development Review Committee, the Mayor and Common Council shall be notified. An appeal, which does not require a fee, may be filed by the Mayor and Common Council person within 15 days of the waiver approval.

[Return to section 19.19A]

- C. Interpretation. Compliance with a design guideline written as a —shouldll is discretionary. A design guideline written with an action verb (e.g., provide, use, locate, create, establish, employ) is highly recommended. Using these terms are important, but may be waived or modified by the Development Review Committee based upon an alternative deemed acceptable through the design review process.
- D. Architectural Typology. The design guidelines for architectural typologies contained in this section (i.e., Courtyard Housing, Row houses, Live/Work Units, Stacked Flats, Mixed Use, and Office) are not all inclusive. Other architectural typologies may also be appropriate for other permitted uses as listed in the Development Code.

G19.19A.110 District Image

The intent of this section is to establish a design framework for the development, enhancement, and preservation of San Bernardino Transit Overlay Districts, based upon traditional planning and urban design patterns, historical precedents, and sustainability principles that ultimately drive the physical form of each district.

The overarching community vision for Transit Overlay Districts originates from a desire to create compact pedestrian-oriented environments consistent with traditional transit oriented development principles which advocate:

- 1. Compact Transit Districts. Characterized by easy access to multi-modal transit systems, a wide variety of housing types and services, and job sites located very close at hand.
- 2. Connectivity. Characterized by a fine-grained and interconnected street network ensuring that all trips are as short as possible, disperse congestion, and are compatible with walking, biking, and transit.
- 3. Walkability. Characterized by commercial business, service establishments, employment, and transit facilities that are located within a five-minute walk.
- 4. Placemaking. Characterized by urban patterns, blockscapes, architecture, and landscaping that reinforces and complements the design heritage of the region.
- 5. Employment Accessibility. Characterized by good jobs located in higher-intensity —vertical campusesll located close to a variety of housing opportunities.

[Return to section 19.19A]

6. Diversity of Housing Types. Characterized by a fine grain of housing typologies, designed to complement a wide variety of income levels and associated lifestyles.

G19.19A.120 Transit Oriented Design

A **transit district** is a defined, higher-intensity, multimodal quarter designed to accommodate a variety of coordinated movement systems, including commuter rail, light rail, streetcar, BRT, bus, shuttle, pedestrian, and automobiles.

Transit oriented development is intended to maximize access to mass transit amenities with centrally located transit stations commonly surrounded by relatively high-intensity commercial, office, and residential development. In general, successful transit oriented districts are well-used and well-loved people places, enriched by a dynamic mix of land uses, defined street-adjacent architecture, and comfortable urban spaces. Transit oriented districts are highly permeable, composed of an extensive network of transit modes that physically and visually link to the greater community, encouraging enhanced connectivity that ultimately embraces transit ridership.

The essence of a sustainable transit district is found in an integrated system of commercial, residential, employment, and recreation uses coupled with a diversity of alternative circulation/transportation features that knit the district together in an integrated and holistic fashion. The goal is a low-carbon district with a sense of place, concentration of activities coupled with urban spaces, and efficient architecture where daily life can unfold.

- Create a density gradient, locating the highest intensity/density land uses closest to transit stations, transitioning outward to lower intensity/density uses.
- Locate pedestrian and transit-friendly commercial activities at the ground level, office and residential above where supported by the market. Use ground-floor storefront windows to enliven the street by providing visual interest that encourages people to walk and take transit.
- Provide civic amenities and urban open space uses within transit districts designed to serve transit users and residents.

[Return to section 19.19A]

- Develop a hierarchy of street designs that vary in modal emphasis, providing a balanced transportation system that accommodates transit, automobiles, bicyclists, and pedestrians.
- Intensify building masses at corners to accommodate pedestrian generating uses that enhance ridership

- Locate primary building entrances facing the public street, with clear connections to the adjacent sidewalk, ensuring pleasant and simple access for pedestrians.
- Provide a pedestrian-scaled street network composed of a dense grid of streets with short, direct connections between land uses and transit amenities. Provide connections to local and regional multiuse paths and trails that encourage longer walking and bicycle trips improving accessibility for transit users.
- Configure parking to be unobtrusive by orienting parking away from the pedestrian realm, behind buildings, in structures, or underground. Utilize on-street parking, where feasible, to reduce off-street parking requirements, providing parking opportunities to adjacent retail and service uses.
- Combine traditional ground-floor storefront commercial facilities at corner transit stop locations, enhancing "trip chaining"—performing one or more errands on the same trip.
- Promote an interconnected street network and the use of short blocks (two to five net acres) to increase vehicular and pedestrian route choice, thus enhancing connectivity, reducing trip length and vehicular greenhouse gas (GHG) emissions.
- Promote tight urban blocks that are not dominated by large surface parking areas, reducing convection losses and heat gains as adjacent buildings protect one another from the wind and sun.

[Return to section 19.19A]

- Use street trees to modify the climate in a passive way (absorbing rather than reflecting heat energy, leaving opposed to the use of tacked-on architectural "green-bling.")
- Create high-performance, energy-efficient buildings and infrastructure.

G19.19A.130 Site Planning and Architectural Design

- A. Site Planning. Site planning within the TD should promote traditional time honored building placements while accommodating pedestrian plazas, courtyards, and parking located internal to the site. The goal is to place buildings adjacent to the public streetscape in order to enhance the pedestrian experience by creating an enclosed and defined environment, while sensitively accommodating the automobile.

This traditional setting fosters a people-oriented environment in which the needs of everyday life are easily accessible. These guidelines are also intended to accommodate a wide variety of building typologies, in an effort to create a dynamic environment that promotes connectivity, walkability, commerce, jobs/housing balance, and transit ridership.

1. Residential Site Planning. The residential site planning guidelines address a wide range of architectural typologies designed to create a fine-grained district image. The intent is to sensitively orchestrate the location, placement, and orientation of various multifamily attached dwelling types consistent with the nature of transit oriented development districts.

What is envisioned is a small-scale "smattering" of traditional housing types—courtyard housing, row houses, stacked flats—seamlessly integrated into the fabric of the district. Ultimately, the goal is to disperse a wide variety of traditional multi-family attached dwelling types throughout the transit district, oriented toward the public realm, as opposed to internal oriented gated mega-complexes. By sensitively siting multifamily dwelling types, it is envisioned that higher-density dwellings will successfully blend into the TD, welcoming a variety of living arrangements and associated lifestyles.

[Return to section 19.19A]

2. Commercial and Office Site Planning. The commercial and office site planning guidelines are intended to promote time-honored building placements to concentrate live-work, mixed-use, and office structures to frame and enclose the public streetscape. Buildings are to be placed near to the public streetscape in order to create an enclosed and defined environment that promotes commerce, social interaction, and transit ridership.

The purpose is to create a fine-grained environment whereby modest live-work housing coexists with higher-intensity mixed use and office nodes and adjacent residential neighborhoods. This traditional setting fosters a people-oriented environment in which the needs of everyday life are easily accessible—an atmosphere that places automobiles behind buildings, concentrates activities, defines urban space, and promotes building placements that celebrate people

- B. Architectural Design and Image. The San Bernardino Transit Overlay District (TD) Zone’s architectural image is born out of a desire to create enduring and human-scaled expressions rooted in the traditional architectural heritage of the region.

This traditional architectural image typically fosters a people-oriented environment characterized by a variety of building designs that frame and define the public streetscape. All elements of architecture were traditionally constructed of highly durable materials, defined by a discernible base, middle, and top that add architectural rhythm to the streetscape. Composed of both modern interpretations and traditional architectural precedents, architecture should be defined by cultural influences, graced by indigenous materials, and constructed with the time-honored design principles of mass, scale, and rhythm. The following most common architectural typologies are defined for the TD: courtyard housing, row houses, stacked flats, live-work units, mixed-use, and office buildings. The guidelines do not preclude variations in these types of development or other residential and non-residential products to be built. Ultimately, the purpose is to avoid superficial —franchise stylell architecture in favor of a more traditional architectural image that embraces enjoyable life on the street.

[Return to section 19.19A]

1. **Courtyard Housing.** Courtyard housing is defined by multi-story building masses containing individual dwelling units that commonly enclose a centralized outdoor private courtyard space oftentimes containing formal gardens and decorative pavers.

Courtyard housing consists of: Two to four story building masses that frame and define the public streetscape. Building masses enclose internally oriented courtyard space. Building frontages orient toward the public streetscape and internal courtyard. Modest building insets accommodate front yard gardens and forecourts. Individual unit frontages should be accessed directly from the street and internal courtyard. Rear-oriented enclosed garages are accessed from a rear alley.

Traditionally within mild Mediterranean climates, such as Southern California, courtyard housing was employed to capitalize on the positive indoor/outdoor relationship characterized by multi-story building masses that frame and enclose positive garden space. The attraction of courtyard housing is its ability to function as a collection of individual units with private entries, yet having access to common space amenities.

[Return to section 19.19A]

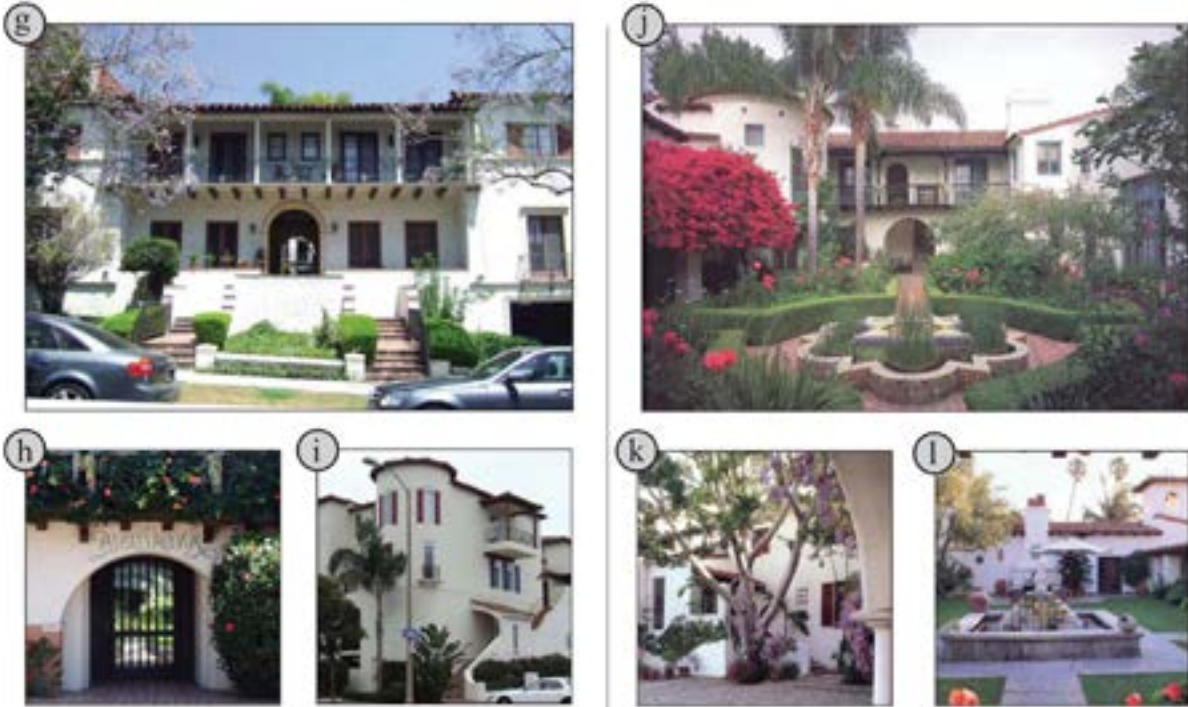

The design guidelines for courtyard housing include the following:

- a. Orchestrate multi-story courtyard housing building masses to frame and enclose semi-private open space in the form of internalized courtyards and patios (a, b, c, d, g, j, k, l).
- b. Provide individual unit entrances oriented toward semi-private interior courtyards (k, l) and semi-public street-oriented external forecourts (a, d).
- c. Craft traditional courtyard housing with a distinctive base (anchoring the dwelling to the ground plane); shaft (transitional element which provides window transparency), and capital (roof cap which terminates the top of the dwelling) (a, d, g, j).
- d. Avoid the use of continuous common exterior corridors. Instead, access upper-story dwelling units via attractive external staircases which are fully integrated into the fabric of the building (c, i).
- e. Provide simple changes in wall plane to reduce the apparent mass and scale of the dwelling, consistent with the architectural style of the home (a, g, i, j).

[Return to section 19.19A]

- f. Create building relief through the use of tower elements and building projections designed to enhance facade variety and visual interest (i).

- g. Define the public and private realms by providing a distinguishable and ornamented transitional portal (h).
- h. Support covered porches, upper-story loggias, and balconies with substantial columns, piers, and posts (b, d, e, f, g).
- i. Provide ample "punched" window and door recesses designed to express building mass. Minimum window and door recess should measure four inches deep (b).
- j. Provide traditional vertical orientated windows (a, b, g).
- k. Provide simple changes in wall plane to reduce the apparent mass and scale of the dwelling, consistent with the architectural style of the home (a, g, l, j).
- l. Provide protruding wing walls as a natural extension of the building, designed to enclose and define private outdoor patio spaces.
- m. Use arcades and colonnades as semi-private transitional elements designed to frame courtyard spaces (c).

[Return to section 19.19A]

- n. Provide upper-story projecting balconies supported by protruding dimensional timber corbels (d, e, g).
- o. Configure courtyards in a usable fashion, designed to accommodate outdoor entertaining, recreation, and leisure amenities (j, k, l).
- p. Orient on-site garages toward the rear of the site accessed from an alley. On-grade and tuck-under parking facilities should be provided, characterized by enclosed garages designed to accommodate residents.

2. **Row Houses.** A row house is a multi-story single-family dwelling that shares a common wall with adjacent units of the same type, occupying the full width of the frontage line, designed to frame and enclose the streetscape in a regimented fashion.

Row house design consists of:

- Two-to-three story building masses that frame and define the public streetscape.
- Front dooryards accommodate raised stoops or garden. Individual units are directly accessible by pedestrians from the public street.
- Outdoor terrace space sometimes occurs between the street-facing dwelling and rear garage.
- Rear-oriented enclosed garages are accessed from a rear alley.

This traditional tall and slender attached building typology exhibits all the trappings of the classic urban oriented dwelling form, commonly defined by multi-story building masses with raised stoops, projecting window bays, and defined entrance features that greet the public realm. Row houses typically form regimented street walls that promote streetscape continuity, framing and enclosing the public streetscape.

[Return to section 19.19A]

The design guidelines include the following:

- a. Provide two-to-three story building masses designed to frame and define the public streetscape (a, d, g, j).
- b. Create consistent row house unit bay rhythms designed to form a consistent and disciplined street wall (a, d, g, j).
- c. Anchor row house corners with higher intensity tower features (a, b).
- d. Craft traditional row houses with a distinctive base (anchoring the dwelling to the ground plane), shaft (transitional element that provides window transparency), and capital (roof cap that terminates the top of the dwelling) (c, j).

[Return to section 19.19A]

- e. Shelter residents by providing ample entrance indentations (e, i). Row house building entrances should be designed with a minimum square footage of 20 square feet and minimum depth of 4 feet
- f. Define individual unit entrances oriented toward the public street (e, i).
- g. Enhance interior viewing opportunities with bay window projections to optimize viewing angle (a, b, c, g, h, j).

- h. Provide traditional windows that are vertical in orientation (a, b, c, f, g, h, j).
- i. Recess window and door openings into the row house facades to express the mass of the building (j).
- j. Elevate row house units to ensure resident privacy while enhancing surveillance of the public streetscape (a, g, i, j, k).
- k. Avoid locating entrances directly on-grade. Instead, entries should be elevated 24 inches, minimum (a, g, i, j, k).

[Return to section 19.19A]

- l. Integrate exterior staircases and stoops into the fabric of the building (i). Design exterior staircases and stoops, including balusters, handrails, and treads, using similar materials as the row house dwelling. Prefabricated metal staircases shall not be permitted.
- m. Provide private outdoor open space in the form of stoops (i), balconies (f, l), and dooryard gardens (k). Private open space should be a minimum of 200 square feet
- n. Orient on-site parking garages toward the rear of the site accessed from an alley.

3. **Stacked Flats.** A flat is a self-contained housing unit that occupies only part of a building. In a stacked-flat building, several units, above and beside each other share a common entry and are accessed through common, semiprivate spaces.

The design of stacked flats consists of:

- Three to four-story building masses that frame and define the public streetscape.
- Modest setback may accommodate front patio space.
- Buildings are accessed from a common street-adjacent entrance portal.
- Individual units are directly accessed from interior double-loaded hallways.
- Internally oriented underground or podium parking is accessed from limited street portals.
- Internally oriented courtyards are located above parking areas.

[Return to section 19.19A]

In addition to their classic scale and eye-catching proportions, the beauty of stacked-flat structures is their ability to frame and enclose broad boulevards and avenues, creating a pedestrian-friendly environment. It is this traditional relationship of the public street to the private building that is critically important in establishing a sheltering and safe pedestrian setting that enhances social interaction and commerce.

The design guidelines for stacked flats include the following:

- a. Create traditional, formal, proportional, and rhythmic multilevel building masses to unify the public blockscape (a, d, g, j).
- b. Provide traditional, formal building masses designed to frame and enclose the public streetscape (a, d, g, j).

[Return to section 19.19A]

- c. Celebrate the street corner by increasing or articulating building mass, using tower elements as "gatepost" architectural features (b).
- d. Distinguish buildings with a discernible base (c) and cap (a, d, e, f,) that to define the top and bottom of the structure. Use continuous building elements, such as roof eaves (a, d, e, g), cornice elements (f, h), window bands (b, d, f, g, h), and masonry foundation bases (c) to assure building unity and blockscape continuity.
- e. Rest the building on a wide discernible foundation base to anchor the building to the ground plane (c).
- f. Create visual rhythms with building masses that divide facades into individual repetitive components. Segment buildings into individual elements using the following techniques:
 - Vertical tower masses (b, e)
 - Horizontal repeating spandrels
 - Consistent repetitive roof forms (a, d, e)

[Return to section 19.19A]

- g. Distinguish individual floors using the following techniques:
 - Projecting horizontal cornice elements (f)
 - Decorative masonry belt courses (f)
 - Change in material pattern between floors (f)
- h. Define individual units with subtle facade articulations. Use repetitive elements such as structural bays (j), recessed loggias (g, j, l), and projecting balconies (k) to distinguish individual units.
- i. Provide distinguishable recessed building entrances, oriented toward the public street, as common building access points to internal-oriented lobbies and vertical circulation elements (i).
- j. Generally center windows on the building mass, and align both horizontally and vertically (a, b, d, e, f, g, h).
- k. Express building mass by recessing window openings in building facades a minimum of four inches (a, b, d, f, g, h).
- l. Provide windows that are vertical in orientation (a, b, c, d, e, f, g, h, k).
- m. Integrate projecting balconies (k) and recessed loggias (g, l) seamlessly with the design of the building. Projecting balconies should be minimum five feet deep and recessed loggias should be a minimum of 60 square feet.

4. **Live-Work Units.** A live-work building is designed to accommodate both commercial and residential uses within a single unit, commonly with retail and office uses on the first floor and upper floors dedicated to residential use.

Live-work units consist of:

Two to three-story building masses that frame and define the public streetscape.

Building frontages orient toward the public streetscape.

[Return to section 19.19A]

Sidewalk-adjacent building masses accommodate ground-floor businesses.

Ground floor businesses are accessed directly from the public street.

Private residences are accessed from internal lock-outs or separate street-oriented entrances.

Rear-oriented enclosed garages are accessed from a rear alley.

Traditionally, live-work establishments were occupied by merchants or employees who lived directly above their place of business, enabling entrepreneurs to establish business in an economical fashion. With the economic realities of today, this lifestyle concept is again gaining acceptance as a small business approach designed to provide goods and services while promoting enhanced housing diversity.

[\[Return to section 19.19A\]](#)

The design guidelines include the following:

- a. Provide multistory live-work building masses designed to frame and define the public realm (a, d, g, j).
- b. Provide dual-unit entrance designed to accommodate both residents and merchants. Provide direct storefront workspace access oriented toward the public streetscape. Provide secondary upper-story access designed to accommodate residents (i).
- c. Design ground-floor live-work storefronts using traditional storefront heights to allow natural light to penetrate street-oriented display windows, illuminating storefront interiors (c, e, f).
- d. Express the underlying structure of the building. Use a sequence of storefront structural bays designed to convey how the building stands up (c, e, f).
- e. Provide a series of storefront structural bays, composed of repetitive vertical columns/piers and horizontal spandrels designed to create a consistent facade rhythm (c, e, f).

[Return to section 19.19A]

- f. Distinguish higher-intensity building corners with tower elements designed to resolve two converging street walls (h).
- g. Provide upper-story private resident outdoor open space in the form of decks (i) and balconies (k). Private open space should be a minimum of 100 square feet. Balconies should be a minimum 5 feet in depth.
- h. Recess doors and windows into masonry and exterior plaster walls to express building mass. Minimum door and window recess should measure four inches (k).
- i. Accommodate vehicles parking onsite by providing rear-oriented enclosed garages (l).
- j. Live/work configurations include: Live above work
Live within work
Live behind work (attached)
Live behind work (detached)

[Return to section 19.19A]

5. **Mixed-Use.** Mixed use is defined by higher-intensity developments that include two or more physically integrated uses on one site or within one structure, including combinations of retail, office, institutional, residential, or other land uses.

Mixed-use buildings consist of: Three- to four-story building masses frame and define the public streetscape. Building frontages orient toward the public streetscape. Sidewalk-adjacent building masses accommodate ground-floor businesses. Ground-floor businesses are accessed directly from the public street. Offices and private residences are accessed from internal lobbies and hallways. Internally oriented underground, podium, or parking court are accessed from limited street portals.

Traditionally, mixed-use districts are designed as pedestrian-friendly environments characterized by a variety of building typologies designed to frame, enclose, and embrace the public realm. Because commercial, residential, and employment land uses are placed in such close proximity, the needs of everyday life are easily accessible, while enhancing alternative transportation modes such as walking and transit ridership.

[Return to section 19.19A]

Design guidelines for mixed-use buildings include the following:

- a. Create traditional street walls composed of a storefront base, upper-story facade, and roof cap designed to frame and enclose the streetscape, creating a pedestrian-friendly "Main Street" atmosphere (a, d, g, j).
- b. Differentiate individual building masses along the street wall with slight indentations to enhance blockscape variety and visual interest (a, d, g).
- c. Use similar structural bay and window rhythms to promote blockscape continuity (j).
- d. Express the underlying structure of the building. Use a sequence of structural bays designed to convey how the building stands up (a, d, g, j).
- e. Provide tower elements to accentuate and highlight building corners, emphasizing higher intensity land uses (a, d, b).

[Return to section 19.19A]

- f. Use tower elements at corners as a transitional element that resolves two converging street walls (a, b, d, j).
- g. Create visual rhythms with structural bays that divide buildings into individual repetitive components (e).
- h. Provide a series of structural bays, composed of repetitive vertical columns/piers and horizontal spandrels/arches designed to create a consistent facade rhythm (f, h).
- i. Create visually distinct and substantial three-dimensional columns (i) and piers (h).
- j. Promote human scale by creating a series of proportional structural bays that segment the building into individual components. Structural bay width typically ranges between 24–30 feet (h).
- k. Use traditional storefront heights to allow natural light to highlight display windows, illuminating storefront interiors (e, f, h, l).
- l. Design storefronts that are balanced, with symmetrical proportions defined by structural bays, and characterized by storefront display windows, transom windows, recessed doorways, bulkheads, sign bands, and awnings/canopies (e, f, h, l).

[Return to section 19.19A]

- m. Create substantial covered arcades capable of accommodating pedestrian movements while sheltering patrons from the elements (i).
- n. Provide substantial three-dimensional arches designed to express the mass of the building (e, f, i, l).
- o. Use columns to continue the plane of upper-story facades (i).
- p. Design awnings to complement the structural framework of the building. Awnings should express the shape and proportion of structural bays and window openings (l).
- q. Locate transom windows above storefront display windows to increase interior daylighting (e, f, k).

6. **Office.** An office building is a place available for the transaction of general business, administration, and research and development functions typically not involving labor, manufacturing, fabrication or retail sales. Office buildings should generally be characterized by: Three- to four-story building masses that frame and define the public streetscape. Building frontages are oriented toward the public,

streetscape sometimes accommodating covered arcades and colonnades. Buildings are accessed from a street-adjacent common entrance portal. Individual office units are accessed from internal lobbies and hallways. Internally oriented courtyards are located above underground or podium parking. Internally oriented underground, podium, or parking courts are accessed from limited street portals.

Within traditional urban settings, office buildings become an integral element within the district mosaic, integrating seamlessly with other uses to form a rich and diverse mixture. Traditionally, office buildings and primarily building entrances, are located contiguous to the street, designed to frame and enclose the public realm while accommodating parking within internal-oriented courtyards or parking structures.

[Return to section 19.19A]

Design guidelines for office buildings include the following:

- a. Create building masses reflecting a distinguishable base, shaft, and capital (a, b, c, d, g, j).
- b. Rest the building on a distinguishable ground floor base or pedestal designed to anchor the building to the ground plane (g).
- c. Provide ground floor arcades and recessed entries that shelter pedestrians from the elements (f, k).
- d. Create a definable building shaft, designed as a transitional facade element which links the building base and capital (h, i).

[Return to section 19.19A]

- e. Crown the building with a discernible building capital, designed to terminate the top of the structure (a, d, g, j).
- f. Distinguish building corners by providing tower elements as landmark structures, designed to resolve two converging street walls (b).
- g. Create structural bays that visibly display the underlying structure of the building (e, f, h).
- h. Segment buildings into repetitive scale-giving elements composed of columns/piers and spandrels/arches (e, f, h, i).
- i. Create distinct and recognizable horizontal floor divisions. Use such techniques as horizontal window bands, continuous cornice elements, masonry belt courses, and repetitive window lintels designed to distinguish individual floors (a, c, d, e, g, h, i, j).

- j. Create visual rhythms with structural elements that divide facades into individual repetitive components. Building structures should be segmented into simple symmetrical components based upon the following facade rhythm standards:

Vertically repeating columns and piers (e, f, h, i). Horizontally repeating spandrels (h, j). Vertically-oriented windows repeated in horizontal bands recessed a minimum of four inches from the solid wall plane designed to express building mass (e, g, h, i, j).

[Return to section 19.19A]

- k. Segment horizontal window openings with mullions into a series of vertical oriented windows (e, h).
 - l. Provide traditional windows divided by muntins into a series of individual window panes (h).
 - m. Define window opening with lintels, masonry belt courses, sills, and awnings (l).
 - n. Use traditional, small, and durable human-scaled masonry building materials (c, d, j).
 - o. Provide a definable and prominent building entrance designed to signal egress (k).
7. **Building Materials.** Traditional indigenous building materials promote community identity by promoting an identifiable architectural vision, firmly rooted in the vernacular of the region. Traditionally, building materials such as brick and stone masonry are measured in human-scaled units. Because these materials are so commonplace, literally the building blocks of a civilized society, they are easily discernible and readily understood. Traditional building materials help us understand and scale larger buildings, ultimately connecting us to the built environment.

[Return to section 19.19A]

- a. Use durable and refined wall materials to project a traditional architectural image (a).
- b. Design buildings that use heavy, visually solid foundation materials (b, e) that transition upward to lighter wall cladding and roof materials.
- c. Use durable and substantial foundation materials such as rusticated stone (b), polished granite, and sandblasted concrete (c).
- d. Provide human-scaled wall materials that are familiar in their dimensions and can be repeated in understandable units (b, c).
- e. Provide wall materials such as brick and stone masonry that help people interpret the size of a building (b, e).
- f. Use traditional brick masonry dimensions (b, e).
- g. Use real, smooth, three-coat exterior plaster applications (a, c). Exterior plaster finishes should appear hand troweled, with slight surface variations (a, c).

- h. Provide exterior plaster finishes that are not overly exaggerated or irregular such as Spanish Lace.
- i. Use metal cladding (such as corrugated metal) with discretion, primarily for architectural accents and structural members (f, g, j).

[Return to section 19.19A]

- j. Use traditional gloss-glazed transparent tile with deep, rich colors for architectural accents.
- k. Avoid large featureless wall surfaces, such as metal screens, unrelieved stucco facades, and all-metal spandrel panels.
- l. Provide material changes at a change in wall plane on an inside corner (f).
- m. Use durable metal roof materials that enhance the longevity of buildings, including copper, Corten steel, standing seam (i), and —VII seam.
- n. Provide traditional straight-barrel mission tile roofs composed of clay or concrete if tile is to be used (h).
- o. Use rubber membrane materials for flat roofs only.
- p. Define flat roofs with a substantial parapet wall capped with ornamental coping designed to screen vents and mechanical equipment (k).
- q. Support roof eaves and rake overhangs with substantial dimensional timber beams, rafter tails, brackets, and corbels (l).
- r. Avoid nondurable roofing materials such as wood shingles (real or cementitious) and composition roofing.

[Return to section 19.19A]

G19.19A.140 Parking Design

On-street parking lanes, parking structures, and rear parking courtyards are dedicated to the temporary storage of vehicles. The intent is to reduce the physical and visual impact of vehicles, fostering a pedestrian atmosphere.

Traditionally, parking garages were beautifully ornamented structures seamlessly integrated into the fabric of the business district, having their own special typology designed to harmonize with their surroundings. Today, new innovative solutions have been developed to soften the impact of vehicular storage, including screening garages with commercial storefronts, underground parking, and internal parking courts.

- A. Locate parking structures internal to the site and screened from public view. Use street-oriented building masses and commercial storefronts to screen parking structures from the streetscape (a, b, c, d, e, f).
- B. Provide ample parking structure identification signage designed to distinguish and highlight public parking garages (b, c).
- C. Design the facade of parking structures to mimic a traditional building composed of window openings and accretions intended to project a consistent streetscape image (c, e).
- D. Use continuous horizontal elements, such as projecting cornice elements, window bands, and brick courses consistent with adjacent building facades (c).

[Return to section 19.19A]

- E. Align parking structure facade walls with adjacent buildings to create a continuous street wall (e).
- F. Promote on-street parking opportunities to slow traffic in district cores. Motorists must be alert and aware to navigate the traditional intimate streetscape (g, h, i).
- G. Provide on-street parallel parking lanes designed to promote a traditional "Main Street" image and physical buffer. Parallel parking lanes are symbolic of traditional downtowns and provide a physical and psychological buffer between the street and pedestrian sidewalk (g).
- H. Provide on-street parallel parking lanes to accommodate short term convenience parking (g, h, i).
- I. Provide diagonal parking stalls to encourage short-term convenience parking opportunities, enhancing commerce (i).
- J. Eliminate pedestrian/vehicular conflicts. Curb cuts should not occur along storefront street walls. Curb cuts should only occur on side-alley-loaded blocks, providing alley access to internally oriented parking courts and service areas.
- K. Locate long-term on-site parking behind buildings, screened from public view (j, k).
- L. Design onsite parking areas as dual-usage courtyards to accommodate vehicles as well as pedestrians. Provide amenities such as raised fountain pedestals, tree bosques, and textured pavement treatments designed to accommodate pedestrians (l).

[Return to section 19.19A]

- M. Segment large parking areas into a series of small parking courts enclosed by buildings and framed by canopy trees designed to minimize the scale of the total parking area (j, k, l).
- N. Create internalized parking courts designed to accommodate long-term parking opportunities. Design parking courts as dual-usage plazas intended to accommodate both vehicular and pedestrian activities.
- O. Surface parking lots adjacent to public streets should incorporate a minimum 4 feet deep landscape buffer with trees and other plant material. Where a landscape buffer is not feasible, a screen wall with decorative detailing and/or landscaping should be provided. Screen walls should be visually permeable and provide openings for pedestrian access.

G19.19A.150 Landscape Design

- A. **Landscape Image.** The San Bernardino Transit Overlay District (TD) Zone's landscape pattern is intended to project a formal impression designed to reinforce the transit village image, rooted in the landscape heritage of the region. This formal landscape pattern justifies itself through the use of consistent street tree plantings which form tree-lined rows that frame and define the streetscape while shading and sheltering pedestrians from the elements. Public urban open spaces, such as plazas and courtyards, formal tree plantings create a framework outlining these public oriented amenities. Within TDs, the landscape image is designed to reinforce a pedestrian dominated environment that celebrates human culture rather than the automobile to create a sense of place while reinforcing the higher intensity nature of these transit nodes as commercial, residential and employment hubs of the community.
- B. **Landscape.** Landscape design is intended to improve or ornament the physical environment through the use of such elements as plant materials, water features, and land forms, designed to modify the physical setting for aesthetic purposes.
- C. Street trees are an important asset to the streetscape, due to their functional ability to modify the micro climate by providing summer shade, winter transparency (solar gain), while purifying the air. From a design standpoint, trees can positively frame and enclose the streetscape, creating an enhanced pedestrian environment that defines the public realm; while formal orchard-style tree grids soften parking fields.

[Return to section 19.19A]

- D. Provide a consistent streetscape image through the use of formal canopy-style street tree plantings that provide summer shade and winter transparency (a, d).
- E. Plant formal rows of street trees designed to frame and enclose the streetscape (a, d).
- F. Provide raised planters adjacent to light rail transit lines designed as a physical shield to guard pedestrians (b).
- G. Use raised planters contiguous to higher capacity arterials, buffering pedestrians from vehicles (c).
- H. Provide individual groupings of plant containers (b) or raised planters along sidewalks with colorful flowering annuals and perennials (e, f).
- I. Use tree grates and guards to protect street tree root systems, reducing soil compaction.
- J. Design landscape buffers adjacent to rear building elevations to soften building architecture while providing a landscaped transition between the rear parking area and building.
- K. Use trees in grids designed to mimic orchard-style plants designed to provide a shady grove designed to shelter vehicles and motorists from elements (g, h).

[Return to section 19.19A]

- L. Use tall columnar trees to frame and enclose parking fields creating a solid backdrop that protects interior canopy-style orchard trees.
- M. Use tall columnar trees to segment large parking fields into a series of "outdoor rooms" breaking-up large expanses of pavement.
- N. Use medians and islands to segment large parking fields creating variety and visual interest while mimicking traditional orchard grids (h).
- O. Provide landscape amenities including raised fountain pedestals, tree bosques, and enhanced paving designed to screen vehicles from public view (f, g).
- P. Provide decorative and ornamental low parking field walls to screen vehicles from public view (k, l).
- Q. Build seating into low screen walls designed to accommodate waiting transit riders (k).
- R. Use native and drought tolerant plant materials to promote an indigenous landscape image.
- S. Segment landscape areas into individual hydro zones designed to conserve water by grouping similar plant materials with like water requirements.

[Return to section 19.19A]

ARTICLE III - GENERAL REGULATIONS

CHAPTER 19.20 PROPERTY DEVELOPMENT STANDARDS

Sections:

- 19.20.010 Purpose
- 19.20.020 Applicability
- 19.20.030 General Standards

Tables:

- 20.01 Fences and Walls Height and Type Limits

19.20.010 Purpose

These standards shall ensure that new or modified uses and development will produce an urban environment of stable, desirable character which is harmonious with the existing and future development, consistent with the General Plan.

19.20.020 Applicability

Any permit which authorizes new construction or modifications to an existing structure in excess of 25% of the structure floor area shall be subject to the standards set forth in this Chapter.

19.20.030 General Standards

No permit shall be approved unless it conforms to all of the following standards set forth in this Chapter:

1. Access
2. Additional Height Restrictions
3. Antennae, Satellite Dishes and Telecommunications Facilities
4. Design Considerations
5. Dust and Dirt
6. Environmental Resources/Constraints
7. Exterior Building/Structure Walls

[\[Return to Municipal Code Contents\]](#)

8. Fences and Walls
9. Fire Protection
10. Fumes, Vapor, Gases
11. Glare
12. Hazardous Materials
13. Height Determination (Buildings and Structures)
14. Lighting
15. Noise
16. Odor
17. Projections into Setbacks
18. Public Street Improvements
19. Radioactivity or Electric Disturbance
20. Refuse Storage/Disposal
21. Screening
22. Signs, Off-Street Parking, Off-Street Loading and Landscaping
23. Solar Energy Design Standards
24. Storage
25. Toxic Substances and Wastes
26. Traffic Safety Sight Area
- 27.. Transportation Control Measures (TCM)
28. Undergrounding of Utilities
29. Vibration

(Ord. MC-1531, 6-03-20; Ord. MC-1056, 9-09-99; Ord. MC-890, 12-22-93)

These standards apply to more than one zone, and therefore, are combined in this Chapter. Also, these standards are to be considered in conjunction with those standards and design guidelines located in the specific land use district chapters.

1. ACCESS

Every structure or use shall have frontage upon a public street or permanent means of access to a public street by way of a public or private easement, or recorded reciprocal access agreement.

2. ADDITIONAL HEIGHT RESTRICTIONS

Where the maximum permitted height of a new structure exceeds 35 feet, the following provisions shall apply:

- A. Enhanced buffering to surround properties and the appropriateness of understructure parking shall be evaluated.
- B. A visual analysis relating structure proportions, massing, height and setback shall be conducted to preserve and enhance the scenic viewshed.
- C. The need and appropriateness of the additional height shall be demonstrated.
- D. Compatibility and harmony with surrounding development, and land use designations shall be demonstrated.
- E. Above 35 feet, additional structural setbacks (step back) may be required.

3. ANTENNAS, SATELLITE DISHES AND TELECOMMUNICATIONS FACILITIES

All antennas, telecommunications facilities, (monopoles) and satellite dishes shall be installed in the following manner, subject to the appropriate entitlement:

(Ord. MC-1237, 1-11-07; Ord. MC-1090, 11-20-00)

A. EXEMPTIONS

The following installations in residential districts are exempt from the provisions of this section:

- 1. The installation of one (1) ground mounted satellite dish antenna in the rear yard which is less than 10.5 feet in diameter and less than 12 feet in height;

2. One (1) satellite dish antenna which is less than 24 inches in diameter may be installed on a building provided that such antenna does not extend above the eaveline of said building;
3. Residential single-pole or tower roof or ground mounted television, or amateur radio antennas where the boom of any active element of the array is 30 feet or less and the height does not exceed 75 feet.

The following installations in all areas of the City are exempt from the provisions of this section:

1. Wireless facilities in public rights-of-way, which are defined in and regulated by Chapter 12.05

(Ord. MC-1650, 6-16-21)

B. DIRECTOR REVIEW

The following shall be reviewed by the Director, subject to a Development Permit:

1. Antennas up to a maximum of 15 feet in height that are mounted on a building or rooftop and that are screened from view from all adjacent public rights-of-way.
2. Antennas that are architecturally integrated with a building or structure so as not to be recognized as an antenna, such as clock towers, carillon towers and signs.
3. Antennas mounted on other existing structures including, but not limited to, water tanks, pump stations, utility poles, ball field lighting where antenna height does not exceed structure height.
4. Co-location of existing equipment on an existing City-approved support structure.
5. Modification of existing telecommunications facilities where the physical area of the reconfigured or altered antenna shall not exceed 15 percent of the original approval:
 - a. Three (3) or more additional whip antenna (15 feet maximum height);
 - b. The reconfiguration or alteration of existing antenna on a single support structure;

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- c. Additional dishes up to 4 feet in diameter;
 - d. Increased height of an existing antenna up to 75 feet.
6. Stand-alone monopoles camouflaged as palm trees, pine trees or other natural objects, within a grouping of similar natural objects.

C. PLANNING COMMISSION REVIEW

The following shall be reviewed by the Planning Commission, subject to a Conditional Use Permit:

- 1. Increased height of an existing, approved antenna that exceeds 75 feet in height.
- 2. New stand-alone monopoles that exceed 75 feet in height.
- 3. New ground mounted, uncamouflaged monopoles up to 75 feet in height.
- 4. All other wireless communication facilities, including lattice towers.
- 5. Placement of an antenna on any building not screened from public view.
- 6. On residentially designated property that is developed with a legal non-residential use (e.g., school, church, etc.).
- 7. Placement of a monopole or antenna (except as provided above) located within 75 feet from a property designated residential, or within 75 feet from an existing residence.

(Ord. MC-1237, 1-08-07)

D. DEVELOPMENT AND DESIGN STANDARDS

- 1. The antenna, support structure and associated equipment shall not be located within any residential land use district except as provided by Section 19.20.030(3)(A) and 19.20.030(3)(C)(6).
- 2. A maximum of one (1) satellite dish antenna shall be permitted per lot except retail locations selling and displaying satellite dish antennas and/or televisions may have more than one (1) such antenna.
- 3. No part of any satellite dish antenna shall be located within a required front yard, side yard, or on the street side of a corner lot.

[Return to Municipal Code Contents]

4. No part of any satellite dish antenna shall be located within three (3) feet of any property line.
5. No part of any monopole shall be located within ten (10) feet of any property line.

(Ord. MC-1237, 1-08-07)

6. Associated equipment shall be located within a completely enclosed structure or otherwise screened from view. Equipment shelter buildings shall be architecturally compatible with existing buildings on the site, as well as the surrounding properties, and shall be subject to the architectural Design Guidelines of the Development Code. Design features include, but are not limited to, split-face concrete block, slump stone, faux roof with pitch, etc.

(Ord. MC-1237, 1-08-07)

7. Fencing shall be wrought iron or similar decorative material and shall be consistent with the provisions of Section 19.20.030(8). Prohibited fencing includes chain link, razor wire and barbed wire.

(Ord. MC-1237, 1-08-07)

8. The antennae shall be sited to assure compatibility with surrounding development and not adversely impact the neighborhood.

9. Antennas and support equipment shall be sited to minimize views from the public rights-of-way. Landscaping may be required to screen the tower, equipment buildings or support structures from view.

(Ord. MC-1237, 1-08-07)

10. If an antenna is attached or integrated into a building, it shall be painted to match the color of the building and/or covered with similar materials, subject to approval of the Director.

11. If not camouflaged, antenna and monopoles shall be a single, non-glossy color (e.g., off-white, cream, beige, green, black, or gray).

12. Antenna structures shall conform to Federal Aviation Administration regulation AC70/7460 latest edition. This may include beacons, sidelights and/or strobes.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

13. The operation of the antennae shall not cause interference with any electrical equipment in the surrounding neighborhoods (e.g., television, radio, telephone, computer, inclusive of the City's trunked 800MHz public safety radio system, etc.) unless exempted by Federal regulation.
14. A support structure may be required to be adequately designed for a co-location on another company's equipment, of no more than two companies. If co-location is proposed, the application shall be reviewed by the Director, subject to a Development Permit.
15. Camouflaged monopoles shall have heavy-density branch coverage per the manufacturer's specifications (e.g., a minimum of 60 palm fronds or a minimum of 100 pine branches). Antennae shall be painted to match the structure or camouflaged with an approved concealment. A minimum of one-half of the length of the monopole shall be covered with a simulated bark cladding.

(Ord. MC-1237, 1-08-07)

4. DESIGN CONSIDERATIONS

The following standards are in addition to the specific design guidelines contained in the individual zones:

- A. The proposed development shall be of a quality and character which is consistent with the community design goals and policies including but not limited to scale, height, bulk, materials, cohesiveness, colors, roof pitch, roof eaves and the preservation of privacy.
- B. The design shall improve community appearance by avoiding excessive variety and monotonous repetition.
- C. Proposed signage and landscaping shall be an integral architectural feature which does not overwhelm or dominate the structure or property.
- D. Lighting shall be stationary and deflected away from all adjacent properties and public streets and rights-of-way.
- E. Mechanical equipment, storage, trash areas, and utilities shall be architecturally screened from public view.
- F. With the intent of protecting sensitive land uses, the proposed design shall promote a harmonious and compatible transition in terms of scale and character between areas of different land uses.

[Return to Municipal Code Contents]

- G. Parking structures shall be architecturally compatible with the primary and surrounding structures.
- H. Nearly vertical roofs (A-frames) and piecemeal mansard roofs (used on a portion of the structure perimeter only) are prohibited. Mansard roofs, if utilized on commercial structures, shall wrap around the entire structure perimeter.

5. DUST AND DIRT

In addition to the provisions of Section 19.30.040 (Grading), all land use activities (e.g. construction, grading, and agriculture) shall be conducted so as not to create any measurable amount of dust or dirt emission beyond any boundary line of the parcel. To ensure a dust free environment, appropriate grading procedures shall include, but are not limited to, the following:

- A. Schedule all grading activities to ensure that repeated grading will not be required, and that implementation of the desired land use (e.g. planting, paving or construction) will occur as soon as possible after grading.
- B. Disturb as little native vegetation as possible.
- C. Water graded areas as often as necessary to prevent blowing dust or dirt, hydroseeding with temporary irrigation, adding a dust palliative, and/or building wind fences.
- D. Revegetate graded areas as soon as possible.
- E. Construct appropriate walls or fences to contain the dust and dirt within the parcel subject to the approval of the City Engineer.

6. ENVIRONMENTAL RESOURCES/CONSTRAINTS

All development proposals shall be evaluated in compliance with the California Environmental Quality Act (CEQA) and all General Plan environmental policies including, but not limited to, biological resource management areas, riparian corridors; rare, threatened and/or endangered species; air quality; mineral resources; archaeological resources; high wind areas; and, geologic hazards. Development within 50 feet of a riparian corridor may be prohibited or restricted, and structures within 50 feet of an active or potentially active fault shall be prohibited. Development within these areas shall be subject to the submittal of appropriate report(s) prepared by qualified professionals which address the impacts of the proposed project; the identification of mitigation measures necessary to eliminate the significant adverse impacts; and, the provision of a program for monitoring, evaluating the effectiveness of, and insuring the adequacy of the specified mitigation measures.

[Return to Municipal Code Contents]

7. EXTERIOR BUILDING/STRUCTURE WALLS

The following standards shall apply to all exterior building/structure wall construction:

- A. Since walls will always be a main architectural and visual feature in any major development, restraint must be exercised in the number of permissible finish materials. The harmony of materials and particularly color treatment is essential to achieve unity in the project.
- B. The following designs are deemed unacceptable in any development and therefore shall be prohibited:
 - 1. Nonanodized and unpainted aluminum finished window frames.
 - 2. Metal grills and facades. However, grills and facades of unique design and in keeping with the general decor of the development and neighborhood may be permitted subject to prior approval by the Director.
 - 3. Aluminum or other metal panels are not permitted on the street elevation, unless it can be demonstrated that they are consistent with a structure's overall design character, and do not adversely effect the pedestrian environment.

8. FENCES AND WALLS

The following standards shall apply to the installation of all fences and walls:

A. HEIGHT AND TYPE LIMITS

Fences and walls shall conform to the limitations outlined in *Table 20.01*.

(Ord. MC-1056, 9-09-99)

B. PROHIBITED FENCE MATERIALS/CHAIN LINK FENCING

- 1. The use of barbed wire, razor wire, or concertina wire fencing in conjunction with any other fence, wall, roof, or by itself within any land use district, is prohibited except as shown in Table 20.01, or unless required by any law or regulation of the City, the State of California, Federal Government, or agency thereof.

(Ord. MC-1531, 6-03-20; Ord. MC-1056, 9-09-99)

**TABLE 20.01
FENCES AND WALLS
HEIGHT AND TYPE LIMITS**

Zones	Maximum Permitted Height ¹	
1. Residential		
Front yard or side of street yard (not including the rear yard) ^{2&3}	3'	Solid Structures
	4'	Open work structures (must permit the passage of a minimum of 90% of light)
Other yard area	6'	
Outside of required yard area	8'	
Abutting a non-residential district	6'	Solid, decorative masonry wall
2. Commercial, Industrial and Institutional		
Front yard or side of street yard	2' 6"	Solid structures
	6'	Open work structures
Abutting residential zone	8'	Solid, decorative masonry wall
Other yard area	8'	
Outdoor storage areas visible from public rights-of-way (located behind required yards)	10'	Commercial
	16'	Industrial

¹The limitations shall not apply in the following instances:

- Where a greater height is required by any other provision of the Municipal Code;
- or
- Where a greater height or type of fence or wall is required by a condition of approval.

²Rear yard defined for the purposes of this section shall be from the rear property line to the rear plane(s) of the structure.

Ord. MC-888, 12-07-93

³Except for school uses (including pre-schools) which were legally established prior to November 1, 2004, which may have a 6' decorative security fence (wrought iron) in the front yard area and street-side side yard areas.

Ord. MC-1212, 8-17-05

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

Zones	Maximum Permitted Height ¹
Electric fences (located behind a primary fence)	
Within a setback area	10' Commercial/Industrial
Outside the setback area	16' Industrial
3. <u>All Zones-Traffic Safety Site Area</u>	2' 6"
4. <u>Public Right-of-Way</u>	8'
5. <u>Hillside Management Overlay - Retaining Walls</u>	
Uphill slope	8'
Down slope	3' 6"
Lots sloping with the street	3' 6"
Adjacent to driveways	8'
Facings streets	5' Constructed with natural, indigenous materials
6. <u>Foothill Fire Zone Overlay - Fences and Walls</u>	Constructed with non-combustible materials only

¹The limitations shall not apply in the following instances:

- Where a greater height is required by any other provision of the Municipal Code;
- or
- Where a greater height or type of fence or wall is required by a condition of approval.

B. PROHIBITED FENCE MATERIALS/CHAIN LINK FENCING - cont'd)

1. Six-foot high chain link fencing is permitted at all property lines for vacant commercial/industrial lots or buildings. The chain link fence shall be removed from the front yard and any other location adjacent to a public street by the owner/applicant at the time of development or occupancy.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

2. Chain link fencing with neutral colored slats may be used for outdoor storage areas located in the CH, IL, IH, and IE zones within required yards, if the fence would not be adjacent to a public street. Landscaped planting of sufficient density and height may be used to screen the fence from public view. Additionally, chain link fencing may be used with tennis courts, private and commercial, temporarily at construction sites, and where it is required by any law or regulation of the City, the State of California, Federal Government, or agency thereof.
3. The above limitations shall not apply where the prohibited fence material is required as a condition of approval.

(Ord. MC-1384, 1-16-13; Ord. MC-889, 12-07-93)

C. WALL DESIGN STANDARDS *

Perimeter tract or commercial/industrial development walls which are adjacent to a public street shall have articulated planes by providing at a minimum for every 100 feet of continuous wall an 18-inch deep by eight-foot long landscaped recession.

(Ord. MC-888, 12-07-93)

Walls shall be constructed with pilasters provided at every change in direction, every five feet difference in elevation and at a minimum of every 25 feet of continuous wall.

D. RESIDENTIAL FENCING/WALL REQUIREMENT

Fencing or walls are required between individual residential units, and residential developments if adjacent to parks, open spaces, and/or major rights-of-way. All fencing and walls are to be provided by each developer at the time of construction.

E. ELECTRIC FENCES

1. Permit Required. No electric fences shall be installed or used unless a Fence Permit has been applied for and obtained from the Community Development Department.

* Ord. MC-1531, 6-03-20 caused the renumbering of items in this subsection, but contained a typo that created two different items to be numbered "B." The items after the first "B" have all been adjusted to correct that, and no other changes have been made.

2. Type of Electric Fences Allowed. The construction and use of electric fences shall be allowed in the City only as provided in this section and subject to the following standards:

a. IEC Standards 60335-2-76: Unless otherwise specified herein, electric fences shall be constructed or installed in conformance with the specifications set forth in International Electrotechnical Commission (IEC) Standard No. 60335-2-76.

b. Electrification:

(1) The energizer for electric fences must be driven by a commercial storage battery not to exceed 12 volts DC.

(2) The electric charge produced by the fence upon contact shall not exceed energizer characteristics set forth in paragraph 22.108 and depicted in Figure 102 of IEC Standard No. 60335-2-76.

3. Conditions for Installation.

a. Perimeter Fence or Wall: No electric fence shall be installed or used unless it is completely surrounded by a non-electrical fence or wall that is not less than six feet high.

b. Location: Electric fences shall be permitted only in non-residential zones and only in locations approved by the Community Development Department.

c. Height: Electric fences shall not have a height in excess of 10 feet in commercial and industrial setback areas and shall not have a height in excess of 16 feet outside of the setback areas on industrial properties.

d. Warning Signs: Electric fences shall be clearly identified with warning signs prepared in English and Spanish that read: "Warning-Electric Fence" at intervals of not less than 60 feet.

e. "Knox Box": A "Knox Box Electrical Shunt Switch" and a "Knox Box" or other similar approved device shall be installed for emergency access of Police and Fire Departments.

[Return to Municipal Code Contents]

4. Indemnification. All applicants issued permits to install or use an electric fence as provided in this Chapter shall agree, as a condition of permit issuance, to defend, indemnify and hold harmless the City of San Bernardino and its agents, officers, consultants, independent contractors and employees from any and all claims, actions or proceedings arising out of any personal injury, including death, or property damage caused by the electric fence.
5. Emergency Access. In the event that access by the City of San Bernardino Fire Department and/or Police Department personnel to a property where a permitted electric fence has been installed and is operating required due to an emergency or urgent circumstances, and the Knox Box or other similar approved device referred to in this Chapter is absent or non-functional, and an owner, manager, employee, custodian or any other person with control over the property is not present to disable the electric fence, the fire or police personnel shall be authorized to disable the electric fence in order to gain access to the property. As a condition of permit issuance, all applicants issued permits to install or use an electric fence as provided in this Chapter will agree to waive any and all claims for damages to the electric fence against the City of San Bernardino and/or its personnel under such circumstances.
6. Violation; Misdemeanor. It shall be unlawful, and a misdemeanor, for any person to install, maintain or operate an electric fence in violation of this section.

F. BARBED WIRE, RAZOR WIRE AND CONCERTINA WIRE FENCES

1. Permit Required. No barbed wire, razor wire, or concertina wire fences shall be installed or used unless a Fence Permit has been applied for and obtained from the Community Development Department.
2. Conditions for Installation.
 - a. Location: Barbed wire, razor wire, or concertina wire fences shall be permitted only in non-residential zones and only in locations approved by the Community Development Department.
 - b. Height: Barbed wire, razor wire, or concertina wire fences shall not have a height in excess of 10 feet in commercial and industrial setback areas and shall not have a height in excess of 16 feet outside of the setback areas on industrial properties.

(Ord. MC-1531, 6-03-20)

[\[Return to Municipal Code Contents\]](#)

9. FIRE PROTECTION

All structures shall meet the requirements of the City Fire Department.

10. FUMES, VAPOR, GASES

No emission which can cause damage to human health, animals, vegetation or other forms of property shall be discharged into the atmosphere. No other forms of emission shall be measurable at any point beyond the boundary line of the parcel. Emissions shall be in compliance with Air Quality Management District and Regional Water Quality Control Board permits.

(Ord. MC-1531, 6-03-20)

11. GLARE

No glare incidental to any use shall be visible beyond any boundary line of the parcel.

12. HAZARDOUS MATERIALS

The following standards are intended to ensure that the use, handling, storage and transportation of hazardous materials comply with all applicable requirements of Government Code 65850.2 and Health and Safety Code 25505, Article 80-Uniform Fire Code, et. al. It is not the intent of these regulations to impose additional restrictions on the management of hazardous wastes, which would be contrary to State Law, but only to require reporting of information to the City that must be provided to other public agencies.

For the purposes of this Section, hazardous materials shall include all substances on the comprehensive master list of hazardous materials compiled and maintained by the California Department of Health Services.

- A. A Conditional Use Permit shall be required for any new commercial, industrial, or institutional or accessory use, or major addition to an existing use, that involves the manufacture, storage, handling, or processing of hazardous materials in sufficient quantities that would require permits as hazardous chemicals under the Uniform Fire Code, with the following exceptions:
 - 1. Underground storage of bulk flammable and combustible liquids; and
 - 2. Hazardous materials in container sizes of 10 gallons or less that are stored or maintained for the purposes of retail or wholesale sales.

[Return to Municipal Code Contents]

- B. All businesses required by Chapter 6.95 of the California Health and Safety Code to prepare hazardous materials release response plans shall submit copies of these plans, including revisions to the Director at the same time these plans are submitted to the administrating agency which is responsible for administering these provisions.
- C. Underground storage of hazardous materials shall comply with all applicable requirements of Chapter 6.7 of the California Health and Safety Code, and Article 79 of the Uniform Fire Code. Any business that uses underground storage tanks shall comply with the following:
 - 1. Notify the City Fire Department of any unauthorized release of hazardous materials immediately, after the release has been detected and the steps taken to control the release; and
 - 2. Notify the City Fire Department and the Director of any proposed abandoning, closing or ceasing operation of an underground storage tank and the actions to be taken to dispose of any hazardous substances.
- D. Above-ground storage tanks for any flammable liquids shall meet all standards of the City Fire Department.
- E. All structures subject to the provisions of this Development Code and all newly created lots shall be designed to accommodate a setback of at least 100 feet from a pipeline. This setback may be reduced, where the Director finds that:
 - 1. The structure would be protected from the radiant heat of an explosion by berming or other physical barriers;
 - 2. A 100-foot setback would be impractical or unnecessary because of existing topography, streets, lot lines, or easements; and,
 - 3. There shall be construction of hazardous liquid containment system or other mitigating facility where the City Engineer finds that a leak would accumulate within the reduced setback area. The design shall be approved by the City Engineer and a surety instrument shall be approved by the City Attorney to ensure the construction of the system.

A proposed structure (including a residence) on an undeveloped existing lot of record that cannot be constructed only because of this restriction, shall be allowed to be constructed if the structure is located so as to comply with the setback regulation as closely as possible. The Director may require a hazardous liquid containment system, to be approved by the City Engineer.

A pipeline is defined as follows:

1. A pipe with a nominal diameter of 6 inches or more, that is used to transport hazardous liquids, but does not include a pipe used to transport a hazardous liquid by gravity and a pipe used to transport or store a hazardous liquid within a refinery, storage, or manufacturing facility; or,
2. A pipe with a nominal diameter of six inches or more operated at a pressure of more than 275 pounds per square inch that carries gas.

A subdivider of a development within 500 feet of a pipeline shall notify a new owner at the time of purchase agreement and at the close of escrow of the location, size, and type of pipeline.

13. HEIGHT DETERMINATION (BUILDINGS AND STRUCTURES)

(Ord. MC-1531, 6-03-20)

All structures shall meet the following standards relating to height:

- A. The structure's height shall not exceed the standard for the land use district in which it is located. The structure height shall be determined from the finished grade to the highest point of the structure, excluding chimneys and vents.
- B. Pad elevations shall be determined by the Director and the City Engineer based on the following criteria.
 1. Flood control;
 2. Site drainage;
 3. Viewshed protection from both public and private property;
 4. Protection of privacy of surrounding properties including consideration of the location of windows, doors, balconies, and decks;
 5. Structure setback in relationship to structure height and property lines;
 6. Sightline and structure envelope analysis;

[Return to Municipal Code Contents]

7. Sewer line grade and location; and
8. Necessary slopes and retaining walls.

- C. Perimeter fences, or walls, shall not exceed six feet in height, unless as otherwise provided in this Development Code. The height shall be measured from the finished grade of the property.
- D. Architectural walls integral to the structure design, attached to the structure may exceed 6 feet in height, subject to review by the Director.
- E. To protect safety sight-distance for vehicular movement, sight obscuring fences, or walls, or other obstructions shall not exceed 36 inches in height when located in a front setback.

(Ord. MC-888, 12-07-93)

- F. Free-standing flagpoles and radio and television antennas may not exceed the structure height restrictions of the land use district in which they are located, except as otherwise provided in this Development Code.

