- There is a tab for every month (June 2022 - June 2023).

- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and equipment usage.

- Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.

- Input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.

- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

- There is a tab for every month (June 2022 June 2023).
- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and equipment usage.
- Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.
 -- input required: Case number, Date, Time, Location, and
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

- There is a tab for every month (June 2022 June 2023).
- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and
- equipment usage.

 Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.
- -- input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

			ROBOT		The San Bernardino Police Department SWAT team received a request from the California
	CASE #	22-94607	UAV	3	Highway Patrol for assistance in serving a search warrant at a location in San Bernardino. The
	CASE #	22-34007	BEARCAT	1	request was due to fortification at the property, involving a well-known Outlaw Motorcycle
			SWAT VAN		
			RIMA		Gang (OMG). This was a shooting investigation that originated with CHP on the freeway, wher
			BLUE BIRD RV		evidence was suspected to be stored at the location of the search warrant (OMG clubhouse).
			SNIPER RIFLE		The bearcat (armored vehicle) was used to transport SBPD personnel and equipment to the
			40mm launcher (single shot)		scene. The alleged crime involved an armed gunman and the bearcat was also used as an

	CACE #	22.05204	UAV	1	The San Bernardino Police Department Patrol Division investigated an armed parental
	CASE #	22-95391	BEARCAT	1	abduction. The suspect allegedly forced entry into his ex-girlfriend's house, beat her, dragged
			SWAT VAN	1	her around the house by her hair, and threatened to kill her while armed with a handgun. The
			RIMA	1	suspect fled the scene, forcibly taking their two-year-old child in common. Through
			BLUE BIRD RV		investigation the Patrol Division located the suspect at a residence where he barricaded inside

- There is a tab for every month (June 2022 June 2023).
 At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and
- equipment usage.

 Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.

 input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

- There is a tab for every month (June 2022 June 2023).
- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and equipment usage.
- Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.
- -- input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

- There is a tab for every month (June 2022 June 2023).
- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and equipment usage.
- Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.
- -- input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

- There is a tab for every month (June 2022 June 2023).
- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and equipment usage.
- Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.
 -- input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

- There is a tab for every month (June 2022 June 2023).
- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and equipment usage.
- Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.
 -- input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

- There is a tab for every month (June 2022 June 2023).
- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and equipment usage.
- Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.
- -- input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

- There is a tab for every month (June 2022 June 2023).
- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and equipment usage.
- Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.
 input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.

- There is a tab for every month (June 2022 June 2023).
- At the top of the page there is a "Monthly Recap" summarizing the months worth of munitions and equipment usage.
- Below there are 31 event entries to be filled out for any event where munitions or special equipment are used.
 -- input required: Case number, Date, Time, Location, and whether or not it was a SWAT call out.
- Data from all 12 months is added to provide a running total of usage, which updates the "new" inventory numbers. These numbers will be accurate, as long as the initial inventory numbers are accurate.