14. LIGHTING

Exterior lighting shall be energy-efficient and shielded or recessed so that direct glare and reflections are contained within the boundaries of the parcel, and shall be directed downward and away from adjoining properties and public rights-of-way. No lighting shall blink, flash, or be of unusually high intensity or brightness. All lighting fixtures shall be appropriate in scale, intensity, and height to the use it is serving. Security lighting shall be provided at all entrances/exits.

15. NOISE

No loudspeaker, bells, gongs, buzzers, mechanical equipment or other sounds, attention-attracting, or communication device associated with any use shall be discernible beyond any boundary line of the parcel, except fire protection devices, burglar alarms and church bells. The following provisions shall apply:

- A. In residential areas, no exterior noise level shall exceed 65dBA and no interior noise level shall exceed 45dBA.
- B. All residential developments shall incorporate the following standards to mitigate noise levels:
 - 1. Increase the distance between the noise source and receiver.
 - 2. Locate land uses not sensitive to noise (i.e., parking lots, garages, maintenance facilities, utility areas, etc.) between the noise source and the receiver.
 - 3. Bedrooms should be located on the side of the structure away from major rights-of-way.
 - 4. Quiet outdoor spaces may be provided next to a noisy right-of-way by creating a U-shaped development which faces away from the right-of-way.
- C. The minimum acceptable surface weight for a noise barrier is four pounds per square foot (equivalent to $\frac{3}{4}$ -inch plywood). The barrier shall be of a continuous material which is resistant to sound including:
 - 1. Masonry block
 - 2. Precast concrete
 - 3. Earth berm or a combination of earth berm with block concrete.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- D. Noise barriers shall interrupt the line-of-sight between noise source and receiver.

16. ODOR

No use shall emit any obnoxious odor or fumes.

17. PROJECTIONS INTO SETBACKS

(Ord. MC-1531, 6-03-20)

The following list represents the only projections, construction, or equipment that shall be permitted within the required setbacks:

- A. Front Setback: Roof overhangs, fireplace chimney, awnings & canopies
- B. Rear Setback: Roof overhangs, pools, patio covers, tennis courts, gazebos, and awnings & canopies, provided there is no projection within 10 feet of the property line. Accessory structures may be built to the interior side or rear property lines provided that such structures are not closer than 10 feet to any other structures.

(Ord. MC-876, 6-09-93)

- C. Side Setback: Roof overhangs, fireplace chimney, awnings & canopies

Building Code requirements may further restrict the distance required to be maintained from the property lines and other structures.

18. PUBLIC STREET IMPROVEMENTS

- A. Any new construction or construction of 2,500 square feet or more of the structure floor area of the primary structure shall require the dedication of public right-of-way for public street purposes. In addition, the property owner shall be required to irrevocably agree to participate in any future assessment district that may be formed to construct public street improvements in accordance with the policies, procedures and standards of the Director of Public Works/City Engineer.
- B. Whenever street improvements are required along a parcel as a condition of approval, and the off-site drainage pattern requires it, the entire street section may be required to be improved in accordance with the policies, procedures and standards of the Director of Public Works/City Engineer.

[Return to Municipal Code Contents]

- C. Special Fee areas may be designated by the Mayor and Common Council to provide funding for required improvements or to refund monies advanced by the City for designated improvements. Whenever such fee areas are established by Resolution of the Mayor and Common Council, all new construction or construction of 2,500 square feet or more of structure floor area of the primary structures shall pay such fees.

(Ord. MC-1373, 5-24-12; Ord. MC-816, 1-07-92)

19. RADIOACTIVITY OR ELECTRIC DISTURBANCE

No activity shall be permitted which emits radioactivity or electrical disturbance.

20. REFUSE STORAGE/DISPOSAL

Every parcel with a multi-family, commercial or industrial structure shall have a trash receptacle on the premises. The trash receptacle shall be of sufficient size to accommodate the trash generated. The receptacle shall be screened from public view on at least three sides by a solid wall six feet in height and on the fourth side by a solid gate not less than five feet in height, in compliance with adopted Public Works Department Standards. The gate shall be maintained in good working order and shall remain closed except when in use. The wall and gate shall be architecturally compatible with the surrounding structures. Trash receptacles for single family homes should be stored within the enclosed garage or behind a fence.

21. SCREENING

Any equipment, whether on the roof, side of structure, or ground, shall be screened. The method of screening shall be architecturally compatible in terms of materials, color, shape, and size. The screening design shall blend with the building design and include landscaping when on the ground.

22. SIGNS, OFF-STREET PARKING, OFF-STREET LOADING AND LANDSCAPING

All development shall comply with the provisions of Chapter 19.22 (Sign Standards); Chapter 19.24 (Off-Street Parking Standards); Chapter 19.26 (Off-Street Loading Standards) and Chapter 19.28 (Landscaping).

23. SOLAR ENERGY DESIGN STANDARDS

(Ord. MC-1381, 12-19-12)

Passive heating and cooling opportunities shall be incorporated in all developments in the following manner:

- A. Future structures should be oriented to maximize solar access opportunities.
- B. Streets, lot sizes, and lot configurations should be designed to maximize the number of structures oriented so that the south wall and roof area face within 45 of due south.
- C. The proposed lot size and configuration should permit structures to receive cooling benefits from both prevailing breezes and existing and proposed shading.
- D. Any pool or spa facilities owned and maintained by a homeowners association shall be equipped with a solar cover and solar water heating system.
- E. No structure (building, wall or fence) shall be constructed or vegetation placed so as to obstruct solar access on an adjoining parcel.

24. STORAGE

There shall be no visible storage of motor vehicles, trailers, airplanes, boats, or their composite parts; loose rubbish, garbage, junk, or their receptacles; tents; or building or manufacturing materials in any portion of a lot, except as allowed under the provisions of this Development Code. No storage shall occur on any vacant parcel.

No vehicles may be stored or displayed for sale on any vacant lot or at any vacant business location.

Building materials for use on the same premises may be stored on the parcel during the time that a valid building permit is in effect for construction.

25. TOXIC SUBSTANCES AND WASTES

No use may operate that utilizes toxic substances or produces toxic waste without the approval of a Conditional Use Permit pursuant to the provisions of Chapter 19.36 (Conditional Use Permits). Prior to consideration of a Conditional Use Permit, the operator must prepare a toxic substance and waste management plan which will provide for the safe use and disposal of these substances.

[Return to Municipal Code Contents]

26. TRAFFIC SAFETY SIGHT AREA

(Ord. MC-1531, 6-03-20)

No fence, wall, hedge, sign or other structure, shrubbery, mounds of earth or other visual obstruction over 36 inches in height above the nearest street curb elevation shall be erected or placed within a Traffic Safety Sight Area. A Traffic Safety Sight Area is a triangular portion of a lot formed by three distances measured along and/or perpendicular to property lines at the intersection of two street rights-of-way or at intersections of driveways, parking entrances, and alleys with a street right-of-way.

A. Distances Used to Measure Traffic Safety Sight Areas

The following distances, as seen in Figure 19.20 (29)-A (Traffic Safety Sight Area Distances) shall be used to measure Traffic Safety Sight Areas. Upon review by the City Traffic Engineer, the distances specified in this Section may be increased if he/she determines that a greater distance is required to maintain public health and safety or reduced if he/she determines that the reduced distance would not create a public health and safety/hazard.

1. For Traffic Safety Sight Areas at the intersection of two street rights-of-way, two sides of the triangle extend along the intersecting property lines for 20 feet and the third side is a diagonal line that connects the two other sides.
2. For Traffic Safety Sight Areas at the intersection of a street right-of-way and alley, two sides of the triangle extend along the intersecting property lines for 10 feet and the third side is a diagonal line that connects the two other sides.
3. For Traffic Safety Sight Areas at the intersection of a street right-of-way and driveway or parking entrance, one side of the triangle extends from the intersection of the street right-of-way and the driveway or parking entrance for 10 feet along the property line. The second side extends from the intersection of the street right-of-way and driveway or parking entrance for 1- feet perpendicular to the property line. The third side of the triangle connects the two other sides.

B. Exemptions

Traffic Safety Sight Areas shall not apply to the following:

1. Public utility poles:
2. Trees trimmed (to the trunk) to a line at least six feet above the level of the intersection
3. Supporting members of appurtenances to permanent structures existing on the date this Development Code becomes effective; or
4. Official warning signs or signals.

27. TRANSPORTATION CONTROL MEASURES (TCM)

(Ord. MC-1531, 6-03-20)

The purpose of this section is to reduce vehicle trips thereby reducing air pollutants and improving air quality, to comply with State Law, and to promote an improved quality of life. All new development is subject to the following Transportation Control Measures:

- A. Bicycle parking facilities or secured bicycle lockers shall be provided for all new non-residential developments and multi-family (of 10 or more units) developments when discretionary review is required. Parking racks or secured lockers shall be provided at a rate of 1 per 30 parking spaces with a minimum of a three-bike rack.

[Return to Municipal Code Contents]

- B. All new non-residential developments, meeting CMP thresholds of 250 or more peak hour trips, shall provide a minimum of one shower for persons bicycling or walking to work. The shower shall be made so as to be accessible to both men and women.
- C. On-site pedestrian walkways and bicycle facilities shall be provided connecting each building in a development to public streets for all new non-residential and multi-family (of 10 or more units).
- D. Passenger loading areas, suitable to the proposed land use shall be provided for all new non-residential and multi-family (of 10 or more units) developments (of 100 or more parking spaces). The loading areas shall be placed in locations close to building entrances but so as not to interfere with vehicle circulation.
- E. Preferred parking facilities shall be provided for vanpools at a rate of 1 van parking space per 100 standard parking spaces for all new non-residential development. A minimum of one such space shall be required. A vertical clearance of no less than 9 feet shall be provided.
- F. Transit improvements such as bus pullouts, bus pads, and bus shelters shall be provided for new residential and non-residential development along existing or planned transit routes. The need for and nature of those improvements shall be defined in cooperation with Omnitrans.
- G. New non-residential developments exceeding the following thresholds may be required to designate on-site parking areas to be used by commuters as park-and-ride lots or contribute exaction fees to develop off-site park-and-ride lots:

Retail	250,000 Square Feet GFA
Industrial	325,000 Square Feet GFA
Office	125,000 Square Feet GFA

The determination of whether an on-site park-and-ride facility or contribution of exaction fees is required will be based upon a Traffic Impact Analysis Report (TIA Report), prepared by a qualified traffic engineer in a manner consistent with the Congestion Management Program (CMP) for San Bernardino County.

- H. Parking space requirements for new non-residential development shall be reduced when linked to other actions that reduce trips to account for increased ridesharing and other modes of transportation. Analysis shall be provided estimating the trip reductions. The City Traffic Engineer shall review the analysis and make a recommendation to the Planning Division on the number of parking spaces that may be eliminated.
- I. A telecommuting center or contributions toward such a center shall be required for all new residential developments of 500 units or more.
- J. On-site video conferencing facilities shall be provided for all office park developments with 1,000 or more employees.

(Ord. MC-890, 12-22-93)

27. UNDERGROUNDING OF UTILITIES

Utilities shall be placed underground pursuant to Section 19.30.110. In the event an above ground electrical transformer is located outdoors on any site, it shall be screened from view with a solid wall and landscaping and not located in any setback area. If it cannot be screened, it shall be located in an underground vault. Exceptions to the undergrounding of utilities requirements are as follows:

- A. Transformers, pedestal-mounted terminal boxes, meter cabinets and concealed ducts may be placed above ground, if they are used solely in connection with the underground transmission or distribution lines;
- B. Poles supporting street lights, and the electrical lines within the poles, may be situated above the surface of the ground;
- C. The Council may waive any requirement of this section if topographical, soil or similar physical conditions make such underground installation unreasonable or impractical;
- D. Any Parcel Map with a maximum of four residential parcels, no parcel of which has previously been exempted from this section; and where at least 50% of the surrounding area within a radius of 500 feet has been previously developed without undergrounding utilities;
- E. That portion of a previously developed non-residential Parcel Map;

- F. The requirement to underground shall apply to all utility lines traversing a subdivision, or installed along either side of the streets and alleys adjoining the subdivision, except for electrical lines of 33 KVA or more. Where one line is exempt, all parcel lines on that same pole shall be exempt;
- G. Any single lot development on a Residential Estate, Low, Suburban, or Urban (RE, RL, RS, and RU) designated parcel; or any single lot development of one net acre or less in any land use district, shall be exempt from this requirement. This exemption shall not apply where the requirement to underground utilities is imposed as a condition of approval of a subdivision map; and
- H. The remodeling of existing structures where the cost of remodeling is less than 50% of the replacement cost of the existing structure as determined for building permit fees shall be exempt.

28. VIBRATION

No vibration associated with any use shall be permitted which is discernible beyond the boundary line of the property.

CHAPTER 19.22 SIGN REGULATIONS

Sections:

19.22.010	Purpose
19.22.020	Applicability
19.22.030	General Requirements for All Signs

22.05	Industrial Zones
22.06	Public and Quasi-Public Zones
22.07	Temporary Sign Standards for Non-Residential Zones

19.22.010 Purpose

This Chapter provides a comprehensive system of reasonable, effective, consistent, and content-neutral sign standards and requirements to:

- A. Protect the general public health, safety, welfare, and aesthetics of the community.
- B. Promote and accomplish the goals, policies, and measures of the General Plan, including, but not limited to, addressing issues of scale, type, design, materials, placement, compatibility, and maintenance of signs (Community Design Policy 5.2.6) and the relationship of signs to both the scale of the buildings and to the street (Community Design Policy 5.7.4).
- C. Allow businesses, institutions, and individuals to exercise their right to free speech by displaying a message or image on a sign, and to allow audiences to receive such information.

[\[Return to Municipal Code Contents\]](#)

- D. Preserve and improve the appearance of and property values in the City of San Bernardino, and protect the City from the visual clutter and blight, and promote attractive and harmonious structures and environments by regulating the design, character, location, type, quality of materials, scale, color, illumination, and maintenance of signs.
- E. Encourage the use of signs that provide direction and aid orientation for businesses and activities to enhance their economic value to the community and local businesses.
- F. Require that signs are designed, constructed, installed, and maintained in a manner that promotes public safety and traffic safety.
- G. Comply with the requirements of the Americans with Disabilities Act (ADA) and keep public rights-of-way clear and open to all.
- H. Comply with the requirements of the Federal Highway Beautification Act (Section 23 of USC Title 131 [Highways Code]) and the Outdoor Advertising Act (Chapter 2 in the California Business and Professions Code).
- I. Encourage signs that are well designed and pleasing in appearance, and provide incentive and latitude for variety, good design relationship, spacing, and location.
- J. Promote signs that identify businesses and premises without confusion through clear and unambiguous sign standards that enable fair and consistent enforcement.

Ord. MC-1531, 6-03, 2020

19.22.020 Applicability

- A. Applicability.
 - 1. This Chapter 19.22 applies to all signs within the City of San Bernardino unless specifically exempted herein.
 - 2. The number and area of signs set forth in this Chapter are intended to be the base standards. In addition to the enumerated standards, consideration shall be given to a sign's relationship to the overall appearance of the subject property, as well as the surrounding community.
 - 3. Nothing in this Chapter shall be construed to prohibit a person from holding a sign while picketing or protesting on City of San Bernardino property that is open to the public, as long as the person holding the sign does not block ingress and egress from buildings; create a safety hazard by impeding travel on sidewalks, in bike or vehicle lanes, or on trails; or violate any other reasonable time, place, and manner restrictions adopted by the City of San Bernardino.

[Return to Municipal Code Contents]

- B. Severability. If any part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word in this Chapter is held to be invalid, unconstitutional, or unenforceable by a court of competent jurisdiction, such decision shall not affect the validity or enforceability of the remaining portions of this Chapter.
- C. Exemptions. The following sign types are expressly exempted from the Sign Permit requirements of this Chapter and shall not count toward cumulative allowable sign area, but must satisfy all other permit requirements when applicable (e.g., Building, Electrical, Plumbing, Grading, Encroachment, etc.):
1. Exempt Signs without Limitations. The following signs are exempt from the provisions of this Chapter so long as they do not constitute a General Advertising Sign:
 - a. Non-signs. All devices that are excluded from the definition of a "Sign."
 - b. Message Substitution. Conforming signs on which the message is changed, but such message substitution does not alter the sign size, height, location, or illumination. This provision does not authorize the conversion of an existing legal sign to a General Advertising Sign (Billboard) or to a digital display.
 - c. Interior Graphics or Signage. Signs or displays within a structure and not visible (meaning capable of being seen, regardless of actually being read) by the public from any public right-of-way or publicly accessible area.
 - d. Plaques. Tablets and plaques installed by the City of San Bernardino, or by a State, Federal, or County recognized historical organization exempt from Federal taxation under Section 501 of USC Title 26 (IRS Code) that are no larger than six square feet, or signs authorized and installed by City, County, State, or Federal agencies on public owned lands.
 - e. Equipment Signs. Signs incorporated into permitted displays, machinery, or equipment by a manufacturer, distributor, or vendor and identifying or advertising only the product or service dispensed by the machine or equipment, such as signs customarily fixed to automated teller machines (ATMs), vending machines, and gasoline pumps.
 - f. Official Notices. Any sign, posting, notice, or similar sign issued, installed, placed, or required by law by the City of San Bernardino, County of San Bernardino, or a Federal or State governmental agency in carrying out its responsibility to protect the public health, safety, and welfare, including but not limited to the following:

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- (1) Emergency and warning signs necessary for public safety or civil defense;
- (2) Legal notices posted pursuant to law or court order;
- (3) Traffic, railroad, utility, and parking signs erected and maintained by an authorized public agency or approved by an authorized public agency;
- (4) Direction, warning, or information signs required or authorized to be displayed by law;
- (5) Numerals and lettering identifying the address from the street to facilitate emergency response and compliant with City of San Bernardino requirements;
- (6) Signs erected by a government agency directing the public to points of interest;
- (7) Signs and advertising for the California State Lottery as authorized by California Government Code, Section 8880 et seq.; and
- (8) Motor vehicle fuel pricing signs, as required by State law, which identify the brand, types, octane rating, etc., of motor vehicle fuel for sale (Sections 13470 and 13530 of the Business and Professional Code). While exempt, the City of San Bernardino may review and approve motor vehicle fuel pricing signs to confirm design requirements for permanent or temporary placement and approval provisions listed herein.

- g. Flags. Flags, as defined herein, located on poles up to 75 feet in height and not subject to the Temporary Signs standards. Pennants, Banner Signs, Feather Signs, strings of ornamental fringes and streamers are not included in this exemption and are regulated under Section 19.22.080.

2. Exempt Signs with Limitations. The following Signs are exempt from Sign Permit requirements if they meet the size, height, duration, maximum number limitations, and any additional requirements set forth in Table 22.01, so long as they do not constitute a General Advertising Sign:

Ord. MC-1351, 6-03, 2020

Temporary signs displaying noncommercial messages	N/A	24 sf	Such signs shall not project above the roofline of any structure.	<ul style="list-style-type: none"> Signs erected for and associated with particular events shall be removed within 7 days following the event. Up to 6 off-site Temporary Signs may be placed on private property for the purpose of directing the public to a noncommercial activity. Said signs may be posted for no more than 48 hours and shall be removed within 6 hours of the end of the event. See Section 19.22.080(B) and (D).

(Ord. MC-1531, 6-03-20)

19.22.030 General Requirements for all Signs

Except as otherwise indicated, the following requirements shall apply to all signs in the City of San Bernardino:

- A. Sign Message and Substitution. Any sign may contain commercial and/or noncommercial message. Subject to the property owner's consent, a constitutionally protected noncommercial message of any type may be substituted in whole or in part for the message displayed on any sign for which the sign structure or mounting device is authorized in compliance with this Chapter, without consideration of message content. This substitution of copy may be made without any additional approval or permitting. The purpose of this provision is to prevent any inadvertent favoring of commercial speech over noncommercial speech or favoring of any particular noncommercial message over any other noncommercial message. This provision prevails over any more specific provision to the contrary. In addition, any on-site commercial message may be substituted, in whole or in part, for any other on-site commercial message, provided that the sign structure or mounting device is authorized in compliance with this Chapter, as determined by the Community and Economic Development Director, without consideration of message content.

This provision does not create a right to increase the total number of signs on a parcel, lot, or land use; does not affect the requirement that a sign structure or mounting device be properly permitted; does not allow a change in the physical structure of a sign or its mounting device or location; and does not authorize the conversion of an existing sign to a General Advertising Sign.

- B. Interpretations by Community and Economic Development Director.
 1. Authority of Director to Interpret; Referral to Commission. Whenever the Community and Economic Development Director determines that the meaning or applicability of any of the requirements of this Chapter is subject to interpretation generally, or as applied to a specific case, the Community and Economic Development Director may issue an official interpretation or refer the question to the Planning Commission for determination.
 2. Request for Interpretation. Any party may file a request for an interpretation or determination of this Chapter with the Community and Economic Development Director and shall include with such request the specific provisions in question and any other information necessary to assist the Community and Economic Development Director in the review.

3. Record of Interpretation. All interpretations and determinations by the Community and Economic Development Director and Planning Commission shall be made in writing, and a permanent record of such interpretations and determinations shall be kept.
 4. Appeals. Any interpretation of this Chapter by the Community and Economic Development Director or Planning Commission may be appealed in compliance with Chapter 9.94.
 5. Content Neutrality. Interpretations of the requirements of this Chapter shall be exercised in light of the City of San Bernardino's content neutrality policy.
 6. Sign Type. Where a particular type of sign is proposed in a permit application, and the type is neither expressly allowed nor prohibited by this Chapter, or whenever a sign does not qualify as a "structure" as defined in the California Building Code, then the Community and Economic Development Director shall approve, conditionally approve, or deny the application based on the most similar sign type that is expressly regulated by this Chapter.
- C. Content Neutrality. It is the City of San Bernardino's policy to regulate signs in a constitutional manner that is content neutral with respect to both noncommercial and commercial messages. For the purposes of this Chapter, a content-neutral regulation is a so-called "time, place, or manner" regulation, which, as the name suggests, does no more than place limits on when, where, and how a message may be displayed or conveyed.
- D. Vehicle Visibility Triangle: No sign, permanent or temporary, flag, flagpole, etc. shall be erected within the Traffic Safety Sight Area, as indicated in Section 19.20.030.29.
- E. Sign Removal or Replacement. When a sign is removed, all brackets, poles, and other structural elements that supported the sign shall also be removed, and any electrical components shall be removed and/or capped and any resulting holes filled. Affected building surfaces shall be restored to match the adjacent portion of the building.
- F. Materials and Mounting Required.
1. Materials. Signs shall be made of sturdy, durable materials capable of withstanding weathering over the life of the sign with reasonable maintenance. Paper, fabric, plywood, and other materials subject to rapid deterioration may only be used for Temporary Signs or as permitted Awning Signs.

2. Mounting Required. All Permanent Signs shall be firmly anchored, shall comply with all requirements for public safety, and shall satisfy all applicable safety codes and all other applicable governmental enactments, rules, regulations, or policies.
3. Quality Design. All Permanent Signs shall be designed by professionals (e.g., architects, building designers, landscape architects, interior designers, or those whose principal business is the design, manufacture, or sale of signs) or others who are capable of producing professional results.
4. Quality Construction. All Permanent Signs shall be constructed by persons whose principal business is building construction or a related trade including sign manufacturing and installation businesses, or others capable of producing professional results. The intent is to ensure public safety, achieve signs with neat and readable copy, and provide for sign durability so as to reduce maintenance costs and to prevent dilapidation.
5. Hand-Painted Signs. All hand-painted signs shall be professionally applied by a sign manufacturer, artist, or similarly qualified entity or person.

G. Sign Illumination: The following standards shall apply to all illuminated signs:

1. Shielding. Sign illumination shall not interfere with the use and enjoyment of adjacent properties, create a public nuisance, or create public safety hazards. Exterior light sources shall be shielded from view and directed to illuminate only the sign face.
2. Illumination. Signs may be internally or externally illuminated.
3. Residential Properties in Direct Line of Sight. The light from an illuminated sign shall not be of an intensity or brightness or directed in a manner that will negatively impact residential properties in direct line of sight to the sign.
4. Colored Lights. Colored lights shall not be used at a location or in a manner to be confused or construed as traffic control devices.
5. Bulb Face Exposure. Reflective-type bulbs and incandescent lamps that exceed 15 watts shall not be used on the exterior surface of signs so that the face of the bulb or lamp is exposed to a public right-of-way or adjacent property. This provision does not apply to light-emitting diodes associated with Digital Signs.

6. Energy Efficiency. Light sources shall utilize energy-efficient fixtures to the greatest extent possible.
 7. No Flashing. Lights illuminating signs shall not flash, blink, flutter, include intermittent or chasing lights, or provide any illumination that is in motion or appears to be in motion. See Section 19.22.070(B)(3) for standards pertaining to that sign type.
 8. Digital Signs. Digital Signs shall comply with Section 19.22.070(B)(3).
- H. Sign Maintenance. All parts, portions, units, and materials composing a sign, together with the frame, background, surface, support, or enclosure, shall be maintained in a good and safe condition, painted, and adequately protected from weathering with all braces, bolts, and structural parts, supporting frames, and fastenings reasonably free from deterioration, rot, rust, rips, tears, loosening, and similar damage so that they do not create a hazard to persons or property or constitute a nuisance.
 - I. Deteriorated Signs. Any sign or sign structure that is sagging, leaning, fallen, decayed, broken, deteriorated, has missing or inoperative lights, or is in an otherwise dilapidated condition shall be promptly repaired, to the satisfaction of the Community and Economic Development Director, or removed.
 - J. Graffiti. Graffiti on a sign shall be removed within 48 hours of notice of its placement on such sign.
 - K. Repairs. An unmaintained sign shall be repaired or replaced within 30 calendar days following notification via a Notice of Violation from the Code Enforcement Division. Noncompliance with such a request shall constitute a nuisance, and penalties may be assessed in compliance with the provisions of Chapter 19.46. Within the 15 days after a Notice of Violation is mailed, the property owner may request a hearing before the Hearing Officer on the unmaintained sign determination in compliance with the provisions of Chapter 9.94.
 - L. Rules for Sign Measurement.
 1. Measuring Sign Height. The height of a sign shall be measured from the highest part of the sign, including any decorative features, to the height of the adjoining finished grade directly beneath the sign.
 2. Measuring Sign Clearance. Sign clearance shall be measured as the smallest vertical distance between finished grade and the lowest point of the sign, including any framework or other embellishments.

3. Measuring Building Frontage. Building frontage is the building façade width that directly abuts a public street, private street, parking lot driveway, or parking spaces.
4. Calculating Sign Area: General. Supporting structures such as sign bases and columns are not included in the sign area, provided that they contain no lettering or graphics except for addresses or required tags. See Figure 22.01.

Figure 22.01: Calculation of Freestanding Sign Area

5. Calculating Sign Area: Single-Faced Signs (Four Sides or Fewer). For sign faces with four or fewer sides, sign area shall include the entire area within a single continuous perimeter composed of one triangle, square, or rectangle (consisting of no more than four corners) that enclose the extreme limits of all sign elements, including, but not limited to, sign structures or borders, written copy, logos, symbols, illustrations, and color. See Figure 22.02.

Figure 22.02: Calculation of Sign Area on Single-Faced Signs (Four Sides or Fewer)

6. Calculating Sign Area: Single-Faced Signs (Five Sides or More). For sign faces with five or more sides, sign area shall include the entire area within a single continuous perimeter composed of squares or rectangles (consisting of horizontal and vertical lines and no more than 12 corners) that enclose the extreme limits of all sign elements, including, but not limited to, sign structures or borders, written copy, logos, symbols, illustrations, and color. See Figure 22.03.

Figure 22.03: Calculation of Sign Area on Single-Faced Signs (Five Sides or More)

7. Calculating Sign Area: Double-Faced Signs. Only one face of a double-faced sign shall be counted in computing the permitted area of the sign. Double-faced (back-to-back) signs shall be regarded as a single sign when the sign is mounted on a single structure. Where the two faces are not equal in size, the larger sign face shall be used.
8. Calculating Sign Area: Multi-Faced Signs. On a three-faced sign, the combined sum of the area of two faces (the largest and smallest face) shall be counted in computing the permitted area of the sign.

9. Calculating Sign Area: Three-Dimensional Signs. On spherical, free-form, sculptural, or other non-planar signs, sign area equivalent to 50 percent of the sum of the areas using only the four vertical sides of the smallest cube that will encompass the sign structure, as shown in Figure 22.04, shall be counted in computing the permitted area of the sign.

Figure 22.04: Calculation of Sign Area on Three-Dimensional Signs
(Ord. MC-1531, 6-03-20; Ord. MC-1316, 10-06-09)

19.22.040 Prohibited Signs

The following signs are inconsistent with the sign standards set forth in this Chapter and are therefore prohibited.

- A. Prohibited Signs. The following signs are prohibited except where specifically authorized:
1. Abandoned Signs.
 2. Banner Signs, Flags, Pennants, Feather Signs, and other paraphernalia composed of paper, cardboard, cloth, or other flexible material, except as permitted by Section 19.22.080.
 3. General Advertising Signs (Billboards), except as permitted by Section 19.22.090.
 4. Chalkboards or blackboards.

5. Illegal Signs.
 6. Pole Signs.
 7. Portable Signs or A-Frame Signs, except as permitted per Table 22.01(D) or in the Main Street Overlay Zone per Table 22.07(D) and Section 19.22.080(D) (5).
 8. Signs on fences.
 9. Roof Signs, with the exception of signs on mansard roofs where, in the opinion of the Community and Economic Development Director, no other useable sign area is available,
 10. Iconic Signs and as otherwise allowed by an approved Creative Sign Permit.
 11. Any Mobile General Advertising Sign as defined in this Chapter.
 12. Signs deemed to be a public nuisance as defined in Section 19.22.130 and regulated by Chapter 8.30.
- B. Location Restrictions. Signs may not be placed in the following locations except where specifically authorized:
1. Signs on public property, except as required or authorized by a governmental agency, and except as permitted by Section 19.22.090 and Section 19.22.120.
 2. Signs painted on fences or roofs.
 3. Bench Signs, except as permitted by Design Review or on approved transit amenities.
- C. Display Restrictions. Signs with the following display features are prohibited:
1. Animated, moving, flashing, blinking, reflecting, revolving, scrolling, digital or video screen signs where the message is displayed for fewer than eight seconds (dwell time) before changing to another message, or any other similar sign, except as otherwise allowed by Section 19.22.070(B)(3) and Section 19.22.060(D).
 2. Inflatable Signs, except as allowed per Section 19.22.080.

3. Signs which simulate in color or design a traffic sign or signal, or which make use of words, symbols, or characters in such a manner to interfere with, mislead, or confuse pedestrian or vehicular traffic.
4. Signs which emit sound, odor, or smoke.
5. Digital Signs that are located in windows (digital Window Sign), but not including neon signs.

(Ord. MC-1531, 6-03-20)

19.22.050 Design Principles

Signage shall be used as a positive means of identifying a business, create an image, and also to brand an identity. The following sign design principles shall be used as criteria for review and approval of Sign Permits and Sign Programs in the City of San Bernardino.

- A. Architectural Compatibility. The sign shall be compatible with the building and the site upon which it is located. A sign (including its supporting structure, if any) shall be designed as an integral design element of a building's architecture and shall be architecturally compatible, including in terms of color and scale, with any building to which the sign is to be attached and with surrounding structures. Where more than one sign is provided, all signs shall be complementary to each other.
- B. Context Character. A sign shall be sensitive in context to nearby uses. Where a sign is located in a district with historic buildings and landmark signs, new signs shall contribute to an integrated appearance to such district. Where a sign is located in close proximity to a residential area, the sign shall be designed and located so it has little or no impact on adjacent residential neighborhoods.
- C. Legibility. Signage shall be designed to provide clear, legible information that indicates the proposed sign's purpose. The size and proportion of the elements of the sign's message— including logos, letters, icons and other graphic images— shall be selected based on the average distance and average travel speed of the viewer. Sign messages oriented toward pedestrians may be smaller than those oriented toward vehicle drivers.
- D. Readability. A sign message shall be easily recognized and designed in a clear, unambiguous, and concise manner so that a viewer can understand or make sense of what appears on the sign. Colors chosen for the sign text and/or graphics shall have sufficient contrast with the sign background to be easily read during both day and night.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- E. Visibility. A sign shall be conspicuous and readily distinguishable from its surroundings so a viewer can easily see the information it communicates.
- F. Graphic Interest. Sign colors and materials shall be selected to contribute to legibility and design integrity. Signage that is creative and visually interesting is encouraged.

(Ord. MC-1531, 6-03-20)

19.22.060 Sign Permit and Sign Program Requirements

- A. Review Authority. Table 22.02 identifies the responsible review authority for sign permit and sign program approvals. At the Community and Economic Development Director’s discretion, any sign permit or sign program submitted for review by the Community and Economic Development Director may be referred to the Planning Commission for Design Review. Procedures for review, appeal and notification shall be conducted as indicated in Chapter 19.52.

Table 22.02 Responsible Review Authority			
Permit Type	Community and Economic Development Director	Planning Commission	Mayor and City Council
Sign Permit			
Temporary Sign	Decision	Appeal	Appeal
Permanent Sign (General)	Decision	Appeal	Appeal
Creative Sign	Recommend	Decision	Appeal
Digital Sign	Decision	Appeal	Appeal
Iconic Sign	Recommend	Decision	Appeal
Nonconforming Sign Modification	Decision	Appeal	Appeal
Minor Sign Area Modification	Decision	Appeal	Appeal
Sign Program	Decision	Appeal	Appeal
Billboard Modification/ Replacement	Recommend	Decision	Appeal

- B. Sign Permits.
 - 1. Permit Required. To ensure compliance with the regulations contained in this Chapter, a Sign Permit is required to erect, move, alter, replace, or reconstruct a sign, whether permanent or temporary. Each sign requires a separate Sign Permit, except those specifically exempted under Section 19.22.020(C). The

[Return to Municipal Code Contents]

following sign maintenance activities are permitted without issuance of a Sign Permit, so long as any other required building permit is obtained prior to the modification of a sign:

- a. Painting, repainting, or cleaning of a sign; and
 - b. Changes to the face or copy of a sign with changeable copy.
2. Identification Decal. Every sign for which a permit is issued shall be plainly marked with the corresponding permit number issued for the sign. Tags may be displayed on sign faces or at the base of a sign structure in a visible location. Tags for Freestanding Signs or Monument Signs shall be located on the structure no higher than six feet above grade.
 3. Findings and Decision. The following findings are required to be made by the responsible review authority for approval of a specifically called-out Sign Permit application, with or without conditions:
 - a. The sign complies with the standards of this Chapter, any applicable specific plan or precise development plan, and any applicable Comprehensive Sign Program;
 - b. The sign is in substantial compliance with any applicable design guidelines and the design principles listed in Section 19.22.050;
 - c. The sign will not impair pedestrian and vehicular safety;
 - d. The sign's design or proposed construction will not threaten the public health, safety, or welfare; and
 - e. Where a commercial sign is affiliated with a business, that business shall have a valid Business License prior to issuance of Sign Permit.
 4. Expiration and Extension of Sign Permit. An approved Sign Permit shall expire 12 months from the date of approval unless the sign has been installed in accordance with the approved Sign Permit and all applicable building codes or unless a different expiration date is stipulated at the time of approval. Notwithstanding these dates, the expiration date of the Sign Permit shall be automatically extended to concur with the expiration date of the companion Building Permit or other applicable permits.

Prior to the expiration of a Sign Permit, the applicant may apply to the Community and Economic Development Director for one extension of up to an additional 12 months from the original date of expiration. In response to an extension request, the Community and Economic Development Director may make minor modifications to the original approval or deny further extensions.

5. Revisions to Sign Permit. The Community and Economic Development Director may approve minor changes to an approved Sign Permit if the intent of the original approval is not affected. Revisions that would substantially deviate from the original approval shall require the approval of a new/revised Sign Permit by the responsible review authority.

C. Comprehensive Sign Program.

1. Purpose. The purpose of a Comprehensive Sign Program is to integrate all signs proposed for a single development project with the overall site and structure design to present a unified architectural statement. A Comprehensive Sign Program provides a means for the flexible application of sign regulations for projects that require multiple signs and/or unique signs and to achieve, not circumvent, the purpose of this Section. A sign program shall not be used to circumvent the City of San Bernardino's prohibition on new billboards or any other prohibited sign.
2. When Required. The approval of a Comprehensive Sign Program shall be required whenever any of the following circumstances exist. A Comprehensive Sign Program may be requested in circumstances other than those outlined in Subsections a. through e., below, but is not required.
 - a. Whenever four or more separate tenant spaces are present on the same parcel or on multiple parcels that are part of a unified shopping center or similar business center, regardless of whether the tenant spaces are occupied;
 - b. Whenever five or more non-exempt signs are proposed for a single-tenant development;
 - c. Wherever two or more Digital Signs are proposed;
 - d. For any off-site temporary signs provided in conjunction with a residential subdivision pursuant to Section 19.22.080(D)(6); and

- e. Whenever the Community and Economic Development Director determines that a Comprehensive Sign Program is needed because of special project characteristics (e.g., the size of site, the size and/or number of proposed signs, limited site visibility, a business within another business, the location of the site relative to major transportation routes, etc.)
3. Standards. A Comprehensive Sign Program shall comply with the following standards:
- a. The proposed Comprehensive Sign Program shall comply with the purpose and intent of this Chapter, any adopted sign design guidelines, and the overall purpose and intent of this Section.
 - b. The proposed signs shall enhance the overall development and relate visually to other signs included in the Comprehensive Sign Program, to the structures and developments they identify, and to surrounding development, when applicable.
 - c. The Comprehensive Sign Program shall include all signs, including permanent, temporary, and exempt signs.
 - d. The Comprehensive Sign Program shall accommodate future revisions that may be required because of changes in use or tenants.
 - e. The Comprehensive Sign Program shall comply with the standards of this Chapter, except:
 - (1) The transfer of sign area limits from underutilized sign areas to areas that are more practical, through the use of a Sign Budget are permitted. The Sign Budget would equal the total allowable sign area of all signs in the development (inclusive of awning/canopy, driveway, monument/pylon, projecting, and wall signs, but excluding exempt and temporary signs). A sign area transfer shall not exceed 50 percent of the total allowable sign area for any particular sign type.
 - (2) Deviations of up to 20 percent are permitted with regard to individual sign area, total number, location, and height of signs to the extent that the Comprehensive Sign Program will enhance the overall development and will more fully accomplish the purposes and intent of this Chapter.

- (3) Deviations associated with Sections 19.22.060(B)(3)(e)(1) and (2) shall not be allowed in conjunction with deviations associated with Section 19.22.060(G).
 - f. Approval of a Comprehensive Sign Program shall not authorize the use of signs listed as prohibited by Section 19.22.040.
- 4. Findings and Decision. The following findings are required to be made by the responsible review authority for the approval of a Comprehensive Sign Program application, with or without conditions:
 - a. The Comprehensive Sign Program complies with the purpose and intent of this Chapter 19.22 and with all standards listed in Section 19.22.060(C)(3);
 - b. The Comprehensive Sign Program does not allow any sign that is prohibited by Section 19.22.040;
 - c. The Comprehensive Sign Program is in substantial compliance with any applicable design guidelines and the design principles listed in Section 19.22.050;
 - d. The Comprehensive Sign Program standards will result in signs that are visually related or complementary to each other and to the buildings and/or developments they identify through the integration of predominant architectural materials, elements, or details of such buildings or developments;
 - e. The Comprehensive Sign Program will not result in signs that would impair pedestrian and vehicular safety; and
 - f. Light and glare associated with the signs will not negatively affect nearby residential uses.
- 5. Post-Approval Procedures. After approval of a Comprehensive Sign Program, no signs shall be erected, placed, painted, or maintained, except in conformance with such program, and such program may be enforced in the same way as any provision of this Section.
 - a. Lease Agreements. The Comprehensive Sign Program and all conditions of approval shall be attached to the lease agreements for all leasable space within a project.

- b. Individual Signs. Any sign that conforms to an approved Comprehensive Sign Program may be approved by the Community and Economic Development Director; however, individual signs proposed under an approved Comprehensive Sign Program require a Sign Permit.
- c. Amendments. The Community and Economic Development Director may approve minor amendments to a Comprehensive Sign Program that are in substantial conformance with the original approval. Minor amendments include revisions to sign location, sign type, and sign orientation. All other amendments, including amendments to total sign area and/or conditions of approval, shall be processed as a new application.

D. Creative Sign Permits.

- 1. Purpose. The purposes of the Creative Sign Permit are to:
 - a. Encourage signs of unique design that exhibit a high degree of thoughtfulness, imagination, inventiveness, and spirit; and
 - b. Provide a process for the application of sign regulations in ways that will allow creatively designed signs to make a positive visual contribution to the overall image of the city, while mitigating the impacts of large or unusually designed signs.
- 2. When Required. An applicant may request approval of Creative Sign Permit to authorize one on-site sign that employs standards that differ from the standards applicable to signs established in this Chapter but comply with the specific provisions of this Section. However, the Creative Sign Permit process shall not be used to allow any prohibited sign type or feature set forth in Section 19.22.040.
- 3. Findings and Decision. The following findings are required to be made by the responsible review authority in the approval of a Creative Sign Permit application, with or without conditions:
 - a. Design quality. The proposed creative sign will:
 - (1) Comply with the design principles set forth in Section 19.22.050;
 - (2) Contribute a substantial aesthetic improvement to the site and have a positive visual impact on the surrounding area;

- (3) Have a unique design and exhibit a high degree of imagination, inventiveness, spirit, and thoughtfulness through the use of color, graphics, proportion, quality materials, scale, and/or texture;
 - (4) Utilize or enhance the architectural elements of the building; and
 - (5) Be located and designed not to cause light and glare impacts on surrounding uses, especially residential uses.
 - b. Contextual criteria. The sign will also contain at least one of the following elements:
 - (1) Classic historic design style;
 - (2) Creative image reflecting current or historic character of the City of San Bernardino; or
 - (3) Inventive representation of the logo, name, or use of the structure or business.
4. Expiration, Extension, and Amendment of Creative Sign Permit. Procedures for expiration, extension, and amendments of Creative Sign Permits shall comply with Section 19.22.060(B)(4) and Section 19.22.060(B)(5).

E. Iconic Sign Permits.

1. Purpose. The purpose of the Iconic Sign Permit is to:
 - a. Preserve signs that, through design and artistic expression unrelated to their message, are culturally significant and represent unique character, history, and identity; and
 - b. Protect the community from inappropriate reuse of nonconforming and/or illegal signs.
2. Application. An application for an Iconic Sign Permit may be made by a business owner, property owner, or the City of San Bernardino for consideration by the responsible review authority.
3. Findings and Decision. In granting an Iconic Sign Permit, the responsible review authority shall be required to make the following findings:
 - a. Technical Criteria. Iconic Signs shall meet the following technical criteria:

- (1) The sign uses materials, technology, or sign-making technique representative of its period of construction;
- (2) The sign is structurally safe or can be made safe without substantially altering its original appearance; and
- (3) The sign retains the majority of its character-defining features. If character-defining features have been altered or removed, the majority are potentially restorable to their original function and appearance.

b. Design Criteria. Iconic Signs shall meet two or more of the following cultural or vernacular design features:

- (1) The sign exemplifies the cultural, economic, or period heritage of the City of San Bernardino.
- (2) The sign exhibits extraordinary aesthetic quality, creativity, or innovation;
- (3) The sign represents an entity that is an important part of San Bernardino history; or the sign is obsolete sign copy that is originally associated with a chain or franchise business that is either local or regional chain or franchise only found in the City of San Bernardino or the southwestern United States; or the sign is associated with a significant historical event; or there is scholarly documentation to support its preservation; or it is a rare surviving example of a once common type; or
- (4) The sign is at least 50 years old.

4. Standards and Allowances for Iconic Signs.

- a. Structural Improvements. Iconic Signs may have structural improvements completed to extend the life of the sign, provided such improvements do not affect the integrity of the iconic nature of the sign.
- b. Damage Repairs. If the sign is damaged, it may be repaired and/or replaced with the original sign area and original height, even if the sign does not conform to the standards of this Chapter, provided such repairs do not affect the integrity of the iconic nature of the sign.

- c. Sign Area Bonus. The area of an Iconic Sign shall not be counted toward the maximum sign area for a premise.
 - d. Relocation. Relocation of an Iconic Sign shall be permitted through an approved Sign Permit, provided the following requirements are met:
 - (1) Relocation shall be to a location within the original premises or to a location within the specific neighborhood in which the sign was originally located; and
 - (2) If relocated to another premise, the sign shall display a conspicuous text or a plaque, using a template provided by the City of San Bernardino, that indicates that the sign has been relocated, the date of relocation, and the original location.
 - e. Change in Sign Copy.
 - (1) Changes in sign copy shall be permitted, provided such changes do not result in changes to character-defining text, as determined by the Community and Economic Development Director.
 - (2) Changes in sign copy shall match or be compatible with existing text in material(s), letter size, font/ typography, and color, as determined by the Community and Economic Development Director.
5. Expiration, Extension, and Amendment of Iconic Sign Permit. Procedures for expiration, extension, and amendments of Iconic Sign Permits shall comply with Section 19.22.060(B)(4) and Section 19.22.060(B)(5).

F. Nonconforming Sign Modifications via a Nonconforming Sign Permit.

- 1. Purpose. The purpose of the Nonconforming Sign Permit is to allow signs that are legally nonconforming only by virtue of the zone in which they are located (meaning that the zone does not permit the sign) to have minor modifications and improvements made to them.
- 2. When Required. A Nonconforming Sign Permit is required whenever the owner of a sign located on a property which has been rezoned and where the rezoning has resulted in the sign becoming nonconforming proposes to modify an existing Nonconforming Sign's pole structure or relocate a sign on the same site.
- 3. Permitted Modifications.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- a. Relocation. Such sign may be relocated on the subject site to a location that reduces impacts on surrounding residential uses, improves onsite circulation, or improves the visibility of the sign without impacting surrounding uses.
 - b. Replacement. A Nonconforming Sign may be replaced with an Awning Sign or Wall Sign, of a size not to exceed the existing sign.
 - c. Improvements to Pole Signs. The structure of a Pole Sign may be modified to improve the physical appearance of the pole structure, as determined by the responsible review authority.
4. Findings and Decision. In granting a Nonconforming Sign Permit, the responsible review authority shall be required to make the following findings:
- a. The Nonconforming Sign Modification is in substantial compliance with any applicable design guidelines and the design principles set forth in Section 19.22.050;
 - b. The Nonconforming Sign Modification will result in a sign or signs that are visually related or complementary to each other and to the buildings and/or developments they identify through the integration of predominant architectural materials, elements, or details of such buildings or developments;
 - c. The size, height, and sign type of the nonconforming sign are permitted in a zone in the City of San Bernardino that allows the type of use the sign identifies;
 - d. The Nonconforming Sign Modification does not include a digital sign; and
 - e. The Nonconforming Sign Modification will not result in signs that would impair pedestrian and vehicular safety nor create light and glare that would negatively affect nearby residential uses.
5. Expiration, Extension, and Amendment of Nonconforming Sign Modification Permit. Procedures for expiration, extension, and amendments of Nonconforming Sign Permits shall comply with Section 19.22.060(B)(4) and Section 19.22.060(B)(5).

G. Minor Sign Area Modification.

1. Purpose. The purpose of the Minor Sign Area Modification Permit is to encourage Permanent Signs that exhibit extraordinary aesthetic quality, creativity, and/or innovation through a minor increase to the maximum allowed sign area.
2. Application. An application for a Minor Sign Area Modification Permit may be made by a business owner, property owner, or the City of San Bernardino for consideration by the responsible review authority.
3. Permitted Modification. Permanent Signs may deviate no more than 10 percent from the applicable maximum sign area standard established in this Chapter. A modification permitted by this Subsection shall not be additive to any modification allowance permitted by this Chapter, including a Comprehensive Sign Program.
4. Findings and Decision. In granting a Permanent Sign Area Modification Permit, the responsible review authority shall be required to make the following findings:
 - a. The Permanent Sign complies with the design principles set forth in Section 19.22.050;
 - b. The Permanent Sign will contribute a substantial aesthetic improvement to the site and have a positive visual impact on the surrounding area; and
 - c. The Permanent Sign will provide strong graphic character through the effective use of color, graphics, proportion, quality materials, scale, and texture.
5. Expiration, Extension, and Amendment of Permanent Sign Area Modification Permit. Procedures for expiration, extension, and amendments of Permanent Sign Area Modification Permits shall comply with Section 19.22.060(B)(4) and Section 19.22.060(B)(5).

(Ord. MC-1531, 6-03-20)

19.22.070 Permanent Signs

- A. Permanent Sign Standards by Zone. All Permanent Signs shall comply with the standards set forth in this Section. Additional Permitted Signs are included under Section 19.22.020(C). Tables 22.03, 22.04, 22.05, and 22.06 identify the sign type, number, location, area, and height allowed within each zone, along with any applicable additional regulations. The standards contained in Tables 22.03, 22.04, 22.05, and 22.06 are maximums, unless otherwise stated.

B. Standards by Sign Type. As listed in, and in addition to the standards in Tables 22.03, 22.04, 22.05, and 22.06, signs shall comply with the following standards applicable to the specific sign type. Each sign shall also comply with the requirements of Section 19.22.030 and all other applicable provisions of this Chapter.

1. Awning Signs. Awning Signs are permitted pursuant to Section 19.22.070(A) Tables 22.04 and 22.05.
 - a. Location. Awnings that display signage shall be limited to building frontages on the ground floor of buildings.
 - b. Combined Sign Area. Combinations of signs on awnings, canopies, and walls are permitted but shall not exceed the maximum allowable sign area for Wall Signs per building elevation.
 - c. Vertical clearance. A minimum vertical clearance of at least eight feet from bottom of the awning, including valance, to finished grade shall be maintained.

Figure 22.07: Vertical Clearance

- d. Setback and projection into public right-of-way. A minimum of two feet between the edge of the awning and the outer curb face shall be maintained. Any encroachment into City right-of-way is subject to City Engineer approval and requires a City Encroachment Permit.
2. Canopy Signs. Canopy Signs are permitted pursuant to Section 19.22.070(A) Tables 22.04 and 22.05

- a. Location. Canopies that display signage shall be limited to building frontages on the ground floor of buildings.
- b. Height. Canopy Signs shall not project more than 24 inches above the highest point of any canopy, and not above the roofline of the structure for attached canopies.
- c. Combined Sign Area. Combinations of signs on awnings, canopies, and walls are permitted but shall not exceed the maximum allowable sign area for Wall Signs per building elevation.
- d. Setback and Projection into public right-of-way. A minimum of two feet between the edge of the canopy and the outer curb face shall be maintained. Any encroachment into City right-of-way is subject to City Engineer approval and requires a City Encroachment Permit.

Figure 22.08: Canopy Signs

3. Digital Signs.
 - a. No Flashing. Digital Signs shall not flash, blink, flutter, include intermittent or chasing lights, or display video messages (i.e., any illumination or message that is in motion or appears to be in motion).
 - b. Display Change. Digital Signs may display changing messages, provided that each message is displayed for no fewer than eight consecutive seconds, unless otherwise permitted by an approved agreement with the City, and in no case shall a message be displayed fewer than four seconds. The transition or blank screen time between one display message and the next shall not exceed one second.

c. Night-time brightness.

- (1) Night-time brightness shall be measured with an illuminance meter set to measure foot-candles accurate to at least two decimals. Illuminance shall be measured with the electronic message off, and again with the electronic message displaying a white image for a full color-capable electronic message or a solid message for a single-color electronic message.
- (2) All measurements shall be taken perpendicular to the face of the electronic message at the following distance:

$$\text{Measurement Distance} = \sqrt{\text{Area of Sign Sq. Ft.} \times 100}$$

- (3) The difference between the off and solid message measurements shall not exceed 0.3 foot-candles at night.

- d. Ambient Light Sensor. Digital Signs shall be equipped with a sensor or other device that automatically determines the ambient illumination and programmed to automatically dim according to ambient light conditions (e.g., photocell technology), or that can be adjusted to comply with the 0.3 foot-candle requirement.
- e. Turn Off. Digital Signs located within 500 feet and in a direct line of sight of a residentially zoned property shall be turned off daily at the close of business, or at such a time as specified by the Community and Economic Development Director, and in no case shall be permitted to be turned on between the hours of 2:00 A.M. and 6:00 A.M.
- f. Prohibited Digital Signs. Awning Signs, Canopy Signs, Window Signs, and Driveway/Onsite Traffic Directional Signs shall not include digital copy.
- g. Certification of Compliance. The owner of any Digital Sign shall arrange for certification by an independent contractor showing compliance with brightness standards.

4. Monument Signs. Monument Signs are permitted pursuant to Section 19.22.070(A) Tables 22.03, 22.04, 22.05, and 22.06.

- a. Minimum Street Frontage. A minimum street frontage of 100 feet is required for establishment of a monument sign.

[Return to Municipal Code Contents]

- b. Minimum Separation. Monument Signs shall have a minimum separation of 50 feet from any other Monument Sign on an adjacent property.
 - c. Digital Sign Minimum Separation. Where a Monument Sign includes a digital sign, the minimum radial distance to any other Digital Sign shall be 200 feet.
 - d. Digital Sign Copy. Digital sign copy is permitted to occupy up to 75 percent of maximum allowable monument sign area, subject to an approved Sign Permit or Comprehensive Sign Program.
 - e. Setback. Monument Signs shall be set back a minimum of five feet from any property line, unless otherwise specified in this Chapter.
 - f. Either Monument or Pylon as Primary Sign Type. Properties with less than 600 feet of street frontage shall be permitted to have either one Monument Sign or one Pylon Sign as the primary signage, but not both. Properties with more than 600 feet of street frontage shall be permitted to have one Pylon or Monument sign per 600 feet of street frontage.
 - g. Landscaping Required. All Monument Signs shall be located within the required landscaped setback or a landscaped planting bed, unless this requirement is waived through review by the Community and Economic Development Director based on site-specific conditions.
5. Projecting Signs. Projecting Signs are permitted pursuant to Section 19.22.070(A) Tables 22.04 and 22.05.
- a. Projection from Wall. Projecting Signs shall project no more than four feet from the face of the building wall upon which the sign is mounted.
 - b. Projection into Public Right-of-way. Any encroachment into City right-of-way is subject to City Engineer approval and requires a City Encroachment Permit.
 - c. Vertical clearance. A minimum vertical clearance of eight feet from the bottom of the Suspended Sign to finished grade shall be maintained.
6. Pylon Signs. Pylon Signs are permitted pursuant to Section 19.22.070(A) Tables 22.04 and 22.05.
- a. Minimum Street Frontage. A minimum street front of 100 feet is required for establishment of a pylon sign.

- b. Minimum Separation. Pylon Signs shall have a minimum separation of 50 feet from any other Pylon Sign on an adjacent property.
- c. Digital Sign Minimum Separation. Where a Pylon Sign includes a Digital Sign, the minimum radial distance to any other Digital Sign shall be 200 feet.
- d. Digital Sign Copy. Digital sign copy is permitted to occupy up to 75 percent of maximum allowable pylon sign area, subject to an approved Sign Permit or Comprehensive Sign Program.
- e. Setback. Pylon Signs shall be set back a minimum of 5 feet from any property line, unless otherwise specified in this Chapter.
- f. Either Monument or Pylon as Primary Sign Type. Properties with less than 600 feet of street frontage shall be permitted to have either one Monument Sign or one Pylon Sign as the primary signage, but not both. Properties with more than 600 feet of street frontage shall be permitted to have one Pylon or Monument sign per 600 feet of street frontage.
- g. Landscaping Required. All Pylon Signs shall be located within the required landscaped setback or a landscaped planting bed, unless this requirement is waived through review by the Community and Economic Development Director based on site-specific conditions.
- h. Vertical Clearance. A minimum vertical clearance of 14 feet is required for Pylon Signs projecting over vehicular passageways. A minimum vertical clearance of eight feet is required for Pylon Signs projecting over pedestrian passageways.

- i. Multiple Tenants. A Pylon Sign for a multiple tenant site shall have no more than eight separate sign areas.

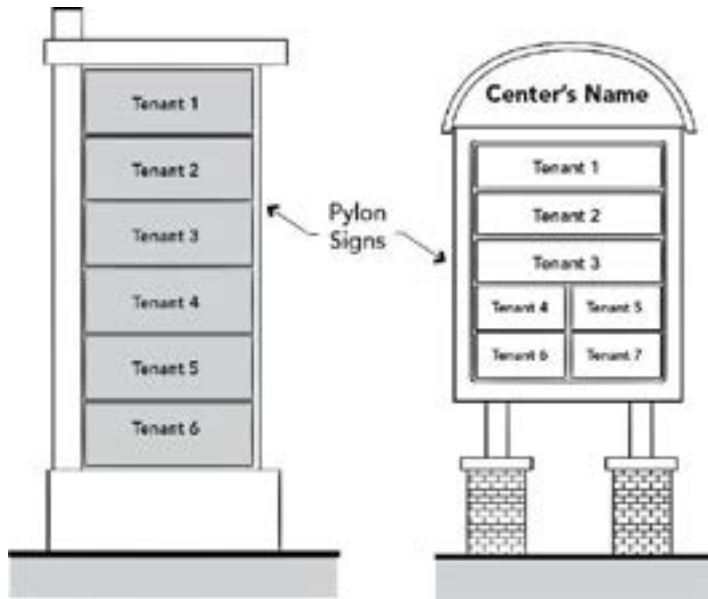

Figure 22.09: Multiple Tenant Pylon Signs

- 7. Suspended Signs. Suspended Signs are permitted pursuant to Section 19.22.020(C)(2) Table 22.01.
 - a. Location. Suspended Signs shall be limited to building frontages on the ground floor of non-residential buildings.
 - b. Illumination. Suspended Signs may be externally or internally illuminated but shall not be Digital Signs.
 - c. Vertical clearance. A minimum vertical clearance of eight feet from the bottom of the Suspended Sign to finished grade shall be maintained.
 - d. Projection into Public Right-of-way. Any encroachment into City right-of-way is subject to City Engineer approval and requires a City Encroachment Permit.
- 8. Wall Signs. Wall Signs are permitted pursuant to Section 19.22.070(A) Tables 22.03, 22.04, 22.05, and 22.06.
 - a. Placement.
 - (1) No Wall Sign shall cover, wholly or partially, any wall opening.

- (2) Unless a different orientation is specifically authorized, each wall-mounted sign shall be placed flat against the wall of the building.
 - b. Cumulative Wall Sign Area. In Commercial Zones, there is no limit on the number of Wall Signs. However, the combined area of all Wall Signs shall cumulatively comply with maximum size requirements.
 - c. Roof Signs in Lieu of Wall Signs. Where a Roof Sign is permitted due to a lack of available building mansard for a sign, such Roof Sign's allowable area shall be equivalent to the allowed sign area for Wall Signs.
- 9. Window Signs. Window Signs are permitted pursuant to Section 19.22.020(C) (2) Table 22.01.
 - a. Location. Window Signs shall not be allowed on windows located above the second story.
 - b. Window Sign Location. Signs shall be placed so that law enforcement and public safety personnel have a clear and unobstructed view of the interior of the establishment, including cash registers. Signage inside the building shall not be allowed within three feet of the window.
 - c. Perforated and/or Transparent Window Signs. Perforated and/or transparent Window Signs may be excluded from window sign size calculations subject to review and approval by the Community and Economic Development Director and the determination that such signs are placed so that law enforcement and public safety personnel have a clear and unobstructed view of the interior of the establishment, including cash registers.
 - d. Digital Window Signs Prohibited. Digital Window Signs are not permitted, including any such signs placed within 10 feet of the window.
- C. Signage Allowances for Specific Uses. This Section establishes signage allowances for specific uses.
 - 1. Drive-Through Establishments. In addition to the signs allowed in Section 19.22.070(A), businesses with drive-through(s) shall be allowed the following signs, subject to the issuance of a Sign Permit or approval of a Comprehensive Sign Program.
 - a. Number and Size. Two additional freestanding Menu Board signs are permitted for each establishment with a drive-through, not exceeding 32 square feet apiece (or not to exceed a combined 64 square feet).

[\[Return to Municipal Code Contents\]](#)

- b. Height. Freestanding menu board signs shall not exceed eight feet in height. The freestanding menu board sign structure may extend above the sign height limit if:
 - (1) The sign structure is separately constructed from the cabinet or face of the sign;
 - (2) The portion above the cabinet or face does not contain any copy; and
 - (3) The extension adds architectural embellishments to the sign.
- 2. Service Stations. In addition to the signs allowed in Section 19.22.070(A), service stations shall be allowed the following sign area and sign types subject to the issuance of a Sign Permit or approval of a Comprehensive Sign Program.
 - a. Service Island Signs. Additional incidental signs are allowed up to a maximum of two per each service island, with each such sign not exceeding three square feet.
 - b. Service Station Canopy Signs. Signs on service station canopies shall not exceed 50 square feet on each side.

Figure 22.10: Service Station Canopy Signs

- 3. Theaters. In addition to the signs allowed in Section 19.22.070(A), theaters shall be allowed the following additional signs subject to the issuance of a Sign Permit or approval of a Comprehensive Sign Program.

- a. Sign Type and Number. Developments containing theaters are allowed one additional Pylon Sign or Monument Sign with changeable copy (digital or manual) with a maximum size of 80 square feet. Such sign shall comply with height requirements for Pylon Signs and Monument Signs as listed in Table 22.04.
 - b. Special Advertisements. Glass encasements for special advertisements shall be allowed to be affixed to the primary building. Encasements shall not exceed a width of three feet or a height of four feet, the number of which shall be approved by the Community and Economic Development Director via the Sign Permit or Comprehensive Sign Program process.
4. Non-Residential Uses within Freeway Corridor Overlay Zone. In addition to the signs allowed in Section 19.22.070(A), non-residential uses located within the Freeway Corridor Overlay (FC) zone shall be allowed the following additional sign area or sign types subject to the issuance of a Sign Permit or approval of a Comprehensive Sign Program.
- a. Freeway Frontage of more than 100 feet - Maximum Sign Area.
 - (1) For single tenant sites with at least 100 feet of freeway frontage, one Freeway- Oriented Sign of up to 200 square feet is permitted.
 - (2) For multiple tenant sites with at least 100 feet of freeway frontage, one Freeway-Oriented Sign of up to 100 square feet per anchor tenant is permitted.
 - b. Freeway Frontage of more than 1,000 feet - Maximum Sign Area. For sites over five acres in size with more than 1,000 feet of freeway frontage, two Freeway- Oriented Signs of up to 100 square feet per anchor tenant with up to eight sign areas each are permitted. These signs shall not be placed closer than 600 feet of each other.
 - c. Sign Type. Freeway-Oriented Signs may be Pylon Signs or Wall Signs. Freeway- Oriented Wall Signs are permitted only on buildings fronting the freeway.
 - d. Height. Sign height shall not exceed 50 feet above freeway grade. Sign height may be allowed to exceed this height limit if a flag test approved by the City of San Bernardino determines that a sign of lower height would be partially or wholly obscured but shall in no case shall sign height exceed 75 feet above freeway grade.

- e. Setback. Freeway-Oriented Pylon Signs shall be set back at least five feet from any property line.
- f. Orientation. Freeway-Oriented Signs shall be oriented toward the adjacent freeway. A Freeway-Oriented Sign shall be considered oriented to a freeway where the sign face makes an interior angle of more than 30 degrees to the freeway.
- g. Tree Replacement. Any tree that is removed to accommodate the installation of any sign shall be replaced with a minimum 48-inch box tree at a location approved by the Community and Economic Development Director.
- h. General Advertising Prohibited. Freeway-Oriented Signs shall not be used for general advertising (billboards).
- i. California Department of Transportation (Caltrans) Compliance. All Freeway-Oriented Signs shall comply with the California Outdoor Advertising Act, Business and Professions Code Section 5200, or as subsequently revised, and shall be referred to Caltrans as appropriate for comment prior to Community and Economic Development Director review of the application for a Sign Permit or Comprehensive Sign Program.

D. General Standards for Permanent Signs in all Zones.

- 1. Properties with Limited or No Street Frontage. In any circumstance where a property has no street frontage or less than 20 feet of street frontage (for example, as a flag lot), signage shall be allowed on an adjacent property with the same zone as the subject property, subject to approval of a Comprehensive Sign Program and with the written permission of the property owner on whose property the sign is to be erected.
- 2. Signage Allowed for Each Establishment. Each establishment in a non-residential zone may have at least one Wall Sign for each frontage, one Window Sign or door sign for each entrance, and one Suspended Sign, subject to compliance with the requirements of this Chapter.

(Ord. MC-1531, 06-03-20)

19.22.080 Temporary Signs

All Temporary Signs shall comply with the standards provided in this Section. A Temporary Sign Permit shall be obtained from the Community and Economic Development Department prior to the display of Temporary Signs, unless specified in Section 19.22.020(C).

- A. Purpose. In addition to Section 19.22.010, the purpose of this Section is to ensure that Temporary Signs do not create a distraction to the traveling public by limiting the proliferation of Temporary Signs and eliminating aesthetic blight and litter that are detrimental to the public's health, safety, and welfare.
- B. General Standards for All Temporary Signs.
 - 1. Temporary Sign Content Neutrality. All regulations and standards in this Section are to be exercised in light of the City's content neutrality policy. These provisions are not intended to limit, censor, or restrict free speech.
 - 2. Number. The maximum number of Temporary Signs that may be displayed at the same time is subject to compliance with the applicable requirements of this Section. The number and area of Temporary Signs shall not be included in the calculation of aggregate permanent sign area.
 - 3. Materials and Maintenance.
 - a. Temporary exterior signs shall be made of durable, weather-resistant material. Only interior window signs may be made of nonrigid (e.g., paper) material.
 - b. Temporary Signs shall be well maintained consistent with Section 19.22.030(H).
 - 4. Illumination Prohibited. Temporary signs shall not be illuminated.
 - 5. Sign Placement.
 - a. Temporary Signs are allowed on private property only subject to permission of the property owner.
 - b. Temporary Signs shall not be placed in any public right-of-way except in compliance with Section 19.22.120.

- c. Temporary Signs shall only be placed where Permanent Signs are allowed.
- 6. Removal of Signs. Temporary Signs and their components shall be promptly removed at the expiration of the Temporary Sign Permit.
- C. Temporary Sign Standards for Non-Residential Zones. Temporary Signs in non-residential zones (including Commercial, Downtown, Industrial, Public, and Quasi-Public Zones) are allowed as provided in Table 22.07. The signs in Table 22.07 are allowed in any combination unless otherwise noted in this Section; however, businesses shall not display more than three Temporary Signs (excluding window signs) at any one time.

(Table 22.07 on the following page.)

**Table 22.07
Temporary Sign Standards for Non-Residential Zones**

Sign Type	Maximum Number	Maximum Sign Area	Maximum Sign Height	Additional Requirements
b. Banner Signs	1 per business frontage	30 sf or 10% of business frontage on which banner is placed, whichever is greater	N/A	<ul style="list-style-type: none"> Section 19.22.080(D)(1) For the purposes of calculating allowed banner sign area, the height of a business frontage shall be eight feet regardless of existing conditions
c. Yard Signs	1 per business frontage	12 sf (lots < 1 acre)	6 ft (lots < 1 acre)	<ul style="list-style-type: none"> Section 19.22.080(D)(2)
	1 sign per street frontage	32 sf (lots ≥ 1 acre)	8 ft (lots ≥ 1 acre)

f. Portable Temporary Signs	1 per business frontage	6 sf	6 ft	<ul style="list-style-type: none"> Section 19.22.080(D)(5) Permitted only in the Main Street Overlay Zone

(Ord. MC-1531, 06-03-20)

D. Standards by Temporary Sign Type.

1. Banner Signs and Pennants. Businesses and institutions may exhibit Banner Signs and/or Pennants related to an activity or event having a specific duration, or the end of which is related to a specific action.
 - a. Installation. Banner Signs and Pennants shall be affixed to a permanent structure or fence (i.e., cannot be freestanding, such as mounted on temporary posts or affixed to trees).
 - b. Duration. A Banner Sign or Pennant may be displayed for no longer than 90 consecutive days, twice per calendar year. A minimum of 30 days is required between the two 90-day display periods.
 - c. Projection. Banner Signs and Pennants shall not project above the edge of the roof of a structure.
 - d. Materials and Maintenance. Banner Signs and Pennants shall be professionally crafted and well-maintained (not torn, bent, faded, or dirty). Banner Signs shall be securely affixed at all corners.
2. Yard Signs. Businesses and institutions may exhibit Yard Signs related to an activity or event having a specific duration, or the end of which is related to a specific action.
 - a. Setback. Yard Signs shall maintain a minimum one-foot setback from any property line.
 - b. Location. Yard Signs shall be located outside of public rights-of-way, within a landscaped area.
 - c. Installation. Yard Signs shall be installed securely in the ground.
 - d. Duration. A Yard Sign may be displayed for no longer than 90 consecutive days, twice per calendar year. A minimum of 30 days is required between the two 90-day display periods.
3. Inflatable Signs. Businesses and institutions may exhibit Inflatable Signs related to a temporary activity or event only for which a temporary event permit was approved.
 - a. Setback. Inflatable Signs shall maintain a minimum five-foot setback from any property line.

- b. Location. Inflatable Signs shall not be placed in the public right-of-way. Inflatable Signs may be located on within required setbacks or elsewhere on the property.
 - c. Installation. Inflatable Signs shall be installed securely in the ground or affixed to a structure.
 - d. Duration. Inflatable Signs may be displayed for no longer than 30 consecutive days, no more than twice per rolling calendar year, and may not be displayed within 30 days following the prior activity or event for which an Inflatable Sign was displayed.
4. Feather Signs. Businesses and institutions may exhibit Feather Signs related to an activity or event having a specific duration, or the end of which is related to a specific action.
- a. Materials. Acceptable materials for Feather Signs include vinyl, nylon reinforced vinyl, polyethylene or polyester-like materials, durable fabric or similar materials.
 - b. Location. Feather Signs shall not interfere with either pedestrian or vehicular sight distance, any view corridor or obstruct views to any existing business or existing permanent sign.
 - c. Duration. Feather Signs are permitted during the hours a business is open for business and one-half hour before opening and one-half hour after closing. Feather Signs shall be removed during hours when the establishment is not open to the public.
5. Portable Temporary Signs in Main Street OverlayZone.
- a. Location. A Portable Sign may be located on private property or in the public right- of-way with an approved encroachment permit. Portable Signs are allowed in the City right-of-way in the Main Street Overlay Zone with an Encroachment Permit, provided the sign does not interfere with vehicular or pedestrian movement or wheelchair access to, through, and around the parcel on which the sign is located, or create traffic hazards. A minimum access width of four feet shall be maintained along all sidewalks and building entrances accessible to thepublic.
 - b. Duration. Portable Signs are permitted during the hours a business is open for business and one-half hour before opening and one-half hour after closing. Portable Signs shall be removed during hours when the establishment is not open to the public.

[Return to Municipal Code Contents]

- c. **Materials and Maintenance.** Portable Temporary Signs shall be professionally crafted and constructed of durable, weather-resistant materials (not subject to damage or fading from weather), and be of sufficient weight and durability to withstand wind gusts, storms, etc.
 - d. **Indemnification.** The placement of a Portable Sign in the City right-of-way requires the business, person, or entity responsible for placing the sign to indemnify and hold harmless the City from any action or expense that may occur as a result of a Portable Sign being located on any sidewalk or City right-of-way, satisfactory to the City Attorney. The Encroachment Permit shall not be issued until the City Attorney has determined that this requirement has been complied with. Portable Signs for any business that fails to indemnify the City shall be deemed illegal, nonconforming, and shall be removed.
6. **Temporary Residential Subdivision Signs.** Temporary Residential Subdivision Signs are permitted in single-family residential zoning districts for each builder in a recorded subdivision plat only in conjunction with a valid building permit. For the purposes of this Subsection, a residential subdivision is defined as a housing project within a recorded tract where five or more structures or dwelling units are concurrently undergoing construction.
- a. **Size.** Temporary residential subdivision signs shall not exceed 100 square feet or two square feet of sign area for each lot with a dwelling unit to a maximum of 200 square feet. No single sign may be larger than 100 square feet and eight feet in height and shall be set back at least 10 feet from any property line (or five feet if the sign area is less than 32 square feet).
 - b. **Separation.** No temporary residential subdivision sign structure shall be located less than 300 feet from an existing or previously approved temporary residential subdivision sign structure, except in the case of signs on different corners of an intersection.
 - c. **Location.** All temporary residential subdivision signs shall be placed on private property with written consent of the property owner or on City right-of-way pursuant to a City encroachment permit.
 - d. **Location Plan.** A temporary residential subdivision sign location plan shall be prepared, showing the site of each sign, including any secondary signage, and shall be approved by the Community and Economic Development Director prior to the issuance of a Sign Permit. The placement of each temporary residential subdivision sign structure shall be reviewed and approved by the Community and Economic Development Director.

[\[Return to Municipal Code Contents\]](#)

- e. Additions. There shall be no additions, tag signs, streamers, devices, display boards, or appurtenances, added to the temporary residential subdivision signs as originally approved, and no other non-permitted signs, such as posters or trailer signs, may be used.
 - f. Removal. Temporary residential subdivision signs shall be removed when the subdivision is sold out. The entity administering the program will be responsible for removal of panels and structures no longer needed.
7. Temporary Signs during Elections and on Residential Property. See Section 19.22.020(C)(2) for regulations pertaining to Temporary Signs located on residential property during elections and during times when a residential activity is occurring, such as a yard sale or a property is advertised for sale, rent, or lease.

(Ord. MC-1531, 06-03-20)

19.22.090 General Advertising Signs (Billboards)

- A. General Prohibition. General Advertising Signs (billboards) are prohibited in all zones unless authorized by this Section in connection with the relocation of an existing legally established nonconforming billboard or in connection with the conversion of an existing static (non-digital) General Advertising Sign to digital General Advertising Sign.
- B. Applicability. Any legal nonconforming General Advertising Sign may be considered as a candidate for relocation approval. Such General Advertising Signs may be relocated to a new site or relocated on the present site only in accordance with this Section.
- C. Required Permits and Agreements.
 - 1. Billboard Relocation/Conversion Agreement and Conditional Use Permit Required. The relocation or conversion of existing static General Advertising Signs to digital General Advertising Signs, or any modification to an existing General Advertising Sign, shall be subject to an approved Billboard Relocation/Conversion Agreement and Conditional Use Permit.
 - 2. Billboard Relocation/Conversion Agreement Parameters. The Billboard Relocation/Conversion Agreement shall include, but is not limited to, standards to regulate the following: sign size, “air time” for public service announcements, and any relocation or replacement provisions, and may include a revenue-sharing provision.

[\[Return to Municipal Code Contents\]](#)

3. Lease or License Agreement. Construction and installation of General Advertising Signs on property owned by the City of San Bernardino or its related agencies may be accomplished by lease or license in lieu of a Billboard Relocation/Conversion Agreement, and any reference to a development agreement in this Chapter shall include leases or licenses on such properties.
- D. Removal Requirement. In exchange for the right to locate one new replacement General Advertising Sign at a new site, or to modify characteristics of an existing legally established General Advertising Sign, such as sign area, height, and/or type, the following removal requirements apply:
1. Existing Sign Removal Prior to New Sign Installation. Any existing legally established General Advertising Sign shall be removed prior to the installation of an authorized replacement General Advertising Sign.
 2. Number of Signs Required for Removal. Upon agreement between the sign owner and the City, the sign owner shall abandon a minimum of six legally nonconforming static General Advertising Sign faces and replace them with one new digital General Advertising Sign face, subject to the provisions of this Chapter.
- E. Replacement of General Advertising Signs on the Same Site Without Modifications. An existing legally established General Advertising Sign may be replaced on the same site with another General Advertising Sign as a “like-for-like” replacement (i.e., same size, height, number of faces, and type).
- F. Development Standards.
1. Location. A replacement or relocated General Advertising Sign shall be located on either:
 - a. City-owned property; or
 - b. Property in the CG, CR, IL, or IH zones that is within 200 feet of the outer edge of the I-10 freeway, I-215 freeway, and SR-210 freeway rights-of-way.
 2. Size. The replacement sign area shall not exceed the sign area of the existing sign to be replaced, and in no event shall a replacement sign contain greater than 672 square feet of advertising sign area.
 3. Static-Display Spacing Requirements. Spacing between static-display General Advertising Signs shall be:

- a. Up to 100 square feet of sign face: 300 linear feet
 - b. Up to 300 square feet of sign face: 400 linear feet
 - c. Up to 672 square feet of sign face: 600 linear feet
4. Digital Sign Spacing Requirements. Digital General Advertising Signs shall be placed no closer than 1,000 feet from another Digital Sign (either general advertising or on-site) on the same side of the freeway or street.
 5. Height. The height of each digital General Advertising Sign shall be limited to 50 feet above the grade of the adjacent street or freeway grade, as applicable, unless the applicant can demonstrate by a flag test or other means approved by the Community and Economic Development Director that clearly demonstrates greater height is needed for visibility.
 6. Brightness. Digital General Advertising Signs shall comply with Section 19.22.070(B)(3).

(Ord. MC-1531, 06-03-20)

19.22.090 Permanent Flags

Permanent flags may be installed subject to a comprehensive sign program pursuant to Section 19.22.040(2). Permanent flags shall be consistent with programs that relate to a cultural or civic event or goal of the City. Standards of safety and maintenance shall be assured. Such flag programs shall be subject to the following provisions:

1. Permitted uses/buildings include auditoriums, convention halls, performance centers, libraries, museums, public agency facilities, approved urban design plans, and other uses/buildings deemed similar by the Director, pursuant to Section 19.02.070(3).
2. Flags shall be constructed of pliable materials such as canvas, vinyl-coated fabric, acrilan, or similar materials which will withstand exposure to wind and rain without significant deterioration.
3. No sign permits for single flags and banners are permitted.
4. No commercial advertising of products or services is permitted on permanent flags.
5. All permanent flags shall require building permits as necessary for construction or installation.

[Return to Municipal Code Contents]

6. Decorative flags shall be placed so there is no projection above the eaveline of the building.
7. Decorative flags shall be non-illuminated.
8. Flag copy shall be limited to the name and date of publicized event.
9. The number and location of permanent flags shall architecturally enhance the building on which they are placed.

(Ord. MC-979, 8-06-96)

19.22.100 Nonconforming Signs

Any nonconforming sign in the City of San Bernardino is subject to the provisions of Chapter 19.62, and the following:

- A. **Continuance and Maintenance.** Nonconforming Signs that were legal when first installed, and which have not been modified so as to become illegal, may be continued, except as otherwise provided in this Section.
 1. **Nonconformity.** Nonconforming Signs may be continued and shall be maintained in good condition as required by Section 19.22.030(H), including reasonable and routine maintenance and repairs, provided there is no expansion of any nonconformity with the current requirements of this Chapter.
 2. **No Change to Physical Structure.** Sign copy and face changes, nonstructural modifications, and nonstructural maintenance (e.g., painting and rust removal) are allowed so long as there is no alteration to the physical structure or support elements of the sign.
 3. **Illegal Signs.** A sign that did not conform to law existing at the time of its erection shall be deemed an Illegal Sign and shall not be a Nonconforming Sign. The passage of time does not cure illegality from the outset.
- B. **Alterations and Additions to Nonconforming Signs.** No Nonconforming Sign shall be moved, altered, or enlarged unless required by law or unless the moving, alteration, or enlargement will result in the elimination or substantial reduction of the sign's nonconforming features, unless otherwise allowed by an approved Iconic Sign Permit.
- C. **Abandonment of Nonconforming Sign.** Whenever a Nonconforming Sign has been abandoned or the use of the property on which the sign is located has been discontinued for a continuous period of 24 months, the Nonconforming Sign shall be removed as provided for in State law and Section 19.22.110 of this Chapter.

[Return to Municipal Code Contents]

- D. Restoration of a Damaged Nonconforming Sign. Whenever a Nonconforming Sign that is not an approved Iconic Sign is destroyed by any cause other than intentional vandalism, such sign may be only be restored, reconstructed, altered, or repaired in conformance with the provisions of this Chapter. Whenever a Nonconforming Sign that is an approved Iconic Sign is destroyed by any cause, the Iconic Sign may be restored to display the pre-existing sign area, and the nonconforming use of the sign may be resumed, provided that restoration is started within one year of the date that the damage occurred, restoration is diligently pursued to completion, and the height of the restored sign conforms to the standards of this Chapter.
- E. Building Façade Modification. If a Development Permit is issued for modifications to the exterior of a building façade, any nonconforming building signs on the façade undergoing modification shall be brought into full conformance with the provisions of this Chapter prior to approval for final occupancy.
- F. Building Demolition. All Nonconforming Freestanding Signs shall be demolished or removed when the building on which they are located or associated with is demolished.
- G. Iconic Signs. Signs with an approved Iconic Sign Permit are not subject to the requirements of this Section 19.22.100, but shall comply with Section 19.22.060(E)(4).
- H. Exceptions.
 - 1. Business and Professions Code. Notwithstanding any other provision of this Section, this Section shall not apply to any sign that may not be removed pursuant to the provisions of Business and Professions Code Section 5412.5 but only during the period of time that Business and Professions Code Section 5412.5 remains in force and effect.
 - 2. Nonconforming Sign Modification Permits. Notwithstanding any other provision of this Section, any Nonconforming Sign that has not been abandoned and is nonconforming only because of the zone in which it is located may apply for a Nonconforming Sign Modification Permit.

(Ord. MC-1531, 06-03-20)

19.22.110 Enforcement

- A. General Enforcement Procedures. It shall be unlawful to erect, construct, enlarge, alter, repair, display, or use a sign within the City of San Bernardino that is contrary to, or in violation of, any provision of this Chapter. The requirements of this Chapter shall be enforced in compliance with the applicable provisions of Chapter 19.46. In

[\[Return to Municipal Code Contents\]](#)

addition to any administrative, criminal, nuisance, or other enforcement procedure, the City of San Bernardino may withhold the issuance of Business Licenses, Building Permits, Grading Permits, Certificates of Occupancy, and other land use entitlements and may issue stop work orders for a development project failing to comply with the provisions of this Chapter

- B. Removal of Illegal Signs. Any Illegal Sign shall be removed by the property owner within 15 days after notice via a Notice of Violation from the Community and Economic Development Department.
- C. Abandoned Signs.
 - 1. Public Nuisance. Any Abandoned Sign or Illegal Sign is hereby declared to be a danger to the health, safety, and welfare of the citizens of San Bernardino. Any sign which is partially or wholly obscured by the growth of dry vegetation or weeds or by the presence of debris or litter also presents a danger to the health, safety, and welfare of the citizens of San Bernardino. Any such sign as set forth herein is hereby deemed to be a public nuisance.
 - 2. Removal. Any Abandoned Sign deemed to be a public nuisance shall be removed by the property owner within 30 days after notice via a Notice of Violation from the Community and Economic Development Department.
- D. Illegal and Abandoned Sign Appeals. Within the 15 days after a Notice of Violation from the Community and Economic Development Department is mailed, the property owner may request a hearing before the Hearing Officer on the illegal sign determination in compliance with the provisions of Chapter 9.94. The appeal shall be granted or the decision modified if facts or circumstances disprove the existence of an Illegal Sign. If no hearing is requested, if the appeal has been denied, and/or there is no correction to the violation, the Community and Economic Development Department will abate the violation. Costs of such abatement may be assessed against the property, using the procedures established in Chapter 8.30.

(Ord. MC-1531, 06-03-20)

19.22.120 Signs On Public Property

- A. Intent as to Public Forum. As it relates to the placing of signage on public property, the City declares its intent that all public property in the City shall not function as a designated public forum, unless some specific portion of public property is designated herein as a public forum of one particular type. In such case, the declaration as to public forum type shall apply strictly and only to the specified area and the specified time period, if any.

[Return to Municipal Code Contents]

- B. Private Party Signs Generally Banned. Except as expressly allowed by a provision of this Chapter, or another provision of law, private parties may not display or post signs on public property or in the public right-of-way.
- C. Signs That Are Exempt from the General Ban. The following signs are exempted from the general ban:
 - 1. Traffic control and traffic directional signs erected by a governmental unit
 - 2. Official notices required by law
 - 3. Signs placed by the City
 - 4. Signs that have received an encroachment permit and are located in the Main Street Overlay Zone
- D. Authorized Signs on Public Properties and Structures. Private advertising signs may be placed on structures in the public right-of-way, such as bus shelters, if there is a licensing agreement approved by the Mayor and City Council authorizing such General Advertising Signs on public property. An application for a Sign Permit must be approved prior to the construction of General Advertising Signs on public property, and the applicant and the owner of the sign shall comply with the provisions of Section 19.22.030(F) and Section 19.22.030(H).
- E. Temporary Political, Religious, Labor Protest and Other Noncommercial Signs in Traditional Public Forum Areas. In areas qualifying as traditional public forums, such as streets, parks and sidewalks, persons may display noncommercial message signs thereon, provided that their sign displayed on public property conforms to all of the following:
 - 1. Personally Attended. The signs must be personally held by a person or personally attended by one or more persons. "Personally attended" means that a person is physically present within 15 feet of the sign at all times.
 - 2. Size.
 - a. The maximum aggregate size of all signs held by a single person is 12 square feet.
 - b. The maximum size of any one sign which is personally attended by two or more persons is 50 square feet.
 - 3. Balloons. The displayed signs may not be inflatable or air activated.

[\[Return to Municipal Code Contents\]](#)

4. Pedestrian and Vehicle Clearance. In order to serve the City's interests in traffic flow and safety, persons displaying signs under this Section may not stand in any vehicular traffic lane when a roadway is open for use by vehicles, and persons displaying signs on public sidewalks must give clearance for pedestrians to pass by.
- F. Enforcement. Any sign posted on public property or the public right-of-way in violation of the provisions of this Chapter is declared to be a trespass and a public nuisance, may be summarily removed by the City of San Bernardino without notice, and the persons or parties responsible for such unauthorized posting may be charged with the City of San Bernardino's actual costs of removal. In addition, any violation of this Chapter may be enforced or punished in any manner prescribed by law, including the applicable provisions of Chapter 19.46.
- G. Encroachment. Any sign proposed to project into the public right-of-way, or into public property, shall require an encroachment permit.
- H. Street Banner Permit. Refer to Chapter 16.16.

(Ord. MC-1531, 06-03-20)

19.22.130 Definitions

For purposes of this Chapter, the following definitions shall apply:

A-Frame Sign: A Freestanding Portable Sign usually hinged at the top, or attached in a similar manner, and widening at the bottom to form a shape similar to the letter "A", and which is readily movable and not permanently attached to the ground or any structure. May also be referred to as a sandwich board sign. Other variations of such signage may also be in the shape of the letter T (inverted) or the letter H.

Abandoned Sign: Any lawfully erected sign, sign structure, advertising structure, or display that is not operated or maintained for a period of two years or longer. The following conditions shall be considered as the failure to operate or maintain a sign: (1) the sign displays advertising for a product of service that is no longer available; (2) the sign displays advertising for a business that is no longer licensed; (3) the sign advertises a business that is no longer doing business on the parcel where the sign is located; (4) the sign has a purpose for which the purpose has lapsed; or (3) the sign is blank. An Abandoned Sign is deemed to be a public nuisance.

Alter; Alteration: Any change in the weight, depth, height, area, thickness, materials, location, or type of display of an existing sign but shall not be construed to prevent normal or periodic maintenance, upkeep, or repair of a sign or change of copy (e.g., repainting).

[Return to Municipal Code Contents]

Awning Sign: Any sign that is painted or applied to the face, valance, or side panel of a projecting structure consisting of a frame and a material covering, attached to and wholly supported by a building wall and installed over and partially in front of doors, windows, or other openings in a building.

Balloon: See “Inflatable Sign.”

Banner Sign or Banner: A temporary sign composed of cloth, canvas, plastic, fabric, or similar lightweight, non-rigid material that can be mounted to a structure with cord, rope, cable, or a similar method. This sign type does not include flags (see “Flags”).

Bench Sign: A temporary sign message located on the seat or backrest of a bench or seat placed on or adjacent to a public right-of-way.

Billboard: See “General Advertising Sign.”

Blade Sign: See “Projecting Sign.”

Building Façade: An exterior side of a building, generally set facing a street. Refers to the side of a building to which a sign is attached.

Building-Mounted Sign: A sign that is applied or attached to a building. See “Wall Sign.”

Business Frontage: See “Frontage, Business.”

Cabinet Sign: A type of sign that contains all the text and/or logo symbols within a single enclosed cabinet that is mounted to a wall or other surface. Such sign structures typically use slide-in panels to display the message to the public.

Canopy: A permanent roof-like structure of rigid materials extending from the main entrance of a structure and is typically supported by posts at the corners farthest from where the canopy attaches to the structure. See also “Awning.”

Canopy, Service Station: A roof-like structure, typically consisting of supporting columns, at a service station that covers the service islands and surrounding fueling area.

Canopy Sign: A sign that meets any one or more of these criteria: (1) a sign mounted on a permanent canopy; (2) a traditional industry term for the variable message portion of a Canopy Sign; and/or (3) an integral sign and permanent canopy. See Figure 22.08.

Change of Copy: Changing of the face or letters on a sign.

Changeable Copy: Sign copy designed to be used with removable graphics which will allow changing of copy.

Channel Letters. Three-dimensional individual letters or figures, with an open back or front, illuminated or non-illuminated, that are affixed to a building or to a Freestanding Sign structure.

Commercial Message: Message concerning primarily a proposed economic transaction or the economic interests of the sign sponsor or audience.

[\[Return to Municipal Code Contents\]](#)

Commercial Mascot: A person or animal attired or decorated with commercial insignia, images, costumes, masks or symbols, and/or holding signs displaying commercial messages, when the principal purpose is to draw attention to or advertise a commercial enterprise. This definition includes “sign twirlers,” “sign clowns,” “sign spinners,” “sign twirlers” and “human sandwich board” signs. Also known as “living signs” and “human signs.” “Scarecrow” like devices, which simulate living persons or animals, are also included in this definition.

Conforming Sign: A sign that is legally installed in accordance with federal, state, and local permit requirements and laws.

Content Neutral Time, Place, and Manner Regulations: Consistently applicable, non-discriminatory sign regulations that specify—without reference to the content of the message—when, how, and where a sign can be displayed, with physical standards such as but not limited to height, size, and location, that allow the sign to be readable.

Contrast: The difference or degree of difference between things having similar or comparable natures, such as light and dark areas, colors, or typefaces.

Copy: The message or content of a sign, which may include letters, numbers, figures, and/or images.

Digital Sign: A variable message sign that utilizes computer-generated messages or some other electronic means of changing copy. These signs generally include displays using LEDs (light emitting diodes), CCDs (charge coupled devices), plasma, or functionally equivalent technologies to display a series of still images or full motion, usually remotely programmable and changeable. Also known as “electronic message centers.”

Display Area: See “Sign Area.”

Display, Digital: The sign area portion of a Digital Sign, as defined in this Chapter.

Display, Static: The sign area portion of a non-digital sign, where there is no electronic means of changing copy.

Double-Sided Sign: A sign constructed to display its message on two parallel opposing (back-to-back) faces.

Driveway/Onsite Traffic Directional Sign: A sign located adjacent to a pedestrian or vehicle travel way that is internal to a site or complex, intended to provide orientation and safety assistance.

Electronic Message Center: See “Digital Sign.”

[\[Return to Municipal Code Contents\]](#)

Electric Sign: Any sign containing or using electrical wiring.

Externally Illuminated Sign: A sign that is illuminated by a light source that is located on the exterior of the sign or nearby and directed toward, and shines on the face of a sign.

Eave Line: The bottom of the roof eave or parapet.

Face: The surface area on a sign where advertising copy is displayed.

Feather Sign: A Temporary Sign constructed of cloth, canvas, plastic fabric, or similar lightweight, non-rigid material, typically taller than it is longer, and supported by a single vertical pole mounted into the ground or on a portable structure. This sign type does not include flags (see "Flags").

Flag: A fabric sheet of square, rectangular, or triangular shape that is mounted on a pole. This sign type includes official flags of national, state, or local governments. This sign type does not include feather signs (see “Feather Sign”), Banners (see “Banners”), or Pennants (see “Pennants”).

Flashing Sign: A sign that contains an intermittent or sequential flashing light source. Generally, the sign’s message is constantly repeated, and the sign is most often used as a primary attention-getting device.

Freestanding Sign: A sign that is supported by one or more uprights, braces, poles, or other similar structural components that is not attached to a building or buildings.

Freeway: The Interstate 10 (I-10), Interstate 215 (I-215), Interstate 210 (I-210), State Route 330 (SR- 330), and State Route 259 (SR-259) rights-of-way within the boundaries of the City of San Bernardino.

Freeway-Oriented Sign: Any sign either freestanding or mounted to the primary wall(s) or façade of a building facing the freeway with no other building located in the visibility window between the subject building and the freeway.

Frontage, Building. That portion of a face of a building or length of a lot that is parallel to, or is at a near parallel angle to a public street or public parking area. For a building on a corner lot, the combined lengths of the sides of the building abutting or generally parallel to the front and corner side lot lines. See Also “Frontage, Primary” and “Frontage, Secondary.”

Frontage, Primary. That face of a building that is the longest elevation if user is facing the street, and/or the elevation where the principal entrance is located. See Figure 22.05.

Frontage, Secondary. Where a property has two or more street frontages, that face of a building that is not the longest elevation if user is facing the street, and/or the elevation parallel to a public street or parking lot where secondary entrance(s) are located. See Figure 22.05.

Frontage, Business: The width of a building occupied by a single business tenant that fronts on a public street or faces a plaza, courtyard, pedestrian corridor or walkway, parking lot, or alley, where customer access to the building is available. Width is measured as the widest point on an architectural elevation.

Frontage, Lot. That part of a lot or parcel abutting a street. Frontage, Street. The total length of all lot lines abutting streets. Ft. Abbreviation of feet.

General Advertising: The enterprise of advertising or promoting other businesses or causes, in contrast to self-promotion or on-site advertising; also known as “advertising for hire.” See “General Advertising Sign.”

General Advertising Sign: A Permanent Sign in a fixed position that meets any one or more of these criteria: 1) the sign is routinely used for general advertising for hire; 2) the sign is used to display commercial advertising for a business not located on the same premises as the sign; 3) the sign is a separate economic unit, not an accessory or auxiliary use serving the principal use on the land; and/or 4) the message display area is made available to message sponsors other than the owner. “General Advertising Sign” does not include “Freeway Signs.” “General Advertising Sign” may also be referred to as “Billboard” or “Outdoor Advertising Sign” in other Sections of the Municipal Code. See also “Digital Sign.”

General Advertising Sign, Mobile: Any sign or device placed on, mounted on, or affixed to a motor vehicle, freight, flatbed or storage trailer, or other conveyance. Mobile General Advertising Signs shall not include signs wrapped on a vehicle actively being used to load, transport or unload persons, goods, or services in the normal course of business.

Height, Sign: The greatest vertical distance measured from the existing grade at the mid-point of the sign support(s) that intersect the ground to the highest element of the sign as described in Section 19.22.030(L)(1), unless otherwise specified in this Chapter.

Iconic Sign: Any sign that has been officially designated as an Iconic Sign pursuant to Section 19.22.060(E), due to its historic or cultural significance.

Illegal Sign: A sign that meets any one or more of these criteria: 1) a sign erected without first complying with all ordinances and regulations in effect at the time of its construction and erection or use; 2) a sign which is a danger to the public or is unsafe; 3) a sign which is a traffic hazard not created by relocation of streets or highways or by acts of the City or County; and/or 4) a sign that is a public nuisance as defined under Chapter 8.30.

Illuminated: Signs or individual letters in which an artificial source of light is used to make the message readable and includes both internally and externally lit signs.

In: Abbreviation of inches.

Inflatable Sign: A sign that is an air-inflated object such as a balloon, which may be of various shapes, made of flexible fabric, resting on the ground or a structure, and either filled with or helium gas or equipped with a portable blower motor that provides a constant flow of air into the device.

[\[Return to Municipal Code Contents\]](#)

Internally Illuminated Sign: A sign that is illuminated by a light source contained inside the sign.

LED: Light Emitting Diode.

Legal Nonconforming Sign: A legally established sign which fails to conform to the regulations of this Chapter.

Legibility: The characteristics of letters, numbers, graphics, or symbols that make it possible to differentiate one from the other.

Lifestyle Graphic: An advertising display applied directly onto the exterior surface or window of a building which does not include words but does advertise the products or services located on premise. Painting directly onto the surface is the most common application method; however, a painted or printed vinyl substrate can also be applied to a wall surface, depending on the location.

Logo: An established identifying symbol or mark associated with a business or business entity.

Luminance: The perceived brightness of an illuminated sign, measured in foot-candles above the ambient light level.

Major Neighborhood Entrance: An area proximate to the intersection of two streets, which creates the primary entryway(s) into a neighborhood officially recognized by the City of San Bernardino.

Major Tenant: A shopping center key tenant(s), which serves to attract customers to the center through its size, product line, name, and/or reputation as determined by the center property owner/authorized property management. The term anchor tenant is interchangeable with the term major tenant.

Mansard: A decorative fascia used to hide equipment or articles on the roof or to enhance the storefront appearance.

Marquee: See “Canopy.”

Marquee Sign: See “Canopy Sign.”

Menu Board: A permanently installed sign with changeable copy (digital or manual) for the purpose of providing product and/or service information for drive-through service at a business where customers remain seated in a vehicle occupying a drive-through service lane.

Message: See “Copy.”

Mobile General Advertising Sign: An advertising display that is attached to a vehicle or any other mobile, non-motorized device, conveyance, or bicycle that carries, pulls, or transports a sign or billboard and traverses the public streets or is located in a parking area and is for the primary purpose of advertising or attracting attention.

Monument Sign: A freestanding ground sign with low overall height and the appearance of having a solid base. See “Freestanding Sign.”

Mural: A picture or decoration that is applied directly to a wall, does not contain a commercial message (e.g., business logo or images of items for sale), and does not have any electrical or mechanical components. A mural is distinguishable from graffiti (see Chapter 8.69) based on the property owner’s permission to paint or affix the mural onto the property.

Neon Sign: A sign illuminated by or utilizing neon tubing, and/or related inert gases, or products that produce the same or similar effect as neon, such as flexible light-emitting diode (LED) neon-like tubing which is visible to the viewer.

Non-commercial Message: Debate or commentary on topics of public concern, for example, politics, religion, philosophy, science, art.

Nonconforming Sign: Any Permanent Sign or Temporary Sign, including its physical structure and supporting elements, which was lawfully erected and maintained in compliance with all applicable laws in effect at the time of original installation, but which does not now comply with the provisions of this Chapter 19.22.

[\[Return to Municipal Code Contents\]](#)

Off-Premise Sign: Any sign which advertises or informs in any manner businesses, services, or events at some location other than that upon which the sign is located, including Commercial Mascots.

On-Premise Sign: A communication device whose message and design relates to a business, an event, goods, profession or service being conducted, sold or offered at the location where the sign is erected. All non-commercial signs are considered on-premise signs.

Painted Wall Sign: A sign painted directly on a building surface.

Parapet: A wall-like barrier at the edge of a roof or structure.

Pedestal Sign. See “Pylon Sign.”

Pennant: A triangular or irregular piece of fabric or other material, whether or not containing a message of any kind, commonly attached by strings or strands intended to flap in the wind. This sign type does not include flags (see “Flag”).

People Sign: See “Commercial Mascot.”

Permanent Sign: A sign constructed of durable materials and attached to a building, structure or the ground in a manner that will resist environmental loads such as wind, and precludes ready removal or movement of the sign, and intended to exist for the duration of time that the use or occupant is located on the premises.

Placed: Erected, constructed, posted, painted, printed, tacked, glued, carved, or otherwise fastened, affixed or made visible in any manner.

Planning Commission: The Planning Commission of the City of San Bernardino.

Pole Sign: An elevated Freestanding Sign that is supported by one or more exposed poles that are permanently attached directly into or upon the ground.

Portable Sign: A sign that is not permanently affixed to a structure or the ground. Portable Signs generally include A-Frame structures or similar low profile signs. This definition does not include Feather Signs.

Projecting Sign: A building-mounted sign with faces projecting from and perpendicular to the building fascia.

Public Property: An area that is accessible to any member of the public. Includes land or other property in which the City of San Bernardino holds a present right of possession and control, city road easements, and all public rights-of-way, regardless of ownership.

Public Nuisance: A sign, sign structure or advertising structure that meets any one or more of these criteria: 1) an attractive nuisance as defined under Municipal Code Section 8.30.015 or a nuisance declared under Section 8.30.020; 2) an abandoned sign as defined in Section 19.22.130; and/or 3) an illegal sign as defined in Section 19.22.130.

Pylon Sign: A Freestanding Sign that is supported and in direct contact with the ground or one or more solid, monumental structures or pylons and which typically has a sign face with a vertical dimension that is greater than its horizontal dimension. See Figure 22.09.

Regional Shopping Center: A shopping center with a gross site area of 20 acres or more. Commercial areas of a regional nature and auto malls may also be considered a regional shopping center for the purposes of this Chapter, subject to approval of a Sign Program.

Responsible Party. The person liable for placement of a sign. The following is a non-exclusive list of facts which when found to exist, shall constitute prima facie evidence that a person is a responsible party:

[\[Return to Municipal Code Contents\]](#)

- A. Based on information contained on the sign, and information from other sources, the person is identified as the owner or lessee of property used for the activity or event, and/or is the sponsor or promoter of the activity or event described on the sign.
- B. Based on information that appears on the sign, and information from other sources, including but not limited to information establishing the individual or corporate identity of the owner of the sign, it is found that the person placed the sign or caused the sign to be placed.

Review Authority: The individual or official City body (e.g., Economic and Community and Economic Development Director, Planning Commission, City Council) identified by this Chapter as having the responsibility and authority to review, approve, and deny a permit application. May also be referred to as “Responsible Review Authority.”

Roof Sign: A sign erected, constructed, or placed upon or over a roof of a building, including a mansard roof, and which is wholly or partly supported by such buildings.

Sign: A structure, device, figure, display, message placard or other contrivance, or any part thereof, situated outdoors or indoors, which is designed, constructed, intended, or used to advertise, provide information in the nature of advertising, provide historical, cultural, archaeological, or social information, or direct or attract attention to an object, person, institution, business, product, service, event, policy, or location by any means, including words, letters, figures, designs, symbols, fixtures, colors, illumination, or projected images. The following do not fall within the definition of a sign for the purposes of this Chapter.

- A. Architectural or decorative features of buildings (not including lettering, trademarks, or moving parts).
- B. Graphic images that are visible only from above, such as those visible only from airplanes or helicopters, but only if not visible from the street surface or public right-of- way.
- C. Gravestones and grave markers.
- D. Holiday and cultural observance decorations that are on display for not more than 45 calendar days per year (per parcel or use) and which do not include commercial advertising messages.
- E. Manufacturers' marks on tangible products that identify the maker, seller, provider, or product and which customarily remain attached to the product even after sale.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- F. Murals, painted or otherwise attached or adhered, with images or representation on the exterior of a structure that are visible from a public right-of-way or neighboring property; do not contain commercial advertisement (is noncommercial in nature); and are designed in a manner so as to serve as public art, enhance public space, and provide inspiration.
- G. Colored or illuminated elements that contain no lettering, numbers, trademarks, or logos, and are located on a wall or canopy.
- H. News racks and newsstands.
- I. Merchandise on display and available for immediate purchase.
- J. Shopping carts.
- K. Symbols embedded in architecture such as symbols of noncommercial organizations or concepts including, but not limited to, religious or political symbols, when such are permanently integrated into the structure of a building; the definition also includes foundation stones and cornerstones.
- L. Vehicle and vessel insignia as shown on street-legal vehicles and properly licensed watercraft including, but not limited to, license plates, license plate frames, registration insignia, noncommercial messages, messages relating to the business of which the vehicle or vessel is an instrument or tool (not including general advertising for hire), and messages relating to the proposed sale, lease, or exchange of the vehicle or vessel.
- M. Vending machines that do not display off-site commercial messages or general advertising messages.

Sign Area: See Section 19.22.030(L) (Rules for Sign Measurement), for specific rules for measuring the area of different sign types.

Sign Band: A horizontal area above the entrances to a multiple tenant building, architecturally designed to accommodate signage in a sign-centric manner.

Sign Budget: The total allowable sign area of all signs, including awning/canopy, driveway, monument/pylon, projecting, and wall signs, in a development using a Comprehensive Sign Program. Exempt and temporary signs are not included in the calculation of total allowable sign area.

Sign Copy: All portions of a sign displaying a message, including text and symbols, but not including the supporting structure or base of a sign.

[\[Return to Municipal Code Contents\]](#)

Sign Face: The area of a sign on which copy is intended to be placed.

Sign Program: A coordinated design plan of one or more signs for an individual business, a multiple tenant business center, or other site that specifies the number, size, description, and location of all signs located or to be located on the parcel or business site.

Sign Twirler: See “Commercial Mascot.”

Sf: Abbreviation of square feet.

Single Face Sign: A sign with only one face plane.

Statuary Sign: Any sign which is a three-dimensional, sculptured, or molded representation of an animate or inanimate object that identifies, advertises, or otherwise directs attention to a product or business, but not including a three-dimensional sign that is affixed to a building.

Street Banner: A street banner is defined as a banner extended over a public street or other public property, either on an established bridge or independently suspended.

Street Frontage: The portion of the building or property which faces or abuts a street(s).

Support Structure: The structural portion of a sign securing the sign to the ground, a building, or to another structure.

Suspended Sign: A sign that is suspended from the underside of an eave, canopy, awning, arcade, or other covered walkway.

Temporary Sign: A sign that is intended to be displayed for a definite and limited period of time and which is not permanently installed, affixed or maintained on a building or structure.

Trademark: A word or name which, with a distinctive type or letter style, is associated with a business or business entity in the conduct of business.

Visibility: The quality of a letter, number, graphic, or symbol which enables the observer to distinguish it from its surrounds or background.

Wall Sign: A sign painted on or attached to the exterior wall of a building or structure with the display surface of the sign approximately parallel to the building or structure wall.

Wayfinding: Signage that enables a person to find his or her way to a given destination through the use of effective signage.

Width, Sign: The measurement of a sign or base of a sign at its full extent from side to side.

Window Area: The area within the perimeter window frames and glass doors located on a business frontage or street frontage.

Window Sign: Any sign that is applied or attached to a window or located in such a manner that it can be seen from the exterior of the structure.

Yard Sign: Any temporary sign placed in the ground or attached to a supporting structure, posts, or poles, that is not attached to any building, not including banners.

(Ord. MC-1531, 06-03-20)

19.22.140 Inventory and Abatement (repealed by Ord. MC-1531, 06-03-2020)

19.22.150 Sign Regulations (repealed by Ord. MC-1531, 06-03-2020)

CHAPTER 19.24 OFF-STREET PARKING STANDARDS

Sections:

- 19.24.010 Purpose**
- 19.24.020 Applicability**
- 19.24.030 General Regulations**
- 19.24.040 Number of Parking Spaces Required**
- 19.24.050 Handicapped Parking Requirements**
- 19.24.060 Design Standards**

19.24.010 Purpose

These regulations are intended to achieve the following:

1. To provide accessible, attractive, secure, properly lighted, and well-maintained and screened off-street parking facilities.
2. To reduce traffic congestion and hazards.
3. To protect neighborhoods from the effects of vehicular noise and traffic generated by adjacent non-residential land use districts.
4. To assure the maneuverability of emergency vehicles.
5. To provide appropriately designed parking facilities in proportion to the needs generated by varying types of land use.

19.24.020 Applicability

Every use hereafter inaugurated, and every structure hereafter erected or altered, shall have permanently maintained off-street parking areas pursuant to the following provisions.

19.24.030 General Regulations

1. No structure or use shall be permitted or constructed unless off-street parking spaces are provided in accordance with the provisions of this Chapter.
2. The word "**use**" shall mean both the type and intensity of the use, and that a change in use shall be subject to all of the requirements of this Chapter.
3. When a structure is enlarged or increased in excess of 25% of the floor area, or when a change in use creates an increase in the required amount of parking, additional parking spaces shall be provided in accordance with the provisions of this Chapter. The only exception to this requirement may be for structures and uses located in the CR-2 (Downtown) zone. A parking study may be prepared examining the proposed use in light of available public off-street parking facilities which may result in a City approved parking reduction program. If a study is not prepared, the required parking shall be provided. However, tenant improvements for any type of proposed permitted use in the CR-2 zone shall not require additional parking spaces to be provided.

(Ord. MC-1393, 12-02-13)

4. Within the Paseo Las Placitas Specific Plan area, parking required by this Chapter may be provided on-site or off-site within an established parking district lot or structure. Required parking within this area may be reduced by up to 20 percent by the review authority provided that off-site parking districts have been established and developed.

(Ord. MC- 830, 4-24-91)

5. For parcels within the University Business Park Specific Plan, the number of parking spaces required for any use may be reduced by up to 25 percent provided:
 - a. The required 75 percent is fully paved and meets all other Development Code standards for parking areas,
 - b. The remaining 25 percent is set aside as expansion area and is paved with approved concrete landscape pavers, plant with turf, irrigated and properly maintained,
 - c. The expansion area is not used for storage of any type,
 - d. Trees shall not be required to be planted within the expansion area until it is brought up to full development standards.

(Ord. MC-856, 12-23-92)

[\[Return to Municipal Code Contents\]](#)

6. Requirements for uses not specifically listed herein shall be determined by the Director based upon the requirements for comparable uses and upon the particular characteristics of the use, pursuant to Section 19.02.070 (3) (Similar Uses Permitted).
7. In any residential zone, a garage with a garage door shall be provided, and permanently maintained. If a required residential garage is proposed to be converted to a different use, then a new, two-car garage (with minimum unobstructed inside dimensions of 20 feet by 20 feet) shall be constructed on the site prior to converting the existing garage. Exceptions to the garage requirement shall be for apartments and affordable housing as determined by the Director.

(Ord. MC-1393, 12-02-13)

8. Fractional space requirements shall be rounded up to the next whole space.
9. Required guest parking in residential zones shall be designated as such and restricted to the use of guests.
10. All parking, including recreational vehicle parking in residential zones, shall occur on paved areas.
11. Senior citizen apartments/congregate care parking requirements may be adjusted on an individual project basis, subject to a parking study based on project location and proximity to services for senior citizens including, but not limited to, medical offices, shopping areas, mass transit, etc.
12. Existing residential lots of record, 10,800 square feet or larger which front on a major or secondary arterial shall provide circular drives or turnarounds.

19.24.040 Number of Parking Spaces Required

The following minimum number of parking spaces shall be provided for each use (where "sf." refers to square foot and "gfa." refers to gross floor area):

USE	NUMBER OF REQUIRED SPACES
Residential Uses	
Mobile home parks	2 covered spaces within an enclosed garage, which may be tandem, and 1 uncovered quest space for each unit.
Multi-family Residential:	
Studio	1 space per unit
	(Ord. MC-1354, 7-06-11)
1 bedroom	1.5 covered and 1 uncovered guest space for every 5 units.
Two bedrooms	2 covered and 1 uncovered guest space for every 5 units.
Three or more bedrooms	2.5 covered and 1 uncovered guest space for 5 units.
Planned residential developments, including single-family dwellings and condominiums	2 covered spaces within an enclosed garage and 1 uncovered off-street guest parking space for every 5 units.
Residential day care	2 spaces in addition to those required for primary residence.
Senior citizen apartments	1 covered space for each unit, plus 1 uncovered space for each space for 5 units for guest parking.
Senior congregate care	.75 covered space for each unit.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

Single-family dwellings	2 covered spaces within an enclosed garage.
Commercial Uses	
Adult businesses	1 space for each 200 sf. of gfa. plus 1 space for each employee.
Amusement/recreational facilities:	
Bowling alley	3 spaces per lane, plus as required for incidental uses (i.e., pro shop, coffee shop, etc.).
Driving range	3 spaces, plus 1 space per tee.
Golf course	6 spaces per hole, plus as required for incidental uses (i.e., pro shop, bar, banquet room, etc.).
Miniature golf course	3 spaces per hole, plus as required for incidental uses (i.e., game room, food service, etc.).
Tennis/racquetball courts	3 spaces per court, plus as required for incidental uses.
RV Parks	1 space for each recreational vehicle space.
Theme amusement/recreational parks, skating rinks	Determined at project review.
Video arcade/go carts	1 space per 200 square feet of area within enclosed structures, plus 1 space per 3 persons at maximum capacity.
Art/dance studio	1 space per employee, plus 1 space per 2 students at maximum capacity.

Banks, savings and loans, financial	1 space for each 200 sf. of gfa. plus 1 lane for each drive up window and/or automatic teller machine with 6 vehicles per lane.
Barber shop/beauty parlor	2 spaces for each barber chair; 3 spaces for each beautician station.
Business/professional trade schools	1 space per 1.5 students.
Carwash, self-service	2 spaces per stall plus 2 space queuing lanes in front of each stall.
Carwash, full-service	space per every 3 employees on the maximum shift plus reservoir capacity equal to 2 times the capacity of the washing operation (the length of the conveyor divided by 20).
Commercial stables	1 space for each 5 horses boarded on-site.
Furniture/appliance stores	1 space for each 500 sf. of gfa. of sale floor display area, plus 1 space for each 2500 sf. of gfa. of warehouse storage.
Health clubs	1 space for each 200 sf. of gfa.
Hotels/motels	1.1 space for each bedroom, plus requirements for related commercial uses, plus 1 space for each 50 sf. of gfa. of main assembly room, plus 2 spaces for manager's unit. For facilities visible from any freeway, on-site parking for "big rigs" shall be determined at project review.
Indoor retail concession mall	1 space for each 200 sf. gfa. plus 1 space for each vendor.

(Ord. MC-825, 3-17-92)

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

Lube-n-tune	1 space per bay, plus 1 space for each employee, plus 2 space queuing lanes for each bay.
Multi-tenant auto-related facilities	1 space for each 200 sf. Of gfa., plus 1 space for each employee.
Offices, general:	
gfa. up to 2000 sf.	1 space for each 200 sf.
2001 to 7500 sf.	1 space for each 250 sf.
7501 to 40000 sf.	1 space for each 300 sf.
40001 and greater	1 space for each 350 sf.
Office, medical/dental	10 spaces for first 2000 sf., plus 1 space for each additional 175 sf. over 2000 sf.
Office, conversions from single-family	Determined at project review
	(Ord. MC-818, 1-07-92)
Restaurants, cafes, bars and other eating and drinking establishments (gfa. includes outdoor seating/eating area)	1 space for each 100 sf. of gfa., with a minimum of 10 spaces.
	(Ord. MC-1137, 1-09-03)
Restaurants, with drive-up or drive-thru facilities (including outdoor seating areas)	1 space for each 100 sf. of gfa. plus one lane for each drive-up window with stacking space for 6 vehicles before the menu board.
Restaurants, take-out only	1 space for each 250 sf. of gfa.
	(Ord. MC-1381, 12-19-12)
Retail commercial	1 space for each 250 sf. of gfa.
Retail nursery/garden shop	1 space for each 500 sf. of indoor display area, plus 1 space for each 2500 sf. of outdoor display area.

[Return to Municipal Code Contents]

Service stations 1 space for each pump island, plus 1 space for each service bay.

Shopping centers 1 space for each 180 sf. of gfa. for tenants within the main structure and in stand alone buildings. 1 space for each 250 sf. of gfa. for single tenants over 15,000 sf..

(Ord. MC-888, 12-07-93)

Swap meet 1 space for each 200 square feet gfa., plus 1 space for each vendor space.

Vehicle repair/garage 5 spaces plus 1 space for each 200 sf. of gfa.

Vehicle sales 1 space for each 400 sf. of gfa. for showroom and office, plus 1 space for each 2000 sf. of outdoor display area, plus 1 space for each 500 sf. of gfa. for vehicle repair, plus 1 space for each 300 sf. of gfa. for the parts department.

All other commercial uses not listed above 1 space for each 200 sf. of gfa.

Institutional Uses

Churches, conference/meeting facilities, mortuaries, theaters, auditoriums 1 space for each 4 fixed seats, or 1 space for each 35 sf. of non-fixed seating area in the principal sanctuary, conference space or auditorium, whichever is greater.

Hospitals 1 space for each patient bed, plus 1/2 space for each patient bed for employees, or as determined at project review.

Libraries, museums, art galleries 1 space for each 300 sf. of gfa.

[Return to Municipal Code Contents]

Residential clubs, fraternity/sorority houses, rooming houses and similar facilities with guest rooms	1 space for each 2 guest rooms.
Retirement homes	1 space for each 1.5 living units.
Sanitariums/nursing homes	1 space for each 6 beds, plus 1 space for each employee on the largest shift, plus space for each staff doctor.
Schools:	
Nursery/pre-school	1 space for each staff member, plus 1 space for each 10 children.
Elementary/junior high	2 spaces for each classroom.
High school	7 spaces for each classroom.
Community/college/university	10 spaces for each classroom.
Industrial Uses	
Auto dismantling/junk yards/recycling centers	1 space for each 300 sf. of gross building area plus one space for every 10,000 sf. of gross yard area.
Mini-storage	7 spaces.
Industrial/warehousing	For each structure
1-3,000 sf	1 space for each 250 sf. of gfa.
3,001 - 5,000 sf.	1 space for each 500 sf. of gfa.
5,001 - 10,000 sf.	1 space for each 750 sf. of gfa.
10,001 - 50,000 sf.	1 space for each 1,000 sf. of gfa.
50,001+ sf	1 space for each 1,250 sf. of gfa.

19.24.050 Handicapped Parking Requirements

Handicapped parking requirements are established by the State of California. The parking standards contained in this Section are identical to those established by the State at the time of the adoption of this Development Code. Any change in the State's handicapped parking requirements shall preempt the affected requirements in this Section.

1. Handicapped parking for residential uses shall be provided at the rate of 1 space for each dwelling unit that is designed for occupancy by the handicapped.
2. Handicapped parking spaces shall be provided for all uses other than residential at the following rate:

Total Number of Parking Spaces Provided	Number of Handicapped Parking Spaces Required
1-25	1
26-50	2
51-75	3
76-100	4
101-150	5
151-200	6
201-300	7
301-400	8
401-500	9
501-1,000	Two percent of total
1,001 and over	+ 1 for each 100, or fraction over 1,001

For outpatient units and facilities, 10 percent of the total number of parking spaces provided shall serve each such outpatient unit or facility.

For units and facilities that specialize in treatment or services for persons with mobility impairments, 20 percent of the total number of parking spaces provided shall serve each such unit or facility.

[\[Return to Municipal Code Contents\]](#)

One van space shall be provided in every eight accessible spaces, with a minimum of one space provided.

(Ord. MC-1383, 1-16-13)

3. Handicapped parking spaces shall be designed in a manner consistent with the standard drawings approved by the Director of Public Works/City Engineer, as illustrated by Figure 24-1.
4. When less than five parking spaces are provided, at structures and uses subject to these regulations, one space shall be 14 feet wide and striped to provide a nine-foot parking area and a five-foot loading and unloading area. However, there is no requirement that the space be reserved exclusively or identified for handicapped use only.
5. Handicapped parking spaces required by this Section shall count toward fulfilling off-street parking requirements.

**FIGURE 24-1
HANDICAP PARKING DETAIL**

19.24.060 Design Standards

Off-street parking areas shall be provided in the following manner:

1. ACCESS

- A. All parking areas shall provide suitable maneuvering room so that all vehicles may enter an abutting street in a forward direction. The Director may approve exceptions for single-family homes and other residential projects.
- B. No parking space shall be located so that a vehicle will maneuver within 20 feet of a vehicular entrance measured from the face of the curb.

(Ord. MC-888, 12-07-93)

2. COMMERCIAL VEHICLE PARKING

It shall be unlawful for the driver, owner or operator of any commercial vehicle having a manufacturer's Gross Vehicle Weight rating (GVWR) exceeding 10,000 pounds to park, or cause to be parked, except for the immediate loading and unloading of goods, any such vehicle upon any public street, or alley, or on any residentially zoned property, within any residential land use district in the City. This prohibition shall not apply to construction sites during the construction process or to recreational vehicles.

(Ord. MC-1381, 12-19-12)

3. DIMENSIONAL REQUIREMENTS

- A. Parking stalls shall be non-perpendicular whenever possible.
- B. A minimum unobstructed inside dimension of 20 feet by 20 feet shall be maintained, for a private two-car garage or carport. The minimum unobstructed ceiling height shall be 7 feet, 6 inches.
- C. Parking structures may be subject to dimensional adjustments based on utilization (i.e., public or private garage with or without an attendant), but in no case shall the stall width be less than 8 feet, 6 inches. Reductions in design standards shall be subject to approval by the City Engineer.

D. Minimum parking dimensions shall be as indicated in the following table as illustrated by Figure 24-2.

A	B	C	D	E	F
0°	9'0"	9.0	15.0	23.0	-
	9'6"	9.5	15.0	23.0	-

FIGURE 24-2

PARKING STANDARDS

- A. PARKING ANGLE
- B. STALL WIDTH
- C. STALL DEPTH
- D. AISLE WIDTH
- E. CURB LENGTH PER CAR
- F. CENTER TO CENTER WIDTH OF DOUBLE ROW AND AISLE

4. DRAINAGE

All required off-street parking areas shall be so designed that surface water will not drain over any sidewalk, or adjacent property.

5. DRIVEWAYS

Commercial/Industrial/Multiple Family Residential

Driveways providing ingress and egress to off-street parking spaces shall be a minimum width of 15 feet for a one-way driveway and 24 feet for a two-way driveway.

Single Family Residential

Attached Garage

Driveways for an attached 2-car garage shall have a minimum width of 16 feet and a minimum length of 24 feet measured from the inside sidewalk or apron to the front of the garage.

Driveways for an attached 3-car garage shall have a minimum width of 24 feet and a minimum length of 24 feet measured from inside the sidewalk or apron to the front of the garage.

Detached Garage

Driveways for a detached 2-car garage shall be a minimum width of 10 feet with a minimum 16 feet wide by 24 feet deep back up area immediately adjacent to the garage door.

Driveways for a detached 3-car garage shall be a minimum width of 10 feet with a minimum 24 feet wide by 24 feet deep back up area immediately adjacent to the garage door.

6. LIGHTING

Parking areas shall have lighting capable of providing adequate illumination for security and safety. The minimum requirement is 1 foot candle, maintained across the surface of the parking area. Lighting standards shall be energy-efficient and in scale with the height and use of the structure. Any illumination, including security lighting, shall be directed away from adjoining properties and public rights-of-way.

7. LOCATION OF REQUIRED PARKING SPACES

All parking spaces shall be located on the same parcel as the structure or use, unless approved otherwise by the review authority.

Off-street parking spaces for multi-family residential developments shall be located within 150 feet from the dwelling unit (front or rear door) for which the parking space is provided.

No parking space required by this Chapter shall be located in the front, side or rear setback area of any land use district except for a detached garage or carport structure and driveways which may be located in interior (non-street) side or rear setback areas.

8. MAINTENANCE

All required parking facilities shall be permanently maintained, free of litter and debris.

9. PARKING STRUCTURES

All parking structures shall be landscaped as follows:

- A. The parking structure shall have a continuous minimum 10 foot perimeter landscaping with vertical elements at least every 20 feet.
- B. The entries and exits of the parking structure shall include a minimum 6 foot wide landscaped median island and accent paving in the driveway.
- C. Landscaped materials, excluding vertical element openings, shall be provided in planters and/or pots for 5% of the total surface deck area. The planters and/or pots shall be distributed throughout the top deck area, and perimeter of intermediate decks.
- D. All landscaping shall be permanently maintained and automatically irrigated.
- E. Lighting for the above ground deck shall be energy-efficient, low-level and directed so as not to spill beyond the surface deck. Lighting fixtures shall not exceed 4 feet in height.

10. RECREATIONAL VEHICLE PARKING - RESIDENTIAL

- A. A recreational vehicle may only be parked on a lot behind the front line of the house or, in the case of a corner lot, behind the front line facing each street or right-of-way, and shall be screened to a height of 6 feet from view from any public or private right-of-way. A recreational vehicle used as daily transportation may be parked overnight in recognized driveways.
- B. Recreational vehicles may be temporarily parked on public or private rights-of-way in front of residences for not more than 48 continuous hours for the purposes of loading and unloading. Forty-eight hours must elapse before the start of a new 48 hour period, together with movement of the vehicle a distance of at least 500 feet.

11. SCREENING

Commercial/industrial and public parking areas abutting residentially designated property shall have a 6 foot high solid architecturally treated decorative masonry wall approved by the Director. All wall treatments shall occur on both sides.

12. SECURITY

All parking facilities shall be designed, constructed and maintained with security as a priority to protect the safety of the users.

13. SHADING

All parking areas shall provide 25% permanent shading for parked vehicles. Any reasonable combination of shading methods can be utilized. If trees are used, they may not thereafter be trimmed so as to reduce the effectiveness of their shading ability.

14. SHARED PARKING

Parking facilities may be shared if multiple uses cooperatively establish and operate the facilities and if these uses generate parking demands primarily during hours when the remaining uses are not in operation. (For example, if one use operates during evenings or week days only.) The applicant shall have the burden of proof for a reduction in the total number of required off-street parking spaces, and documentation shall be submitted substantiating their reasons the requested parking reduction. Shared parking may only be approved if:

- A. A sufficient number of spaces are provided to meet the greater parking demand of the participating uses;
- B. Satisfactory evidence, as deemed so by the Director, has been submitted by the parties operating the shared parking facility, describing the nature of the uses and the times when the uses operate so as to demonstrate the lack of potential conflict between them; and
- C. Additional documents, covenants, deed restrictions, or other agreements as may be deemed necessary by the Director are executed to assure that the required parking spaces provided are maintained and uses with similar hours and parking requirements as those uses sharing the parking facilities remain for the life of the commercial/industrial development.

15. SLOPE

- A. Parking areas shall be designed and improved with grades not to exceed a 5% slope.
- B. Driveways shall not exceed an 8% slope or as approved by the City Engineer.

16. STRIPING

All parking spaces shall be striped in accordance with City requirements. The striping shall be maintained in a clear and visible manner. Each exit from any parking area shall be clearly marked with a "STOP" sign as required by the City Engineer.

17. SURFACING

All driveways and parking areas shall be surfaced with a minimum thickness of 3 inches of asphaltic concrete, concrete, or any City Engineer approved bituminous surfacing over a minimum thickness of 4 inches of an aggregate base material. An appropriate structural section of slag or other material may be approved by the City Engineer and Director for storage areas of industrial uses, provided that toxic or hazardous materials, including but not limited to those enumerated in Section 8.80.010 of the Municipal Code, are not located in such storage areas.

18. TANDEM PARKING

The review authority may approve an off-street parking program utilizing limited tandem parking for commercial and industrial uses provided that the development requires 150 or more parking spaces, with no more than a maximum of 10% of the total number of spaces designated as tandem and an attendant is on duty during the normal hours that the commercial/industrial development is open for business.

19. WHEEL STOPS/CURBING

Continuous concrete curbing at least 6 inches high and 6 inches wide shall be provided at least 3 feet from any wall, fence, property line, walkway, or structure where parking and/or drive aisles are located adjacent thereto. Curbing may be left out at structure access points. The space between the curb and wall, fence, property line, walkway or structure shall be landscaped, except as allowed by the Development Review Committee. The clear width of a walkway which is adjacent to overhanging parked cars shall be 4 feet. All parking lots shall have a continuous curbing at least 6 inches high and 6 inches wide around all parking areas and aisle planters. Existing wheel stops may remain. If repaving of the parking lot is necessary, existing wheel stops may be removed and reinstalled following the repaving, provided stall dimensional requirements are met. However, no installation of new or additional wheel stops shall occur.

(Ord. MC-1393, 12-02-13)

CHAPTER 19.26 OFF-STREET LOADING STANDARDS

Sections:

- 19.26.010 Purpose**
- 19.26.020 Applicability**
- 19.26.030 Number of Loading Spaces Required**
- 19.26.040 Design Standards**

19.26.010 Purpose

These provisions establish comprehensive standards to regulate the number, design, and location of off-street loading areas, in a manner which ensures the following:

1. Accessible, attractive, secure, and well-maintained loading and delivery facilities.
2. Reduced potential for traffic congestion and hazards.
3. Protection for adjacent parcels and surrounding neighborhoods from the effects of vehicular noise and traffic generated from the anticipated land use.
4. Loading and delivery services in proportion to the needs generated by the proposed land use which are clearly compatible with adjacent parcels and the surrounding neighborhood.

19.26.020 Applicability

Every nonresidential land use shall have permanently maintained off-street loading areas pursuant to the following provisions.

19.26.030 Number of Loading Spaces Required

Off-street freight and equipment loading spaces shall be provided for all offices, hospitals, institutions, hotels, senior group housing, schools, day care centers, and other commercial and industrial land uses.

The following minimum number of loading spaces shall be provided for each use:

Commercial, industrial, office, institutional, hospital, hotel, schools:

Gross floor area	Spaces required
Less than 25,000 s.f. of gfa.	1
25,001 + s.f.	1 + additional as required by the Director

Requirements for uses not specifically listed shall be determined by the Director based upon the requirements for comparable uses and upon the particular characteristics of the proposed use, pursuant to Section 19.02.070(3)(Similar Uses Permitted).

19.26.040 Design Standards

Off-street loading spaces shall be provided in the following manner:

1. ACCESS

When the lot upon which the loading space is located abuts an alley, the loading space shall have access from the alley.

2. DIMENSIONS

Required freight and equipment loading spaces shall be not less than 15 feet in width, 19 feet in length, or as determined by the Review Authority, with 14 feet of vertical clearance.

(Ord. MC-888, 12-07-93)

3. LIGHTING

Loading areas shall have lighting capable of providing adequate illumination for security and safety. Lighting standards shall be energy-efficient and in scale with the height and use of the structure. Any illumination, including security lighting, shall be directed away from adjoining properties and public rights-of-way.

4. LOCATION

Loading spaces shall be located and designed as follows:

- A. Adjacent to, or as close as possible to, the main structure.
- B. Situated to ensure that all loading and unloading takes place on-site and in no case within adjacent public rights-of-way, or other traffic areas on-site.
- C. Situated to ensure that all vehicular maneuvers occur on-site.

5. PASSENGER LOADING

Passenger loading spaces shall be provided in addition to any required freight and equipment loading spaces whenever required by a Development Permit. Passenger loading spaces shall be not less than 10 feet wide and 20 feet long, shall be located in close proximity to the structure entrance, and shall not require pedestrians to cross a driveway, parking aisle, alley, or street in order to reach the structure entrance. Required spaces shall not count as required parking spaces.

6. SCREENING

All loading areas abutting residentially designated property shall have a 6 foot high solid architecturally treated decorative masonry wall approved by the Director. All wall treatments shall occur on both sides. In addition, adequate area shall be provided adjacent to public rights-of-way to accommodate a required three-foot high permanently maintained and irrigated landscaped berm.

7. SECURITY

All loading facilities shall be designed, constructed, and maintained with security as a priority to protect the safety of the users.

8. STRIPING

Loading areas shall be striped indicating the loading spaces and identifying the spaces for loading only. The striping shall be permanently maintained in a clear and visible manner.

9. SURFACING

Loading areas shall be surfaced with a minimum thickness of 4 inches of asphaltic concrete over a minimum thickness of 6 inches of an aggregate base material or an equivalent structural section to be approved by the City Engineer.

10. WHEEL STOPS/CURBING

Continuous concrete curbing at least 6 inches high and 6 inches wide shall be provided for all loading spaces, and shall be set at least 3 feet from any wall, fence, property line, walkway or structure.

CHAPTER 19.28 LANDSCAPING STANDARDS

Sections:

19.28.010	Purpose
19.28.020	Application
19.28.030	General Regulations
19.28.040	Screening Requirements
19.28.050	Standards for Parking Areas
19.28.060	Setback and Parkway Treatment Standards
19.28.070	Corner Treatment Standards
19.28.080	Installation of Landscaping
19.28.090	Maintenance of Landscaping
19.28.100	Removal or Destruction of Trees
19.28.110	Erosion Control Landscaping
19.28.120	Water Efficient Landscaping Standards
19.28.130	Applicable Regulations

Tables:

19.28.01	Screening Requirements
-----------------	-------------------------------

19.28.010 Purpose

The purpose of this Chapter is to establish landscaping regulations that are intended to:

1. Enhance the aesthetic appearance of development in all areas of the City by providing standards relating to quality, quantity and functional aspects of landscaping and landscape screening.
2. Increase compatibility between residential and abutting commercial and industrial land uses.
3. Reduce the heat and glare generated by development.
4. Protect public health, safety, and welfare by minimizing the impact of all forms of physical and visual pollution, controlling soil erosion, screening incompatible land uses, preserving the integrity of neighborhoods, and enhancing pedestrian and vehicular traffic and safety.

5. Water is an increasingly and costly resource. It is the intent of this chapter to establish a water conservation plan to reduce water consumption in the landscape environment by using drought tolerant principals.

(Ord. MC-871, 5-12-93)

19.28.020 Application

A concept landscaping plan shall be submitted as part of a permit application, pursuant to Chapter 19.32 (Applications and Fees).

The concept plan shall meet the intent of this Chapter by exhibiting a generalized design layout which adequately demonstrates the desired landscaping program in terms of location, size/scale, function, theme and similar attributes. The concept plan shall provide the review authority with a clear understanding of the landscaping program prior to the preparation of a detailed, comprehensive landscaping plan.

19.28.030 General Regulations

The comprehensive landscaping plan shall be prepared following approval of the permit application by the review authority. Submittal of the comprehensive plan shall be concurrent with the grading plan(s) and other documents and reports. This section and those that follow provide the regulations to be followed in the preparation of the comprehensive landscape program.

In addition to the following regulations, the Director of Community Development shall have the discretion to determine the conformance of a landscape and irrigation plan.

1. Landscape designs shall be in harmony with the surrounding environment.
2. Landscape design and construction shall emphasize drought-tolerant landscaping whenever/wherever possible.
3. Processing of landscape plans shall conform to the policies and procedures of the Department of Community Development. A fully dimensioned comprehensive landscape and irrigation plan shall include, but not be limited to:
 - List of Plants (Common & Latin)
 - Size
 - Location

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

- Irrigation Plan
 - Hardscape
 - Water Elements
 - Any other information deemed necessary by the Director
4. The planting of trees and shrubs shall comply with the following installation requirements:

- A. Landscape areas shall have plant material selected and planting methods used which are suitable for the soil and climatic conditions of the site. Sizes of the plant materials shall conform to the following mix:

Trees

20%, 24 inch box;

50%, 15 gallon;

In addition, mature trees shall be provided for variety and emphasis of focal areas as follows:

15% mature specimen trees in 36 inch box

15% mature specimen trees in 48 inch box

Shrubs

80%, 5 gallon; and

20%, 1 gallon

Groundcover

100% coverage within 1 year

- B. Trees shall be long-lived (minimum life expectancy of 60 years), clean, require little maintenance, be structurally strong, insect and disease resistant, and require little pruning.

- C. Trees and shrubs shall be planted so that at maturity they do not interfere with service lines, Traffic Safety Sight Area, basic property rights of adjacent property owners, particularly the right of solar access, pursuant to Section 19.20.030 (23) (Solar Energy Design Standards).
 - D. Trees planted near public curbs shall have a limited root structure and shall be installed in such a manner as to prevent physical damage to sidewalks, curbs, gutters and other public improvements. A deep root system shall be used.
5. Where trees are planted in paved areas, they shall have a protective tree grate. Tree grates shall be cast iron with a natural finish. A deep root system shall be used.
 6. Concrete mow strips are required to separate all turf areas from other landscaped areas for all developments except single family residential.
 7. Buffer planting shall occur along all freeways and major arterials in order to visually screen uses and provide noise reduction. This landscaping shall be in addition to screening requirements set forth in Section 19.28.040 below.
 8. Appropriate shrubbery and creeping vines shall be provided along all walls and fences adjoining public rights-of-way.
 9. When inorganic groundcover is used, it shall be in combination with live plants and shall be limited to an accent feature.
 10. All landscaping shall have an approved automatic irrigation system.
 11. All residential subdivisions shall be provided with trees, shrubs, and ground cover of a type and quality generally consistent or compatible with those characterizing single-family homes in the front yard and that portion of the side yards which are visible from the street. All landscaped areas shall be provided with an automatic irrigation system adequate to ensure their viability. The landscape and irrigation plans shall be approved by the Community Development Department.

19.28.040 Screening Requirements

1. Every development shall provide sufficient screening so that neighboring properties are effectively shielded from any adverse impacts of that development or so that the new developing use shields itself from existing potential impacts from uses already in operation.
2. [Table 28.01](#) sets forth the type of screening method required between various uses in order to provide a mechanism to buffer potential negative impacts. To determine the type of screening required (Type A, B, or C), find the use in the "Developing Use" column which is similar to the proposed use to be developed and follow that line across the page to its intersection with the type of use(s) that adjoins the property to be developed. For each intersection square that contains a letter, the developer is required to install the level of screening indicated.

Table 28.01 Screening Requirements, continued

3. The three basic types of screens that are required by Table 28.01 "Screening Requirements," are as follows:

A. OPAQUE SCREEN, TYPE A

A screen that is opaque from the ground to a height of at least six feet, with intermittent visual obstructions from the opaque portion to a height of at least 20 feet. An opaque screen is intended to exclude all visual contact between uses and to create a strong impression of spacial separation. The opaque screen may be composed of a wall, fence, or densely planted vegetation. Compliance of planted vegetative screens will be judged on the basis of the average mature height and density of foliage of the subject species, or field observation of existing vegetation. The opaque portion of the screen must be opaque in all seasons of the year. At maturity, the portion of intermittent visual obstructions should not contain any completely unobstructed openings more than 10 feet wide. Suggested planting patterns are shown in Figure 28-1.

B. SEMI-OPAQUE SCREEN, TYPE B

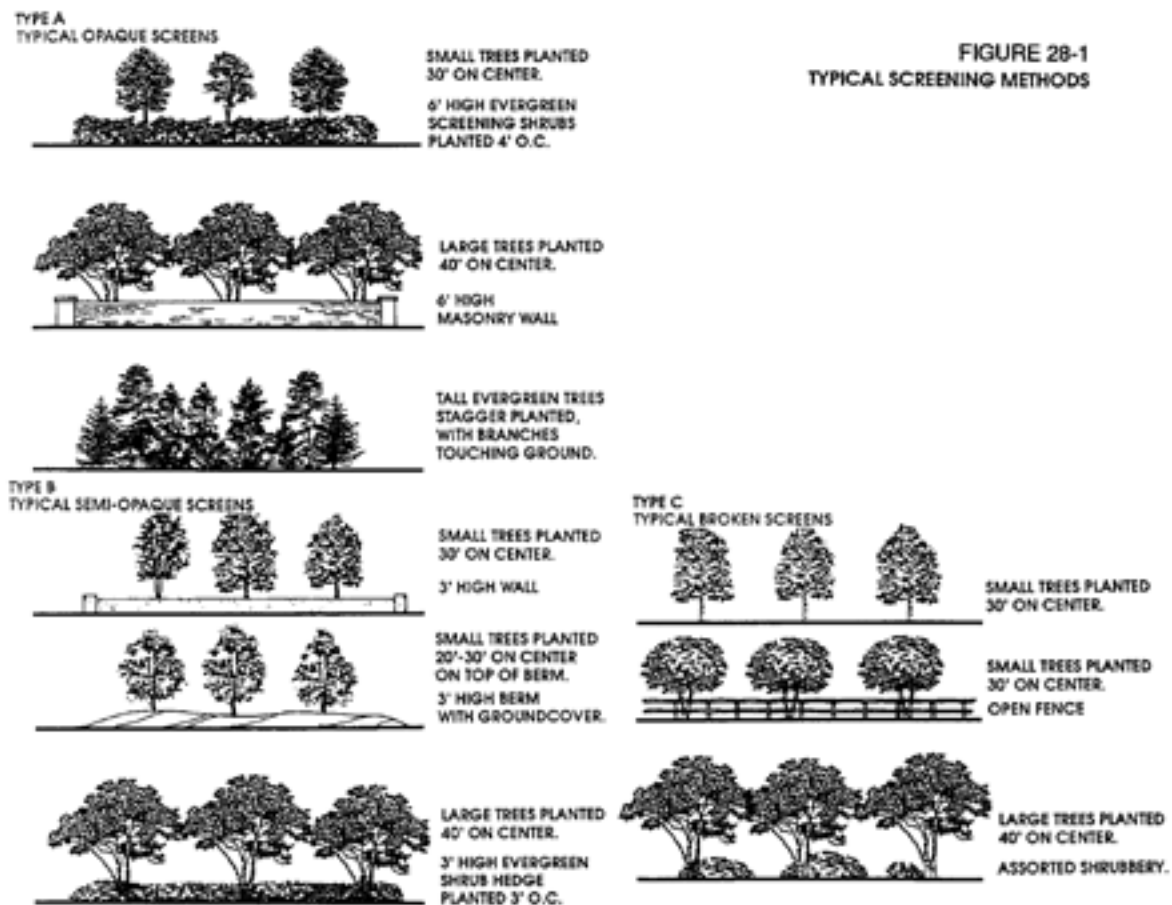

A screen that is opaque from the ground to height of 3 feet, with intermittent visual obstruction from above the opaque portion to a height of at least 20 feet. The semi-opaque screen is intended to partially block visual contact between uses and to create a strong impression of the separation of spaces. The semi-opaque screen may be composed of a wall, fence, landscaped earth berm, or planted vegetation. Compliance of planted vegetative screens will be judged on the basis of the average mature height and density of foliage of the subject species, or field observation of existing vegetation. At maturity, the portion of intermittent visual obstructions should not contain any completely unobstructed openings more than 15 feet wide.

C. BROKEN SCREEN, TYPE C

A screen composed of intermittent visual obstructions from the ground to a height of at least 20 feet. The broken screen is intended to create the impression of a separation of spaces without necessarily eliminating visual contact between the spaces. It may be composed of a wall, fence, landscaped earth berm, planted vegetation or existing vegetation. Compliance of planted vegetative screens or natural vegetation will be judged on the basis of the average mature height and density of foliage of the subject species, or field observation of existing vegetation. The screen may contain deciduous plants.

4. The screening requirements set forth in this section may be interpreted with some flexibility by the Director and Commission in their enforcement of the standards.

It is recognized that because of the wide variety of types of developments and the relationships between them, it is neither possible nor prudent to establish inflexible screening requirements. Therefore, minor deviations may be granted to allow less intensive screening, or requirements for more intensive screening may be imposed, whenever such deviations are more likely to satisfy the intent of this section.

19.28.050 Standards for Parking Areas

In addition to landscaping of all required setback areas, a minimum of 15% of the net area of all surface parking areas shall be landscaped as follows:

- A. Where parking areas adjoin a public right-of-way, a landscaped planting strip equal to the required yard setback shall be established and continuously maintained between the public right-of-way and parking area. Any planting, sign, or any other structure within safety sight distance of a driveway shall not exceed 30 inches in height.
- B. Provisions shall be made to ensure that adequate pedestrian paths are provided throughout the landscaped areas. At least one 24-inch box tree for every four spaces shall be included in the development of the overall landscape program. The maximum spacing between trees in parking areas shall be 30 feet; however, appropriate clustering of trees may be permitted.
- C. All areas in a parking lot not used for driveways, maneuvering areas, parking spaces, or walks, shall be permanently landscaped with suitable materials and permanently maintained, pursuant to a program submitted by the applicant and approved by the Director of the Parks and Recreation Department.
- D. All landscaped areas shall be bordered by a concrete curb that is at least six inches high and six inches wide. All landscaped areas shall be a minimum of six feet in width. Concrete now strips at least six inches deep and four inches wide shall be required to separate turf areas from shrub areas.
- E. A permanent and automatic irrigation system shall be installed and permanently maintained in all landscaped areas. The system shall employ state-of-the-art water conservation technology and recognize differing irrigation needs of various plant materials.
- F. The landscaping plan shall provide for a variety of plant materials, with an emphasis on drought tolerant species, appropriate for the local environment and shall include a legend showing common names, sizes, quantities, location, dimensions of planted area, and percentage of parking lot landscaping.
- G. To increase the parking lot landscaped area, a maximum of 2½ feet of the parking stall depth may be landscaped in lieu of asphalt while maintaining the required parking dimensions. This overhang is in addition to the required yard setbacks.

(Ord. MC-1381, 12-19-12)

19.28.060 Setback and Parkway Treatment Standards

Landscape plans for setback and parkway areas shall include, but not be limited to the following:

1. Setback and parkway areas shall be properly designed and landscaped in order to establish a high level of development quality while providing for neighborhood identity where appropriate. The design shall utilize uniform street tree plantings with complementary landscape materials.
2. Provide a design which ensures the desired screening, shading, appearance and compatibility with established setback and parkway areas, including a sensitive transition between diverse landscape types and patterns.
3. Incorporate mounding within the overall design, with landscaped slopes not exceeding a 3:1 ratio, or three feet in height. A minimum of six feet of landscaping shall be placed on the exterior of perimeter walls and fences.
4. Incorporate walls and fences into the landscape design, including the special treatment of meandering walls, and wall breaks or openings where the design shall complement the interior landscaping of the adjacent development.
5. Street tree varieties and exact location shall be determined by the Director of Community Development. The Community Development Department shall approve the locations and inspect plant material on-site, prior to planting. Sidewalks, curb and gutter, must be clean of debris prior to marking. A 24-hour notice is required for inspection. The size of the street trees shall be 24 inch box specimens. The 24 inch box trees shall be planted as street trees within the public parkway or City property.

19.28.070 Corner Treatment Standards

Landscape plans for any development involving corner lots shall include additional special design requirements, including, but not limited to the following:

1. A minimum landscape area of 300 square feet for corner areas.
2. Incorporate significant landscape and water features, including specimen trees, coordination with wall breaks or openings, and special "city entry" image treatment wherever appropriate.
3. Specimen trees shall be a minimum of 48-inch box size.
4. Ensure that any corner landscape plan within the "Traffic Safety Sight Area," as defined, shall be designed to protect public safety.

19.28.080 Installation of Landscaping

All required landscaping shall be properly installed, irrigated, inspected and permanently maintained prior to use inauguration or the issuance of a Certificate of Occupancy, whichever first occurs. The landscaping and irrigation shall be inspected as stated in the procedures and policy for landscaping and irrigation.

19.28.090 Maintenance of Landscaping

1. Maintenance of approved landscaping shall consist of regular watering, mowing, pruning, fertilizing, clearing of debris and weeds, the removal and replacement of dead plants, and the repair and replacement of irrigation systems and integrated architectural features.
2. Prior to the issuance of a Certificate of Occupancy, the landowner shall file a maintenance agreement or covenant and easement to enter and maintain, subject to the approval of the City Attorney. The agreement or covenant and easement to enter and maintain shall ensure that if the landowner, or subsequent owners, fails to maintain the required/installed site improvements, the City will be able to file an appropriate lien(s) against the property in order to accomplish the required maintenance.

19.28.100 Removal or Destruction of Trees

Removal of healthy, shade providing, aesthetically valuable trees shall be discouraged. In the event that more than five trees are to be cut down, uprooted, destroyed or removed within a 36 month period, a permit shall first be issued by the Department.

An arborist survey and report may be required at the developer's expense, to evaluate existing trees prior to the issuance of a tree removal permit, as determined by the Director of Community Development. Unless there is a pre-approved tree replacement plan, each tree that is removed in a new subdivision and is determined to be of significant value by the Community Development Director shall be replaced with a 36 inch box specimen tree in the subdivision in addition to any other required landscaping. Such a plan does not necessarily require a tree for tree replacement provision. Commercial tree farms, City Government projects, and individual single-family residential lots less than one acre shall be exempt from this provision.

19.28.110 Erosion Control Landscaping

Landscaping for the purpose of erosion control shall be in compliance with the standards outlined in Chapter 15 of the Municipal Code.

19.28.120 Water Efficient Landscaping Standards

(Ord. MC-1368, 2-08-12)

1. PURPOSE AND INTENT

A. The purpose of this Chapter is to:

- (1) Promote the aesthetic and recreational values of landscapes, while recognizing the need to invest water resources as efficiently as possible;
- (2) Establish a structure for planning, designing, installing and maintaining water efficient landscapes in new construction and rehabilitated projects;
- (3) Establish provisions for water management practices and water waste prevention in the irrigation of existing landscapes;
- (4) Implement water quality management practices that minimize storm water and irrigation runoff, to achieve on-site filtration and groundwater recharge;
- (5) Promote and encourage the use of low water use plants in landscapes;

[Return to Municipal Code Contents]

- (6) Minimize the use of cool season turf;
 - (7) Promote conservation of potable water by encouraging the use of recycled water and water-conserving technology in landscape irrigation; and
 - (8) Promote public education about water conservation and water efficient landscape irrigation.
- B. The intent of this Chapter is to implement water efficient landscape regulations at least as effective as the state model ordinance adopted pursuant to California Government Code Section 65595.

2. APPLICABILITY

After January 1, 2010, the provisions of this Chapter shall apply as follows:

- A. All provisions of this chapter for planning, design, installation and management of new landscapes shall apply to the following new construction and rehabilitation landscape projects normally subject to building or landscaping plan review and permits.
- (1) Public agency projects and private development projects with a landscape area equal to or greater than 2,500 square feet;
 - (2) Developer-installed single-family and multi-family residential projects with a landscape area equal to or greater than 2,500 square feet in the aggregate;
 - (3) Homeowner-installed and/or homeowner-hired single-family and multifamily residential projects with a total project landscape area equal to or greater than 5,000 square feet.
- B. Limited applicability. Existing landscapes, cemeteries and certain Special Landscape Areas are exempt from the provisions of this Chapter as follows:
- (1) Existing landscapes installed before January 1, 2010 and exceeding one acre in area are subject only to water waste prevention and efficient irrigation requirements of Sections 19.28.110(12) and 19.28.110(13).

- (2) New cemeteries or cemetery expansion projects exceeding 2,500 square feet in landscape area shall be subject to the Water Efficient Landscape worksheet requirement and the irrigation analysis and maintenance requirements of Section 19.28.110(9) and Section 19.28.110(10).
- (3) New development or rehabilitation of landscapes including Special Landscape Areas (SLAs), such as edible landscapes, landscapes irrigated with recycled water, and active parks or sport field landscaping shall be subject to the provisions of this Ordinance, except that the Maximum Applies Water Allowance (MAWA) shall be adjusted to provide for adequate irrigation of SLAs.

C. Exemptions. The provisions of this Chapter shall not apply to the following exempt landscapes:

- (1) Registered local, state or federal historic sites;
- (2) Ecological restoration projects that do not require permanent irrigation systems;
- (3) Mined land restoration projects that do not require permanent irrigation systems;
- (4) Botanical gardens and arboretums open to the public.

3. LANDSCAPE DESIGN STANDARDS AND PLANNING GUIDELINES

For the efficient use of water, landscapes shall be carefully designed and planned to thrive in local soil and climatic conditions and to suit the intended function of the project. The following design guidelines shall also be considered in landscape planning:

A. Plant Selection:

- (1) Native plants and drought-tolerant species are encouraged to promote low maintenance, water efficient landscapes.
- (2) Any plant may be used in the landscape, provided that the EAWU (estimated annual applied water use) does not exceed the MAWA (maximum annual applied water allowance).
- (3) Plants with similar water use requirements shall be grouped together in “hydrozones” wherever possible.

- (4) Turf areas should be minimal, limited mainly to active recreation areas and small lawns. Where turf is used, it should not be planted on slopes greater than 4:1, and warm season varieties are preferred.
- (5) Fire resistant plant species and fuel modification requirements shall be top priority for landscape design in high fire hazard areas.
- (6) Invasive plant species should be avoided, especially near natural areas, fuel modification zones, parks and water bodies.
- (7) The use of mulch is encouraged to retain moisture.
- (8) Plant placement shall be planned to create shade in summer and permit solar gain in winter.
- (9) Plant size and root characteristics at maturity should be considered in plant selection and placement, to avoid damage to property or infrastructure.

B. Water Features:

- (1) Recirculating water systems shall be used for all decorative water features.
- (2) If available, recycled water should be used in decorative water features, except pools and spas.
- (3) The surface area of a water feature shall be included in MAWA calculation with an evaporation rate equivalent to that of a high water use plant.
- (4) Pool and spa covers are highly recommended.

C. Content Requirements of Landscape Design Plans:

- (1) Each hydrozone shall be identified as a “low”, “moderate”, “high”, or “mixed” water use zone.
- (2) Landscape areas with unique water budget considerations, such as recreation areas, areas dedicated to edible landscapes, and areas to be irrigated with recycled water shall be delineated.

- (3) Areas planned for soil amendments, mulch application, surface water features, and hardscapes (pervious and impervious) shall be delineated with applicable notes regarding installation and design.
- (4) On-site design measures for storm water quality management shall be identified to demonstrate consistency with the corresponding Water Quality Management Plan (WQMP).

1. IRRIGATION REQUIREMENTS

- A. All irrigation systems shall be designed and maintained to prevent runoff, over-spray, low head drainage and other conditions of water waste. Soil types and infiltration rates shall be considered when designing irrigation systems, and irrigation plans shall be designed to meet specific water needs of each hydrozone, to maximize the efficiency of the irrigation systems.
- B. Dedicated (separate) landscape water meters shall be installed at new project sites with landscape areas greater than 5,000 square feet, subject to concurrence of the water purveyor.
- C. The following equipment shall be required to control water waste in new irrigation systems subject to this Ordinance.
 - (1) Automatic irrigation controllers that utilize evapotranspiration or soil moisture sensor data to adjust the frequency and/or duration of irrigation in response to changing weather conditions.
 - (2) Rain sensors with automatic shut-off features.
 - (3) Anti-drain check valves to prevent low-head drainage in sprinkler heads.
 - (4) Pressure regulators as needed when the static water pressure exceeds the maximum recommended operating pressure.
 - (5) Manual shut-off valves located as close as possible to the point of connection to the water supply, to minimize water loss in case of an emergency or a routine repair.

D. Irrigation Design Standards:

- (1) The irrigation systems shall be designed and installed to conform to the project water budget (MAWA), based on planting plans for the project hydrozones;
 - (2) Overhead irrigation shall not be permitted within a 24-inch setback from any non-permeable surface. Allowable irrigation within such setback areas may include drip, drip line, or other low flow, non-spray technology. The setback may be planted or unplanted. The surfacing of the setback may be mulch, gravel, or other porous material. These restrictions may be modified if:
 - a. the landscape area is adjacent to permeable surfacing and no runoff occurs; or
 - b. the adjacent non-permeable surfaces are designed and constructed to drain entirely to landscaping; or
 - c. the irrigation designer specified an alternative design or technology as part of the Landscape Documentation Package, and clearly demonstrates compliance with the requirements of this Ordinance.
 - (3) Slopes greater than 25% shall not be irrigated within an irrigation system with a precipitation rate exceeding 0.75 inches per hour. This restriction may be modified if the irrigation designer specified an alternative design or technology as part of the Landscape Documentation Package, and clearly demonstrates that no excess runoff or erosion will occur. This demonstration shall be confirmed by an irrigation audit.
- E. The irrigation plan shall be prepared separate from the landscape planting plan, but it shall be consistent with the planting plan and shall conform to all the requirements of this Ordinance.
- F. A Water Management Plan shall be prepared to accompany the irrigation plan, in accordance with the requirements of this Ordinance. The Water Management Plan shall describe the irrigation system in detail, identify parties responsible for maintenance of the irrigation system, and set a plan and schedule for management of the system.
- G. Recycle Water. Dual water distribution systems allowing irrigation with recycled water are encouraged, and may be required to be installed on new construction sites, at the discretion of the water purveyor, and subject to availability.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

2. LANDSCAPE SOIL MANAGEMENT AND LANDSCAPE GRADING REQUIREMENTS

- A. Soil testing shall be performed after mass grading and prior to landscape installation, to ensure the selection of plant materials is suitable for the site. The soil analysis shall be incorporated in a soil management plan, including the following:
- (1) A determination of soil texture, indicating the available water holding capacity;
 - (2) An approximate soil infiltration rate, or a range of infiltration rates;
 - (3) Measures of pH and total soluble salts; and
 - (4) Soil management and amendment regulations.
- B. Grading of landscape areas shall be designed to minimize unnecessary soil compaction, erosion, and water waste. Landscape grading shall be designed to prevent runoff, avoid disruption and natural drainage patterns and to support on-site infiltration of storm water and irrigation water for water quality management.

3. LANDSCAPE PLAN SUBMITTAL REQUIREMENTS

A Landscape Documentation Package prepared by a licensed landscape architect shall be required for any new construction of landscape or landscape rehabilitation that is normally subject to building or landscape plan review and permits. The Landscape Documentation Package shall contain the following elements:

- A. Project information:
- (1) Date;
 - (2) Project applicant;
 - (3) Project address or location;
 - (4) Total landscape area in square feet;
 - (5) Project type (e.g., new, rehabilitated, public, private, developer or homeowner installed, cemetery, park, etc.);

- (6) Water supply type (e.g., potable, recycled, well) and identify the local retail water purveyor;
 - (7) Checklist of all documents in the Landscape Documentation Package;
 - (8) Contact information for the project applicant and property owner;
 - (9) Applicant signature, dated with the statement, "I agree to comply with the requirements of the Water Efficient Landscape Ordinance and submit a complete Landscape Documentation Package."
- B. Water Efficient Landscape Worksheet. Worksheet examples, sample calculations and the Reference Evapotranspiration (ET_o) Table for the City of San Bernardino are available in the Community Development Department to guide preparation of the required elements of the Water Efficient Landscape Worksheet, including:
- (1) Hydrozone information table;
 - (2) Water budget calculations:
 - (a) Maximum Applied Water Allowance (MAWA);
 - (b) Estimated Total Water Use (ETWU);
- C. Landscape design plan, prepared according to Section 19.28.110(3);
- D. Irrigation design plan, prepared according to Section 19.28.110(4);
- E. Soil management report, prepared according to Section 19.28.110(5)(A); and
- F. Grading design plan, prepared according to Section 19.28.110(5)(B).

4. COMPLIANCE DOCUMENTATION

- A. Certificate of Completion. Prior to issuance of a Certificate of Occupancy or final inspection for a new construction project or a landscape rehabilitation project, a Certificate of Completion shall be submitted to the City, signed by a licensed landscape architect to certify that:
- (1) The landscaping has been installed in conformance with the approved planting and irrigation plans;

- (2) The automatic irrigation controller has been set according to the irrigation schedule;
 - (3) The irrigation system has been adjusted to maximize irrigation efficiency and eliminate over-spray and runoff; and
 - (4) A copy of the irrigation schedule has been given to the property owner.
- B. Completed Landscape Documentation Packages and Certificated of Completion shall be made available for review by the water purveyor. Sites found to be out of compliance with the provisions of this Ordinance may be subject to landscape water audits and compliance enforcement by the water purveyor.

5. IRRIGATION SCHEDULING

- A. For the efficient use of water, all irrigation schedules shall be developed, managed, and evaluated to utilize the minimum amount of water required to maintain plant health. Irrigation schedules shall meet the following criteria:
- (1) Irrigation scheduling shall be regulated by automatic irrigation controllers.
 - (2) Overhead irrigation shall be scheduled between 8:00 p.m. and 10:00 a.m. unless weather conditions prevent it. If allowable hours of irrigation differ from the local water purveyor, the stricter of the two shall apply. Operation of the irrigation system outside of the normal watering window is allowed for auditing and system maintenance.
 - (3) For implementation of the irrigation schedule, particular attention must be paid to irrigation run times, emission device, flow rate, and current reference evapotranspiration, so that applied water meets the Estimated Total Water Use. Total annual applied water shall be less than or equal to Maximum Applied Water Allowance (MAWA). Actual irrigation schedules shall be regulated by automatic irrigation controllers using current reference evapotranspiration data (e.g., CIMIS) or soil moisture sensor data.

6. LANDSCAPE AND IRRIGATION MAINTENANCE SCHEDULE

- A. Landscapes shall be maintained to ensure water use efficiency. A regular maintenance schedule shall be submitted with the Certificate of Completion.
- B. A regular maintenance schedule shall include, but not be limited to, routine inspection; adjustment and repair of the irrigation system and its components; aerating and dethatching turf areas; replenishing mulch; fertilizing; pruning and weeding in all landscape areas; and removing any obstruction to emission devices. Operation of the irrigation system outside the normal watering window is allowed for auditing and system maintenance.
- C. Repair of all irrigation equipment shall be done with the originally installed components or their equivalents.
- D. A project applicant is encouraged to implement sustainable or environmentally friendly practices for overall landscape maintenance.

7. IRRIGATION AUDIT, IRRIGATION SURVEY, AND IRRIGATION WATER USE ANALYSIS

- A. All landscape irrigation audits shall be conducted by a certified landscape irrigation auditor.
- B. For new landscape construction and rehabilitated landscape projects installed after January 1, 2010:
 - (1) The project applicant shall submit an irrigation audit report with the Certificate of Completion to the City that may include, but is not limited to: inspection, system tune-up, system test with distribution uniformity, reporting overspray or runoff that causes overland flow, and preparation of an irrigation schedule.
 - (2) The City or the water purveyor may conduct or require an irrigation water use analysis, irrigation audit or irrigation survey for compliance with the Maximum Applied Water Allowance (MAWA).

- C. For existing landscapes that were installed before January 1, 2010 and are over one acre in size, the City or the water purveyor may require irrigation water use analyses, irrigation surveys, and irrigation audits to evaluate water use and provide recommendations a necessary to reduce landscape water use to a level that does not exceed the Maximum Applied Water Allowance for existing landscapes, which shall be calculated as: $MAWA = (0.8)(ET_o)(LA)(0.62)$. All landscape irrigation audits shall be conducted by a certified landscape irrigation auditor,

8. IRRIGATION EFFICIENCY

- A. For the purpose of determining Maximum Applied Water Allowance, average irrigation efficiency is assumed to be 0.71. Irrigation systems shall be designed, maintained, and managed to meet or exceed an average landscape irrigation efficiency of 0.71.

9. PROVISIONS FOR EXISTING LANDSCAPE

- A. The City or the water purveyor may enforce the requirements contained in this Ordinance, and may assess penalties for water waste in existing landscapes constructed prior to January 1, 2010.

10. WATER WASTE PREVENTION

- A. Water waste resulting from inefficient landscape irrigation is prohibited. Runoff of irrigation water into the public right-of-way caused by low head drainage, broken sprinkler heads, overspray or other similar conditions shall be prohibited. Overspray or runoff onto adjacent property, non-irrigated areas walks roadways parking lots, or structures shall be prohibited Restrictions regarding overspray ad runoff may be modified if:
 - (1) The landscape area is adjacent to permeable surfacing and no runoff occurs; or
 - (2) The adjacent non-permeable surfaces are designed and constructed to drain entirely to landscaping.

11. DEFINITIONS

The terms used in this ordinance have the meaning set forth below:

- A. “**Applied water**” means the portion of water supplied by the irrigation system to the landscape.
- B. “**Automatic irrigation controller**” means an automatic timing device used to remotely control valves that operate an irrigation system. Automatic irrigation controllers schedule irrigation events using either evapotranspiration (weather based) or soil moisture data.
- C. “**Backflow prevention device**” means a safety device used to prevent pollution or contamination of the water supply due to the reverse flow of water from the irrigation system.
- D. “**Certificate of Completion**” means the document required under Section 19.28.110(7).
- E. “**Certified irrigation designer**” means a person certified to design irrigation systems by an accredited academic institution, a professional trade organization, or other program such as the US Environmental Protection Agency’s WaterSense irrigation designed certification program and Irrigation Association’s Certified Irrigation Designer Program.
- F. “**Certified landscape irrigation auditor**” means a person certified to perform landscape irrigation audits by an accredited academic institution, a professional trade organization or other program such as the US Environmental Protection Agency’s WaterSense irrigation auditor certification program and Irrigation Association’s Certified Landscape Irrigation Auditor Program.
- G. “**Check valve**” or “**anti-drain valve**” means a valve located under a sprinkler head, or other location in the irrigation system, to hold water in the system to prevent drainage from sprinkler heads when the sprinkler is off.
- H. “**Common interest developments**” means community apartment projects, condominium projects, planned developments, and stock cooperatives per Civil Code Section 1351.
- I. “**Conversion factor (0.62)**” means the number that converts acre-inched per acre per year to gallons per square per square foot per year.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- J. **“Drip irrigation”** means any non-spray low volume irrigation system utilizing emission devices with a flow rate measured in gallons per hour. Low volume irrigation systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.
- K. **“Ecological restoration project”** means a project where the site is intentionally altered to establish a defined, indigenous, historic ecosystem.
- L. **“Effective precipitation”** or **“Usable rainfall” (Eppt)** means the portion of total precipitation which becomes available for plant growth.
- M. **“Emitter”** means a drip irrigation emission device that delivers water slowly from the system to the soil.
- N. **“Established landscape”** means the point at which plants in the landscape have developed significant root growth into the soil. Typically, most plants are established after one or two years of growth.
- O. **“Establishment period of the plants”** means the first year after installing the plant in the landscape or the first two years if irrigation will be terminated after establishment. Typically, most plants are established after one or two years of growth.
- P. **“Estimated Total Water Use” (ETWU)** means the total water used for the landscape as described in Section 19.28.110(6)(B).
- Q. **“ET Adjustment Factor” (ETAF)** means a factor of 0.7, that, when applied to reference evapotranspiration, adjusts for plant factors and irrigation efficiency, two major influences upon the amount of water that needs to be applied to the landscape.

A combined plant mix with a site-wide average of 0.5 is the basis of the plant factor portion of the calculation. For purposes of the ETAF, the average irrigation efficiency is 0.71. Therefore, the ET Adjustment Factor is $(0.7) = (0.5/0.71)$. ETAF for a Special Landscape Area shall not exceed 1.0. ETAF for existing non-rehabilitated landscapes is 0.8.

- R. **“Evapotranspiration rate”** means the quantity of water evaporated from adjacent soil and other surfaces and transpired by plants during a specific time.
- S. **“Flow rate”** means the rate at which water flows through pipes, valves and emission devices, measured in gallons per minute, gallons per hour, or cubic feet per second.

[Return to Municipal Code Contents]

- T. **“Hardscapes”** means any durable material (pervious and non-pervious).
- U. **“Homeowner-provided landscaping”** means any landscaping either installed by a private individual for a single-family residence or installed by a licensed contractor hired by a homeowner. A homeowner, for the purposes of this Ordinance, is a person who occupies the dwelling he or she owns. This excludes speculative homes, which are not owner-occupied dwellings.
- V. **“Hydrozone”** means a portion of the landscaped area having plants with similar water needs. A hydrozone may be irrigated or non-irrigated.
- W. **“Infiltration rate”** means the rate of water entry into the soil expressed as a depth of water per unit of time (e.g., inches per hour).
- X. **“Invasive plant species”** means species of plants not historically found in California that spread outside cultivated areas and can damage environmental or economic resources. Invasive species may be regulated by county agriculture agencies as noxious species. **“Noxious weeds”** means any weed designated by the Weed Control Regulations in the Weed Control Act and identified on a Regional District noxious weed control list. Lists of invasive plants are maintained at the California Invasive Plant Inventory and USDA invasive and noxious weeds database.
- Y. **“Irrigation audit”** means an in-depth evaluation of the performance of an irrigation system conducted by a Certified Landscape Irrigation Auditor. AN irrigation audit includes, but is not limited to: inspection, system tune-up, system test with distribution uniformity or emission uniformity, reporting overspray or runoff that causes overland flow, and preparation of an irrigation schedule.
- Z. **“Irrigation efficiency”** (IE) means the measurement of the amount of water beneficially used divided by the amount of water applied. Irrigation efficiency is derived from measurements
- AA. **“Irrigation survey”** means an evaluation of an irrigation system that is less detailed than an irrigation audit. An irrigation survey includes, but is not limited to: inspection, system test and written recommendations to improve performance of the irrigation system.
- BB. **“Irrigation water use analysis”** means an analysis of water use data based on meter readings and billing data.

- CC. **“Landscape architect”** means a person who holds a license to practice landscape architecture in the state of California Business and Professions Code, Section 5615.
- DD. **“Landscape area”** means all the planting areas, turf areas, and water features in a landscape design plan subject to the Maximum Applied Water Allowance calculation. The landscape area does not include footprints of buildings or structures, sidewalks, driveways, parking lots, decks, patios, gravel or stone walks, or other pervious or non-pervious hardscapes, and other non-irrigated areas designated for non-development (e.g., open spaces and existing native vegetation.)
- EE. **“Landscape contractor”** means a person licensed by the state of California to construct, maintain, repair, install, or subcontract the development of landscape systems.
- FF. **“Landscape Documentation Package”** means the documents required under Section 19.28.110(6).
- GG. **“Landscape project”** means total area of landscape in a project as defined in “landscape area” for the purposes of this Ordinance, meeting requirements under Section 19.28.110(2).
- HH. **“Lateral line”** means the water delivery pipeline that supplies water to the emitters or sprinklers from the valve.
- II. **“Local agency”** means a city or county, including a charter city or charter county, that is responsible for adopting and implementing the ordinance. The local agency is also responsible for the enforcement of this ordinance, including but not limited to, approval of a permit and plan check or design review of a project.
- JJ. **“Local water purveyor”** means any entity, including a public agency, city, county, or private water company that provides retail water service.
- KK. **“Low volume irrigation”** means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as drip, drip lines, and bubblers. Low volume irrigation systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.
- LL. **“Main line”** means the pressurized pipeline that delivers water from the water source to the valve or outlet.

[Return to Municipal Code Contents]

- MM. “**Maximum Applied Water Allowance**” (**MAWA**) means the upper limit of annual applied water for the established landscaped area as specified in Section 19.28.110(6)(B). It is based upon the area’s reference evapotranspiration, the ET Adjustment Factor, and the size of the landscaped area. The Estimated Total Water Use shall not exceed the Maximum Applied Water Allowances. Special Landscape Areas, including recreation areas, area permanently and solely dedicated to edible plants such as orchards and vegetable gardens, and areas irrigated with recycled water are subject to the MAWA with an ETAF not to exceed 1.0.
- NN. “**Microclimate**” means the climate of a small, specific area that may contrast with the climate of the overall landscape area due to factors such as wind, sun exposure, plant density, or proximity to reflective surfaces.
- OO. “**Mined-land reclamation projects**” means any surface mining operation with a reclamation plan approved in accordance with the Surface Mining and Reclamation Act of 1975.
- PP. “**Mulch**” means any organic material such as leaves, bark, straw, compost, or inorganic mineral materials such as rocks, gravel, and decomposed granite left loose and applied to the soil surface for the beneficial purposes of reducing evaporation, suppressing weeds, moderating soil temperature, and preventing soil erosion.
- QQ. “**New construction**” means, for the purpose of this Ordinance, a new building with a landscape or other new landscape, such as a park, playground, or greenbelt without an associated building.
- RR. “**Operating pressure**” means the pressure at which the parts of an irrigation system are designed be the manufacturer to operate.
- SS. “**Overhead sprinkler irrigation systems**” means systems that deliver water through the air (e.g., spray heads and rotors).
- TT. “**Overspray**” means the irrigation water which is delivered beyond the target area.
- UU. “**Permit**” means an authorizing document issued by local agencies for new construction and rehabilitated landscapes.
- VV. “**Pervious**” means any surface or material that allows the passage of water through the material and into the underlying soil.

- WW. **“Plant factor”** or **“plant water use factor”** is a factor, when multiplied by ETo, estimates the amount of water needed by plants. For purposes of this Ordinance, the plant factor range for low water use plants is 0 to 0.3, the plant factor range for moderate water use plants is 0.4 to 0.6, and the plant factor range for high water use plants is 0.7 to 1.0. Plant factors cited in this Ordinance are derived from the Department of Water Resources 2000 publication “Water Use Classification of Landscape Species”.
- XX. **“Precipitation rate”** means the rate of application of water measured in inches per hour.
- YY. **“Project applicant”** means the individual or entity submitting a Landscape Documentation Package required under Section 19.28.110(6), to request a permit, plan check, or design review from the City. A project applicant may be the property owner or his or her designee.
- ZZ. **“Rain sensor”** or **“rain sensing shutoff device”** means a component which automatically suspends an irrigation event when it rains.
- AAA. **“Record drawing”** or **“as-builts”** means a set of reproducible drawings which show significant changes in the work made during construction and which are usually based on drawings marked up in the field and other data furnished by the contractor.
- BBB. **“Recreational area”** means areas dedicated to active play such as parks, sports fields, and golf courses where turf provides a playing surface.
- CCC. **“Recycled water”, “reclaimed water”, or “treated sewage effluent water”** means treated or recycled waste water of a quality suitable for non-potable uses such as landscape irrigation and water features. This water is not intended for human consumption.
- DDD. **“Reference evapotranspiration”** or **“ETo”** means a standard measurement of environmental parameters which affect the water use of plants. ETo is expressed in inches per day, month, or year as represented in the sample materials referenced in Section 19.28.110(6)(B), and is an estimate of the evapotranspiration of a large field of four- to seven-inch tall, cool season grass that is well watered. Reference evapotranspiration is used as the basis of determining the Maximum Applied Water Allowance so that regional differences in climate can be accommodated.

- EEE. **“Rehabilitated landscape”** means any re-landscaping project that requires a permit, plans check, or design review, meets the requirements of Section 19.07.020, and the modified landscape area is equal to or greater than 2,500 square feet, is 50% of the total landscape area, and the modifications are completed within one year.
- FFF. **“Runoff”** means water which is not absorbed by the soil or landscape to which it is applied and flows from the landscape area. For example, runoff may result from water that is applied at too great a rate (application rate exceeds infiltration rate) or when there is a slope.
- GGG. **“Soil moisture sensing device”** or **“soil moisture sensor”** means a device that measures the amount of water in the soil. The device may also suspend or initiate an irrigation event.
- HHH. **“Soil texture”** means the classification of soil based on its percentage of sand, silt, and clay.
- III. **“Special Landscape Area”** (SLA) means an area of the landscape dedicated solely to edible plants, areas irrigated with recycled water, water features using recycled water and areas dedicated to active play such as parks, sports fields, golf courses, and where turf provides a playing surface.
- JJJ. **“Sprinkler head”** means a device which delivers water through a nozzle.
- KKK. **“Static water pressure”** means the pipeline or municipal water supply pressure when water is not flowing.
- LLL. **“Station”** means an area served by one valve or by a set of valves that operate simultaneously.
- MMM. **“Swing joint”** means an irrigation component that provides a flexible, leak-free connection between the emission device and lateral pipeline to allow movement in any direction and to prevent equipment damage.
- NNN. **“Turf”** means a ground cover surface of mowed grass. Annual bluegrass, Kentucky bluegrass, Perennial ryegrass, Red fescue and Tall fescue are cool-season grasses. Bermudagrass, Kikuyugrass, Seashore Paspalum, St. Augustinegrass, Zoysiagrass, and Buffalo grass are warm-season grasses.
- OOO. **“Valve”** means a device used to control the flow of water in the irrigation system.

- PPP. **“Water conserving plant species”** means a plant species identified as having a low plant factor.
- QQQ. **“Water feature”** means a design element where open water performs an aesthetic or recreational function. Water features include ponds, lakes, waterfalls, fountains, artificial streams, spas and swimming pools (where water is artificially supplied). The surface area of water features is included in the high water use hydrozone of the landscape area. Constructed wetlands used for on-site wastewater treatment or stormwater best management practices that are not irrigated and used solely for water treatment or stormwater retention are not water features, and therefore, are not subject to the water budget calculation.
- RRR. **“Watering window”** means the time of day irrigation is allowed.
- SSS. **“WUCOLS”** means the Water Use Classification of Landscape Species published by the University of California Cooperative Extension, the Department of Water Resources and the Bureau of Reclamation, 2000

(Ord. MC-1320, 1-05-10)

19.28.130 Applicable Regulations

All landscape plans shall be subject to the applicable regulations of the Development Code, including, but not limited to, Article IV, Administration provisions.

- 19.30.360 Supplemental Improvements.**
- 19.30.370 Waiver of Direct Access Rights**

19.30.010 General

The subdivider, as a condition of approval of the final or parcel map shall, consistent with Map Act Sections 66411.1 and 66462.5, improve or agree and guarantee to improve all land either within or outside the subdivision to be used for public or private streets, alleys, pedestrian ways, easements or other improvements in compliance with this Development Code.

19.30.020 Required Improvements

Completion of improvements outlined within this Chapter shall be in compliance with any agreement entered into by the subdivider and the City as well as plans and standard specifications applicable at the time of issuance of grading or building permits.

19.30.030 Block Standards

The lengths, widths and shapes of blocks shall comply with the following standards:

1. Convenient access, circulation, control and safety of street traffic, as outlined in the Circulation Element of the General Plan;
2. Lot specifications, as outlined in this Development Code; and
3. Limitations and opportunities of existing topography.

19.30.040 Grading

Proper grading and erosion control, including the prevention of sedimentation or damage to off-site property shall be in compliance with the standards outlined in Chapter 15 of the Municipal Code, and Map Act Section 66411.

19.30.050 Improvement Standards

1. The subdivider shall provide and install all required streets and related improvements, either within or outside the subdivision, in compliance with the policies and procedures of the Department of Public Works/City Engineer, and the serving utility company. These improvement requirements shall be imposed as a condition of approval at the tentative map stage, and shall be completed or bonded for prior to recordation of the final map.
2. After final approval of the street lighting systems, it shall become the property of the City. The systems shall not be installed by a public utility or attached to poles or to a system owned by a public utility.
3. The subdivider shall pay to the City the cost of electrical energy for the street lighting system installed for his/her subdivision for a period of forty-eight months from the date of acceptance by the Director of Public Works/City Engineer. Payment shall be made to the City in one lump sum, prior to map recording, based on estimated rates approved by, and on file with the Director of Public Works/City Engineer.

19.30.060 Lot Standards

The design, size, shape and orientation of each lot, which provides for a suitable building site, shall be appropriate to its location and type of development contemplated. The following standards shall apply:

1. The lot lines of all lots, so far as practical, shall be at approximately right angles to the fronting street, or approximately radial to the center of the curvature, if the street is curved. Sidelines of each lot shall be approximately radial to the center of the curvature of a cul-de-sac, where applicable;
2. No lot shall be divided by a City or special district boundary line. Division of the lot by a tax code boundary shall be avoided;
3. Corner lots for residential use shall have extra width pursuant to Section 19.04.030(1) (Table 04.02) to permit appropriate building setback from both streets;
4. Through lots and reverse corner lots shall be avoided;
5. All lots that abut on arterial streets or the freeway shall have an additional 10 feet of depth which shall be included as part of the landscape maintenance district;
6. No remnants of property, with the exception of 1 foot control lots and approved nonbuildable sites, shall be created which do not conform to lot requirements or which are not required by public or private utility purposes;

[Return to Municipal Code Contents]

7. Lot lines between adjacent lots within a subdivision shall be located at the top of any graded slope; and
8. All lots shall conform to the requirements contained in this Development Code.

19.30.070 Median Standards

Median islands shall be installed as a condition of approval of a tentative map at appropriate locations, and in compliance with City standards in effect at the time of issuance of a Construction Permit.

19.30.080 Sanitary Sewers

The subdivider, as a condition of approval of a tentative map, shall provide and install adequate sanitary sewer facilities, either within and/or outside the subdivision, in compliance with the policies and procedures of the Department of Public Works/City Engineer.

19.30.090 Storm Drainage Retention

The subdivider, as a condition of approval of the tentative map, shall provide and install storm drainage and/or retention improvements, either within and/or outside the subdivision, in compliance with the policies and procedures of the Department of Public Works/City Engineer.

19.30.100 Street Trees

The subdivider, as a condition of approval of a tentative map, shall provide and install approved street trees within the street right-of-way, dedicated planting easement, or within a combination of both in compliance with City standards.

For street trees not installed at time of acceptance of the public improvements, the subdivider shall deposit funds in the amount established by the Council. These funds shall be deposited in the Street Tree Fund, and shall be used for the purchase and planting of street trees, as the lots become occupied. The subdivider shall provide a specified list of City approved trees for selection by the new lot owner.

19.30.110 Underground Utilities

The subdivider, as a condition of approval of a tentative tract map, shall provide for the undergrounding of all existing and proposed utility distribution or transmission facilities (e.g., cable television, electric, gas, telephone and water), within the subdivision and along peripheral streets, in compliance with the following standards:

[\[Return to Municipal Code Contents\]](#)

1. Utility lines, including, but not limited to, electric, communications, streetlighting and cable television shall be required to be placed underground in compliance with the specifications of the public utility providing such services. The subdivider is responsible for complying with the requirements of this Section, and shall make the necessary arrangements with the utility companies for the granting of easements and installation of such facilities. Exceptions to the underground requirements are as follows:
 - A. Transformers, pedestal-mounted terminal boxes, meter cabinets and concealed ducts may be placed above ground if within the subdivision and are used solely in connection with the underground transmission or distribution lines;
 - B. Poles supporting street lights, and the electrical lines within the poles, may be situated above the surface of the ground;
 - C. The Council may waive any requirement of this Section if topographical, soil or other similar physical conditions make such underground installation unreasonable or impractical;
 - D. Any Parcel Map with a maximum of 4 residential parcels, no parcel of which has previously been exempted from this Section; and where at least 50% of the surrounding area within a radius of 500 feet has been previously developed without undergrounding utilities;
 - E. That portion of a previously developed nonresidential Parcel Map; and
 - F. The requirement to underground shall apply to all utility lines traversing a subdivision, or installed along either side of the streets and alleys adjoining the subdivision, except for electrical lines of 33 KVA or more. Where 1 line is exempt, all parallel lines on that same pole shall be exempt.
2. Subdividers shall make the necessary arrangements with cable television operators to comply with the following requirements with respect to cable television installation in residential subdivisions:
 - A. Pre-wire all residential structures;
 - B. Connect laterals to each residential structure with a minimum of 2 outlets wired in each structure; and
 - C. Install "flush mounts" or "pedestals" as required by the cable television operator which will service the subdivision.

3. Payment for costs of undergrounding shall be as follows:
- A. Arrangements, including payment of costs, shall be made by the subdivider directly with the serving utility company(s). Undergrounding of utility structures may be done by the subdivider, with permission from the serving utility;
 - B. For subdivisions with frontages of less than 300 feet, the City Engineer may accept a cash payment from the subdivider, in lieu of immediate undergrounding of the lines. Payments will be based upon a written estimate of the short unit cost from the serving utility company(s), and will reflect the subdivision's proportionate share of the estimated cost for undergrounding the lines over the entire area adopted by the City Engineer. Determination may be made by the City Engineer at the time any application is made to pay fees pursuant to this Section;
 - C. A Subdivider with property frontage of any length may elect to enter into an agreement with the City to defer the undergrounding until the utility lines along the frontage of 1 or more of the adjoining parcels are undergrounded. The agreement shall require the cost of the undergrounding, as determined pursuant to subsection (3)(B) to be made in semi-annual payments over a period of 5 years. The agreement shall be secured by a bond, or security interest in the subject real property;
 - D. A subdivider with property frontage of any length may petition the City to establish an assessment district to fulfill the requirement for undergrounding utilities. Prior to issuance of a Certificate of Occupancy or Temporary Certificate of Occupancy for any structure in the subject subdivision, subdivider shall have an assessment district in place or shall have made provision for undergrounding pursuant to Sections (3) (A) through (C);
 - E. In the event that property on the opposite side of any street or highway from the property line along which underground is required is vacant, and a single set of poles carry the overhead utility lines for both sides of the street or highway, the subdivider shall pay 50% of the estimated cost of undergrounding. When the vacant property is developed, the subdivider of the property shall, as a condition of the issuance of building permits, be required to pay the remaining 50% of the cost of such undergrounding. Where the property is not vacant, or more than 1 set of poles carry utility lines along the street or highway, the subdivider shall pay the full cost of required undergrounding; and
 - F. Unless otherwise specified, any other provision herein notwithstanding the entire cost to underground street crossing utility lines shall be the responsibility of the subdivider of the property served by the utility lines.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

4. Deposit of payments for costs of undergrounding shall be as follows:
 - A. All payments collected pursuant to this Section shall be deposited into a City administered line item account for undergrounding utilities. Separate accounts shall be maintained for undergrounding in defined geographic areas throughout the City, as established by the City Engineer; and
 - B. In no event shall the payments from the subdividers on both sides of the street exceed the total estimated cost for undergrounding utilities along that section of street plus reasonable costs of administering this Section as approved by the Council.

19.30.120 Walls

Each lot located on the exterior boundary of the subdivision shall have a wall adequate to prevent access between the lot and adjacent properties subject to the approval of the Director and in compliance with this Development Code.

19.30.130 Water Supply

The subdivider, as a condition of approval of a tentative map, shall provide and install adequate water supply facilities, either within and/or outside the subdivision, in compliance with the requirements of the applicable water district. Design and installation plans shall be subject to approval by the Water Department.

19.30.140 Wells

Any water wells which are required to be abandoned by conditions of approval or state law shall be abandoned in a manner approved by the City Engineer and the State Department of Water Resources. The location of any well shall be delineated on the final or parcel map, and well logs, if available, shall be submitted to the City.

19.30.150 Wind Erosion

A subdivider, as a condition of approval of a tentative map, for a subdivision located within an area subject to high wind erosion shall comply with the following standards, consistent with the General Plan and this Development Code:

1. A solid masonry wall with a height of 6 feet and subject to design and materials approval by the Director shall be constructed on the peripheral boundary of the subdivision to protect it from the prevailing wind. Where the required wall extends over a future street opening, a fence, 6 feet in height, and subject to design and materials approval by the Director, may be substituted for the masonry wall;

[Return to Municipal Code Contents]

2. Lots within and/or outside of the subdivision that have had soil disturbed during construction shall be covered with protective landscaping materials, subject to the approval of the City Engineer; and,
3. Prior to and during construction, streets and disturbed open areas within and/or outside of the subdivision shall be treated by watering or other approved method to prevent fugitive dust.

19.30.160 Deferred Improvement Agreements

1. SUBDIVISIONS OF 4 OR LESS PARCELS

The frontage improvements may be deferred when deemed appropriate by the City Engineer. Deferral will be allowed when the City Engineer finds that construction is impractical due to physical constraints, or the surrounding neighborhood is absent similar improvements. When improvements are deferred, the subdivider shall enter into an agreement with the City for the installation of all frontage improvements at a future date as determined by the City. The agreement shall provide for the following:

- A. The agreement shall be acceptable to the City Engineer and City Attorney;
- B. Construction of required improvements shall begin within 90 days of the receipt of notice to proceed from the City;
- C. In the event of default by the owner or successors, the City is authorized to cause the construction to be done and charge the entire cost and expense to the owner or successors, including interest from the date of notice of the cost and expense until paid;
- D. This agreement shall be recorded in the office of the County Recorder at the expense of the owner and shall constitute notice to all successors of title to the real property of the obligation set forth, and also a lien in an amount to fully reimburse the City, including interest as above, subject to foreclosure in event of default in payment;
- E. In event of litigation caused by any default of the owner or successors, the owner or successors agree to pay all costs involved, including reasonable attorneys fees, which shall become a part of the lien against the real property;
- F. The term "owner" shall include not only the present owner, but also heirs, successors, executors, administrators and assigns, with the intent that the obligations undertaken shall run with the real property and constitute a lien against it; and

[Return to Municipal Code Contents]

- G. Any other provisions deemed necessary by the City.

The agreement shall not relieve the owner from any other specific requirements of the Map Act or this Development Code.

2. REMAINDERS

Where remainders are made part of a final or parcel map, the subdivider may enter into any agreement with the City to construct improvements within, and along exterior boundaries of the remainder at a future date and prior to the issuance of a permit or other entitlement for development of a remainder parcel. The improvements shall be at the subdivider's expense. In absence of an agreement, the City may require completion of the construction improvements within a reasonable specified time following approval of the final or parcel map upon a finding that completion of the improvements is necessary for the following reasons:

- A. The public health and safety; or
- B. The required construction is a mandatory prerequisite to the orderly development of the area.

19.30.170 Design

The design and layout of all required improvements, both on and off-site, public and private, shall conform to generally accepted engineering standards, the Map Act and applicable provisions of the Municipal Code.

1. STREETS

The design and layout of all required streets shall comply with the following standards/requirements:

- A. In compliance with the Circulation Element and all other related provisions of the General Plan;
- B. Direct driveway access shall be avoided when possible from arterials and collector streets as identified in the Circulation Element. Circular driveways or turnarounds shall be provided when direct access is unavoidable; and
- C. In compliance with standards established by the City Engineer including:
 - 1.) Specific cross-section street standards, based upon and related to the use to be made of the street(s);

[Return to Municipal Code Contents]

- 2.) Offset intersections shall be a minimum of 150 feet centerline to centerline for local streets. A greater distance shall be established for larger streets as determined by the City Engineer; and
- 3.) No cul-de-sac shall exceed 500 feet in length unless approved by the Planning Commission or as otherwise provided in Chapters 19.15 and 19.17.

2. SIDEWALKS

Except as provided in Chapter 19.15 and 19.17, sidewalks shall be provided for all lots included in the subdivision. The sidewalks shall be of such width as may be required by the Policies and Procedures of Public Works, but in no case less than 6 feet in width adjacent to the curb in a residential area, or less than 5 feet in a commercial or industrial area. Considerations in design are to be given for handicapped persons and senior citizens. In addition, the following shall apply:

- A. Required sidewalk widths may include street signs, lights, fire hydrants, etc. These sidewalks should be located adjacent to the curb. However, in no instance may the clear path of travel be reduced to less than 4 feet.
- B. Meandering sidewalks, where used, shall be 5 feet in width and shall not include street signs, lights, etc;
- C. Sidewalks constructed of alternative paving materials as approved by the City Engineer, shall have smooth surfaces to ensure pedestrian safety. Asphalt shall not be used as an alternative paving material; and
- D. Undulating sidewalks are not permitted.

3. ALLEYS

All alleys shall have a minimum width of 20 feet. Intersecting alleys shall have a corner cutoff or radius of not less than 20 feet.

4. CORNER TREATMENT

At all block corners there shall be a rounding at the curb to a minimum radius of 25 feet.

There shall also be a rounding of the property lines or a corner cutoff as established by the City Engineer.

19.30.180 Cable Television Service

The design of a subdivision shall provide 1 or more appropriate cable television systems an opportunity to construct, install and maintain any necessary equipment, pursuant to Map Act Section 66473.3. Conduits and manvaults shall be dedicated to the City. This Section is not intended to require free access to a subdivision, but to allow a cable franchise the opportunity to negotiate for providing service.

19.30.190 Energy Conservation

The design of a subdivision shall provide, to the extent feasible, for future passive or natural heating or cooling opportunities, pursuant to Map Act Section 66473.1.

19.30.200 Access

All subdivisions shall abut upon or have an approved access to a public street. In addition, the following standards shall apply:

1. Each lot or unit within the subdivision shall have approved direct access to a public or private street;
2. Street layout shall be designed to provide for future access to, and not impose undue hardship upon, property adjoining the subdivision;
3. No new direct driveway access from individual residential lots onto divided major arterials, major arterials or minor arterials shall be permitted, unless approved by the Director and City Engineer;
4. In the case of private streets, the subdivider shall provide an appropriate method for permanent maintenance subject to approval of the City Engineer and the City Attorney;
5. Reserve strips, or non-access at the end of any street or at the exterior boundary of the subdivision, shall be dedicated unconditionally to the City, when required; and

6. A tentative tract or parcel map shall provide for at least 2 different standard routes for ingress and egress, except as provided below. A standard route is a road which is dedicated to the City and has a minimum paved width of 24 feet. The different standard routes shall be designed to utilize separate roadways or streets, or a common street that provides access from opposite directions, provided that the access from each direction utilizes an independent street system. The purpose of these routes is to permit accessibility to fire fighting and other public equipment and to permit orderly evacuation in the event of flood, fire or other emergency. Prior to recordation of the final map, adequate security shall be provided to ensure construction of the required improvements before any certificate of occupancy is issued.

Exemptions. A tentative tract or parcel map may be exempted from providing 2 different standard routes of ingress and egress and provide only 1 standard route only if all of the following circumstances exist:

A. General

- (1) The Fire Chief, the Director, and the City Engineer determine that there is no feasible alternative to providing 2 different standard routes of access for the tentative subdivision map.
- (2) The determination is made by the City Traffic Engineer that a second standard route is not necessary for circulation purposes (this determination may require the submittal of a traffic study addressing the issue).
- (3) The Fire Chief specifically finds that the public health, safety, and welfare in the event of flood, fire, or other emergency do not require both such routes, under the circumstances of that particular tentative map, development agreement or specific plan application. The Fire Chief shall provide written documentation of this finding to the Planning Commission and may recommend approval or denial of the request. The Planning Commission shall make its recommendation to the Mayor and Common Council for final decision of the tentative map with only 1 standard access route, based on the determination of the City Traffic Engineer and the findings and recommendation of the Fire Chief.

B. Tentative Maps Located within the Foothill Fire Zones

Where the subject property is located within a Foothill Fire Zone, as defined in Chapter 19.15, the Planning Commission, upon the recommendation of the Director, the Fire Chief and the City Engineer, may approve a tentative map with 1 standard and 1 non-standard access route. A non-standard access route is a road which is not constructed in full conformance with the requirements for a standard route set forth above. In no event may a tentative map be approved within a Foothill Fire Zone unless 2 access routes are provided, of which 1 shall be standard. One standard and 1 non-standard access route may be approved where it is found that with respect to the non-standard access route when all of the following conditions are met:

- (1) The public health, safety and welfare do not require that the secondary access be a standard route;
- (2) That such route shall be designed and maintained to support the imposed load of fire apparatus and shall have a surface sufficient to provide all-weather driving capabilities;
- (3) That such route is at least 20 feet in width to accommodate emergency vehicles, in accordance with Article 10 of the Uniform Fire Code;
- (4) A City-approved traffic analysis has been completed which documents that a second standard access is not needed for general traffic circulation.

C. Conditions for 1 Standard Access Route

Any tentative tract or parcel map approved with less than 2 standard routes of access shall be subject to all of the following:

- (1) All structures shall be provided with interior automatic sprinklers in order to help decrease the spread of fire. The design and installation shall be approved by the City Fire Department.
- (2) Cul-de-sacs to a maximum of 500 feet may be permitted with a maximum of 30 dwelling units, unless otherwise approved by the Planning Commission upon the recommendation of the Director, Fire Chief and City Engineer, or as otherwise provided in Chapters 19.15 and 19.17.

(For the purposes of this Development Code, a cul-de-sac is defined as a street or connection system of streets having only one outlet for vehicular traffic and ending in a turnaround. The length of the cul-de-sac is measured along its centerline from the centerpoint of the turnaround to the intersection of the centerlines of the cul-de-sac and the first street that has at least two outlets to a street system outside of the project boundaries; in situations where no secondary access route is provided, the access route is the cul-de-sac outlet.)

- (3) The Water Department General Manager shall determine if a looped system or similar mechanism shall be installed at the time of development to ensure adequate water service.
- (4) Any other recommended requirements the Fire Chief deems necessary to ensure public health, safety, and welfare, including, but not limited to structural design, and number and location of fire hydrants.

D. Conditions for a Non-Standard Access Route

- (1) Requirement of dedication and perpetual maintenance. Any non-standard access route shall be over a dedicated right-of-way or irrevocable easement; such route may be over an easement granted to any public entity when such easement includes provisions for the perpetual maintenance of the access routes in the manner approved by the City at the time of its approval of the tentative map.
- (2) Improvement of access route upon further development. At such time as further development occurs which would provide an access route to a subdivision over a non-standard route previously approved by the Mayor and Common Council pursuant to the provisions of this section, that route shall be dedicated and fully improved to a standard width for a street of its type, with curbs, gutters, sidewalks and such other street improvements as may be required under this code or any other ordinances or policy.
- (3) Fuel modification. A fire model of the site shall be developed for the purpose of determining the extent of the fuel modification zone, and if the minimum standards for a fuel modification plan as set forth in Section 19.15.020(6)(J) are adequate with a non-standard secondary access route.
- (4) Controlled access. The use of gates, or other forms of controlled access to and from the non-standard access route, shall be subject to approval of the Director, Fire Chief and City Engineer, and shall utilize a design subject to Fire Department approval.

[\[Return to Municipal Code Contents\]](#)

E. Procedures for Exemption

A Variance application shall be submitted pursuant to Chapter 19.72 concurrently with any tentative map, development agreement or specific plan application under which an exemption from the requirement for a second standard access route is proposed.

(Ord. MC-902, 4-19-94)

19.30.210 Improvement Plans

Improvement Plans shall be prepared by a registered civil engineer licensed by the State of California, and shall include, but not be limited to, all improvements required in this Chapter.

1. FORM AND CONTENT

The form, content and supporting data of an improvement plan shall conform to the requirements of the City Engineer.

2. REVIEW AND APPROVAL BY CITY ENGINEER

The subdivider shall submit the preliminary improvement plans and all supporting data to the City Engineer for review. The subdivider shall revise the improvement plans until in final form as deemed by the City Engineer. Upon completion of the improvement plans and satisfaction of all other requirements of this Development Code, the subdivider shall transmit the original set of improvement plans to the City Engineer for final review and signature. The originals shall be retained by the City.

Approval by the City Engineer shall in no way relieve the subdivider or the subdivider's engineer from responsibility for the design of the improvements and for any error, omission or any deficiency resulting from the design or from any required conditions of approval of the tentative map.

3. REVISIONS TO APPROVED PLANS

A. BY SUBDIVIDER

Requests by the subdivider for revisions to the approved plans, appearing necessary during construction, shall be submitted in writing to the City Engineer and shall be accompanied by revised drawings showing the proposed revision(s). If found acceptable and consistent with the approved tentative map, the amended originals shall be initialed by the City Engineer. Construction of any proposed revision(s) shall not proceed until the revised plans have been initialed by the City Engineer.

[Return to Municipal Code Contents]

B. BY THE CITY ENGINEER

When revisions are deemed necessary by the City Engineer to protect the public health and safety, or as field conditions may require, a request shall be made to the subdivider. The subdivider shall revise the plans and transmit the original(s) to the City Engineer for initialing within the time specified by the Engineer. Construction of all, or any portion of, the improvements may be stopped by the City Engineer, in compliance with Chapter 12 of the Municipal Code, until the revised drawings have been submitted, approved and initialed.

19.30.220 Improvement Agreement

The improvement agreement shall be prepared and signed by the Mayor and approved as to form by the City Attorney. The agreement shall provide for the following:

1. Construction of all improvements according to approved plans and specifications on file with the City Engineer;
2. Completion of improvements within the time specified by Section 19.30.020 (Required Improvements);
3. Right by City to modify plans and specifications;
4. Warranty by subdivider that construction will not adversely affect any portion of adjacent properties;
5. Payment of fees in compliance with the City's "Schedule of Fees;"
6. Payment of in-lieu fees for undergrounding of utilities on peripheral streets as well as payment of in-lieu fees for parkland dedication as may be required;
7. Payment of Area of Benefit Fees, if applicable;
8. Improvement security as required by Section 19.30.020. Improvement security for subdivisions of 4 or less parcels shall be provided before performance of the work;
9. Maintenance and repair of any defects or failures and causes thereof;
10. Release of the City from all liability incurred by the subdivision and payment of all reasonable attorney's fees that the City may incur because of any legal action resulting from the subdivision; and
11. Any other deposits, fees or conditions required by this Development Code, and as may be required by the City Engineer.

[Return to Municipal Code Contents]

19.30.230 Improvement Security

1. REQUIRED

Any improvement agreement, contract or act required or authorized by the Map Act, for which security is required, shall be secured pursuant to Map Act Section 66499.

2. GENERAL

A. IMPROVEMENT AGREEMENT

The subdivider shall enter into a contract with the City, acceptable to the City Attorney, to make, install and complete within the time fixed, but in no case more than 2 years from the date of execution of the contract, all improvements and land alteration(s) in compliance with approved plans.

B. SECURITY ARRANGEMENTS

1. The subdivider shall file security to guarantee completion of public and private improvements with the improvement agreement as follows:
 - a. A faithful performance security in an amount deemed sufficient by the City Engineer to cover up to 100% of the total estimated cost of all required improvements including bonding requirements for grading as outlined in Chapter 15.04 of the Municipal Code;
 - b. A labor and material security to cover up to 50% of the total estimated cost of all required improvements;
 - c. A grading security as required by Chapter 15.04 of the Municipal Code;
 - d. A monumentation security in an amount stipulated by the City Engineer to cover the cost of placing lot corners and other related monuments;
 - e. If the required subdivision improvements are financed and installed pursuant to special assessment proceedings, upon the furnishing by the contractor of the faithful performance and labor and material security required by the special assessment act being used, the City may reduce the improvement security of the subdivider by an amount corresponding to the amount of the security furnished by the contractor; and

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- f. Notwithstanding the above, the subdivider may satisfy the requirement for security of certain improvements by providing proof that same has been posted with another public agency subject to the approval of the City Engineer.
 2. Security may be 1 of the following types subject to the approval of the City Attorney as to form:
 - a. Bonds. All bonds shall be executed by a surety company authorized to transact business as a surety, and have an agent for service in California, together with an "A" policy holder's rating and a financial rating of at least "V" in compliance with the current "Best's" ratings. The bond(s) shall contain the nearest street address of the institution providing the bond(s).
 - b. Cash Deposits. In lieu of the faithful performance and labor and material bonds, the subdivider may submit cash deposits or negotiable bonds of a kind approved for securing deposits of public monies under the conditions hereinafter described.

Disbursements from cash deposits shall be made in compliance with a separate agreement between the subdivider and the City. A bookkeeping fee of 1% of the total amount deposited with the City for each cash deposit shall be submitted with each security. Disbursements from a cash deposit in any instance shall not be permitted unless and until authorized in writing by the Director.
 - c. Letter of Credit. In lieu of faithful performance and labor and material bonds or cash deposits, the subdivider may submit a letter of credit subject to the California Commercial Code and under the conditions hereinafter described. The letter of credit shall be issued by a financial institution organized and doing business in, and subject to regulation by, the State of California or federal government, in a form, content, and duration as approved by the City Attorney, and shall pledge that the funds necessary to meet the performance are on deposit and guaranteed for payment and agree that the funds designated by the instrument shall become secured trust funds for the purposes set forth in the instrument. The letter of credit shall contain the nearest street address of the institution providing the instrument.
3. The City Clerk shall not endorse or sign its certificate contained on the final map unless and until improvement security as hereinabove specified has been posted.

[Return to Municipal Code Contents]

4. The requirements stipulated above are applicable to any parcel map for which the installation of any public improvements or grading is a condition of approval.
5. No final or parcel map shall be presented to the Council for acceptance until the requirements of this Section have been met and until all charges established by the Council and pertaining to the property being subdivided have been paid.

3. IMPROVEMENT AGREEMENT NOT REQUIRED WITH SPECIAL PERMIT

Should the subdivider desire to do certain work prior to entering into an agreement with the City to install and complete all subdivision improvements and alteration work, the subdivider may make an application to do so under a special permit. This application shall be accompanied by detailed plans, describing the work which is proposed. The Director and City Engineer may issue a special permit to the subdivider upon submittal of an application, provided security has been posted in an amount which would insure the rehabilitation of the land, including grading and planting, in the event the subdivision map does not record. The security and contractor's qualifications shall be in compliance with this section. When the special permit is for all work required in connection with the subdivision and the work has been completed and inspected prior to map recordation, an improvement agreement will not be required.

4. AGREEMENT BETWEEN DEVELOPMENT DEPARTMENT AND CITY IN LIEU OF BOND

An agreement between the Development Department of the City and the City, approved by the City Attorney and unconditionally providing and guaranteeing that said Development Department shall provide any or all required improvements and pay the costs thereof pursuant to the provisions of this Chapter, and which pledges the full faith and credit of said Development Department, may be filed with the City Engineer as security in lieu of bond, cash, or certificate of deposit whenever the project is located in a redevelopment project area or the project is covered by a disposition and joint development agreement of which the City or Development Department is a party. The guarantee agreement shall recite that the improvements will be in compliance with the redevelopment plan, if any, for the area and in furtherance of the public interest in promoting public or private development.

5. RELEASE OF SECURITY

Security provided may not be released. In the case of a letter of credit, the issuing bank or association will receive a copy of the Notice of Completion.

[\[Return to Municipal Code Contents\]](#)

A. PROGRESS PAYMENTS

Progress payments may be made to the subdivider from any deposit money or letter of credit which the subdivider may have made in lieu of providing a security bond; provided, however, that no progress payment shall be made for more than 90% of the value of any installment of work. No progress payments from cash deposits shall be made except upon certification by the City Engineer, and the subdivider that work covered thereby has been completed.

B. RELEASE OF SECURITY

Improvement bonds given for faithful performance of the agreement shall be released upon final inspection and acceptance by the City Engineer. The labor and material bond shall be retained to secure payment to the contractor, the subcontractors, and to persons renting equipment or furnishing labor or materials for 6 months after completion and acceptance of the work. Following the 6-month period, the labor and material security may be reduced to an amount not less than the total of all claims on which an action has been filed and notice given in writing to the City.

C. MAINTENANCE GUARANTY

The subdivider shall guarantee all public improvements for a period of 1 year from the date of final acceptance and shall correct any and all defects or deficiencies arising during that period of limitation outlined in Code of Civil Procedure Sections 337 and 337.15, as a result of the acts or omissions of the subdivider, its agents, or employees. The subdivision guaranty shall be backed by a bond or cash deposit in the amount of 25% of the surety posted for improvements. The City shall provide written notice of the defect or deficiency. In any instance where the subdivider fails to take action within the specified time, or when immediate action is required to protect the public health, safety and/or welfare, the City may cause the work to be performed and call on the surety for reimbursement. The maintenance security shall be submitted prior to final acceptance of the public improvements by the City.

D. FORFEITURE OF SURETY

In the event that subdivider fails to complete all improvement work in compliance with the provisions of this section and the improvement agreement, and the City shall have to complete the same, the City shall call on the security for funds necessary to complete the improvements as reimbursement or shall appropriate from any cash deposit funds for reimbursement. If the amount of any security shall be less than the cost and expense incurred by the City, the subdivider shall be liable to the City for such difference. Any cash remaining in the possession of the City after completion of the improvement, shall be returned to the originator minus normal administrative costs.

19.30.240 Construction and Inspection

The construction methods and materials for all subdivision improvements shall conform to City requirements. Construction shall not commence until all required improvement plans have been approved by the City Engineer and all applicable City permits have been issued. All subdivision improvements are subject to inspection by the City Engineer and shall comply with City requirements.

19.30.250 Completion of Improvements

1. ALL SUBDIVISIONS

The subdivision improvements shall be completed by the subdivider within 12 months, or a later time as approved by the City Engineer, not to exceed a total of 24 months, from final map recordation, unless an extension is granted by the Council.

If the subdivider fails to complete the subdivision improvements within the specified time limits, the Council may, by resolution, cause any or all uncompleted improvements to be completed and the parties executing the security or securities shall be firmly bound for the payment of all necessary and appropriate costs.

2. EXTENSIONS

The completion date may be extended by the Council upon written request by the subdivider and submittal of adequate evidence to justify the extension. The request shall be made not less than 30 days prior to expiration of the subdivision improvement agreement.

The subdivider shall enter into a subdivision improvement agreement extension with the City. The agreement shall be prepared by the City Engineer, approved as to form by the City Attorney, executed by the subdivider and surety and transmitted to the Council for consideration. If approved by the Council, the City Clerk shall execute the agreement on behalf of the City.

In consideration of a subdivision improvement agreement extension, the following adjustments may be required:

- A. Revision of improvement plans to provide for current design and construction standards when required by the City Engineer;
- B. Revised improvement construction estimates to reflect current improvement costs as approved by the City Engineer;
- C. Increase of improvement securities in compliance with revised construction estimates;
- D. Inspection fees may be increased to reflect current construction costs, but shall not be subject to any decrease or refund; and
- E. Any fees then in effect.

The Council may impose additional requirements as recommended by the City Engineer or as it may deem necessary as a condition to approving any time extension for the completion of subdivision improvements.

19.30.260 Acceptance of Improvements

1. GENERAL

After all improvement deficiencies have been corrected and "Drawings of Record" improvement plans filed, the completed subdivision improvements shall be considered by the City Engineer for acceptance. The developer shall be responsible for the cost of providing "as built" revisions to the approved original "drawings of record" on file in the office of the City Engineer. Redlined drawings shall not be accepted for "as built" revisions.

Acceptance of the improvements shall imply only that the improvements have been completed satisfactorily and that public improvements have been accepted for public use.

2. ACCEPTANCE OF A PORTION OF IMPROVEMENTS

Upon written report of the subdivider, the City Engineer may accept a portion of the subdivision improvements. The improvements shall only be accepted if the City Engineer finds that it is in the public interest, and the improvements are for the use of the general public.

Acceptance of a portion of the improvements shall not relieve the subdivider from any other requirements imposed by this Development Code.

19.30.270 Bicycle Paths

As required by Map Act Section 66475, regarding dedication of roadways to the public, the subdivider shall also dedicate additional land as may be necessary and feasible to provide bicycle paths for the use and safety of the residents of the subdivision, if the subdivision contains 200 or more parcels, pursuant to Map Act Section 66475.1.

19.30.280 Bridges and Major Thoroughfares

The purpose of this section is to provide for improvements or the payment of fees to defray the actual or estimated cost of the construction of bridges over waterways, railways, freeways and canyons and/or major thoroughfares as a condition of approval of a final map or as a condition of issuing a building permit, pursuant to Map Act Sections 66484 and 66489, consistent with the Circulation Element of the General Plan.

1. DEFINITIONS

The following definitions apply specifically to this section:

A. Area of Benefit

A specified area for which it has been determined that the real property located therein will benefit from the construction of a bridge and/or major thoroughfare.

B. Bridge Facilities

Those situations identified in the Circulation Element requiring construction of, or addition to, a bridge spanning a waterway, railway, freeway or canyon or that is part of a major thoroughfare.

C. **Construction**

Design, acquisition of right-of-way, administration of construction contracts, actual construction and inspection(s).

D. **Major Thoroughfares**

A roadway designated as arterial, major or secondary highway, as identified in the Circulation Element, whose primary purpose is to carry through traffic and provide a network connecting to the state highway system.

2. ESTABLISHMENT PROCEDURES

Action to establish an area of benefit requiring the payment of fees outlined in this section shall be accomplished, pursuant to the provisions of Map Act Section 66484.

3. AMENDMENTS

Resolutions establishing areas of benefit may be amended by the Council to reflect modifications in either bridge and/or major thoroughfare facilities. These amendments shall be adopted in the same manner as the original resolution.

4. PAYMENT OF FEES

Fees required pursuant to this section shall be paid prior to the recordation of a final or parcel map. These fees shall be based on the City's Schedule of Fees in effect on the date of payment.

5. IN LIEU CONSIDERATION

The Council may approve the acceptance of consideration in lieu of payment of fees outlined in this section.

6. REIMBURSEMENT

If a subdivider, as a condition of approval of a tentative map, is required or desires to construct a bridge and/or major thoroughfare, the Council may enter into a reimbursement agreement with the subdivider, to provide for payments to the subdivider from the applicable fund.

19.30.290 Dedication of Streets, Alleys and Other Public Rights-of-way/Easements

The subdivider, as a condition of approval of a tentative map, shall dedicate, or make an irrevocable offer of dedication of, all parcels of land within the subdivision that are needed for streets and alleys, including access rights and abutter's rights, drainage, public open space, trails, scenic easements, public utility easements and other public easements, pursuant to Map Act Section 66475. In addition, the subdivider shall improve or agree to improve all the aforementioned dedications and easements.

19.30.300 Dedications

All dedications of property to the City for public purposes may be made in fee title, and that, at the City's discretion, a grant of an easement may be accepted for open space, scenic, trails, parks, and/or public utility easements. All dedications in fee and grants of easements shall be free of liens and encumbrances except for those which the City finds would not conflict with the intended use. The City may accept an irrevocable offer of dedication in lieu of dedication.

19.30.310 Local Transit Facilities

The subdivider, as a condition of approval of a tentative map, may be required to dedicate, or make an irrevocable offer of dedication, of land within the subdivision for local transit facilities (e.g., shelters, bus turn outs, etc.) pursuant to Map Act Section 66475.2.

19.30.320 Parks and Recreation Facilities

1. GENERAL

The purpose of this section is to provide additional park and recreational facilities and open space. The park and recreational facilities for which payment of a fee and/or dedication of land is required by this section shall be in compliance with the policies, goals and standards contained in the Parks and Recreation Element of the General Plan.

2. REQUIREMENTS

The subdivider, as a condition of approval of a tentative map, shall pay a fee in lieu, dedicate land, or both, at the discretion of the Council for park and/or recreational purposes, pursuant to Map Act Section 66477.

3. PARK AREA STANDARD

It is hereby found and determined that the public interest, convenience, health, safety and welfare require that 5 acres of land for each 1000 persons residing within the City be devoted to park and recreational purposes. Lands held as public open space, for wildlife habitat, shall not be included in this formula.

4. PARK AND RECREATION CONSTRUCTION FEE

A. A park and recreation construction fee shall be assessed for any mobile home lot or residential dwelling unit constructed in the City. Any person securing a building permit to construct a residential dwelling unit, or to install electrical and/or plumbing equipment to provide service to a mobile home shall pay the following rates:

1. One percent of the cost of the improvements for each single-family dwelling constructed, as determined by the building permit.
2. One percent of the cost of the improvements for each residential dwelling unit constructed in a multi-family dwelling containing 2 or more residential dwelling units, as determined by the building permit.
3. One percent of the cost of the improvements or \$650.00 for each mobile home lot constructed, whichever is greater, in a mobile home park or mobile home park subdivision, as determined by the building permit.

[Return to Municipal Code Contents]

- B. The fee imposed by this section shall be imposed regardless of whether the new dwelling unit is created by new construction or by modification of existing nonresidential structures. The fee imposed shall apply to new mobile home park sites regardless of whether they are part of a new mobile home park or an addition to an existing park.
- C. For the construction of new single-family homes, the fee imposed by this Section may be deferred at the request of the owner of the property until the release of utilities is issued or eighteen (18) months from the issuance of the Building Permit, whichever is less. The owner of the property must personally guarantee payment of the fee, sign documents authorizing the City to place a lien on the property in the amount of the fee, agree to place the payment of the fee in any escrow for the sale of the property, authorize the City to demand payment in any such escrow, and pay an administrative fee set by resolution of the Mayor and Common Council. The amount of the fee due shall be the amount in effect at the time of collection of the fee. In no event shall utilities be released until the fees are paid. This Subdivision C shall expire and be of no further force and effect on and after April 1, 1997.

(Ord. MC-961, 3-20-96)

5. GENERAL PLAN

Where a public park or recreational facility has been designated in the General Plan and is to be located in whole or in part within the proposed subdivision and is reasonably related to serving the needs of the residents of that subdivision, the subdivider shall dedicate land for park and recreational facilities sufficient in size and physical characteristics to meet that purpose. The amount of land shall be determined pursuant to Section 19.30.320(6).

If there is no park or recreational facility designated in the General Plan to be located in whole or in part within the proposed subdivision to serve the needs of the residents of that subdivision, the subdivider shall, pursuant to Council determination, pay a fee in lieu of or dedicate land in compliance with Section 19.30.320(6).

6. DETERMINATION OF LAND OR FEE

The Council shall consider the following when evaluating the payment of fee in lieu of or the acceptance of land for dedication, or a combination of both:

- A. Parks and recreation Element, and any other applicable provision of the General Plan;
- B. Topography, geology, access and location of land in the subdivision suitable for dedication;

[Return to Municipal Code Contents]

- C. Size and shape of the subdivision and land suitable for dedication;
- D. Feasibility of dedication; and
- E. Availability of previously acquired private property.

7. PAYMENT OF PARK AND RECREATION CONSTRUCTION FEE

The fee required by Section 19.30.320(4) shall be due and payable upon the issuance of a building permit for either construction of any residential dwelling unit, or installation of electrical and/or plumbing equipment to provide service to a mobile home. A refund of this fee may be made to the person who paid the fee in the event the building permit expires, pursuant to Section 302(d) of the Uniform Building Code.

8. USE OF FEES

All park and recreation construction fees collected pursuant to the provisions of this chapter shall be placed into a special fund which shall be known as the Park and Recreation Construction Fee Fund. The fund shall be composed of a separate revenue and expense account. Fees collected pursuant to this chapter shall be deposited in the revenue and expense account called Park and Recreation Construction Fee fund, and shall be used solely for the acquisition, improvement and expansion of the public park, playground and recreational facilities of the City, and for the installation and development of playground and recreational facilities owned by the elementary and high school districts.

9. CREDITS FOR LAND AND IMPROVEMENTS DEDICATION

In lieu of the payment of all or a portion of the park and recreation construction fee, the Council may grant credit for land and improvements which are dedicated in fee to public recreation and park purposes and accepted by the City. Dedicated land to be eligible for the credit shall be certified by the Commission as meeting the requirements of the Recreation Element. The amount of dedicated land eligible for the credit, the amount of credit to be given under this section, and the terms and conditions of the credit, if any, between the City and the dedicator shall be determined by mutual agreement.

10. SUBDIVISIONS NOT WITHIN CITY LIMITS

When the proposed subdivision lies within the Sphere of Influence of the City, and the subdivider intends to annex, the subdivider shall, pay a fee in lieu thereof, dedicate land, or both in compliance with adopted park and recreational principles and standards of the City's General Plan, and pursuant to the provisions of this section.

19.30.330 Reservations

The subdivider, as a condition of approval of a tentative map, may be required to reserve areas of real property for parks, recreational facilities, fire stations, libraries or other public uses, pursuant to the requirements of Map Act Sections 66479 and 66480.

19.30.340 School Site Reservations

The subdivider, as a condition of approval of a tentative map, may be required to dedicate real property for the construction of an elementary school to assure the residents of the subdivision adequate public school service. The dedication and subsequent repayment to the subdivider shall comply with the provisions of Map Act Section 66478.

19.30.350 Solar Access Easements

(Reserved for future ordinance).

19.30.360 Supplemental Improvements

The subdivider may be required to install improvements for the benefit of the subdivision which may contain supplemental size, capacity or number for the benefit of property not within the subdivision as a condition precedent to the approval of a subdivision map, and thereafter to dedicate such improvements to the public. However, the subdivider shall be reimbursed for that portion of the cost of such improvements equal to the difference between the amount it would have cost the subdivider to install such improvements to serve the subdivision only, and the actual cost of such improvements pursuant to the provisions of Map Act Sections 66485, 66486 and 66487. The reimbursement shall be in conformance with an agreement approved by the Council. No improvements shall be constructed prior to approval of the agreement.

1. The owner of property serviced by a sewer main extended by the owner 300 feet or more beyond the existing sewer facilities as measured from the point of connection with such existing facilities to the point where the extension enters the lot, parcel or tract to be served by such line, may file with the City Engineer, 2 copies of an audited report of the costs incurred for the sewer line extension and manhole construction (except laterals) as an application for the reimbursement of the costs. The reports shall be filed within 90 days after written acceptance of such extension by the City. The City Engineer shall review such documentation and shall within 45 days after acceptance of same, make a recommendation to the City Administrator that:
 - A. All or a portion of the costs be accepted or denied;
 - B. The City enter into a payback agreement with the owner or subdivider. The agreement shall provide that persons making connection to the line be assessed a fee on a pro rata basis as determined by the frontage of the lot, parcel, or tract serviced by the sewer line extension and, that all fees collected shall be paid to the original builder of the line. Any such agreement shall have a maximum term of 10 years and shall not pay interest; or
 - C. The owner receive immediate payment from the sewer construction fund of the allowed costs of the construction.

2. The recommendation of the City Engineer shall be based upon the following criteria:
 - A. That the extension represents a logical and reasonable extension of the sewer line;
 - B. Properties along the extension have a reasonable probability of development within the ensuing 10 years;
 - C. There are sufficient unencumbered funds in the sewer line construction fund to finance the line;
 - D. The extension does not conflict with or delay the 5 year sewer line construction plan;
 - E. The extension is in compliance with the General Plan; and
 - F. The owner is not receiving any other form of government financing including, but not limited to, inducement, reimbursement, or fee waiver for such development.

Based on the above, the City Administrator shall submit a recommendation to the Council.

[\[Return to Municipal Code Contents\]](#)

3. No reimbursement shall be made hereunder unless and until the City Administrator determines that the audited report and verified claim have been filed within the allotted time periods and are otherwise acceptable to the City.

19.30.370 Waiver of Direct Access Rights

The City shall require as a condition of approval of a tentative map dedication of streets designated as arterial highways, including waiver of direct access rights, except at approved access points. The City may require as a condition of approval of a tentative map that dedications or offers of dedication of streets include a waiver of direct access rights to any street from any property within or abutting the subdivision. The waiver shall become effective upon acceptance of the dedication, pursuant to Map Act Section 66476.

ARTICLE IV - ADMINISTRATION

CHAPTER 19.31 ADMINISTRATION

Sections:

- 19.31.010 Purpose
- 19.31.020 Multiple Permit Applications
- 19.31.030 Pre-Application Conference

Table:

- 19.31.01 Threshold of Review

19.31.010 Purpose

The purpose of this Article is to outline procedures together with various land use permit options, in addition to providing for amendments to the General Plan and this Development Code.

[Table 31.01](#) (Threshold of Review) identifies the full range of land use permit options and applicable final review authority.

19.31.020 Multiple Permit Applications

An applicant for a development project which would require the filing of more than one land use permit application may file all related permits concurrently and pay appropriate fees, as outlined in Chapter 19.32 (Applications and Fees). Processing and environmental review could be concurrent and the final decision on the project shall be made by the highest level of review authority, pursuant to Table 31.01 (Threshold of Review). For example, a project requiring a Variance and Development Permit applications shall be determined by the Commission, while a project requiring a Development Permit, Tentative Tract Map, and General Plan Amendment shall be determined by the Council.

19.31.030 Pre-Application Conference

A prospective applicant or agent may request a pre-application conference with the Department prior to formal submittal of a land use permit application. This conference should take place prior to any substantial investment (i.e., land acquisition, site, engineering and construction plans) in the preparation of the proposed development application. During the conference, the Department representative(s) shall inform the applicant of applicable policies, plans, and requirements as they apply to the proposed development project, review the appropriate procedures outlined in this Development Code, and examine possible alternatives or modifications relating to the proposed project.

CHAPTER 19.32 APPLICATIONS AND FEES

Sections:

- 19.32.010 Purpose**
- 19.32.020 Filing**
- 19.32.030 Fees**
- 19.32.040 Initial Filing**

19.32.010 Purpose

These provisions prescribe the procedures and requirements for filing of applications for permits, amendments, and approvals.

19.32.020 Filing

Application for permits, permit modifications, amendments, and other matters pertaining to this Development Code shall be filed with the Department on a City application form, together with all fees, plans, maps, and any other information required by the Department. The application shall be made by the owner(s) or lessee(s) of property, or their agent(s), or person(s) who have contracted to purchase property contingent upon their ability to acquire the necessary permits under this Development Code, or the agent(s) of such persons.

19.32.030 Fees

The Council shall, by resolution, establish a schedule of fees for permits, amendments, and other matters pertaining to this Development Code. The schedule of fees may be changed or modified only by resolution of the Council. Until all applicable fees have been paid in full, review shall not commence on any application. The City is not required to continue processing any application unless its fees are paid in full. Failure to pay the applicable fees is grounds for denial of the application.

19.32.040 Initial Filing

All applications filed with the Department in compliance with this Development Code shall be initially processed as follows.

1. Completeness review.

The Director shall review all applications for completeness and accuracy before they are determined to be complete in compliance with Section 19.32.020 (Filing) above.

2. Notification of applicant.

A. No later than 30 days of the filing date of the application, the City shall determine in writing whether the application is complete and has been accepted for processing, or that the application is incomplete and that additional information, specified in the letter, shall be provided to make the application complete. The City shall immediately transmit the determination to the applicant.

B. Failure of the Director to respond within 30 days of submittal of an application with a determination as to completeness shall be deemed a determination that the application is complete.

C. The applicant has the right to appeal pursuant to Chapter 19.52.

3. Content of Application.

A. The Director may find that unusual characteristics of a project site or the nature of a project make it infeasible or unnecessary for the applicant to submit all of the information for an application required by this Development Code.

B. In these cases, the Director may reduce the content requirements if it is also found that the absence of the information will not reduce the ability of the Director to evaluate the compliance of the proposed project with the standards of this Development Code.

4. Appeal of determination of completeness.

A. Appeal of Director's determination.

- (1) If the Director determines that an application is incomplete, the applicant shall have the right to appeal that determination to the Commission by submitting a letter and fee to the Commission within 15 days of the notice of incompleteness.
- (2) The applicant's letter shall clearly state the reasons why the applicant believes the application is complete.
- (3) Appeals included within this Subsection may also include appeals where it is alleged by the appellant that the Director erred in refusing to accept or process an application for failure to pay outstanding fees and charges in compliance with the City's Schedule of Service Charges. In hearing and deciding an appeal of the Director's determination, the Commission shall consider the correctness of the amount of the outstanding fee or charge, and whether the fee or charge is owed by the appellant, if the issues are raised by the appellant.

B. The Commission shall make a decision on the appeal of the Director's determination.

C. The applicant shall have the right to appeal the Commission's decision to the Council by submitting a letter and fee to the City Clerk within 15 days of the Commission's decision.

D. The Council shall make a decision on the appeal of the Commission's decision.

5. Environmental information.

The Director may require the applicant to submit additional information needed for the environmental review of the project.

6. Application deemed withdrawn.

If the applicant does not provide the additional information required in compliance with Section 19.32.040(1), above, within 90 days after the date of the letter requesting the additional information, the Director may consider the application withdrawn if the Director determines that reasonable progress toward completion of the application has not occurred, unless an appeal of the Director's determination has been filed. Application processing shall not resume thereafter until a new application is filed, including fees, plans, exhibits, and other materials that are required for any project on the same site.

7. Referral of application.

At the discretion of the Director, or where otherwise required by this Development Code, State, or Federal law, any application filed in compliance with this Development Code may be referred to any public agency that may be affected by or have an interest in the proposed land use activity.

CHAPTER 19.34 CERTIFICATES OF OCCUPANCY

Sections:

- 19.34.010 Purpose**
- 19.34.020 Application**
- 19.34.030 Applicability**

19.34.010 Purpose

The following provisions are intended to ensure that any initiation or re-establishment of a legally permitted use within a legally established (or a legal nonconforming) structure shall comply with all applicable provisions of the Municipal Code.

19.34.020 Application

No vacant, relocated, altered, repaired, or hereafter erected structure shall be occupied, or no change in use of land or structure(s) shall be inaugurated, or no new business commenced until a Certificate of Occupancy has been issued by the Department. An application for the permit shall be on a form prescribed by the Director and shall be filed with the Department pursuant to Chapter 19.32 (Applications and Fees).

19.34.030 Applicability

1. An application for a Certificate of Occupancy for a structure which is to be relocated, remodeled, or erected shall be filed at least 30 days prior to the intended occupancy.
2. An application for a Certificate of Occupancy for the use of vacant land or structure(s), or a change in occupancy shall be filed at least 30 days prior to the intended use inauguration; and
3. A temporary Certificate of Occupancy may be issued by the Department subject to the conditions imposed on the use, provided that a deposit is filed with the Department of Public Works prior to the issuance of the certificate. The deposit or security shall guarantee the faithful performance and completion of all terms, conditions and performance standards imposed on the intended use. The form of the deposit or security shall be subject to the approval of the Director of Public Works. The deposit or security shall be returned to the depositor within 10 working days following a determination by the Director of Public Works that all of the terms, conditions and performance standards have been met.

[\[Return to Title 19 Contents\]](#)

CHAPTER 19.36 CONDITIONAL USE PERMITS AND MINOR USE PERMITS

Sections:

19.36.010	Purpose
19.36.020	Application
19.36.030	Project Review
19.36.040	Hearings and Notice
19.36.050	Findings
19.36.060	Use of Property Before Final Decision
19.36.070	Conditional Use Permit Expiration
19.36.080	Modification of Conditional Use Permit
19.36.090	Time Extension
19.36.100	Revocation
19.36.110	Conditional Use Permit/Minor Use Permit to Run With The Land
19.36.120	Performance Guarantee

19.36.010 Purpose

Conditional uses are unique and their effect on the surrounding environment cannot be determined in advance of the use being proposed for a particular location. At the time of application, a review of the location, design, configuration, and potential impact of the proposed use shall be conducted by comparing the use to established development standards and design guidelines. This review shall determine whether the proposed use should be permitted by weighing the public need for and the benefit to be derived from the use against the impact which it may cause.

An application for a Minor Use Permit may be made in-lieu of an application for a Conditional Use Permit if the use meets the following criteria:

1. The use will be entirely located within a structure that has previously been approved with a Development Permit or Conditional Use Permit;
2. The use will be less than 10,000 square feet in gross floor area;
3. The use will be exempt from the provisions of the California Environmental Quality Act;

For all other applications for conditional uses, and for all applications for social service centers and religious facilities/churches, a Conditional Use Permit shall be required.

(Ord. MC-1381, 12-19-12)

[Return to Municipal Code Contents]

19.36.020 Application

An application for a Conditional Use Permit or a Minor Use Permit shall be filed in a manner consistent with the requirements contained in Chapter 19.32 (Applications and Fees).

(Ord. MC-1381, 12-19-12)

19.36.030 Project Review

Each Conditional Use Permit or Minor Use Permit application shall be analyzed to assure that the application is consistent with the intent and purpose of this Chapter.

Minor Use Permit applications shall be reviewed and approved by the DRC.

To ensure effective implementation of General Plan policies relating to design guidelines, each application for a Conditional Use Permit shall be reviewed by the DRC prior to approval by the Commission.

(Ord. MC-1381, 12-19-12)

19.36.040 Hearings and Notice

Upon receipt in proper form of a Conditional Use Permit or Minor Use Permit application, a hearing shall be set and notice of the hearing given in a manner consistent with Chapter 19.52 (Hearings and Appeals).

(Ord. MC-1381, 12-19-12)

19.36.050 Findings

Following a hearing, the DRC or Commission shall record the decision in writing and shall recite therein the findings upon which such decision is based. The DRC or Commission may approve and/or modify a Conditional Use Permit or Minor Use Permit application in whole or in part, with or without conditions, only if all of the following findings are made:

(Ord. MC-1381, 12-19-12)

1. The proposed use is conditionally permitted within, and would not impair the integrity and character of the subject zone and complies with all of the applicable provisions of this Development Code;

(Ord. MC-1393, 12-02-13)

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

2. The proposed use is consistent with the General Plan;
3. The approval of the Conditional Use Permit or Minor Use Permit for the proposed use is in compliance with the requirements of the California Environmental Quality Act and Section 19.20.030(6) of the Development Code

(Ord. MC-1381, 12-19-12)

4. There will be no potentially significant negative impacts upon environmental quality and natural resources that could not be properly mitigated and monitored;
5. The location, size, design, and operating characteristics of the proposed use are compatible with the existing and future land uses within the general area in which the proposed use is to be located and will not create significant noise, traffic or other conditions or situations that may be objectionable or detrimental to other permitted uses in the vicinity or adverse to the public interest, health, safety, convenience, or welfare of the City;
6. The subject site is physically suitable for the type and density/intensity of use being proposed; and
7. There are adequate provisions for public access, water, sanitation, and public utilities and services to ensure that the proposed use would not be detrimental to public health and safety.

(Ord. MC-888, 12-07-93)

19.36.060 Use of Property Before Final Decision

No permit shall be issued for any use involved in an application for approval of a Conditional Use Permit or Minor Use Permit until, and unless, the same shall have become final, pursuant to Section 19.52.080 (Effective Date).

(Ord. MC-1381, 12-19-12)

19.36.070 Conditional Use Permit Expiration

Within two years of Conditional Use Permit or Minor Use Permit approval, commencement of construction shall have occurred or the Conditional Use Permit or Minor Use Permit shall become null and void. In addition, if after commencement of construction, work is discontinued for a period of one year, then the Conditional Use Permit or Minor Use Permit shall become null and void. Projects may be built in phases if preapproved by the review authority. If a project is built in preapproved phases, each subsequent phase shall have 1 year from the previous phase's date of construction commencement to the next phase's date of construction commencement to have occurred, or the Conditional Use Permit or Minor Use Permit shall become null and void.

(Ord. MC-1381, 12-19-12; Ord. MC-891, 12-22-93)

Any previously approved Conditional Use Permit that had not expired as of September 13, 1993 shall be extended for two years. This automatic extension of time is a one-time extension from September 13, 1993 and is in addition to the time granted under the initial approval of the Conditional Use Permit or any subsequent approval of an extension of time.

(Ord. MC-895, 1-26-94)

Any previously approved Conditional Use Permit that had not expired as of January 1, 2010 shall be extended for two years. This automatic extension of time is a one-time extension, and is in addition to the time granted under the initial approval of the Conditional Use Permit, or any subsequent approval of an extension of time. The automatic extension of time shall not reinstate nor extend any person's right to an administrative appeal, and shall not reinstate nor extend any claims or litigation statute of limitations. By acceptance of this grant of an automatic extension of time, the applicant(s) hereby waives any challenges to the conditions, fees and requirements of the Conditional Use Permit.

(Ord. MC-1329, 7-20-10)

19.36.080 Modification of Conditional Use Permit

An approved Conditional Use or Minor Use Permit may be modified, in a manner pursuant to Chapter 19.32 (Applications and Fees). Minor modifications to an approved Conditional Use Permit or Minor Use Permit may be approved by the Director, pursuant to Section 19.60 (Minor Modifications).

(Ord. MC-1381, 12-19-12)

[Return to Municipal Code Contents]

19.36.090 Time Extension

The approving authority may, upon an application being filed 30 days prior to expiration and for good cause, grant a time extension not to exceed 12 months. Upon granting of an extension, the approving authority shall ensure that the Conditional Use Permit or Minor Use Permit complies with all current Development Code provisions.

(Ord. MC-1381, 12-19-12)

19.36.100 Revocation

The approving authority may hold a hearing to revoke or modify a Conditional Use Permit or Minor Use Permit granted pursuant to the provisions of this Chapter. Ten days prior to the hearing, notice shall be delivered in writing to the applicant and/or owner of the property for which such Conditional Use Permit or Minor Use Permit was granted. Notice shall be deemed delivered 2 days after being mailed, first class postage paid, to the owner as shown on the current tax rolls of the County of San Bernardino, and/or the project applicant.

A Conditional Use Permit or Minor Use Permit may be revoked or modified by the approving authority if any one of the following findings can be made:

1. That circumstances have changed so that 1 or more of the findings contained in Section 19.46.050 can no longer be made;
2. That the Conditional Use Permit or Minor Use Permit was obtained by misrepresentation or fraud;
3. That the use for which the Conditional Use Permit or Minor Use Permit was granted had ceased or was suspended for six or more consecutive calendar months;
4. That one or more of the conditions of the Conditional Use Permit or Minor Use Permit have not been met;
5. That the use is in violation of any statute, ordinance, law, or regulation; and
6. That the use permitted by the Conditional Use Permit or Minor Use Permit is detrimental to the public health, safety or welfare or constitutes a nuisance.

(Ord. MC-1381, 12-19-12)

19.36.110 Conditional Use Permit/Minor Use Permit to Run With The Land

A Conditional Use Permit or Minor Use Permit granted pursuant to the provisions of this Chapter shall continue to be valid upon a change of ownership of the site, business, service, use or structure which was the subject of the permit application.

(Ord. MC-1381, 12-19-12)

19.36.120 Performance Guarantee

The developer may be conditioned to provide performance security in a manner similar to Section 19.30.230 for the faithful performance of any or all conditions of approval.

CHAPTER 19.38 DESIGN REVIEW

Sections:

- 19.38.010 Purpose**
- 19.38.020 Application**
- 19.38.030 Applicability**
- 19.38.040 DRC Findings**

19.38.010 Purpose

These provisions shall ensure the following:

1. The establishment of design review procedures for residential, commercial and industrial development proposals;
2. That proposed development projects comply with all applicable performance standards and design guidelines;
3. A focus on community design principles which result in creative, imaginative solutions which establish quality design for the City;
4. The orderly and harmonious appearance of structures along with associated facilities, such as signs, landscaping, parking areas, etc.;
5. Maintenance of the public health, safety and general welfare and property throughout the City; and
6. Effective implementation of the General Plan policies which encourage the preservation and enhancement of the particular character and unique assets of the City, and its harmonious development.

19.38.020 Application

The following list of structures shall be subject to design review by the Development Review Committee (DRC):

1. New structure(s)/development and related site plans subject to a review authority other than the Director, pursuant to [Table 31.01](#);
2. Remodeled structure(s)/development and related site plans, which require a Development Permit;
3. A project involving a change or intensification of land use (e.g., conversion of a shoe store to a restaurant, or a residential structure to an office use, etc.); and
4. New or modified signs with review authority other than the Director.

19.38.030 Applicability

The DRC, acting in their capacity for design review, shall receive and evaluate all projects subject to design review prior to final action by the appropriate review authority. The Department, as part of the overall project review process, shall forward the appropriate materials to the DRC and submit the DRC report to the review authority.

19.38.040 DRC Findings

The DRC shall determine that the project adequately meets adopted City performance standards and design guidelines, based upon the following findings:

1. The design of the proposed project would provide a desirable environment for its occupants and visiting public as well as its neighbors through good aesthetic use of materials, textures, and colors that will remain appealing and will retain a reasonably adequate level of maintenance;
2. The design and layout of the proposed project will not unreasonably interfere with the use and enjoyment of neighboring existing or future development, and will not result in vehicular and/or pedestrian hazards; and
3. The architectural design of the proposed project is compatible with the character of the surrounding neighborhood and will maintain the harmonious, orderly and attractive development contemplated by this Development Code and the General Plan.

CHAPTER 19.40 DEVELOPMENT AGREEMENTS

Sections:

- 19.40.010 Purpose**
- 19.40.020 Application**
- 19.40.030 Public Hearings**
- 19.40.040 Content of Development Agreement**
- 19.40.050 Execution and Recordation**
- 19.40.060 Environmental Review**
- 19.40.070 Periodic Review**
- 19.40.080 Effect of Development Agreement**
- 19.40.090 Approved Development Agreements**

19.40.010 Purpose

1. The following provisions are intended to establish procedures and requirements for the consideration of development agreements upon application by, or on behalf of property owners or other persons having a legal or equitable interest in the property proposed to be subject to the agreement. It is intended that the provisions of this Chapter shall be fully consistent, and in full compliance, with the provisions of Article 2.5 of Chapter 4 of Division 1 of Title 7 (commencing with Section 65864) of the California Government Code, and shall be so construed.

2. In construing the provisions of any development agreement entered into pursuant to this Chapter, those provisions shall be read to fully effectuate, and to be consistent with, the language of this Chapter, Article 2.5 of the California Government Code, cited above, and the agreement itself. Should any apparent discrepancies between the meaning of these documents arise, then the documents shall control in construing the development agreement in the following order of priority:
 - A. The plain terms of the development agreement itself;
 - B. The provisions of this Chapter; and
 - C. The provisions of Article 2.5 of the California Government Code, cited above.

19.40.020 Application

1. Any owner of real property or other person having a legal or equitable interest in the property may request and apply through the Director to enter into a development agreement provided that:
 - A. The property proposed to be subject to the agreement shall be not less than one acre in size;
 - B. The application is made on forms approved, and contains all information required, by the Director;
 - C. The status of the applicant as an owner of, or holder of legal or equitable interest in, the property is established to the satisfaction of the Director; and
 - D. The application is accompanied by the fee established pursuant to Chapter 19.32 (Applications and Fees) and all other lawfully required documents, materials and information.
2. The Director is hereby empowered to receive, review, process and prepare, together with recommendations, for Commission and Council consideration, as applicable, all applications for development agreements. The Director may call upon all other departments of the City for timely assistance in complying with this Chapter.
3. Processing fees, as established by resolution of the Council, shall be charged for any application for a development agreement made pursuant to the provisions of this Chapter, and shall also be so established and charged for periodic reviews conducted pursuant to Section 19.32.

19.40.030 Public Hearings

1. The Director, upon finding the application for a development agreement complete, shall set the application, together with recommendations, for public hearing before the Commission pursuant to Chapter 19.52 (Hearings and Appeals). Following conclusion of the public hearing by the Commission, the Commission shall recommend to the Council that it approve, conditionally approve, or disapprove the application.
2. Upon receipt of the Commission's recommendation, the City Clerk shall set the application and written report of the Commission for public hearing before the Council. Following conclusion of the public hearing by the Council, the Council shall approve, conditionally approve or deny the application.

3. Notice of the hearings set forth in Subsections 1 and 2 above, shall be given in the form of a notice of intention to consider adoption of a development agreement as required by Government Code Section 65867.
4. Should the Council approve or conditionally approve the application, it shall, as a part of its action of approval, direct the City Attorney to prepare a development agreement embodying the terms and conditions of the application as approved or conditionally approved by it, as well as a resolution authorizing execution of development agreement by the City Administrator.
5. The resolution shall set forth findings, and the facts supporting them, that the development agreement is consistent with the General Plan and any applicable Specific Plans, this Development Code, and that it will promote the welfare and public interest of the City.
6. The resolution may be subjected to referendum in the manner provided by law.

19.40.040 Content of Development Agreement

1. MANDATORY CONTENTS

A development agreement entered into pursuant to this Chapter must contain provisions that:

- A. Specify the duration of the agreement;
- B. Specify the permitted uses of the property;
- C. Specify the density or intensity of use(s);
- D. Set forth the maximum height and size of proposed structures;
- E. Set forth provisions, if any, for reservation or dedication of land for public purposes;
- F. Provisions not permitting protection from a future increase in development fees;
- G. Provisions for a tiered amendment review procedure such as:
 - 1.) Director sign-off for small changes;

- 2.) Commission sign-off for large changes; and
 - 3.) Major amendments by Council; and
- H. Provisions for a health and safety exception such as a "compelling public necessity" (i.e., a new environmental health hazard is discovered).

2. PERMISSIVE CONTENTS

A development agreement entered into pursuant to this Chapter may:

- A. Include conditions, terms, restrictions, and requirements for subsequent discretionary actions, provided that such conditions, terms, restrictions, and requirements for subsequent discretionary actions shall not prevent development of the land for the uses and to the density or intensity of development set forth in the agreement;
- B. Provide that construction shall be commenced within a specified time and that the project or any phase thereof be completed within a specified time;
- C. Include terms and conditions relating to applicant financing of necessary public improvements and facilities, including, but not limited to, applicant participation in benefit assessment proceedings; and
- D. Include such other terms, conditions and requirements as the Council may deem necessary and proper, including, but not limited to, a requirement for assuring to the satisfaction of the City performance of all provisions of the agreement in a timely fashion by the applicant/contracting party.

19.40.050 Execution and Recordation

- 1. The City shall not execute any development agreement until on or after the date upon which the resolution approving the agreement and enacted pursuant to Section 19.40.030 becomes effective.
- 2. An executed development agreement shall be recorded in the office of the County Recorder no later than 10 days after it is entered into.

19.40.060 Environmental Review

The approval or conditional approval of a development agreement, pursuant to this Chapter shall be deemed a discretionary act for purposes of the California Environmental Quality Act (CEQA).

19.40.070 Periodic Review

1. Every development agreement approved and executed pursuant to this Chapter shall be periodically reviewed during the term of the agreement every year following the date of its execution.
2. The purpose of the reviews conducted pursuant to this Section shall be to determine whether the applicant/ contracting party or its successor-in-interest has complied in good faith with the terms of the development agreement. The burden shall be on the applicant/contracting party or its successor to demonstrate such compliance to the full satisfaction of, and in a manner as prescribed by the City.
3. If, as a result of periodic review pursuant to this Section, the Council finds and determines, on the basis of substantial evidence, that the applicant/contracting party or its successor-in-interest has not complied in good faith with terms or conditions of the agreement, the Council may order, after hearing, that the agreement be terminated or modified.

19.40.080 Effect of Development Agreement

Unless otherwise provided by the development agreement, the rules, regulations and official policies governing permitted uses of the land, governing density, and governing design, improvement and construction standards and specifications, applicable to development of the property subject to a development agreement, are the rules, regulations, and official policies in force at the time of execution of the agreement. A development agreement does not prevent the City, in subsequent actions applicable to the property, from applying new rules, regulations and policies which do not conflict with those rules, regulations and policies applicable to the property under the development agreement, nor does a development agreement prevent the City from denying or conditionally approving any subsequent development project application on the basis of such existing or new rules, regulations and policies.

19.40.090 Approved Development Agreements

Pursuant to this Chapter, development agreements approved by the Council are on file with the office of the City Clerk.

CHAPTER 19.42 DEVELOPMENT CODE AMENDMENTS

Sections:

- 19.42.010 Purpose**
- 19.42.020 Hearings and Notice**
- 19.42.030 Commission Action on Amendments**
- 19.42.040 Council Action on Amendments**
- 19.42.050 Findings**

19.42.010 Purpose

The Council may amend the provisions of this Development Code for the public health, safety, convenience, general welfare and the aesthetic harmony of the City.

19.42.020 Hearings and Notice

Upon receipt in proper form of a Development Code Amendment application, or direction of the Council, and following Department review, hearings shall be set before the Commission and Council. Notice of the hearings shall be given pursuant to the requirements of Chapter 19.52 (Hearings and Appeals).

19.42.030 Commission Action on Amendments

The Commission shall make a written recommendation on the proposed amendment whether to approve, approve in modified form or disapprove, based upon the findings contained in Section 19.42.050.

Commission action recommending that the proposed amendment be approved, approved in modified form, or denied shall be considered by the Council following Commission action.

19.42.040 Council Action on Amendments

Upon receipt of the Commission's recommendation, the Council may approve, approve with modifications, or disapprove the proposed amendment based upon the findings contained in Section 19.42.050. Amendments to the Development Code shall be adopted by ordinance.

19.42.050 Findings

An amendment to this Development Code may be adopted only if the following findings are made:

1. The proposed amendment is consistent with the General Plan.
2. The proposed amendment would not be detrimental to the public interest, health, safety, convenience, or welfare of the City.

CHAPTER 19.44

ADMINISTRATIVE AND DEVELOPMENT PERMITS

Sections:

- 19.44.010 Purpose**
- 19.44.020 Application**
- 19.44.030 Applicability and Project Review**
- 19.44.040 Findings**
- 19.44.050 Administrative and Development Permit Expiration**
- 19.44.060 Use of Property Before Final Decision**
- 19.44.070 Modification of Administrative or Development Permit**
- 19.44.080 Time Extension**
- 19.44.090 Revocation**
- 19.44.100 Performance Guarantee**

19.44.010 Purpose

The Administrative and Development Permit procedure is intended to protect the integrity and character of the residential, commercial and industrial areas of the City, through the application of the provisions of this Chapter consistent with the General Plan. At the time of application submittal, a review of the location, design, configuration and impact of the proposed use shall be conducted by comparing such use to established standards and design guidelines. This review shall determine whether the permit should be approved by weighing the public need for and the benefits to be derived from the use against the impacts it may cause.

(Ord. MC-1381, 12-19-12)

19.44.020 Application

Application for an Administrative or Development Permit shall be filed in a manner consistent with the requirements contained in Chapter 19.32 (Applications and Fees).

(Ord. MC-1381, 12-19-12)

19.44.030 Applicability and Project Review

An Administrative or Development Permit shall be pursuant to this Section. None shall be required for alterations to an existing single-family home, for interior tenant improvements to previously approved non-residential uses that DO NOT involve an intensification in land use (e.g., conversion of a shoe store to a restaurant, or a residential structure to an office use, etc.), or for exterior alterations on non-residential projects that are in substantial compliance with the existing project. Each application shall be analyzed to ensure that the application is consistent with the requirements of this Title.

An Administrative Permit, which is acted upon administratively, shall be required under the following circumstances:

1. For residential projects with two to four dwelling units, including the relocation or movement of residential structures;
2. For tenant improvements and occupancy permits that result in an intensification in land use (i.e., from retail to a restaurant, or from a residential structure into a non-residential use);
3. For the expansion of a non-residential use or structure that is not consistent with the existing project.
4. For recycling facilities; and
5. For wireless telecommunications facilities.

(Ord. MC-1381, 12-19-12)

A Development Permit, which is acted upon by the Development/Environmental Review Committee (D/ERC) shall be required under the following circumstances:

1. For residential projects with five to 11 dwelling units;
2. For a new non-residential use or structure or an expanded non-residential use or structure over 5,000 square feet; and
3. Adult businesses, in accordance with Section 19.06.030.2.A of this Development Code.

A Development Permit, which is acted upon by the Planning Commission, shall be required for residential projects, or projects abutting a residential use in a residential land use district.

(Ord. MC-1381, 12-19-12)

[Return to Municipal Code Contents]

19.44.040 Findings

The appropriate review authority as outlined in Table 31.01 shall record the decision in writing and shall recite therein the findings upon which any such decision is based. The review authority may approve and/or modify an Administrative or Development Permit in whole or in part, and shall impose specific development conditions. These conditions shall relate to both on- and off-site improvements that are necessary to mitigate project-related adverse impacts, and to carry out the purpose and requirements of the respective zone. The review authority may approve an Administrative or Development Permit, only if all of the following findings are made:

(Ord. MC-1393, 12-02-13; Ord. MC-1381, 12-19-12)

1. The proposed development is one permitted within the subject zoning district and complies with all of the applicable provisions of this Development Code, including prescribed development/site standards and any/all applicable design guidelines;
2. The proposed development is consistent with the General Plan;
3. The proposed development would be harmonious and compatible with existing and future developments within the zone and general area, as well as with the land uses presently on the subject property

(Ord. MC-1381, 12-19-12)

4. The approval of the Administrative or Development Permit for the proposed development is in compliance with the requirements of the California Environmental Quality Act and Section 19.20.030(6) of the Development Code;
5. There will be no potential significant negative impacts upon environmental quality and natural resources that could not be properly mitigated and monitored;
6. The subject site is physically suitable for the type and density/intensity of use being proposed;
7. There are adequate provisions for public access, water, sanitation, and public utilities and services to ensure that the proposed use would not be detrimental to public health and safety; and
8. The location, size, design, and operating characteristics of the proposed development would not be detrimental to the public interest, health, safety, convenience, or welfare of the City.

(Ord. MC-888, 12-07-93)

[\[Return to Municipal Code Contents\]](#)

19.44.050 Administrative and Development Permit Expiration

Within two years of Administrative or Development Permit approval, commencement of construction shall have occurred or the permit shall become null and void. In addition, if after commencement of construction, work is discontinued for a period of one year, then the Administrative or Development Permit shall become null and void. Projects may be built in phases if preapproved by the review authority. If a project is built in preapproved phases, each subsequent phase shall have one year from the previous phase's date of construction commencement to the next phase's date of construction commencement to have occurred, or the Administrative or Development Permit shall become null and void.

(Ord. MC-1381, 12-19-12)

19.44.060 Use of Property Before Final Decision

No permit shall be issued for any use involved in an application for approval of an Administrative or Development Permit until, and unless, the same shall have become final, pursuant to Section 19.52.080 (Effective Date).

(Ord. MC-1381, 12-19-12)

19.44.070 Modification of Administrative or Development Permit

An approved development may be modified, in a manner pursuant to Chapter 19.32 (Applications and Fees). Minor modifications to an approved development may be approved by the Director, pursuant to Section 19.60 (Minor Modifications).

(Ord. MC-1381, 12-19-12)

19.44.080 Time Extension

The review authority may, upon an application being filed 30 days prior to expiration and for good cause, grant a time extension not to exceed 12 months. Upon granting the extension, the review authority shall ensure that the Administrative or Development Permit complies with all current Development Code provisions.

(Ord. MC-1381, 12-19-12)

19.44.090 Revocation

The review authority may hold a hearing to revoke or modify an Administrative or Development Permit granted pursuant to the provisions of this Chapter. Ten days prior to the hearing, notice shall be delivered in writing to the applicant and/or owner of the property for which such Development Permit was granted. Notice shall be deemed delivered two days after being mailed, first class postage paid, to the owner as shown on the current tax rolls of the County of San Bernardino, and/or the project applicant.

An Administrative or Development Permit may be revoked or modified by the review authority if any of the following findings can be made:

1. That circumstances have changed so that one or more of the findings contained in Section 19.44.060 can no longer be made;
2. That the Administrative or Development Permit was obtained by misrepresentation or fraud;
3. That the use for which the Administrative or Development Permit was granted had ceased or was suspended for six or more consecutive calendar months;
4. That one or more of the conditions of the Administrative or Development Permit have not been met;
5. That the use is in violation of any statute, ordinance, law, or regulation; or
6. That the use permitted by the Administrative or Development Permit is detrimental to the public health, safety, or welfare or constitutes a nuisance.

(Ord. MC-1381, 12-19-12)

19.44.100 Performance Guarantee

The developer may be required to provide performance security in a manner similar to Section 19.30.230 for the faithful performance of any or all conditions of approval.

CHAPTER 19.46 ENFORCEMENT OF PROVISIONS

Sections:

- 19.46.010 Purpose**
- 19.46.020 Responsibility**
- 19.46.030 Prohibitions**
- 19.46.040 Remedies**
- 19.46.050 Notice of Violation**
- 19.46.060 Penalties**
- 19.46.070 Enforcement Fees**

19.46.010 Purpose

Enforcement of the provisions of this Development Code and any entitlements and subdivision maps approved by the City shall be diligently pursued in order to provide for their effective administration, to ensure compliance with any conditions of approval, to promote the City's planning efforts and for the protection of the public health, safety, and welfare of the City.

19.46.020 Responsibility

The Department shall be responsible for enforcing the conditions and standards imposed on all permits granted by the City and permitted under this Development Code. Any structure or use which is established, operated, erected, moved, altered, enlarged, or maintained, contrary to the provisions of this Development Code, is hereby declared to be unlawful and a public nuisance and shall be subject to the remedies and penalties set forth in Chapter 1.12 of the Municipal Code, and/or revocation procedures contained in the following chapters of this Development Code:

Chapter 19.36 - Conditional Use Permits and Minor Use Permits

Chapter 19.44 - Administrative and Development Permits

Chapter 19.54 - Home Occupation Permits

Chapter 19.70 - Temporary Use Permits

Chapter 19.72 - Variances

Any permit, certificate, or license issued subsequent to the effective date of and in conflict with this Development Code shall be null and void.

[\[Return to Municipal Code Contents\]](#)

19.46.030 Prohibitions

No person shall sell, lease, or finance any parcel or parcels of real property or commence construction of any building for sale, lease or financing for which a final or parcel map is required by this Development Code, until the final or parcel map, in full compliance with Map Act Section 66410 et seq. and the Municipal Code, has been filed for recordation with the office of the County Recorder, pursuant to Map Act Section 66499.30.

19.46.040 Remedies

1. All remedies concerning this Development Code shall be cumulative and not exclusive. The conviction and punishment of any person hereunder shall not relieve such person from the responsibility of correcting prohibited conditions or removing prohibited structures, signs, or improvements, and shall not prevent the enforced correction or removal thereof.
2. Any construction in violation of this Development Code, or any condition(s) imposed on a permit or license shall be subject to the issuance of a "Stop Work Order."
3. Any deed of conveyance, sale or contract to sell real property which has been divided, or which has resulted from a division, in violation of the provisions of Map Act Section 66410 et seq. and the Municipal Code, is voidable at the sole option of the grantee or successors, pursuant to Map Act Section 66499.32.

This Section does not bar any legal, equitable or summary remedy to which the City, public agency or any person, firm or corporation may otherwise be entitled, pursuant to Map Act Section 66499.33.

4. The City shall not issue any permit or grant any approval necessary to develop any real property which has been divided, or which has resulted from a division, in violation of the provisions of Map Act Section 66410 et seq. and the Municipal Code, if it finds that the development of the real property is contrary to the public health or safety, pursuant to Map Act Section 66499.34.

19.46.050 Notice of Violation

Whenever the City has knowledge that real property has been divided in violation of the provisions of Map Act Section 66410 et seq. and the Municipal Code, it shall send, by certified mail to the then current owner(s) of record of the property, a notice of intention to record a notice of violation, describing the real property in detail, naming the owner(s) thereof, and stating that an opportunity will be given to the owner(s) to present evidence, pursuant to Map Act Section 66499.36.

[Return to Municipal Code Contents]

19.46.060 Penalties

1. Any person, partnership, organization, firm or corporation, whether as principal, agent, employee or otherwise, violating any provision(s) of this Development Code or any condition imposed on an entitlement, development permit, map or license, or violating or failing to comply with any order made hereunder, shall be guilty of an infraction or a misdemeanor and, upon conviction thereof, shall be punished as set forth in Section 1.12.010 of the Municipal Code, in addition to any other civil or administrative remedies provided by law.
2. Each violation of Map Act Section 66410 et seq. by a person who is the subdivider or an owner of record, at the time of the violation, of property involved in the violation shall be punishable by imprisonment in the County jail not exceeding one year, or in the state prison, by a fine not exceeding \$10,000, or by both that fine and imprisonment. Every violation of Map Act Section 66410 et seq. is a misdemeanor, pursuant to Map Act Section 66499.31.

19.46.070 Enforcement Fees

The City may impose fees on applicants to cover the full costs incurred by the City for the monitoring and enforcement of the requirements of this Development Code as well as those conditions and mitigation measures imposed on an approved permit or license.

CHAPTER 19.48 FINAL AND PARCEL MAPS

Sections:

- 19.48.010 General**
- 19.48.020 Phasing**
- 19.48.030 Survey Required**
- 19.49.040 Form**
- 19.48.050 Contents**
- 19.48.060 Preliminary Submittal**
- 19.48.070 Determination by City Engineer**
- 19.48.080 Approval by Council**
- 19.48.090 Recordation**
- 19.48.100 Mergers and Unmergers**
- 19.48.110 Lot Line or Boundary Adjustments**
- 19.48.120 Reversions**
- 19.48.130 Correction and Amendment of Maps**
- 19.48.140 Certificates of Compliance**

19.48.010 General

The form, contents, accompanying data, and filing of the final and parcel map hereinafter referred to as a "final map" shall conform to the provisions of the Map Act and this Chapter.

The final map shall be prepared by or under the direction of a registered civil engineer or licensed land surveyor, in compliance with the applicable sections of the Business and Professions Code of the State of California.

19.48.020 Phasing

Multiple final maps relating to an approved or conditionally approved tentative map may be filed prior to the expiration of the tentative map if the subdivider, at the time the tentative map application is filed, notifies the Department in writing of the subdivider's intention to file multiple final maps on the tentative map, pursuant to Section 19.66.120(6). In providing the notice, the subdivider shall not be required to define the number or configuration of the proposed multiple maps.

The filing of a final map on a portion of an approved or conditionally approved tentative map shall not invalidate any part of the tentative map. Each final map which constitutes a part, or unit, of the approved or conditionally approved tentative map shall have a separate subdivision number. The subdivision improvement agreement executed by the

[\[Return to Municipal Code Contents\]](#)

subdivider shall provide for the construction of improvements as required to constitute a logical and orderly development of the entire subdivision.

19.48.030 Survey Required

An accurate and complete survey of the land to be subdivided shall be made by a registered civil engineer or licensed land surveyor. All monuments, property lines, centerlines of streets, alleys and easements adjoining or within the subdivision shall be tied into the survey. The allowable error of closure on any portion of the final map shall not exceed 1/10,000 for field closures and 1/20,000 for calculated closures.

At the time of making the survey for the final map, the engineer or surveyor shall set sufficient durable monuments to conform with the standards described in Section 8771 of the Business and Professions Code so that another engineer or surveyor may readily retrace the survey, pursuant to Map Act Sections 66495 and 66496. At least 1 exterior boundary line shall be monumented prior to recording the final map. Other monuments shall be set as follows:

1. Lot Corners: One inch iron pipe, 30 inches long, set 12 inches below ground level. Except, corners of lots fronting on streets may be marked by an offset lead and tag set in the permanent concrete curb along the prolongation of the lot line as approved by the City Engineer. Such monument shall be noted on the subdivision map.
2. Subdivision Boundary Corners: Two inch iron pipe, 30 inches long, set 12 inches below ground level.
3. Private street intersection centerlines, angle points, and beginning and endings of curves: One inch iron pipe, 30 inches long, set flush with ground level.
4. Public street intersection centerlines, angle points, beginnings and endings of curves, subdivision boundary and section quarter corners with street intersection: One inch iron pipe, 30 inches long, set flush with ground level if pavement, set 12 inches below ground level if soil. Except, major street intersections and section corners shall be monumented with a City Standard Well Monument set flush with ground level. All street monuments shall be tied to lead and tag set in permanent concrete curbs. Notes for ties shall be provided to the City on standard survey note paper, 8 1/2 x 11 inches, depicting the tie information, stamped and signed by the surveyor or engineer.

19.48.040 Form

The form of the final map shall comply with the Map Act and as follows:

1. The final map shall be legibly drawn, printed, or reproduced by a process guaranteeing a permanent record in black on polyester base film. Certificates, affidavits and acknowledgments may be legibly stamped or printed upon the map with opaque indelible ink. If ink is used on polyester base film, the ink surface shall be coated with a suitable substance to assure permanent legibility.
2. The size of each sheet shall be 18 inches by 26 inches. A marginal line shall be drawn completely around each sheet, leaving an entirely blank margin of 1 inch. The scale of the map shall be an engineering scale and not less than 1 = 100 or as may be necessary to show all details clearly, and enough sheets shall be used to accomplish this end. The particular number of the sheet and the total number of sheets comprising the map shall be stated on each of the sheets, and its relation to each adjoining sheet shall be clearly shown. When four or more sheets including the certificate sheet are used, a key sheet shall be included. All printing or lettering on the map shall be of 1/8 inch minimum height and of a shape and weight as to be readily legible on prints and other reproductions made from the original drawings. The final form of the final map shall be in compliance with Map Section 66434 and as approved by the City Engineer.

19.48.050 Contents

The contents of the final map shall comply with the Map Act and as follows:

1. Boundary

The boundary of the subdivision shall be designated by a heavy black line in a manner as not to obliterate figures of other data.

2. Title

Each sheet shall have a title showing the subdivision number and name and the location of the property being subdivided with reference to maps which have been previously recorded, or by reference to the plat of a United States Survey. The following words shall appear in the title, "City of San Bernardino, San Bernardino County, California."

3. Certificates and Acknowledgments

All certificates and acknowledgments shall be made pursuant to Map Act Sections 66433 et seq. and as approved by the City Engineer, and shall appear only once on the cover sheet.

4. Scale, North Point and Basis of Bearings

There shall appear on each map sheet the scale and north point. The basis of bearings shall appear on the title map sheet and each subsequent sheet or referenced on each subsequent sheet. The basis of bearing shall be based on Zone 5 of the California Coordinate System unless otherwise approved by the City Engineer.

5. Linear, Angular and Radial Data

Sufficient linear, angular and radial data shall be shown to determine the bearings and lengths of monument lines, street centerlines, the boundary lines of the subdivision, the boundary lines on every lot and parcel which is a part of the subdivision, and ties to existing monuments used to establish the boundary. Arc length, radius and total central angle and radial bearings of all curves shall be shown. Ditto marks shall not be used in the dimensions and data shown on the map.

6. Monuments

The location and description of all existing and proposed monuments shall be shown. Standard City monument types shall be set at the following locations:

- A. The intersection of street centerlines;
- B. The intersection of a street centerline and subdivision boundary;
- C. Beginning and end of curves or intersection of tangents on centerlines;
- D. Each lot/parcel corner; and
- E. At other locations as may be required by the City Engineer.

7. Lot Numbers

Lot numbers shall begin with the number 1 in each subdivision and shall continue consecutively with no omissions or duplications except where contiguous lands, under the same ownership, are being subdivided in successive units, in which event, lot numbers may begin with the next consecutive number following the last number in the preceding unit. Non-buildable, open space and common lot areas shall be lettered beginning with the letter "A" and shall continue consecutively with no omissions or duplications. Each lot shall be shown entirely on 1 sheet of the final map, unless approved by the City Engineer.

8. Adjoining Properties

The adjoining corners of all adjoining subdivisions shall be identified by subdivision number, or name when not identified by official number, and reference to the book and page of the filed map showing the subdivision; and if no subdivision is adjacent, then by reference to the last recorded deed by book and page number for the last record owner.

9. City Boundaries

City boundaries which cross or join the subdivision shall be clearly designated.

10. Street Names

The names of all streets, alleys, or highways within or adjoining the subdivision shall be shown.

11. Easements and Dedications

Easements and dedications for roads or streets, paths, alleys, utilities, local transit facilities, storm water drainage, sanitary sewers or other public use as may be required, shall be dedicated to the public for acceptance by the City or other public agency, and the use shall be specified on the map.

All easements of record shall be shown on the map, together with the name of the grantee and sufficient recording data to identify the conveyance (e.g., recorder's serial number and date, or book and page of official records).

Easements not disclosed by the records in the office of the County Recorder and found by the surveyor or engineer to be existing, shall be specifically designated on the map, identifying the apparent dominant tenements for which the easement was created.

The sidelines of all easements of record shall be shown by dashed lines on the final map with the widths, lengths and bearings of record. The width and location of all easements shall be approved by the City Engineer.

Between the time of the approval of the tentative map and the recordation of the final map, no easements shall be granted to other agencies or utility companies which interfere with the City's rights in any public right-of-way.

12. Open Space Areas

Open space areas may be shown, subject to the approval of the City. Public open space areas shall be dedicated in fee unless otherwise specified in the approval or conditional approval of the tentative map. Private open space areas shall be dedicated as open space easements unless otherwise specified in the approval or conditional approval of the tentative map.

19.48.060 Preliminary Submittal

The subdivider shall submit prints of the final map to the City Engineer for checking. The preliminary prints shall be accompanied by the following data, plans, reports and documents in a form as approved by the City Engineer and, where applicable, the City Attorney:

1. Improvement Plans.

Improvement plans pursuant to Section 19.30.210.

2. Soils Report.

A soils report prepared pursuant to Section 19.66.120(2).

3. Title Report.

A title report showing the legal owners at the time of submittal of the final map, to be current within 90 calendar days.

4. Tax Certificate.

A certificate from the County Tax Collector stating that all taxes due have been paid or that a tax bond or other adequate form of security assuring payments of all taxes which are a lien, but not yet payable, has been filed with the County.

5. Deeds for Easements or Rights-of-Way.

Deeds for off-site easements or rights-of-way required for road or drainage purposes which have not been dedicated on the final map. Written evidence acceptable to the City in the form of rights of entry or permanent easements across private property outside of the subdivision permitting or granting access to perform necessary construction work and permitting the maintenance of the facility.

6. Traverse Closures

Traverse closures for the boundary blocks, lots, easements, street centerlines and monument lines.

7. Hydrology and Hydraulic Calculations

Complete hydrology and hydraulic calculations of all storm drains, flood flows, and retention facilities.

8. Governing Documents

The submittal of the final map for a common interest development within the meaning of Sections 1350 et seq. of the State Civil Code shall include the proposed Declaration of Covenants, Conditions and Restrictions containing the provisions described in Section 1353 of the Civil Code, and all other governing documents for the subdivision as are appropriate pursuant to Section 1363 of the Civil Code, and containing all conditions of approval designated to be contained within the "Code, Covenants and Restrictions." The submittal of the final map for all subdivisions other than a common interest development shall include any Declaration of Covenants, Conditions and Restrictions proposed in connection therewith. All documents shall be subject to review and approval by the Director and/or City Engineer.

9. Guarantee of Title

A guarantee of title, in form acceptable to the City Engineer and City Attorney, shall be issued by a competent title company to and for the benefit and protection of the City and shall be continued complete up to the instant of recording of the final map, guaranteeing that the names of all persons whose consent is necessary to pass a clear title to the land being subdivided, and all public easements being offered for dedication, and all acknowledgments thereto, appear on the proper certificates and are correctly shown on the map, both as to consents as to the making thereof and affidavits of dedication where necessary.

[Return to Municipal Code Contents]

10. Improvement Agreement

In the event sewer, water, drainage, grading, paving, or other improvements required pursuant to Section 19.30.010 have not been completed prior to the presentation of the final map, an agreement pursuant to the requirements of Section 19.30.220 shall be filed for the improvement thereof. The subdivider shall secure the performance of the agreement pursuant to the requirements of Section 19.30.230.

11. Liability Agreement and Insurance

A hold-harmless agreement obligating the subdivider to hold the City and its officers, agents and employees harmless from any liability for damages or claims for damages for personal injury or death which arise from the operations of the subdivider and/or the subdivider's sub-contractors in connection with the subdivision. A certificate of insurance reporting to the City the amount of insurance the subdivider carries for the subdivider's own liability for damages or claims for damages for personal injury or death which arise from the operations of the subdivider or related subcontractors in connection with the subdivision. The certificate of insurance shall name the City as an additional insured. The agreement and certificate required by this section shall be subject to prior review and approval by the City Engineer.

12. Any additional data, reports, or information as required by the City Engineer.

19.48.070 Determination by City Engineer

The City Engineer shall review the final map and any other required information and the subdivider shall make corrections and/or additions until acceptable to the City Engineer.

The subdivider shall submit to the City Engineer the original tracing of the map and any duplicates pursuant to City requirements, corrected to its final form and signed by all parties required to execute the certificates on the map. Original signatures shall appear on the original drawing. Upon receipt of all required certificates and submittals, the City Engineer shall sign the appropriate certificates and transmit the original map to the City Clerk.

19.48.080 Approval by Council

The final map approved by the City Engineer as complying with the approved or conditionally approved tentative map shall be filed with the Council for approval after all required certificates have been signed. The date the map shall be deemed filed with the Council is the date on which the City Clerk receives the map. The Council shall consider the final map for approval at its next available regular meeting after the City Clerk receives the map. Before approving the final map, the Council shall consider approval of the subdivision improvement agreement pursuant to Section 19.30.220.

If the subdivision improvement agreement and final map are approved by the Council, the Mayor shall execute the agreement on behalf of the City. At the time the Council approves the final map, it shall also accept, accept subject to improvement, or reject any offer of dedication. The City Clerk shall certify on the final map is approved, any streets, paths, alleys, public utility easements, rights-of-way for local transit facilities, or storm drainage easements are not accepted by the Council, the offer of dedication shall remain open and the Council may, by resolution at any later date, and without further action by the subdivider, rescind its action and accept and open the streets, paths, alleys, rights-of-way for local transit facilities, or storm drainage easements, which acceptance shall be recorded in the office of the County Recorder.

The City may accept any dedications lying outside the subdivision boundary which require a separate grant deed. The acceptance shall be recorded in the office of the County Recorder.

If the subdivision improvement agreement and/or final map is not in substantial compliance with the approved tentative map, the Council shall deny the agreement and/or final map.

The Council shall not postpone or refuse approval of a final map because the subdivider has failed to meet a tentative map condition requiring construction or installation of off-site improvements on land which neither the subdivider nor the City has sufficient title or interest to permit the improvements to be made. Additionally, the Council shall not deny approval of the final map if the City has previously approved a tentative map for the proposed subdivision and if the Council finds that the final map is in compliance with the requirements of the Map Act, this Development Code, and the tentative map and all conditions thereof.

19.48.090 Recordation

Upon approval of the final map by the Council, the City Clerk shall execute the appropriate certificate on the certificate sheet and shall, pursuant to the provisions of Map Act Section 66464, transmit the map, or have an authorized agent forward the map, to the County Recorder.

[\[Return to Municipal Code Contents\]](#)

19.48.100 Mergers and Unmergers

1. The primary purpose of this section is to provide for a merger of parcels upon application of the property owner without the necessity of processing a parcel map. The specific requirement for a City-initiated merger are as follows in compliance Map Act Section 66451.11.
2. Merger without final map.
 - A. Upon application by the property owner, on a form approved by the City Engineer, contiguous parcels under the same ownership may be merged without filing a map for reversion to acreage. The form and content of the application and the information, data, fees, and other details required for the processing of same, shall be set by Council resolution.
 - B. The City Engineer shall have the authority to approve mergers, and no final map shall be required provided the merger does not involve the following:
 - 1.) Streets or other easements to be vacated;
 - 2.) Release of previously posted agreements or securities for improvements;
 - 3.) Release of previously paid fees or deposits made pursuant to the division of the parcels to be merged; and/or
 - 4.) More than 4 parcels.
 - C. Upon approval of a merger, the City Engineer shall cause to be prepared an appropriate instrument describing the parcels to be merged, which shall be executed by the owner involved and the City Engineer, and which shall be recorded with the County Recorder.

19.48.110 Lot Line or Boundary Adjustments

The procedure outlined in this Section shall govern the processing of and requirements for lot line or boundary adjustments, pursuant to Map Act Section 66412(d). Any adjustment may be filed pursuant to the provisions of this Section to adjust the boundaries between two or more adjacent parcels, where the land taken from one parcel is added to an adjacent parcel, and where a greater or lesser number of parcels than originally existed is not created, provided the Director determines that the proposed adjustment does not:

1. Create any additional or fewer parcels;
2. Include any parcels which are not legal as defined in the Municipal Code;
3. Impair any existing access or create a need for new access to any adjacent parcels;
4. Impair any existing easements or create a need for any new easements serving any adjacent parcels;
5. Require substantial alteration of any existing improvements or create a need for any new improvements; and
6. Adjust the boundary between parcels for which a covenant of improvement requirements has been recorded and all required improvements stated therein have not been completed unless the Director determines the proposed adjustment will not significantly affect the covenant of improvement requirements.

(Ord. MC- 888, 12-07-93)

19.48.120 Reversions

Subdivided real property may be reverted to acreage, pursuant to Map Section 66499.11 et seq., and this Development Code. This Section shall apply to final and parcel maps.

Subdivided lands may be merged and resubdivided without reverting to acreage, pursuant to Map Act Section 66499.20 1/2.

An application for reversion to acreage shall be filed with the Department, and reviewed by the City Engineer. A public hearing shall be held by the Commission on all proposed reversions to acreage. Notice of public hearing shall be given by the Department, pursuant to Section 19.52.

[Return to Municipal Code Contents]

19.48.130 Correction and Amendment of Maps

After a final or parcel map is filed in the office of the County Recorder, it may be amended by a certificate of correction or an amending map, pursuant to Map Act Section 66469 et seq.

The certificate of correction or amending map, shall be submitted to the City Engineer, pursuant to Map Act Section 66471.

19.48.140 Certificates of Compliance

Any person owning real property within the City may request whether the property complies with the provisions of the Map Act and the Municipal Code. Upon making this determination, the City Engineer shall cause a Certificate of Compliance, with or without conditions, to be filed for recordation with the office of the County Recorder, pursuant to Map Act Section 66499.35. Any person requesting a Certificate of Compliance shall pay the applicable engineering fee(s).

CHAPTER 19.50 GENERAL PLAN AMENDMENTS

Sections:

- 19.50.010 Purpose**
- 19.50.020 Hearings and Notice**
- 19.05.030 Commission Action on Amendments**
- 19.05.040 Council Action on Amendments**
- 19.05.050 Findings**

19.50.010 Purpose

The Council may amend the General Plan of the City of San Bernardino whenever required by public necessity and general welfare.

19.50.020 Hearings and Notice

Upon receipt in proper form of a General Plan Amendment application, or direction of the Council, and following Department review, hearings shall be set before the Commission and Council. Notice of the hearings shall be given pursuant to the requirements of Chapter 19.52 (Hearings and Appeals).

19.50.030 Commission Action on Amendments

The Commission shall make a written recommendation on the proposed amendment whether to approve, approve in modified form or disapprove, based upon the findings contained in Section 19.50.050.

Commission action recommending that the proposed General Plan Amendment be approved, approved in modified form, or denied shall be considered by the Council following Commission action.

19.50.040 Council Action on Amendments

Upon receipt of the Commission's recommendation, the Council may approve, approve with modifications, or disapprove the proposed amendment based upon the findings contained in Section 19.50.050. Amendments to the General Plan Land Use Map shall be adopted by resolution. Amendments to the text of the General Plan shall be adopted by resolution.

(Ord. MC-1387, 4-03-13)

19.50.050 Findings

An amendment to the General Plan may be adopted only if all of the following findings are made:

1. The proposed amendment is internally consistent with the General Plan;
2. The proposed amendment would not be detrimental to the public interest, health, safety, convenience, or welfare of the City;
3. The proposed amendment would maintain the appropriate balance of land uses within the City; and
4. In the case of an amendment to the General Plan Land Use Map, the subject parcel(s) is physically suitable (including, but not limited to, access, provision of utilities, compatibility with adjoining land uses, and absence of physical constraints) for the requested land use designation(s) and the anticipated land use development(s).

CHAPTER 19.52 HEARINGS AND APPEALS

Sections:

- 19.52.010 Purpose**
- 19.52.020 Application Processing**
- 19.52.030 Director Investigation**
- 19.52.040 Hearing Procedure**
- 19.52.050 Notice of Decision – Director and Development Review Committee**
- 19.52.060 Notice of Decision – Commission**
- 19.52.070 Notice of Decision – Council**
- 19.52.080 Effective Date**
- 19.52.090 Appeal of Action**
- 19.52.100 Filing of Appeals**
- 19.52.110 Notice of Appeal Hearings**
- 19.52.120 Effective Date of Appealed Actions**
- 19.52.130 Reapplication**
- 19.52.140 Reconsideration**

19.52.010 Purpose

These provisions specify procedures for hearings before the Council, Commission, Development Review Committee (DRC) and Director and appeals of any requirement, decision or determination made by the Director, DRC or the Commission.

19.52.020 Application Processing

Applications shall be reviewed and processed in a manner consistent with the provisions of the California Government Code Sections 65090, 65091, and 66451.3.

Chapter 19.52 (Hearings and Appeals) of the San Bernardino Municipal Code establishes public notification requirements. The existing code requirements are as follows:

Not less than 10 days before the date of a hearing, public notice shall be given of such hearing by the following methods:

1. By one publication in a newspaper of general circulation within the City. The notice shall state the nature of the request, the location of the property (text or diagram), the date, time, and place of the scheduled hearing, and the hearing body;

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

2. By mailing, 10 days prior to said hearing, postage prepaid, to the owners and tenants (residential and business) of a property within a radius of 1,000 feet of the exterior boundaries of the property involved in the application, using for this purpose the last known name and address of such owners and tenants (residential and business) as shown upon the current tax assessor's records. Notice is deemed received two days after date of postmark. The list of property owner and tenant (residential and business) addresses shall be typed upon gummed labels, together with required postage. The list shall be prepared and certified by the applicant or a title insurance company. The notice shall state the nature of the request, location of the property (text or diagram), the date, time, and place of the scheduled hearing, and the hearing body; and the notice shall be prepared in English and Spanish
3. In the event that the number of owners and tenants (residential and business) to whom notice would be sent is greater than 1,000 notice may be given at least 10 days prior to the hearing by placing a display advertisement of at least 1/8 page in the newspaper having the greatest circulation within the area affected by the proposed action. The notice shall state the nature of the request, the location of the property (text or diagram), the date, time, and place of the scheduled hearing, and the hearing body; and
4. By mailing, 10 days prior to said hearing, postage prepaid, to the owner of the subject real property or the owner's authorized agent, and to each local agency expected to provide water, sewage, streets, roads, schools, or other essential facilities or services to the proposed project. The notice shall state the nature of the request, the location of the property (text or diagram), the date, time, and place of the scheduled hearing, and the hearing body. Notice is deemed received 2 days after date of postmark

(Ord. MC-1574, 5-04-22)

19.52.030 Director Investigation

The Director shall make an investigation of the facts bearing on the case to provide the information necessary for action consistent with the intent of this Development Code and the General Plan. The Director shall report the findings to the DRC, Commission or Council as appropriate.

19.52.040 Hearing Procedure

Hearings as provided for in this Chapter shall be held at the date, time, and place for which notice has been given as required in this Chapter. The summary minutes shall be prepared, or audio tape made and filed in the Department. Any hearing may be continued provided that prior to the adjournment or recess of the hearing, a clear announcement is made specifying the date, time, and place to which said hearing will be continued.

[Return to Municipal Code Contents]

19.52.050 Notice of Decision – Director and Development Review Committee

The Director and/or the DRC shall announce and record their respective decisions at the conclusion of each required hearing. The decision shall set forth applicable findings and any conditions of approval. Following the hearing, a notice of the decision and any conditions of approval shall be mailed to the applicant at the address shown upon the application.

19.52.060 Notice of Decision – Commission

The Commission shall announce and record its decision at the conclusion of the public hearing. The decision shall set forth the findings of the Commission together with all required conditions of approval deemed necessary to mitigate any impacts and protect the health, safety and welfare of the community.

Following the hearing, a notice of the decision of the Commission, and any conditions of approval shall be mailed to the applicant at the address shown upon the application.

The recommendation with findings of the Commission for the following applications shall be transmitted to the Council for final action:

- 1. Specific Plans;
- 2. General Plan Amendments, text or map;
- 3. Development Code Amendments;
- 4. Development Agreements; and
- 5. Surface Mining and Land Reclamation Plans.

19.52.070 Notice of Decision – Council

The Council shall announce and record its decision at the conclusion of the public hearing. The decision shall set forth the findings of the Council and conditions of approval deemed necessary to mitigate any impacts and protect the health, safety and welfare of the City.

Following the hearing, a notice of the decision of the Council and any conditions of approval shall be mailed by the City Clerk to the applicant at the address shown upon the application.

The decision of the Council shall be final.

19.52.080 Effective Date

Director approved Development Permits shall become effective upon approval, unless appealed. Minor Exceptions, Variances, all other Development Permits, and Conditional Use Permits, shall become effective 15 days following the final date of action (i.e., approval) by the appropriate review authority. Specific Plans, General Plan Amendments, Development Code Amendments, Development Agreements, and Surface Mining and Land Reclamation Plans shall become effective 30 days following the final date of action (i.e., adoption) by the Council. The letter of approval shall constitute the permit, and the resolution or ordinance shall constitute the amendment.

19.52.090 Appeal of Action

Any determination or action taken by the Director or the DRC may only be appealed to the Commission. In a similar manner, any action taken by the Commission to approve or disapprove an application may be appealed to the Council. Any determination or action taken by the City Engineer may only be appealed directly to the Council.

19.52.100 Filing of Appeals

All appeals shall be submitted to the Department on a City application form, and shall specifically state the basis of the appeal. An appeal of a Director or DRC action shall be filed with the Department within 15 days following the final date of action for which an appeal is made. An appeal of a Commission decision shall be filed with the Department within 15 days following the final date of action for which an appeal is made. An appeal of a City Engineer action shall be filed in the office of the City Clerk. All appeals relating to subdivision matters shall be made within 15 days following the date of the decision or action for which an appeal is made. Appeals shall be accompanied by a filing fee as specified in Chapter 19.32 (Applications and Fees).

19.52.110 Notice of Appeal Hearings

Notice of an appeal hearing shall conform to the manner which the original notice was given. The appellant shall be responsible for all noticing materials required in the original application.

19.52.120 Effective Date of Appealed Actions

An action of the Director or DRC appealed to the Commission shall not become final until upheld by the Commission. An action of the Commission or City Engineer appealed to the Council shall not become final unless and until upheld by the Council.

19.52.130 Reapplication

When an application for a permit or amendment is denied, no application for the same or substantially same permit or amendment shall be filed in whole, or in part, for the ensuing 12 months except as otherwise specified at the time of denial. The Director shall determine whether the new application is for a permit or amendment which is the same or substantially the same as a previously denied permit or amendment. No decision of the Director shall be effective until a period of 15 days has elapsed following the written notice of decision.

19.52.140 Reconsideration

If more complete or additional facts or information, which may affect the original action taken on an application by a review authority are presented, the review authority may reconsider such action taken, if a request for reconsideration is filed with the Department within 15 days following the final date of action. If a public hearing was required in the original review process, another public notice as specified in Section 19.52.020 shall be made prior to the reconsideration of the review authority, and all costs associated with the reconsideration shall be paid by the applicant.

CHAPTER 19.54 HOME OCCUPATION PERMITS

Sections:

- 19.54.010 Purpose**
- 19.54.020 Application**
- 19.54.030 Operating Standards**
- 19.54.040 Prohibited Home Occupation Uses**
- 19.54.050 Revocation**

19.54.010 Purpose

These provisions allow for the conduct of home enterprises which are incidental to and compatible with surrounding residential uses. A home occupation represents a legal income producing activity by the occupant of the dwelling.

19.54.020 Application

The conduct of a home occupation requires the approval of the Director who may establish conditions to further the intent of this Chapter. An application for a Home Occupation Permit shall be on a form prescribed by the Director and shall be filed with the Department pursuant to Chapter 19.32 (Applications and Fees).

No home occupation permit shall be required for an in-home educational activity including, but not limited to, music lessons, academic tutoring, or religious instruction, provided that no more than 5 students are present at any one time, and the use complies with all of the operating standards outlined below. In addition, no home occupation permit nor Certificate of Occupancy shall be required for a business using the owner(s) or any partner(s) home as its business address provided: 1) that there is no signage at the home address; 2) there are no building materials stored at the home address; 3) that no manufacturing takes place at the home address; and, 4) that in the course of doing business, no employees or customers appear at the home address to transact business.

19.54.030 Operating Standards

Home occupations shall comply with all of the following operating standards:

1. No person shall operate or engage in a home occupation without first obtaining a Home Occupation Permit in accordance with the provisions of this Chapter, and no business license shall be issued to the operator of a home occupation until a valid Home Occupation Permit is issued pursuant to the provisions of this Chapter. Notwithstanding the foregoing, in the event a business license is issued for a home occupation for which no Home Occupation Permit has been issued, such fact shall in no way affect the application and requirement of this Chapter;

[\[Return to Municipal Code Contents\]](#)

2. Notwithstanding the foregoing, no Home Occupation Permit shall be required pursuant to this Chapter if the person engaged in the performance of work as an employee for an entity whose principal place of business is located elsewhere and the use of the dwelling generates no pedestrian or vehicular traffic beyond that customarily associated with the use of the dwelling for residential dwelling purposes;
3. A separate Home Occupation Permit shall be required for each home occupation being conducted within a dwelling;
4. The home occupation shall not alter the outward appearance of the dwelling unit;
5. There shall be no displays, sale or delivery of merchandise, or advertising signs on the premises;
6. There shall be no signs other than the address and name of the resident;
7. There shall be no advertising which identifies the home occupation by street address;
8. The use of the dwelling as a home occupation shall be clearly incidental and subordinate to its use for residential purposes by its inhabitants. It shall not occupy an area equivalent to more than 15 percent of the total square footage for the dwelling. The garage located on the premises may be utilized for storage of equipment, materials or supplies used in connection with the home occupation provided such storage does not use any space in the garage required for off-street parking. The use shall not involve storage of materials or supplies in any carport, accessory structure(s) or outside any structures;
9. The home occupation shall not involve the use of commercial vehicles for delivery of materials to or from the premises, other than one (1) vehicle not to exceed a capacity of one and one-half tons owned by the operator of such home occupation;
10. The home occupation shall not encroach into any required parking, setback, or yard;
11. There shall be no use or storage of material or mechanical equipment not recognized as being part of a normal household or hobby use;
12. Activities conducted and equipment or material used shall not change the fire safety or occupancy classifications of the premises. Utility consumption shall not exceed normal residential usage;
13. No use shall create or cause noise, dust, light, vibration, odor, gas, fumes, toxic/hazardous materials, smoke, glare, or electrical interference or other hazards or nuisances;

[\[Return to Municipal Code Contents\]](#)

14. Only the occupants of the dwelling may be engaged in the home occupation;
15. The home occupation shall not generate pedestrian or vehicular traffic in excess of that customarily associated with the land use district in which it is located;
16. No home occupation shall be initiated until a current business license is obtained, pursuant to Title 5 of the Municipal Code;
17. A Home Occupation Permit shall not be transferable;
18. If the home occupation is to be conducted on rental property, the property owner or authorized representative shall provide written authorization for the proposed use prior to the submittal for a Home Occupation Permit; and
19. Any special condition established by the Director and made part of the record of the Home Occupation Permit, as deemed necessary to carry out the intent of this Chapter

(Ord. MC-1583, 8-03-22)

19.54.040 Prohibited Home Occupation Uses

The following list presents example uses that are not incidental to nor compatible with residential activities, and are prohibited:

1. Barber and beauty shop;
2. Businesses which entail the harboring, training, breeding, raising, or grooming of dogs, cats, or other animals on the premises;
3. Carpentry and cabinet making;
4. Medical and dental offices, clinics, and laboratories;
5. Mini storage;
6. Repair, fix-it, or plumbing shops;
7. Storage of equipment, materials, and other accessories to the construction and service trades;
8. Vehicle repair (body or mechanical), upholstery, and painting;

[Return to Municipal Code Contents]

9. Welding and machining; and
10. Any other use determined by the Director to be not incidental nor compatible with residential activities.

19.54.050 Revocation

A Home Occupation Permit may be revoked or modified by the Director if any one of the following findings can be made:

1. That the use has become detrimental to the public health, safety, or traffic, or constitutes a nuisance;
2. That the permit was obtained by misrepresentation or fraud;
3. That the use for which the permit was granted has ceased or was suspended for 6 or more consecutive calendar months;
4. That the condition of the premises, or the area of which it is a part, has changed so that the use is no longer justified under the meaning and intent of this Chapter;
5. That 1 or more of the conditions of the Home Occupation Permit have not been met;
or
6. That the use is in violation of any statute, ordinance, law, or regulation.

CHAPTER 19.56 INTERPRETATION

Sections:

- 19.56.010 Purpose**
- 19.56.020 Procedure**

19.56.010 Purpose

These procedures ensure the consistent interpretation and application of the provisions of this Development Code and the General Plan.

19.56.020 Procedure

The Director has the authority to make Development Code and the Commission has the authority to make General Plan interpretations. A written appeal of any interpretation of the provisions of this Development Code may be filed, together with all required fees, with the Department pursuant to Chapter 19.52. The appeal shall specifically state the Development Code or General Plan provision(s) in question, and provide any information to assist in the review of the appeal. The decision of the Director may be appealed to the Commission. The decision of the Commission may be appealed to the Council.

(Ord. MC-789, 6-04-91)

CHAPTER 19.58 MINOR EXCEPTIONS

Sections:

- 19.58.010 Purpose**
- 19.58.020 Application**
- 19.58.030 Applicability**
- 19.58.040 Hearings and Notice**
- 19.58.050 Findings**
- 19.58.060 Precedents**
- 19.58.070 Burden of Proof**
- 19.58.080 Minor Exception Expiration**
- 19.58.090 Time Extension**
- 19.58.100 Use of Property Before Final Decision**
- 19.58.110 Revocation**

19.58.010 Purpose

These provisions shall ensure the following:

(Ord. MC-1393, 12-02-13)

1. Minor adjustments from the standards contained in this Development Code shall be granted only when, because of special circumstances applicable to the property, the strict application of this Development Code deprives such property of privileges enjoyed by other property in the vicinity and under identical zones.
2. Any Minor Exception granted shall be subject to such conditions as will ensure that the minor adjustment thereby authorized shall not constitute a grant of special privilege(s) inconsistent with the limitations upon other properties in the vicinity and zone in which such property is situated.

19.58.020 Application

An application for a Minor Exception shall be filed in a manner consistent with the requirements contained in Chapter 19.32 (Applications and Fees).

19.58.030 Applicability

The Director may grant Minor Exception up to a maximum of 10% governing only the following measurable design/site considerations:

1. Distance between structures
2. Lot Dimensions
3. On-site parking, loading and landscaping
4. Setbacks
5. Structure Heights

Any minor exception request which exceeds the prescribed limitations outlined in this Section shall require the filing of a Variance application, pursuant to Chapter 19.72. Minor exceptions may be approved by the Director only if no other entitlements are required. If other approvals are necessary, the minor exception shall be filed concurrently.

19.58.040 Hearings and Notice

Upon receipt in proper form of a Minor Exception application, a public hearing shall be set and notice of such hearing given in a manner consistent with Chapter 19.52 (Hearings and Appeals).

19.58.050 Findings

Following a public hearing, the Director shall record the decision in writing and shall recite therein the findings upon which such decision is based, pursuant to Section 65906 of the Government Code. The Director may approve and/or modify an application in whole or in part, with or without conditions, only if all of the following findings are made:

(Ord. MC-1393, 12-02-13)

1. That there are special circumstances applicable to the property, including size, shape, topography, location or surroundings, the strict application of this Development Code deprives such property of privileges enjoyed by other property in the vicinity and under identical zone classification;
2. That granting the Minor Exception is necessary for the preservation and enjoyment of a substantial property right possessed by other property in the same vicinity and zone and denied to the property for which the Minor Exception is sought;

[Return to Municipal Code Contents]

3. That granting the Minor Exception will not be materially detrimental to the public health, safety, or welfare, or injurious to the property or improvements in such vicinity and zone in which the property is located;
4. That granting the Minor Exception does not constitute a special privilege inconsistent with the limitations upon other properties in the vicinity and zone in which such property is located;
5. That granting the Minor Exception does not exceed 10% of the standard(s) being modified, or allow a use or activity which is not otherwise expressly authorized by the regulations governing the subject parcel; and
6. That granting the Minor Exception will not be inconsistent with the General Plan.

19.58.060 Precedents

The granting of a prior Minor Exception is not admissible evidence for the granting of a new Minor Exception.

19.58.070 Burden of Proof

The burden of proof to establish the evidence in support of the findings, as required by Section 19.58.050, is the responsibility of the applicant.

19.58.080 Minor Exception Expiration

A Minor Exception shall be exercised within one year from the date of approval, or the Minor Exception shall become null and void.

19.58.090 Time Extension

The Director may, upon an application being filed 30 days prior to expiration and for good cause, grant a time extension not to exceed 12 months. Upon granting of an extension, the Director shall ensure that the Minor Exception complies with all current Development Code provisions.

19.58.100 Use of Property Before Final Decision

No permit shall be issued for any use involved in an application for approval of a Minor Exception until, and unless, the same shall have become final, pursuant to Section 19.52.080 (Effective Date).

19.58.110 Revocation

The Director may hold a public hearing to revoke or modify a Minor Exception granted pursuant to the provisions of this Chapter. Fifteen days prior to the public hearing, notice shall be delivered in writing to the applicant and/or owner of the property for which such Minor Exception was granted. Notice shall be deemed delivered 2 days after being mailed, first class postage paid, to the owner as shown on the current tax rolls of the County of San Bernardino, and/or the project applicant.

A Minor Exception may be revoked or modified by the Director if any one of the following findings can be made:

1. That circumstances have changed so that one or more of the findings contained in Section 19.58.050 can no longer be made, and the grantee has not substantially exercised the rights granted by the Minor Exception;
2. That the Minor Exception was obtained by misrepresentation or fraud;
3. That the improvement authorized pursuant to the Minor Exception had ceased or was suspended for six or more consecutive calendar months;
4. That one or more of the conditions of the Minor Exception have not been met, and the grantee has not substantially exercised the rights granted by the Minor Exception;
5. That the improvement authorized pursuant to the Minor Exception is in violation of any statute, ordinance, law, or regulation; or
6. That the improvement permitted by the Minor Exception is detrimental to the public health, safety, or welfare or constitutes a nuisance.

CHAPTER 19.60 MINOR MODIFICATIONS

Sections:

- 19.60.010 Purpose**
- 19.60.020 Application**
- 19.60.030 Applicability**

19.60.010 Purpose

The modification procedure is intended to provide a method whereby minor changes of 10 percent or less may be made to existing, previously approved land use entitlements, without any additional impact.

(Ord. MC-888, 12-07-93)

19.60.020 Application

The minor modification of a previously approved entitlement requires the approval of the Director, who may establish additional conditions to further the intent of this Chapter. An application for the minor modification shall be on a form prescribed by the Director and shall be filed with the Department, pursuant to Chapter 19.32 (Applications and Fees). Any modification request which exceeds the prescribed limitations outlined in this Chapter shall require the refiling of the original application and a subsequent hearing by the appropriate review authority.

19.60.030 Applicability

The Director may grant a minor adjustment to an approved permit up to a maximum of 10% governing only the following measurable design/site considerations, which in no case would result in a reduction from any minimum standard outlined in this Development Code:

1. On-site circulation and parking, loading and landscaping;
2. Placement and/or height of walls, fences and structures;
3. Reconfiguration of architectural features, including colors, and/or modification of finished materials that do not alter or compromise the previously approved theme; and
4. An increase or decrease of not more than 10% in density or intensity of a Development Project.

(Ord. MC-888, 12-07-93)

[\[Return to Municipal Code Contents\]](#)

CHAPTER 19.62 NONCONFORMING STRUCTURES AND USES

Sections:

- 19.62.010 Purpose**
- 19.62.020 Nonconforming Structures**
- 19.62.030 Nonconforming Uses**
- 19.62.050 Structure Permits or Certificates of Occupancy Prohibited**
- 19.62.060 Removal of Illegal Nonconforming Structures and Uses**

19.62.010 Purpose

These provisions provide for the orderly termination of nonconforming structures and uses to promote the public health, safety, and general welfare, and to bring these structures and uses into conformity with the goals and policies of the General Plan. This Chapter is intended to prevent the expansion of nonconforming structures and uses to the maximum extent feasible, to establish the criteria under which they may be continued or possibly expanded, and to provide for the correction or removal of these land use nonconformities in an equitable, reasonable and timely manner.

It is hereby declared that nonconforming structures and uses within the City are detrimental to both orderly and creative development, and the general welfare of citizens and property. It is further declared that nonconforming structures and uses shall be eliminated as rapidly as possible without infringing upon the constitutional rights of property owners.

19.62.020 Nonconforming Structures

A structure which lawfully existed prior to the effective date of this Development Code is a legal nonconforming structure, and may continue even though the structure fails to conform to the present requirements of the zone in which it is located. A legal nonconforming structure may be maintained as follows:

(Ord. MC-1393, 12-02-13)

1. A legal nonconforming structure which is damaged to an extent of 1/2 or more of its replacement cost immediately prior to such damage may be restored only if made to conform to all provisions of this Development Code. However, any residential structure(s), including multi-family, in a residential zone destroyed by a catastrophe, including fire, may be reconstructed up to the original size, placement, and density. However, reconstruction shall commence within 2 years after the catastrophe.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

2. Necessary repairs and desired alterations may be made to a legal nonconforming residential structure(s), including multi-family.
3. Reasonable repairs and alterations may be made to legal nonconforming commercial, institutional, or industrial structures, provided that where the cost does not exceed the replacement cost of the legal nonconforming structure. However, improvements required to reinforce non-reinforced masonry structures shall be permitted without replacement cost limitations.
4. Changes to interior partitions or other nonstructural improvements and repairs may be made to a legal nonconforming commercial, institutional, or industrial structure, provided that the cost of the desired improvement or repair shall not exceed 1/2 of the replacement cost of the nonconforming structure over any consecutive 5-year period.
5. The replacement cost shall be determined by the Director.
6. Any additional development of a parcel with a legal nonconforming structure will require that all new structures be in conformance with this Development Code.
7. If the use of a nonconforming structure is discontinued for a period of 36 or more consecutive calendar months, the structure shall lose its legal nonconforming status, and shall be removed or altered to conform to the provisions of this Development Code. A use of a legal nonconforming structure shall be considered discontinued when any of the following apply:
 - A. Where characteristic furnishings and equipment associated with the use have been removed and not replaced and where normal occupancy and/or use has been discontinued for a period of 12 or more consecutive calendar months.

(Ord. MC-1411, 2-02-15)
 - B. Where there are no business receipts available for the 12 month period.

(Ord. MC-1411, 2-02-15)
8. The following provisions shall apply to the reuse of existing nonconforming commercial/industrial structures and/or sites.
 - A. Landscaping shall be upgraded and maintained in a viable growth condition and irrigated in compliance with Section 19.28.030(10).

- B. The parking lot landscaping shall be a minimum of 15% of the required parking lot area. However, if it is physically impossible to meet the minimum requirement, the Director may approve a reduction in the amount of landscaping required. No landscape improvements are required in areas not visible and/or accessible to the public.
- C. Existing, required parking spaces shall not be removed to provide additional landscaping.
- D. New uses in existing structures may be entitled to a reduction of up to 25% in the number of required parking spaces as determined by the Director.
- E. Existing wheel stops may remain. If repaving of the parking lot is necessary, existing wheel stops may be removed and reinstalled following the repaving, provided stall dimensional requirements are met. However, no installation of new or additional wheel stops shall occur.
- F. Installation of new concrete curbing may be required 3 feet from any walls, fences, property lines, walkways or structures adjacent to parking areas and drive aisles.
- G. Screening compatible with the existing structure shall be required for mechanical equipment pursuant to Section 19.20.030(21).
- H. A refuse enclosure shall be provided in compliance with adopted Public Works standards.
- I. Chain link fencing not in conformance with Code requirements shall be removed by the owner/applicant prior to the establishment of the commercial use pursuant to Section 19.20.030(8).
- J. A nonconforming structure may be reoccupied without complying with the building dimensional requirements pertaining to height, setbacks and/or lot coverage. All other requirements in the Municipal Code, including but not limited to the provisions of this Chapter, shall apply to the reoccupancy of the structure.

(Ord. MC-810, 10-08-91 (amended))

- K. A nonconforming structure that has historic significance may be reused for its original intended use regardless of the zoning designation if a Historic Resource Evaluation Report has been prepared that confirms the historic significance subject to the Director's determination that is compatible with surrounding land uses.

(Ord. MC-957, 2-05-96)

19.62.030 Nonconforming Uses

A nonconforming use is one which lawfully existed prior to the effective date of this Development Code, but which is no longer permitted in the zone in which it is located. The continuance of a legal nonconforming use is subject to the following:

1. Change of ownership, tenancy, or management of a nonconforming use shall not affect its legal nonconforming status, provided that the use and intensity of use does not change.
2. If a nonconforming use is discontinued for a period of 12 or more consecutive calendar months, it shall lose its legal nonconforming status, and the continued use of the property shall be required to conform with the provisions of this Development Code.

(Ord. MC-1411, 2-02-15)

3. Additional development of any property on which a legal nonconforming use exists shall require that all new uses conform to the provisions of this Development Code.
4. If a nonconforming use is converted to a conforming use, no nonconforming use may be resumed.
5. No nonconforming use may be established or replaced by another nonconforming use, nor may any nonconforming use be expanded or changed, except as provided in 19.62.030(6) and 19.62.030(7).
6. A nonconforming use of a portion of a nonconforming commercial or industrial center or complex may be established or replaced by another similar nonconforming use pursuant to Section 19.02.070(3), if all of the following findings are made:

[Return to Municipal Code Contents]

- A. That the nonconforming use is similar to the uses originally allowed in the center or complex;
- B. That the nonconforming use will not adversely affect or be materially detrimental to adjoining properties; and
- C. That the use of the entire center or complex has not been vacant or discontinued for a period of 36 or more calendar months.

(Ord. MC-957, 2-05-96)

7. An existing legal nonconforming use or legal nonconforming building may be minimally expanded or changed subject to the granting of a Development Permit if all of the following findings are made:

- A. That such expansion or change is minimal;
- B. That such expansion or change will not adversely affect or be materially detrimental to adjoining properties;
- C. That there is a need for relief of overcrowded conditions or for modernization in order to properly operate the use; and
- D. That the use is existing and has not been discontinued for a period of 36 or more calendar months.

(Ord. MC-957, 2-05-96; Ord. MC-888, 12-07-93)

19.62.050 Structure Permits or Certificates of Occupancy Prohibited

When any nonconforming structure or use is no longer permitted pursuant to the provisions of this Chapter, no permit for a structure shall thereafter be issued for further continuance, alteration, or expansion. Any permit issued in error shall not be construed as allowing the continuation of the nonconforming structure or use.

19.62.060 Removal of Illegal Nonconforming Structures and Uses

Nothing contained in this Chapter shall be construed or implied so as to allow for the continuation of illegal nonconforming structures and uses. Said structures and uses shall be removed immediately subject to the provisions of Chapter 19.46 (Enforcement of Provisions) and State law.

[Return to Municipal Code Contents]

CHAPTER 19.63 REASONABLE ACCOMMODATION

Sections:

- 19.63.010 Purpose
- 19.63.020 Definitions
- 19.63.030 Procedure
- 19.63.040 Applicability
- 19.63.050 Findings
- 19.63.060 Appeals

19.63.010 Purpose

The purpose of this Chapter is to establish a procedure for an individual with a disability seeking equal access to housing to request reasonable accommodation as provided by the Federal Fair Housing Amendments Act of 1988 and the California Fair Employment and Housing Act (Acts).

19.63.020 Definitions

1. **Acts –**

The Federal Fair Housing Amendments Act of 1988 (42 U.S.C. §§3601-3619) and the California Fair Employment and Housing Act (Govt. Code §§12900-12996).

2. **Individual with a Disability –**

As defined under the Acts, a person who has a physical or mental impairment that limits one or more major life activities, anyone who is regarded as having that type of impairment, or anyone who has a record of that type of impairment.

3. **Reasonable Accommodation –**

The act of providing flexibility in the application of land use and zoning regulations, including modification or waiver of certain requirements to accommodate the needs of an individual with a disability.

19.63.030 Procedure

1. Approval Authority –

The Director shall have the authority to review and approve or deny requests for reasonable accommodation, based on the required findings. The Director may refer the matter to the Planning Commission or the Historic Preservation Commission if the project requires another discretionary action, or as appropriate.

2. Application Review and Decision –

A request for reasonable accommodation shall be made in writing by an individual with a disability or his or her representative, or a developer or provider of housing for an individual with a disability. The request shall identify the project, the standard that presents a barrier to reasonable accommodation, and the disability that requires reasonable accommodation. The Director may request additional information necessary for making a determination, consistent with the Acts and considering privacy rights of the individual. Prior to issuance of permits issued for construction including a reasonable accommodation, the Director may require recordation of a disclosure to inform future property owners of the granting of the reasonable accommodation, and whether or not the approval will run with the land.

19.63.040 Applicability

Reasonable accommodation is granted to the individual with a disability. Approval of a reasonable accommodation shall not run with the land unless the Director determines that (A) The modification is physically integrated with the structure and not easily removed or altered to comply with the Code; or (B) The accommodation is to be used by another individual with a disability.

19.63.050 Findings

A request for reasonable accommodation shall be granted only if all of the following findings are made:

1. The subject housing will be used by an individual with a disability as defined under the Acts.
2. The requested accommodation is necessary to make specific housing available to an individual with a disability.
3. The requested accommodation would not impose an undue financial or administrative burden on the City.
4. The requested accommodation would not require a fundamental alteration in the nature of a City program or law, including land use and zoning.

19.63.060 Appeals

The decision of the Director may be appealed to the Planning Commission, and a Planning Commission decision may be appealed to the Mayor and Common Council, pursuant to Chapter 19.52 Hearings and Appeals.

CHAPTER 19.64 SPECIFIC PLANS

Sections:

- 19.64.010 Purpose**
- 19.64.020 Pre-submittal and Preparation of Specific Plan**
- 19.64.030 Content of Specific Plan**
- 19.64.040 Hearings and Notice**
- 19.64.050 Commission Action on Specific Plans**
- 19.64.060 Council Action on Specific Plans**
- 19.64.070 Findings**
- 19.64.080 Specific Plan Consistency**

19.64.010 Purpose

The purpose of this Chapter is to establish uniform procedures for the adoption and implementation of Specific Plans for the coordination of future development within the City, consistent with Section 19.10.010 (2)(E)(SP [Specific Plan] District) and pursuant to Government Code Section 65450 et seq.

19.64.020 Pre-submittal and Preparation of Specific Plan

1. A pre-submittal application and fee are required prior to filing a formal Specific Plan application. A pre-application conference with Department representatives is required prior to the filing of the formal specific plan application.
2. The Specific Plan and Environmental Impact Report (EIR), if required, shall not be prepared by the same consulting firm.
3. Consultants and/or the applicant shall be responsible for preparation and advertisement of the Notice of Preparation (NOP) and the Notice of Completion (NOC) for the EIR, if an EIR is required.
4. Prior to the preparation of a Specific Plan or EIR the applicant shall hold a public scoping meeting to identify potential community impacts and concerns about the project. Public notice of the scoping meeting is required. Noticing procedures shall be defined by the Department at the pre-application conference.

[\[Return to Municipal Code Contents\]](#)

[\[Return to Title 19 Contents\]](#)

19.64.030 Content of Specific Plan

A Specific Plan application shall include a text and a diagram(s) which contain all of the provisions outlined in Government Code Sections 65451 and 65452, in addition to all data and related exhibits required by the Department.

19.64.040 Hearings and Notice

Upon receipt in proper form of a Specific Plan application, or direction of the Council, and following Department review, hearings shall be set before the Commission and Council. Notice of the hearings shall be given pursuant to the requirements of Chapter 19.52 (Hearings and Appeals).

19.64.050 Commission Action on Specific Plans

The Commission shall make a written recommendation on the proposed Specific Plan whether to approve, approve in modified form or disapprove, based upon the findings contained in Section 19.64.070.

Commission action recommending that the proposed Specific Plan be approved, approved in modified form, or denied shall be considered by the Council following Commission action.

19.64.060 Council Action on Specific Plans

Upon receipt of the Commission's recommendation, the Council may approve, approve with modifications, or disapprove the proposed Specific Plan based upon the findings contained in Section 19.64.070. Prior to Council action, all land within the scope of the Specific Plan shall be incorporated within the City.

19.64.070 Findings

A Specific Plan may be adopted only if all of the following findings are made:

1. The proposed plan is consistent with the General Plan;
2. The proposed plan would not be detrimental to the public interest, health, safety, convenience, or welfare of the City;
3. The subject property is physically suitable for the requested land use designation(s) and the anticipated land use development(s);
4. The proposed plan shall ensure development of desirable character which will be compatible with existing and proposed development in the surrounding neighborhood; and
5. The proposed plan will contribute to a balance of land uses so that local residents may work and shop in the community in which they live.

19.64.080 Specific Plan Consistency

No public works project, tentative map or parcel map, or other land use entitlement may be approved, adopted or amended within an area covered by a Specific Plan, unless found consistent with the adopted Specific Plan.

CHAPTER 19.66 SUBDIVISION MAPS

Sections:

- 19.66.010 Purpose**
- 19.66.020 Application**
- 19.66.030 Exclusions**
- 19.66.040 Effect of Annexation**
- 19.66.050 Fees**
- 19.66.060 Definitions**
- 19.66.070 Division of Land – 5 or More Parcels**
- 19.66.080 Division of Land – 4 or Less Parcels**
- 19.66.090 Waiver of Parcel Map Requirements**
- 19.66.100 General**
- 19.66.110 Content and Form**
- 19.66.120 Accompanying Data and Reports**
- 19.66.130 Department Review**
- 19.66.140 Extension of Time**
- 19.66.150 Determination**
- 19.66.160 Expiration**
- 19.66.170 Extensions**
- 19.66.180 Minor Amendments**
- 19.66.190 Citation and Authority – Vesting Tentative Map**
- 19.66.200 Purpose – Vesting Tentative Map**
- 19.66.210 Application – Vesting Tentative Map**
- 19.66.220 Filing and Processing – Vesting Tentative Map**
- 19.66.230 Expiration – Vesting Tentative Map**
- 19.66.240 Rights of a Vesting Tentative Map**
- 19.66.250 Amendments – Vesting Tentative Map**

19.66.010 Purpose

The purpose of the subdivision requirements of this Development Code is to promote the public health, safety, general welfare and preserve the aesthetic quality of the City through the regulation and control of the division of land, and to supplement the provisions of the Map Act relating to design, improvement, and survey data of subdivisions, in addition to the form and content of all maps provided for by the Map Act, and the procedure to be followed in securing the official approval of the City regarding the maps. To achieve this purpose, the regulations contained in this Development Code are determined to be necessary to promote orderly growth and development, open space, conservation,

[\[Return to Municipal Code Contents\]](#)

protection and proper use of land; and to ensure adequate provision for traffic circulation, utilities, and other services in the City.

It is the intent of this Development Code to incorporate by reference, to the maximum extent feasible, the provisions of the Map Act, consistent with Section 66411 of the Government Code, as may be amended from time to time.

19.66.020 Application

The subdivision regulations shall apply to all or part of any subdivision within the City, and to the preparation of any subdivision maps or other maps required by the Map Act.

19.66.030 Exclusions

This Development Code shall be inapplicable to those exclusions provided in the Map Act, Section 66412 of the Government Code.

19.66.040 Effect of Annexation

Any subdivision subject to annexation to the City shall comply with the Map Act, Section 66413 of the Government Code.

19.66.050 Fees

All persons submitting applications for maps or other approvals required by this Development Code shall pay, at time of application, all fees and/or deposits as contained in the City's "Fees for Planning Services," pursuant to Chapter 19.32 (Application and Fees).

19.66.060 Definitions

In addition to those terms defined below, and specific terms defined in other Chapters of this Development Code, this Chapter shall incorporate by reference those terms defined in the Subdivision Map Act, Section 66414 et seq. (Article 2. Definitions) of the Government Code.

Acreage. Any parcel of land, of 1 acre or more and those areas where a legal subdivision has not been made previously, or where a legal subdivision has declared the parcel as acreage.

Boundary Adjustment. A minor shift or rotation of an existing lot line where no additional parcels are created, nor deleted, as approved by the City Engineer.

[\[Return to Municipal Code Contents\]](#)

City Engineer. The Director of Public Works/City Engineer of the City of San Bernardino; hereinafter referred to as "City Engineer."

Conversion. The creation of separate ownership of existing real property together with a separate interest in space of residential or commercial buildings.

County Recorder. The County Recorder of the County of San Bernardino.

Department of Public Works. The Public Works Department of the City of San Bernardino; hereinafter referred to as "Public Works."

Environmental Impact Report (EIR). A detailed statement under the California Environmental Quality Act (CEQA), State Public Resources Code Sections 21000 et seq., describing and analyzing the significant environmental effects of a project and discussing methods to mitigate or avoid said effects.

Final Map. A map showing a subdivision for which a tentative and final map is required under the Subdivision Map Act, Section 66426 of the Government Code, prepared in compliance with the provisions of this Development Code and the Subdivision Map Act and designed to be recorded in the Office of the County Recorder.

Government Code. The Government Code of the State of California.

Improvement Standard. A specified requirement imposed by this Development Code relating to the installation, modification or removal by the subdivider of a street, sidewalk, utility, well, tree, storm drain or other facility as necessary for the general use by the lot owners of the subdivision and local neighborhood.

Lot Line Adjustments. See boundary adjustment.

Merger. The joining of two or more contiguous parcels of land under one ownership into one parcel.

Negative Declaration. A detailed statement prepared under the California Environmental Quality Act (CEQA), pursuant to Public Resources Code 21000 et seq., documenting that a project will not result in any significant environmental effects.

Parcel Map. A map showing a subdivision for which a parcel map is required under Subdivision Map Act Section 66426, subdivision (a), (b), (c) or (d) and other subdivisions for which a final map is not required under the Subdivision Map Act prepared in compliance with the provisions of this Development Code and the Subdivision Map Act designed to be recorded in the Office of the County Recorder.

[\[Return to Municipal Code Contents\]](#)

Remainder. That portion of an existing parcel which is not included as part of the proposed subdivision. The remainder is not considered as part of the subdivision, but must be shown on the required maps as part of the area surrounding subdivision development.

Shall and May. "Shall" is mandatory and "may" is permissive.

Subdivision Map Act. State of California Government Code Section 66410 to 66499; hereinafter referred to as "The Map Act."

19.66.070 Division of Land – 5 or More Parcels

Tentative and final maps shall be required for all subdivisions creating 5 or more parcels, pursuant to Map Act Section 66426.

19.66.080 Division of Land – 4 or Less Parcels

A tentative and final parcel map shall be required for all divisions of land creating four or fewer parcels, as well as those divisions contained in Map Act Section 66426.

A tentative and final parcel map shall not be required for those divisions outlined in Map Act Section 66428, nor for lot line adjustments contained in Map Act Section 66412 (d).

19.66.090 Waiver of Parcel Map Requirements

The City Engineer may, in the Engineer's discretion, waive parcel map requirements for the following:

1. Division of real property or interest therein created by probate, eminent domain procedures, partition, or other civil judgments or decrees; or
2. A division of property resulting from the conveyance of land or interest to or from the City, public entity or public utility for a public purpose, such as school sites, public building sites, or rights-of-way, or easements for streets, sewers, utilities, drainage, etc.

Pursuant to Map Act Section 66428, the Commission may waive a parcel map upon making a finding that the proposed division of land complies with City requirements as to area, improvement and design, flood water drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection and other requirements of the Map Act, and the Municipal Code.

[Return to Municipal Code Contents]

Upon waiver of the parcel map requirement by the Commission, the City Engineer shall cause to be filed with the County Recorder a certificate of compliance for the land to be divided and a plat map showing the division.

A parcel map waived by the Commission may be conditioned to provide for payment of parkland dedication, area of benefit fees, and other fees.

19.66.100 General

The content and form, submittal and approval of tentative maps shall be governed by the provisions of this Chapter.

An application for approval of a tentative map pursuant to this Chapter shall not be accepted for filing until the subdivision has been determined by the Department to be consistent with the General Plan, applicable specific plans and this Development Code. Additionally, all required discretionary City approvals shall have been previously obtained or applications for same shall be filed concurrently with the tentative map.

19.66.110 Content and Form

The tentative map shall be prepared in a manner acceptable to the Department and shall be prepared by a registered civil engineer or licensed land surveyor. The tentative map shall be clearly and legibly drawn and shall contain, but not be limited to, the following:

1. A title which shall contain the subdivision number, and type of subdivision.
2. Name and address of legal owner, subdivider and person preparing the map, including registration or license number.
3. Sufficient legal description to define the boundary of the proposed subdivision.
4. The names and numbers of adjacent subdivisions and the names of owners of adjacent unplatted land.
5. Date, north arrow, scale, contour interval, and source and date of existing contours.
6. A statement of present land use designation(s) and of existing and proposed uses of the property.
7. A vicinity map showing roads, adjoining subdivisions, cities, creeks, railroads and other data sufficient to locate the proposed subdivision and show its relation to the community.
8. List the applicable agencies that provide service to the proposed subdivision (i.e., school district[s], gas, electric, water and sewer, telephone, cable TV, etc.).

[Return to Municipal Code Contents]

9. Existing topography of the proposed subdivision site and at least 100 feet beyond its boundary including, but not limited to:
 - A. Existing contours at 1 foot intervals if the existing ground slope is less than 15% and at not less than 5 foot intervals for existing ground slopes equal or greater than 15%. Contour intervals shall not be spread more than 150 feet apart. Existing contours shall be represented by dashed lines or by screened lines.
 - B. Type, circumference and dripline of existing trees with a trunk diameter of four inches or more. Any trees proposed to be removed shall be so indicated.
 - C. The location and outline of existing structures identified by type. Structures to be removed shall be so marked.
 - D. The approximate location of all areas subject to inundation or storm water overflow; the location, width, and direction of flow of each water course; and the flood zone designation as indicated on the Flood Insurance Rate Map ("FIRM"), as defined in Chapter 19.16 (Flood Plain Overlay District) of this Development Code.
 - E. The location, pavement and right-of-way width, grade and name of all existing and proposed public or private streets or highways.
 - F. The widths, location and identity of all existing easements.
 - G. The location and size of existing wells, septic tanks, sanitary sewers, fire hydrants, water mains and storm drains. The approximate slope of existing sewers and storm drains shall be indicated. The location of existing overhead utility lines on-site or on peripheral streets shall be indicated.
10. Proposed on-site and off-site improvements to be illustrated shall include, but not be limited to:
 - A. The location, grade, centerline radius and arc length of curves, pavement, right-of-way width and name of all streets. Typical sections of all streets shall be shown. Proposed private streets shall be clearly indicated.
 - B. The location and radius of all curb returns and cul-de-sacs.
 - C. The location, width and purpose of all easements.

[Return to Municipal Code Contents]

- D. The angle of intersecting streets if the angle deviates from a right angle by more than two degrees.
 - E. The proposed lot layout and the approximate dimensions of each lot and each building site. Engineering data shall show the proposed finished grading of each lot, the preliminary design of all grading, numeric estimate of grading activity relating to excavation and fill, the elevation of proposed building pads, the top and the toe of cut and fill slopes to scale, the number of each lot, and the elevation of adjacent parcels.
 - F. Proposed contours at one-foot intervals shall be shown if the existing ground slope is less than 15% and not at less than five-foot intervals for existing ground slopes of 15% or more. A separate grading plan may be required to be submitted.
 - G. Proposed recreation sites, bike paths, trails and parks for private or public use, which shall be indicated as lettered lots.
 - H. Proposed common areas and areas to be dedicated to public open space, which shall be indicated as lettered lots.
 - I. The location and size of proposed and existing sanitary sewers, fire hydrants, water mains and storm drains. Proposed slopes and approximate elevations of sanitary sewers and storm drains shall be indicated.
 - J. Any proposed locations and sizes of storm water runoff retention basins.
 - K. Subdivision improvements outside of the boundary including right-of-way, topography, and proposed work.
11. The name or names, state license number, address and telephone number, of any geologist and/or soils engineer whose services were required in the preparation of the tentative map.
12. The size of sheets shall be as required by the City Engineer. A marginal line shall be drawn completely around each sheet, leaving an entirely blank margin of one inch. The scale of the map shall be an engineering scale and of a size necessary to show all details clearly. All printing or lettering on the map shall be of 1/8 inch minimum height and of a shape and weight as to be readily legible on prints and other reproductions made from the original drawings.
13. If the subdivider plans to develop the site in units or phases, the proposed units or phases and their proposed sequence of construction shall be shown.

[Return to Municipal Code Contents]

14. Upon the written request of the subdivider, the Department may waive any of the above tentative map content requirements if the Department determines that the type of subdivision does not justify compliance with these requirements, or if the Department determines that other circumstances justify a waiver. The Department may require other drawings, data, or information as deemed necessary to accomplish the purposes of the Subdivision Map Act and this Development Code.
15. Names of all streets as approved by the Fire Department and the Department of Public Works/City Engineer.

19.66.120 Accompanying Data and Reports

The tentative map shall be accompanied by the following data and reports:

1. Street Identification. Proposed streets shall be alphabetically labeled.
2. Soils Report.
 - A. If a preliminary soils report is required, it shall be prepared by a civil engineer registered in this State and based upon adequate test borings, shall be submitted to the Department for every subdivision, pursuant to Chapter 15 of the Municipal Code.
 - B. A preliminary soils report may be required by the City Engineer.
 - C. If the City has knowledge of, or the preliminary soils report indicates the presence of critically expansive soils, liquefaction, or other soil problems which, if not corrected, would lead to structural defects, a soils investigation of each lot in the subdivision may be required by the Department. This soils investigation shall be done by a civil engineer registered in this State, who shall recommend the corrective action which will prevent structural damage to each structure proposed to be constructed in the area where the soil problems exist.
 - D. The Commission may approve, upon recommendation of the City Engineer, the subdivision, or portion thereof, where a soils problem exists if it determines that the recommended action will prevent structural damage to each structure to be constructed, and a condition to the issuance of any building permit shall require that the approved recommended action will be incorporated into the construction of each structure.
3. Title Report. A preliminary title report, acceptable to the Department, showing the legal owners at the time of filing the tentative map, dated within 90 days of the application being deemed complete.

[Return to Municipal Code Contents]

4. Environmental Review. Information shall be submitted, as required by the Department, to allow a determination on environmental review to be made in compliance with CEQA. The various time limits contained in this Development Code for taking action on tentative maps shall not commence until the subdivision application is deemed complete for processing, pursuant to Public Resources Code 21151.5 and Map Act Sections 66452.1 and 66452.2. The subdivider shall deposit and pay all fees as may be required for the preparation and processing of environmental review documents.
5. Preliminary Engineering Calculations. Information shall be submitted as required by the standard engineering specifications to demonstrate the adequacy of the design of the proposed improvements. This information shall include design parameters and engineering calculations, and be in conformance with the policies and procedures of Public Works.
6. Phasing. If the subdivider plans to file multiple final maps on the tentative map, a written notice to this effect shall be filed with the Department. Phase lines shall be shown on the map(s).
7. Solar Access. Any plans and information relating to solar access may be required to be submitted at the time of the tentative map submittal pursuant to the provisions of this Development Code.
8. Other Reports. Any other data or reports deemed necessary by the Department, or City Engineer.

19.66.130 Department Review

A prospective subdivider, or agent, may request a pre-application conference with the Department prior to formal submittal of a subdivision application, pursuant to Section 19.31.030. During the conference, the Department representative(s) shall inform the subdivider of applicable policies, plans, and requirements as they apply to the proposed subdivision, review the appropriate procedures outlined in this Development Code and examine possible alternatives or modifications relating to the proposed subdivision.

The tentative map application shall be filed with the Department. The application shall be determined by the Department to be complete only when the content and form of the tentative map conform to the requirements of Section 19.66.110 and when all accompanying data and reports, as required by Section 19.66.120, and all fees and/or deposits as required by Section 19.66.050, have been submitted and accepted by the Department. The subdivider shall file, with the Department, the number of tentative maps the Department deems necessary. The Department shall forward copies of the tentative map to the affected public agencies and utilities which may, in turn, forward to the Department their findings and recommendations.

[Return to Municipal Code Contents]

Within 10 days of the filing of a tentative map application, the Department shall send a notice of the filing of the application to the governing board of any elementary, high school or unified school district within the boundaries of which the subdivision is proposed to be located, as outlined in Map Act Section 66455.7.

19.66.140 Extension of Time

Any applicable time limits for acting on the tentative map application may be extended by mutual written consent of the subdivider and the City, as outlined in Map Act Section 66451.1. A waiver of application time limits may be required to permit concurrent processing of related project requests.

19.66.150 Determination

1. Notice of Public Hearings.

Upon receipt of a complete application, the Department shall prepare a report with recommendations after environmental review by the ERC. The Department shall set the matter of a tentative parcel map for public hearing before the D/ERC or for a tentative tract map before the Commission, pursuant to Chapter 19.52. A copy of the Department report shall be mailed to the subdivider at least three days prior to the public hearing at the address designated on the application.

2. Action.

The D/ERC or the Commission shall approve, conditionally approve or deny the tentative parcel map or tract map, as applicable, within 50 days after the tentative parcel or tract map application has been determined by the Department to be complete, and report the decision to the subdivider. If an environmental impact report is prepared, the decision by the D/ERC or the Commission shall be made 45 days after certification of the report.

3. Determination.

The tentative parcel or tract map may be approved or conditionally approved by the D/ERC or the Commission if it finds that the proposed subdivision, together with the provisions for its design and improvements, are consistent with the General Plan, any applicable specific plan, and all applicable provisions of the Municipal Code. The D/ERC or the Commission may require, as a condition of its approval, that the payment by the subdivider of all development fees, required to be paid at the time of the application for, or issuance of, a building permit or other similar permit, shall be made at the rate for applicable fees in effect at the time of said application or issuance of a building or similar permit.

[Return to Municipal Code Contents]

The tentative parcel or tract map may be denied by the D/ERC or the Commission on any of the grounds contained in the Map Act, General Plan or the Municipal Code. The D/ERC or the Commission shall deny the tentative parcel or tract map if it makes any of the following mandatory findings contained in Map Act Section 66474:

- A. That the proposed map is not consistent with applicable general and specific plans as specified in Section 65451;
- B. That the design or improvement of the proposed subdivision is not consistent with applicable general and specific plans;
- C. That the site is not physically suitable for the type of development;
- D. That the site is not physically suitable for the proposed density of development;
- E. That the design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat;
- F. That the design of the subdivision or type of improvements is likely to cause serious public health problems;
- G. That the design of the subdivision or the type of improvements will conflict with easements, acquired by the public at large, for access through or use of, property within the proposed subdivision.

19.66.160 Expiration

1. The approval or conditional approval of a tentative parcel or tract map shall expire 24 months following approval by the D/ERC or the Commission. However, the map may be extended if the subdivider has complied with Map Act Section 66452.6(a) and (e). An extension to the expiration date may also be approved pursuant to Section 19.66.170.
2. The period of time outlined in (1.) above shall not include any period of time during which a lawsuit has been filed, whether or not first appealed to the next highest approving body, and is pending in a court of competent jurisdiction involving the approval or conditional approval of a tentative map only if a stay of the time period is approved by the D/ERC or the Commission. After service of the initial petition or complaint upon the City, the subdivider shall, in writing, to the Director, request a stay in the time period of the tentative map. Within 40 days after receiving the request, the D/ERC or the Commission shall either stay the time period for up to five years or deny the requested stay. The request for the stay shall be a hearing with notice to the subdivider and to the appellant, and upon conclusion of the hearing, the D/ERC or the Commission shall render its decision.
3. The period of time outlined in (1.) above shall not include any period of time during which a development moratorium is in effect pursuant to Map Act Section 66452.6.
4. Expiration of an approved or conditionally approved tentative map shall terminate all proceedings and no final map or parcel map of all or any portion of the real property included within the tentative map shall be filed without first processing a new tentative map. The final map or parcel map documents submitted for filing must be accepted as adequate for approval by Council by the City Engineer prior to the expiration date.

19.66.170 Extensions

1. Request by Subdivider.

The subdivider may request an extension of the expiration date of the approved or conditionally approved tentative map by written application to the Department. The application shall be filed not less than 30 days before the map is to expire and shall state the reasons for requesting the extension. The subdivider shall be solely responsible for filing the application.

2. Commission Action.

The Department shall review the request and submit the application for the extension, together with a report to the Commission for approval, conditional approval, or denial at the next regularly scheduled Commission meeting. A copy of the Department's report and recommendation shall be forwarded to the subdivider prior to the meeting on the extension. In approving, conditionally approving, or denying the request for extension, the Commission shall make findings supporting its decision. The subdivider shall pay any increase in unpaid applicable development fees which have occurred since the date of the approval or conditional approval of the tentative map.

3. Conditions of Approval.

In granting an extension, new conditions or exactions may be imposed and existing conditions may be revised.

4. Time Limit of Extensions.

The time at which the tentative map expires may be extended by the Commission for a period not exceeding a total of 3 years.

19.66.180 Minor Amendments

Minor amendments to the approved tentative map or conditions of approval may be granted by the Department upon application by the subdivider or on the Department's own initiative, provided:

1. No lots, units, or building sites are added;
2. Changes are consistent with the intent of the original tentative map approval; and
3. There are no resulting violations of the Map Act, or this Development Code.

The amendment shall be indicated on the approved or conditionally approved tentative map and certified by the Director. Amendments to the tentative map conditions of approval which, in the opinion of the Department, are not minor, shall be presented to the Commission for its approval. Processing shall comply with the provisions for processing a tentative map as contained in this Development Code. Any approved amendment shall not alter the expiration date of the tentative map.

19.66.190 Citation and Authority – Vesting Tentative Map

This Chapter is adopted pursuant to Map Act Section 66498.1.

19.66.200 Purpose – Vesting Tentative Map

The purpose of this Chapter is to establish procedures necessary for the processing, reviewing and approving a vesting tentative map application, and to supplement the provisions of the Map Act and this Development Code. Except as otherwise contained in this Chapter, the provisions of this Development Code shall apply to a vesting tentative map application.

19.66.210 Application – Vesting Tentative Map

1. Whenever a provision of the Map Act, as implemented and supplemented by this Development Code requires the filing of a tentative map or tentative parcel map, a vesting tentative map may be filed, pursuant to the provisions of this Chapter.
2. If a subdivider does not seek the rights conferred by a vesting tentative map, the filing of a vesting tentative map shall not be a prerequisite to an approval for any proposed subdivision, permit for construction, or work preparatory to construction.

19.66.220 Filing and Processing – Vesting Tentative Map

A prospective subdivider, or agent, may request a pre-application conference with the Department prior to formal submittal of a subdivision application, pursuant to Section 19.31.030. During the conference, the Department representative(s) shall inform the subdivider of applicable policies, plans, and requirements as they apply to the proposed subdivision, review the appropriate procedures outlined in this Development Code and examine possible alternatives or modifications relating to the proposed subdivision.

A vesting tentative map shall be filed in the same form and have the same contents, accompanying data and reports and shall be processed in the same manner as contained in Section 19.66.130 of this Development Code for a tentative map except as hereinafter provided:

1. At the time a vesting tentative map is filed, it shall have printed conspicuously on its face the words, "Vesting Tentative Map."
2. An application for a vesting tentative map shall not be accepted for filing until the subdivision has been determined by the Department to be consistent with the General Plan, applicable specific plans and this Development Code.
3. All required discretionary City approvals shall have been previously obtained or applications for same shall be filed concurrently with the vesting tentative map.
4. At the time a vesting tentative map is filed, a subdivider shall supply the following information satisfactory to the Director, in addition to those requirements specified in Section 19.66.110 and 19.66.120:
 - A. Completed application;
 - B. Fees;
 - C. Property owners list of addresses (within 500 feet radius of property boundaries) printed on two sets of gummed labels;
 - D. Environmental information form;
 - E. Site plans, including the following items of information:
 1. Project boundary and dimensions,
 2. Dimensions relating center line, property line and curb,
 3. Building dimensions,

[Return to Municipal Code Contents]

4. Setback dimensions,
 5. Building locations and size dimensions,
 6. Street, driveway widths,
 7. Bike paths, if required,
 8. Mechanical equipment, location and dimensions,
 9. Trash storage design, location and dimensions,
 10. Recreation area location and design,
 11. Wall and fence location and design;
- F. Floor plans, dimensions and scale;
- G. Elevations
1. Dimensions and scale,
 2. Color and materials,
 3. Roof pitch and type;
- H. Landscape plans
1. Tree sizes, locations and species,
 2. Shrub species, range of sizes, typical locations,
 3. Groundcover (if not lawn, on-center dimension should be noted),
 4. Curbing and planter areas,
 5. Sidewalks,
 6. Lighting;
- I. One colored print of site plan, elevations and landscape plan, for public presentation;

- J. Colored rendering;
- K. Vicinity map (3½ inches by 3½ inches);
- L. Phasing map, if applicable;
- M. Preliminary grading plan;
- N. Sample materials board;
- O. Model, if required by the Development Review Committee;
- P. Uses of proposed buildings; and
- Q. Soils report, geological and hydrology studies, as required by the City Engineer.

19.66.230 Expiration – Vesting Tentative Map

The approval or conditional approval of a vesting tentative map shall expire at the end of the same period, and shall be subject to the same extensions, established by this Development Code for the expiration of an approved tentative map.

19.66.240 Rights of a Vesting Tentative Map

1. The approval or conditional approval of a vesting tentative map shall confer a vested right to proceed with development in substantial compliance with the ordinances, policies, and standards described in Map Act Section 66474.2.
2. However, if Map Act Section 66474.2 is repealed, the approval or conditional approval of a vesting tentative map shall confer a vested right to proceed with development in substantial compliance with the ordinances, policies and standards in effect at the time the vesting tentative map is approved or conditionally approved.
3. Notwithstanding Section 19.66.240 (1) above, a permit approval, extension or entitlement may be made conditional or denied if any of the following findings are determined:
 - A. A failure to do so would place the residents of the subdivision or the immediate community, or both, in a condition dangerous to their health or safety, or both.
 - B. The condition or denial is required, in order to comply with state or federal law.

[Return to Municipal Code Contents]

4. The rights referred to herein shall expire if a final map is not approved prior to the expiration of the vesting tentative map as provided in Section 19.66.230. If the final map is approved, these rights shall last for the following periods of time:
 - A. An initial time period of 1 year beyond the recording of the final map or parcel map. Where several final maps are recorded on various phases of a project covered by a single vesting tentative map, this initial time period shall begin for each phase when the final map for that phase is recorded. All final maps or parcel maps must be recorded within the time period contained in Section 19.66.160 or the vesting tentative map approval shall expire for those parcels for which final maps or parcel maps are not timely recorded.
 - B. The initial time period contained in Section 19.66.160 (1) shall be automatically extended by any time used for processing a complete application for a grading permit or for design or architectural review, if the processing exceeds 30 days, from the date a complete application is filed.
 - C. A subdivider may apply for a 1 year extension at any time before the initial time period outlined in Section 19.66.160 (1) expires.
 - D. If the subdivider submits a complete application for a building permit during the periods of time outlined in Sections 19.66.240 (4)(A) through 19.66.240 (4)(C), the rights referred to herein shall continue until either expiration or extension of that permit.
 - E. Consistent with Section 19.66.240, an approved or conditionally approved vesting tentative map shall not limit the City from imposing reasonable conditions on subsequent required approvals or permits necessary for the development.

19.66.250 Amendments – Vesting Tentative Map

Amendments to the approved or conditionally approved vesting tentative map shall be made pursuant to Section 19.66.180.

CHAPTER 19.68 SURFACE MINING AND LAND RECLAMATION

Sections:

19.68.010	Purpose and Intent
19.68.020	Mineral Resource Protection
19.68.030	Definitions
19.68.040	Incorporation by Reference
19.68.050	Scope
19.68.060	Vested Rights
19.68.070	Standards for Reclamation
19.68.080	Statement of Responsibility
19.68.090	Process
19.68.100	Review by Planning Commission
19.68.110	Findings for Approval
19.68.120	Financial Assurances
19.68.130	Interim Management Plans
19.68.140	Annual Report Requirements
19.68.150	Inspections
19.68.160	Violations and Penalties
19.68.170	Appeals
19.68.180	Fees
19.68.190	Severability

19.68.010 Purpose and Intent

1. The City recognizes that the extraction of minerals is essential to the continued economic well-being of the City and to the needs of society and that the reclamation of mined lands is necessary to prevent or minimize adverse effects on the environment and to protect the public health and safety. The City also recognizes that surface mining takes place in diverse areas where the geologic, topographic, climatic, biological, and social conditions are significantly different and that reclamation operations and the specifications therefore may vary accordingly.
2. The purpose and intent of this Chapter is to ensure the continued availability of important mineral resources, while regulating surface mining operations as required by California's Surface Mining and Reclamation Act of 1975 (Public Resources Code Sections 2710 et seq.), as amended, hereinafter referred to as "SMARA," Public Resources Code (PRC) Section 2207 (relating to annual reporting requirements),

and State Mining and Geology Board regulations (hereinafter referred to as “State regulations”) for surface mining and reclamation practice (California Code of Regulations [CCR], Title 14, Division 2, Chapter 8, Subchapter 1, Sections 3500 et seq.), to ensure that:

- A. Adverse environmental effects are prevented or minimized and that mined lands are reclaimed to a usable condition which is readily adaptable for alternative land uses.
 - B. The production and conservation of minerals are encouraged, while giving consideration to values relating to recreation, watershed, wildlife, range and forage, and aesthetic enjoyment.
 - C. Residual hazards to the public health and safety are eliminated.
3. In the event that the State amends SMARA to the extent that it adds to or conflicts with this Chapter, State law shall prevail.

19.68.020 Mineral Resource Protection

1. Mine development is encouraged in compatible areas before encroachment of conflicting uses. Mineral resource areas that have been classified by the State Department of Conservation’s Division of Mines and Geology or designated by the State Mining and Geology Board, as well as existing surface mining operations that remain in compliance with the provisions of this Chapter, shall be protected from intrusion by incompatible land uses that may impede or preclude mineral extraction or processing, to the extent possible for consistency with the City’s General Plan.
2. In accordance with PRC §2762, the City’s General Plan and resource maps will be updated to reflect mineral information (classification and/or designation reports) within 12 months of receipt from the State Mining and Geology Board of such information. Land use decisions within the City will be guided by information provided on the location of identified mineral resources of regional significance. Conservation and potential development of identified mineral resource areas will be considered and encouraged. Recordation on property titles of the presence of important mineral resources within the identified mineral resource areas may be encouraged as a condition of approval of any development project in the impacted area. Prior to approving a use that would otherwise be incompatible with mineral resource protection, conditions of approval may be applied to encroaching development projects to minimize potential conflicts.

19.68.030 Definitions

The definitions set forth in this section shall govern the construction of this chapter.

Area of Regional Significance. An area designated by the State Mining and Geology Board which is known to contain a deposit of minerals, the extraction of which is judged to be of prime importance in meeting future needs for minerals in a particular region of the State within which the minerals are located and which, if prematurely developed for alternate incompatible land uses, could result in the premature loss of minerals that are of more than local significance.

Area of Statewide Significance. An area designated by the Board which is known to contain a deposit of minerals, the extraction of which is judged to be of prime importance in meeting future needs for minerals in the State and which, if prematurely developed for alternate incompatible land uses, could result in the permanent loss of minerals that are of more than local or regional significance.

Borrow Pits. Excavations created by the surface mining of rock, unconsolidated geologic deposits or soil to provide material (borrow) for fill elsewhere.

Compatible Land Uses. Land uses inherently compatible with mining and/or that require a minimum public or private investment in structures, land improvements, and which may allow mining because of the relative economic value of the land and its improvements. Examples of such uses may include, but shall not be limited to, very low density residential, geographically extensive but low impact industrial, recreational, agricultural, and open space.

Haul Road. A road along which material is transported from the area of excavation to the processing plant or stock pile area of the surface mining operation.

Idle. Surface mining operations curtailed for a period of one year or more, by more than 90 percent of the operation's previous maximum annual mineral production, with the intent to resume those surface mining operations at a future date.

Incompatible Land Uses. Land uses inherently incompatible with mining and/or that require public or private investment in structures, land improvements, and landscaping and that may prevent mining because of the greater economic value of the land and its improvements. Examples of such uses may include, but shall not be limited to, high density residential, low density residential with high unit value, public facilities, geographically limited but impact intensive industrial, and commercial.

Mined Lands. The surface, subsurface, and ground water of an area in which surface mining operations will be, are being, or have been conducted, including private ways and roads appurtenant to any such area, land excavations, workings, mining waste, and areas in which structures, facilities, equipment, machines, tools, or other materials or property which result from, or are used in, surface mining operations are located.

Minerals. Any naturally occurring chemical element or compound, or groups of elements and compounds, formed from inorganic processes and organic substances, including, but not limited to, coal, peat, and bituminous rock, but excluding geothermal resources, natural gas, and petroleum.

Operator. Any person who is engaged in surface mining operations, or who contracts with others to conduct operations on his/her behalf, except a person who is engaged in surface mining operations as an employee with wages as his/her sole compensation.

Reclamation. The combined process of land treatment that minimizes water degradation, air pollution, damage to aquatic or wildlife habitat, flooding, erosion, and other adverse effects from surface mining operations, including adverse surface effects incidental to underground mines, so that mined lands are reclaimed to a usable condition which is readily adaptable for alternate land uses and create no danger to public health or safety. The process may extend to affected lands surrounding mined lands, and may require backfilling, grading, resoiling, revegetation, soil compaction, stabilization, or other measures.

Stream Bed Skimming. Excavation of sand and gravel from stream bed deposits above the mean summer water level or stream bottom, whichever is higher.

Surface Mining Operations. All, or any part of, the process involved in the mining of minerals on mined lands by removing overburden and mining directly from the mineral deposits, open-pit mining of minerals naturally exposed, mining by the auger method, dredging and quarrying, or surface work incident to an underground mine. Surface mining operations include, but are not limited to, in-place distillation or retorting or leaching, the production and disposal of mining waste, prospecting and exploratory activities, borrow pitting, streambed skimming, and segregation and stockpiling of mined materials (and recovery of same).

19.68.040 Incorporation by Reference

The provisions of SMARA (PRC §2710 et seq.), PRC Section 2207, and State regulations CCR §3500 et seq., as those provisions and regulations may be amended from time to time, are made a part of this Chapter by reference with the same force and effect as if the provisions therein were specifically and fully set out herein, excepting that when the provisions of this Chapter are more restrictive than correlative State provisions, this Chapter shall prevail.

19.68.050 Scope

1. Except as provided in this Chapter, no person shall conduct surface mining operations unless a permit, Reclamation Plan, and financial assurances for reclamation have first been approved by the City. Any applicable exemption from this requirement does not automatically exempt a project or activity from the application of other regulations, ordinances or policies of the City, including but not limited to, the application of the California Environmental Quality Act (CEQA), the requirement of the Conditional Use Permit or other permits, the payment of development impact fees, or the imposition of other dedications and exactions as may be permitted under the law. The provisions of this Chapter shall apply to all lands within the City, public and private.
2. This Chapter shall not apply to the following activities:
 - A. Excavations or grading conducted for farming or on-site construction or for the purpose of restoring land following a flood or natural disaster.
 - B. Onsite excavation and onsite earthmoving activities which are an integral and necessary part of a construction project that are undertaken to prepare a site for construction of structures, landscaping, or other land improvements, including the related excavation, grading, compaction, or the creation of fills, road cuts, and embankments, whether or not surplus materials are exported from the site, subject to all of the following conditions:
 - (1) All required permits for the construction, landscaping, or related land improvements have been approved by a public agency in accordance with applicable provisions of state law and locally adopted plans and ordinances, including, but not limited to, the California Environmental Quality Act (“CEQA,” Public Resources Code, Division 13, §21000 et seq.).
 - (2) The City’s approval of the construction project included consideration of the onsite excavation and onsite earthmoving activities pursuant to CEQA.

[Return to Municipal Code Contents]

- (3) The approved construction project is consistent with the general plan or zoning of the site.
 - (4) Surplus materials shall not be exported from the site unless and until actual construction work has commenced and shall cease if it is determined that construction activities have terminated, have been indefinitely suspended, or are no longer being actively pursued.
- C. Operation of a plant site used for mineral processing, including associated onsite structures, equipment, machines, tools, or other materials, including the onsite stockpiling and onsite recovery of mined materials, subject to all of the following conditions:
- (1) The plant site is located on lands with an appropriate Land Use Designation commensurate with the activity, according to the City's General Plan and Development Code.
 - (2) None of the minerals being processed are being extracted onsite.
 - (3) All reclamation work has been, or is being completed pursuant to the approved Reclamation Plan for any mineral extraction activities that occur onsite after January 1, 1976.
- D. Prospecting for, or the extraction of, minerals for commercial purposes and the removal of overburden in total amounts of less than 1,000 cubic yards in any one location of one acre or less.
- E. Surface mining operations that are required by federal law in order to protect a mining claim, if those operations are conducted solely for that purpose. (Otherwise known as "assessment work.")
- F. Any other surface mining operations that the State Mining and Geology Board determines to be of an infrequent nature and which involve only minor surface disturbances.
- G. Emergency excavations or grading conducted by the Department of Water Resources or the Reclamation Board for the purpose of averting, alleviating, repairing, or restoring damage to property due to imminent or recent floods, disasters, or other emergencies.

- H. Road construction and maintenance for timber or forest operations if the land is owned by the same person or entity, and if the excavation is conducted adjacent to timber or forest operation roads. This exemption is only available if slope stability and erosion are controlled in accordance with Board regulations and, upon closure of the site, the person closing the site implements, where necessary, re-vegetation measures and post-closure uses in consultation with the Department of Forestry and Fire Protection. This exemption does not apply to onsite excavation or grading that occurs within 100 feet of a Class One watercourse or 75 feet of a Class Two watercourse, or to excavations for materials that are, or have been, sold for commercial purposes.

19.68.060 Vested Rights

1. No person who obtained a vested right to conduct surface mining operations prior to January 1, 1976, shall be required to secure a permit to mine, so long as the vested right continues and as long as no substantial changes have been made in the operation except in accordance with SMARA, State regulations, and this Chapter. Where a person with vested rights has continued surface mining in the same area subsequent to January 1, 1976, he shall obtain City approval of a Reclamation Plan covering the mined lands disturbed by such subsequent surface mining. In those cases where an overlap exists (in the horizontal and/or vertical sense) between pre- and post-Act mining, the Reclamation Plan shall call for reclamation proportional to that disturbance caused by the mining after the effective date of the Act (January 1, 1976).
2. All other requirements of State law and this Chapter shall apply to vested mining operations.

19.68.070 Standards for Reclamation

1. All Reclamation Plans shall comply with the provisions of SMARA (§2772 and §2773) and State regulations (CCR §3500-3505). Reclamation Plans approved after January 15, 1993, Reclamation Plans for proposed new mining operations, and any substantial amendments to previously approved Reclamation Plans, shall also comply with the requirements for reclamation performance standards (CCR §3700-3713).
2. The City may impose additional performance standards as developed either in review of individual projects, as warranted, or through the formulation and adoption of Citywide performance standards.

3. Reclamation activities shall be initiated at the earliest possible time on those portions of the mined lands that will not be subject to further disturbance. Interim reclamation may also be required for mined lands that have been disturbed and that may be disturbed again in future operations. Reclamation may be done on an annual basis, in stages compatible with continuing operations, or on completion of all excavation, removal, or fill, as approved by the City. Each phase of reclamation shall be specifically described in the Reclamation Plan and shall include (a) the beginning and expected ending dates for each phase; (b) all reclamation activities required; (c) criteria for measuring completion of specific reclamation activities; and (d) estimated costs for completion of each phase of reclamation.

19.68.080 Statement of Responsibility

The property owner or mining operator shall sign a statement accepting responsibility for reclaiming the mined lands in accordance with the Reclamation Plan. Said statement shall be retained by the Planning Division in the mining operation's permanent record. Upon sale or transfer of the land or operations, the new property owner or operator shall submit a signed statement of responsibility to the Planning Division for placement in the permanent record, prior to beginning mining operations.

19.68.090 Process

1. Applications for a Conditional Use Permit for surface mining and land reclamation projects shall be made on forms provided by the Planning Division. Said application shall be filed in accord with this Chapter and procedures to be established by the Community Development Director. The forms for Reclamation Plan applications shall require, at a minimum, each of the elements required by SMARA (§2772-2773) and other State regulations, and any other requirements deemed necessary to facilitate an expeditious and fair evaluation of the proposed Reclamation Plan, to be established at the discretion of the Community Development Director. As many copies of the Conditional Use Permit application as may be required by the Community Development Director shall be submitted to the Planning Division of the Community Development Department.
2. As many copies of a Reclamation Plan application as may be required shall be submitted in conjunction with all applications for Conditional Use Permits for surface mining operations.
3. Applications shall include all required environmental review forms and information prescribed by the Community Development Director.

4. Within thirty (30) days of acceptance of an application for a Conditional Use Permit for surface mining operations and/or a Reclamation Plan as complete, the Planning Division shall notify the State Department of Conservation of the filing of the application(s). Pursuant to PRC §2774(d), the State Department of Conservation shall be given 30 days to review and comment on the Reclamation Plan and 45 days to review and comment on the financial assurance.

Whenever mining operations are proposed in the 100-year flood plain of any stream, as shown in Zone A of the Flood Insurance Rate Maps issued by the Federal Emergency Management Agency, and within one mile, upstream or downstream, of any state highway bridge, the Planning Division shall also notify the State Department of Transportation that the application has been received.

5. The Planning Division shall process the application(s) through environmental review pursuant to the California Environmental Quality Act (Public Resources Code Sections 21000 et seq.) and the City's environmental review guidelines.
6. Prior to final approval of a Reclamation Plan, financial assurances (as provided in this Chapter), or any amendments to the Reclamation Plan or existing financial assurances, the Community Development Director shall certify to the State Department of Conservation that the Reclamation Plan and/or financial assurance complies with the applicable requirements of State law, and submit the plan, assurance, or amendments to the State Department of Conservation for review. If a Conditional use Permit is being processed concurrently with the Reclamation Plan and it becomes necessary to comply with permit processing deadlines, the Planning Commission may conditionally approve the Conditional Use Permit with the condition that the Planning Division shall not issue the Conditional Use Permit for the mining operations until cost estimates for financial assurances have been reviewed by the State Department of Conservation and final action has been taken on the Reclamation Plan and financial assurances.

19.68.100 Review by Planning Commission

1. Upon completion of the required environmental studies and the filing of all documents required by this Development Code, a public hearing will be scheduled for Planning Commission consideration regarding the Reclamation Plan and the companion Conditional Use Permit for the proposed or existing surface mining operation pursuant to Chapter 19.52 (Hearings and Appeals).

2. The Planning Commission shall evaluate written comments received, if any, from the State Department of Conservation during the comment periods. Staff shall prepare a written response describing the disposition of the major issues raised by the State for the Planning Commission's approval. In particular, when the Planning Commission's position is at variance with the recommendations and objections raised in the State's comments, the written response shall address, in detail, why specific comments and suggestions were not accepted. The Planning Commission staff report including the staff prepared responses to the State Department of Conservation, along with the minutes of the public hearing shall constitute the written response to the state.
3. The Planning Commission shall then take action to approve, conditionally approve, or deny the Conditional Use Permit and/or Reclamation Plan, and to approve the financial assurances pursuant to PRC §2770(d).
4. The Planning Division shall forward a copy of each approved Conditional Use Permit for mining operations and/or approved Reclamation Plans, and a copy of the approved financial assurances to the State Department of Conservation within 30 days of approval.

19.68.110 Findings for Approval

1. Conditional Use Permits. In addition to the findings required by the City's Development Code, Chapter 19.36.050, Findings for Conditional Use Permits for surface mining operations shall include a finding that the project complies with the provisions of SMARA and State regulations.
2. Reclamation Plans. The Planning Commission may only approve Reclamation Plans, if all of the following findings are made in the affirmative:
 - A. That the Reclamation Plan complies with SMARA Sections 2772 and 2773, and any other applicable provisions;
 - B. That the Reclamation Plan complies with applicable requirements of State regulations (CCR §3500-3505 and §3700-3713).
 - C. That the Reclamation Plan and potential use of reclaimed land pursuant to the plan are consistent with this Chapter and the City's General Plan and any applicable resource plan or element.
 - D. That the Reclamation Plan has been reviewed pursuant to CEQA and the City's environmental review guidelines, and all significant adverse impacts from reclamation of the surface mining operations are mitigated to the maximum extent feasible.

[Return to Municipal Code Contents]

- E. That the land and/or resources such as water to be reclaimed will be reclaimed to a condition that is compatible with, and blends in with, the surrounding natural environment, topography, and other resources, or that suitable off-site development will compensate for related disturbance to resource values.
- F. That the Reclamation Plan will restore the mined lands to a usable condition which is readily adaptable for alternative land uses consistent with the General Plan and applicable resource plan.
- G. That a written response to the State Department of Conservation has been prepared, describing the disposition of major issues raised by that Department. Where the City's position is at variance with the recommendations and objections raised by the State Department of Conservation, said response shall address, in detail, why specific comments and suggestions were not accepted.

19.68.120 Financial Assurances

1. To ensure that reclamation will proceed in accordance with the approved Reclamation Plan, the City shall require as a condition of approval security which will be released upon satisfactory performance. The applicant may pose security in the form of a surety bond, trust fund, irrevocable letter of credit from an accredited financial institution, or other method acceptable to the City and the State Mining and Geology Board as specified in State regulations, and which the City reasonably determines are adequate to perform reclamation in accordance with the surface mining operation's approved Reclamation Plan. Financial assurances shall be made payable to the City of San Bernardino and the State Department of Conservation.
2. Financial assurances will be required to ensure compliance with elements of the Reclamation Plan, including but not limited to, revegetation and landscaping requirements, restoration of aquatic or wildlife habitat, restoration of water bodies and water quality, slope stability and erosion and drainage control, disposal of hazardous materials, removal of equipment and buildings which are not part of the approved end use, and other measures, if necessary.
3. Cost estimates for the financial assurance shall be submitted to the Planning Division for review and approval prior to the operator securing financial assurances. The Planning Division shall forward a copy of the cost estimates, together with any documentation received supporting the amount of the cost estimates, to the State Department of Conservation for review. If the State Department of Conservation does not comment within 45 days of receipt of these estimates,

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

it shall be assumed that the cost estimates are adequate, unless the City has reason to determine that additional costs may be incurred. The Planning Director shall have the discretion to approve the financial assurance if it meets the requirements of this Chapter, SMARA, and State regulations.

4. The amount of the financial assurance shall be based upon the estimated costs of reclamation for the years or phases stipulated in the approved Reclamation Plan, including any maintenance of reclaimed areas as may be required, subject to adjustment for the actual amount required to reclaim lands disturbed by surface mining activities since January 1, 1976, and new lands to be disturbed by surface mining activities in the upcoming year. Cost estimates should be prepared by the mine operator, a licensed engineer or other professional experienced in the reclamation of mined lands, approved by the Director of Community Development. The estimated amount of the financial assurance shall be based on an analysis of physical activities necessary to implement the approved Reclamation Plan, the unit costs for each of these activities, the number of units of each of these activities, and the actual administrative costs. Financial assurances to ensure compliance with revegetation, restoration of water bodies, restoration of aquatic or wildlife habitat, and any other applicable element of the approved Reclamation Plan shall be based upon cost estimates that include but may not be limited to labor, equipment, materials, mobilization of equipment, administration, and reasonable profit by a commercial operator other than the permitter. A contingency factor of ten percent (10%) shall be added to the cost of financial assurances to cover the Lead Agency's reasonable expenses for the administrative and legal fees required to foreclose on the financial assurance instrument.
5. In projecting the costs of financial assurances, it shall be assumed without prejudice or insinuation that the surface mining operation could be abandoned by the operator and, consequently, the City or State Department of Conservation may need to contract with a third party commercial company for reclamation of the site.
6. The financial assurances shall remain in effect for the duration of the surface mining operation and any additional period until reclamation is completed (including any maintenance required).
7. The amount of financial assurances required of a surface mining operation for any one year shall be adjusted annually to account for new lands disturbed by surface mining operations, inflation, and giving credit for reclamation of lands accomplished in accordance with the approved Reclamation Plan. The financial assurances shall include estimates to cover reclamation for existing conditions and anticipated activities during the upcoming year, excepting that the permittee may not claim credit for reclamation scheduled for completion during the coming year. The annual SMARA inspection by the Lead Agency shall, in most cases, be used to validate the submitted estimate.

[\[Return to Municipal Code Contents\]](#)

8. Revisions to financial assurances shall be submitted to the Planning Division each year prior to the anniversary date for approval of the financial assurances. The financial assurance shall cover the cost of existing disturbance and anticipated activities for the next calendar year, including any required interim reclamation. If revisions to the financial assurances are not required, the operator shall explain, in writing, why revisions are not required.

19.68.130 Interim Management Plans

1. Within 90 days of a surface mining operation becoming idle, the operator shall submit to the Planning Division a proposed Interim Management Plan (IMP). The proposed IMP shall fully comply with the requirements of SMARA, including but not limited to all Conditions of Approval conditions, and shall provide measures the operator will implement to maintain the site in a stable condition, taking into consideration public health and safety. The proposed IMP shall be submitted on forms provided by the Planning Division, and shall be processed as an amendment to the Reclamation Plan. IMP's shall not be considered a project for the purposes of environmental review.
2. Financial assurances for idle operations shall be maintained as though the operation were active, or as otherwise approved through the idle mine's IMP.
3. Upon receipt of a complete proposed IMP, the Planning Division shall forward the IMP to the State Department of Conservation for review. The IMP shall be submitted to the State Department of Conservation at least 30 days prior to approval by the Director of Community Development.
4. Within 60 days of receipt of the proposed IMP, or a longer period mutually agreed upon by the Community Development Director and the operator, the Director shall review and approve or deny the IMP in accordance with this Chapter. The operator shall have thirty (30) days, or a longer period mutually agreed upon by the operator and the Director of Community Development, to submit a revised IMP. The Community Development Director shall approve or deny the revised IMP within sixty (60) days of receipt. If the Director of Community Development denies the revised IMP, the operator may appeal that action to the Planning Commission.
5. The IMP may remain in effect for a period not to exceed five years, at which time the Director of Community Development may renew the IMP for another period not to exceed five years, or require the surface mining operator to commence reclamation in accordance with its approved Reclamation Plan.

19.68.140 Annual Report Requirements

Surface mining operators shall forward an annual surface mining report to the State Department of Conservation and to the City Planning Division on a date established by the State Department of Conservation, upon forms furnished by the State Mining and Geology Board. New mining operations shall file an initial surface mining report and any applicable filing fees with the State Department of Conservation within 30 days of permit approval, or before commencement of operations, whichever is sooner. Any applicable fees, together with a copy of the annual inspection report, shall be forwarded to the State Department of Conservation at the time of filing the annual surface mining report.

19.68.150 Inspections

1. The Planning Division shall arrange for inspection of a surface mining operation within six months of receipt of the Annual Report required in Section 19.68.120, to determine whether the surface mining operation is in compliance with the approved Conditional Use Permit and/or Reclamation Plan, approved financial assurances, and State regulations. In no event shall less than one inspection be conducted in any calendar year. Said inspections may be made by a licensed engineer or other professional experienced in the reclamation of mined lands, or other qualified specialists, as selected by the Director of the Community Development Department. All inspections shall be conducted using a form approved and provided by the State Mining and Geology Board.
2. The Planning Division shall notify the State Department of Conservation within thirty (30) days of completion of the inspection that said inspection has been conducted, and shall forward a copy of said inspection notice and any supporting documentation to the mining operator. The operator shall be solely responsible for the reasonable cost of such inspection.

19.68.160 Violations and Penalties

If the Planning Director, based upon an annual inspection or otherwise confirmed by an inspection of the mining operation, determines that a surface mining operation is not in compliance with this Chapter, the applicable Conditional Use Permit, any required permit and/or the Reclamation Plan, the City shall follow the procedures set forth in Public Resources Code, Sections 2774.1 and 2774.2 concerning violations and penalties, as well as those provisions of the City Development Code for revocation of a Conditional Use Permit which are not preempted by SMARA.

19.68.170 Appeals

Any person aggrieved by an act or determination of the Planning Division in the exercise of the authority granted herein, shall have the right to appeal to the Planning Commission or the City Council, whichever is the next higher authority. An appeal shall be filed on forms provided, within fifteen (15) calendar days after the rendition, in writing, of the appealed decision.

19.68.180 Fees

The City shall establish such fees as it deems necessary to cover the reasonable costs incurred in implementing this Chapter and the State regulations, including but not limited to, processing of applications, annual reports, inspections, monitoring, enforcement and compliance. Such fees shall be paid by the operator, as required by the City, at the time of filing of the Conditional Use Permit application, Reclamation Plan application, and at such other times as are determined by the City to be appropriate in order to ensure that all reasonable costs of implementing this Chapter are borne by the mining operator.

19.68.190 Severability

If any section, subsection, sentence, clause or phrase of this Chapter is for any reason held to be invalid or unconstitutional by the decision of a court of competent jurisdiction, it shall not affect the remaining portions of this Chapter.

CHAPTER 19.70 TEMPORARY USE PERMITS

Ord. MC-1385, 1-16-13

Sections:

- 19.70.010 Purpose**
- 19.70.020 Permitted Uses – Temporary Use Permits**
- 19.70.025 Permitted Uses – Special Event Permits**
- 19.70.030 Exemptions**
- 19.70.031 Prohibited Uses**
- 19.70.035 Development and Operational Standards for Temporary Use Permits**
- 19.70.036 Development and Operational Standards for Special Event Permits**
- 19.70.040 Application and Permit Issuance**
- 19.70.050 Findings**
- 19.70.060 Conditions of Approval**
- 19.70.070 Condition of Site Following Temporary Use**
- 19.70.080 Revocation**

19.70.010 Purpose

The Temporary Use and Special Event Permits allows for short-term activities which may be appropriate when regulated.

19.70.020 Permitted Uses – Temporary Use Permits

The following temporary uses may be permitted, subject to the issuance of a Temporary Use Permit:

1. Real estate offices and model homes within approved development projects;
2. On- and off-site contractors' construction yards in conjunction with an approved development project;
3. Trailer, coach or mobile home as a temporary residence of the property owner when a valid residential building permit is in force;
4. (repealed by Ord. MC-1414, 7-06-15)
5. Fireworks stands;

[\[Return to Municipal Code Contents\]](#)

6. Emergency public health and safety needs;
7. Temporary vehicle sales and car shows held at San Manuel Park;
8. (repealed by Ord. MC-1414, 7-06-15)
9. (repealed by Ord. MC-1414, 7-06-15)
10. Food carts, operated at fixed, pre-approved locations in the Main Street Overlay zone;
11. Food trucks on private property (limit of three trucks);
12. Group assemblies not subject to Section 19.70.025; and
13. Similar temporary uses which, in the opinion of the Director are compatible with the zone and surrounding land uses, pursuant to Section 19.02.070 (3) (Similar Uses Permitted).
14. Beer, wine, alcohol on public property (ABC Permits).

(Ord. MC-1414, 7-06-15; Ord. MC-1393, 12-02-13)

19.70.025 Permitted Uses – Special Event Permits

The following temporary uses may be permitted, subject to the issuance of a Special Event Permit:

1. Group assemblies with more than 100 attendees and/or for a duration longer than three days (excluding set-up and break-down);
2. Circuses, rodeos and carnivals, film-making activities, parades, marches, street closures, rights-of-way;
3. Fairs, festivals and concerts, when not held within premises designed to accommodate such events, such as auditoriums, stadiums, or other public assembly facilities;
4. Pumpkin and Christmas tree sale lots;
5. Fund-raising car washes;
6. Produce stands in community gardens;

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

7. Food truck events (more than three trucks).
8. Certified Farmers Markets.
9. Beer, wine or alcohol on public or private property where no regular alcohol service is approved (ABC Permits).
10. Cannabis Special Events (items 1 - 9 shall not be applicable)

(Ord. MC-1519, 7-17-19; Ord. MC-1414, 7-06-15)

19.70.030 Exemptions

The following uses are exempt from the provisions of this chapter:

1. Garage and yard sales, provided the sales do not occur more than 12 times per year, for no more than three days per event, and only on the third weekend of the month, in compliance with Municipal Code Section 8.14.070.

(Ord. MC-1414, 7-06-15; Ord. MC-1393, 12-02-13; Ord. MC-1385, 1-16-13)

2. Temporary outdoor displays and sales, pursuant to Chapter 5.22 of the Municipal Code.
3. City-sponsored uses and activities, or activities occurring on City-owned property, occurring at regular intervals (weekly, monthly, yearly, etc.). Other City permits (building permits, encroachment permits, etc.) may be required.

In addition to the foregoing, the following uses shall be exempt from any permit fees required to be paid for a permit under this Chapter:

- A. A student of a U.S. educational institution seeking a special event permit for film-making activities upon presentation of a signed letter on school letterhead from a school administrator or instructor stating that the applicant is currently enrolled in the institution and that the filming activities are for educational purposes and not intended for commercial release.

Ord. MC-1575, 5-04-22; Ord. MC-1385, 1-16-13

19.70.031 Prohibited Uses

1. Any use not allowed in the underlying land use district.

(Ord. MC-1414, 7-06-15)

[Return to Municipal Code Contents]

2. Any food preparation activity, except for approved food carts, food trucks, or in conjunction as an accessory to an approved larger-scale temporary use or special event (i.e., food preparation as part of a carnival or company employee appreciation event).
3. Outdoor sale of goods not accessory to a primary retail use on the property or accessory to an event sponsored by an educational, fraternal, religious, or service organizations directly engaged in civic or charitable efforts, or to tax exempt organizations in compliance with 501(c) of the Federal Revenue and Taxation Code (i.e., flower stands at a service station).
4. Car washes not sponsored by an educational, fraternal, religious, or service organizations directly engaged in civic or charitable efforts, or to tax exempt organizations in compliance with 501(c) of the Federal Revenue and Taxation Code or by a bereaved family, and/or not located on the property controlled by the sponsoring entity, or on sites approved and developed as a commercial car wash.
5. Animal rides/petting zoos not in conjunction as an accessory to an approved larger-scale temporary use of special event (i.e., with a Christmas tree sales event or carnival).
6. Any other temporary use determined to be a nuisance or which does not comply with the requirements of this Development Code (i.e., located in a required parking space).

19.70.035 Development and Operational Standards for Temporary Use Permits

A. Real Estate Office and Model Homes

1. **Accessory facility only.** On-site temporary real estate offices or temporary model home complexes, may be established only within the boundaries of a residential subdivision for the limited purpose of conducting sales of parcels within the same subdivision. Off-site sales of parcels from any temporary office shall require a Conditional Use Permit.
2. **Allowed locations.** In all residential land use districts and all mixed-use developments with a residential component.

(Ord. MC-1414, 7-06-15)

3. **Requirements.** A temporary real estate sales office of model home complex established or maintained in compliance with this Subsection shall meet all of the following requirements:

[\[Return to Municipal Code Contents\]](#)

- a. An agreement and a cash deposit or surety bond in an amount sufficient to guarantee to the City the removal of the sales office or model home complex, or the restoration of the premises in conformity with the approved Development Permit and with the applicable provisions of this Development Code within 60 days after the last residence or parcel within the subdivision has been sold and escrow closed shall be required.
 - b. Off-street parking shall be provided at the same ratio as required for offices in compliance with Chapter 19.24 (Off-Street Parking Standards).
- 4. **Duration.** The temporary real estate sales office and temporary model home complex may be maintained until all of the on-site parcels in the subdivisions have been sold and the escrow closed.
- B. **On- and Off-Site Contractors' Construction Yards** - Shall be operated only in conjunction with an approved building permit. The construction yard shall be removed immediately upon completion of the construction project.
- C. **Temporary Residence** – Shall be limited to the property owner and only when a valid residential building permit is in force.
- D. **Pumpkin and Christmas Tree Sale Lots**
 - 1. **Exemptions.** A permit shall not be required when such sales are in conjunction with an established commercial business holding a valid business registration certificate.
 - 2. **Duration.** Pumpkin/Christmas tree sales shall only be held from October 1 through December 31.
 - 3. **Vacant Lots.** Applicants for Pumpkin/Christmas tree sales proposed on vacant lots shall provide adequate on-site parking spaces and access. A site plan shall be submitted to the Planning Division for review and approval and a \$1,000 cash deposit shall be provided to ensure clean-up of the site.
- E. **Fireworks Stands** – Allowed with a Temporary Use Permit when in compliance with Chapter 8.60 of the Municipal Code.
- F. **Temporary Vehicle Sales and Car Shows** may be held in the San Manuel Park, subject to an approved Temporary Use Permit. These activities are limited to twice per calendar year for a maximum of seven days per event type.

[Return to Municipal Code Contents]

G. Fund-Raising Car Washes

1. Sponsorship shall be limited to educational, fraternal, religious, or service organizations directly engaged in civic or charitable efforts, or to tax exempt organizations in compliance with 501(c) of the Federal Revenue and Taxation Code, or to bereaved families.
2. Fund-raising car washes shall occur no more than 12 days per calendar year per property.
3. Fund-raising car washes shall occur on the property controlled by the sponsoring entity, or on sites approved and developed as a commercial car wash.
4. Fund-Raising car washes shall be conducted in compliance with applicable stormwater regulations to minimize potential water quality impacts.

H. Food Carts – Shall be operated only at fixed, pre-approved locations in the Main Street Overlay zone, at least 500 feet away from any restaurant and under current permits from the County Environmental Health Services Division.

I. Food Trucks – Shall be limited to no more than three trucks at any one time, on the same property occupied by the business/establishment hosting the temporary event, for no more than three days per event, with no event occurring more than twice per year per location and under current permits from the County Environmental Health Services Division. For the purposes of this Subsection, a shopping/business center shall count as a single host business/establishment. All other food truck events shall comply with Section 19.70.036 (Development and Operational Standards for Special Event Permits).

J. Group Assembly – A Temporary Use Permit shall be required for a group assembly not to exceed 100 persons nor continue for a duration exceeding three days (excluding set-up and break-down). A Special Event Permit shall be required for all group assemblies exceeding these parameters, and for all circuses, rodeos, carnivals, fairs, festivals and concerts when not held within premises designed to accommodate such events, such as auditoriums, stadiums or other public assembly facilities. No permit is required for group assemblies that occur completely indoors and within premises designed to accommodate such events.

19.70.036 Development and Operational Standards for Special Event Permits

A. Group assemblies over 100 attendees or for a duration longer than three days (excluding set-up and break-down), and for circuses, rodeos, carnivals, fairs, festivals, concerts and similar uses, a Special Event Permit shall be required unless the event occurs in a facility designed to accommodate such events. Events

[\[Return to Municipal Code Contents\]](#)

subject to a Special Event Permit shall occur no more than a maximum of 15 days per 180-day period per location.

B. Food Truck Events – In addition to complying with all applicable San Bernardino food truck event requirements, a Special Event Permit shall be required for all proposed food truck events that do not meet the criteria stated in Section 19.70.035.I.

1. **Location.** Food truck events may occur on any property improved with a non-residential land use up to two times per year per location for a maximum of three days per event. A Special Event Permit does not allow a food truck operator to roam the City streets. Food trucks operated in associated with an approved Special Event Permit must operate from the approved location per the permit only.

2. **Vacant lots.** Food truck events shall not occur on vacant lots or on unpaved surfaces.

C. Certified Farmers Markets are allowed in the CG-1, CG-2, CG-3, CR-1, CR-2, CR-3, CCS-1, CCS-2, CCS-3 and CH zones subject to the following criteria:

Ord. MC-1393, 12-02-13

1. Such use shall be limited to not more than 120 days in a calendar year.

2. Adequate provisions for traffic circulation, off-street parking, and pedestrian safety shall be provided to the satisfaction of the Community Development Director.

3. Seventy-five percent (75%) of the total farmers market sales area must be for the sale of farm products such as fruits, vegetables, nuts, herbs, eggs, honey, livestock food products (meat, milk, cheese, etc.), or flowers and value added farm products such as baked goods, jams, and jellies.

4. Farmers markets shall be certified and comply with the requirement of Chapter 10.5 Direct Marketing Requirements of Division 17 of the California Food and Agriculture Code.

5. All farmers markets shall have a market manager authorized to direct the operations of all vendors participating in the market on site during hours of operation. Farmer's market managers shall obtain and have on site all operating and health permits during hours of operation.

[Return to Municipal Code Contents]

6. Operating rules, hours of operation, and maintenance and security requirements shall be submitted for review to the satisfaction of the Community Development Director.

D. Parades (added by Ord. MC-1414, 7-06-15)

1. Definition of parade: "Parade" means a march, procession or athletic event consisting of people, animals, vehicles, or any combination thereof, on any City street, sidewalk, alley or other public right-of-way, which interferes with the normal flow of pedestrian or vehicular traffic or does not comply with traffic laws or controls.

The definition of parade does not include the following:

- A. Funeral processions.
- B. Parades of forty or fewer pedestrians marching along a route which is restricted to sidewalks and crossing streets only at pedestrian crosswalks or street corners in accordance with traffic regulations and controls, provided that pedestrians participating in the parade shall cross streets in units of fifteen or fewer persons and allow vehicles to pass between such units.
- C. Parades, athletic events or other special events occurring exclusively on City property for which another type of City permit is obtained.

(Ord. MC-522, 5-20-86; Ord. 2069, 8-01-55)

2. It is unlawful for any person to conduct, manage or participate in any parade without a written permit first having been secured from the Community Development Director and the Chief of Police.
3. Interference with parade. It is unlawful for any person to knowingly join or participate in any parade in violation of any terms of the permit for the parade, join or participate in any permitted parade without the consent of the parade sponsor, or in any manner interfere with the progress or orderly conduct of the parade.

(Ord. MC-522, 5-20-86; Ord. MC-369, 5-22-84; Ord. 2069, 8-01-55)

4. Permit application procedure

[Return to Municipal Code Contents]

- A. Any person desiring to conduct a parade shall file a verified application for a permit at the office of the Community Development Department not less than ten working days nor more than six months before the date on which the parade is proposed to be conducted.
- B. If an application is filed after the filing deadline, the Community Development Director and the Chief of Police shall immediately investigate to determine if he or she has sufficient time to process the application, to investigate the effects of the parade on traffic and other conditions, and to obtain police services for the event. The applicant may demonstrate that the circumstances giving rise to the parade did not reasonable allow the participants to file for a permit within the time prescribed and that imposition of the time limitation would unreasonably restrict the right of free speech. If such a demonstration is made to the reasonable satisfaction of the Community Development Director and the Chief of Police, he or she shall issue a permit despite the lack of ten days' advance notice.

5. Contents of permit application

- A. The application for a parade permit shall provide the following information:
 - 1. The name, address, and telephone number of the applicant, the sponsoring organization, the parade chairperson, and an alternate contact person. The Community Development Director and the Chief of Police may require a written authorization from an officer of the sponsoring organization.
 - 2. A statement of the nature or purpose of the event.
 - 3. The date and the estimated starting and ending time of the parade.
 - 4. The location of the proposed parade assembly area, disbanding area, and the route proposed for the parade.
 - 5. The type and estimated number of participants, vehicles, animals, and floats. Each float shall be described in terms of its width, height, power source, and speed. The number of participants in each marching unit shall be given and any sound amplifying equipment proposed for use shall be described.
 - 6. The training and instructions to be given to parade participants, the number and location of parade monitors to be employed or utilized and arrangements for parking which will be made.

[Return to Municipal Code Contents]

6. Conditions to permit. As a condition to granting a parade permit, the Community Development Director and the Chief of Police may impose reasonable requirements concerning the time and place of the parade, the area and manner of assembling and disbanding the parade, the route and spacing of all units, the maximum length of the parade, the maximum and minimum speed, the stops permitted, accommodation of other traffic, the number and type of vehicles, levels of sound amplification and other requirements found necessary for the protection of persons and property and for control of traffic.
7. Issuance or denial of permit. In accordance with standards uniformly applied to similar conditions, the Community Development Director and the Chief of Police shall issue the permit conditioned upon the applicant's written agreement to comply with any terms of the permit, unless the permit is denied on any of the following grounds:
 - A. An application received prior in time has been approved for the same time and place requested by the applicant or at a time and place so close as to cause undue traffic congestion or exceed the ability of the City to provide police and other services for both events.
 - B. The time, route, or size of the event will substantially interrupt the safe and orderly movement of traffic in contiguous areas or will disrupt the use of streets at a time of usual traffic congestion.
 - C. The concentration of persons, animals and vehicles for parade purposes will prevent proper police, fire, or ambulance service to contiguous areas/
 - D. The parade is of a size or nature that requires a diversion of so great a number of police officers to police the line of march and contiguous areas that it will prevent reasonable police protection to the remainder of the City.
 - E. The location of the parade will substantially interfere with construction or maintenance work scheduled upon or along the City streets or will interfere with a previously granted encroachment permit.
 - F. The time, route and size of the parade will unreasonably disrupt the movement of other traffic.
 - G. Information contained in the application or any supplemental information furnished is found to be intentionally false in any material detail or the applicant fails to complete the application after having been notified of additional information that is required.

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- H. The applicant fails or refuses to comply with any condition reasonably imposed on the granting of the permit in order to ensure the safety of event participants, members of the Police Department or the public, or to ensure the orderly flow of traffic, or to avoid the likelihood of harm to public or private property, provided that nothing in this section authorizes the Chief of Police to impose conditions which unreasonably interfere with the right of free speech.

(Ord. MC-522, 5-20-86)

- 8. Alternative to denial: When the grounds for denial of an application can be corrected by altering the date, time, duration, route, or location of the event, the Community Development Director and the Chief of Police shall, instead of denying the application, conditionally approve the application upon the applicant's acceptance of conditions of permit issuance. The conditions imposed shall provide only for such modifications of the applicant's proposal as are necessary to achieve compliance with Section 12.56.070
- 9. Appeal
 - A. Any applicant aggrieved by the decision of the Community Development Director and the Chief of Police with reference to the issuance, conditional issuance or denial of a permit, may appeal to the Common Council in accordance with the provisions of Chapter 2.64.
 - B. If there is insufficient time for a timely appeal to be heard by the Common Council prior to the date on which the event is scheduled, the applicant may, at his or her option, request an appeal before the city Manager. The City Manager, or his or her designee, shall hold a hearing no later than two business days after the filing of the appeal, and will render his or her decision no later than one business day after hearing the appeal. If the appeal is heard before the City Manager, the City Manager's decision shall be final. The City Manager may impose any conditions upon approval which the Chief of Police could have imposed.
- 10. Contents of Permit. In each permit, the community Development Director and the Chief of Police shall prescribe:
 - A. The date, time, route or location;
 - B. Conditions concerning time and place of assembly start, finish, and disbanding of the parade;

[Return to Municipal Code Contents]

[Return to Title 19 Contents]

- C. Conditions concerning accommodation of pedestrian or vehicular traffic, spectators, and the portion of streets to be traversed;
 - D. Requirements for first aid or sanitary facilities;
 - E. Requirements for use of event monitors and provision of notice of permit conditions to event participants;
 - F. Restrictions on the number and type of vehicles, animals, or structures in the parade and inspection of floats, structures, and decorated vehicles for fire safety.
 - G. Compliance with animal protection ordinances and laws;
 - H. Requirements for sanitary facilities, clean-up and restoration of City property;
 - I. Restrictions on use of amplified sound; and
 - J. Such other requirements as are found to be reasonably necessary for the protection of persons and property.
11. Revocation of Permit. Any permit for a parade issued pursuant to this Chapter may be summarily revoked by the City Manager or Mayor and Common Council at any time or by the Chief of Police on the date of the parade when by reason of a present or prospective disaster, riot, public calamity, or other emergency, it is determined that the safety of persons or property requires such revocation. When any permit is revoked pursuant to the provisions of this Chapter, the permit shall be reinstated as soon as the conditions constituting the emergency have abated.

(Ord. MC-522, 5-20-86)

12. Deposit – Barricades. The sponsor of an event desiring use of barricades shall be required to provide a deposit prior to the issuance of the parade permit. The deposit shall be in the amount established by resolution adopted by the Mayor and Common Council.

(Ord. MC-588, 4-22-87; Ord. MC-522, 5-20-86)

13. Indemnification Agreement. Prior to the issuance of a parade permit, the permit applicant and authorized officer of the sponsoring organization, if any, must sign an agreement which shall provide that the permittee/sponsoring organization shall defend the City against, and indemnify and hold the City harmless from, any liability to any persons resulting from any damage or injury

[Return to Municipal Code Contents]

occurring in connection with the permitted event proximately caused by the actions of the permittee/sponsoring organization, its officers, employees or agents, or any person who was under the permittee's/sponsoring organization's control insofar as permitted by law. Persons who merely join in a parade are not considered by that reason alone to be "under the control" of the permittee sponsoring organization.

14. Insurance.

- A. The applicant/sponsor of a parade must possess or obtain public liability insurance to protect against the loss from liability imposed by law for damages on account of bodily injury and property damage arising from the parade. Such insurance shall name on the policy or by endorsement as additional insureds the City of San Bernardino, its officers, employees, and agents. Insurance coverage must be maintained for the duration of the event.
- B. Coverage shall be comprehensive general liability insurance policy. The minimum limits required shall be one million dollars for each occurrence of bodily injury and two hundred fifty thousand dollars for each occurrence of property damage.
- C. If food or non-alcoholic beverages are sold or served at the parade, the policy must also include an endorsement for products liability in an amount of not less than five hundred thousand dollars. If alcoholic beverages are sold or served at the parade, the policy must also include an endorsement for liquor liability in an amount of not less than five hundred thousand dollars.
- D. A copy of the policy or a certificate of insurance along with all necessary endorsements must be filed with the Director of Human Resources not less than five days before the date of the parade unless said Director for good cause waives the filing deadline. The parade permit shall not be issued by the Community Development Director and the Chief of Police until after the insurance policy or certificate of insurance along with necessary endorsements have been filed by the applicant/sponsor and approved by said Director.
- E. The insurance requirements of subsections A and B above shall be waived by the Chief of Police for parades if the following conditions are satisfied:

1. The applicant or an officer of the sponsoring organization signs a verified statement that he or she believes the parade's purpose is First Amendment expression, and that he or she has determined that the cost of obtaining insurance is so financially burdensome that it would constitute an unreasonable burden on the right of First Amendment expression, or that it has been impossible to obtain insurance coverage. The statement shall include the name and address of one insurance agent or other source of insurance coverage contacted to determine insurance premium rates for insurance coverage.

(Ord. MC-1027, 9-09-98; Ord. MC-522, 5-20-86)

15. Penalties. Any person violating any provision of this Chapter is guilty of an infraction, which upon conviction thereof, is punishable in accordance with the provisions of Section 1.12.010 of this Code. Criminal prosecution for a violation of this Chapter does not preclude the City from pursuing any available civil remedies arising from any activity regulated by this Chapter.

(Ord. MC-522, 5-20-86)

F. Cannabis Special Events

1. The applicant shall submit a Special Event application form to the City of San Bernardino with all required supplemental information including:
 - a) A site plan detailing the layout of the event according to the submittal requirements checklist contained in the application.
 - b) A Certificate of Liability insurance in the amount of a minimum of \$2,000,000, naming the City of San Bernardino as additional insured and in accordance with the submittal requirements checklist contained in the application.
 - c) A copy of the organizer's Cannabis Event Organizer License issued by the Bureau of Cannabis Control.
 - d) An emergency response and evacuation plan.

[Return to Municipal Code Contents]

- e) A traffic management plan that includes management of City sidewalks and public rights-of-way within a ¼ mile radius of the National Orange Show. The traffic management plan shall contain a parking plan, and a map of any off-site parking for the event that includes property owner authorization for any off-site parking and information detailing how attendees will get to the event site from the off-site parking area.
 - f) A waste management plan including a ¼ radius around the National Orange Show fairgrounds. The area included in the waste management plan shall be free of debris, litter, or any other evidence of the event within 24 hours of the end of the event.
2. The applicant shall obtain a Temporary Cannabis Event License through the California Department of Consumer Affairs, Bureau of Cannabis Control and comply with all regulations in Chapter 5 (Cannabis Events) of the California Code of Regulations, Title 16, Division 42.
 3. The applicant shall pay all fees to ensure the City obtains full cost recovery for all staff, including Planning, Public Safety, Public Works and Legal Counsel.
 4. The applicant shall make a payment of an event fee in the amount of \$7.50 per ticket estimated to be sold, to be remitted to the City of San Bernardino 14 days prior to the event date. The fee shall be calculated by the estimated attendance number plus an additional 25% of the total. After the event, the applicant shall provide proof of final ticket sales and this fee will be adjusted accordingly.
 5. The applicant shall notify property owners within a 500 foot radius of the event, by mail, 14 calendar days prior to said event, using for this purpose the last known name and address of such owners as shown upon the current tax assessor's records. Notice is deemed received two days after date of postmark. The list of property owners and tenant addresses shall be typed upon gummed labels, together with required postage. The list shall be prepared and certified by the applicant, or a title insurance company, civil engineer or surveyor licensed to practice in California. The notice shall state the nature of the event, location of the property (text or diagram), the date, time, and place of the scheduled event.
 6. The applicant for a Cannabis Special Event must submit a separate event application to the San Bernardino County Fire Department for review. A Cannabis Special Event must comply with all San Bernardino County Fire Department regulations.

[Return to Municipal Code Contents]

7. The applicant must provide complete list of vendors with proof of licensure 14 days prior to the event date. All vendors must also obtain a Temporary Business License through the City of San Bernardino Finance Department, Business Registration Division.
8. A cannabis event shall not commence before 12:00 pm on any day, and shall not end later than 10:00 pm on any day. A cannabis event may not run for more than 4 consecutive days.
9. The applicant shall be responsible for reimbursement costs to the City of San Bernardino for “ extraordinary law enforcement services” generated by the event. Extraordinary law enforcement services are those defined under the San Bernardino Municipal Code 8.82.
10. The use of A-frames, animated, moving, flashing, blinking, reflecting, revolving, or any similar signage is not permitted off-site. Signs/banners shall not be posted on the sidewalks, landscape areas, light poles, street signs, trees, etc. off-site. Banners may be attached to the fence.
11. The applicant must sign an acceptance of conditions agreement upon receipt of the permit approval letter.
12. No more than four Cannabis Special Events shall be permitted in any 12 month period, and no applicant may apply for more than one Cannabis Special Event permit in any 12 month period.

(Ord. MC-1519, 7-17-19)

19.70.040 Application and Permit Issuance

- A. General. A Temporary Use Permit or Special Event Permit shall be required prior to commencement of any use listed in Sections 19.70.020 and 19.70.025. A Temporary Use Permit or Special Event Permit may be approved, modified, conditioned, or denied by the Director, or the Director may refer such application to the Commission. Decisions of the Director may be appealed to the Commission pursuant to Chapter 19.52 (Hearings and Appeals).

All events associated with any Temporary Use Permit or Special Event Permit shall operate in compliance with all of the conditions associated with the Temporary Use Permit or Special Event Permit.

A copy of the approved Temporary Use Permit or Special Event Permit, along with the associated conditions, shall be in the possession of the person in charge during the event. Such copies shall immediately be presented to any City enforcement official upon request for examination.

Submittal Requirements (all applications).

1. A completed application form and Notarized property owner's authorization shall be provided.
2. Flame resistance certificate and specifications for tents/canopies.
3. List of all vendors and type of service provided.
4. All applicable fees, including any cleanup deposit, shall be provided.

B. Temporary Use Permit Applications.

1. Time to submit - A completed application form and fees shall be submitted no less than 10 working days from the date of the beginning of the proposed use (bereaved families submitting an application for a TUP, such as a fund-raising car wash, may submit an application at least five days in advance of the proposed event).
2. Review procedures - Upon receipt of a completed application and all related fees, the Community Development Department shall review and approve, modify, condition or deny the application. Note that review by outside agencies (i.e., the Fire Department or County Health Department) may be required.

C. Special Event Permit Applications.

1. Time to submit - A completed application form and fees shall be submitted no less than 30 working days from the date of the beginning of the proposed use.

Ord. MC-1414, 7-06-15

2. Review procedures - Upon receipt of a completed application and all related fees, the Community Development Department shall route the application to all applicable outside agencies responsible for reviewing the application (i.e., Police, Fire, County Health Department, etc.). Upon obtaining proof that all requirements of all outside reviewing agencies are met, the Community Department shall review and approve, modify, condition or deny the application.

[Return to Municipal Code Contents]

3. If off-site parking is required, the applicant shall provide proof from the owners of the properties on which the parking will be provided that the parking spaces to be used are not required parking spaces, or that the parking spaces used in conjunction with the special event will not be used during normal business hours. Additionally, the applicant shall provide a plan for shuttles or other means to ensure the safe passage of event attendees between the off-site parking spaces and the event.

19.70.050 Findings

Standards for floor areas, heights, landscaping, parking, setbacks, and other structure and property development standards that apply to the category of use or the land use district of the subject site shall be used as a guide for determining the appropriate development standards for a temporary use. All activities shall be limited to their specified land use districts. A Temporary Use Permit or Special Event Permit may only be issued for activities allowed in the underlying land use district.

The Director may approve or conditionally approve a Temporary Use Permit or Special Event Permit application only when all the findings contained in Section 19.36.050 (Conditional Use Permits) are made.

19.70.060 Conditions of Approval

In approving an application for a Temporary Use Permit or Special Event Permit, the Director may impose conditions deemed necessary to ensure that the permit will be in accordance with the findings required by Section 19.36.050. These conditions may involve any pertinent factors affecting the operation of such temporary event, or use, and may include, but are not limited to:

1. Provision for a fixed period not to exceed 90 days for a temporary use not occupying a structure, including promotional activities, or 1 year for all other uses or structures, or for a shorter period of time as determined by the Director or as specified in this Chapter. Food carts and produce stands may be permitted for one year initially, and renewed annually, subject to verification of compliance with conditions of approval and County permit requirements, as applicable.
2. Provision for temporary parking facilities, including vehicular ingress and egress and any necessary shuttles or other means to ensure safe passage of event attendees from off-site parking areas to the event. The use of off-site private parking lots overflow parking may only occur if there is a demonstrated need for the additional parking and that the additional parking spaces are not required parking spaces, or the business(es) providing the parking will be closed when the parking spaces are to be used in conjunction with the temporary or special event;

3. Regulation of nuisance factors such as, but not limited to, prevention of glare or direct illumination or drainage on adjacent properties, noise, vibration, smoke, dust, dirt, odors, gases, and heat;
4. Regulation of temporary structures and facilities, including placement, height and size, location of equipment and open spaces, including buffer areas and other yards;
5. Provision for sanitary and medical facilities, including toilet facilities;
6. Provision for solid, hazardous and toxic waste collection, including receptacles for trash and recyclables, and disposal;
7. Provision for security and safety measures, including fencing and lighting;
8. Standards for maintenance and upkeep, including irrigation and cutting of plant materials;
9. Regulation of signs;
10. Regulation of operating hours and days, including limitation of the duration of the temporary use, as outlined in Condition No. 1;
11. Submission of a performance bond or other surety devices, satisfactory to the City Engineer, to ensure that any temporary facilities or structures used will be removed from the site within a reasonable time following the event and that the property will be restored to its former condition;
12. Submission of a site plan indicating any information required by this Chapter;
13. A requirement that the approval of the requested Temporary Use Permit or Special Event Permit is contingent upon compliance with applicable provisions of the Municipal Code; and
14. Any other conditions which will ensure the operation of the proposed temporary use in an orderly and efficient manner and in accordance with the intent and purpose of this Chapter.

19.70.070 Condition of Site Following Temporary Use

Each site occupied by a temporary use shall be left free of debris, litter, or any other evidence of the temporary use upon completion or removal of the use, and shall thereafter be used, pursuant to the provisions of this Development Code. A bond or cash deposit for the amount of \$1,000 shall be deposited with the City for operations that

[Return to Municipal Code Contents]

occur on vacant or undeveloped sites, to ensure cleanup after the activity is finished. A performance security may be required for other proposed temporary uses prior to the commencement of such activities to ensure cleanup after those activities.

19.70.080 Revocation

A Temporary Use Permit or Special Event Permit may be revoked or modified by the Director if any one of the following findings can be made:

1. That circumstances have changed so that one or more of the findings of fact contained in Section 19.36.050 can no longer be made;
2. That the Temporary Use Permit or Special Event Permit was obtained by misrepresentation or fraud;
3. That one or more of the conditions of the Temporary Use Permit or Special Event Permit have not been met; and
4. That the use is in violation of any statute, ordinance, law, or regulation.

CHAPTER 19.72 VARIANCES

Sections:

- 19.72.010 Purpose
- 19.72.020 Application
- 19.72.030 Applicability
- 19.72.040 Hearings and Notice
- 19.72.050 Findings
- 19.72.060 Precedents
- 19.72.070 Burden of Proof
- 19.72.080 Variance Expiration
- 19.72.090 Time Extension
- 19.72.100 Use of Property Before Final Decision
- 19.72.110 Revocation

19.72.010 Purpose

These provisions shall ensure the following:

1. Variances from the terms of this Development Code shall be granted only when, because of special circumstances applicable to the property, including size, shape, topography, location or surroundings, the strict application of this Development Code deprives such property of privileges enjoyed by other property in the vicinity and under identical zones;

Ord. MC-1393, 12-02-13
2. Any Variance granted shall be subject to such conditions as will assure that the adjustment thereby authorized shall not constitute a grant of special privilege(s) inconsistent with the limitations upon other properties in the vicinity and zone in which such property is situated; and
3. The power to grant Variances does not extend to use regulations. Flexibility in use regulations is provided in the Conditional Use Permit provisions of this Development Code.
4. Modifications from the permissive requirements of the Design Guidelines are not subject to a variance.

19.72.020 Application

Application for a Variance shall be filed in a manner consistent with the requirements contained in Chapter 19.32 (Applications and Fees).

19.72.030 Applicability

The Commission may grant a Variance from the requirements of this Development Code governing only the following matters:

1. Permit the modification of the dimensional standards of the following:
 - A. Distance between structures
 - B. Lot area
 - C. Lot coverage
 - D. Lot dimensions
 - E. Setbacks
 - F. Structure heights
2. Permit the modification of sign regulations;
3. Permit the modification of the number and dimensions of parking area or loading space requirements; and
4. Permit the modification of subdivision access route standards pursuant to Section 19.30.200 (6).

Ord. MC-902, 4-19-94

19.72.040 Hearings and Notice

Upon receipt in proper form of a Variance application, a public hearing shall be set and notice of such hearing given in a manner consistent with Chapter 19.52 (Hearings and Appeals).

19.72.050 Findings

Following a public hearing, the Commission shall record the decision in writing and shall recite therein the findings upon which such decision is based, pursuant to Section 65906 of the Government Code. The Commission may approve and/or modify an application in whole or in part, with or without conditions, only if all of the following findings are made:

1. That there are special circumstances applicable to the property, including size, shape, topography, location or surroundings, the strict application of this Development Code deprives such property of privileges enjoyed by other property in the vicinity and under identical zone;
2. That granting the Variance is necessary for the preservation and enjoyment of a substantial property right possessed by other property in the same vicinity and zone and denied to the property for which the Variance is sought;
3. That granting the Variance will not be materially detrimental to the public health, safety, or welfare, or injurious to the property or improvements in such vicinity and zone in which the property is located;
4. That granting the Variance does not constitute a special privilege inconsistent with the limitations upon other properties in the vicinity and zone in which such property is located;
5. That granting the Variance does not allow a use or activity which is not otherwise expressly authorized by the regulations governing the subject parcel; and
6. That granting the Variance will not be inconsistent with the General Plan.

Ord. MC-1393, 12-02-13

19.72.060 Precedents

The granting of a prior Variance is not admissible evidence for the granting of a new Variance.

19.72.070 Burden of Proof

The burden of proof to establish the evidence in support of the findings, as required by Section 19.72.050, is the responsibility of the applicant.

[\[Return to Municipal Code Contents\]](#)

19.72.080 Variance Expiration

A Variance shall be exercised within one year from the date of approval, or the Variance shall become null and void.

Any previously approved Variance that had not expired as of September 13, 1993, shall be extended by two years. This automatic extension of time is a one-time extension from September 13, 1993, and is in addition to the time granted under the initial approval of the Variance or any subsequent approval of an extension of time.

Ord. MC-895, 1-26-94

19.72.090 Time Extension

The Commission may, upon an application being filed 30 days prior to expiration and for good cause, grant a time extension not to exceed 12 months. Upon granting of an extension, the Commission shall ensure that the Variance complies with all current Development Code provisions.

19.72.100 Use of Property Before Final Decision

No permit shall be issued for any use involved in an application for approval of a Variance until, and unless, the same shall have become final, pursuant to Section 19.52.080 (Effective Date).

19.72.110 Revocation

The Commission may hold a public hearing to revoke or modify a Variance granted pursuant to the provisions of this Chapter. Ten days prior to the public hearing, notice shall be delivered in writing to the applicant and/or owner of the property for which such Variance was granted. Notice shall be deemed delivered two days after being mailed, first class postage paid, to the owner as shown on the current tax rolls of the County of San Bernardino, and/or the project applicant.

A Variance may be revoked or modified by the Commission if any one of the following findings can be made:

1. That circumstances have changed so that one or more of the findings contained in Section 19.72.050 can no longer be made, and the grantee has not substantially exercised the rights granted by the Variance;
2. That the Variance was obtained by misrepresentation or fraud;
3. That the improvement authorized pursuant to the Variance had ceased or was suspended for six or more consecutive calendar months;
4. That one or more of the conditions of the Variance have not been met, and the grantee has not substantially exercised the rights granted by the Variance;
5. That the improvement authorized pursuant to the Variance is in violation of any statute, ordinance, law, or regulation; and
6. That the improvement permitted by the Variance is detrimental to the public health, safety, or welfare or constitutes a nuisance.

CHAPTER 19.74 ZONING MAP AMENDMENTS

Sections:

- 19.74.010 Purpose**
- 19.74.020 Hearings and Notice**
- 19.74.030 Commission Action on Amendments**
- 19.74.040 Council Action on Amendments**
- 19.74.050 Findings**

19.74.010 Purpose

The Council may amend the Official Land Use Zoning District Map, herein referred to as the “Zoning Map” of the City of San Bernardino whenever required by public necessity and general welfare.

19.74.020 Hearings and Notice

Upon receipt in proper form of a Zoning Map Amendment application, or direction of the Council, and following Department review, hearings shall be set before the Commission and Council. Notice of the hearings shall be given pursuant to the requirements of Chapter 19.52 (Hearings and Appeals).

19.74.030 Commission Action on Amendments

The Commission shall make a written recommendation on the proposed amendment whether to approve, approve in modified form or disapprove, based upon the findings contained in Section 19.74.050.

Commission action recommending that the proposed amendment be approved, approved in modified form, or denied shall be considered by the Council following Commission action.

19.74.040 Council Action on Amendments

Upon receipt of the Commission's recommendation, the Council may approve, approve with modifications, or disapprove the proposed amendment based upon the findings contained in Section 19.74.050. Amendments to the Zoning Map shall be adopted by ordinance.

19.74.050 Findings

An amendment to the Zoning Map may be adopted only if all of the following findings are made:

1. The proposed amendment is consistent with the General Plan;
2. The proposed amendment would not be detrimental to the public interest, health, safety, convenience, or welfare of the City;
3. The proposed amendment would maintain the appropriate balance of land uses within the City; and
4. The subject parcel(s) is physically suitable (including, but not limited to, access, provision of utilities, compatibility with adjoining land uses, and absence of physical constraints) for the requested land use designation(s) and the anticipated land use development(s).

**CITY OF SAN BERNARDINO
DEPARTMENT OF PUBLIC WORKS
TRAFFIC DESIGN POLICIES AND PROCEDURES
Issue Date June 30, 1991**

DIVISION I	AUTHORITY
DIVISION II	DESIGN CRITERIA
DIVISION III	GUIDELINES AND FORMAT FOR REPORTS
DIVISION IV	GUIDELINES AND FORMAT FOR PLANS
DIVISION V	REVIEW AND APPROVAL
DIVISION VI	CHECKLIST

DIVISION I — AUTHORITY

This policy paper is prepared to serve as a guide for the preparation of traffic reports, traffic related improvement plans and to assist the developer in preparing information and plans that meet the criteria of the City of San Bernardino.

It does not replace the Standard Drawings and is not intended to be all inclusive. It provides the minimum level expected on a project, but all projects must be based on sound engineering judgement and be acceptable to the Director of Public Works/City Engineer.

Authority for the traffic policy is contained in the City of San Bernardino municipal Code in the following sections:

- Section 2.14
- Section 3.26
- Title 10
- Title 12
- Development Code

In addition to the above, the City of San Bernardino has adopted a General Plan with the Circulation Element, area plans, overlay zoning, the "Standard Specifications for Public Works Construction" (Green Book), Caltrans Standard Specifications and its own Standard Drawings for Public Works Improvements. Also, the City uses as a standard reference the Manual of Uniform Traffic Control Devices, the ITE Trip Generation Report, the ITE Parking Report, Caltrans Traffic Design Manual, 1985 Highway Capacity Manual, AASHTO manuals, WATCH manual, CAPSSI and PASSER programs and its own transportation planning program, based on TRANPLAN.

The referenced code sections also refer to many varied resolutions and ordinances adopted by the Mayor and common Council in which fees are established, including a traffic systems fee, for services or-impacts.

This authority is established as the minimum requirement of the City of San Bernardino with all material subject to the review and approval of the Director of Public Works/City Engineer for conformance to acceptable design practices and sound engineering judgement. All plans and reports must receive approval of the Director of Public Works/City Engineer prior to approval of the project and for the recordation of any maps.

DIVISION II – DESIGN CRITERIA

A. Design

- 1 Street widths shall be per the adopted City Standards and Circulation Element of the Master Plan of Streets.
- 2 City standard travel lane widths should be as follows:

a	Traffic Lane on arterial or collector	12 feet
b	Traffic Lane on arterial or collector adjacent to curb	14 feet
c	Traffic Lane on residential street	10 feet
d	Left Turn Lane	12 feet
e	Two-way Turning Lane	12 feet
f	Parking Lane	8 feet
- 3 The minimum acceptable lane width in the City shall not be less than 10 feet unless written approval is obtained from the Director of Public Works/City Engineer.
- 4 In areas where there is a raised median island, no openings shall be permitted in the median other than at street intersections. Medians are established for the control of traffic.
- 5 Transitions between differing curb widths or as required for pavement joints shall conform with standard Caltrans computational methods as detailed in Section 6-25 of the Caltrans Design Manual.
- 6 Sight distance at intersections shall be as detailed in Ordinance MC-783 and per Exhibit "A". No fencing, planting materials or obstructions that cause a sight obstruction of any kind will be permitted to be over 30 inches high, as measured from the flow line of the curb and gutter, in the front or side yard setback area - or in the sight distance areas as detailed in Exhibit "A1.
- 7 Plantings or signs in median islands must be checked for visual obstructions resulting from temporary alignment of the proposed improvements.

B. Traffic Reports

As a part of the project review process, the Environmental Review Committee or the Development Review Committee may identify concerns for the need for a traffic study and report. The Traffic

Engineer under the authority of the Director of Public Works/City Engineer will make the final decision on the need for a traffic study or report as a condition of the development. These reports are made necessary by the size, configuration or impact of the proposed development.

Listed below are some basic criteria that may be used to assess the probability of having to complete a traffic report as a part of the project review process. It is not a complete or exhaustive list, but is intended to give guidelines as to when such an extensive report is to be prepared and to assist in the development of such a report by indicating the necessary components of the submitted report.

1 General Criteria

- a Any project that adds more than 10% additional trips to the adjacent street system at full build out of the project. No allowance will be made for attraction or capture trip ends.
- b Any project that generates more than 500 daily trip ends residential, or 1000 trip ends commercial or industrial, as determined by the average trip rate as contained in the ITE Trip Generation Report.
- c Any project that has the potential to degrade the existing street system or signal system to level of service D or lower during peak hour using operational analysis on any selected movement.
- d Any project that generates more than 40% of its total traffic in the form of truck traffic.
- e Any project that intensifies the usage of the site above the level currently allowed by zoning codes and requires a CUP, zone change or other discretionary permit.
- f Any project that has a peak hour volume exceeding 75 trip ends.

2 Report Contents

Traffic Reports submitted for review and approval must contain the following items as a minimum:

- a Total number of trips anticipated from the project based on the average trip generation rates as contained in the ITE Trip Generation Report for total build out of the project.

- b Project traffic on the adjacent street system projected for five (5) years or to project build out, whichever is longer.
- c Traffic projections on the adjacent street system for both the project and "normal" background growth (5.0% per year or as detailed in the General Plan) with consideration to approved projects for the specific area.
- d Traffic projections shall include the additional impact of undeveloped land within 1,500 feet or as detailed in the General Plan.
- e Impacts on adjacent intersections using an intersection capacity analysis.
- f Trip distribution and assignment analysis with justification on the percentages for directional travel and/or turning movements.
- g Analysis of pedestrian movement and/or generation and need for additional crossings or facilities.
- h Parking requirements and information on peak loading of the transportation network if applicable.
- i Existing and proposed signal phases, progression and/or coordination.
- j Traffic counts. Traffic counts must be current (within one year) and must be machine counts of suitable length for analysis of the project.
- k Recommendations and conclusions of the report with the proposed mitigation measures listed in priority order.
- l Signal warrants shall be established using existing traffic at the intersection plus the project traffic, using a minimum of an 8-hour actual count at the intersection.

DIVISION III – GUIDELINES AND FORMAT FOR REPORTS

A. Reports

Generally, traffic reports will be submitted under separate cover in an acceptable 8-1/2 x 11 inch format. Reports are generally typewritten with diagrams for traffic distribution assignment or intersection analysis. The report needs to be properly identified and related to the project by

reference to the Review of Plan Number, Tract Number, CUP number, Parcel Map, variance or other identifying City reference numbers in addition to the project description.

The report must be signed by a Registered Civil Engineer and carry the seal and original signature of the engineer preparing the report and taking responsibility for the information contained therein.

A preliminary review with the City Traffic Engineer is encouraged. Focused reports may be justified but must be coordinated with the City Traffic Engineer on larger projects or those that wish to use the Tranplan model.

In general, the following should be included in the report:

- a Identification of project and reference to city identification numbers such as CUP, RP or Tract.
- b Seal and original signature of engineer preparing report and taking responsibility for the report.
- c Executive summary of the project and report contents. This should be one half page or less.
- d Identification of existing traffic and transportation system and level of service.
- e Traffic to be generated by development.
- f Projected background growth and combined total of growth plus development with level of service listed for intersections.
- g Identified impacts on transportation system from any source. Identify degradation of system below level of service C.
- h Mitigation measures recommended to address impacts of the development or development plus background growth.
- i Conclusion which covers the alternatives of no project, project with existing traffic and project with existing traffic and background growth.
- j Submittal shall be made to the Director of Public works/City Engineer. Three copies of drafts shall be submitted. Three copies of the final report shall be submitted after

- notification by the Traffic Engineer that the report is acceptable.
- k All backup data used in the preparation of the report shall be included in the submittals.
- l A listing of all assumptions used in the report with special identification of any unusual conditions from the project or area identified.

DIVISION IV – GUIDELINES AND FORMAT FOR CONSTRUCTION PLANS

- 1 Sheet size is 24 x 36 inches.
 - 2 Plan to show the following (minimum)
 - a Vicinity Map
 - b North Arrow
 - c Scale
 - d Existing improvements and proposed signing marking and signal improvements.
 - e Legend - Topo and Construction
 - f General Notes
 - g Engineer's Signature
 - h License number and expiration date
 - i Details
 - j Stationing and Dimensions.
 - 3 Submit 2 sets of plans for checking
- C General Notes (on all Plans)**
- 1 All work shall be in accordance with the Standard Specifications for Public Works Construction (Green Book), latest edition, with all supplements and City of San Bernardino Standard Drawings.
 - 2 Approval of this plan by the City of San Bernardino does not constitute a representation as to the accuracy of the location or of the existence or nonexistence of any underground utility pipe or structure within the limits of this project. The Contractor shall assume full responsibility for the protection of all utilities within the limits of the project. Contractor shall contact Underground Service Alert 48 hours prior to start of work.

- 3 Inspection shall be by the City of San Bernardino Department of Public Works. All requests for inspection shall be made at least 24 hours in advance of the proposed construction.
- 4 All existing pavement markings that are being relocated or removed shall be removed by sand blasting. No black-over painting of lines is permitted in the City.
- 5 During the period of construction, the Contractor shall furnish, erect and maintain such warnings, signs, stop signs, barricades and other safety measures in conformance with the W.A.T.C.H manual or other City reference manuals listed.

D Additional notes that may be used as warranted by specific projects.

- 1 The Contractor shall provide safe and continuous passage for local pedestrian and vehicular traffic at all times.
- 2 Should any of the existing utilities, or any other facilities, conflict with the proposed improvement the Contractor shall notify the Engineer and await the relocation and/or provide an alternate design.
- 3 The Contractor shall so conduct his operations as to offer the least possible obstruction and inconvenience to the public.
- 4 In accordance with generally accepted construction practices, the Contractor shall be solely and completely responsible for conditions of the job site, including safety of all persons and property during performance of the work and the Contractor shall fully comply with all state and Federal laws, rules, regulations, and orders relating to safety to the public and workmen.
- 5 Dust shall be controlled at all times by approved methods.
- 6 Public streets shall be kept clean and free from dirt and/or debris. The Contractor shall be responsible for all costs incurred in street cleaning necessitated by his operations.
- 7 Full street closure will not be permitted unless prior written approval is obtained from the Director of Public Works/City Engineer. Detour plans must be submitted for approval for all street closures and may be required for other types of detours under some circumstances. 48 hour notice will be required to the City and affected property owners prior to any closure.

- 8 On arterial streets, all full lane closures will require submittal of detour plans and/or signing plans with prior written approval by the Director of Public Works/City Engineer.

E Notes to Traffic Striping Plan.

- 1 Materials shall comply with Sub. Sec. 210-1.6, "Paint for Traffic Striping, Marking and Curb Marking", of the Standard Specification for Public Works Construction (Greenbook) latest edition or equal supplement.
- 2 Traffic Paint shall be Fast Dry, Solvent Borne, Low Volatile Organic Compound (VOC) 250 unless otherwise specified.
- 3 Thermoplastic paint when specified shall be ReflectORIZED Alkyd.
- 4 New striping applications shall be done in two (2) coats.
- 5 Traffic control shall be according to the Work Area Traffic Control Handbook (WATCH) manual latest edition.
- 6 Raised Pavement Markers (RPM) when specified shall be consistent with CALTRANS Standard Specification Sec. 85, "Pavement Markers", latest edition.

Any such additional notes that may be required for the completion of the plans and construction.

DIVISION V -- REVIEW AND APPROVAL

Reports or plans shall be submitted to the Department of Public Works for review and approval. Plans and reports need to be submitted in a timely manner to insure adequate review and comment prior to Environmental Review, Development Review or submission to the Planning Commission or Mayor and Common Council.

Generally, traffic reports require a minimum of two (2) weeks of review time before the scheduled meeting. Items continued pending submission of the report still require two weeks review time. Failure of the developer or his agent to submit in a timely manner will result in the continuance of the matter to the next regular meeting.

Two copies need to be submitted for review to the Public Works Department. Additional copies may be required by other departments for file copies. Materials must be submitted to the Director of

Public Works/City Engineer and it shall be the responsibility of the City to insure the City Traffic Engineer receives his copy. Consultants may wish to discuss the traffic report or obtain information from the City Traffic Section during the preparation phase of their project. They should contact the Traffic Engineer or Traffic Engineering Section directly for information and/or design criteria.

DIVISION VI — CHECKLIST

Show on plans:

- | | |
|---|---|
| <input type="checkbox"/> Vicinity map | <input type="checkbox"/> North Arrow |
| <input type="checkbox"/> Scale | <input type="checkbox"/> Existing Improvements |
| <input type="checkbox"/> Proposed Signing | <input type="checkbox"/> Proposed Signal |
| <input type="checkbox"/> Legends | <input type="checkbox"/> General Notes |
| <input type="checkbox"/> Engineer's Signature | <input type="checkbox"/> Engineer's License No. |

| <input type="checkbox"/> Dimensions | <input type="checkbox"/> Right-of-Way |
- Street Names in conformance with approved maps
- Pavement markings in accordance with standards
- Sight distance per policy guidelines
- Intersection separation in accord with policy
- Quantities of signs and striping shown or provided
- Driveway location in relation to BCR checked
- Traffic report submitted if required
- Mitigation measures listed in report shown

FEES AND PERMITS

- Pay plan check fee
- Pay permit fee

City of San Bernardino
Department of Public Works/City Engineer
Traffic Design Policies and Procedures

Issued June 30, 1991

_____ Inspection Fee

_____ Pay mitigation fee if required

_____ Traffic Systems Fee

_____ Permit issued

_____ Other department notified

_____ Plan approved by City Engineer

NOTES:

- 1) SB = 18' at intersections
SB = 10' at driveways
(Under special conditions lesser SB. Values may be approved by Traffic Engineer)
- 2) V = Speed (MPH) = 85th Percentile i.e., prevailing speed or as determined by Traffic Engineer
- 3) S.D. = Minimum Sight Distance
- 4)

Speed (MPH)	Minimum Sight Distance (feet)
30	300
35	350
40	400
45	450
50	500
55	550
- 5) SL = Line of Sight
- 5) ///// = Area of Limited Use

- (a) There shall be no obstruction within the limited use area. Area of limited use shall be determined geophysically using appropriate distances given in the Minimum Sight Distance Table (4).
- (b) Obstructions shall include, but not be limited to, any signs or objects higher than 2.5' measured from pavement within the area of limited use. Example, block walls, utility vents, and cabinets, sign street furnitures, mature landscaping, etc.
- (c) Developer's Engineer shall evaluate and show sight lines at proposed intersections/driveways, grading plans, tentative tract maps and landscaping plans where sight distance is questionable.
- (d) Where existing sign, vegetation or objects constitute a sight distance hazard, property owner or occupant shall be notified/-required to meet minimum sight distance requirements within 15 days and maintain same thereafter.

**Refer to the City of San Bernardino Traffic Engineering Policy Paper for further detail.

SIGHT DISTANCE REQUIREMENTS AT CONTROLLED INTERSECTIONS AND DRIVEWAYS
